MAYOR'S OFFICE OF ENVIRONMENTAL COORDINATION

NOTICE

NOTICE OF PUBLIC SCOPING

The Office of the Deputy Mayor for Economic Development

Draft Scope of Work for a Generic Environmental Impact Statement for

The Phased Redevelopment of Governors Island

NOTICE IS HEREBY GIVEN THAT a public scoping meeting will be held on Tuesday, April 5, 2011, at Spector Hall, 22 Reade Street, New York, NY at 6:00 P.M. The purpose of the scoping meeting is to provide the public with the opportunity to comment on the draft scope of work to be used to develop a Generic Environmental Impact Statement (EIS) for the proposed Phased Redevelopment of Governors Island project. Written comments on the draft scope may also be submitted until 5:00 P.M. Friday, April 15, 2011.

Directing that a Generic Environmental Impact Statement be prepared, the Environmental Assessment Statement, Positive Declaration, and draft Scope of Work were issued by the Office of the Deputy Mayor for Economic Development on March 4, 2011, and are available for review from the contact person listed below and on the websites of the Mayor's Office of Environmental Coordination and The Trust for Governors Island: www.nyc.gov/oeq and www.govisland.com, respectively.

The proposed project, which is anticipated to be developed in phases until 2030, would result in the vibrant, mixed-use destination envisioned for the Island. The Trust for Governors Island has undertaken a planning effort that would be executed over a number of years, with development and tenancy of the Island proceeding in multiple phases and depending upon financing. This re-development of the Island is a complex process and an overall plan for all requirements for the Island has not yet been adopted; therefore, not all the specifics of future development are known at this time. However, the initial phase will be park and open space development, with tenancies in historic buildings and new development occurring at a later date. To further this goal, a Park and Public Space Master Plan (the "Park Master Plan") was developed that enumerates a set of principles, renderings, and text that depict the fundamental concepts for the design of the Island's parks and public spaces. For the future, several scenarios were developed that could represent a reasonable range of new development that could occur in conformance with the current real estate use covenants. These include a primarily University/Research Option (URO) and a predominantly Mixed-Use Option (MUO), both of which would provide equivalent amounts of development. Because of the phased nature and anticipated length of the proposed project, a generic environmental impact statement will be prepared.

Because of the phased nature of the proposed project, the initial discretionary action by the City is the approval of funding to begin construction of the first phase of the Park Master Plan. While the Park Master Plan envisions development of all the open space planned for the Island, the first phase will be limited to improvements to the Historic District including Soissons Landing, the South Battery, Liggett Terrace, and to approximately 22 acres of open space in the center of the South Island (south of Liggett Terrace) to create the Hammock Grove and the Play Lawn. This initial phase would also include infrastructure improvements to bring potable water to the Island by constructing a 12-inch water main from Brooklyn to the Island.

The project requires Mayoral approval of capital construction funds for Phase 1 of the project. Because of the phased nature of this project, further development would require re-zoning all or portions of the Island and may require other land use approvals (such as special permits, modifications, and/or authorizations) in the future and that would undergo environmental review at that time as appropriate.
