HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

**Participating NYC Agencies**

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)

- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)

A few days after the hearing, copies of all comments submitted online, copies of all written comments and a summary of oral comments concerning the proposed rule will be available to the public at the Office of the General Counsel.

What authorizes DOB to make this rule? Sections 643 and 1043(a) of the City Charter, and Section 3301.3 of the New York City Building Code, authorize DOB to make this proposed rule. This proposed rule was included in DOB's regulatory agenda for this Fiscal Year.

Where can I find the DOB's rules? The DOB's rules are in Title 1 of the Rules of the City of New York.

What rules govern the rulemaking process? DOB must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043(b) of the City Charter.

Statement of Basis and Purpose

This rule repeals Chapter 48 of Title 1 of the Rules of the City of New York relating to construction superintendents, and amends Chapter 3300 of Title 1 of the Rules of the City of New York by adding a new Section 3301-02 in its place.

This rule promotes public safety by adding several requirements that the current rule does not cover and by requiring construction superintendents to supervise construction on a greater range of jobs.

The proposed rule changes the following aspects of the construction superintendent's role:

- Jobs that require a construction superintendent: The proposed rule expands the requirement for a construction superintendent to alterations, including alterations of 1-, 2-, and 3-family dwellings, which comprise at least one of the following:
vertical or horizontal enlargement;
alteration or demolition of more than fifty percent (50%) of the floor area;
the removal of one (1) or more floors; or
work that requires a special inspection for underpinning or the protection of sides of excavations.

The proposed rule also eliminates overlapping oversight requirements that exist between Chapter 48 and the New York City Construction Codes.

- Designation of primary and alternate construction superintendents: The proposed rule requires the permit holder to immediately notify the Department if the primary construction superintendent is permanently replaced. Further, the proposed rule requires the permit holder to notify the Department if an alternate construction superintendent serves in place of the primary construction superintendent for a period of two or more weeks. These processes mirror those applicable to site safety managers and coordinators.
Duties: The proposed rule expands upon construction superintendents' duties by requiring that construction superintendents, among other duties, visit each job site for which they are responsible each day that active work occurs at the site; inspect every area where work is occurring at

each job site during each visit in order to verify compliance with the approved construction documents and Chapter 33 of the New York City Building Code; and designate a competent person who is present at the site at all times work occurs.

- **Log Requirements:** While the current rule does not contain any log requirements, the proposed rule requires that construction superintendents maintain a detailed log of work that occurs at each job site for which they are responsible. The proposed rule details the items construction superintendents must record in this log. This will ensure that construction superintendents are actively involved in the work occurring at each job site.
- **Qualifications:** The proposed rule provides that construction superintendents are subject to the licensing provisions of Article 401 of Chapter 4 of Title 28 of the New York City Administrative Code. The proposed rule also makes several changes to the experience and credential requirements construction superintendents must satisfy.
- **Renewal:** While the current rule requires proof that the renewing construction superintendent has completed a seven-hour Site Safety Manager course approved by the Department, the proposed rule requires proof that the renewing construction superintendent has completed an eight-hour Site Safety Coordinator course approved by the Department. The proposed rule also provides that renewals are subject to the provisions of Article 401 of Chapter 4 of Title 28 of the New York City Administrative Code. This will allow the Department to hold construction superintendents to the same standards as licensees.
- **Discipline:** Under the proposed rule, construction superintendents are subject to the disciplinary provisions of Section 28-401.19 of the New York City Administrative Code, including denial of issuance or renewal of construction superintendent registrations.

The Department of Buildings' authority for this rule is found in Section 643 and 1043(a) of the New York City Charter and Section 3301.3 of the New York City Building Code.

New material is underlined.

**Registered design professional.** See Section 28-101.5 of the Administrative Code.

### (b) **Designation of construction superintendent.**

- (1) **Jobs for which a construction superintendent is required.** A construction superintendent is required for the following types of jobs:
- (i) The construction of a new building;
  - (ii) The full demolition of an existing building;
  - (iii) An alteration to an existing building that involves one or more of the following:
    - (A) A vertical enlargement;
    - (B) A horizontal enlargement;
    - (C) The alteration or demolition of more than fifty percent (50%) of the floor area of the building during the course of work over any twelve (12) month period;
    - (D) The removal of one (1) or more floors during the course of work over any twelve (12) month period;
    - (E) Work that requires a special inspection for underpinning; or
    - (F) Work that requires a special inspection for the protection of sides of excavations.
  - (iv) Other jobs that pose an enhanced risk to the public and property, as determined by the commissioner.

**Exceptions:** Notwithstanding the above, a construction superintendent is not required for:

1. A job for which a site safety plan is required;
2. The construction of a new 1-, 2-, or 3-family building; or
3. A job for which the Department issued or renewed the primary alteration permit within three months of the effective date of this rule.

- (2) **Designation of a primary construction superintendent.** For jobs requiring a construction superintendent, the permit holder must designate a primary construction superintendent, prior to the commencement of work, in a form and manner acceptable to the department.
- (3) **Change of designation.** The permit holder must immediately notify the department, in a form and manner acceptable to the department, of any permanent change to the primary construction superintendent.
- (4) **Alternate construction superintendent.** In the event the primary construction superintendent is temporarily unable to perform his or her duties, an alternate construction superintendent, designated by the permit holder and acceptable to and acting on behalf of the primary construction superintendent, must fulfill the duties of the primary construction superintendent. In the event that an alternate construction superintendent will be acting in place of the primary construction superintendent for a period longer than two consecutive weeks, the permit holder must notify the Department, in a form and manner acceptable to the Department, of such change.
- (5) **Limitations.** An individual may only be designated as a primary or alternate construction superintendent for that number of jobs for which he or she can adequately perform all required duties. No individual may be designated as the primary construction superintendent on more than ten (10) jobs.

### (c) **Duties of construction superintendent.**

- (1) **Safe site.** The construction superintendent must act in a reasonable and responsible manner to maintain a safe job site and assure compliance with Chapter 33 of the New York City Building Code and any rules promulgated thereunder at each job site for which the construction superintendent is responsible.

- (2) **Compliance with plans.** To the extent that a registered design professional or special inspection agency is not responsible, the construction superintendent must assure compliance with the approved construction documents at each job site for which the construction superintendent is responsible.
- (3) **Administrative Code duties.** The construction superintendent must fulfill the duties of a superintendent of construction assigned by Chapter 1 of Title 28 of the New York City Administrative Code at each job site for which the construction superintendent is responsible.
- (4) **Daily visit.** Beginning three months after the effective date of this rule, the construction superintendent must visit each job site for which the construction superintendent is responsible each day when active work is occurring.
- Exceptions:** The construction superintendent is not required to be present at the site during the following activities, provided no other work is in progress:
1. Surveying that does not involve the disturbance of material, structure, or earth;
  2. Use of a hoist to transport personnel only;
  3. Use of a material hoist that is fully enclosed within the perimeter of the building;
  4. Finish trowelling of concrete floors;
  5. When personnel are provided for temporary heat, light, or water; or
  6. Truck deliveries to the site where the sidewalk is closed and the entrance gate is within that closed sidewalk area.
- (5) **Inspection.** Each time the construction superintendent visits a job site for which he or she is responsible, the construction superintendent must inspect all areas and floors where construction or demolition work, and ancillary activity, is occurring, and:
- (i) Verify work is being conducted in accordance with sound construction/demolition practices;
  - (ii) Verify compliance with the approved construction documents; and
  - (iii) Verify compliance with Chapter 33 of the Building Code and any rules promulgated thereunder.
- (6) **Correcting unsafe conditions.** In the event the construction superintendent discovers work at a job site for which he or she is responsible that is not being conducted in accordance with sound construction/demolition practices, not in compliance with Chapter 33 of the Building Code and any rules promulgated thereunder, the construction superintendent must immediately notify the person or persons responsible for creating the unsafe condition, order the person or persons to correct the unsafe condition, and take all appropriate action to ensure the unsafe condition is corrected. Where an unsafe condition relates to an item which a registered design professional or special inspection agency is responsible for implementing or verifying, the construction superintendent must also notify the responsible registered design professional or special inspection agency of the unsafe condition. All such unsafe conditions, notices, orders, and corrective work must be recorded in the log required by subdivision (d) of this section.
- (7) **Notification of conditions to the Department.** The construction superintendent must immediately notify the Department, in a form and manner acceptable to the Department, when he or she discovers at any job site for which the construction superintendent is responsible any of the conditions listed in Section 3310.8.2.1 of the New York City Building Code. Notification to the Department does not relieve the construction superintendent of his or her obligations under paragraph (6) of this subdivision.
- (8) **Reporting of accidents and damage to adjoining property.** The construction superintendent must immediately notify the Department, in a form and manner acceptable to the Department, of any accident at any job site for which the construction superintendent is responsible, or any damage to adjoining property caused by construction or demolition activity at the job site.
- (9) **Log.** The construction superintendent must complete the log required by subdivision (d) of this section each time he or she visits a job site for which he or she is responsible.
- (10) **Competent person.** The construction superintendent must designate a competent person for each job site for which the

construction superintendent is responsible and ensure such competent person is present at the designated job site at all times active work occurs. The designation of a competent person does not alter or diminish any obligation imposed upon the construction superintendent. The competent person must carry out orders issued by the construction superintendent; be able to identify unsanitary, hazardous or dangerous conditions; take prompt corrective measures to eliminate such conditions; immediately report to the construction superintendent accidents at the job site or any damage to adjoining property caused by construction or demolition activity at the job site; and be able to effectively communicate workplace instructions and safety directions to all workers at the site.

- (d) **Log.** The construction superintendent must maintain a log at each job site for which the construction superintendent is responsible. Such log must be made available to the commissioner upon request.
- (1) **Log contents.** The log, at a minimum, must contain the following information:
- (i) The presence of the construction superintendent at the job site as, evidenced by his or her printed name and signature and a notation indicating the times of arrival at, and departure from the site, which must be recorded immediately after arriving at the site and immediately prior to leaving the site, respectively;
  - (ii) The general progress of work at the site, including a summary of that day's work activity;
  - (iii) The construction superintendent's activities at the site, including areas and floors inspected;
  - (iv) Any unsafe condition(s) observed per paragraph (6) of subdivision (c) of this section, and the time and location of such unsafe condition(s);
  - (v) Orders and notice given by the construction superintendent per paragraph (6) of subdivision (c) of this section, including the names of individuals issued orders or notices, any refusals to comply with orders or respond to notice given, follow up action taken by the construction superintendent, and where the violation is corrected, the nature of the correction;
  - (vi) Any violations, stop work orders, or summonses issued by the department, including date issued and date listed or dismissed;
  - (vii) Any accidents; and
  - (viii) The name of the competent person designated in accordance with paragraph (10) of subdivision (c) of this section, along with an accompanying signature of the competent person. If the construction superintendent assigns a new competent person, the date and time of this change, along with the name of the new competent person, must be recorded, accompanied by the signature of the new competent person. If the construction superintendent is not at the site when this occurs, the new competent person must instead make the log entry, which the construction superintendent must sign and date upon his or her next visit to the job site.
- (2) **Completed.** The construction superintendent must complete the log prior to departing the job site.
- (3) **Signed and dated.** The construction superintendent must sign and date each day's log entry.
- (4) **Form and manner.** The log must be organized and recorded in a form and manner acceptable to the Department.
- (e) **Registration of construction superintendents.** Construction superintendents must be registered with the Department, in accordance with the following provisions.
- (1) **Form and manner of registration.** An application for registration as a construction superintendent must be submitted in a form and manner acceptable to Department, and provide such information as the department may require.
  - (2) **Qualifications.** All applicants for construction superintendent registration are subject to the provisions of Article 401 of Chapter 4 of Title 28 of the New York City Administrative Code and must submit satisfactory proof establishing that the applicant:
    - (i) Is able to read construction plans and specifications; and
    - (ii) Has satisfactorily completed, within two (2) years prior to the date of application, a course that is at least ten hours (10) in length and approved by the United States Department of Labor Occupational Safety and Health

The enforcement must have included inspections of buildings under construction or demolition and thus this basis for qualification excludes officials whose primary role is to perform inspections of occupied or vacant buildings;
- (D) Has five (5) years of full time field experience in the United States, within 10 years prior to the date of the application, working on buildings as a safety official for a governmental entity or construction firm or as a safety manager or safety engineer for a safety consulting firm specializing in construction or demolition and has satisfactorily completed, within one (1) year prior to the date of the application, an 8-hour Site Safety Coordinator course approved by the department; or
- (E) Has five (5) years of full time experience in the United States, within ten (10) years prior to the date of the application, as verified by employer affidavit, working with plans in a relevant construction trade in furtherance of the construction, vertical or horizontal enlargement, or full demolition of a building or structure, and has satisfactorily completed, within one (1) year prior to the date of the application, a 40-hour Site Safety Manager course approved by the department.

- (3) **Educational credit.** For purposes of paragraph (2) of this subdivision, each year of full time formal training or education in a program with emphasis on construction at a college, technical or trade school may be substituted for one year of work experience, up to a maximum of three years.
- (4) **Audits.** Applications for registration are subject to audit at any time. An audit may also be made at any time upon receipt of complaints or evidence of falsification.
- (5) **Registration term.** Registrations issued under this section are valid for three years from the date of issuance.
- (6) **Registration fees.** The initial fee for registration in accordance with this section is one hundred dollars (\$100.00).
- (7) **Renewals.**
  - (i) Renewals may be subject to the provisions of Article 401 of Chapter 4 of Title 28 of New York City Administrative Code. The fee for timely renewal is fifty dollars (\$50.00). Renewals not submitted in a timely manner will be subject to a late surcharge of fifty dollars (\$50.00).
  - (ii) Timely renewal applications must be accompanied by proof that the applicant has, during the one-year prior to renewal, successfully completed an 8-hour Site Safety Coordinator course approved by the department.
  - (iii) Renewals not filed within one year of registration expiration will be treated as a new application.
- (8) **Notification of change of address.** Registered construction superintendents must notify the department, in writing, of any address change within thirty (30) days of the change.
- (f) **Disciplinary Actions.** Construction superintendents are subject to the provisions of Section 28-401.19 of the New York City Administrative Code.
- (g) **Cooperation required.** Construction superintendents must comply with the provisions of Section 28-401.20 of the New York City Administrative Code.
- (h) **Obligation of others.** Nothing in this rule is intended to alter or diminish any obligation otherwise imposed by law on others,

**Statement of Basis and Purpose**

The New York City Environmental Control Board (ECB) is proposing to modify the ECB Department of Buildings (DOB) Penalty Schedule found in Section 3-103 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York to encourage swift and decisive compliance with safety-related orders and other regulations at construction sites.

This proposed modification to the penalty schedule will add two new infractions and amend three existing infractions. The new infractions will enable DOB to effectively enforce Commissioner's Orders relating to the safe operation of construction equipment and other matters that ensure public safety. The amendments increase the penalties for inadequate safety measures during crane, derrick or other hoisting operations and for failure to safeguard all persons and property affected by construction operations, promoting DOB's zero tolerance policy for abuses of public safety regulations.

**STATEMENT OF BASIS AND PURPOSE**

The purpose of this rule is to clarify the types of assessment or tax errors subject to administrative review by the New York City Department of Finance pursuant to Section 11-206 of the Administrative Code of the City of New York. This section grants the Commissioner of the Department of Finance the right to correct any assessment or tax which is erroneous due to a clerical error or error in description.

The proposed rule sets forth:

- the types of assessment errors that constitute clerical errors and errors in description and that are subject to administrative correction by the New York City Department of Finance, including specific examples, as well as the types of errors that are not subject to administrative correction.
- administrative review procedures to request administrative review of assessment errors.

Property owners are not restricted as to when they can submit applications for administrative review, but refunds will only be issued for periods commencing after the Department of Finance has been notified of the error. Issues that had been or are being challenged at the New York City Tax Commission or in a court proceeding are not subject to administrative review.

Matter underlined is new. Matter in [brackets] is to be deleted.

"Will" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department unless otherwise specified or unless the context clearly indicates otherwise.

**Section 1. Section 24-02 of Chapter 24 of Title 19 of the Rules of the City of New York is amended to read as follows:**

Any application required by the Commissioner of Finance for refunds (or transfers) of over and double payments of real property taxes, assessments, water charges and sewers rents may be made by filing an application on a form or in a format established by the Commissioner of Finance, plus any documentation requested by the Department in order to evidence that the applicant is entitled to the refund or transfer of the overpayment, within six years after the date of the over or double payment, except for administrative review applications that are governed by Chapter 53 of these Rules. Any such documentation required may

include, but is not limited to, copies of both sides of cancelled checks, receipted bills, a printout of the confirmation of payment of taxes by electronic means, statements or other documentation from the taxpayer's bank or an affidavit setting forth facts alleged by the applicant.

**§ 2. Title 19 of the Rules of the City of New York is amended by adding a new Chapter 53, to read as follows:**

Chapter 53

POWER OF THE COMMISSIONER OF FINANCE TO CORRECT ERRORS CONCERNING ASSESSMENT OR TAX ON REAL PROPERTY

§ 53-01 *Administrative Review Procedure*

a. *Application Procedures.* (1) Any request for administrative review concerning assessment or tax of real property pursuant to this section must be filed by the owner of the property or any person who would be entitled to file a complaint pursuant to Section 163 of the New York City Charter with the Property Division of the Department of Finance. Any such request must be made on an application form prescribed by the Commissioner of Finance and include all required information.

2. An eligible filer may submit an application pursuant to this section for administrative review of clerical errors and errors in description as defined in subdivisions (a) and (b) of Section 53-02 of this chapter. An eligible filer is not restricted as to when an application may be submitted, but refunds or credits will only be issued for periods commencing after the Department is notified in writing of the error. (3) It will be within the sole discretion of the Department to determine whether additional documentation or an inspection is necessary to review the application for administrative review. If all requested documentation is not submitted within sixty days, the application will be denied.

(b) The Department will deny any request for administrative review that relates to property for which an income and expense statement or a claim of exclusion was required pursuant to Section 11-208.1 of the Administrative Code but was not timely filed in the calendar year immediately preceding the date of the request.

§ 53-02 *Clerical errors and Errors in Description*

(a) *Clerical Errors.* The Commissioner of Finance may correct any assessment or tax that is erroneous due to a clerical error as defined in subdivision 2 of Section 550 of the Real Property Tax Law. Clerical error will include but not be limited to the following:

(1) *Failure to process partial exemption.*

Example: Eligible senior citizen submits a completed application for the senior citizen homeowner exemption for the 2014/15 year. The application is not approved or denied but is lost and the homeowner does not receive the exemption for 2014/15.

(2) *Computer programming or inputting error resulting in value different than intended by assessor.*

Example: Assessor values an office building at \$1,000,000 but the assessment roll mistakenly reflects a value of \$10,000,000 due to a computer programming or inputting error.

(b) *Errors in Description.* The Commissioner of Finance may correct any assessment or tax due to an error in description which will include but not be limited to the following:

(1) *Incorrect tax classification on the assessment roll due to an inventory error concerning the records maintained by the Department of the physical characteristics of the property.*

Example: Department records indicated that there were twelve units on the property when there were in fact ten units. The tax class will be changed from class 2 to subclass 2B (capped).

(2) *Physical change not put on the assessment roll or put on as an equalization change.*

Example: New construction was performed on the property but the assessment roll does not reflect a physical increase subsequent to the completion of the work).

(3) *Physical change put on the assessment roll when no physical work was done.*

Example: No construction work or alterations were performed on the property in the previous year but the assessment roll reflects a physical increase in assessed value.

(4) *Equalization change erroneously put on an assessment roll as a physical change.*

Example: The value of the property increased due to increases in rental income, but no physical work was done on the property in the previous year. The assessment erroneously reflected a physical increase in assessed value instead of an equalization increase in assessed value.

(5) *In progress assessment erroneously not removed from the assessment roll.*

Example: Construction has commenced on a commercial building for a year but a certificate of occupancy has not been issued by April 15th. Therefore the assessment on the improvement should be removed from the assessment roll. The failure to remove the assessment based on the partial completion will be corrected.

(6) *Incorrect entry on the assessment roll of the assessed value of an improvement which was destroyed or removed prior to the taxable status date.*

Example: House on the property was demolished prior to January 5th, but the assessment roll indicates a building assessed value for the property.

(7) *Incorrect entry on the assessment roll of the assessed value of an improvement which was not in existence or which was present on a different parcel.*

Example: House assessed for the property at 100 Main Street (vacant land) when the house existed on the property at 110 Main Street.

(8) *Assessment based on incorrect square footage.*

Example: Owner-occupied warehouse is valued based on 10,000 square feet when it has 5,000 square feet and the assessed value would have been lower if the correct square footage had been used.

(9) *Assessment based upon incorrect number of units.*

Example: Retail property is valued using four rental units when it has two rental units, and the assessed value would have been lower if the correct number of units had been used.

(10) *Inaccurate building class that affected assessed value.*

Example: Warehouse property (building class E1) erroneously had a K1 retail building class that resulted in higher income being applied and an assessed value that was too high.

(11) *Erroneous calculation of transitional assessment or statutory limitation on assessment increases.*

Example: Class one property has an equalization increase in assessed value of 10% from the previous year, which exceeds the statutory cap of 6% per year.

(12) *Incorrect apportionment of parcel on the tax map.*

Example: Parcel was requested to be apportioned 50% to the old owner and 50% to the new owner. The tax map erroneously apportioned 70% of the parcel to the old owner and its assessed value would have been lower if the apportionment had been done correctly.

(13) *Land incorrectly deemed developable.*

Example: Property is protected wetlands and cannot be developed, but is valued as if it were vacant land subject to development.

(14) *Correction of defective changes by notice.*

Example: The assessed value of a commercial property is increased prior to May 10th, the end of the change by notice period, but the 10-day notice required pursuant to statute is not mailed. The increase is therefore defective and the assessed value should be restored to the prior amount.

(c) *Errors Not Subject to Administrative Correction.* The following errors will not be subject to administrative correction:

(1) *Overvaluation due to inappropriate comparables or attributed income:*

Example: Condominium was valued using comparable income from rentals in a different neighborhood rather than rentals from the same neighborhood.

(2) *Incorrect valuation model utilized.*

Example: Retail property was valued using an 8% capitalization rate, but it was determined in subsequent models that a 9% capitalization rate was more appropriate for this type of property in this location.

(3) *Error in land/building ratio.*

Example: The land assessed value for a class one single-family house is 40% of the total assessed value, but it is subsequently determined that the land proportion of the total assessed value should be 50%.

(4) *Incorrect calculation of exemption based on error in application of the statute (inclusion of additional year in exemption calculation previously held by court not to be a clerical error).*

Example: a J-51 exemption was incorrectly calculated to include equalization increase for four years instead of three years as per the statute.

(d) *Notwithstanding any provision set forth in this section, issues that either have been or are being challenged at the New York City Tax Commission or in court are not subject to administrative review.*
