83Pct Crime Prevention Programs

Below are auto theft decal programs offered **FREE** of charge by the New York City Police

Department.

V.I.N. Etching Program:

The vehicle's **V**ehicle **I**dentification **N**umber is etched onto all the vehicles windows. The program serves to deter theft and trace the stolen parts.

Combat Auto Theft (C.A.T.):

Registering your automobile into the C.A.T. Program authorizes the Police to stop your vehicle between the hours of 1 A.M. and 5 A.M. (when many vehicles are stolen) for the purpose of determining if the vehicle is stolen.

Commuter C.A.T. Program (C.C.A.T.):

Similar to C.A.T. Program, this program was designed for commuters who park there car during daytime hours (10 A.M. through 4 P.M.)

Help End Auto Theft (H.E.A.T.):

Persons under the age of 25 can not drive the vehicle and you must be over 40 years of age to register your vehicle in this program.

Note: You may be eligible to obtain a discount on your car insurance by utilizing these various programs. For further information, contact your insurance representative.

Operation Identification:

As part of **OPERATION I.D.** and to fight against theft, electronic devices are being registered (**FREE OF CHARGE**) with the NYPD and the devices serial numbers are being inputted into a searchable database. This program does **not** GPS track your phone. You need to download a tracking application from your phones application store (ex: Find My I-Phone).

Bicycle Registration:

Bring your bicycle into the Precinct and we will engrave your bike in an inconspicuous place, and a sticker for easy identification will be affixed to your bike. This program will assist the police in identifying your bike in the event it is stolen.

Security Survey:

A security survey is a confidential, in-depth written report that evaluates the existing security and procedures of a premise. A private home, for example, may only entail locks, doors, windows and an alarm system. A corporate facility may require addressing a much wider range of needs, such as closed circuit television, electronic access control, fencing, security lighting, mail handling and visitor screening procedures. The survey will address security vulnerabilities and outline corrective measures. The Department provides this service free of charge.

For additional information or to register for these programs, you can contact the 83rd Precinct Crime Prevention Officer @ (718) 574-1688 or via email Christopher.iannotti @ nypd.org
