Health Emergencies such as Ebola, Zika, Legionella. Other issues such as Fires, Hazmat incidents, building collapse crane collapse, street undermining.

How NYCEM Prepares for Winter:

Preparedness Steps:

There are three basic steps to being prepared for an emergency

- 1) Make a Plan
- 2) Gather Supplies
- 3) Get Informed

Make a Plan: Create an Emergency Support Network, Develop a Plan, and Know how to Evacuate

You do not want to go through an emergency alone. Ask at least two people to be in your network with you such as a family member, friends, neighbor, caregivers, coworkers or members of community groups. This will allow you to help each other in case of an emergency. Stay in contact during with each other during the emergency,

keep spare sets of your keys, know where to find your emergency supplies, and know how to operate your equipment.

Pick an out-of-state friend or relative who family or friends can call during a disaster. Have a list of medications that you take. List any special conditions that you have such as allergies that you might have.

Be prepared to make other transportation plans if the subway or the bus is not running.

Have a meeting place. Make plans to stay with someone if there is an emergency in your area and you cannot stay in your home.

If you do not have a place to stay emergency shelters may be set up in schools, city building, and places of worship. Shelters DO NOT have special equipment (for ex. Oxygen, mobility aids, and batteries) be prepared to bring your own.

Gather Supplies: Pack a Go-Bag – Important documents, family and contact information, medication information and note pad, pen, extra pair of reading glasses.

Put together an emergency support kit

- Radio, batteries, flashlight, food, water, first aid kit
- Other Personal supplies: Extra pair of cloths, toiletries, personal hygiene
- Entertainment: Games for the kids
- First aid kit, toothpaste, toothbrush, water, flashlight, batteries, passport, notepad, whistle or bell, money in small bills.

Get Informed: Get information that can help you stay safe by visiting NYCEM website, listen to the radio, TV, and the information disseminated on social media, and sign up for Emergencies Alert Notify NYC

How you can help:

- Promptly remove snow and ice from tree limbs, roofs and other structures
- Clear tree branches that could potentially fall on home or power lines
- Hire a New York State Licensed registered architect or professional engineer to check the strength of your roof
- Check on your neighbors

Report Conditions by calling 311 if non-emergency: 911 if emergency; call the utility companies to report any outage.

Take classes or join the preparedness effort:

- American Red Cross in Greater New York – 877-RED-CROSS (877-733-2767)
