Description

CORRECTION: NEW YORK CITY WATER SUPPLY SYSTEM AQUEDUCT TUNNEL AND SHAFT PROJECTS CONSTRUCTION SERVICES AND DESIGN ASSISTANCE - RE-SOLICITATION

CORRECTION: CORRECTION: This is a re-solicitation; the original solicitation was issued in December, 2003. The New York City Department of Environmental Protection ("DEP") is establishing a Pre-Qualified List ("PQL") of General Contractors to compete for contracts to provide construction services for New York City Water System aqueduct tunnel and shaft reconstruction and repair projects, and design assistance in developing the scope and approach for some aspects of those projects. The City Water aqueduct tunnel system consists of both long (up to 75 miles in length) and deep (more than 300 feet in depth) concrete lined high-pressure rock, shallow cut and cover masonry tunnels (up to 20 feet diameter) and access shafts. The DEP intends to advertise for competitive sealed bids or proposals to provide the construction services listed below. Contractors will be required to demonstrate experience with this type of work and financial capability for the contract duration as described below. Construction Work :Construct access improvements to shaft sites; Inspect flooded and unwatered shafts and tunnels; Reconstruct and operate existing shaft and tunnel unwatering pumping systems; Construct and operate new shaft and tunnel unwatering pumping systems; Perform shaft and tunnels repairs and reconstruction; Disinfect tunnels and place into service; Perform unwater inspection and construction Perform shaft and tunnel repairs on an emergency basis.

Design Phase Assistance: Participate in design workshops for shaft and tunnel unwatering system improvements and tunnel repairs; Prepare construction schedules; Perform constructability reviews. The General Contractor qualifications should include mechanical, civil, structural, site, electrical, diving capabilities to perform shaft and tunnel inspection, construction repair and ventilation capabilities. Submittals shall include the following types of information; additional information may be submitted as an attachment to the qualification package:

Project Experience: A minimum of three completed projects and current projects with similar requirements including references. Successful experience in construction projects shall be demonstrated by the General Contractor. The General Contractor shall possess a good track record of projects undertaken in the fields of tunnels and shafts; their construction, dewatering and reconstruction and/or repair as demonstrated by case records of tunnels worked on in the past five to ten years. Information such as adherence to program, cost control, demonstrated quality and good safety performance of the General Contractor will be considered. Organization and Staffing: An organization chart showing the firms and individuals that may be assigned to work on these types of projects, including subconsultants and subcontractors and full resumes for each person. Qualifying resumes should show a minimum of five years experience in a senior position with construction or reconstruction of tunnels. The information about the General Contractor, individual persons, consultant, and subcontracting firms shall be relevant to the work at hand and shall demonstrate particular capability for executing this work. Particular expertise in heavy underground construction, sinking shafts, driving tunnels and aqueducts, performing heavy deep underwater mechanical construction, constructing cut and cover tunnels and aqueducts, disinfection of tunnels and aqueducts, installing shaft hoisting equipment in deep shafts (greater than 300 feet), installing underground facilities, control of water inflows into tunnels with pressures greater than 250 psi, grouting under high water pressures (greater than 250 psi) in deep tunnels and shafts, installing steel liners in tunnels and shaft, dealing with ground support in difficult rock and soil conditions, tunnel ventilation systems and construction of electrical and mechanical systems for tunnel and aqueduct systems shall be demonstrated. The lead member and all key members for design phase assistance shall be New York registered Professional Engineer(s). The information shall be organized to respond to each of the work areas noted above.

Quality Assurance and Quality Control: Quality certification documents and company quality assurance manuals. The General Contractor and Subcontractors shall describe the quality assurance and quality control procedures that are typically used for these types of projects for both construction and design assistance.

Safety: A description of the safety management procedures and safety plan for construction sites, shafts and tunnels used for these types of projects and demonstrate past records of good safety performance.

Financial Capability: Demonstrate the financial capacity to undertake and manage large-scale projects. Qualifying firms applying singly or as the lead firm of a consortium or joint venture shall also meet the following minimum requirements: Have successfully completed work of an aggregate project value in excess of \$200 million during the last 3 years, with at least one contract over \$50 million.

Alternatively, successfully completed or working on at least one large project with a value more than \$150 million during the last 3 years.

A Non-mandatory Pre-submittal conference will be held on Tuesday October 26, 2004 at the offices of Malcolm Pirnie, 75-20 Astoria Blvd., Jackson Heights, New York 11370 at 10:00 AM. Attendance is limited to General Contractors; a maximum of two persons from each General Contractor may attend. By October 19th, each General Contractor shall submit the following information for each person that will be attending the Pre-submittal conference: full name, full address, employer name and address, date of birth, social security number, valid driver's license number, and office and cell phone numbers. The DEP intends to perform background checks, upon which each person will be notified if they may attend the conference. Please fax the information to Mr. Steve Elie-Pierre at (718) 595-6137. In addition, each General Contractor shall sign a confidentiality statement concerning the information that will be presented at the pre-submittal conference. This statement will be transmitted to the principle of each General Contractor and must be signed and returned prior to the pre-submittal conference in order to gain entry.

All submissions will be reviewed by an Evaluation Committee ("EC"). Interviews may be required as part of the Pre-Qualification process. Pre-Qualification will be based upon the EC's recommendations.

Qualifications are to be delivered to Debra Butlien, Department of Environmental Protection, 59-17 Junction Boulevard, 17th Floor Bid Room, Flushing, New York 11368 and are due no later than 4:00 PM (EST) on Wednesday, November 24, 2004.

All submitters will be notified if they have been deemed qualified, within 90 days after receipt of a complete Pre-Qualification package.

The City is not responsible for costs incurred in the preparation of any documents relative to this advertisement.

REHABILITATION OF BRUCKNER EXPRESSWAY OVER WESTCHESTER CREEK, BRONX -
Competitive Sealed Proposals / Judgment required - PIN# 84104BXBR709 - DUE 11-4-2004 AT
2:00 PM

The proposed Engineering Services is necessary for the City to perform Resident Engineering and Inspection Services for the Rehabilitation of Bruckner Expressway over Westchester Creek (Unionport Bridge). Qualifications will be evaluated based on the following criteria:

- Satisfactory prior experience providing REI services on at least one completed movable bridge reconstruction project of cost of at least \$20 Million within the last 10 years including the complete replacement of drive machinery and electrical control systems.
- Services of a Movable Bridge Expert licensed in the State of New York qualified as a specialist in the construction of movable bridges to supervise fabrication and replacement of the machinery and electrical systems for a movable bridge.
- Services of a Resident Engineer licensed in the State of New York with satisfactory prior experience in the rehabilitation of a movable bridge with a project cost of \$20 Million within the last ten years including the complete replacement of drive machinery and electrical control systems.
- Provide mechanical testing and inspection services to monitor the offsite fabrication and assembly of mechanical and electrical components for movable bridge project.
- Services of Mechanical and Electrical Engineers with 10 years of experience in design and construction of large movable bridge projects.

A deposit of \$50.00 in the form of a certified check or money order made payable to New York City Department of Transportation is required to obtain bid/contract documents. NO CASH ACCEPTED. Refund will be made only for contract Bid/Proposal documents that are returned in its original condition within 10 days after Bid Opening. Any persons delivering bid documents must enter the building through 220 Church Street, New York, NY. Due to increased building security bidders should allow extra time when delivering bids and should ensure that proper photo identification is available upon request. Please ensure that your company's address, telephone and fax numbers are submitted by your company (or messenger service) when picking up contract documents. Hours 9:00AM - 3:00PM. NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Description

MAINTENANCE AND CONSTRUCTION RELATED WORK – Application Forms for Pre-Qualification and additional Information may be obtained at HPD's Offices, Monday through Friday between the hours of 10:00 a.m. - 12:00 noon and 2:00 p.m. - 4:00 p.m., or by writing to: HPD, Division of Maintenance/Contractor Compliance Unit, 100 Gold Street, Room 6-S1, 6th Floor, New York, NY 10038.

Submission details are contained in the Pre-Qualification Application.

HPD invites suitably qualified contractors to join its bank of skilled vendors on the Pre-Qualified Panel, to perform emergency and non-emergency repairs and other maintenance and construction related work in city-owned and privately-owned buildings throughout New York City, which are managed by the Agency.

The list of vendors on the Pre-Qualified Panel will be used to solicit invitations to bid on high volumes of Open Market Orders (OMOs) and Purchase Orders (POs) for maintenance, repairs and construction/construction related services, valued up to \$100,000; or goods and services up to \$50,000.

Contractors who meet pre-qualification requirements and are approved, will be given the opportunity to apply for inclusion in various sub-categories of the Pre-qualified Bidder's List and on the after-hours and 24 hour emergency panel.

Contractors with positive integrity, strong financial capabilities, knowledge and experience, are encouraged to apply for inclusion on lists for the following trades:

* DEMOLITION

- Demolition of entire buildings and/or land clearing of development sites.

* LEAD BASED PAINT ABATEMENT AND ANALYSIS

- Abatement, - Analysis (Dust Wipes/Paint Chips/Soil)
- XRF Testing

* ELEVATOR MAINTENANCE AND REPAIR

* PLUMBING SYSTEMS

- Water Mains, - Sewer Mains, - Water Towers, - Sprinkler Systems, - Septic Systems, -
Emergency Stoppage and Plumbing Repairs

* HEATING SYSTEMS

- Boiler Rentals, - HVAC, including Duct Work, Emergency Gas Restoration, - Emergency Gas
and Oil Heat/Hot Water Restoration

* ELECTRICAL SYSTEMS

- Fire Alarm Systems

* IRON WORK

- Fire Escape Repair/Replacement, - Stairwell Repair/Replacement

* INTERCOM SYSTEMS

* GENERAL CONSTRUCTION

- Concrete, - Masonry, - Beams, - Shoring, - Scaffolding
- Roofs, - Sidewalk Bridges (Wood and Steel Poles; Permanent & Rental)

* RUBBISH AND TRADE WASTE

- Clean Outs, - Roll-Off Containers

* SOIL AND WATER QUALITY TESTING

- Industrial Hygienist Services
- Chemical Analysis for Organics and Heavy Metals

- * OIL SPILL REMOVAL AND CLEAN UP
- Testing, - Remediation and Clean Up
- * ASBESTOS ABATEMENT AND ANALYSIS

CONSULTING ENGINEERS AND ARCHITECTS

ENVIRONMENTAL IMPACT STATEMENTS – LIST 22

The Department of Design and Construction (DDC) requests applications from qualified consulting engineers and architects who are interested in performing Environmental Impact Statements for this Municipal Government Agency. The Department is aiming for excellent quality in developing environmental assessment statements for the infrastructure of the City of New York. The application process is ongoing; there is no deadline.

Consultants are invited to submit a Federal 254 and 255 Form and an illustrated brochure describing their professional experience. They are to include resumes of key personnel, and three client references with contact persons and telephone numbers. Qualified respondents will be called in for an interview to determine placement on this list.

Please address all correspondence to:

Consultant Liaison, Office of the Agency Chief Contracting Office, NYC Department of Design and Construction, 30-30 Thomson Avenue, Long Island City, NY 11101. Tel. (718) 391-1545, Fax (718) 391-1506.
