March 18, 2016 to March 24, 2016

Dear Sunnyside Resident:

All efforts are made to schedule work for when it will have the least impact on the surrounding community, however due to the limited number of available track outages which we require for safety reasons, it is necessary to perform work on nights and weekends.

Please be advised of the following East Side Access work:

Friday, March 18th to Sunday, March 20th
There will be work from **9 p.m. Friday, March 18th to 3:30 p.m. Sunday, March 20th** to demolish portions of the existing train bridge over 48th Street.

During this period, 48th Street between Barnett and 37th Avenue will be closed to vehicular traffic. Pedestrian access will remain clear during the work.

Residents in proximity to this location may see lights in use and hear noise from this construction activity. The contractor has been directed to aim lights away from residential areas as long as it does not impact the safe execution of this work or operations of trains as they travel past. All work is being performed in conformance with the established safety standards and current regulations for noise, dust and surface vibration.

ESA Community Outreach aims to provide the most up to date information on work activities; **however the schedule of work is subject to change**.

We apologize in advance for the potential disruptions you may experience from

the ongoing work. For questions or concerns about the work, please contact the East Side Access Community Outreach team:
