The City's internship program provides students with an opportunity to gain valuable work experience and exposure to the daily challenges and rewards of public service. Internships offered reflect the richness and breadth of the work performed in New York City and cover almost all areas of municipal government, including but not limited to education, media, health services, budget administration, information technology and housing.

As you review the internship postings on our website, please review the position descriptions closely. Application requirements may vary across agencies and by position. You can also gain access to the website by using the following link: www.nyc.gov/dcassip

I encourage you to join the City's workforce this summer and experience the satisfaction that comes only from public service. We look forward to working with you.

Sincerely,

Lisette Camilo
