

### Outcome 5: Low Repeat Maltreatment - CD Comparison

This outcome provides a measure of the child welfare system's success at keeping children who have been found to be victims of abuse and/or neglect safe. This report compares measures for children who are from the specified community district (CD) for this report with the same measures for all children from the borough and the entire city. This performance report presents the number of children named as victims in abuse/neglect reports that were indicated and the percent with repeat indicated investigations within a year and within six months. It then lists the number of children with repeat indicated investigations within one year after the initial case was left open with court ordered services or voluntary services or closed with no services. The second section of the report lists the number of children with determined investigations, indicated or unfounded, and the percent who were named in additional reports within one year of the determination. It then provides information concerning the determination of the subsequent report as it relates to that of the prior report.

\*"CYTD" refers to running totals for the specified calendar year, through the end of MAR.

<sup>1</sup> An indicated abuse/neglect report is a report that, upon investigation, was determined to have credible evidence of abuse or neglect.

<sup>2</sup> SCR refers to the State Central Register, which is the official repository for the receipt of calls reporting suspicion of abuse or neglect for the State of New York.

<sup>3</sup> An unsubstantiated abuse/neglect report is a report that, upon investigation, was determined to lack credible evidence of abuse or neglect

### Outcome 5: Low Repeat Maltreatment - CD Comparison

This outcome provides a measure of the child welfare system's success at keeping children who have been found to be victims of abuse and/or neglect safe. This report compares measures for children who are from the specified community district (CD) for this report with the same measures for all children from the borough and the entire city. This performance report presents the number of children named as victims in abuse/neglect reports that were indicated and the percent with repeat indicated investigations within a year and within six months. It then lists the number of children with repeat indicated investigations within one year after the initial case was left open with court ordered services or voluntary services or closed with no services. The second section of the report lists the number of children with determined investigations, indicated or unfounded, and the percent who were named in additional reports within one year of the determination. It then provides information concerning the determination of the subsequent report as it relates to that of the prior report.

\*"CYTD" refers to running totals for the specified calendar year, through the end of MAR.

<sup>1</sup> An indicated abuse/neglect report is a report that, upon investigation, was determined to have credible evidence of abuse or neglect.

<sup>2</sup> SCR refers to the State Central Register, which is the official repository for the receipt of calls reporting suspicion of abuse or neglect for the State of New York.

<sup>3</sup> An unsubstantiated abuse/neglect report is a report that, upon investigation, was determined to lack credible evidence of abuse or neglect

### Outcome 5: Low Repeat Maltreatment - CD Comparison

This outcome provides a measure of the child welfare system's success at keeping children who have been found to be victims of abuse and/or neglect safe. This report compares measures for children who are from the specified community district (CD) for this report with the same measures for all children from the borough and the entire city. This performance report presents the number of children named as victims in abuse/neglect reports that were indicated and the percent with repeat indicated investigations within a year and within six months. It then lists the number of children with repeat indicated investigations within one year after the initial case was left open with court ordered services or voluntary services or closed with no services. The second section of the report lists the number of children with determined investigations, indicated or unfounded, and the percent who were named in additional reports within one year of the determination. It then provides information concerning the determination of the subsequent report as it relates to that of the prior report.
