1. **NRV** - Civil Penalty Override does not address the resolution of the underlying violation for Work Without a Permit. Rather, an NRV override allows an applicant to obtain a permit for work unrelated to that cited on the Work Without a Permit (WWP) violation. Where a work permit is being sought by a tenant/lessee or an owner for a commercial space that neither addresses the existing work without a permit violation, nor is it connected to the violation in any way. The permit being sought must be to the benefit of an occupant not cited in the notice of violation. For residential spaces this applies only to condominium or cooperative owners for work inside individual units where the notice of violation was issued for a shared common space.
