

Take Care New York 2008

Schedule of Screening Events

HHC-Adult Education Partnership

Teachers,

The following schedules list screening events already scheduled by the HHC facilities. If you are able to take your class to one of these pre-existing events, please do. If you are not, please work with the field trip coordinator at the facility of your choice to set up a special screening event for your students. Once your screening event date is confirmed, please utilize the Prevention and Detection model lesson plans in your classroom before, during, and after the screening field trip. If you have any questions, please do not hesitate to contact Fatima Ashraf, Health Literacy Coordinator in the Mayor’s Office of Adult Education. She can be reached at 212-676-0352 or fashraf@cityhall.nyc.gov.
