# Metropolitan Hospital Center
# Learn With Us

## Let's Talk About Autism
## Is there an Autism Epidemic?

**Vidya B. Gupta, MD, MPH, FAAP** will provide an overview on Autism; its prevalence, diagnosis, evaluation, and treatment. Learn about the dramatic rise in autism cases, signs and symptoms, therapies/interventions, as well as available resources and support.

Dr. Gupta is an Attending Neurodevelopmental Pediatrician at Metropolitan Hospital Center, and Professor of Clinical Pediatrics at New York Medical College.

Faculty from The Shield Institute and representatives from Autism Speaks will join us at the lecture.

**Thursday, October 3, 2013**
**12 noon — 1 PM**

Metropolitan Hospital Center
Conference Room 1B35

Light lunch will be served.

*Free event. All are welcome.*

*Metropolitan Hospital Center hosts monthly informational sessions on important health topics impacting our community. Participants have the opportunity to meet doctors and clinical experts from various areas.*
