DDC OFFICE OF COMMUNITY OUTREACH & NOTIFICATION

COMMUNITY ADVISORY NOTICE

INSTALLATION OF DISTRIBUTION WATER MAINS ON WEST 10TH ST.

PROJECT # MED-617

Borough: Manhattan

August 5, 2014

WATER SERVICE INTERRUPTION

West 10th Street
(West 10th Street from West side of 7th Avenue South to Waverly Place)

Thursday, August 7, 2014

8:30 AM FOR 8 (EIGHT) HOURS

WHY IS MY WATER BEING TURNED OFF?

The NYC Department of Design and Construction is managing the capital construction project on West 10th Street between West Street and 5th Avenue. To facilitate the installation of the 12" and 20" water mains, a water shutdown is necessary. It will occur at/or about 8:30am and last for approximately eight (8) hours. On occasion, this work may be completed earlier and water service restored.

SOME THINGS TO REMEMBER:

- The DDC recommends that you shut off the water main valve in your house/building in order to avoid problems that may occur if/when sediment enters or is released from your plumbing.
- You are asked to shut off all WATER cooled appliances, which may include air conditioners, etc.
- Once water service is returned, turn the main house valve back on and flush the system by running your faucets to sinks and tubs for a few minutes.

If you have any questions, concerns, or would like to learn more about the project, please call Diane Guskin, the Community Construction Liaison at 212-354-4905, med617ccl@gmail.com or visit the NYCDDC web site at, **website:www.nyc.gov/DDC video:www.nyc.gov/webuild**. During non-construction hours please contact New York City Government Services and Information Hotline at 311.

We appreciate your cooperation and thank you for your patience while we rebuild NYC's infrastructure.
