GET THERE SAFELY

If you can't see the driver they can't see you

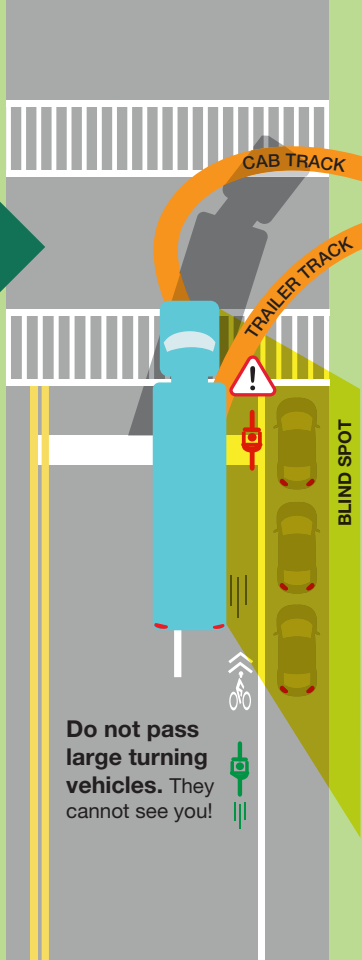
Use extra caution when passing trucks, buses, or approaching an intersection alongside a large vehicle.

Stop at all red lights and stop signs

Running a red light or stop sign puts you at risk for a serious crash, and startles pedestrians who don't see you.

Be sure to be seen when stopped

At red lights, stop to avoid the driver's blind spot – slightly ahead of a waiting vehicle.

Be aware of your surroundings


Do not wear more than one earphone while riding. Check behind you, especially changing lanes.
