Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.

Double √ for Prevention

Is a Flu shot needed today? _____Yes _____No
Recommendation: Annually, age ≥ 50 years or with risk factors.
Date of Pneumococcal Vaccine _____
Recommendation: At least once, age ≥ 65 years or with risk factors.
