34th Street Transitway

About the Transitway Concept

The proposed 34th Street Transitway will be a set of bus lanes in both directions from the FDR Drive to 12th Avenue. The Transitway project will:

- Improve transit service on both crosstown and commuter buses;
- Provide curb access for residents and businesses;
- Make 34th Street safer and more pleasant for pedestrians; and
- Provide the infrastructure to accommodate the crosstown travel growth expected from new development.

About the Community Forums

Before we make the preliminary designs for 34th Street, we need to better understand the activities of the businesses and residents who live and work there. We want to learn about how you use the curb, including passenger pick up and drop offs, deliveries, and parking. The feedback we get during the Community Forums and online will be incorporated into our preliminary design for the Transitway, and will be reviewed at another set of community forums in early 2011.

We Need Your Help!

Come to any of the meetings listed on this flier, and take part in roundtable discussions about curb usage on a block-by-block basis. Come any time between 6 and 9 PM and join a discussion. Fill in a questionnaire to give us more complete information.

Can't make a meeting? No problem. **Go to www.nyc.gov/34transitway, and complete an online questionnaire.** Or contact Kate Mikuliak at 212-839-6429 or kmikuliak@dot.nyc.gov to be mailed or faxed a questionnaire.
