

My name is Daphney Chevrin.

I came from: Remsen Church of God which is part of the 46th district.

It's a pleasure for me being here this evening, to testify for my district and my community.

We are in the Church of God. We live in the community and we work in the community.

My children grew up in the community. We want to be united, not divided. We don't want to be represented by three different city councils. We go to the same church, sharing the same community values and cultures. I am a registered voter and I want my vote to count for my community. We want to be represented by one city council; we want to keep our Caribbean, African American community together because we belong to the same community. Please support the UNITY Map that protects and empowers our community.

Thank you very much for having me to testify regarding the redistricting proposal in my community.

Jonathan Ettricks
N.Y.C. Districting Commission
253 B'way, 7th Floor
Manhattan, N.Y.C. 10007

Dear Sir:

I wrote to you on August 20th about the unfair districting of Canarsie (3 Councilpersons, 4 Assembly people, 2 State Senators). In spite of our ignored needs by CB18, and our political division, our area offers a lot.*

Canarsie is a waterside community inhabited by an international population, people of every religion living together peacefully. We have synagogues, churches and a mosque. We should be a model for other communities who object to integration.

Please help redistrict Canarsie so we can be treated as one community, with 1 Councilperson, 1 Assemblyperson, and 1 State Senator, so our votes ^{would} count, and our needs ^{would be} met. Let's bring political justice to Canarsie!

Thank you.

CC: Governor Cuomo

Sincerely,

(Our Mayor doesn't respond)

Ms. Gerry C. Weener

* E.g. The Hebrew Educational Society, open to people of all ethnic backgrounds serves people of every age with wonderful health facilities, including pre-school and after school programs in addition to service citizens activities.

My name is Jacqueline Smartt and I'm a resident of Canarsie. I moved to Canarsie in 1995 when the area was in the height of "white flight." Initially we had Jewish and Italian neighbors on either side of us, but eventually that demographic changed. White businesses moved and minority owned businesses too over. Contrary to "popular opinion" at the time, we did not "bring down" the neighborhood. The immigrant population that moved in, accustomed to owning and maintaining properties in the countries that they'd immigrated from improved their properties and instead of declining the property values climbed upwards.

During the recent recession real estate in Canarsie maintained it's value and an article in PM News referred to Canarsie as "the best kept secret in Brooklyn." Our population is a voting population who maintain an interest in seeing their community improve. The recent move to redistrict our neighborhood is nothing more than a move to discombobulate our community. This move is nothing more than a blatant motion to commandeer votes from a small population in our neighborhood. The resulting loss of funds for our section of our community will result in a loss of services that we pay our taxes for and deserve to continue to have. I hope that you listen to the concerns of the voters and residents of Canarsie and that this meeting isn't just a formality en route to you continuing with your plans which will benefit only a few. We've earned the benefits that we currently enjoy and the redistricting proposal will align parts of our community with neighborhoods that do not enjoy the same reputation as we do. We live in Canarsie and would like to continue to enjoy the current benefits that we have earned. We would like to continue to be a Canarsie that is united and NOT represented by three different counsel people. Thank you.

Members of the Commission:

My name is Maria Garrett and I live in Canarsie. Thanks for letting me give testimony here today. From the way that your proposed lines have been drawn even an unsophisticated observer can deduce that something is wrong. I was reading the recent accounts in the press about how two neighborhoods in Brooklyn and Queens with fast-growing Asian-American populations would be quartered, making it much more likely that the areas would continue to lack Asian-American elected voices. And Manhattan, despite growing at a healthy clip, would cede one City Council seat to the Bronx.

Does this make sense? No. It defies common sense and basic good judgment. As I said I live in the Canarsie section of Brooklyn and we have always been one unique community. Now your proposed lines and boundaries would split the African-American community while keeping the Caucasian community with roughly the same numbers and percentages as reported by the 2012 Census intact and untouched. So on the one hand the African-American community is being gutted and disenfranchised, while on the other the Caucasian community is empowered as an intact, packed bloc that guarantees it political and economic power.

This goes against the spirit and letter of the New York City Charter and the Voting Rights Act of 1965. That should never happen. I urge the Commission to stop cracking and packing districts for political purposes. Your lines and boundaries also crack Brooklyn's 46th District along the Canarsie and Remsen Gardens at the expense of its residents while keeping intact two enjoined neighboring districts intact and largely untouched.

Our community is angry and upset that the present lines have drawn out of the district two business and home owners who have served and lived in the 46th District for over 40 years collectively. The lines just drew them out and shoved them into a neighboring district. And since this neighboring district is about 76% African-American the small boundary adjustment will make it difficult for us to be serviced. That area will be ignored because whoever will be the new councilmember does not need that tiny number of African-Americans votes to get elected. That's the result of gerrymandering.

So now let's get it right. First, we support the Unity Map. It keeps minority communities compact. Second, it genuinely reflects the demographics of New York City and third, it's a common sense solution to what has become a partisan, political activity.

Finally, we must keep the 46th District a minority-majority district. That would ensure that we respect the aspirations and recognize the unity and diversity of the district. The 46th District because of its diverse populations, racial and ethnic mix, and high concentration of home owners is a district that reflects the demographics of New York City. I urge you to keep it intact and use it as an example of how to protect and empower all communities in a council district.

Sincerely,

Hearings

I am Yolla Garraud, I first move into the Canarsie area in 1977, living with my parents then, in 1989 becoming a home owner myself in the area and continues to live in the area, I have and continue to raise three of the most beautiful young minds in this century. From my perspective, my canarsie has a high percentage of hard working professional men and women, we take pride in living canarsie, despite our struggle in the past, my mom garage was one of the few that was bomb under Mayor Koch. We continue to struggle and keep canarsie safe. We invest so much money in our homes. Our homes will be our legacy to our children, we do not want canarsie to be devided in any way or form. It seems every time we collectively gain something... their are those in power that are determine to crush our successes. We are here in solidarity with our beloved, strong minded, our very own future council woman Ms. Mercedes Narcisse, to make our demands known, we will not allow our district to be devided.

TESTIMONY BY MERCEDES NARCISSE

Candidate for Brooklyn's 46th District in 2013

CITY COUNCIL REDISTRICTING HEARING

Thursday, October 11, 2012.

Medgar Evers College, Brooklyn, New York

Members of this distinguished panel, fellow Brooklynites, elected officials, ladies and gentlemen:

My name is Mercedes Narcisse. I am a Registered Nurse and I live, own a business, and work in Brooklyn's 46th Council District for over 20 years now. Thank you for the opportunity to speak to you on this important issue.

The issue of redistricting every 10 years after a national head count has always been contentious and filled with controversy. What should be an otherwise simple activity and process – drawing electoral district lines to reflect changes in populations – has now become a complex, hostile and bitter partisan slugfest that has alienated and frustrated ordinary citizens of New York City and state.

So here we are today again.

On October 2nd the local media reported a statement from you, Commissioner Hum, on the issue of fairness in the redistricting process. I quote: ***“We certainly understand the gravity of having a map that reflects our city and making sure minority groups are represented” fairly. It was a map to start the conversation. We didn't get everything right.***”

Our community in Brooklyn's 46th District now holds you to that statement. You can make sure that you get everything right by adopting or taking a second look and incorporate all or part of the UNITY MAP submitted by the Center for Law and Social Justice. My community and I support this map. We believe that it is far more objective and adheres to the letter and spirit of both the City Charter and the Voting Rights Act of 1965 more than the Commission's present proposed boundaries.

I believe that the proposed redistricting city council maps as presently drawn by the Redistricting Commission are deeply fractured and flawed and designed to protect the incumbency while disenfranchising entire communities. In this context and after careful review of the proposed districts I am in total agreement with the Brennan Center that the quote: ***“epidemic of gerrymandering poses a growing threat to our democracy.” You have the ability to end that.***

For example, in my 46th District, a community in which I have lived for all my adult life, raised my family and own a business, in the proposed Commission map my house is deliberately drawn out of the district to place me in the 42nd Council District. What this attempts to do is to make sure that I would not be eligible to run for the 46th district in 2013 and therefore allow a candidate sanctioned and endorsed by the Brooklyn Democratic Party machinery to win the seat. It would virtually ensure that I would lose in the 42nd District since I am not known there, have no ties to that community having never lived in that district before.

For the above reasons and to preserve the institutions of people's democracy, we, the community of Brooklyn's 46th District, reject in it's entirely these present lines as proposed by the Redistricting Commission and unconditionally support the UNITY MAP. Any other way would be a gross violation of the democratic process and lead to the continued disenfranchisement of our community.

Thank You.

Mercedes Narcisse
