Data Sources and Technical Notes

Demographics

Source: Claritas, The Nielsen Company, Inc. using 2007 population projections based on U. S. Bureau of the Census data.

Abuse and Neglect

Source: CONNECTIONS

Notes:

Number of Abuse/Neglect Investigations is the total number of abuse/neglect investigations conducted by ACS in CY 2010. This count excludes reports which have been consolidated into one investigation according to criteria established by the New York State Office of Children and Family Services.

Abuse/Neglect Indication rate is the percent of reports that have credible evidence of abuse or neglect determined upon investigation.

Victimization Rate is the number of distinct children 17 and under with indicated reports divided by the number of children 17 and under in the population (NYC/Borough/CD) multiplied by 1,000.

Individual cases of abuse/neglect frequently include several allegations of child maltreatment. Therefore, the total number of allegations will exceed the total number of their respective cases.

Repeat Indicated Investigations in Six Months is the percent of cases with indicated investigations closed during 2009 which were followed by another indicated investigation within six months. A case is said to have an indicated repeat investigation if any one of the children, including children with no role, had an indicated repeat investigation within six months of the close of the initial investigation.

Notes:

Children with One or More Transfers During Current Foster Care Stay is based on the number of children in care at least a day during CY 2010.

Placements

Source: CCRS/WMS and CONNECTIONS

Placement information is based on admissions to foster care in CY 2010.

Placement Rate is the number of children 17 years of age and under placed into foster care divided by the number of children 17 and under in the population (NYC/Borough/CD) multiplied by 1,000.

Community Placement is the percentage of children who were placed in their community district of origin or a neighboring community district.

Adolescents Placed in Family Settings is the percent of youth 12 or older placed in kinship or non relative foster boarding homes.

The Percent Sibling Groups Placed Together is the percent of all placements involving children in sibling groups who were placed in family foster care (relative or non-relative) on the same day with no other siblings already in care where all siblings were placed in the same home.

Kinship Placement is placement provided by a relative up to the third degree.
