- (2) To ensure the maintenance of the #waterfront public access areas#, prior to obtaining any certificate of occupancy, the property owner shall post security in the form of a maintenance bond, letter of credit or other security acceptable to the Department of Parks and Recreation (DPR), with the DPR in an amount certified by a registered architect or landscape architect to be sufficient to cover one hundred and twenty-five percent of the cost of maintaining the #waterfront public access areas# for a twelve month period following final completion of such #waterfront public access areas#. The security shall be replaced every five years with a new security in an amount sufficient to cover one hundred and twenty five percent of the current annual cost of maintaining the #waterfront public access areas#, as certified by a registered architect or landscape architect. The security shall be in effect for the life of the #development#.

(b) Maintenance and liability

Any declaration by the owner, its successor or assigns, or agreement between the owner, its successor or assigns, and the City of New York, provided in accordance with 62-74 (Requirements for Recordation) regarding the maintenance and operation of a required #waterfront public access area# as established in Section 62-52 (Applicability of Waterfront Public Access Area Requirements), shall provide that:

- (1) the owner, its successor or assigns, will construct and be responsible for ordinary maintenance and repair of all such areas;
- (2) the City will indemnify and defend the owner, its successor or assigns, for judgments resulting from litigation of claims of personal injury on such areas in accordance with reasonable provisions and procedures in the declaration and the maintenance and operation agreement, provided that the owner, its successor or assigns, has fully complied with the design and maintenance requirements set forth in this Resolution and the maintenance and operation agreement; and
- (3) in the event such areas are destroyed or substantially damaged as a result of flood, storm, fire or other acts of

God, reconstruction shall be the responsibility of the City, provided that such destruction or damage is not the result of the negligence of the owner, or of the owner's failure to construct or maintain such areas in accordance with the provisions of this Resolution and the maintenance and operation agreement.

(4/22/09)

62-73

Request to Transfer Title to Certain Waterfront Public Access Areas

- (a) The owner of a #zoning lot# on a #waterfront block# may, at the owner's option, and prior to commencement of design and construction of #waterfront public access areas#, make a request directed to the Office of the Mayor (Request) to transfer to the City of New York its fee simple absolute interest, free and clear of any encumbrances that are not deemed acceptable by the City, in the #waterfront public access area# on such #zoning lot#.
- (1) The City may accept the Request, provided that transfer will be made in a manner acceptable to the Chairperson of the City Planning Commission and the Commissioner of Parks and Recreation, who may specify conditions for transfer including, without limitation, establishment by the owner of an account for the funding of ordinary maintenance of the #waterfront public access area# and a capital reserve or funding mechanism for future capital repair, and adequate guarantees of access to the #waterfront public access area# and, provided further, that transfer is made pursuant to such instruments, which shall be a condition of certification pursuant to Section 62-811 (Waterfront public access and visual corridors), paragraphs (b) and (c), as are necessary for implementation. Where the Request is for transfer of a phase of the #waterfront public access area# pursuant to a phased implementation of required public access areas certified by the Chairperson pursuant to Section 62-811 or authorized by the City Planning Commission pursuant to Section 62-822, the City shall consider, in determining whether to accept such Request, such factors as the size, location and access for purposes of maintenance, repair and reconstruction, of the phase which is the subject of the Request, and may require as a condition of acceptance that the owner make binding commitments to the transfer of subsequent phases.
- (2) The Department of Parks and Recreation (DPR) shall review and approve the design and construction specifications for

the #waterfront public access areas# proposed for transfer, and transfer of such areas shall be made prior to the issuance of any temporary or permanent certificate of occupancy for any part of the #development# for which such areas are required to be constructed, upon determination by the DPR that construction of such areas is complete, as required pursuant to Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), and is in accordance with the previously approved design and construction specifications, except that signage required pursuant to Section 62-654 may be replaced by DPR signage.

- (3) The provisions of 62-72 (Performance and Maintenance Requirements), paragraphs (a)(2) and (b), shall not apply to any #waterfront public access area# transferred pursuant to this Section.

In the event of a transfer under this paragraph, (a), the #bulk# and parking computations for the #zoning lot# shall include the transferred property. Such transfer shall not be deemed to have created a #non-compliance#.

- (b) For parcels identified in Waterfront Access Plan BK-1, the owners of two or more parcels may, either for purposes of certification pursuant to Section 62-811 or at any time thereafter, submit an alternate plan to the Chairperson for the joint maintenance and operation of #waterfront public access areas# on such parcels, through an association or other entity established for this purpose or by other method. Such plan may include, in addition to provisions for maintenance and operation, alternate provisions with respect to security, liability and any other matters set forth in Section 62-72 (Performance and Maintenance Requirements), as well as special provisions for reporting and monitoring of compliance with obligations for maintenance and operation of the #waterfront public access areas#. Such plan and any instruments as are necessary for its implementation may be approved by the Chairperson and the Commissioner of Parks and Recreation upon a determination that:
 - (1) implementation of the plan would enhance maintenance and operation of the #waterfront public access areas# consistent with the purposes of this Chapter; and
 - (2) participation in the plan is available to owners of contiguous parcels identified in Waterfront Access Plan BK-1 on an equal basis.

(4/22/09)

62-74

Requirements for Recordation

All required #visual corridors# and #waterfront public access areas# other than those provided in parks #developed# pursuant to Section 62-59 (Special Regulations for Zoning Lots that Include Parks), once certified in accordance with the provisions of Section 62-811 (Waterfront public access and visual corridors), paragraphs (b) or (c), shall be duly recorded in the form of a signed declaration of restrictions, including a maintenance and operation agreement with the Department of Parks and Recreation when a #waterfront public access area# is provided, indexed against the property, binding the owners, successors and assigns to provide #visual corridors# and to construct and maintain the #waterfront public access areas#, except as provided in the provisions of Section 62-70, inclusive, and provide public access thereto in accordance with the plans certified by the Chairperson of the City Planning Commission. Such declaration or maintenance and operation agreement shall require that a bond be posted that would ensure that the #waterfront public access areas# are maintained in accordance with the declaration or maintenance and operation agreement and are closed only at authorized times, and shall set forth rules of conduct consistent with the provisions of paragraph (b) of Section 62-71. The filing of such declaration in the Borough Office of the Register of the City of New York shall be a precondition for the issuance of a building permit.

In addition, the preceding #waterfront public access areas# elements shall be recorded on the certificate of occupancy by the Departments of Buildings or Business Services, as applicable, and shall be a condition of issuance of such certificate of occupancy.

For parcels identified in Waterfront Access Plan BK-1 for which an alternate plan for joint maintenance and operation has been approved, or for parcels for which a transfer to the City is proposed pursuant to paragraph (b) of Section 62-73, the provisions of such instruments as are necessary to effectuate such paragraph shall supersede those of the maintenance and operation agreement described in this Section.

(4/22/09)

62-80

SPECIAL REVIEW PROVISIONS

An application to the Department of Buildings, Department of City Planning or Department of Business Services, involving a #zoning lot#

subject to the provisions of this Chapter, shall include a survey of the #zoning lot# showing the following elements, as applicable, and documentation showing compliance with all requirements for #waterfront public access areas#:

- (a) pierhead line;
- (b) bulkhead line;
- (c) #shoreline#, including its length;
- (d) #upland lot#, including its area;
- (e) #seaward lot#, including its area;
- (f) area of the portion of the #zoning lot# seaward of the #shoreline#;
- (g) #existing piers#, #platforms# or #floating structures#, including #water coverage# and surface elevation or height, as applicable;
- (h) previously established and recorded #visual corridors# and #waterfront public access areas# or any other public access area on the #zoning lot# or on adjoining #zoning lots#;
- (i) #visual corridors# or #waterfront public access areas# required on the #zoning lot# by a Waterfront Access Plan set forth in Section 62-90; and
- (j) existing bulkheads and stabilized portions of natural shore showing seaward and landward edges, as well as their top elevations.

(2/2/11)

62-81

Certifications by the Chairperson of the City Planning Commission

The provisions of Sections 62-811 and 62-812, relating to certifications for #waterfront public access areas#, #visual corridors# and #zoning lot# subdivisions, shall apply to all #zoning lots# within #waterfront blocks# and any other #blocks# included within a Waterfront Access Plan, except that the following shall not be subject to the provisions of Section 62-811:

airports, heliports and seaplane bases;

in any district, existing #zoning lots# of less than 10,000

square feet #developed predominantly# with #single-# or #two-family residences# within #detached#, #semi-detached# or #zero lot line buildings#, provided such #zoning lots# are not included within an area subject to a Waterfront Access Plan pursuant to Section 62-90;

#zoning lots# in R1 and R2 Districts; and

#zoning lots# in C8 and #Manufacturing Districts#, containing #predominantly# Use Group 16, 17 or 18 #uses#, except for docking facilities serving passenger ocean vessels or sightseeing, excursion or sport fishing vessels.

(2/2/11)

62-811

Waterfront public access and visual corridors

No excavation or building permit shall be issued for any #development# on a #waterfront block#, or any other #block# included within a Waterfront Access Plan, until the Chairperson of the City Planning Commission certifies to the Department of Buildings or Department of Business Services, as applicable, that:

- (a) there is no #waterfront public access area# or #visual corridor# requirement for the #zoning lot# containing such #development# due to the following:
 - (1) the #development# is exempt pursuant to Sections 62-52 (Applicability of Waterfront Public Access Area Requirements) or 62-51 (Applicability of Visual Corridor Requirements); or
 - (2) the #waterfront public access area# or #visual corridor# requirement has been waived pursuant to Section 62-90 (WATERFRONT ACCESS PLANS);
- (b) a site plan has been submitted showing compliance with the provisions of Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS);
- (c) a site plan has been submitted showing compliance with the provisions of Section 62-90;
- (d) for #developments# listed in Section 62-52, paragraph (b), on a #zoning lot# containing a public access area established prior to October 25, 1993, meeting the terms of Section 62-58

(Requirements for Water-Dependent Uses and Other Developments), by restrictive declaration, lease agreement, maintenance and operation agreement or other agreement with a public entity, which public access area is required to be provided for the life of the #development# subject to such agreement, a copy of such restrictive declaration or agreement and a site plan indicating the location, area and design of the required public access area and showing substantial compliance with the provisions of Section 62-58 have been submitted; or

- (e) for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-59 (Special Regulations for Zoning Lots that Include Parks).

For any parcel identified in Waterfront Access Plan BK-1, the Chairperson shall allow for the phased implementation of all required #waterfront public access areas# upon certification to the Commissioner of Buildings that a plan has been submitted that provides for an amount of #waterfront public access area# proportionate to the amount of #floor area# being #developed# in each phase. Additionally, for any #development# located within 240 feet of a #shoreline#, the initial phase and each subsequent phase shall provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and such #shore public walkway#, one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#, and at least one other connection from the #shore public walkway# to an adjacent #shore public walkway#, #street# or other #upland connection#. For any #development# located entirely beyond 240 feet of a #shoreline#, the initial phase and each subsequent phase shall also provide a minimum of 100 linear feet of #shore public walkway# and one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#. However, no #waterfront public access area# need be provided for a phase consisting of a #development# in which all #residences# in such phase are affordable #residences# for #lower income households# as defined in Section 23-93, or #moderate income households# as defined in Section 62-352, provided that such exemption shall only apply where 25 percent or less of the total #residential floor area#, including any applicable #floor area# bonuses, on the parcel has been #developed#.

A certification pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-74 (Requirements for Recordation).

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed #development# complies with the requirements of this Section or disapprove such application, citing

the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the Department of Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.

(4/22/09)

62-812

Zoning lot subdivision

An existing #zoning lot# within a #waterfront block#, or within any other #block# included in a Waterfront Access Plan, may be subdivided into two or more #zoning lots#, or reconfigured in a manner that would reduce its area or any dimension, only in accordance with the provisions of this Section or as modified pursuant to Section 62-822 (Modification of waterfront public access area and visual corridor requirements).

Such #zoning lot# may be subdivided or reconfigured provided that the Chairperson of the City Planning Commission certifies that:

- (a) there are no requirements in this Chapter for a #waterfront public access area# or #visual corridors# on such #zoning lot# for any #use# permitted on such #zoning lot#; or
- (b) a restrictive declaration shall be recorded against each subdivided or reconfigured #zoning lot#, binding all such #zoning lots# to provide #waterfront public access areas# or #visual corridors# at the time of a #development#, other than an exempt #development#, as set forth in Section 62-52. Such restrictive declaration shall include a site plan that sets forth the amount and location of the required #waterfront public access areas# and #visual corridors# on all resulting #zoning lots#. Such #waterfront public access area# or #visual corridor# shall be provided as required for the original #zoning lot# at the time of #development# of a non-exempt #use#; or
- (c) there are existing publicly accessible waterfront open areas on the #zoning lot# constructed as part of a previously approved site plan providing physical and visual access to and along the waterfront, and such open areas are no smaller in square footage than that required under the provisions of this Chapter for #waterfront public access areas# and #visual corridors#, and restrictions have been recorded against the property requiring such existing open area to remain accessible to the public for the life of the #development#.

(3/26/14)

62-813

Docking facilities for ferries or water taxis in certain waterfront areas

In Community District 1 in the Borough of Brooklyn, docking facilities for ferries or water taxis set forth in paragraph (a) of this Section shall be permitted, provided that the Chairperson of the City Planning Commission certifies to the Commissioner of the Department of Buildings that such docking facilities comply with the standards for required amenities set forth in paragraph (b) of this Section and, where provided, the standards for permitted amenities set forth in paragraph (c) of this Section. In conjunction with such certification, parking and drop-off and pick-up area requirements for docking facilities with a vessel capacity of up to 399 passengers shall be waived, as applicable. Where such docking facilities are proposed within a #waterfront public access area#, such docking facilities shall also comply with the provisions of paragraph (d) of this Section. Where modifications to a docking facility certified pursuant this Section are made, including the amount or configuration of docking facility amenities, establishment of, or modification to, #waterfront public access areas# on the same #waterfront zoning lot#, or the cessation of ferry or water taxi service to such docking facility, the provisions of paragraph (e) of this Section shall apply.

The amount of amenities permitted or required pursuant to paragraphs (b) and (c) of this Section shall be calculated for each docking facility on the #waterfront zoning lot# and not according to the number of vessels a single docking facility can accommodate.

(a) Docking facilities

The following docking facilities are subject to the certification provisions of this Section:

- (1) docks for water taxis, with a vessel capacity of up to 99 passengers, as listed in Use Group 6C, when located within R6 through R10 Districts, or C1, C2, C4, C5, C6 or C8 Districts, and as listed in Use Group 14A, when located in C2, C3, C7 or C8 Districts and #Manufacturing Districts#;
- (2) docks for ferries, other than #gambling vessels#, with a vessel capacity of up to 399 passengers, as listed in Use Group 6C, when located within R6 through R10 Districts or C1, C2, C4, C5, C6 or C8 Districts, and as listed in Use Group 14A, when located in C2, C3, C7 or C8 Districts and

#Manufacturing Districts#; and

- (3) docks for ferries with an unlimited capacity, as listed in Use Group 10A, in C4, C5, C6, C8 Districts and #Manufacturing Districts#.

(b) Required amenities

Passenger queuing space, bicycle parking and a trash receptacle shall be provided in accordance with the applicable provisions of this paragraph, (b), inclusive. All applications shall include a site plan denoting the location of each required amenity, dimensioned plans and elevations of individual amenities, as applicable, as well as any other material required to demonstrate compliance with such provisions.

(1) Passenger queuing space

Passenger queuing space shall be provided in accordance with the provisions of this paragraph, (b)(1), inclusive.

(i) Amount

A minimum of four square feet of queuing space per passenger shall be provided on the #waterfront zoning lot# for 40 percent of the U. S. Coast Guard certified passenger capacity of the largest vessel proposed to dock at such facility. Queuing space may be either standing space or seating space, and may be either open to the sky or provided within a sheltered space for passengers in accordance with the provisions of paragraph (c)(1), inclusive, of this Section.

(ii) Standing space

All standing queuing space shall be contiguous and clear of obstructions, except for any interruption by circulation paths required for access to docking facilities through a gangway, or pier access thereto. However, such standing queuing space may be non-contiguous and temporary dividers may be permitted as obstructions within such queuing space where the applicant signs an affidavit, or provides materials demonstrating in a manner that is satisfactory to the Chairperson, that an attendant will manage queues whenever such measures are implemented.

(iii) Seating space

A minimum of ten percent of required queuing space

shall be provided as seating, and up to 50 percent of required queuing space may be provided as seating. However, no seating shall be required within a previously approved #waterfront public access area#. For the purpose of applying seating towards the queuing requirement, one linear foot of seating shall equal one square foot of queuing space.

All seating provided for queuing space shall comply with the applicable dimensional criteria of Section 62-652 (Seating), but need not comply with the percentage requirements for different types of seating required pursuant to such Section. However, moveable chairs shall not constitute seating for queuing.

Any seating space provided pursuant to this Section within an existing or proposed #waterfront public access area# shall not count towards the maximum amount of seating permitted to be located seaward of the #shore public walkway# pursuant to paragraph (b) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas).

(iv) Location

Queuing space shall be provided on the #waterfront zoning lot# within 150 feet of the landward terminus of the gangway leading to the docking facility.

(2) Bicycle parking

Bicycle racks sufficient to provide at least four bicycle parking spaces shall be provided on the #waterfront zoning lot#. Such bicycle racks shall comply with the standards of Section 62-657.

(3) Trash receptacle

One trash receptacle shall be provided on the #waterfront zoning lot# within 25 feet of the landward terminus of the gangway leading to the docking facility. Such trash receptacle shall comply with the standards of Section 62-658.

(c) Permitted amenities

Passenger queuing shelters and ticketing machines may be provided only in accordance with the applicable standards of this paragraph, (c), or, where applicable, the authorization provisions set forth in Section 62-824 (Modifications to

passenger queuing shelters for ferry or water taxi docking facilities).

All applications shall include a site plan denoting the location of such amenities, dimensioned plans and elevations of individual amenities, as well as any other material required to demonstrate compliance with the following standards:

(1) Passenger queuing shelter

Where provided, passenger queuing shelters shall comply with the provisions of this paragraph, (c)(1), inclusive. All heights are measured from adjoining grade.

(i) Maximum dimensions and permitted enclosing walls

The maximum height of a shelter shall be ten feet. Below a height of seven feet, the maximum width shall be four feet, and above a height of seven feet, the maximum width shall be eight feet. The maximum length of a shelter shall not exceed 16 feet, except that where a ticketing machine provided pursuant to paragraph (c)(2) of this Section is located within such shelter, such maximum length may be increased to 20 feet.

Shelters shall be permitted a total of three enclosing walls, one along the long dimension of the shelter, and one along each narrow end.

(ii) Support structures below the roof

A maximum of two vertical columns may support the enclosing walls and the roof of a shelter, except that where a ticketing machine provided pursuant to paragraph (c)(2) of this Section is located within such shelter, an additional column shall be permitted. The maximum width and depth of such columns shall not exceed twelve inches. All such columns shall be aligned so that when viewed in elevation view along the narrow end of the shelter, only one column shall be visible.

Below a height of 30 inches, one horizontal structural element shall be permitted along the long dimension of the shelter. The maximum depth and height of such structural element shall not exceed twelve inches. Between a height of 30 inches and seven feet no horizontal structural elements shall be permitted, and above a height of seven feet, horizontal structural elements shall be considered part of the roof

structure.

Additional support structures needed to support glazing in the enclosing walls are permitted, provided that such structures are to the minimum amount necessary.

(iii) Roof structure

The roof of the shelter, including all associated structural elements and materials, shall be located above a height of seven feet.

The maximum depth of the roof, including all associated structural elements and materials, shall not exceed twelve inches, as measured perpendicular to the roof surface. In addition, within six inches of the edge of any portion of the roof that cantilevers over passenger queuing space, as viewed in elevation along the narrow end of the shelter, the depth of the roof shall be limited to three inches.

No slopes or curves shall be permitted in the roof along the long dimension of the shelter. Along the narrow end of the shelter, slopes not to exceed fifteen degrees and curves with a radius of at least ten feet shall be permitted. Where two slopes are provided, in no event shall both portions of the roof angle downward from the same point.

(iv) Materials, lighting and permitted signage

On each narrow end of the shelter, the enclosing wall or associated vertical support column may accommodate up to six square feet of way-finding ferry #signs#, with a width not to exceed twelve inches. In addition, the enclosing wall on the long end of the shelter or a face of a ticketing machine provided in accordance with paragraph (c)(2) of this Section may accommodate up to six square feet of materials related to ferry operations, including maps and schedules of ferry service. No #advertising signs# shall be permitted.

All structural elements shall be composed of unpainted, metallic materials. The entire surface area of all enclosing walls shall be composed of untinted, transparent materials, except for transparency distraction markers and any support structures or signage permitted pursuant to this paragraph, (c)(1). A minimum of 50 percent of the surface area of the roof shall be composed of translucent materials, except that

any portion occupied by solar panels shall be excluded from such calculation. Benches provided within a shelter shall either match or complement such shelter materials.

Where lighting is provided within a shelter, the luminaire shall be shielded so the light source is not visible.

(v) Location and orientation

Shelters shall be provided on the #waterfront zoning lot# within 100 feet of the landward terminus of the gangway leading to the docking facility.

The long dimension of the shelter shall be oriented so as to be within 15 degrees of being perpendicular to the shoreline or, where located on a pier, within 15 degrees of being parallel to such pier.

Where a shelter is provided within a previously approved #waterfront public access area#, the Chairperson may modify the location and orientation provisions of this Section, to the minimum extent necessary, where site limitations would make compliance with such provisions infeasible.

(2) Ticketing machines

Ticketing machines provided in conjunction with a docking facility shall comply with the provisions of this paragraph, (c) (2).

(i) Maximum square footage

The maximum area of all ticket machines, as measured in plan around the furthest extent of such machines, shall not exceed 12 square feet.

(ii) Location

Ticketing machines shall be provided on the #waterfront zoning lot# within 100 feet of the landward terminus of the gangway leading to the docking facility.

Where a passenger queuing shelter is provided in conjunction with the ferry or water taxi docking facility pursuant to paragraph (c) (1) of this Section, ticketing machines shall be located either within, or immediately adjacent to the upland portion of such

shelter.

Any ticketing machine not placed within a passenger queuing shelter shall be placed in a location open to the sky.

Ticketing machines shall either front directly upon a required circulation path or shall be connected thereto by a walkway with an unobstructed minimum clear width of at least five feet.

Where a ticketing machine is provided within a previously approved #waterfront public access area#, the Chairperson may modify the location provisions of this Section, to the minimum extent necessary, where site limitations would make compliance with such provisions infeasible.

- (d) Provisions for adding amenities for docking facilities to a #waterfront public access area#

Docking facilities proposed within a previously approved #waterfront public access area# or in conjunction with a certification for such approval, pursuant to Section 62-811 (Waterfront public access areas and visual corridors), shall comply with the applicable provisions of this paragraph, (d).

- (1) Permitted obstructions

In no event shall amenities provided pursuant to paragraphs (b) or (c) of this Section be permitted to encroach upon the minimum circulation paths required pursuant to the applicable provisions of Sections 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), 62-63 (Design Requirements for Public Access on Piers and Floating Structures) and 62-64 (Design Requirements for Upland Connections).

- (2) Providing amenities in previously approved #waterfront public access areas#

All seating, bicycle parking and trash receptacles provided for docking facilities in accordance with the provisions of paragraph (b) of this Section, within a previously approved #waterfront public access area#, shall be provided in addition to the amount of seating, bicycle parking, or trash receptacles required for such #waterfront public access area# pursuant to the applicable provisions of Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS). Where excess seating, bicycle parking or trash receptacles

have been provided within such previously approved #waterfront public access areas#, such additional amenities may be applied towards compliance with the provisions for docking facilities of this Section, provided that such amenities comply with the applicable provisions of paragraph (b) of this Section. Where previously approved #waterfront public access areas# are #non-complying# as to the provision of required amenities, in no event shall the minimum amount of amenity provided for docking facilities pursuant to paragraph (b) reduce the degree of #non-compliance# of such #waterfront public access area#.

All seating, bicycle parking and trash receptacles provided in accordance with the provisions of paragraph (b) of this Section in an existing #waterfront public access area# shall either match or shall be comparable with such existing amenities, with regard to quality, materials, finishes, and form.

Modifications to a previously approved #waterfront public access area# in order to accommodate amenities to be provided for a docking facility in accordance with paragraphs (b) or (c) of this Section shall not constitute a design change to such #waterfront public access area#, and shall not necessitate a new certification pursuant to Section 62-811, provided that the applicant demonstrates to the Chairperson of the City Planning Commission that such modifications are to the minimum extent necessary in order to accommodate the amenities being provided for such docking facility.

- (3) Providing amenities in conjunction with a new #waterfront public access area#

All amenities provided for docking facilities in accordance with the provisions of paragraph (b) of this Section shall be provided in addition to all required seating, bicycle parking, or trash receptacles for a #waterfront public access area# being #developed# in conjunction with the provision of a docking facility. All such proposed amenities for the docking facility shall complement the proposed amenities for such #waterfront public access area#.

- (e) Modifications of certified docking facilities

Any modification to a docking facility certified pursuant to this Section, shall comply with the applicable provisions of this paragraph, (e).

- (1) Modification of amenities

Any modification of the required or permitted amenities for a docking facility certified pursuant to this Section, including the configuration of such amenities, shall be subject to a new certification pursuant to this Section.

Any ferry or water taxi service modification resulting in a reduction of passenger capacity of the largest vessel docking at such facility shall not be subject to a new certification provided that the amount of queuing space required at the time of approval, pursuant to paragraph (b) of this Section, is not diminished.

- (2) Establishment of or modifications to #waterfront public access areas#

Any establishment of a #waterfront public access area# or modification to a previously approved #waterfront public access area# where a docking facility certified pursuant to this Section is located, shall require a new certification, pursuant to this Section, in conjunction with the certification set forth in Section 62-811 (Waterfront public access areas and visual corridors).

- (3) Cessation of ferry or water taxi service

Where ferry or water taxi service ceases operations to a docking facility certified pursuant to this Section, and ferry docking infrastructure is removed from the #waterfront zoning lot# which would preclude further service, the following shall apply:

- (i) Passenger queuing shelters and ticketing machines provided pursuant to paragraph (c) of this Section shall be removed from the #waterfront public access area#;
- (ii) Seating, bicycle racks, and litter receptacles provided pursuant to paragraph (b) of this Section need not be removed; and
- (iii) any breach in a guardrail along a #pier# or along the #shore public walkway# to accommodate a gangway to a docking facility shall be repaired and shall match the adjacent guardrail.

62-82

Authorizations by the City Planning Commission

(3/26/14)

62-821

Modification of requirements for ferries and sightseeing, excursion or sport fishing vessels

- (a) In C1, C2, C3 and C7 Districts, the City Planning Commission may authorize modification of the #use# regulations of Section 32-10 (USES PERMITTED AS-OF-RIGHT) in order to allow docks for ferries with an operational passenger load greater than 150 passengers per half hour, or in Community District 1 in the Borough of Brooklyn, a vessel capacity larger than 399 passengers, provided the Commission finds that:
 - (1) such facility will not create serious pedestrian or vehicular traffic congestion that would adversely affect the surrounding area;
 - (2) the #streets# providing access to such facility will be adequate to handle the traffic generated thereby; and
 - (3) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in adjoining residential areas.
- (b) In all districts, the City Planning Commission may authorize a reduction or waiver of the parking requirements of Section 62-43 for docks serving ferries, or sightseeing, excursion or sport fishing vessels, provided the applicant submits a report that enables the Commission to make one or more of the following findings:
 - (1) that there is or would be adequate public or private transit in close proximity to the facility and that there is or would be a consistent pattern of usage by a significant percentage of passengers;
 - (2) that there is or would be a consistent pattern of passenger drop-off and pick-up by private cars, taxis or vans by a significant percentage of passengers;
 - (3) that there is or would be a consistent pattern of arrivals and departures on foot or by bicycle by a significant percentage of passengers;

- (4) that there is a consistent pattern of underutilization of existing #accessory# parking spaces; or
 - (5) that the dock serves or would serve vessels operating at different times during the day or week and that there is or would be shared usage of common parking spaces at mutually exclusive time periods.
- (c) In all districts, the Commission may authorize modification of the passenger drop-off and pick-up area requirements of Section 62-462, including a reduction in the number of required spaces, for docks serving ferries, or sightseeing, excursion or sport fishing vessels, provided the Commission finds that:
- (1) due to the configuration of the #zoning lot#, strict adherence to the regulations would not be possible to achieve;
 - (2) there is no practical possibility of locating such area on another #zoning lot# that would be contiguous, except for its separation by a #street# or #street# intersection, because appropriate sites are occupied by substantial improvements;
 - (3) there is no practical possibility of providing a lay-by area on an adjoining #street# that would be acceptable to the New York City Department of Transportation; and
 - (4) such modifications would not create serious vehicular traffic congestion that would adversely affect the surrounding area.

The Commission may impose appropriate conditions and safeguards to assure that such modifications will not adversely affect the surrounding area.

(2/2/11)

62-822

Modification of waterfront public access area and visual corridor requirements

- (a) Authorization to modify requirements for location, area and minimum dimensions of #waterfront public access areas# and #visual corridors#

The City Planning Commission may modify the requirements of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND

WATERFRONT PUBLIC ACCESS AREAS) and, in conjunction therewith, Section 62-332 (Rear yards and waterfront yards). The Commission may also authorize a portion or all of the required #waterfront public access area# to be provided off-site on an adjoining public property.

The Commission shall file any such authorization, pursuant to this paragraph, (a), with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such authorization. If the Council so resolves, within 50 days of the filing of the Commission's authorization, the Council shall hold a public hearing and may approve such authorization in whole or in part, with additional or modified restrictions or conditions, or disapprove such authorization. If, within the time periods provided for in this Section, the Council fails to act on the Commission's authorization, the Council shall be deemed to have approved such authorization.

- (1) In order to modify the location of #waterfront public access areas# and #visual corridors#, the Commission shall find that such areas, provided either on the #zoning lot# or off-site adjacent to the #zoning lot#, shall:
 - (i) comply with the required minimum dimensions and equal the required total area, in aggregate; and
 - (ii) due to their alternative location and design, provide equivalent public use and enjoyment of the waterfront and views to the water from upland #streets# and other public areas; or
 - (2) In the event the Commission determines that there is no feasible way to provide equal alternative #waterfront public access areas# either on the #zoning lot# or off-site on an adjoining public property or to provide equal alternative #visual corridors#, the Commission may authorize a reduction in minimum dimensions or area, or may waive such requirements, provided that:
 - (i) such #development# would be impracticable, physically or programmatically, due to site planning constraints such as the presence of existing #buildings or other structures# or elements having environmental, historic or aesthetic value to the public; and
 - (ii) that the reduction or waiver of requirements is the minimum necessary.
- (b) Authorization to modify requirements within #waterfront public access areas#

The City Planning Commission may modify the requirements within the #waterfront public access area# provisions of Sections 62-513 (Permitted obstructions in visual corridors), 62-58 (Requirements for Water-Dependant Uses and Other Developments), 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, and 62-90 (WATERFRONT ACCESS PLANS), inclusive.

In order to grant such authorization, the Commission shall find that such modifications:

- (1) are necessary to accommodate modifications pursuant to paragraph (a) of this Section; or
 - (2) would result in a design of #waterfront public access areas# that is functionally equivalent or superior to the design prescribed by strict adherence to the applicable provisions.
- (c) Authorization for phased #development# of #waterfront public access areas#

The City Planning Commission may authorize a phasing plan to implement #waterfront public access area# improvements on #zoning lots# undergoing partial development or #zoning lots# subdivided or reconfigured, pursuant to Section 62-812.

In order to grant such authorization, the Commission shall find that:

- (1) the amount of #waterfront public access area developed# in any phase is proportionate to the #lot area# being #developed# in such phase; or
- (2) physical or programmatic constraints make it infeasible to provide the #waterfront public access area# on a proportional basis as the #zoning lot# is improved, and the maximum feasible amount of #waterfront public access area# is #developed# in each phase.

A phasing plan shall be submitted that sets forth the amount and location of #waterfront public access area# that will be provided at the time each phase is #developed#.

- (d) Authorization to modify minimum hours of operation and to install gates

The City Planning Commission may authorize, for a period not to exceed ten years, modifications of the requirements for hours of operation set forth in Section 62-71, paragraph (a), or the installation of gates in #predominantly residential developments#

in accordance with the provisions of Section 62-651, paragraph (c) (2).

The Commission shall find that any modification of the hours of operation and the installation of gates in #predominantly residential developments# are warranted due to the remote location of the #waterfront public access areas#, and that such modified hours of operation or gates will not thereby unduly restrict public access to the waterfront.

As a condition of granting such authorization, the Commission shall find that all gates comply with the design requirements set forth in Section 62-651.

Public access to the #waterfront public access areas# shall be assured by appropriate legal instruments. Signage setting forth hours of operation shall be affixed to the gate which shall indicate the hours of public access authorized pursuant to this paragraph, (d).

The Commission may impose appropriate conditions and safeguards to assure that such modifications will achieve comparable physical and visual access to the waterfront or to assure that an approved phasing plan will be properly implemented. Such conditions may include, but are not limited to, deed restrictions, easements or performance bonds.

(2/2/11)

62-823

Modification of use regulations in C3 Districts

In C3 Districts, the City Planning Commission may authorize modification of #use# regulations to allow a WE #use# not otherwise allowed as-of-right or by special permit. In conjunction with such authorization, the Commission may also allow the #sign# regulations of a C1 District to apply to the #zoning lot#.

As a condition to the granting of such authorization the Commission shall find:

- (a) that such WE #use# is a #use# listed in Use Groups 5, 6, 7, 8, 9, 10, 12 or 13;
- (b) that the #zoning lot# also includes a WD #use# that is either permitted in the district as-of-right or has been permitted by special permit;
- (c) that such WE #use# will not create serious pedestrian or

vehicular traffic congestion that would adversely affect surrounding residential #streets#;

- (d) that the entrances and exits for #accessory# parking or loading facilities are so located as to not adversely affect #residential# properties fronting on the same #street#; and
- (e) that such WE #use# will not impair the character or future use or development of the surrounding area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. Such conditions and safeguards may include limitations on the size of the establishment, limitations on lighting and signage or screening requirements.

(3/26/14)

62-824

Modifications to passenger queuing shelters for ferry or water taxi docking facilities

In Community District 1 in the Borough of Brooklyn, the City Planning Commission may authorize a ferry passenger queuing shelter exceeding the dimensions set forth in paragraph (c)(1) of Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas), provided that the Commission finds that:

- (a) the public benefit derived from the proposed shelter merits the larger dimensions authorized;
- (b) the proposed shelter utilizes the design standards set forth in paragraph (c)(1) of Section 62-813 regarding permitted support structures, materials, signage and roof construction to the greatest extent feasible;
- (c) any modification to such provisions of Section 62-813 will not unduly limit views from the #waterfront public access area#; and
- (d) the design of the proposed shelter will result in a quality structure that complements the #waterfront public access area# or the publicly accessible area of a #waterfront zoning lot# accommodating the ferry or water taxi docking facility.

(4/22/09)

62-83

Special Permits by the City Planning Commission

(4/22/09)

62-831

Docks for passenger ocean vessels in C6 Districts

In C6 Districts, the City Planning Commission may permit docks for passenger ocean vessels, other than #gambling vessels#.

As a condition for granting a special permit, the Commission shall find that:

- (a) such facility will not create serious pedestrian or vehicular traffic congestion that would unduly inhibit surface traffic and pedestrian flow in the surrounding area;
- (b) the #streets# providing access to such facility will be adequate to handle the traffic generated thereby;
- (c) an area will be provided for the drop-off and pick-up of passengers by private car, taxi, van and bus that, at a minimum, meets the requirements of Section 62-462 (Passenger drop-off and pick-up areas for docking facilities), and which is so designed as to avoid traffic or pedestrian conflict on the #streets# providing access to the facility; and
- (d) such #use# will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including the provision of #accessory# off-street parking spaces, #accessory# off-street loading berths or additional area for the temporary parking of vehicles or buses for drop-off and pick-up of passengers.

(3/26/14)

62-832

Docks for ferries or water taxis in Residence Districts

In all #Residence Districts#, except R1 and R2 Districts, and except within Community District 1 in the Borough of Brooklyn, where the

certification provisions of Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas) shall apply, the City Planning Commission may permit docks for ferries or water taxis as listed in Use Group 6, provided that:

- (a) such facility will not create serious pedestrian or vehicular traffic congestion that would adversely affect surrounding residential #streets#;
- (b) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in the adjoining residential area;
- (c) there is appropriate landscaping along #lot lines# to enable such #use# to blend harmoniously with the adjoining residential area;
- (d) #accessory# off-street parking spaces are provided in accordance with Section 62-43 (Parking Requirements for Commercial Docking Facilities) and the entrances and exits for such #accessory# parking facilities are so located as to not adversely affect #residential# properties fronting on the same #street#; and
- (e) such #use# will not impair the character or the future use or development of the surrounding residential area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and to protect #residential# properties which are adjoining or across the #street# from the facility. Such additional conditions and safeguards may include provisions for temporary parking of vehicles for passenger drop-off and pick-up, additional #accessory# off-street parking spaces and limitations on lighting and signage.

(4/22/09)

62-833

Uses on floating structures

In all districts, the City Planning Commission may permit a #use# not otherwise allowed as-of-right by Section 62-25 to be located on a #floating structure# provided the #use# is permitted by the applicable district regulations and the #floating structure# complies with the height and setback regulations of Section 62-343.

An application for a #use# on a #floating structure# pursuant to this Section shall be made jointly by the property owner and the owner of the #floating structure#, if they are separate entities. In addition, the application shall include copies of all Federal and State permit

applications that are required to be filed in conjunction with the proposed #use#.

As a condition for granting a special permit, the Commission shall find that:

- (a) the proposed #use# is a WE #use# or is either a power plant or government-owned and operated facility that requires such a location due to the absence of a reasonable way to site the facility without use of a #floating structure#;
- (b) a plan for public access on the #floating structure#, elsewhere on the #zoning lot#, or off-site on public property adjacent to the #zoning lot#, is provided that is appropriate to the size and intensity of #use# on the #floating structure#;
- (c) except for power plants or government-owned and operated facilities, the location of such #use# on a #floating structure# will enhance public access to and use of the waterfront; and
- (d) the location of such #use# on a #floating structure# will not adversely affect the essential character, use or future growth of the waterfront and the surrounding area.

However, the Commission may waive the public access requirement for a power plant or government-owned and operated facility either where such access would conflict with the operation of the facility or be detrimental to the public welfare.

The Commission may also permit modification of the #visual corridor# requirements of Section 62-51, inclusive, provided it makes the additional finding that the location and configuration of the #floating structure# minimizes any adverse effects on significant views to the water from upland public #streets# or other public places.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and the surrounding area, including requirements for setbacks from #lot lines#, spacing from other #floating structures# on the same or adjoining #zoning lots# and limitations on lighting or signage.

(4/22/09)

62-834

Developments on piers or platforms

In all districts, the City Planning Commission may permit:

- (a) a change of #use# on a #new pier# or #new platform# from a WD #use# or playground or publicly accessible private park, to any other WE #use# permitted by the applicable district regulations and, in conjunction with such change of #use#, modification of the #bulk# regulations of Section 62-30 for an existing #building#, except for Section 62-31, paragraph (a), or the maximum #floor area ratio#, provided the Commission finds that:
 - (1) existing permitted WD #uses# and open WE #uses# on the #pier# or #platform# have been discontinued for a continuous period of at least two years immediately prior to the date of application;
 - (2) the proposed WE #use# will significantly enhance public use and enjoyment of the waterfront;
 - (3) there is no increase in #water coverage#; and
 - (4) in the case of modification of #bulk# regulations for an existing #building#, findings (b)(3) through (b)(6) of this Section are also met. Finding (b)(4) shall also include #platforms# within the #seaward lot#.
- (b) for an #existing pier#, any #use# permitted by the applicable district regulations and modifications of the provisions of Sections 62-332 (Rear yards and waterfront yards) and 62-342 (Developments on piers), provided the Commission finds that:
 - (1) the facility is so designed as to significantly enhance public use and enjoyment of the waterfront;
 - (2) #accessory# parking or loading facilities provided in conjunction with such #uses# are arranged and designed so as to not adversely impact public access areas anywhere on the #zoning lot#;
 - (3) the proposed #development# does not violate the #bulk# provisions of Section 62-341 (Developments on land and platforms);
 - (4) within the #seaward lot#, the ratio of #floor area# on the #pier# to #water coverage# of the #pier# does not exceed the maximum #floor area ratio# for the #use# as set forth in the district regulations;
 - (5) such #bulk# modifications would not unduly obstruct the light and air or waterfront views of neighboring properties; and

- (6) such modifications will not adversely affect the essential character, use or future growth of the waterfront and the surrounding area.
- (c) for #piers#, modification of the #waterfront public access area# and #visual corridor# requirements of Sections 62-50 and 62-60, provided the Commission finds that:
 - (1) the proposed #development# would result in better achievement of the goals set forth in Section 62-00 than would otherwise be possible by strict adherence to the regulations of Sections 62-50 and 62-60, inclusive; and
 - (2) an alternative #waterfront public access area# and #visual corridors# on the #zoning lot#, or off-site on a public property adjacent to the #zoning lot#, are provided that are substantially equal in area to that required and, by virtue of their location and design, provide equivalent public use and enjoyment of the waterfront and views to the water from upland #streets# and other public areas.

In the event that the Commission determines there is no feasible way to provide substantially equal alternative public access areas, either on the #zoning lot# or off-site on an adjoining public property or to provide substantially equal alternative #visual corridors#, the Commission may authorize a reduction or waiver of the requirements.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and the surrounding area, including requirements for setbacks from #lot lines#, spacing from other #buildings# on the same or adjoining #zoning lots#, limitations on lighting and signage and limitations on size of individual establishments.

(4/22/09)

62-835

Public parking facilities on waterfront blocks

In C1, C2, C4, C5, C6 and C7 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# on #waterfront blocks# in accordance with applicable district regulations and Sections 74-51 and 74-52, provided the parking facility is an interim #use# limited to a term of not more than five years, or the Commission finds that:

- (a) the facility is needed to serve primarily waterfront #developments# containing WD or WE #uses#; and
- (b) there is no practical possibility of locating such facility on a non-#waterfront block# because appropriate sites on such #blocks# are occupied by substantial improvements.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area.

(2/2/11)

62-836

Bulk modifications on waterfront blocks

In all districts, the City Planning Commission may permit modification of any applicable #yard#, #lot coverage#, height and setback, and distance between #buildings# regulations, for a #development# on a #zoning lot# within a #waterfront block#, excluding any portion on a #pier# or #new platform#, provided the Commission finds that such modifications will not adversely affect access to light and air on surrounding #waterfront public access areas#, #streets# and properties; and

- (a) will result in a better site plan and a better relationship between the #zoning lot# and the adjacent #streets#, surrounding neighborhood, adjacent open areas and #shoreline# than would be possible through strict adherence to the regulations; or
- (b) are necessary to protect unique natural features such as rock outcroppings, significant grade changes or wetlands, or to accommodate existing #buildings or other structures#.

(4/22/09)

62-837

Docks for gambling vessels

In all #Commercial Districts#, except C1 Districts, and in all #Manufacturing Districts#, the City Planning Commission may permit docks for #gambling vessels#, provided that, in #Commercial Districts#, the maximum aggregate dock capacity per #zoning lot# shall be determined by the zoning district, as indicated in the applicable provisions of Sections 32-18 (Use Group 9) and 32-23 (Use Group 14).

As a condition for permitting such #use#, the Commission shall find that:

- (a) the #streets# providing access to such docking facility will be adequate to ensure that the traffic generated will not unduly impede surface traffic and pedestrian flow in the surrounding area;
- (b) any noise and activity related to the docking facility, including vessel operations, will not have a detrimental impact on the waterfront and surrounding area; and
- (c) such #use# will not be incompatible with the essential character, #use# or future growth of the waterfront and surrounding area.

Docks for #gambling vessels# shall comply with all provisions of the Resolution, including the provisions of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), applicable to the type of vessel on which the shipboard gambling business is operated.

The Commission may prescribe additional conditions and safeguards to minimize any adverse effects on the waterfront and surrounding area.

This text amendment shall take effect on April 27, 1998.

(4/22/09)

62-90

WATERFRONT ACCESS PLANS

(4/22/09)

62-91

General Provisions

(4/22/09)

62-911

Establishment of Waterfront Access Plans

The City Planning Commission and City Council may adopt a Waterfront Access Plan as an amendment to this Resolution pursuant to Section 200 or 201 of the City Charter and in accordance with the provisions of Sections 62-912 (Elements of a Waterfront Access Plan), 62-913

(Conditions for the adoption of a Waterfront Access Plan) and this Section in order to adjust the #waterfront public access area# and #visual corridor# requirements of Sections 62-50 and 62-60, inclusive, retain the #waterfront block bulk# regulations of Section 62-30 on newly-created non-#waterfront blocks# within a specifically defined portion of the #waterfront area#, or establish #waterfront yard# requirements for #developments# otherwise exempt from the requirements of Section 62-33 (Special Yard Regulations on Waterfront Blocks).

To be considered for a Waterfront Access Plan, an area shall:

- (a) be entirely in the #waterfront area#;
- (b) not include any portions within R1 or R2 Districts;
- (c) comprise either entire #blocks# or a minimum of four acres, all portions of which are contiguous tracts of land except for intervening #streets#; and
- (d) have at least 600 feet of #shoreline#.

(4/22/09)

62-912

Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

- (a) on #zoning lots# where a #waterfront public access area# or #visual corridors# are required pursuant to the provisions of Sections 62-50 and 62-60, inclusive, modify the size, configuration, location or design of required #waterfront public access areas# or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a #waterfront public access area# or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-50 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a #zoning lot# may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the #waterfront public access area# and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the #waterfront public access area# and #visual corridor# requirements of each #zoning lot# within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

- (b) on #zoning lots# where #waterfront public access area# or #visual corridors# are not required pursuant to the provisions of Sections 62-50 and 62-60, inclusive, establish requirements for a #waterfront public access area# or #visual corridors#, except for those #zoning lots# predominantly developed# for airports, heliports, seaplane bases or, in C8 or #Manufacturing Districts#, #uses# in Use Groups 16, 17 or 18, provided that such #zoning lots#, when improved would result in a community need for such physical or visual access to the waterfront or a waterfront linkage of #public parks# or other public areas. The plan may incorporate one or more of the #waterfront public access areas# or #visual corridors# listed in Section 62-50, inclusive, consistent with the standards of Sections 62-50 and 62-60, inclusive. Such standards may be modified as necessary to address local conditions provided such plan does not impose a requirement for any component greater than would otherwise be required pursuant to the provisions of Sections 62-50 or 62-60;
- (c) modify or waive specific requirements for a #waterfront public access area# or #visual corridors# in certain designated areas where such requirements would not be compatible with local conditions and therefore not serve to further public enjoyment of the waterfront;
- (d) identify shore terminations of mapped #streets# or #existing piers# or #platforms# within seaward prolongations of such #streets# and establish public access treatments for such areas after referral to the Department of Transportation or other City agency having jurisdiction over such property for its review and concurrence;
- (e) apply the #bulk# regulations of Section 62-30 to a non-#waterfront block# when such #block# results from a subdivision of a #waterfront block# as the result of a #street# mapping; and
- (f) for #developments# where a #waterfront yard# is not otherwise required by Section 62-33, establish requirements for a #waterfront yard# provided such plan does not impose a requirement greater than would be required by the provisions of Sections 62-331 or 62-332, as modified by the further provisions of this paragraph, (f), for such other #developments#. #Enlargements# of #buildings or other structures# existing on the effective date of the Waterfront Access Plan shall be permitted within such #waterfront yard# provided that the #enlargement# is for WD #uses# or Use Group 16, 17 or 18 #uses# and no portion of the #enlargement#, other than permitted obstructions, is within 20 feet of the seaward edge of the #waterfront yard#. In addition, obstructions shall be permitted within such #waterfront yard# pursuant to applicable district #yard# regulations, except that no #building# or portion of a #building# shall be permitted

within 10 feet of the seaward edge of such #waterfront yard#.

A Waterfront Access Plan shall include the following elements:

- (1) identification of the plan by Borough and plan number or area name;
- (2) a #zoning map#, or portion thereof, showing the boundaries of the geographical area included within the plan, which shall constitute the plan map;
- (3) delineation on the plan map of any physical or visual waterfront access features mandated by the plan to be at specific locations; and
- (4) a description in the plan text of all features established or modified by the plan, with reference to affected #blocks# and lots.

(4/22/09)

62-913

Conditions for adoption of a Waterfront Access Plan

As a condition precedent to its approval of a Waterfront Access Plan, the City Planning Commission shall find, in its report to the City Council for adoption, that such plan:

- (a) would improve public use and enjoyment of the waterfront, thereby serving to implement the goals set forth in Section 62-00; and
- (b) meets any of the following:
 - (1) is necessary to link #public parks# or other public areas along the waterfront or to the waterfront, and such linkage would not necessarily be achieved solely by the provisions of Sections 62-34, 62-50 and 62-60;
 - (2) is necessary to accommodate unique shore conditions or the retention of existing #buildings or other structures#, including bridges, viaducts or railways that would not be adequately accommodated by the provisions of Sections 62-50 and 62-60;
 - (3) is necessary to accommodate unique topography or natural features, such as wetlands conditions, significant grade changes, geologic formations, natural vegetation or wildlife habitats, which natural features or topography would not be

adequately accommodated by the provisions of Sections 62-34, 62-50 and 62-60;

- (4) is necessary to create a better physical or visual relationship of the waterfront to significant upland #streets# or preserves significant views of the water or historic structures from such #streets#, which would not necessarily be achieved by the provisions of Sections 62-34, 62-50 and 62-60;
- (5) is necessary to achieve public access to the waterfront in an area characterized by large undeveloped tracts of land with a limited number of public #streets# leading to the shore;
- (6) is necessary to maintain #visual corridors# that would be extinguished by a #street# de-mapping after October 25, 1993, or maintains #visual corridors# from certain upland #streets# that would be exempted from such requirements as the result of an intervening #street# mapping after October 25, 1993; or
- (7) is necessary to retain the #bulk# regulations of Section 62-30 on certain #blocks# that would be exempted from such requirements as the result of an intervening #street# mapping after October 25, 1993.

(6/30/09)

62-92

Borough of The Bronx

The following Waterfront Access Plans are hereby established within the Borough of The Bronx. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BX-1: Harlem River, in the #Special Harlem River Waterfront District#, as set forth in Section 87-60 (HARLEM RIVER WATERFRONT ACCESS PLAN).

(4/22/09)

62-93

Borough of Brooklyn

The following Waterfront Access Plans are hereby established within

the Borough of Brooklyn. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BK-1: Greenpoint-Williamsburg, as set forth in Section 62-931.

(3/26/14)

62-931

Waterfront Access Plan BK-1: Greenpoint-Williamsburg

Maps BK-1a through BK-1c in paragraph (f) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on May 11, 2005, as follows:

Parcel 1:	Block 2472, Lot 350
Parcel 2:	Block 2472, Lot 400
Parcel 3:	Block 2472, Lot 410
Parcel 4:	Block 2472, Lot 425
Parcel 5a:	Block 2472, Lot 100
Parcel 5b:	Block 2472, Lot 32, south of the prolongation of the northern #street line# of DuPont Street Block 2494, Lot 6
Parcel 5c:	Block 2472, Lot 2 Block 2502, Lot 1 Block 2510, Lot 1 Block 2520, Lot 57
Parcel 5d:	Block 2494, Lot 1
Parcel 5e:	Block 2472, Lot 32, north of the prolongation of the northern #street line# of DuPont Street
Parcel 6:	Block 2472, Lot 75
Parcel 7:	Block 2520, Lot 1
Parcel 8:	Block 2530, Lots 55, 56

Parcel 9: Block 2530, Lot 1

Parcel 10: Block 2538, Lot 1

Parcel 11: Block 2543, Lot 1

Parcel 12a: Block 2556, Lot 41

Parcel 12b: Block 2556, Lots 45, 46

Parcel 12c: Block 2556, Lots 55, 57, 58

Parcel 12d: Block 2556, Lot 54

Parcel 12e: Block 2556, Lot 53

Parcel 12f: Block 2556, Lot 52

Parcel 12g: Block 2556, Lot 51

Parcel 12h: Block 2556, Lot 50

Parcel 12i: Block 2556, Lot 49

Parcel 12j: Block 2556, Lot 48

Parcel 13: Block 2556, Lot 1
Block 2564, Lot 1
Block 2567, Lot 1
Block 2570, Lot 36

Parcel 14: Block 2570, Lot 1

Parcel 15: Block 2590, Lot 1

Parcel 16: Block 2590, Lot 210

Parcel 17: Block 2590, Lot 215

Parcel 18: Block 2590, Lot 22

Parcel 19: Block 2590, Lot 25

Parcel 20: Block 2277, Lot 1
Block 2590, Lot 100

Parcel 21: Block 2287, Lots 1, 16, 30
Block 2294, Lots 1, 5

Parcel 22: Block 2301, Lots 1, 50, 60, 70

Parcel 23: Block 2316, Lot 46

Parcel 24: Block 2308, Lot 1
Block 2316, Lot 1

Parcel 25: Block 2324, Lot 1
Block 2332, Lot 1

Parcel 26: Block 2340, Lot 1

Parcel 27: Block 2348, Lot 1

(a) Area wide modifications

The following provisions shall apply to all #developments# required to provide a #waterfront public access area#, pursuant to Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS):

- (1) Paragraph (a)(3) of Section 62-54 (Requirements for Public Access on Piers) is applicable, except that a minimum of 15 feet is required along each water edge.
- (2) In addition to the requirements of Section 62-65 (Public Access Design Reference Standards), all #waterfront public access areas# are subject to the provisions set forth in paragraph (c) of this Section.
- (3) #Street# treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), inclusive.

(b) Amenities

A reduction in the total amount of required #supplemental public access area# shall be permitted according to the table in this paragraph, (b):

REDUCTIONS IN WATERFRONT PUBLIC ACCESS AREAS

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table (max. 200 sq. ft.)

Chess table	20 sq. ft. per table (max. 200 sq. ft.)
Telescope	10 sq. ft. per telescope (max. 50 sq. ft.)
Fountain/water feature	150 sq. ft. per feature (max. 300 sq. ft.)
Shade structure	150 sq. ft. per structure (max. 300 sq. ft.)

(c) Public access design reference standards

Section 62-65 is hereby modified by the following provisions.

(1) Guardrails

In addition to the provisions of paragraph (a) of Section 62-651 (Guardrails, gates and other protective barriers), guardrails shall comply with the Guardrail illustration in this Section.

GUARDRAIL WITH METAL TOP
Side Elevation

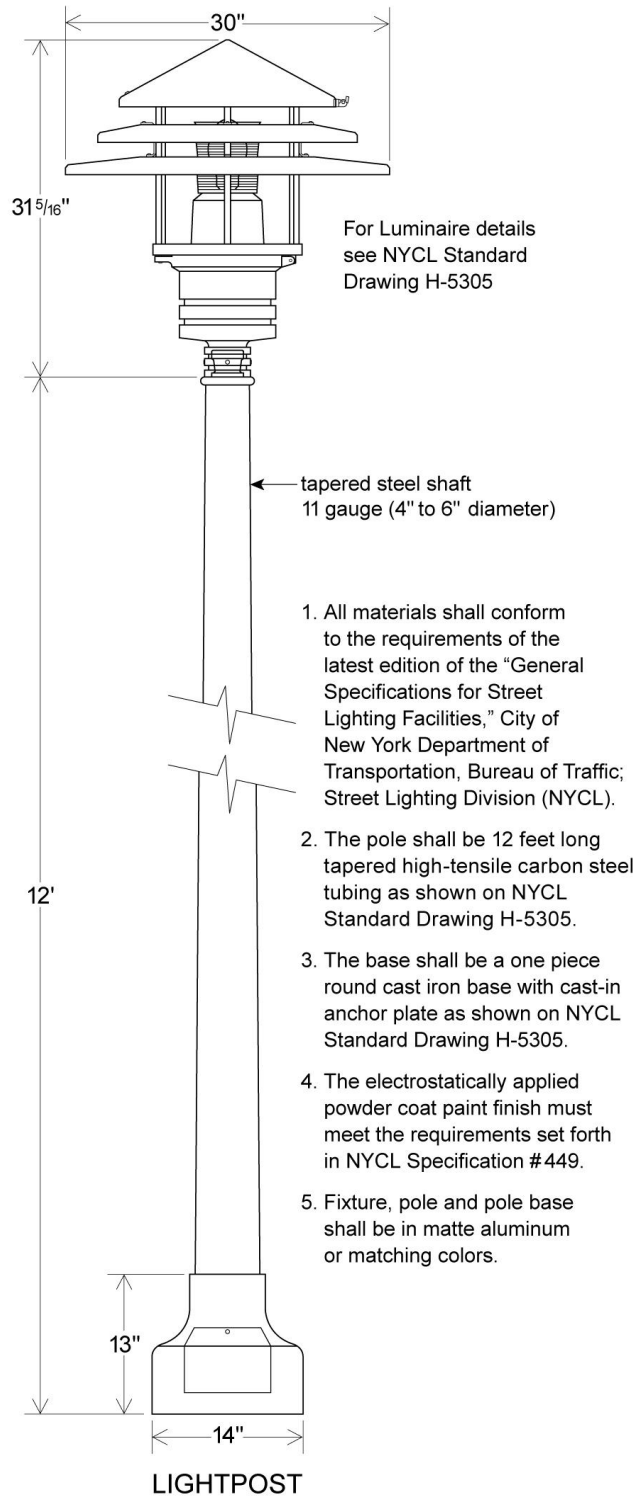

GUARDRAIL WITH METAL TOP
Front Elevation

All guardrail components and hardware shall be in No. 316 Stainless Steel, passivated and bead blasted.

(2) Lighting

In addition to the illumination provisions of Section 62-653, the required lighting along any public access area shall comply with the Lightpost illustration in this Section.

(3) Paving

In addition to the provisions of Section 62-656, the paving for the required clear path within the #shore

public walkway# shall be gray. At least 50 percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(d) Special public access provisions by parcel

The provisions of Sections 62-52 (Applicability of Waterfront Public Access Area Requirements) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS) are modified at the following designated locations which are shown on Map BK-1b in paragraph (f) of this Section:

(1) Parcels 1 and 2

(i) #Shore public walkway#

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge of the #zoning lot# and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating or planting shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-652 and 62-655, respectively. In addition to the lighting design requirements of paragraph (c) (3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for a #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is #developed# first shall provide an #upland connection# along the #lot line# between the two parcels. The remaining parcel may include the width of the #upland connection# in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph

(e)(1) of this Section. If both parcels are #developed# concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

If, however, Parcel 4 is improved #predominantly# as a public access area prior to or concurrently with the #development# of Parcel 3, the #upland connection# requirement shall be waived. However, a public way shall be provided within an area bounded at its eastern edge by the shared #lot line# of Parcels 2 and 3, at its northern edge by the #shoreline#, at its western edge by a line 115 feet from the shared #lot line# of Parcels 2 and 3, and at its southern edge by the #lot line# along Commercial Street.

In addition, such public way shall have a minimum width of 15 feet, and shall comply with the provisions of Section 62-64 (Design Requirements for Upland Connections), as applicable for Type 2 #upland connections#. There shall be no more than two changes in direction over its entire length and no single turn shall be less than 90 degrees relative to the line of travel. Any change in direction with an angle of less than 135 degrees shall be posted with an entry sign and shall comply with the provisions of paragraph (b) of Section 62-654, and shall also be accompanied by an arrow indicating the direction of travel towards the #shore public walkway#. At least 50 percent of the area of any walls bounding such public way shall be glazed. In addition, 24 linear feet of seating shall be provided within such public way and within 50 feet of its boundary with the #shore public walkway# and the #street# it connects to.

(3) Parcel 5a

(i) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (f) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(ii) #Supplemental public access area#

The #supplemental public access area# shall #abut# the #shore public walkway# continuously along its longest side, and shall also #abut# the required #upland connection# where it meets the #shore public walkway#. The #upland connection# may cut across the #supplemental public access area# provided that any resulting #supplemental public access area# shall be at least 5,000 square feet. In no event shall the #supplemental public access area# be deeper than 100 feet.

Alternatively, a portion of the required #supplemental public access area# that is at least 5,000 square feet may #abut# the #shore public walkway# continuously along the longest side provided that it also #abuts# a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-64, but shall not be counted towards satisfying the required amount of #waterfront public access area# on the site.

(4) Parcel 5b

The portion of Block 2472, Lot 32, located within Parcel 5b shall constitute a #zoning lot# for the purpose of applying all #waterfront public access area# and #visual corridor# provisions of Sections 62-50 through 62-90, inclusive.

(5) Parcel 5c

(i) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each one located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.

A #supplemental public access area# shall be

bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees at a rate of 450 square feet of shade element per tree.

The total #lot area# utilized in the calculation of required #supplemental public access area# for Parcel 5c, pursuant to Section 62-57, shall include the #lot area# within Parcel 5d.

(iii) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-54 and of paragraph (a)(1) of this Section.

(6) Parcel 5e

The portion of Block 2472, Lot 32, located within Parcel 5e shall constitute a #zoning lot# for the purpose of applying all #waterfront public access area# and #visual corridor# provisions of Sections 62-50 through 62-90, inclusive.

(7) Parcel 7

(i) #Shore public walkway#

For a portion of the required #shore public walkway#, where the distance between the #shoreline# and the #zoning lot line# boundaries of Parcel 7 is less than 17 feet, such portion shall be improved entirely as circulation path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the #shore public walkway#, which will be evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(ii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#.

(10) Parcel 14

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public #parks# as of May 11, 2005.

(13) Parcel 25

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet measured from the #shore public walkway#. A screening buffer shall be provided along the boundaries of the public access area and any private portion of the

#zoning lot#, pursuant to Section 62-655. No other planting shall be required.

A minimum of one linear foot of seating shall be required for every 65 square feet of #supplemental public access area#. Four trees shall be required, at least two of which shall be shade trees.

The remaining required #supplemental public access area# shall be located either on the #pier# or shall #abut# the #shore public walkway# continuously along its longest side, and shall also #abut# the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access area# shall have a width to depth ratio of 2:1. If any #supplemental public access area# is located on the #pier#, one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees at a rate of 450 square feet of shade element per tree.

(iii) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-54 and of paragraph (a)(1) of this Section.

(14) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-53 (Requirements for Shore Public Walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street. However, if the #upland connection# is provided within a private drive pursuant to Section 62-56, then a portion of the southern public access area beyond 15 feet from Kent Avenue may be located up to 15 feet outside the prolongation of the #street lines# of North 4th Street, provided that this public access area is not located entirely outside the prolongation of the #street lines# of North 4th Street at any point within 80 feet of Kent Avenue.

(15) Parcel 27

(i) #Shore public walkway#

In the event of an #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but need not be wider than 40 feet.

Notwithstanding the requirements of paragraph (a) of Section 62-61 (General Provisions Applying to Waterfront Public Access Areas), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-611, paragraphs (a) and (b), shall include any supporting structural elements of the #building or other structure# and its related appurtenances.

In addition, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-652 and 62-655, respectively. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(e) Special #visual corridor# provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (f) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the common #lot line#.

Whichever parcel is #developed# later shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# provided in accordance with the requirements of paragraph (d)(2)(i) of this Section. If the parcels are #developed# concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

If, however, Parcel 4 is improved #predominantly# for a public access area(s) prior to or concurrently with the #development# of Parcel 3, and a #visual corridor# is provided in Parcel 4, then the requirements for a #visual corridor# on Parcel 3 shall be waived.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (f) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared #lot line# of Parcel 4 and its western boundary shall be 200 feet from the shared #lot line# of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through

Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

- (ii) The permitted obstructions on #piers# in Section 62-631, paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(6) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(7) Parcel 15

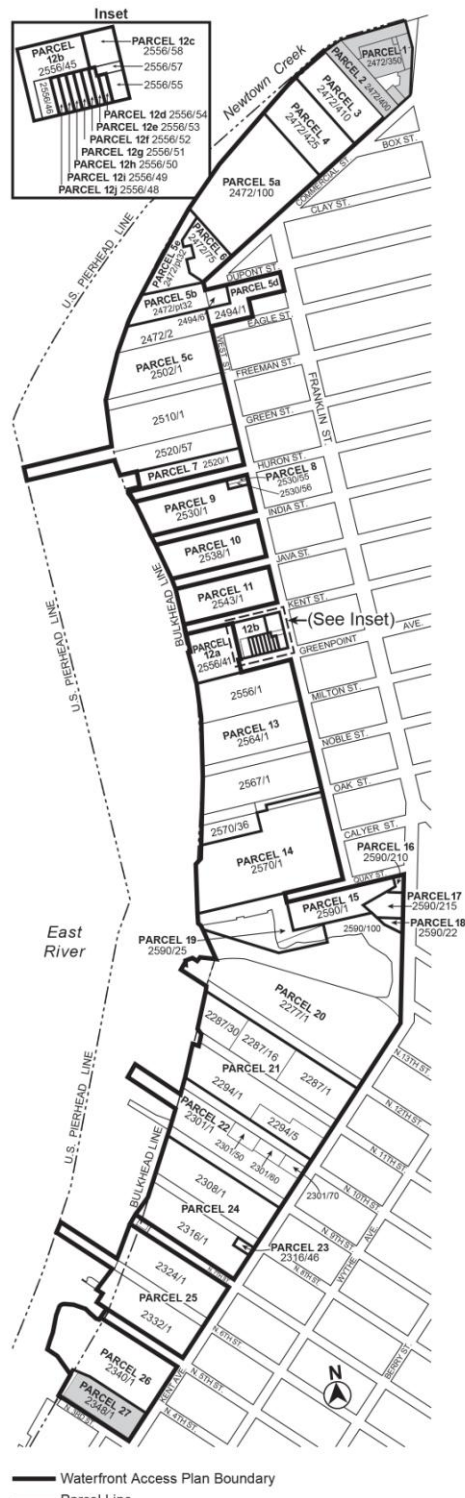

A #visual corridor# shall be provided through Parcel 15 as the prolongation of the #street lines# of West Street.

(8) Parcel 25

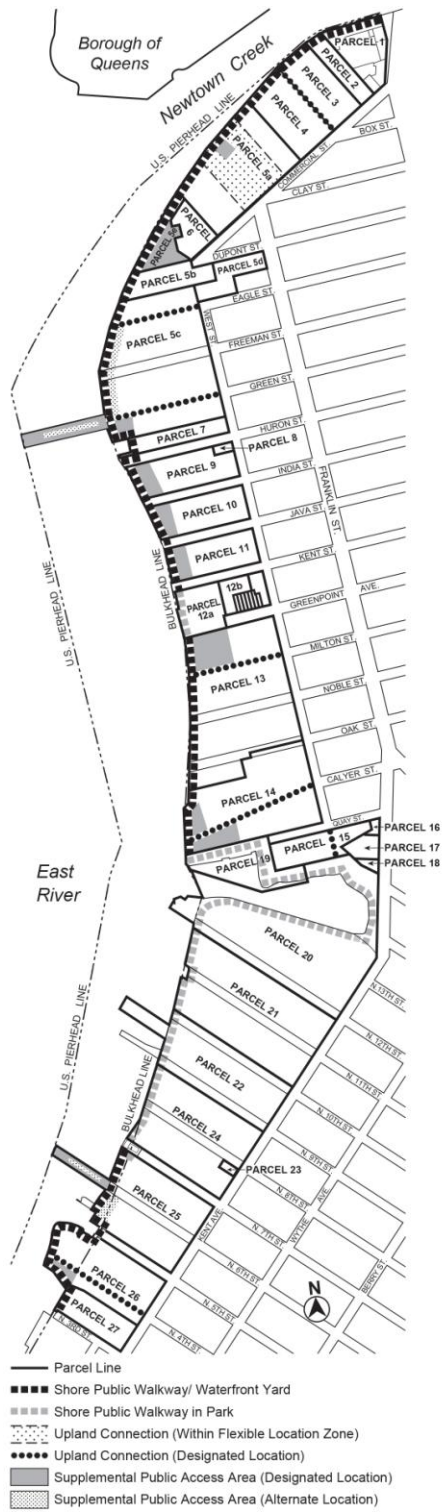

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

BK-1a: Parcel Designation (62-931f.1)

BK-1b: Public Access Elements (62-931f.2)

BK-1c: Designated Visual Corridors (62-931f.3)

(4/22/09)

62-94

Borough of Manhattan

(4/22/09)

62-95

Borough of Queens

The following Waterfront Access Plans are hereby established within the Borough of Queens. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

Q-1: Northern Hunters Point, as set forth in Section 62-951

Q-2: Downtown Flushing, as set forth in Section 62-952

Q-3: Newtown Creek, in the #Special Southern Hunters Point District#, as set forth in Section 125-46 (Newtown Creek Waterfront Access Plan).

(2/2/11)

62-951

Waterfront Access Plan Q-1: Northern Hunters Point

Maps Q-1a through Q-1c in paragraph (f) of this Section show the boundaries of the area comprising the Northern Hunters Point Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on October 14, 1997, as follows:

Parcel 1: Block 477, Lot 7

Parcel 2: Block 477, Lots 13, 15, 20

Parcel 3: Block 477, Lot 24

Parcel 4: 43rd Avenue between Vernon Boulevard and the East River

Parcel 5: Block 488, Lot 114

Parcel 6: Block 488, Lot 1

Parcel 7: Block 488, Lots 15, 35
Block 489, Lots 23, 46

Parcel 8: Block 25, Lot 15

Parcel 9: Block 25, Lots 1, 9, 11

Parcel 10: Block 26, Lot 10

Parcel 11: Block 26, Lots 1, 2, 3, 4, 8

Parcel 12: Block 26, Lots 17 and 21

(a) Special #waterfront yard# requirements

The #yard# regulations of Section 62-33 (Special Yard Regulations on Waterfront Blocks) shall be applicable. In addition, where a #waterfront yard# is not required, pursuant to Section 62-33, #yards# meeting the dimensional requirements of Section 62-33 shall be provided in connection with any #development#, in accordance with the provisions of paragraph (f) of Section 62-912 (Elements of a Waterfront Access Plan).

(b) Area wide modifications

The following provisions shall apply to #zoning lots# required to provide a #waterfront public access area#, pursuant to Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), inclusive:

- (1) Section 62-57 (Requirements for Supplemental Public Access Areas) shall be inapplicable except where specifically stated otherwise in this Plan.
- (2) Section 62-58 (Requirements for Water-Dependent Uses and Other Developments) shall be inapplicable. In lieu thereof, for #developments# listed in 62-52, paragraph (b), required #waterfront public access areas# shall be provided in accordance with Sections 62-53 (Requirements for Shore Public Walkways), 62-54 (Requirements for Public Access on Piers), 62-55 (Requirements for Public Access on Floating Structures) and 62-56 (Requirements for Upland Connections), as modified by this Plan.

However, for #developments# that include WD #uses# and would otherwise be permitted to provide public access pursuant to Section 62-58, the location of the public access areas specified in this Plan may be moved upland from the #shoreline# for the minimum distance required to accommodate the upland water-dependent functions of such #developments#, provided the relocation allows for a continuous public walkway connecting to #shore public walkways# on adjoining #zoning lots#.

- (c) Special #waterfront public access area# and #visual corridor# provisions applying on Anable Basin

The following provisions shall apply to certain #developments# on Parcels 8, 9, 10, 11 and 12:

- (1) In the event that a #building or other structure#, existing at the time that a #waterfront public access area# is required, is located so that the minimum dimensional provisions of Sections 62-53 and 62-54 cannot be met without requiring the partial or complete demolition of such #building or other structure#, the required width of such a #waterfront public access area# shall be reduced to the width between the seaward edge of the #waterfront yard# or #lot line# and the existing #building or other structure#. However, the minimum width of a #shore public walkway# shall be six feet and that of an #upland connection# shall be twelve feet. In no case shall a #shore public walkway# have a width less than ten feet for a continuous distance of more than 300 feet.
- (2) In the event that a #building or other structure#, existing at the time a #waterfront public access area# is required, is located so that the minimum dimensional standards for public access pursuant to paragraph (c)(1) of this Section cannot be met without requiring the partial or complete demolition of such #building or other structure#, all #waterfront public access area# requirements for such #development# shall be waived.
- (3) A #shore public walkway# required in conjunction with a #development# involving existing #buildings or other structures#, or required on any #zoning lot# having a #shoreline# length of less than 150 feet, shall be improved pursuant to Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), except that the circulation path as required in paragraph (a)(1) of such Section may be

reduced to 10 feet and the amount of planting area as required in paragraph (c) (1) of such Section may be reduced to 40 percent.

- (4) Within any portion of a #shore public walkway# having a width of less than ten feet, the minimum width of the circulation path shall be six feet and all planting requirements shall be waived.

(d) Special public access provisions by parcel

The provisions of Sections 62-52 (Applicability of Waterfront Public Access Area Requirements) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, are modified at the following designated locations which are shown on Map Q-1b in paragraph (f) of this Section:

(1) Parcel 1

No #upland connection# shall be required within Parcel 1; however, a direct connection shall be provided between the #shore public walkway# and Queensbridge Park.

(2) Parcel 2

An #upland connection# shall be located between Vernon Boulevard and the #shore public walkway# within the flexible location zone shown on Map Q-1b in paragraph (f) of this Section, which is the westerly prolongation of Queens Plaza South, either:

- (i) along the northerly tax lot line of Block 477, Lot 15, and its extension to Vernon Boulevard, if such tax lot is #developed# as a #zoning lot# separate from Block 477, Lot 13; or
- (ii) continuously adjoining the boundary between Parcels 1 and 2.

(3) Parcel 3

No #upland connection# shall be required within Parcel 3; however, a direct connection shall be provided between the #shore public walkway# and the public access area provided on Parcel 4.

(4) Parcel 4

- (i) A continuous public access area shall be provided across the westerly termination of 43rd Avenue adjoining the East River and connecting without interruption to the #shore public walkways# on Parcels 3 and 5. Such #waterfront public access area# shall have a minimum width of 40 feet and be improved consistent with the design standards set forth in Section 62-62, paragraphs (a) and (c)(1), for a #shore public walkway#. A screening buffer, pursuant to Section 62-655, shall be provided along any open or enclosed storage areas, maintenance vehicle parking or similar uses adjoining the #waterfront public access area#. Fencing may be provided to assure physical control of non-publicly accessible upland areas.
- (ii) The remaining portion of Parcel 4 shall provide pedestrian access from Vernon Boulevard to the #waterfront public access area# designated in paragraph (d)(4)(i) of this Section. The New York City Waterfront Symbol with the words "Public Waterfront" shall be installed at the intersection of any pedestrian access area with Vernon Boulevard.
- (iii) In the event that 43rd Avenue is demapped as a #street# within Parcel 4, a #shore public walkway# and #upland connection# shall be provided on Parcel 4, pursuant to Sections 62-50 and 62-60, within the westerly prolongation of 43rd Avenue.

Except as otherwise provided in this paragraph (d)(4), Section 62-60 shall be inapplicable.

(5) Parcel 5

(i) #Upland connection#

An #upland connection# shall be provided through Parcel 5 between Vernon Boulevard and the #shore public walkway#. The #upland connection# shall be located within either:

- (a) the flexible location zone indicated on Map Q-1b in paragraph (f) of this Section, having as its southerly boundary a line 500 feet south of 43rd Avenue and as its northerly boundary a line 200 feet north of such southerly boundary; or

- (b) a raised pedestrian sidewalk immediately adjoining a #building# provided both the sidewalk and #building# were existing on October 14, 1997.

The requirements of Sections 62-561 (Types of upland connections) and 62-64 (Design Requirements for Upland Connections) shall be inapplicable; however, any vehicular way traversing the pedestrian sidewalk shall be at the same level as such raised pedestrian sidewalk.

A direct connection shall be provided between the #shore public walkway# and the public access areas on Parcels 4 and 6.

- (ii) #Supplemental public access area#

Notwithstanding paragraph (b)(1) of this Section, a #supplemental public access area# shall be provided pursuant to Sections 62-57 and 62-62, and shall be located within the flexible location zone described in paragraph (d)(5)(i) of this Section, immediately adjacent to the intersection of the #shore public walkway# and any #upland connection#, if the #upland connection# is located therein.

(6) Parcel 6

Sections 62-50 and 62-60 shall be inapplicable if public access is provided pursuant to restrictive declaration, number D-138, executed by the RAK Tennis Corporation on July 29, 1991, and as such may be modified pursuant to the terms of the declaration and in accordance with Section 62-12 (Applicability to Developments within the Waterfront Area). If public access is not provided pursuant to the declaration, as such may be modified, then a #waterfront public access area# shall be provided in accordance with Sections 62-50, as modified by paragraph (b) of this Section, and 62-60.

(7) Parcel 7

- (i) #Shore public walkway#

The #shore public walkway# shall be located within

the flexible location zone shown on Map Q-1b in paragraph (f) of this Section, having as its westerly boundary the seaward edge of the #waterfront yard# and as its easterly boundary a line perpendicular to the northerly #street line# of 44th Drive, 600 feet westerly of Vernon Boulevard. The area between the seaward edge of the #waterfront yard# and the #shore public walkway# shall be subject to the provisions of Section 62-332 (Rear yards and waterfront yards).

For #developments# on a #zoning lot# having a #building or other structure#, existing on October 14, 1997, and which #developments# would retain the existing #building or other structure#, any portion of which is located within the #waterfront yard#, the #shore public walkway# may be improved pursuant to Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), except that the circulation path as required in paragraph (a)(1) of such Section may be reduced to 10 feet and the planting area as required in paragraph (c)(1) of such Section may be reduced to 40 percent. In addition, any portion of the #shore public walkway# located on a #platform# existing on October 14, 1997, shall be exempt from the planting requirements of such Section, except that trees shall be required; however, such trees may be located off the #platform# anywhere within or immediately adjoining the #shore public walkway#.

(ii) #Upland connection#

No #upland connection# shall be required within Parcel 7.

(8) Parcel 8

An #upland connection# shall be provided through Parcel 8 and shall be located within the flexible location zone shown on Map Q-1b in paragraph (f) of this Section, having as its westerly boundary the westerly #street line# of 5th Street and as its easterly boundary a line 250 feet east of such #street line#. In the event that a #building or other structure#, existing at the time an #upland connection# is required, is located within the southerly prolongation of 5th Street, the #upland connection# may be located anywhere within the flexible location zone; otherwise,

the #upland connection# shall be located within the southerly prolongation of 5th Street.

(9) Parcels 9, 10 and 11

(i) #Shore public walkway#

Except as provided in paragraph (c) of this Section, a #shore public walkway# shall be required across each parcel; however, on any #zoning lot# existing on October 14, 1997, having a #shoreline# length of less than 150 feet, the width of the #shore public walkway# may be reduced to 16 feet, consisting of a ten foot wide circulation path and six foot wide screening buffer, pursuant to Section 62-655. In addition, the width may be further reduced as permitted pursuant to paragraph (c)(1) of this Section.

(ii) #Upland connection#

Except as provided in paragraph (c) of this Section and on any #zoning lot# with a #shoreline# length less than 100 feet, an #upland connection# shall be provided between Vernon Boulevard and the #shore public walkway# within the flexible location zone shown on Map Q-1b, having as its northerly boundary the westerly prolongation of the southerly #street line# of 45th Avenue and as its southerly boundary the westerly prolongation of the southerly #street line# of 45th Road. In the event that Parcels 10 and 11 are #developed# as a single #zoning lot# and the #upland connection# has not been provided prior to such #development# of Parcels 10 and 11, the #upland connection# shall be located within the westerly prolongation of 45th Road. Notwithstanding the requirements of Section 62-56 (Requirements for Upland Connections), on any #zoning lot# having a #shoreline# length of less than 150 feet, the required width of an #upland connection# may be reduced to 16 feet consisting of a ten foot wide circulation path with the remaining area to be planted. In addition, the width may be further reduced, as permitted pursuant to paragraph (c)(1) of this Section.

(10) Parcel 12

No #upland connection# shall be required within Parcel

12; however, a direct connection shall be provided between the #shore public walkway# and 5th Street.

(e) Special #visual corridor# provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan shall be as follows and are shown on Map Q-1c in paragraph (f) of this Section:

(1) Parcels 1 and 2

A #visual corridor# shall be provided through Parcels 1 and 2 to the pierhead line as the westerly prolongation of Queens Plaza South. In the event that Block 477, Lot 13, is #developed# as a single #zoning lot#, all #visual corridor# requirements on that lot shall be waived.

(2) Parcel 3

The requirement for #visual corridors# on Parcel 3 is waived.

(3) Parcel 4

43rd Avenue shall be provided as a #visual corridor#.

(4) Parcel 5

A #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone described in paragraph (d)(5)(ii) of this Section and coincident with any #upland connection# provided therein.

(5) Parcel 6

Sections 62-51 (Applicability of Visual Corridor Requirements) and 62-513 (Permitted obstructions in visual corridors) shall be inapplicable if a #visual corridor# is provided pursuant to restrictive declaration, number D-138, executed by the RAK Tennis Corporation on July 29, 1991, and as may subsequently be modified pursuant to the terms of the declaration and in accordance with Section 62-12 (Applicability to Developments within the Waterfront Area). If the #visual corridor# is not provided pursuant to the declaration, as such may be modified, then a #visual corridor# shall be provided in accordance with Section 62-51.

(6) Parcel 7

The requirement for #visual corridors# on Parcel 7 is waived.

(7) Parcel 8

A #visual corridor# shall be provided through Parcel 8 as the southerly prolongation of 5th Street.

(8) Parcels 9, 10 and 11

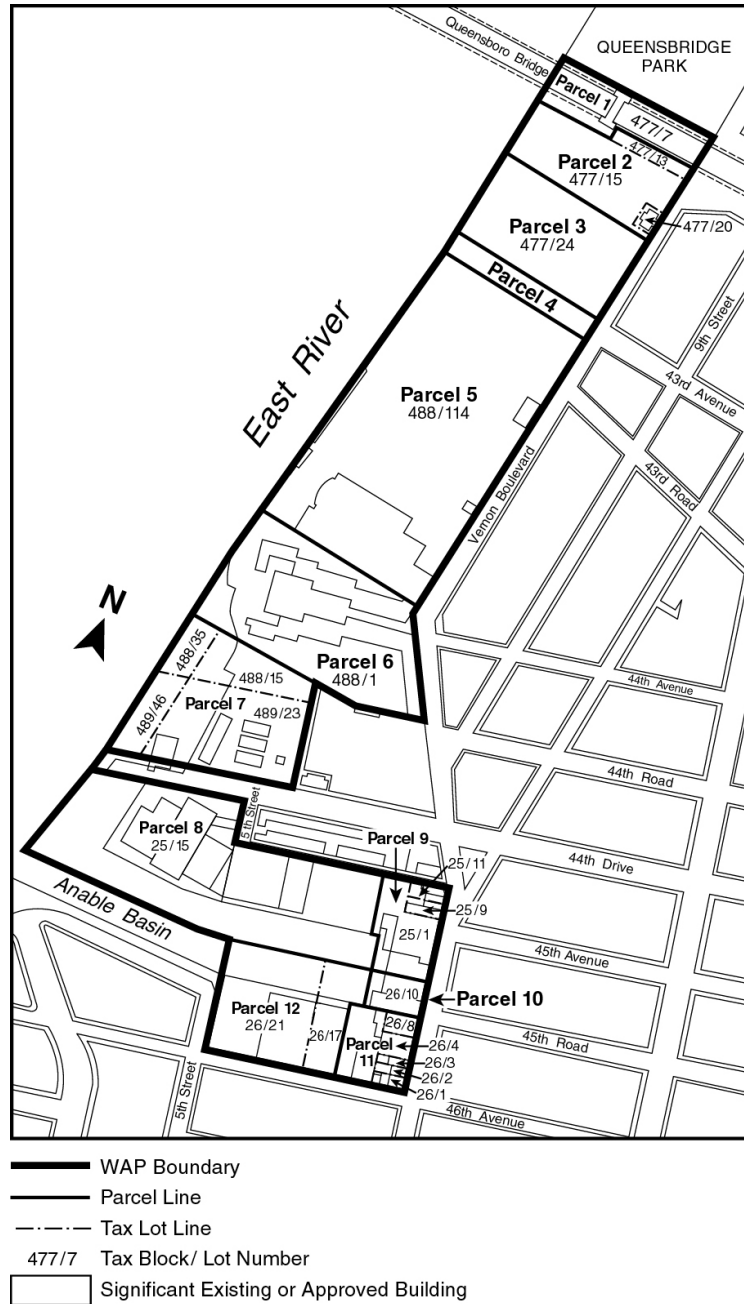

A #visual corridor#, if required pursuant to Section 62-51, shall be located through Parcel 9, 10 or 11 from Vernon Boulevard using the locational criteria for, and coincident with, the #upland connection# required pursuant to paragraph (d)(9)(ii) of this Section.

(9) Parcel 12

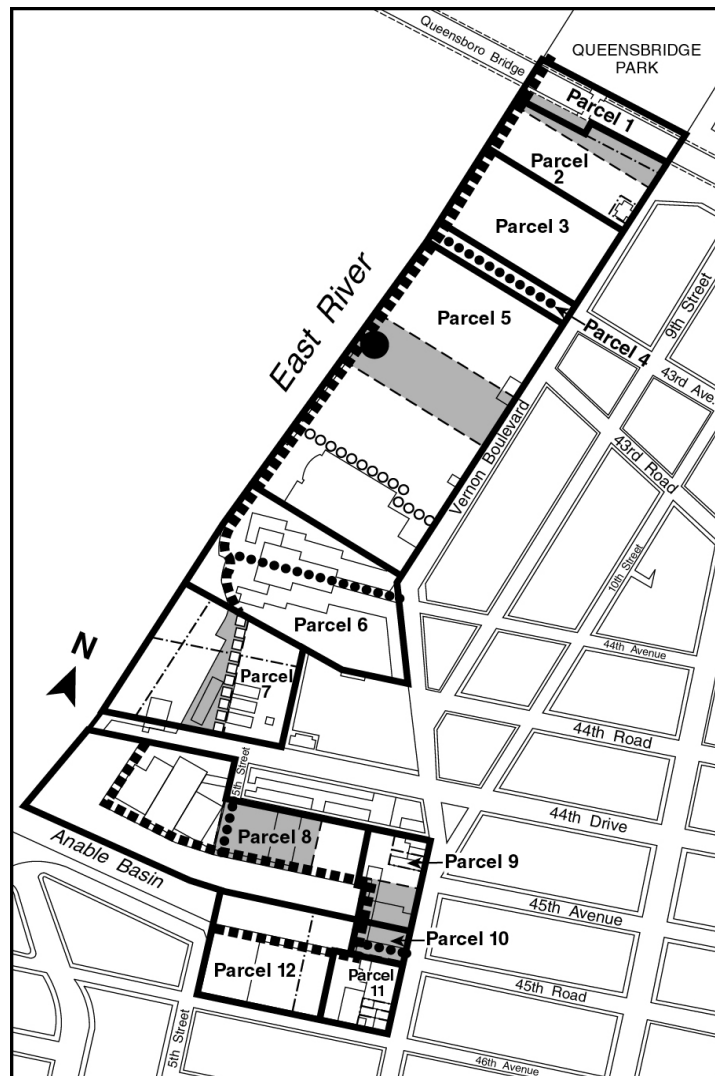

The requirement for #visual corridors# on Parcel 12 is waived.

**Waterfront Access Plan Q-2;
Downtown Flushing**

Maps Q-2a through Q-2c in paragraph (f) of this Section show the boundaries of the area comprising the Downtown Flushing Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on September 17, 1998, as follows:

Parcel 1: Block 4963, Lot 200

Parcel 2: Block 4963, Lot 85

Parcel 3: Block 4963, Lot 65

Parcel 4: Block 4963, Lot 7

Parcel 5: Area within the #street lines# of Roosevelt Avenue westerly of their intersection with the #street lines# of College Point Boulevard and extending to the easterly pierhead line of the Flushing River

Parcel 6: Block 5066, Lot 1

Parcel 7: Portions of Block 5066, Lots 105 and 107 (consisting of New York City Department of Parks and Recreation mapped park strips), and area adjoining and beneath the Van Wyck Expressway Extension bounded by the Long Island Rail Road on the south, Block 5066, Lot 105, on the south and west and Block 5066, Lot 107, on the east and the easterly pierhead line of the Flushing River on the west.

(a) Area wide modifications

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-50, inclusive:

- (1) Section 62-57 (Requirements for Supplemental Public Access Areas) shall be inapplicable.

- (2) Section 62-58 (Special Regulations for Water-Dependent Uses and Other Developments) shall be inapplicable. In lieu thereof, required #waterfront public access areas# shall be provided in accordance with this Plan.

However, for WD #use developments# which would otherwise be permitted to provide public access pursuant to Section 62-58, the location of the #waterfront public access areas# specified in this Plan may be moved upland of the #shoreline# for the minimum distance required to accommodate the upland water-dependent functions of such #developments# and still result in a continuous public walkway connecting #shore public walkways# on all adjoining #zoning lots#.

- (b) Special public access provisions by parcel

The requirements for #waterfront public access areas# of Sections 62-53 through 62-57, inclusive, and Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, are modified at the following designated locations which are shown on Map Q-2b in paragraph (f) of this Section:

- (1) Parcel 1

- (i) #Shore public walkway#

The requirements of Section 62-53 (Requirements for Shore Public Walkways) are modified to reduce the minimum required width of the #shore public walkway# to 20 feet. In addition, no #shore public walkway# shall be required north of the prolongation of the northerly #street line# of 36th Road. The quantity of #waterfront public access area# eliminated from the #shore public walkway# as a result of this width and length reduction shall be provided at the northerly termination of the #shore public walkway# and shall be improved pursuant to the standards of Section 62-62. If Parcel 1 is #developed# in conjunction with one or more adjoining parcels, or portions thereof, the area on Parcel 1 required to be improved pursuant to the standards for a #supplemental public access area# may be provided on Parcel 2.

- (ii) #Upland connection#

An #upland connection# shall be located within the

flexible location zone indicated on Map Q-2b in paragraph (f) of this Section, which is the prolongation of the #street lines# of 36th Road. If, however, the #upland connection# required on Parcel 2 is provided prior to or concurrent with #development# of Parcel 1, no #upland connection# shall be required on Parcel 1.

(2) Parcel 2

(i) #Shore public walkway#

The requirements of Section 62-53 are modified to reduce the minimum required width of the #shore public walkway# to 20 feet. The quantity of public access area eliminated from the #shore public walkway# as a result of this width reduction shall be provided adjoining the intersection of the required #upland connection# and the #shore public walkway# and shall be improved pursuant to the standards for a #supplemental public access area#, as set forth in Section 62-62.

(ii) #Upland connection#

An #upland connection# shall be located between College Point Boulevard and the #shore public walkway#, either:

(a) within the flexible location zone indicated on Map Q-2b in paragraph (f) of this Section, having as its northerly boundary the straight-line extension of that portion of the boundary between Parcels 1 and 2 which intersects with College Point Boulevard and, as its southern boundary, the prolongation of the southerly #street line# of 37th Avenue;
or

(b) continuously adjoining the boundary between Parcels 1 and 2.

(iii) No public access shall be required for any #public parking lot#, provided such #public parking lot# was approved pursuant to Section 74-512 (In other districts) and is an interim use that is limited to a term of not more than ten years.

(3) Parcel 3

(i) #Shore public walkway#

The requirements of Section 62-53 are modified to reduce the minimum required width of the #shore public walkway# to 20 feet. The quantity of public access area eliminated from the #shore public walkway# as a result of this width reduction shall be provided adjoining the intersection of the required #upland connection# and the #shore public walkway# and shall be improved pursuant to the standards for a #supplemental public access area#, as set forth in Section 62-62. If Parcel 3 is #developed# in conjunction with Parcel 4, or a portion thereof, the area of Parcel 3 required to be improved pursuant to the standards for a #supplemental public access area# may be provided on Parcel 4.

(ii) #Upland connection#

An #upland connection# shall be located between 39th Avenue and the #shore public walkway# within the flexible location zone indicated on Map Q-2b in paragraph (f) of this Section, having as its southerly boundary the prolongation of the southerly #street line# of 39th Avenue and as its northerly boundary a line drawn parallel and 75 feet north of such southern boundary.

In the event #buildings or other structures# existing within Parcel 3 on September 17, 1998, obstruct any portion of the flexible location zone at the time of #development#, the minimum requirements of Sections 62-561 (Types of upland connections) and the design requirements for #upland connections# of Section 62-64 shall be modified, as follows:

- (a) the required #upland connection# if located within a private drive shall, for a distance not to exceed 200 feet measured westerly of the #street line# of Janet Place, consist of a single circulation path having a minimum clear width of six feet with no requirement for planting or seating; or
- (b) if the required #upland connection# is not within a private drive, its minimum width shall be reduced along its entire length to 25 feet.

If Parcel 3 is #developed# in conjunction with any portion of Parcel 4 and there are no existing #buildings or other structures# blocking 50 percent or more of the width of the prolongation of 39th Avenue at the time of #development#, no reduction shall be permitted and the #upland connection# shall be located within the prolongation of 39th Avenue.

(4) Parcel 4

(i) #Shore public walkway#

The requirements of Section 62-53 are modified to reduce the minimum required width of the #shore public walkway# to 20 feet. However, within the portion of the parcel between the northerly #street line# of Roosevelt Avenue and a point 50 feet northerly as measured along the #shoreline#, the minimum width shall be 40 feet. Throughout the southernmost 30 foot length of this widened portion of the #shore public walkway#, the circulation path shall be located a minimum of 15 feet from the #shoreline#.

The quantity of public access area eliminated from the #shore public walkway# as a result of such width reduction shall be provided adjoining the #shore public walkway# and the boundary between Parcels 3 and 4. Such area shall be improved pursuant to the standards for #supplemental public access area#, as set forth in Section 62-62.

(ii) #Upland connection#

No #upland connection# shall be required within Parcel 4; however, a direct connection shall be provided between the required #shore public walkway# and the public access area on Parcel 5. In the event that any portion of Parcel 4 is #developed# with Parcel 3, an #upland connection# shall be provided, pursuant to paragraph (b) (3) (ii) of this Section.

(5) Parcel 5

(i) A public access area shall be provided across the westerly portion of Parcel 5 connecting without interruption to the #shore public walkways# on

Parcels 4 and 6. Such public access area shall have a minimum width of 40 feet and contain a continuous pedestrian circulation path with a minimum clear width of 10 feet. The seaward edge of the pedestrian circulation path shall be located a minimum of 15 feet from the westerly boundary of the parcel. Landscaped screening shall be provided adjoining any open or enclosed storage areas, maintenance vehicle parking or similar uses. Fencing may be provided to assure physical control of non-publicly accessible upland areas.

- (ii) The marginal roadway within Roosevelt Avenue as indicated on the City Map, Final Section 40, adopted December 14, 1911, shall be improved to provide a connection to other public access areas designated for this parcel and to #shore public walkways# on Parcels 4 and 6. The improvement of the marginal roadway shall be for public pedestrian use except for emergency and maintenance vehicular access to the shoreline and beneath the Roosevelt Avenue Bridge. A dedicated pedestrian circulation path with a minimum width of 10 feet shall be provided. In addition, the pedestrian use of the full width of the marginal roadway shall be reinforced by design elements which may include unit pavers, dropped curbs, bollards and informational signage. The New York City Waterfront Symbol with the words "Public Waterfront" shall be installed at the northwesterly intersection of College Point Boulevard and Roosevelt Avenue and at the entrance to the marginal roadway.
- (iii) If other improvements compatible with the public access area are provided, such improvements shall adjoin the boundary of Parcel 4.

Section 62-60 shall be inapplicable; its provisions are recommended as a guide to the design of the required public access areas.

(6) Parcel 6

- (i) #Shore public walkway#

The requirements of Section 62-53 are modified to require a minimum distance of 15 feet between the seaward edge of the pedestrian circulation path

and the #shoreline#.

(ii) #Upland connection#

An #upland connection# shall be provided within the flexible location zone indicated on Map Q-2b in paragraph (f) of this Section, having boundaries coincident with those of Parcel 6. The #upland connection# shall be located, either:

- (a) along the southerly boundary of Parcel 6 between the termination of 40th Road and the #shore public walkway#; or
- (b) between College Point Boulevard and the #shore public walkway# connecting to the latter at a location within 150 feet of the parcel's southerly boundary, as measured along the upland edge of the #shore public walkway#.

Notwithstanding the requirements of paragraph (e) of Section 62-52 (Applicability of Waterfront Public Access Area Requirements), the #upland connection# may be located, wholly or in part, within a #building or other structure#. Any covered portion of the #upland connection# shall comply with the requirements of paragraph (d)(7) of this Section.

(7) Parcel 7

Notwithstanding the requirements of Section 62-61, paragraph (a), the #shore public walkway# may be covered by the elevated roadway of the Van Wyck Expressway and the obstructions permitted by Section 62-611, paragraphs (a) and (b), shall include any supporting structural elements of the elevated roadway and its related appurtenances. The #shore public walkway# shall be connected directly to the #shore public walkway# on Parcel 6.

(c) Special #visual corridor# provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan shall be as follows and are shown on Map Q-2c in paragraph (f) of this Section:

(1) Parcel 1

A #visual corridor# shall be provided through Parcel 1 to the pierhead line as the prolongation of the #street lines# of 36th Road. Any #building or other structure# existing on September 17, 1998, shall be a permitted obstruction.

(2) Parcel 2

A #visual corridor# shall be provided through Parcel 2 to the pierhead line as the prolongation of the #street lines# of 37th Avenue. However, no #visual corridor# shall be required for any #public parking lot#, provided such #public parking lot# was approved pursuant to Section 74-512 and that the parking facility is an interim use limited to a term of not more than ten years.

(3) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 or 4 to the pierhead line using the locational criteria for an #upland connection# in paragraph (b) (3) (ii) of this Section. Notwithstanding the requirements of Section 62-51 (Applicability of Visual Corridor Requirements), any #building or other structure# existing on September 17, 1998, shall be a permitted obstruction; however, no such #building or other structure#, or portion thereof, demolished after September 17, 1998, shall be rebuilt as a permitted obstruction and no new #building or other structure# shall be permitted except pursuant to Section 62-513 (Permitted obstructions in visual corridors).

(4) Parcel 5

The #street lines# of Roosevelt Avenue, including the area beneath the Roosevelt Avenue Bridge and any marginal roadway within the #street lines# of Roosevelt Avenue shall be provided as a #visual corridor#.

(5) Parcels 6 and 7

The requirements for #visual corridors# on Parcels 6 and 7 are waived.

(d) Special design standards

Required #waterfront public access areas# shall comply with Sections 62-50 and 62-60, except as modified in this Section.

- (1) Any required #shore public walkway# may be improved pursuant to 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), except that the circulation path as required in paragraph (a)(1) of such Section may be reduced to 10 feet and the planting area as required in paragraph (c)(1) of such Section may be reduced to 40 percent.
- (2) The minimum required width of a pedestrian circulation path within a #shore public walkway# shall be 10 feet and, notwithstanding Section 62-62, the path need not adjoin the #shoreline# at any location except as necessary to connect to an adjoining #shore public walkway#. #Shore public walkways# having a width of 20 feet or less shall not be required to provide a screening buffer.
- (3) The requirements for planting within a #shore public walkway#, provided pursuant to Section 62-62, shall be modified on a #platform# existing on September 17, 1998, such that any required planting may be provided in an alternative location on the #zoning lot# adjoining the required #waterfront public access area#.
- (4) In addition to the obstructions permitted by Section 62-611, paragraphs (a) and (b), the existing loading crane and adjoining tower on Parcel 4 shall be permitted within the #shore public walkway#, provided such structures are restored and a minimum pedestrian circulation path of 10 feet is provided.
- (5) The area of a #shore public walkway# located under an elevated roadway may be subtracted from the total area of #shore public walkway# calculated for the purposes of complying with the seating and tree planting requirements of Section 62-62.
- (6) Any portion of an #upland connection# located within a #building# pursuant to this Plan shall comply with the following standards:
 - (i) the circulation path shall have a minimum width of 12 feet which shall adjoin and connect directly to the main lobby of the #building# via transparently-glazed openings with an aggregate width equal to or exceeding that of any other entrances to the lobby;
 - (ii) the minimum clear height shall be 16 feet except

for permitted obstructions which, in addition to those permitted by Section 62-611, paragraph (a), shall include structural elements such as beams and joists, provided a minimum clear height of 12 feet is maintained throughout;

- (iii) WE #uses# permitted by the underlying district regulations shall continuously adjoin the perimeter of the #upland connection#, except that lobby space or exterior, open areas to which a view is provided shall also be permitted;
- (iv) at least 50 percent of the area of any walls bounding an #upland connection# shall be glazed with a clear, untinted transparent material. For the purposes of this requirement, the area of the bounding walls shall be measured from the floor to a height of 16 feet. In no case shall any bounding wall have a continuous width without openings greater than 100 feet;
- (v) there shall be no more than three changes in direction over the entire length of the #upland connection# and no single turn shall be less than 90 degrees relative to the line of travel. Any change in direction with an angle of less than 135 degrees shall be posted with an entry sign pursuant to Section 62-654 (Signage), and shall also be accompanied by an arrow indicating the direction of travel toward the #shore public walkway#;
- (vi) in addition to the general requirements of Section 62-654, each principal entrance to an #upland connection# within a #building# shall be posted with an entry sign pursuant to Section 62-654, paragraph (a).
- (vii) access to the public shall be provided during business hours or from 8:00 a.m. to dusk seven days a week, whichever is greater; and
- (viii) the planting and lighting requirements of Section 62-60 shall not apply.

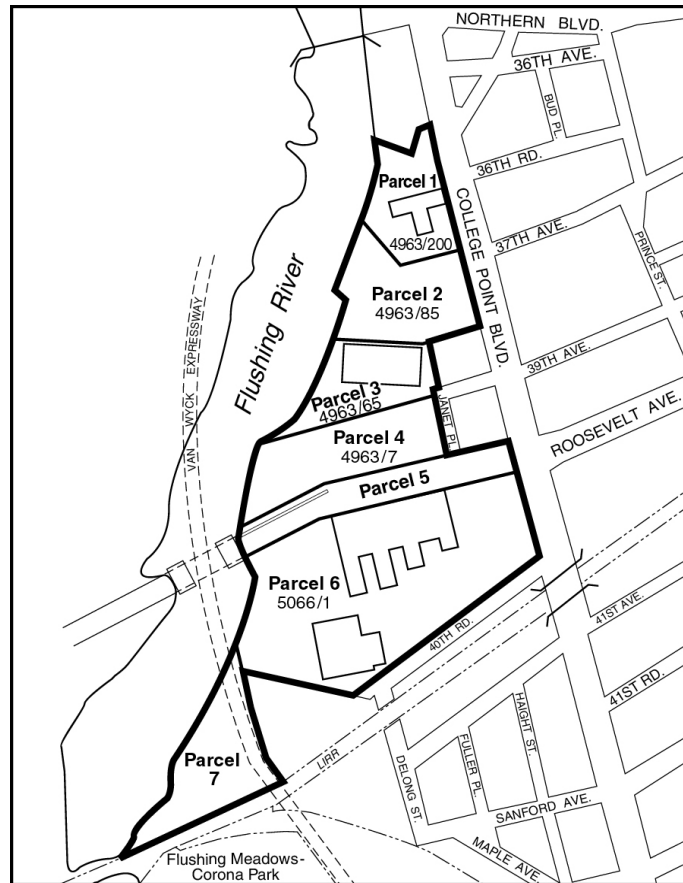

(e) Special use provisions by parcel

(1) Parcel 2

The City Planning Commission may permit #public parking lots# on #waterfront blocks# in accordance with applicable district regulations and Section 74-512, provided that the parking facility is an interim #use# limited to a term of not more than ten years.

Chapter 3

Special Regulations Applying to FRESH Food Stores

(12/9/09)

63-00

GENERAL PURPOSES

The provisions of this Chapter establish special regulations that guide the development of FRESH food stores to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

- (a) encourage a healthy lifestyle by facilitating the development of FRESH food stores that sell a healthy selection of food products;
- (b) provide greater incentives for FRESH food stores to locate in neighborhoods underserved by such establishments;
- (c) encourage FRESH food stores to locate in locations that are easily accessible to nearby residents; and
- (d) strengthen the economic base of the City, conserve the value of land and buildings, and protect the City's tax revenues.

(12/9/09)

63-01

Definitions

FRESH food store

A "FRESH food store" is a food store #use# as listed in Section 32-15 (Use Group 6), where at least 6,000 square feet of #floor area#, or #cellar# space utilized for retailing, is utilized for the sale of a general line of food and non-food grocery products, such as dairy, canned and frozen foods, fresh fruits and vegetables, fresh and prepared meats, fish and poultry, intended for home preparation, consumption and utilization. Such retail space utilized for the sale of a general line of food and non-food grocery products shall be distributed as follows:

- (a) at least 3,000 square feet or 50 percent of such retail space, whichever is greater, shall be utilized for the sale of a general line of food products intended for home preparation, consumption and utilization; and
- (b) at least 2,000 square feet or 30 percent of such retail space, whichever is greater, shall be utilized for the sale of perishable goods that shall include dairy, fresh produce, frozen foods and fresh meats, of which at least 500 square feet of such retail space shall be designated for the sale of fresh produce.

A food store shall be certified as a #FRESH food store# by the Chairperson of the City Planning Commission, pursuant to Section 63-30 (CERTIFICATION FOR A FRESH FOOD STORE).

(10/9/13)

63-02

Applicability

The regulations of all other chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

- (a) The provisions of this Chapter shall apply to all #Commercial# and #Manufacturing Districts# in the following #FRESH food store# designated areas, except as provided in paragraph (b) of this Section:
 - (1) in the Borough of the Bronx, Community Districts 1, 2, 3, 4, 5, 6 and 7, except portions of Community District 7, as shown on Map 1 in Appendix A of this Chapter;
 - (2) in the Borough of Brooklyn, Community Districts 3, 4, 5, 8, 9, 16 and 17, except portions of Community District 8, as shown on Map 2 in Appendix A;
 - (3) in the Borough of Manhattan, Community Districts 9, 10, 11 and 12, except portions of Community District 9 and 12, as shown on Maps 3 and 4 in Appendix A; and
 - (4) in the Borough of Queens, the #Special Downtown Jamaica District#; portions of Community District 12 outside of the #Special Downtown Jamaica District#, except those

portions shown on Maps 5 and 6 in Appendix A; and those portions in Community District 1 shown on Map 1 in Appendix B of this Chapter.

- (b) The provisions of this Chapter shall not apply to the following Special Purpose Districts:

#Special Madison Avenue Preservation District#;

#Special Manhattanville Mixed Use District#;

#Special Park Improvement District#; and

#Special Hunts Point District#.

(12/9/09)

63-10

SPECIAL USE REGULATIONS

(12/9/09)

63-11

Special Use Regulations for FRESH Food Stores in M1 Districts

In M1 Districts, the regulations of Section 42-12 (Use Groups 3A, 6A, 6B, 6D, 6F, 7B, 7C, 7D, 7E, 8, 9B, 9C, 10A, 10B, 10C, 11, 12A, 12C, 12D, 12E, 13, 14 and 16) are modified to permit #FRESH food stores# with up to 30,000 square feet of #floor area#. The provisions of this Section shall not apply where the regulations of the underlying district permit Use Group 6A food stores with #floor area# greater than 30,000 square feet.

(12/9/09)

63-12

Special Sign Regulations

All permitted #signs# shall be subject to the provisions of the #sign# regulations of the underlying districts. In addition, a #FRESH food store# shall provide signage pursuant to this Section.

A #sign# comprised of the #FRESH food store# symbol as provided in the [Required Signage Symbols](#) file at the Department of City Planning website shall be mounted on an exterior #building# wall adjacent to and no more than five feet from the principal entrance of the #FRESH food store#. The #sign# shall be placed so that it is directly visible, without any obstruction, to customers entering the #FRESH food store#, and at a height no less than three feet and no more than five feet above the adjoining grade. Such #FRESH food store# symbol shall be no less than 12 inches by 12 inches and no more than 16 inches by 16 inches in size and shall be fully opaque, non-reflective and constructed of permanent, highly durable materials.

(12/9/09)

63-20

SPECIAL BULK AND PARKING REGULATIONS

(12/9/09)

63-21

Special Floor Area Regulations

(2/2/11)

63-211

For mixed buildings and zoning lots containing both residential and commercial or community facility uses in Commercial Districts with FRESH food stores

Where a #FRESH food store# is provided on a #zoning lot#, the provisions of Section 35-31 (Maximum Floor Area Ratio for Mixed Buildings) relating to the maximum permitted #floor area ratio# on a #zoning lot# for each permitted #use# shall apply as modified in this Section.

Where all non-#residential uses# on a #zoning lot# have a permitted #floor area ratio# equal to or less than that permitted for a #residential use# and for #zoning lots# containing #Quality Housing buildings#, the total #floor area# permitted for such #zoning lot# may be increased by one square foot of #residential floor area# for each square foot of #FRESH food store floor area#, up to 20,000 square feet.

Where any non-#residential use# on such #zoning lot# has a permitted #floor area ratio# greater than that permitted for a #residential use#, the total #residential floor area# permitted for such #zoning lot# may be increased by one square foot for each square foot of #FRESH food store floor area#, up to 20,000 square feet, provided the total #floor area# of the #building# does not exceed the maximum permitted #floor area# for a non-#residential use#.

(2/2/11)

63-212

For mixed use buildings and zoning lots containing both residential and commercial or community facility uses in Special Mixed Use Districts with FRESH food stores

Where a #FRESH food store# is provided on a #zoning lot#, the provisions of Section 123-64 (Maximum Floor Area Ratio and Lot Coverage Requirements for Mixed Use Buildings) relating to the maximum permitted #floor area ratio# on a #zoning lot# for each permitted #use# shall apply, as modified in this Section.

Where all non-#residential uses# on such #zoning lot# have a permitted #floor area ratio# equal to or less than that permitted for a #residential use#, and for #zoning lots# containing #Quality Housing buildings#, the total #floor area# permitted for such #zoning lot# may be increased by one square foot of #residential floor area# for each square foot of #FRESH food store floor area#, up to 20,000 square feet.

Where any non-#residential use# on such #zoning lot# has a permitted #floor area ratio# greater than that permitted for a #residential use#, the total #residential floor area# permitted for such #zoning lot# may be increased by one square foot for each square foot of #FRESH food store floor area#, up to 20,000 square feet, provided the total #floor area# of the #building# does not exceed the maximum permitted #floor area# for a non-#residential use#.

(2/2/11)

63-22

Authorization to Modify Maximum Building Height

For #buildings# containing a #FRESH food store#, the City

Planning Commission may authorize modifications to Sections 35-24 (Special Street Wall Location and Height and Setback Regulations in Certain Districts) and 123-66 (Height and Setback Regulations) to allow the applicable maximum #building# height to be increased by up to 15 feet, provided that the first #story# occupied by a #FRESH food store# has a minimum finished floor to finished ceiling height of 14 feet, and provided that such finished ceiling height is at least 14 feet above the #base plane# or #curb level#, as applicable.

In order to grant such authorizations, the Commission shall find that:

- (a) such modifications are necessary to accommodate a first #story# utilized as a #FRESH food store#;
- (b) the proposed modifications shall not adversely affect the essential scale and character of the adjacent #buildings# and any adjacent historic resources; and
- (c) the proposed modifications will not unduly obstruct access to light and air of adjacent properties.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/9/09)

63-23

Special Transparency Requirements

For all #FRESH food stores#, the ground floor level of the #street wall# fronting upon a principal #street# shall be glazed with materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazing shall occupy at least 70 percent of the area of such ground floor level #street wall#, measured to a height of 10 feet above the level of the adjoining sidewalk. No less than 50 percent of the area of such ground floor level #street wall# shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

Furthermore, for #buildings# with frontage on two or more #streets#, the Chairperson of the City Planning Commission may certify that the glazing requirements of this Section shall only be applicable to the #street wall# fronting upon the principal #street#, as determined by the Chairperson.

In addition, the Chairperson of the City Planning Commission may, by certification, allow a reduction in the glazing requirements of this Section, provided that the Chairperson finds that such #mixed building#, or #mixed use building# as defined in Section 123-11, is a recipient of #public funding# as defined in Section 23-911 (General definitions). Such reduced glazing may occupy no less than 50 percent of the area of such ground floor level #street wall# and shall be glazed with transparent materials.

(12/9/09)

63-24

Security Gates

All security gates installed between the #street wall# and the #street line# after December 9, 2009, that are swung, drawn or lowered to secure #FRESH food store# premises shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street#.

(10/9/13)

63-25

Required Accessory Off-street Parking Spaces in Certain Districts

- (a) In C1-1, C1-2, C1-3, C2-1, C2-2, C2-3 and C4-3 Districts, the #accessory# off-street parking regulations in Section 36-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR COMMERCIAL OR COMMUNITY FACILITY USES) applicable to a C1-4 District shall apply to any #FRESH food store#.
- (b) In the Borough of Brooklyn, in those portions of Community District 5 located south of Flatlands Avenue and east of the centerline prolongation of Schenck Avenue, and in the Borough of Queens, where applicable in Community District 12 outside of the #Special Downtown Jamaica District#, a #FRESH food store# shall provide #accessory# off-street parking spaces as required for #uses# in parking requirement category B in the applicable #Commercial# and #Manufacturing Districts#.
- (c) In C8-1, C8-2, M1-1, M1-2 and M1-3 Districts, a #FRESH food store# shall provide one parking space per 1,000 square feet of #floor area# or #cellar# space utilized for retailing, up to a maximum of 15,000 square feet. The underlying off-

street parking regulations in Sections 36-20 or 44-20 shall apply to the #floor area# or #cellar# space, in excess of 15,000 square feet, utilized for retailing in such #FRESH food store#.

- (d) The provisions of this Section shall not apply to:
- (1) in the Borough of the Bronx, portions of Community District 7 and in the Borough of Manhattan, portions of Community District 12, as shown on Map 1 in Appendix C of this Chapter;
 - (2) in the Borough of Brooklyn, portions of Community District 5, as shown on Map 2 in Appendix C;
 - (3) in the Borough of Brooklyn, portions of Community Districts 16 and 17, as shown on Map 3 in Appendix C; and
 - (4) in the Borough of Queens, the #Special Downtown Jamaica District#.

(12/9/09)

63-30

CERTIFICATION FOR A FRESH FOOD STORE

Upon application, the Chairperson of the City Planning Commission shall certify that a food store #use# is a #FRESH food store#, provided that:

- (a) drawings have been submitted to the Chairperson that clearly specify:
- (1) all #floor area# or #cellar# space utilized as a #FRESH food store#, showing in the form of an illustrative layout that such designated space is designed and arranged to meet the requirements for food and non-food grocery products, pursuant to Section 63-01;
 - (2) all #floor area# that will result from any permitted increase in #floor area#, pursuant to Section 63-21, including the location of such #floor area#;
 - (3) the size, format and location of the required #sign#, pursuant to Section 63-12, including detailed information about dimensions of the #sign#, lettering, color and materials; and

- (4) the location of the ground floor level #street wall# fronting upon a principal #street#, pursuant to Section 63-23;
- (b) a signed lease or written commitment from the prospective operator of the #FRESH food store# has been provided in a form acceptable to the Chairperson for utilization of such #floor area# or #cellar# space and its operation as a #FRESH food store#; and
- (c) a legal commitment, in the form of a declaration of restrictions has been executed, in a form acceptable to the Department of City Planning, binding upon the owner and its successor and assigns, and providing for continued utilization of all #floor area# or #cellar# space as a #FRESH food store#, the operation of which shall commence within a reasonable period following the issuance of a temporary certificate of occupancy for the #floor area# or #cellar# space to be utilized by the #FRESH food store#.

Such declaration of restrictions shall provide that the legal commitment for continued occupancy of the #floor area# or #cellar space# as a #FRESH food store# shall not apply during any:

- (1) six (6) month period from the date such #floor area# or #cellar# space is vacated by the operator, provided that the owner timely notifies the Department of City Planning of such vacancy in accordance with the requirements of the restrictive declaration; or
- (2) event of force majeure, as determined by the Chairperson.

The filing and recordation of the declaration of restrictions in the Office of the City Register of the City of New York against all tax lots comprising the #FRESH food store#, and receipt of proof of recordation of such declaration in a form acceptable to the Department, shall be a precondition to the issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# under this Chapter.

In granting the certification, the Chairperson may specify that minor changes in store layout consistent with the definition of a #FRESH food store# shall not warrant further certification pursuant to this Section.

No later than the date on which an application for certification

is first submitted, a copy of the drawings submitted pursuant to paragraph (a) of this Section shall be submitted by the applicant to the affected Community Board, which shall have 45 days to review said application. The Chairperson shall not issue a certification for an application during the Community Board review period, unless the Community Board has submitted to the Chairperson comments regarding such proposal or informed the Chairperson that the Community Board has no comments.

(12/9/09)

63-31

Requirements for Certificate of Occupancy

No certificate of occupancy shall be issued for any portion of the #development# or #enlargement# identified in the drawings submitted pursuant to paragraph (a) (2) of Section 63-30 until a temporary certificate of occupancy has been issued for the #FRESH food store# space. No final certificate of occupancy shall be issued for any such portion of the #development# or #enlargement# identified in such drawings until the #FRESH food store# space has been completed in accordance with the drawings submitted pursuant to paragraph (a) (1) of Section 63-30 and a final certificate of occupancy has been issued for the #FRESH food store# space. The declaration of restrictions shall be noted on any temporary or final certificate of occupancy for the #building#.

(12/9/09)

63-40

CERTIFICATION FOR CHANGE OF USE OF A FRESH FOOD STORE

A #FRESH food store# for which a certification has been issued pursuant to Section 63-30 may be changed to any #use# permitted by the underlying district upon certification by the Chairperson of the City Planning Commission that such change of #use# would not create a new #non-compliance#, increase the degree of #non-compliance# of #buildings# on the #zoning lot#, or result in reduction in the number of required #accessory# off-street parking spaces under the applicable district regulations.

If a certification pursuant to this Section is granted, a notice of cancellation, in a form acceptable to the Department of City Planning, of the declaration of restrictions recorded pursuant to Section 63-30 shall be executed and recorded in the Office of the

City Register of the City of New York against all tax lots comprising the former #FRESH food store#.

(12/9/09)

63-50

AUTHORIZATION FOR BULK AND PARKING MODIFICATIONS

The City Planning Commission may, by authorization, permit modifications to the #bulk# and #accessory# off-street parking requirements of the applicable zoning districts when a change of #use# of a #FRESH food store# for which a certification has been issued, pursuant to Section 63-30, would create a new #non-compliance#, increase the degree of #non-compliance# of #buildings# on the #zoning lot#, or result in a reduction in the number of required #accessory# off-street parking spaces under the applicable district regulations, provided that such #use# is permitted by the underlying districts.

In order to grant such authorization, the Commission shall find that:

- (a) due to the market conditions prevalent at the time of the application, there is no reasonable possibility that the operation of a #FRESH food store# will bring a reasonable return;
- (b) the applicant, the operator or a prior operator of such #FRESH food store# has not created or contributed to such unfavorable market conditions;
- (c) the applicant, the operator or a prior operator of such #FRESH food store# has undertaken commercially reasonable efforts to secure a new operator, and demonstrates to the City Planning Commission that such efforts have been unsuccessful;
- (d) any proposed #non-compliance# or increase in the degree of #non-compliance# will not be incompatible with or adversely affect adjacent #uses#, including #uses# within the #building#; and
- (e) any reduction of required #accessory# off-street parking shall not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian movement.

If such authorization is granted, a notice of cancellation, in a

form acceptable to the Department of City Planning, of the declaration of restrictions recorded pursuant to Section 63-30, shall be executed and recorded in the Office of the City Register of the City of New York against all tax lots comprising the former #FRESH food store#.

In issuing an authorization under this Section, the Commission may impose conditions and safeguards to minimize adverse impacts on the character of the surrounding area.

(12/9/09)

63-60

COMPLIANCE

No later than June 30th of the year, beginning in the first calendar year following the calendar year in which certification was made, and at three year intervals thereafter, the Chairperson shall be provided with an affidavit, in a form acceptable to the Department of City Planning, regarding compliance with the requirements of the declaration of restrictions and the regulations of this Chapter, as of a date of inspection which shall be no earlier than June 1st of the year in which the affidavit is filed. Such affidavit shall be provided by the owner(s) of the tax lot(s) on which the #FRESH food store# is located. Such affidavit shall include, without limitation:

- (a) a copy of the original #FRESH food store# certification letter and, if applicable, any approval letter pertaining to any other authorization or certification pursuant to this Chapter;
- (b) a statement that the #floor area# or #cellar# space that was certified to be operated as a #FRESH food store# continues to be operated as such in accordance with the declaration of restrictions; and
- (c) photographs documenting the condition of the #FRESH food store# at the time of inspection, sufficient to clearly show all #floor area# or #cellar# space operated as a #FRESH food store#.

Failure to comply with a condition or restriction in an authorization or certification granted pursuant to this Chapter or with approved plans related thereto, or failure to submit a required compliance report, shall constitute a violation of this Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy, or for a

revocation of such authorization or certification, and for the implementation of all other applicable remedies.

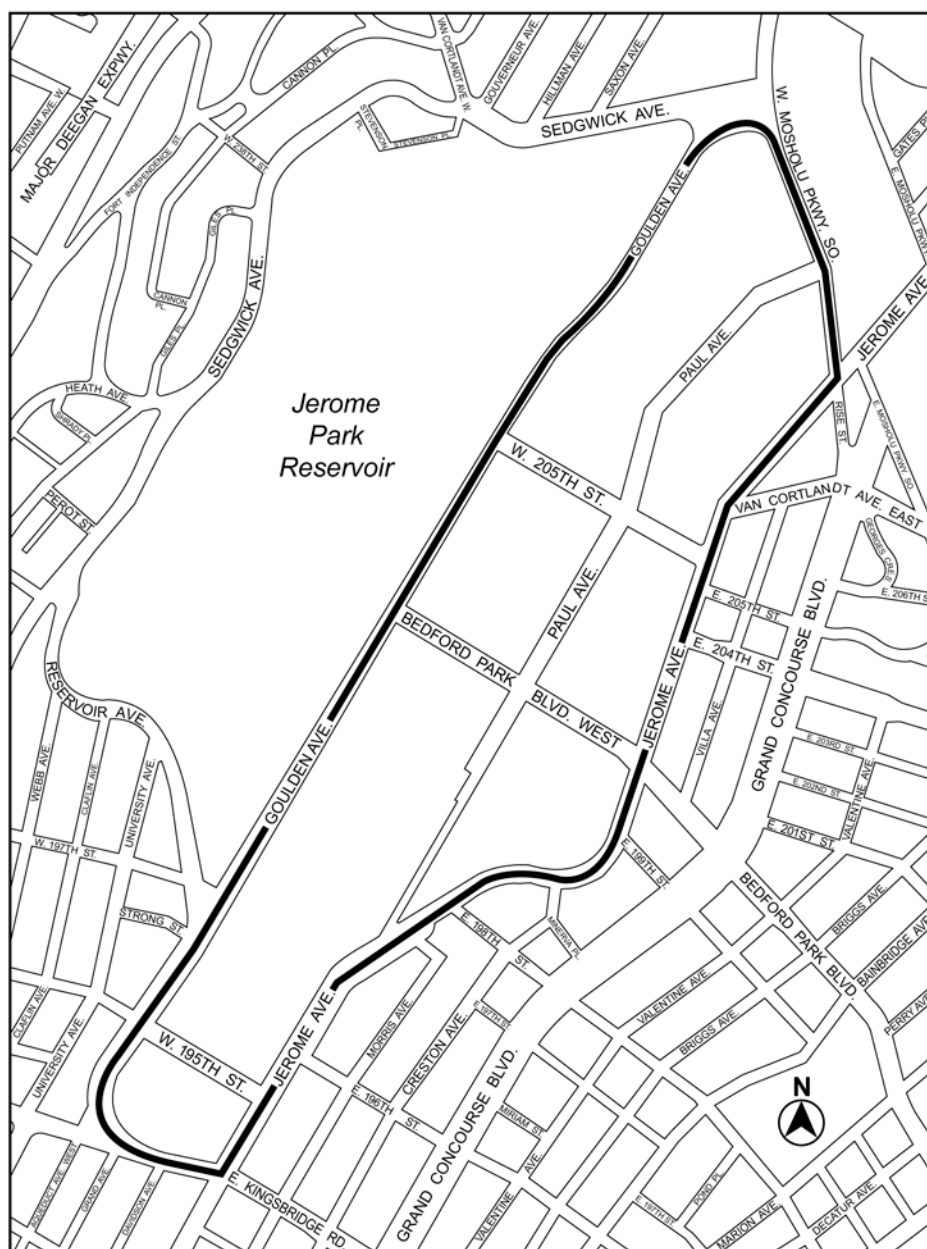

(5/11/11)

Appendix A

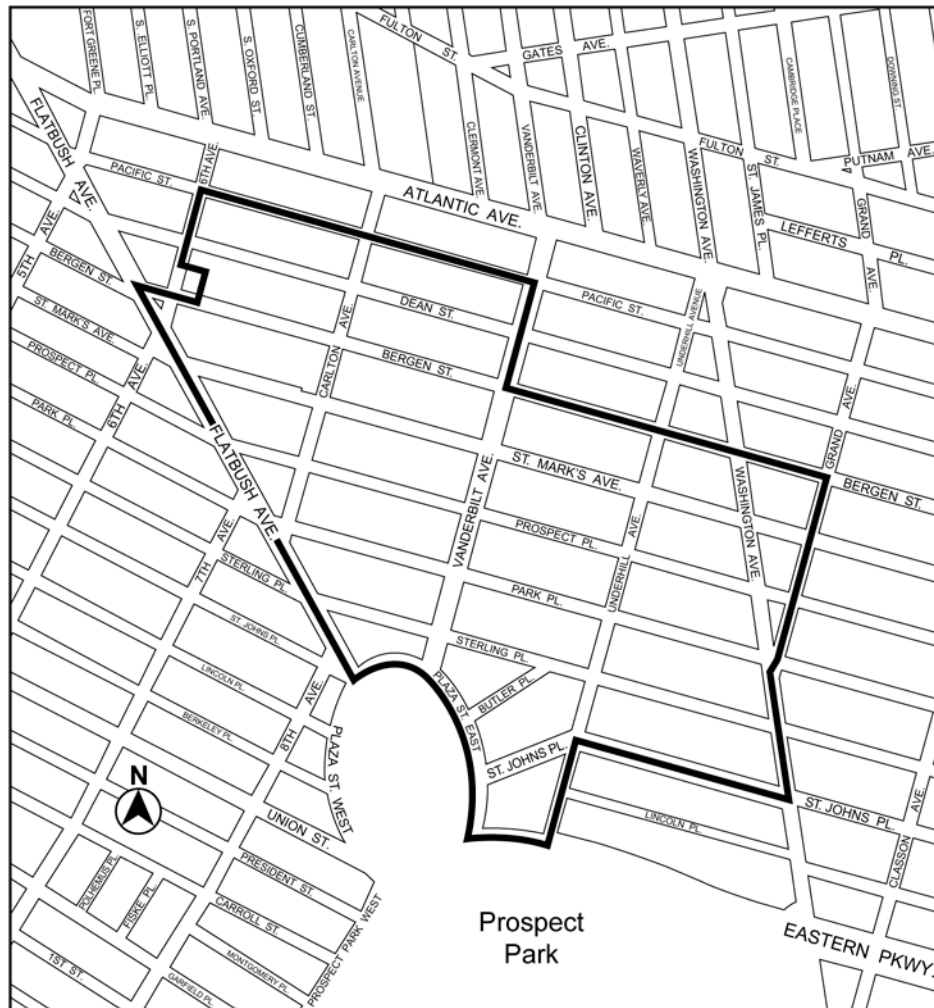

FRESH Food Store Designated Areas: Excluded Portions

The #FRESH food store# designated areas are listed by community district and borough in Section 63-02 (Applicability). Excluded portions of community districts are shown on the following maps.

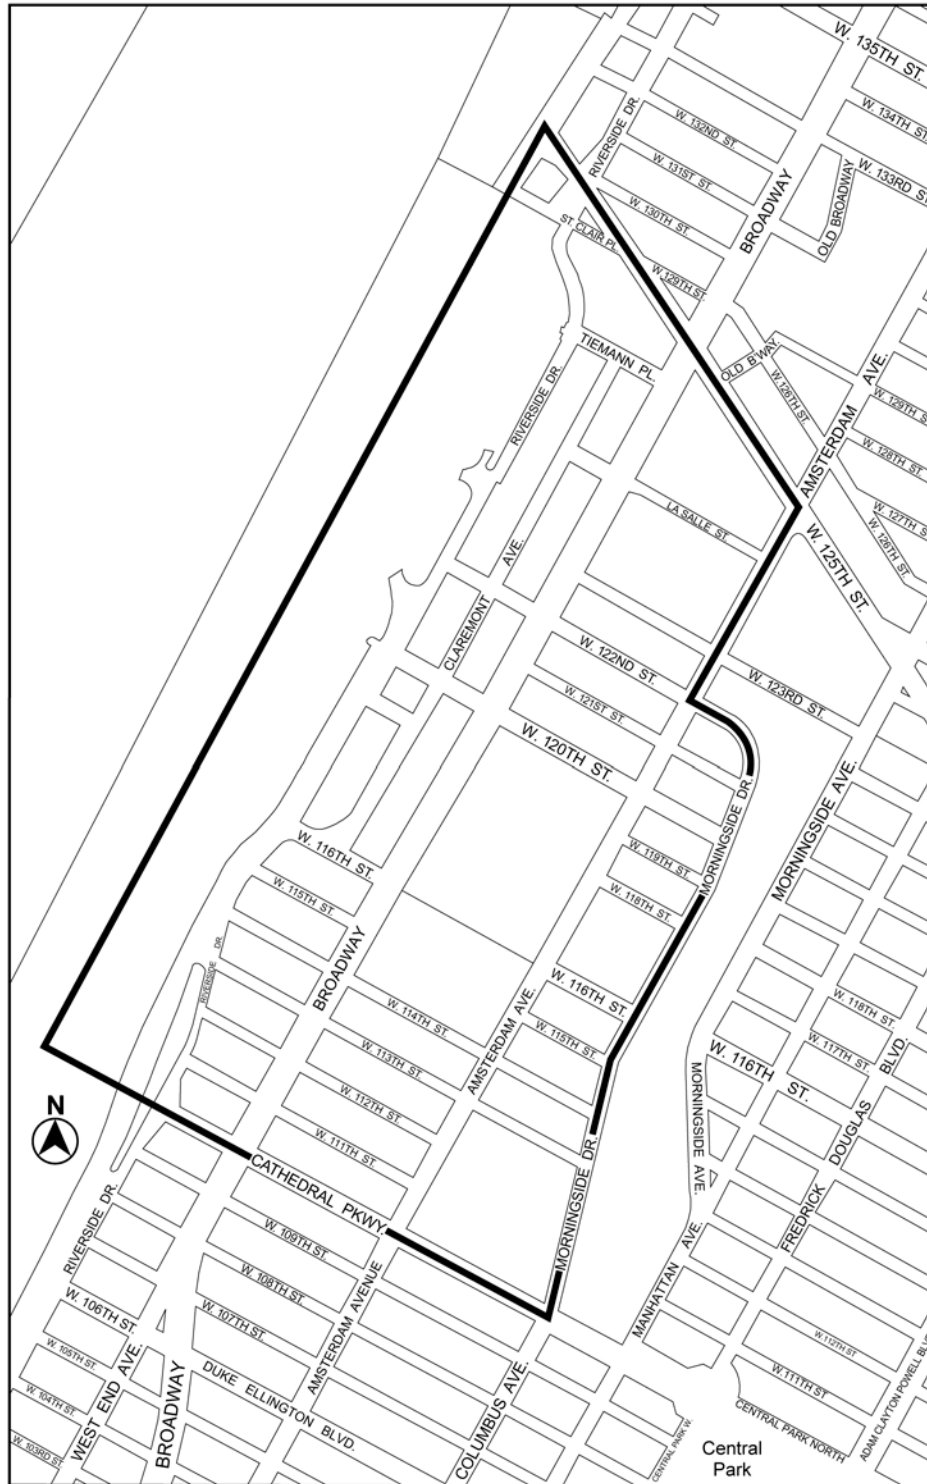

Map 1. Excluded portions of Community District 7, the Bronx

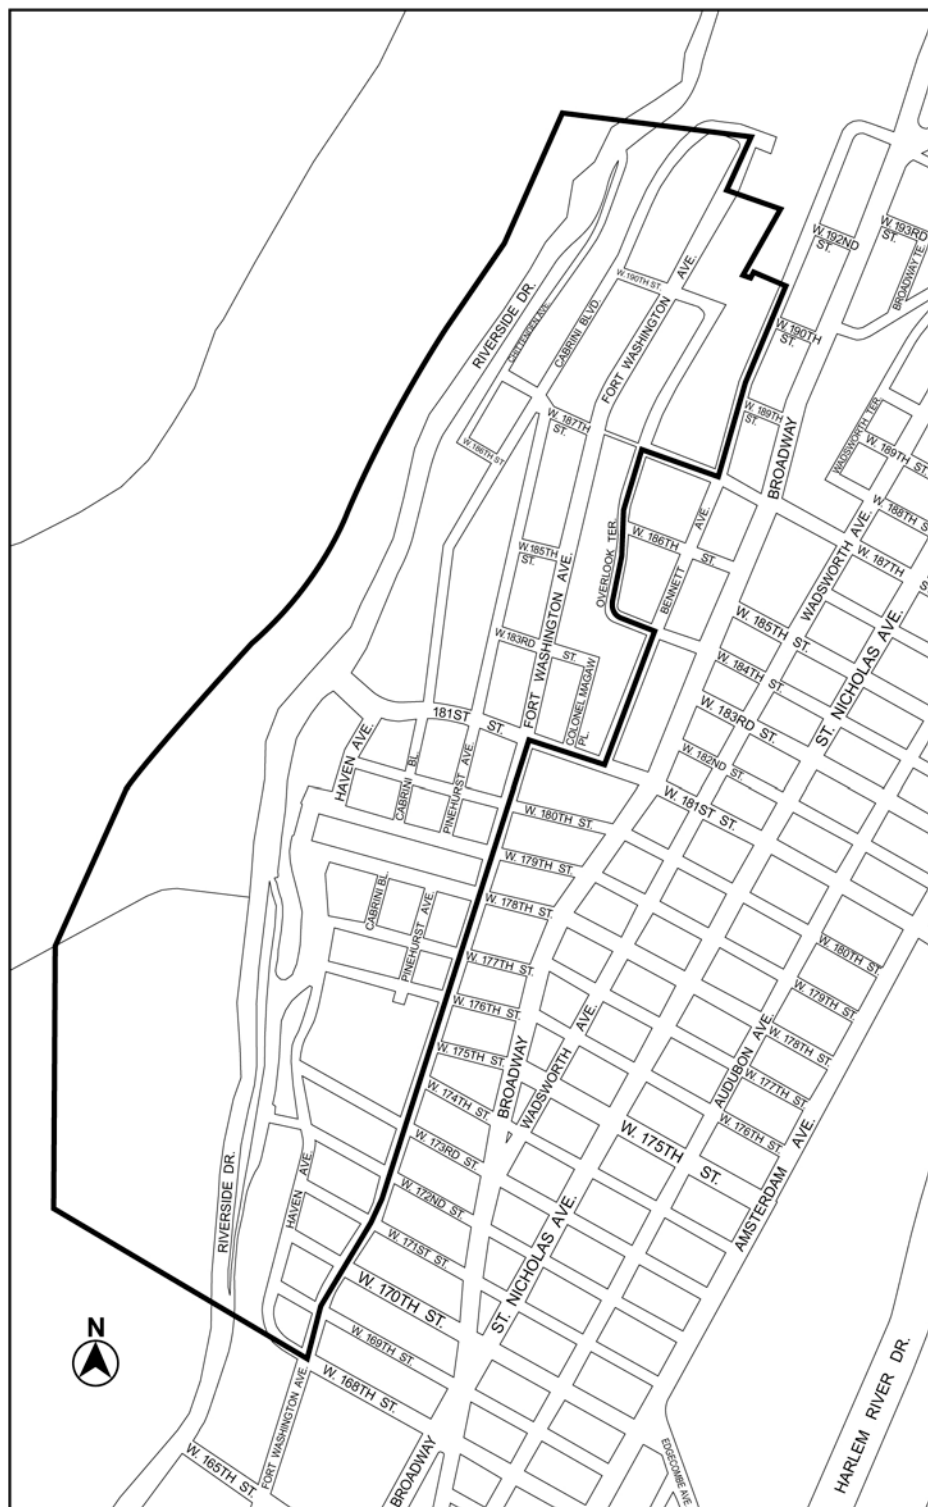

Map 2. Excluded portions of Community District 8, Brooklyn

Map 3. Excluded portions of Community District 9, Manhattan

Map 4. Excluded portions of Community District 12, Manhattan

Map 5. Excluded portions of Community District 12, Queens

Map 6. Excluded portions of Community District 12, Queens

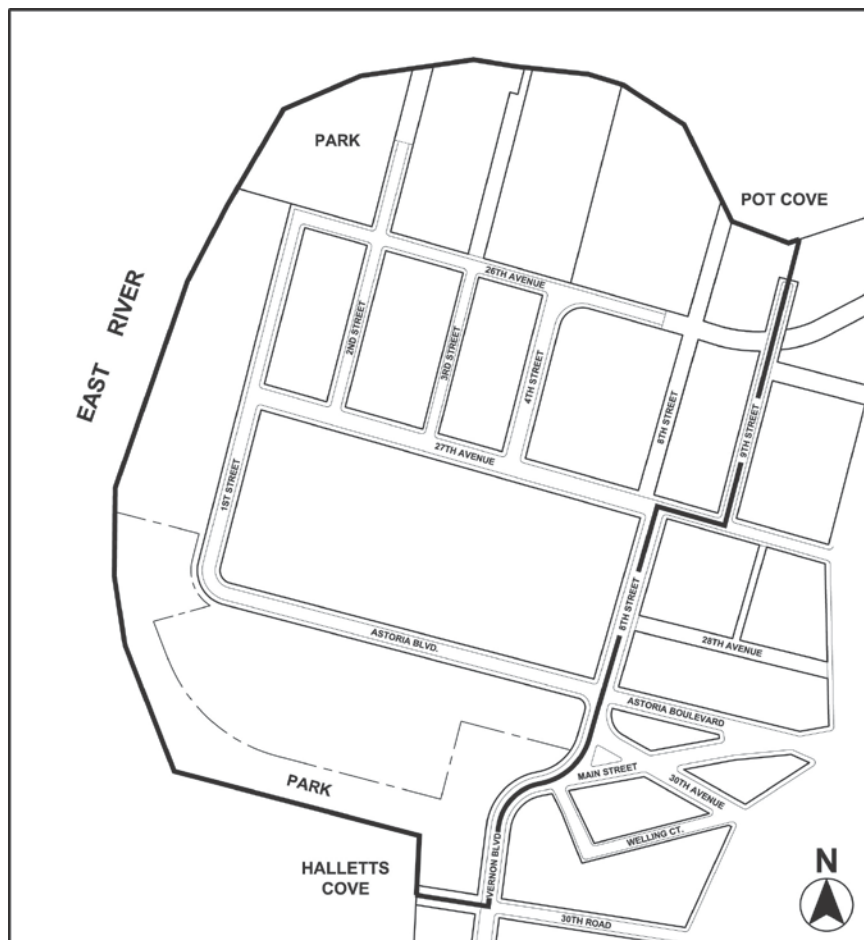

(10/9/13)

Appendix B

FRESH Food Store Designated Areas: Included Portions

The #FRESH food store# designated areas are listed by community district and borough in Section 63-02 (Applicability). When a #FRESH food store# designated area occupies only a portion of a community district, the included portions of such community districts are shown on the following maps:

Map 1. Included portions of Community District 1, Queens

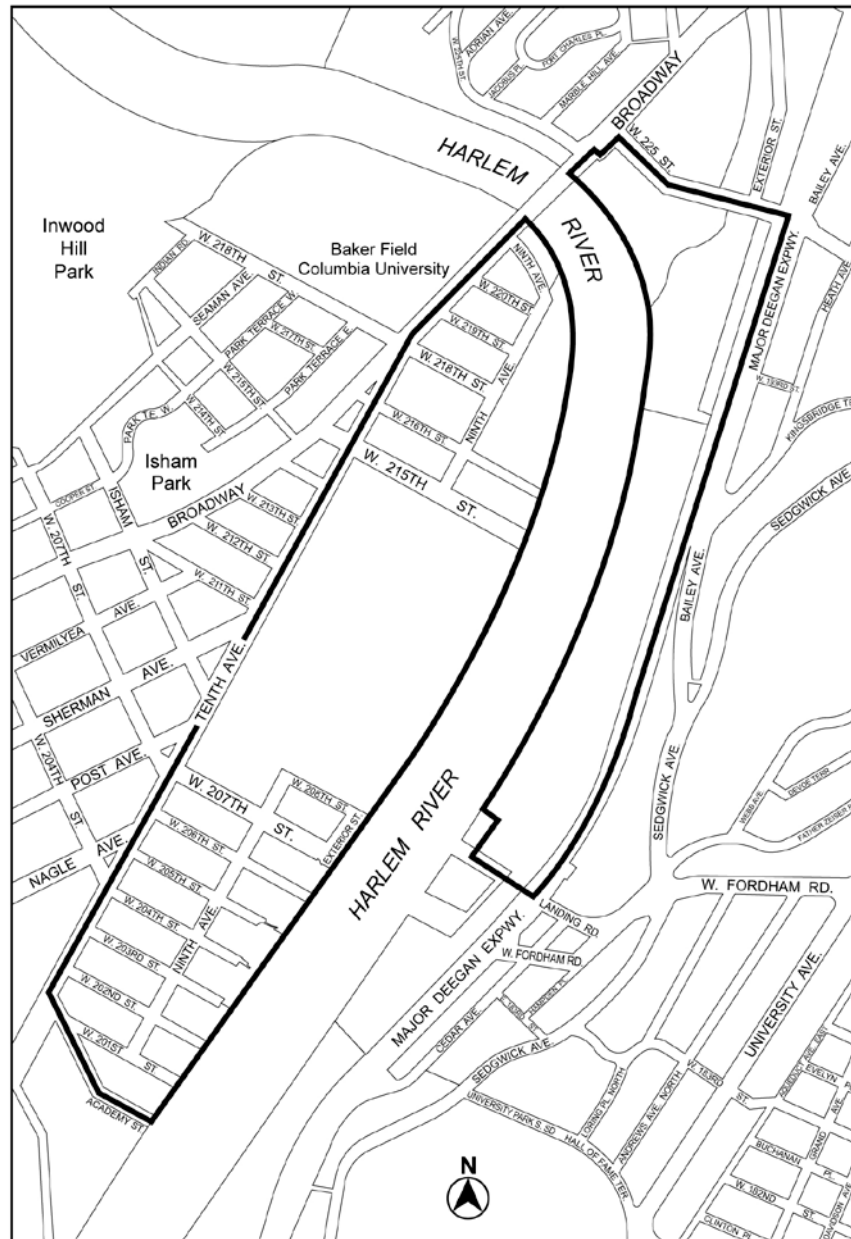

(10/9/13)

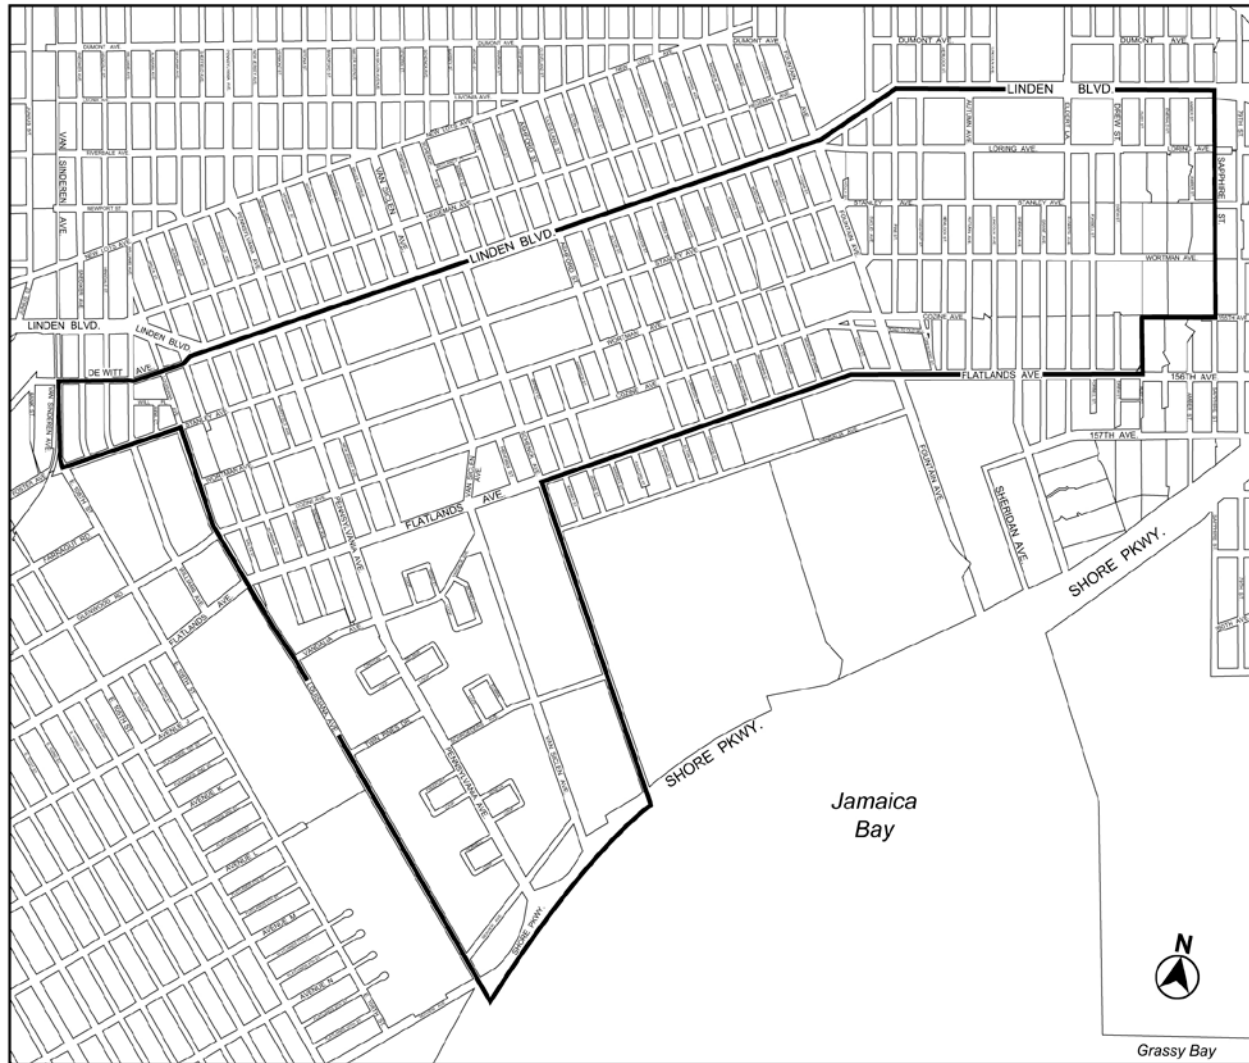

Appendix C

Required Off-Street Accessory Parking Exceptions

Map 1. Excluded portions of Community District 12, Manhattan and a portion of Community District 7, the Bronx

Map 2. Excluded portions of Community District 5, Brooklyn

Map 3. Excluded portions of Community District 16 & 17, Brooklyn

Chapter 4
Special Regulations Applying in Flood Hazard Areas

(7/23/15)

64-00
GENERAL PURPOSES

The provisions of this Chapter establish special regulations which are designed to encourage flood-resilient building practices for new and existing buildings and in so doing to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

- (a) to facilitate the development and alteration of buildings in flood zones consistent with the latest flood-resistant construction standards of the Federal government and the New York City Building Code;
- (b) to enable buildings to be constructed pursuant to flood-resistant standards with a comparable amount of usable interior space to what is generally permitted within the applicable zoning district;
- (c) to mitigate the effects of elevated and flood-proofed buildings on the streetscape and pedestrian activity;
- (d) to expedite the recovery of neighborhoods that experienced a high concentration of damage to single- and two-family residences from Hurricane Sandy within the Neighborhood Recovery Areas specified in Appendix A of this Chapter; and
- (e) to promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

(10/9/13)

64-10
GENERAL PROVISIONS

The provisions of this Chapter shall be in effect until one year

after the adoption by the City of New York of new final Flood Insurance Rate Maps superseding the Flood Insurance Rate Maps in effect on October 28, 2012.

(10/9/13)

64-11

Definitions

Definitions specifically applicable to this Chapter are set forth in this Section and may modify definitions set forth in Section 12-10 (DEFINITIONS). Where matter in italics is defined both in Section 12-10 and in this Chapter, the definitions in this Chapter shall govern.

Basement

For #buildings#, or portions thereof, that comply with #flood-resistant construction standards#, a "basement" is a #story# (or portion of a #story#) partly below #flood-resistant construction elevation#, with at least one-half of its height (measured from floor to ceiling) above #flood-resistant construction elevation#.

Cellar

For #buildings#, or portions thereof, that comply with #flood-resistant construction standards#, a "cellar" is a space wholly or partly below the #flood-resistant construction elevation#, with more than one-half its height (measured from floor to ceiling) below the #flood-resistant construction elevation#.

Flood-resistant construction elevation

The "flood-resistant construction elevation" is the greater of:

- (a) the "design flood elevation" determined pursuant to Appendix G of the New York City Building Code for a building's structural occupancy category; or
- (b) the base flood elevation indicated on the #flood maps#, plus the additional elevation required above base flood elevation for the applicable occupancy category when determining the Design Flood Elevation pursuant to Appendix G of the Building Code.

Flood-resistant construction standards

"Flood-resistant construction standards" shall:

- (a) comply with the standards of Appendix G of the Building Code for

"Post-FIRM Construction," whether construction voluntarily complies with standards for "Post-FIRM Construction" or is required to comply; and

- (b) utilize the higher base flood elevation and the more stringent flood hazard area designation, as applicable, of the #flood maps# or the Flood Insurance Rate Maps in effect on October 28, 2012.

Hurricane Sandy

"Hurricane Sandy" is a severe storm that occurred on October 28, 2012, causing heavy flooding, power outages, property damage, and disruption of public transportation and other vital services.

Lowest occupiable floor

The "lowest occupiable floor" shall be the finished floor level of the lowest floor that is not used solely for parking, storage, building access or crawl space, where any space below such #lowest occupiable floor# is wet flood-proofed in accordance with #flood-resistant construction standards# and used only for parking, storage or building access, or otherwise is not occupiable space.

Predominant or predominantly

"Predominant" or "predominantly" shall mean that a #use# or a group of #uses# comprises at least 75 percent of the total #floor area# of the #building# or of the area of the #zoning lot#, as applicable.

(7/23/15)

64-12

Applicability

The provisions of this Chapter shall apply only within the #flood zone#, as follows:

- (a) Except where otherwise stated, all #buildings#, or portions thereof, shall comply with #flood-resistant construction standards# as a condition of construction pursuant to the following optional provisions, as applicable, inclusive:

Section 64-10 GENERAL PROVISIONS

Section 64-20 SPECIAL USE REGULATIONS

Section 64-30 SPECIAL BULK REGULATIONS

Section 64-40 SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING
ON OCTOBER 28, 2012

Section 64-50 SPECIAL PARKING REGULATIONS

Section 64-70 SPECIAL REGULATIONS FOR NON-CONFORMING USES AND
NON-COMPLYING BUILDINGS

Section 64-80 MODIFICATION OF SPECIAL REGULATIONS APPLYING IN
WATERFRONT AREAS

Section 64-90 SPECIAL APPROVALS

- (b) The provisions of Section 64-60 (DESIGN REQUIREMENTS) shall apply to all #developments#, all horizontal #enlargements# with new #street walls#, or alterations that increase the height of #street walls#, except that Section 64-65 (Screening Requirements for Parking Within or Below Buildings) shall apply to all #buildings# as provided therein.
- (c) Where a #zoning lot# is located partially within a #flood zone#, the regulations of this Chapter shall apply where any portion of a #building# on such #zoning lot# is within such #flood zone#.
- (d) In Neighborhood Recovery Areas, shown on maps in Section 64-A80 (NEIGHBORHOOD RECOVERY AREA MAPS) of this Chapter, optional provisions to expedite the vertical elevation or reconstruction of #single-# or #two-family residences# shall apply. These provisions are set forth in Appendix A and shall supplement, supersede or modify the provisions of this Chapter. The maps are hereby incorporated and made part of this Resolution, for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter may apply.

(10/9/13)

64-13

Applicability of District Regulations

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

(10/9/13)

64-131

Measurement of height

All measurements of height above #curb level#, #base plane#, #base flood elevation#, grade, or other similar ground related datum, shall be from the #flood-resistant construction elevation#. This provision shall not apply to #buildings# that are #accessory# to #single-# or #two-family residences#, or to fences, #signs# not affixed to #buildings#, or other structures that are not #buildings#.

In R3, R4A and R4-1 Districts within #lower density growth management areas#, the maximum perimeter wall height shall be 21 feet above the #flood-resistant construction elevation# or 26 feet above grade, whichever is greater.

Where different #flood-resistant construction elevations# apply to different portions of a #building#, the highest of such #flood-resistant construction elevations# may apply to the entire #building#.

For #buildings# located partially within and partially outside of the #flood zone#, all measurements of height shall be in accordance with only one of the following provisions:

- (a) the #flood-resistant construction elevation# shall apply to the entire #building#;
- (b) the height of the portion of the #building# within the #flood zone# shall be measured from the #flood-resistant construction elevation#, and the height of the portion of the #building# outside of the #flood zone# shall be measured from an elevation determined in accordance with the underlying applicable regulations; or
- (c) the elevation of each such portion of the #building# from where height is measured shall be multiplied by the percentage of the total #lot coverage# of the #building# to which such elevation applies. The sum of the products thus obtained shall be the elevation from which the height of the entire #building# is measured.

(10/9/13)

64-20

SPECIAL USE REGULATIONS

(10/9/13)

64-21

Ground Floor Use

- (a) In all districts, where compliance with the elevation and wet flood-proofing requirements of Appendix G of the New York City Building Code would result in a #lowest occupiable floor# that is above a level required by the Zoning Resolution without the relief provided by this Section, such requirements shall be modified so that the level of such ground floor shall be the lowest level permitted for #uses# other than parking, storage and building access as if it were "Post-FIRM Construction," as defined by Appendix G of the Building Code, using elevation and wet flood-proofing techniques.
- (b) In C1, C2 and C4 Districts in the Borough of Staten Island, where #flood-resistant construction elevation# is more than 10 feet above #curb level#, the provisions of Section 32-433 (Ground floor use in C1, C2 and C4 Districts in the Borough of Staten Island) shall be modified to allow enclosed parking spaces, or parking spaces covered by a #building#, including such spaces #accessory# to #residences#, on the ground floor within 30 feet of the #street wall# of the #building#, provided that the standards of Section 64-641 (Design requirements) are met.

(10/9/13)

64-22

Transparency Requirements

In all districts, as an alternative to #street wall# transparency regulations, the following optional provisions may apply, except where #buildings# are governed by the provisions of Section 64-64 (Design Requirements for Non-Residential and Mixed Buildings in Commercial and Manufacturing Districts).

#Street walls# shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Such transparent glazing materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between the level of the first finished floor above #curb level# and a height 12 feet above such level.

(10/9/13)

64-30

SPECIAL BULK REGULATIONS

(10/9/13)

64-31

Special Floor Area Regulations

(10/9/13)

64-311

Entryways in single- and two-family residences

For #single-# and #two-family residences# with enclosed entryways below #flood-resistant construction elevation#, up to 10 square feet of such entryway may be excluded from the definition of #floor area# for each foot of difference between the #lowest occupiable floor# and #curb level#. This area may be excluded from the definition of #floor area# provided it is not greater than the total area of ramps, stairs, lifts and elevators between grade and the first finished floor, plus an initial entry area of no more than 12 square feet.

(10/9/13)

64-312

Entryways in all other buildings

For all #buildings# other than #single-# and #two-family residences#, with enclosed publicly accessible entryways below #flood-resistant construction elevation#, up to 100 square feet of such entryways may be excluded from the definition of #floor area# for each foot of difference between the #lowest occupiable floor# and #curb level#. This area may be excluded from the definition of #floor area# provided it is not greater than the total area at each publicly accessible entryway of ramps, stairs, lifts and elevators plus an initial entry area of no more than 100 square feet for each entryway.

(10/9/13)

64-313

Mechanical systems in low density districts

Floor space used for #accessory# mechanical equipment in R1-2A, R2A, R2X, R3, R4 or R5 Districts may be excluded from the definition of #floor area# without the limitations provided in the definition of #floor area#, paragraphs (m) and (8) in Section 12-10 (DEFINITIONS).

(10/9/13)

64-32

Special Yard Regulations

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

(10/9/13)

64-321

Level of required yards

Underlying #yard# regulations shall be modified to allow #yards# to be higher than #curb level# but in no event higher than #flood-resistant construction elevation#. In addition, the following regulations shall apply:

- (a) in #Residence Districts# and C1 through C6 Districts, #yards# higher than #curb level# shall comply with the following standards:
 - (1) final grade shall not penetrate a plane that begins 30 inches above #curb level# at each #lot line# and has a slope extending perpendicular to #lot lines# of one foot vertical for each 2.5 feet horizontal;
 - (2) retaining walls shall be permitted above #curb level# in #yards# provided the maximum height of each wall above adjacent grade does not exceed 30 inches; and
 - (3) in #front yards# in Residence Districts, portions of fences greater than four feet above #curb level# shall be required to be no more than 50 percent opaque; and
- (b) in C7 and C8 Districts and in #Manufacturing Districts#, #yards#

shall be permitted to a maximum grade equal to #flood-resistant construction elevation#. However, for portions of #zoning lots# where Sections 33-29 and 43-30 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) apply, #yards# are permitted above #curb level# only pursuant to paragraph (a) of this Section.

Nothing in this Section shall be construed so as to permit the creation of spaces sub-grade on all sides in a manner inconsistent with Appendix G of the Building Code.

(10/9/13)

64-322

Permitted obstructions in required yards, courts and open space

- (a) For #single-# and #two-family residences#, where #flood-resistant construction elevation# is five feet or more above #curb level#, roofed porches shall be permitted obstructions in any #open space# required on the #zoning lot# and in #yards#. Balconies for such #residences# may exceed the width and depth standards of Section 23-13 where such balconies are located directly above a porch.
- (b) For #single-# and #two-family residences#, lifts for persons with disabilities shall be permitted obstructions in any #open space# required on the #zoning lot# and in #courts#, #yards# and #rear yard equivalents#, provided that in #front yards#, such lifts are unenclosed.
- (c) For all #buildings#, except #single-# and #two-family residences#, #accessory# mechanical equipment shall be a permitted obstruction in #rear yards# and #rear yard equivalents#, provided that such equipment is:
 - (1) located above #flood-resistant construction elevation#;
 - (2) enclosed within a #building#, or portion thereof, or within a #structure# that provides screening of such mechanical equipment on all sides by walls consisting of at least 50 percent opaque materials;
 - (3) in R3, R4 or R5 Districts, limited to a height of 10 feet above #flood-resistant construction elevation#, including the apex of a pitched roof;
 - (4) in R6, R7, R8, R9 or R10 Districts, limited to a height of 14 feet above #flood-resistant construction elevation#; or

(5) in #Commercial# or #Manufacturing Districts#, limited to a height of 23 feet above #flood-resistant construction elevation#;

#Accessory# mechanical equipment located in #rear yards# or #rear yard equivalents# and meeting the standards of this Section shall be a permitted obstruction in any #open space# required on the #zoning lot#, provided that the total area occupied by a #building# used for both enclosed parking and such mechanical equipment does not exceed 20 percent of the total required #open space# on the #zoning lot#.

Decks, parapet walls, roof thickness, skylights, vegetated roofs, and weirs, as set forth in Section 23-62 (Permitted Obstructions), and solar energy systems, limited to 18 inches in height, as measured perpendicular to the roof surface, shall be permitted upon the roof of such #accessory building# within the #rear yard# or #rear yard equivalent#.

(10/9/13)

64-323

Flood panels in required yards and open space

Temporary flood control devices and associated emergency egress systems that are assembled prior to a storm and removed thereafter shall be permitted obstructions in #yards# and #rear yard equivalents#, #courts#, #open space#, #waterfront yards# as defined in Article VI, Chapter 2, #public plazas# and all other publicly accessible open areas during such storm event and for a reasonable period prior to and after such storm event, as determined by the Department of Buildings.

(10/9/13)

64-33

Special Height and Setback Regulations

(10/9/13)

64-331

Permitted obstructions for multi-family buildings in R3-2 and R4 Districts

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In R3-2 and R-4 Districts, for all #buildings#, or portions thereof, subject to Section 23-60 (HEIGHT AND SETBACK REGULATIONS), except #single-# and #two-family residences#, elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks and #accessory# mechanical equipment (including enclosures), other than solar or wind energy systems, shall be considered permitted obstructions to height and setback regulations, provided that:

- (a) such obstructions shall be located not less than 10 feet from the #street wall# of a #building#;
- (b) all mechanical equipment shall be screened on all sides;
- (c) the #lot coverage# of all such obstructions and screening does not exceed 250 square feet or 10 percent of the #lot coverage# of the #building#, whichever is greater; and
- (d) such obstructions are limited to a height of 15 feet above the maximum height of perimeter walls.

(10/9/13)

64-332

Permitted obstructions for buildings in medium and high density districts

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In R5 through R10 Districts, and in all #Commercial# and #Manufacturing Districts#, for all #buildings#, the underlying regulations governing permitted obstructions to height and setback shall be modified to increase the permitted volume for elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks and #accessory# mechanical equipment (including enclosures), other than solar or wind energy systems, from a maximum #lot coverage# of 20 percent of the #lot coverage# of the #building# to a maximum #lot coverage# of 30 percent of the #lot coverage# of the #building#, provided that where the maximum permitted height of a #building# is less than 120 feet, such obstructions are limited to a maximum height

of 25 feet, and where the maximum permitted height of a #building# is 120 feet or greater, such obstructions are limited to a maximum height of 40 feet.

(10/9/13)

64-333

Street wall location in certain districts

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In all districts, where underlying #street wall# location regulations require the ground floor of a #street wall# to extend along the entire #street# frontage of a #zoning lot# and be located on the #street line#, such regulations are modified as follows:

- (a) recesses, not to exceed five feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#; and
- (b) up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. However, no recesses shall be permitted within 30 feet of the intersection of two #street lines#.

(10/9/13)

64-334

Alternative height measurement for single- and two-family residences

R1 R2 R3 R4 R5

In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for #single-# and #two-family residences# where #flood-resistant construction elevation# is between six and nine feet above #curb level#, #building# height may be measured from a reference plane nine feet above #curb level#, provided that at least two mitigating elements are provided from the list in Section 64-61 (Design Requirements for Single- and Two-Family Residences).

(10/9/13)

64-335

Alternative height measurement for other buildings in Residence Districts

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for all #buildings# other than #single-# and #two-family residences#, where #flood-resistant construction elevation# is between five and 10 feet above #curb level#, #building# height may be measured from a reference plane 10 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. Where the provisions of this Section are utilized, the standards of Section 64-622 (Lobby or non-residential use) shall be met.

(10/9/13)

64-336

Alternative height measurement in Commercial and Manufacturing Districts

C1 C2 C3 C4 C5 C6

- (a) In the districts indicated, as an alternative to Section 64-131 (Measurement of height), for all #residential buildings# other than #single-# and #two-family residences#, where #flood-resistant construction elevation# is between five and 10 feet above #curb level#, #building# height may be measured from a reference plane 10 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. Where the provisions of this Section are utilized, the standards of Section 64-622 (Lobby or non-residential use) shall be met.

C1 C2 C3 C4 C5 C6 C7 C8 M1 M2 M3

- (b) In the districts indicated, as an alternative to Section 64-131, for all #buildings# other than #residential buildings# and #buildings# containing #predominantly# Use Group 16, 17 or 18 #uses#, where #street walls# are within 50 feet of a #street line# and #flood-resistant construction elevation# is between five and 12 feet above #curb level#, #building# height may be measured from a reference plane 12 feet above #curb level#, and any minimum base height requirements may be measured from #curb level#. Where the provisions of this Section are utilized, the standards of Section 64-642 (Transparency requirements for

buildings utilizing alternative height measurement) shall be met.

(10/9/13)

64-40

SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012

The following provisions shall apply to #buildings# existing on October 28, 2012, and to the reconstruction of such #buildings#.

(10/9/13)

64-41

Special Floor Area Regulations for Buildings Existing on October 28, 2012

(10/9/13)

64-411

Floors below the flood-resistant construction elevation

(a) Dry flood-proofing

In C1 and C2 Districts mapped within R1 through R6 Districts, and in C3, C4-1, C4-2 and C4-3 Districts, where the level of any finished floor above adjacent grade that existed on October 28, 2012, is below #flood-resistant construction elevation#, such floor space may be exempted from the definition of #floor area# provided that such floor space, as well as any space below such floor space, complies with the #flood-resistant construction standards# for dry flood-proofing. The certificate of occupancy, if required, shall note that such floor space has been dry flood-proofed and must comply with the provisions of Appendix G of the New York City Building Code, and that the number of #dwelling units# or #rooming units# shall be limited to no more than the number existing on October 28, 2012.

In addition, the following provisions shall apply:

- (1) such floor space exempted from the definition of #floor area# shall not exceed 10,000 square feet;

- (2) such floor space exempted from the definition of #floor area# shall be used for a #community facility use# or #commercial use# permitted by the underlying zoning district;
- (3) no floor space shall be exempted if parking spaces within such #building# are located within 30 feet of the #street wall#; and
- (4) the #building# shall contain no more #dwelling units# or #rooming units# than existed on October 28, 2012.

(b) Wet flood-proofing

This paragraph shall not apply to #buildings# containing non-#residential uses# where the #flood-resistant construction elevation# is less than two feet above the level of the first finished floor above #curb level#.

Where the level of any finished floor above adjacent grade that existed on October 28, 2012, is below #flood-resistant construction elevation#, such floor space may be exempted from the definition of #floor area# provided that such floor space, as well as any space below such floor space, complies with the #flood-resistant construction standards# for wet flood-proofing. The certificate of occupancy, if required, shall note that such floor space has been wet flood-proofed and must comply with the provisions of Appendix G of the Building Code.

The #floor area# which has been flood-proofed pursuant to the provisions of this Section need not be rebuilt prior to sign-off by the Department of Buildings or issuance of a certificate of occupancy for such alteration to the flood-proofed floor space in order for such #floor area# to be preserved as long as an application for construction documents for the reconstruction of such #floor area# has been approved by the Department of Buildings prior to the issuance of such sign-off or certificate of occupancy for the alteration associated with the flood-proofing. Such construction documents shall acknowledge that the #non-complying floor area# is being preserved and shall depict its use within the same #building# in a manner complying with #flood-resistant construction standards#.

(10/9/13)

64-412

Lowest story of a residential building

In all districts, where the #floor area# of a #single#-or-#two-family

residence# existing on October 28, 2012, did not include the lowest #story# because such #story# complied with the criteria set forth in paragraph (9) of the definition of "floor area" in Section 12-10, any space used for dwelling purposes within such #story# shall continue to be exempt from the definition of #floor area#, notwithstanding such criteria, provided such #story# is elevated or reconstructed at or above the #flood-resistant construction elevation#.

(10/9/13)

64-42

Yards, Courts and Open Space for Buildings Existing on October 28, 2012

(10/9/13)

64-421

Permitted obstructions

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

- (a) For existing #single-# and #two-family residences#, and for the reconstruction of such #residences#, mechanical equipment including but not limited to #accessory# heating and cooling equipment and emergency generators, shall be permitted obstructions in #open space# required on the #zoning lot#, in any #side yard#, #rear yard# or #rear yard equivalent#, and in #courts#, provided such equipment is:
- (1) located above #flood-resistant construction elevation#; and
 - (2) located at least five feet from any #lot line#; and
 - (3) screened on all sides by walls consisting of at least 50 percent opaque materials; and
 - (4) in compliance with the standards of either paragraph (a)(5) or (a)(6) of this Section; and
 - (5) the mechanical equipment and all structure and screening are located no more than seven feet from the wall of a #building# and limited to a height of no more than 10 feet above #flood-resistant construction elevation#; or

- (6) the mechanical equipment is located within a detached garage or on the roof of a detached garage, provided that:
 - (i) where covered by a sloping roof that rises at least seven inches in vertical distance for each foot of horizontal distance, no portion of the roof shall exceed a height of 14 feet above the adjoining grade, measured to the midpoint of a sloping roof; or
 - (ii) for all other conditions, no portion of the garage, screening or the mechanical equipment shall exceed a height of 12 feet above the adjoining grade.
- (b) For existing #buildings#, except #single-# and #two-family residences#, #accessory# mechanical equipment shall be permitted obstructions in #courts# and #open space#, provided such equipment is:
 - (1) located above #flood-resistant construction elevation#;
 - (2) within a #structure# that provides screening of such mechanical equipment on all sides by walls consisting of at least 50 percent opaque materials;
 - (3) limited to a height established in Section 64-322 (Permitted obstructions in required yards, courts and open space), paragraph (c), for mechanical equipment as permitted obstructions in a #rear yard#; and
 - (4) located at least 30 feet from any #legally required window#.
- (c) For existing #buildings#, except #single-# and #two-family residences#, lifts for persons with disabilities, where permitted pursuant to provisions of the New York City Building Code, shall be permitted obstructions in #yards#, #courts# and #open space#.

(10/9/13)

64-422

Front yard planting requirement

R1 R2 R3 R4 R5

In the districts indicated, the provisions of Section 23-451 (Planting requirement) are modified for existing #buildings#, where the distance between the #street wall# and the #street line# is six

feet or less, to allow stairs, ramps or lifts that access the #lowest occupiable floor# to be counted as planted area for the purposes of fulfilling the requirements of such provisions.

(10/9/13)

64-43

Special Height and Setback Regulations for Buildings Existing on October 28, 2012

(7/23/15)

64-431

For existing single- and two-family residences

#Single-# and #two-family residences# existing on October 28, 2012, may be vertically elevated, or reconstructed to a higher elevation, in order to raise the lowest horizontal structural member supporting the lowest floor containing habitable space, located at or above the adjoining grade as of October 28, 2012, to #flood-resistant construction elevation#, and in so doing may create a #non-compliance# as to height and setback to the extent that such lowest horizontal structural member is elevated or reconstructed to #flood-resistant construction elevation#.

This Section shall not preclude the construction of complying #enlargements# or other complying structures on the #zoning lot#.

#Buildings# that were complying on October 28, 2012, and vertically elevated or reconstructed to a higher elevation, pursuant to this Section, shall be considered legal #non-complying buildings#.

(10/9/13)

64-432

Permitted obstructions for certain existing buildings

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In R5 through R10 Districts, and in #Commercial# and #Manufacturing Districts#, for all existing #buildings#, the regulations for permitted obstructions to height and setback regulations shall be

modified to increase the permitted volume for elevator or stair bulkheads (including shafts, and vestibules not larger than 60 square feet in area providing access to a roof), roof water tanks and #accessory# mechanical equipment (including enclosures), other than solar or wind energy systems, as follows:

- (a) where the maximum #building# height is less than 120 feet, the maximum permitted height of such volume may be increased from 25 feet to 33 feet, provided that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#; and
- (b) where the maximum #building# height is 120 feet or greater, the maximum permitted height of such volume may be increased from 40 feet to 55 feet, provided that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#.

(10/9/13)

64-44

Special Minimum Distance Regulations for Buildings Existing on October 28, 2012

For #single-# and #two-family residences# existing on October 28, 2012, if such #buildings# are elevated, relocated or reconstructed pursuant to Sections 64-131 (Measurement of building height), 64-722 (Single- and two-family residences in required front yards) and 64-331 (Special height and setback provisions for single- and two-family residences), the provisions of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) shall not apply.

(10/9/13)

64-50

SPECIAL PARKING REGULATIONS

Sections 64-51 (For Residential Buildings with Below-Grade Parking) and 64-52 (For Elevated Buildings) shall apply to #buildings# existing on October 28, 2012, and to the reconstruction of such #buildings#. Section 64-51 shall apply without requiring a #building# to comply with #flood-resistant construction standards# provided in paragraph (a) of Section 64-12 (Applicability).

Section 64-53 (Surfacing) shall apply to all #zoning lots# within the

#flood zone#.

The underlying parking location, curb cut spacing, permitted obstruction and surfacing regulations are modified in accordance with the provisions of this Section.

(10/9/13)

64-51

For Residential Buildings with Below-Grade Parking

R1 R2 R3 R4 R5

In the districts indicated, other than R4B and R5B Districts, where below-grade garages within #residential buildings# are eliminated in order to comply with Appendix G of the New York City Building Code, #accessory# off-street parking spaces may be relocated from such garages to the side or rear of such #buildings#, or to the #front yard# driveway that accessed the former garage, or to a shared driveway along a common #side lot line#. Where such parking spaces are so relocated, each such space shall have a dimension at least 18 feet long and eight feet wide, and such spaces shall be allowed without regard to underlying parking location, curb cut spacing or permitted obstruction regulations. No modifications of the number of curb cuts on a #zoning lot# or the minimum or maximum width of a curb cut shall be allowed. Where eliminated garages were accessed by a driveway less than 18 feet long, such driveway and curb cut shall be eliminated, and the former driveway planted to the extent necessary to comply, or increase compliance, with the provisions of Section 23-451 (Planting requirement) as if the #building# on the #zoning lot# was constructed after April 30, 2008.

In the event there is no way to arrange relocated required parking spaces on the #zoning lot# in compliance with the provisions of this Section, given that existing #buildings# will remain, the Commissioner of Buildings may waive such spaces.

(10/9/13)

64-52

For Elevated Buildings

R1 R2 R3 R4 R5

In the districts indicated, except R4B and R5B Districts, the provisions of this Section shall apply to #single-# or #two-family

(10/9/13)

R1 R2 R3 R4 R5

(10/9/13)

The following Sections shall apply to all #developments# and to all horizontal #enlargements# with new #street walls# or alterations increasing the height of #street walls#, or as otherwise referenced within this Chapter:

- | | |
|---------------|---|
| Section 64-61 | Design Requirements for Single- and Two-family Residences |
| Section 64-62 | Design Requirements for Other Buildings in Residence Districts |
| Section 64-63 | Design Requirements for Residential Buildings in Commercial Districts |

Section 64-64 Design Requirements for Non-Residential and Mixed
Buildings in Commercial and Manufacturing Districts

Section 64-65 (Design Requirements for Parking Areas Within or Below Buildings) shall apply to any #zoning lot# occupied by a #building#, other than a #single-# or #two-family residence# constructed after October 9, 2013. Any #zoning lot# occupied by a #building# constructed prior to such date shall not be altered in any way that will either create a new #non-compliance# or increase the degree of #non-compliance# with the provisions of Section 64-65.

(10/9/13)

64-61

Design Requirements for Single- and Two-Family Residences

R1 R2 R3 R4 R5 R6

In R1, R2, R3, R4 and R5 Districts, for #single-# and #two-family residences# that have a #street wall# within 50 feet of the #street line#, and in R6 Districts, for #detached# and #semi-detached single# and #two-family residences# that have a #street wall# within 50 feet of the #street line#, where the level of the #lowest occupiable floor# is five feet or more above #curb level#, at least one of the following visual mitigation elements shall be provided. For such #residences# where the level of the #lowest occupiable floor# is nine feet or more above #curb level#, at least two of the following visual mitigation elements shall be provided.

(a) Porch

Where provided as a mitigating element, a porch shall have a finished floor at least six inches below the #lowest occupiable floor# and have a width at least 70 percent of the aggregate width of all #street walls# within 25 feet of the #street line#. The depth of the porch must be at least five feet, and the porch may not be closer to the #street line# than five feet. Open porches shall count as one mitigating element and roofed porches shall count as two mitigating elements, provided that for such roofed porches, all structural elements shall have a minimum width or depth of at least three inches, and such roof shall have a depth of at least five feet measured perpendicular to the #street wall# and extend along at least 70 percent of the width of the #street wall#. A balcony directly above a porch and a trellis or arbor with structural members spaced no further than 30 inches on center that cover such porch may be considered a porch roof for the purposes of this Section.

(b) Stair direction change

Where provided as a mitigating element, stairs shall be constructed between grade and the #lowest occupiable floor# or porch, as applicable, which shall change direction at least 90 degrees in plan at a point no lower or higher than two feet from the beginning and end of the stair run.

(c) Raised front yard

Where provided as a mitigating element, the grade between the #street line# and #street walls# within 25 feet of the #street line#, and their prolongations, shall be elevated above #curb level# so that a line drawn midway between the #street line# and such #street walls# and prolongations is at least 18 inches above #curb level# at all points, except for pedestrian ways, vehicular access and off-street parking spaces permitted pursuant to Section 64-50 (SPECIAL PARKING REGULATIONS). The area with final grade above #curb level# must be greater than 50 percent of the total area between the #street line# and #street walls# within 25 feet of the #street line# and their prolongations. Such raised #yards# shall be planted to comply with Section 23-451.

(d) Trees or shrubs at least three feet high

Where provided as a mitigating element, trees or shrubs that attain a height of at least three feet shall be provided between the #street line# and #street walls# within 25 feet of the #street line# and their prolongations. Planting beds shall be at least three feet wide in plan, measured parallel and perpendicular to the #street line#. The length of each planted area shall be measured by inscribing each planted area within a rectangle and measuring the longest dimension of such rectangle. The total length of planted areas shall be greater than 60 percent of the #lot width#, and be planted to screen at least 50 percent of the length of the #street wall#.

However, no mitigation shall be required where more than 50 percent of the #street wall# of a #building# is within three feet of the #street line#.

(10/9/13)

64-62

Design Requirements for Other Buildings in Residence Districts

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In the districts indicated, for all #buildings#, except #single-# and #two-family residences#, where #street walls# are within 50 feet of the #street line#, the provisions of this Section, inclusive, shall apply.

(10/9/13)

64-621

Planting requirement

Where the level of the #lowest occupiable floor# is five or more feet above #curb level#, the area between the #street line# and all #street walls# of the #building# shall be planted at ground level, or in raised planting beds that are permanently affixed to the ground. Such planting shall consist of trees or shrubs within six feet of the #street wall# that attain a height of at least three feet. Such planting shall not be required at the entrances to and exits from the #building#, within driveways accessing off-street parking spaces located within, to the side, or rear of such #building#, or between #commercial uses# and the #street line#. Any such planted area shall have a depth of at least three feet. Where ramps or stairs are located parallel to a #street wall# and within six feet of such #street wall#, minimum planting beds shall be provided between such ramps or stairs and the #street line#.

However, where #street wall# location rules would require a #street wall# to be located such that planting beds would be less than three feet in width, the provisions of this Section shall not apply.

(10/9/13)

64-622

Lobby or non-residential use

Where the #flood-resistant construction elevation# is ten or more feet above #curb level#, a lobby with a minimum width of 20 feet shall be provided along the #street wall# at the level of the adjoining sidewalk or other publicly accessible open area, with a depth of at least 20 feet. For #buildings# with an #aggregate width of street wall# of more than 65 feet, such lobby width shall be at least 30 percent of the #aggregate width of street wall#, but need not be wider than 35 feet. For #zoning lots# with less than 25 feet of frontage along a #street#, a five-foot wide service corridor may be exempted from the requirements of this Section. Transparent glazing materials shall occupy at least 40 percent of the surface

area of the #street wall# of the lobby, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height ten feet above the level of the first finished floor above #curb level#.

Any permitted #non-residential use#, other than #accessory# off-street parking or storage, may be substituted for lobby area required pursuant to this Section, provided that the required width, depth and transparency shall apply to such #use#.

However, where #flood-resistant construction standards# prohibit glazing due to the location of the #building# in a zone subject to wave action as indicated on #flood maps#, the glazing requirements of this Section shall not apply.

(10/9/13)

64-63

Design Requirements for Residential Buildings in Commercial Districts

C1 C2 C3 C4 C5 C6

In the districts indicated, and in #Special Mixed Use Districts#, for all #residential buildings#, except #single-# and #two-family residences#, where #street walls# are within 50 feet of the #street line#, and where the level of the #lowest occupiable floor# is five feet or more above #curb level#, the provisions of Section 64-62 (Design Requirements for Other Buildings in Residence Districts) shall apply.

(10/9/13)

64-64

Design Requirements for Non-Residential and Mixed Buildings in Commercial and Manufacturing Districts

(10/9/13)

64-641

Transparency requirements

C1 C2 C3 C4 C5 C6 C7 C8 M1 M2 M3

In the districts indicated, the provisions of this Section shall

apply to all #buildings#, other than:

- (a) #residential buildings#; and
- (b) in C8 Districts and #Manufacturing Districts#, other than #Special Mixed Use Districts#, #buildings# containing #predominantly# Use Group 16, 17 or 18 #uses#.

Where #street walls# are within 50 feet of the #street line#, and where #flood-resistant construction elevation# is ten feet or more above #curb level#, a portion of the #street wall# with a minimum of 20 feet in width shall provide transparent glazing materials occupying a minimum of 50 percent of the surface area of such #street wall# portion, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height 12 feet above the level of the first finished floor above #curb level#. The floor level behind such transparent glazing materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#. For #buildings# with an #aggregate width of street wall# of more than 65 feet, such transparent portion of the #street wall# shall be at least 30 percent of the #aggregate width of street wall#, but need not be wider than 35 feet.

However, where #flood-resistant construction standards# prohibit glazing due to the location of the #building# in a zone subject to wave action as indicated on #flood maps#, the glazing requirements of this Section shall not apply.

(10/9/13)

64-642

Transparency requirements for buildings utilizing alternative height measurement

C1 C2 C3 C4 C5 C6 C7 C8 M1 M2 M3

In the districts indicated, for all #buildings# utilizing the provisions of Section 64-336 (Alternative height measurement in Commercial and Manufacturing Districts), paragraph (b), #street walls# shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors. Furthermore, such transparent glazing materials shall occupy at least 50 percent of the surface area of such #street wall#, measured between a height of two feet above the level of the adjoining sidewalk or other publicly accessible open area and a height of 12 feet above the level of the first finished floor above #curb level#. The floor level behind such transparent glazing materials shall not

exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#.

(10/9/13)

64-65

Screening Requirements for Parking Within or Below Buildings

The provisions of this Section shall apply to all #buildings#, other than:

- (a) #single# or #two-family residences#; and
- (b) in C8 Districts and #Manufacturing Districts#, other than #Special Mixed Use Districts#, #buildings# containing #predominantly# Use Group 16, 17 or 18 #uses#.

#Buildings# in existence prior to October 9, 2013, shall not be altered in any way that will create a new #non-compliance# or increase the degree of #non-compliance# with the provisions of this Section.

Where the #flood-resistant construction elevation# is five or more feet above #curb level# and the #street wall# of a #building# is within 50 feet of the #street line#, for any level where off-street parking is provided within or below a #building#, such parking shall be screened from the #street line# with a #street wall# that is at least 50 percent opaque. Each one-foot square portion of such #street wall# shall comply individually with this requirement.

In case of a conflict between the provisions of this Section and the provisions of another Chapter, the more restrictive provisions shall apply.

(10/9/13)

64-70

SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS

(10/9/13)

64-71

Non-Conforming Uses

(10/9/13)

64-711

Reconstruction of buildings damaged more than 50 percent

Section 52-53 (Buildings or Other Structures in All Districts) shall be modified to allow the reconstruction of a #non-conforming use# where a #building# containing such #use# is damaged to the extent of 50 percent or more due to the effects of #Hurricane Sandy#, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year following the City's adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

However, this provision shall not apply to #non-conforming residences# in C8 Districts or #Manufacturing Districts#, or to #non-conforming manufacturing uses# located in #Residence Districts# or #Commercial Districts# other than C8 Districts.

(10/9/13)

64-712

Single- and two-family buildings

For #non-conforming single-# and #two-family residences#, except #non-conforming residences# in C8 Districts or #Manufacturing Districts#, reconstruction shall be permitted, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than six years following the City's adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date ten years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

(10/9/13)

64-72

Non-Complying Buildings

(10/9/13)

64-721

Reconstruction of buildings damaged more than 75 percent

Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS) shall be modified to allow the reconstruction of a #non-complying building# where such #building# is damaged to the extent of 75 percent or more due to the effects of #Hurricane Sandy#, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year following the City's adoption of new final Flood Insurance Rate Maps that superseded the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

(10/9/13)

64-722

Single- and two-family residences in required front yards

The provisions of Article V, Chapter 4, shall be modified in order to accommodate stair access in a #front yard#. #Single-# and #two-family residences# with #non-complying front yards# existing on October 28, 2012, may be relocated or reconstructed in a location further from the #front lot line# on the same #zoning lot#, and thereby create or increase an encroachment in a #side yard#, #rear yard# or #rear yard equivalent#, provided that:

- (a) any encroachment or further encroachment into a required #side# or #rear yard# or #rear yard equivalent# at the rear of the original #building# location is limited to a depth equal to the reduction of encroachment of the #building#, excluding stairs in the #front yard#;

- (b) a distance of at least eight feet shall be maintained between the rear wall of the #building# and all other #residences# on the same or adjoining #zoning lots#; and
- (c) at least four feet of a #rear yard# shall be free of any encroachment, measured perpendicular to the #rear lot line#, or, in a #rear yard equivalent#, at least eight feet shall be free of encroachment.

(7/23/15)

64-723

Non-complying single- and two-family residences

- (a) The provisions of Article V, Chapter 4, shall be modified to permit #single-# and #two-family residences# that are #non-complying# and existing on October 28, 2012, to be vertically elevated, or reconstructed to a higher elevation in order to raise the lowest horizontal structural member supporting the lowest floor containing habitable space that was located at or above the adjoining grade as of October 28, 2012, to #flood-resistant construction elevation#.

Such vertical elevation or reconstruction may create a new #non-compliance# as to height and setback, or increase any existing #non-compliances# as to height and setback, required #open space# and #yard# regulations to the extent that such lowest floor level is elevated or reconstructed to #flood-resistant construction elevation#. However, all other provisions of Article V, Chapter 4, shall apply without modification.

This Section shall not preclude the construction of complying #enlargements# or other complying #buildings or other structures# on the #zoning lot#.

Furthermore, the provisions of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) shall not apply to such elevated, relocated or reconstructed #buildings#.

- (b) For #non-complying single-# and #two-family residences#, reconstruction shall be permitted, provided such reconstruction is the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than six years following the City's adoption of new final Flood Insurance Rate Maps that supersede the Flood Insurance Rate Maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date ten years

after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

(10/9/13)

64-724

Special provisions for other buildings within flood zones

#Non-complying buildings# may be elevated or reconstructed to an increased height, which at all points does not exceed the difference between #flood-resistant construction elevation# and the applicable datum from which height is measured pursuant to the underlying regulations. Such elevation or reconstruction may create a new #non-compliance# or increase the degree of an existing #non-compliance#.

(10/9/13)

64-80

MODIFICATION OF SPECIAL REGULATIONS APPLYING IN WATERFRONT AREAS

The following regulations shall apply in #flood zones# and shall modify regulations set forth in Article VI, Chapter 2 (Special Regulations Applying in Waterfront Areas).

(10/9/13)

64-81

Modification of Waterfront Public Access and Visual Corridor Regulations for Substantially Damaged Buildings

Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), inclusive, and 62-811 shall not apply to the reconstruction of #buildings# that sustained substantial damage, as defined in Appendix G of the New York City Building Code, due to the effects of #Hurricane Sandy#, provided that:

- (a) such #buildings# had no more than 20,000 square feet of #floor area# prior to October 28, 2012;
- (b) the dimensions of the #building# footprint are no greater than the footprint that existed on October 28, 2012;

- (c) if such #building# is repositioned on the #zoning lot#, such repositioning does not newly encroach, or further encroach, into a required #yard#, #rear yard equivalent#, #visual corridor# or existing #public access area#, as defined in Article VI, Chapter 2; and
- (d) the reconstruction does not result in a change of #use# from that existing on October 28, 2012.

The provisions of this Section shall apply to #buildings# that are the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year after the adoption of new final Flood Insurance Rate Maps that supersede the maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

(10/9/13)

64-82

Modification of Waterfront Regulations Relating to Level of Yards, Visual Corridors and the Ground Floor

The provisions of paragraphs (a) and (b) of this Section shall apply to all #zoning lots#, without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

Within the area that has a one percent chance of flooding in a given year, as determined by the Federal Emergency Management Agency (FEMA) in #flood maps# or by earlier adopted Flood Insurance Rate Maps, certain provisions regarding #waterfront yards# and #visual corridors#, as defined in Section 62-11, and ground floor #uses#, are modified as follows:

- (a) #Waterfront yards#

Section 62-332 (Rear yards and waterfront yards) shall be modified to allow the level of a #waterfront yard# to be raised above the elevation of the top of the adjoining existing bulkhead, existing stabilized natural shore or mean high water line, as applicable, provided that:

- (1) where a #waterfront yard# terminates at a #lot line#, the grade of the #waterfront yard# shall be no higher than the grade of the adjacent #street# or #zoning lot#, except that natural grade need not be disturbed to comply with this requirement;
- (2) for #zoning lots# without a #shore public walkway#, as defined in Section 62-11, the maximum grade of the #waterfront yard#, measured parallel to the #shoreline#, shall not exceed three percent; and
- (3) for #zoning lots# with a #shore public walkway#, as defined in Section 62-11, the maximum grade shall be determined by the maximum permitted grade of the circulation path and the provisions of Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS).

(b) #Visual corridors#

Section 62-512 (Dimensions of visual corridors) shall be modified so that the lowest level of a #visual corridor# shall be determined by establishing a plane connecting the two points along the #street lines# from which the #visual corridor# emanates at an elevation three feet above #curb level# with the two points where the prolonged #street lines# intersect the #shoreline#, stabilized natural shore, bulkhead, upland edge of a #waterfront yard# raised pursuant to the provisions of paragraph (a) of this Section, or the #base plane# of a #pier# or #platform#, whichever intersection occurs first. Such plane shall then continue horizontally seaward from the line of intersection. #Visual corridors# that are not prolongations of mapped #streets# shall be determined by establishing a plane connecting an elevation three feet above #curb level# at the two points along the #lot line# from which the #visual corridor# emanates with the two points of intersection at the #shoreline#, stabilized natural shore, bulkhead, upland edge of a #waterfront yard# raised pursuant to the provisions of paragraph (a) of this Section, or the #base plane# of a #pier# or #platform#, whichever intersection occurs first.

(c) Ground floor #uses#

Section 62-341 (Developments on land and platforms), paragraph (c)(6), shall be modified so that "ground floor level" shall mean the lowest level permitted for habitable use as if it were "Post-FIRM Construction" as defined by Appendix G of the New York City Building Code, using elevation and wet flood-proofing techniques, provided that where such lowest permitted level would be less than five feet above the finished level of the adjacent sidewalk, such level need not be lower than five feet

above the finished level of the adjacent sidewalk.

(10/9/13)

64-90

SPECIAL APPROVALS

(10/9/13)

64-91

Modification of Certain Certification Requirements in the Special South Richmond Development District

The provisions of this Section shall apply without requiring a #building# to comply with #flood-resistant construction standards# as established in paragraph (a) of Section 64-12 (Applicability).

In the #Special South Richmond Development District#, Sections 107-22 (Designated Open Space), inclusive, and 107-23 (Waterfront Esplanade) shall not apply to the reconstruction or repair of #buildings# that were damaged due to the effects of #Hurricane Sandy#, provided that:

- (a) the dimensions of the #building# footprint are no greater than the footprint that existed on October 28, 2012; and
- (b) there is no increase in impervious surfaces on the #zoning lot#.

In addition, the provisions of Section 107-22, inclusive, shall not apply to a #site alteration# that is not a #development# or #enlargement# where the Commissioner of Buildings determines it is the minimum necessary to enable the reconstruction of a #building#.

These provisions shall not affect the terms of a certification previously made by the City Planning Commission. The provisions of this Section shall apply to #buildings# that are the subject of an application for approval of construction documents that has been approved by the Department of Buildings no later than one year after the adoption of new final Flood Insurance Rate Maps that supersede the maps in effect on October 28, 2012. Construction pursuant to such approval may continue until a date six years after the adoption of such superseding Flood Insurance Rate Maps. After such date, the vesting provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) shall apply as if the change in #flood map# were a change in provisions of the Zoning Resolution.

(10/9/13)

64-92

Special Permit for Modification of Certain Zoning Regulations

In order to allow for the alteration of existing #buildings# in compliance with #flood-resistant construction standards# and for #developments# and #enlargements# in compliance with #flood-resistant construction standards#, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the #bulk# regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable #bulk# regulations of the Zoning Resolution, except #floor area ratio# regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with #flood-resistant construction standards# without such modifications, and that such modifications are the minimum necessary to allow for an appropriate #building# in compliance with #flood-resistant construction standards#;
- (b) that any modification of #bulk# regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from #flood-resistant construction elevation#, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the #building# is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with #flood-resistant construction standards#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(7/23/15)

Appendix A

Special Regulations for Neighborhood Recovery

(7/23/15)

64-A00

GENERAL PROVISIONS

The provisions of this Resolution shall apply as modified by this Chapter and by the special regulations set forth in this Appendix. The provisions of this Appendix are optional, but when utilized, shall be applied in their entirety. This Appendix shall be in effect until July 23, 2020, at which time it shall automatically expire.

(7/23/15)

64-A01

Applicability of Special Regulations for Neighborhood Recovery

The provisions of this Appendix shall only be applicable to #buildings# containing #residential use# whose vertical elevation or reconstruction will result in a #single-# or #two-family residence# that complies with #flood-resistant construction standards#, where such #building# is located in a Neighborhood Recovery Area (Section 64-A80), inclusive.

(7/23/15)

64-A02

Special Requirements for Application

Prior to the approval of any application to the Department of Buildings pursuant to this Appendix, an applicant shall submit the following documents in order to establish that there was a #building# on the subject lot that contained a #residential use# on October 28, 2012:

- (a) an aerial photograph taken up to one year prior to October 28, 2012, establishing that a #building# existed on the subject lot on October 28, 2012; and
- (b) a 2012 tax bill or assessment roll for the subject lot stating that such #building# contained a #residential use#.

Where the documents specified in this Section are unavailable or inconclusive, the Department of Buildings may accept alternative documentation to satisfy the requirements of paragraphs (a) or (b).

(7/23/15)

64-A03**Zoning Lots in Neighborhood Recovery Areas**

The definition of #zoning lot# set forth in Section 12-10 (DEFINITIONS) shall apply in this Appendix. However, as an option, where a tax lot contained one or more #buildings# on October 28, 2012, or where a #building# or #buildings# occupied more than one tax lot on October 28, 2012, such tax lot may be provisionally considered a #zoning lot# for the sole purpose of demonstrating compliance with the #bulk# requirements of this Resolution, and shall be referred to as a #zoning lot# in this Appendix, provided that the proposed application will not affect compliance with any applicable provisions of the New York City Building Code or Fire Code with respect to access to the same or other #zoning lots# on the same #block#, unless a waiver or modification is obtained from the Department of Buildings or the Fire Department, respectively.

(7/23/15)

64-A10**SPECIAL REGULATIONS FOR ESTABLISHING NON-CONFORMANCE AND NON-COMPLIANCE**

(7/23/15)

64-A11**Special Regulations for Establishing Non-conformance of Residences**

In all #districts#, for a #zoning lot# that contained two or more #dwelling units# on October 28, 2012, and does not have lawful documentation indicating that more than one #dwelling unit# existed on the #zoning lot# on such date, the Board of Standards and Appeals may permit the vertical elevation or reconstruction of #buildings# containing such #dwelling units# and may establish #non-conformance# of such #buildings#, pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).

(7/23/15)

64-A12**Special Regulations for Establishing Non-compliance of Existing Buildings**

In all districts, a #building# containing #residences#, and any other structure that is attached to such #building#, including porches, stairs, terraces or balconies, that existed both on October 28, 2012, and on the date of application for a building permit, may be considered #non-complying# for the purpose of utilizing the applicable provisions of Article V, Chapter 4 and Article VI, Chapter 4 of this Resolution relating to #non-complying buildings or other structures# provided that:

- (a) a survey, prepared by a licensed land surveyor, specifying the location and height of such #building# and any other structures that are attached to such #building#, is submitted as documentation of such #non-compliance#; and
- (b) such #building# shall either be vertically elevated in compliance with the #bulk# provisions of Section 64-A20 (SPECIAL BULK REGULATIONS FOR THE VERTICAL ELEVATION OF EXISTING BUILDINGS), or be reconstructed in compliance with the #bulk# provisions of Section 64-A30 (SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012).

Upon completion and sign-off of work completed pursuant to the provisions of this Appendix, the #building# shall be considered #non-complying#.

(7/23/15)

64-A20

SPECIAL BULK REGULATIONS FOR THE VERTICAL ELEVATION OF EXISTING BUILDINGS

The provisions of this Section shall apply to the vertical elevation of #buildings# containing #residences# that existed on October 28, 2012. Except as specifically modified by the provisions of this Section, inclusive, the applicable #bulk# regulations of this Chapter, the regulations of Article V of this Resolution and the applicable zoning district shall remain in effect.

No #building# that is vertically elevated pursuant to this Section shall subsequently be #enlarged# pursuant to paragraph (b) of Section 54-313 (Single- or two-family residences with non-complying front yards or side yards) or Section 73-622 (Enlargements of single- and two-family detached and semi-detached residences).

(7/23/15)

64-A21

Special Regulations for Rebuilt Portions of Vertically Elevated Buildings

A portion of a #building# that is being vertically elevated pursuant to this Appendix may be rebuilt, provided that:

- (a) the rebuilt portion does not exceed 75 percent of the existing #floor area# of such #building#; and
- (b) except as specifically allowed by this Chapter, no new #non-compliance# shall be created, nor shall the degree of any existing #non-compliance# be increased beyond that established pursuant to Section 64-A10 (SPECIAL REGULATIONS FOR ESTABLISHING NON-CONFORMANCE AND NON-COMPLIANCE).

If the rebuilt portion of a #building# exceeds 75 percent of the existing #floor area# of the #building#, such #building# shall be subject to the regulations of 64-A30 (SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012).

(7/23/15)

64-A22

Special Regulations for Space Partially Below Grade

For a #building# where the lowest floor containing habitable space is partially below adjoining grade, and at least one-half of the floor-to-ceiling height of such floor is above adjoining grade, such #building# may be vertically elevated in order to raise the lowest floor containing habitable space to the #flood-resistant construction elevation#, provided that:

- (a) the elevated #building# does not exceed two #stories#, except that attic space providing structural headroom of less than eight feet shall not be considered a #story# for the purposes of this Section; and
- (b) the height of such elevated #building#, including the apex of a pitched roof, does not exceed 25 feet, as measured from the #flood-resistant construction elevation#.

Any floor space that becomes #floor area# in excess of the maximum permitted #floor area ratio# for such #zoning lot#, as a result of the vertical elevation, shall be considered #non-complying floor area#. Such vertical elevation may increase any existing #non-compliances# with respect to required #open space# and #yard#

regulations to the extent that such #non-compliance# results from the elevation of the lowest floor to the #flood-resistant construction elevation#. All other provisions of Article V, Chapter 4 (Non-complying Buildings), shall apply without modification.

The level of the adjoining grade shall be the average elevation of the grade adjoining the building, before it is elevated, determined in the manner prescribed by the Building Code of the City of New York for adjoining grade elevation.

(7/23/15)

64-A23

Special Regulations for Existing Buildings Located Over Water

For a #building# that will be vertically elevated and is located either partially or entirely seaward of the #shoreline#, such #building# may be relocated landward of the #shoreline# on the same #zoning lot#. Such relocation may create a new #non-compliance# or increase the degree of any existing #non-compliance# as to #side yards#, waterfront yards, #rear yards# or #rear yard equivalents#, provided that:

- (a) an open area of at least three feet shall be maintained between the exterior wall of the #building# and any #lot line#; and
- (b) except as specifically allowed by this Chapter, no new #non-compliance# shall be created, nor shall the degree of any existing #non-compliance# be increased, beyond that established pursuant to Section 64-A12 (Special Regulations for Establishing Non-compliance of Existing Buildings).

(7/23/15)

64-A24

Permitted Obstructions in Required Open Space, Yards and Courts

The provisions of Sections 23-12 (Permitted Obstructions in Open Space), 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 64-421 (Permitted obstructions) shall be modified such that:

- (a) mechanical equipment including, but not limited to, #accessory# heating and cooling equipment, fuel oil tanks and emergency generators shall be permitted obstructions in #open space# required on the #zoning lot#, in any #side yard#, #rear yard# or

#rear yard equivalent# and in #courts#, provided such equipment is:

- (1) located at least three feet from any #lot line#;
- (2) screened on all sides by walls consisting of at least 50 percent opaque materials; and
- (3) in compliance with the standards of either of the following provisions:
 - (i) all structures and screening are located no more than ten feet from the wall of a #building# and limited to a height of no more than 12 feet above #flood-resistant construction elevation#; or
 - (ii) is located on the roof of a #building or other structure#, provided that the height of such equipment and screening does not exceed six feet, as measured from the finished level of a flat roof or, for a sloping roof, as measured from the midpoint of such roof. Such equipment shall be located not less than 15 feet from any #street wall# of a #building or other structure#.
- (b) visual mitigation elements, provided pursuant to Section 64-A50 (SPECIAL DESIGN REQUIREMENTS) shall be permitted obstructions in any #open space# required on the #zoning lot#, in any #yard# and in #courts#.

(7/23/15)

64-A30

SPECIAL BULK REGULATIONS FOR THE RECONSTRUCTION OF BUILDINGS EXISTING ON OCTOBER 28, 2012

The #bulk# regulations of this Section shall apply only to the permitted reconstruction of a #building# that existed on October 28, 2012, and results in a #single-# or #two-family detached residence#. Except as specifically modified by the provisions of this Section, inclusive, the #bulk# regulations of this Chapter and the applicable zoning district shall remain in effect. #Buildings# reconstructed pursuant to this Section shall not be considered #developments# or #enlargements#.

No #building# that is reconstructed pursuant to this Section shall subsequently be #enlarged# pursuant to paragraph (b) of Section 54-313 (Single- or two-family residences with non-complying front yards

or side yards) or Section 73-622 (Enlargements of single- and two-family detached and semi-detached residences).

(7/23/15)

64-A31

Special Regulations for Minimum Required Open Space, Maximum Lot Coverage and Maximum Floor Area

(7/23/15)

64-A311

Lot coverage and open space

R1-2A R2A R3-1 R3-2 R4 R4-1 R4A

In the districts indicated, for #zoning lots# that do not meet the required minimum #lot area# or #lot width# of the applicable district, #lot coverage# and #open space# shall be governed by the #yard# requirements set forth in Section 64-A35 (Special Yard Regulations).

(7/23/15)

64-A312

Floor area

R2X R3 R4 R4-1 R4A

In the districts indicated, the #floor area ratio# set forth in the table in paragraph (b) of Section 23-141 (Open space and floor area regulations in R1, R2, R3, R4 or R5 Districts) may be increased by 20 percent provided that any such increase in #floor area# is located in any portion of a #building# covered by a sloping roof that rises at least seven inches in vertical distance for each foot of horizontal distance.

(7/23/15)

64-A313

Special open space, lot coverage and floor area regulations for small

lots

R1 R2 R3 R4 R5 R6

In the districts indicated, for #zoning lots# with a #lot area# of less than 1,800 square feet, #open space#, #lot coverage# and #floor area ratio# regulations shall not apply. In lieu thereof, the #yard# requirements set forth in Section 64-A35 (Special Yard Regulations) and the height and setback requirements of Section 64-A36 (Special Height and Setback Regulations) shall govern.

(7/23/15)

64-A32

Special Regulations for Maximum Number of Dwelling Units and Minimum Size of Dwelling Units

(7/23/15)

64-A321

Maximum number of dwelling units

R1 R2 R3 R4 R5 R6

In the districts indicated, the provisions of Section 23-22 (Maximum Number of Dwelling Units or Rooming Units) shall not apply. In lieu thereof, not more than one #single-family detached residence# or, where permitted in the applicable zoning district pursuant to Section 22-12 (Use Group 2), one #two-family detached residence#, may be reconstructed. However, any #two-family detached residence# may only be reconstructed if such #zoning lot# contained two or more #dwelling units# on October 28, 2012, as indicated on the certificate of occupancy or upon approval by the Board of Standards and Appeals pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).

(7/23/15)

64-A322

Minimum size of dwelling units

R3 R4-1 R4A

In the districts indicated, the minimum size of a #dwelling unit# as set forth in paragraph (b) of Section 23-23 shall not apply to the permitted reconstruction of a #two-family detached residence#.

(7/23/15)

64-A33

Special Regulations for Minimum Lot Area or Lot Width for Residences

In all districts, including #lower density growth management areas#, either one #single-family detached residence# or, where permitted in the applicable zoning district pursuant to Section 22-12 (Use Group 2) one #two-family detached residence#, may be reconstructed upon a #zoning lot# that:

- (a) has less than the prescribed minimum #lot area# or #lot width# as required by the applicable district regulations; and
- (b) if reconstructed as a #two-family detached residence#, either:
 - (1) complies with the maximum number of #dwelling units# requirement of the applicable zoning district; or
 - (2) such #zoning lot# contained two or more #dwelling units# on October 28, 2012, as indicated on the certificate of occupancy or upon approval by the Board of Standards and Appeals pursuant to Section 64-A71 (Special Permit for Establishing Non-conformance).

(7/23/15)

64-A34

Permitted Obstructions in Required Open Space, Yards and Courts

The provisions of Sections 23-12 (Permitted Obstructions in Open Space), 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) and 64-421 (Permitted obstructions) shall be modified as follows:

- (a) mechanical equipment, including, but not limited to, #accessory# heating and cooling equipment, fuel oil tanks and emergency generators, shall be permitted obstructions in any #open space# required on the #zoning lot#, in any #side yard#, #rear yard# or #rear yard equivalent# and in #courts#, provided that such equipment is:

- (1) located at least three feet from any #lot line#;
- (2) screened on all sides by walls consisting of at least 50 percent opaque materials; and
- (3) in compliance with the standards of either of the following provisions:
 - (i) all structures and screening are located no more than 10 feet from the wall of a #building# and limited to a height of no more than 12 feet above #flood-resistant construction elevation#; or
 - (ii) is located on the roof of a #building# or other structure, provided that the height of such equipment and screening does not exceed six feet, as measured from the finished level of a flat roof or, for a sloping roof, as measured from the midpoint of such roof. Such equipment shall be located not less than 15 feet from any #street wall# of a #building or other structure#.
- (b) eaves, gutters or downspouts shall be permitted obstructions in any #open space# required on the #zoning lot#, in any #yard# and in #courts#, provided that such eave, gutter or downspout does not project further than 16 inches into such required #open space#, #yard# or #court#.
- (c) visual mitigation elements, provided pursuant to Section 64-A50 (SPECIAL DESIGN REQUIREMENTS) shall be permitted obstructions in any #open space# required on the #zoning lot#, in any #yard# and in #courts#.

(7/23/15)

64-A35

Special Yard Regulations

(7/23/15)

64-A351

Special provisions for front yards

R1 R2 R3 R4 R5

- (a) In the districts indicated, the #front yard# provisions of the

applicable district shall apply, except that in R4 and R5 Districts, a #front yard# may have a depth of any dimension equal to or exceeding ten feet.

- (b) In the districts indicated, where an enclosed garage fronts upon a #street#, there shall be an unobstructed area at ground level, between the garage door and the #street line#, which is at least eight and one half feet in width by 18 feet in depth, except no such space shall be required in R5D Districts. Where an unenclosed #accessory# off-street parking space is provided in an open area on a #zoning lot#, or provided beneath an elevated #building#, an unobstructed area at ground level which is at least eight and one half feet in width by 18 feet in depth shall be provided between the #street line# and such space.
- (c) For #buildings# that are reconstructed pursuant to this Section 64-A30, inclusive, the provisions regulating the depth of #front yards# in relation to adjacent #buildings#, set forth in paragraphs (b) and (c) of Section 23-45, shall not apply.

(7/23/15)

64-A352

Special provisions for narrow lots

R1 R2 R3 R4 R5 R6

- (a) In the districts indicated, the #side yard# provisions of the applicable district shall apply, except that the required total width of #side yards# for a #single-# or #two-family detached residence# may be reduced by four inches for each foot by which the width of a #zoning lot# is less than that required under the provisions of Section 23-32 (Minimum Lot Area or Lot Width for Residences). In no event shall the required width of a #side yard# be less than three feet. For #zoning lots# with less than 21 feet in #lot width#, the required total width of #side yards# shall be six feet.
- (b) In the #Special South Richmond Development District#, the provisions of Section 107-42 (Minimum Lot Area and Lot Width for Residences) and Section 107-462 (Side yards) shall not apply. In lieu thereof, the regulations of the applicable underlying #Residence District# shall apply pursuant to Section 23-32 (Minimum Lot Area or Lot Width for Residences) and Section 23-46 (Minimum Required Side Yards) and may be modified, as applicable, by the regulations of this Appendix.
- (c) For the permitted reconstruction of #detached buildings# the

provisions of paragraph (c) of Section 23-461 (Side yards for single- or two-family residences) shall not apply, provided such open area does not serve as access to required #accessory# off-street parking.

(7/23/15)

64-A353

Special provisions for shallow lots

R1 R2 R3 R4 R5 R6

In the districts indicated, if at any point the depth of a #zoning lot# is less than 95 feet, the depth of a required #rear yard# or waterfront yard may be reduced by six inches for each foot by which the mean lot depth is less than 95 feet. In no event shall the required depth of a rear yard be less than ten feet.

(7/23/15)

64-A354

Special provisions for corner lots

For #corner lots# in R1-2 Districts, if one #front yard# has a depth of 20 feet, then the other #front yard# may have a depth of 15 feet. For #corner lots# in R3 Districts, if one #front yard# has a depth of 15 feet, then the other #front yard# may have a depth of ten feet.

In all districts, for #corner lots# with less than the minimum #lot area# required pursuant to the applicable district regulations, the following provisions shall apply:

- (a) one #front yard# shall be provided along the full length of either #front lot line#;
- (b) the remaining #front lot line# shall be treated as a #side lot line#; and
- (c) any #side lot line# that is parallel to, or within 45 degrees of being parallel to the #front lot line# selected pursuant to paragraph (a) of this Section, shall be treated as a #rear lot line# and a #rear yard# shall be provided along the full length of such #lot line#.

The #rear# and #side yards# provided pursuant to this Section may be reduced pursuant to Sections 64-A352 (Special provisions for narrow

lots) and 64-A353 (Special provisions for shallow lots).

(7/23/15)

64-A36

Special Height and Setback Regulations

R1 R2 R3 R4 R5 R6

In the districts indicated, the height and setback regulations of the applicable district shall not apply. In lieu thereof, all #buildings# shall be subject to the height and setback provisions set forth in paragraph (b) of Section 23-631 (Height and setback in R1, R2, R3, R4 and R5 Districts), except that the maximum height of a perimeter wall before setback shall be 19 feet, the maximum height of a ridge line shall be 25 feet and all heights shall be measured from the #flood-resistant construction elevation#. In no event shall any #building# exceed two #stories#, except that attic space providing structural headroom of less than eight feet shall not be considered a #story# for the purposes of this Section.

(7/23/15)

64-A40

SPECIAL PARKING PROVISIONS

(7/23/15)

64-A41

Waiver of Requirements for Certain Zoning Lots

R1 R2 R3 R4 R5 R6

In the districts indicated, the requirements set forth in Section 25-22 (Requirements Where Individual Parking Facilities Are Provided) shall be waived for a #single-# or #two-family residence# on an #interior zoning lot# that has a #lot width# along a #street# of less than 25 feet, and where the #flood-resistant construction elevation# is less than six feet above #curb level#.

(7/23/15)

64-A42

For Elevated Buildings

The provisions of Section 64-52 (For Elevated Buildings) shall be modified to allow the #accessory# off-street parking spaces, required pursuant to that section, to be located anywhere on the #zoning lot#.

(7/23/15)

64-A50

SPECIAL DESIGN REQUIREMENTS

R1 R2 R3 R4 R5 R6

In the districts indicated, the provisions of Section 64-61 (Design Requirements for Single- and Two-Family Residences) shall apply, except as expressly modified by this Section. Visual mitigation elements shall be required unless more than 50 percent of the #street wall# is within 18 inches of the #street line#.

(7/23/15)

64-A51

Special Regulations for Corner Lots

The design requirements set forth in Section 64-61 shall apply separately along each #street frontage# of a #corner lot#, except as modified below:

- (a) For #corner lots#, where the level of the #lowest occupiable floor# is nine feet or more above #curb level#, and more than 50 percent of the #street wall# of a #building# is within six feet of a #street line#, only one visual mitigation element shall be required along such #street# frontage.
- (b) For #corner lots#, where trees or shrubs are provided as visual mitigation elements along both #street frontages# pursuant to paragraph (d) of Section 64-61, the required total length of planted areas shall be reduced to a minimum of 45 percent of the aggregate length of #street walls#, provided that the planting bed is continuous for the minimum required length, measured along such #street walls#, and at least six feet of planting bed is provided facing each #street#.

(7/23/15)

64-A52

Special Regulations for Narrow Lots

For #interior zoning lots# that have a #lot width# less than 25 feet, the design requirements of paragraph (d) of Section 64-61 shall be modified to require the total length of planted areas to be greater than 40 percent of the #lot width# and to be planted to screen at least 40 percent of the length of the #street wall#.

(7/23/15)

64-A53

Special Regulations for Zoning Lots with Shallow Yards

For #zoning lots# where more than 50 percent of the #street wall# of a #building# is located within six feet of a #street line#, one or more of the following visual mitigation elements may be provided in lieu of paragraph (d) of Section 64-61:

(a) Climbing vines

Where provided as a visual mitigation element, climbing vines shall be planted along 40 percent of the aggregate width of #street walls# in a planting bed that is at least 18 inches in width, measured perpendicular to the #street wall# and allows a soil depth of at least two feet. A framework for the climbing vines shall be provided for the full length of the planting bed to a height of at least four feet. Such framework may be freestanding or attached to the #building#.

(b) Green wall

Where provided as a visual mitigation element, a green wall or landscaped fence shall extend along 40 percent of the aggregate width of #street walls# to a height of at least four feet. Hanging plants, potted plants or plant material shall be distributed along the entire length of such green wall or landscaped fence. The supporting structure may be freestanding or attached to the #building# and shall be considered a permitted obstruction in any required #yard#, #court# or #open space#.

(c) Planter box or raised planting bed

Where provided as a visual mitigation element, planter boxes or raised planting beds may be used in place of planting beds at grade. The top of such planter boxes shall be located between 18

and 36 inches above adjacent grade. Raised planting beds shall be at least 18 inches in height and shall not exceed 36 inches above adjacent grade. For planter boxes and raised planting beds, the minimum soil width shall be at least one foot, measured perpendicular to the street line, and the minimum soil depth shall be 18 inches. The planted area may be comprised of any combination of groundcover, perennials, annuals, shrubs, trees or other living plant material, and must attain a height of at least six inches. Planter boxes may be freestanding or attached to the #building#.

(7/23/15)

64-A60

NON-CONFORMING AND NON-COMPLYING BUILDINGS

(7/23/15)

64-A61

Special Regulations for Non-conforming Single- or Two-Family Residences in Manufacturing Districts

The provisions of Section 64-712 (Single- and two-family buildings), shall be modified to allow the vertical elevation or reconstruction of a #non-conforming single-# or #two-family residence# in a #Manufacturing District#. Reconstructions of such #residences# shall utilize the applicable #bulk# regulations of an R4-1 District, as modified by Section 64-A30 of this Appendix.

(7/23/15)

64-A70

SPECIAL APPROVALS

The special permit and variance provisions of this Resolution shall apply to properties in the Neighborhood Recovery Areas.

(7/23/15)

64-A71

Special Permit for Establishing Non-conformance

In all districts, for a #zoning lot# that contained two or more #dwelling units# on October 28, 2012, and does not have a certificate of occupancy, or other lawful documentation, indicating that more than one #dwelling unit# existed on the #zoning lot# on such date, the Board of Standards and Appeals may permit the vertical elevation or reconstruction of up to two #dwelling units# on such #zoning lot# in accordance with this Appendix, and all applicable requirements of the New York City Construction Codes, provided that the Board of Standards and Appeals determines that more than one #dwelling unit# existed on the site on October 28, 2012, based on evidence submitted to the Board of Standards and Appeals, which may include, but shall not be limited to, Department of Finance tax records, utility bills or an affidavit from a licensed architect or engineer that documents an on-site inspection of the #zoning lot# performed under the auspices of a governmental agency.

Such #buildings# which are vertically elevated shall comply with the #bulk# provisions of Section 64-A20, and such #buildings# that are reconstructed shall comply with the #bulk# provisions of Section 64-A30.

Upon completion and sign-off of work completed under the provisions of this Appendix, such #building# shall be considered #non-conforming#.

(7/23/15)

64-A80

NEIGHBORHOOD RECOVERY AREA MAPS

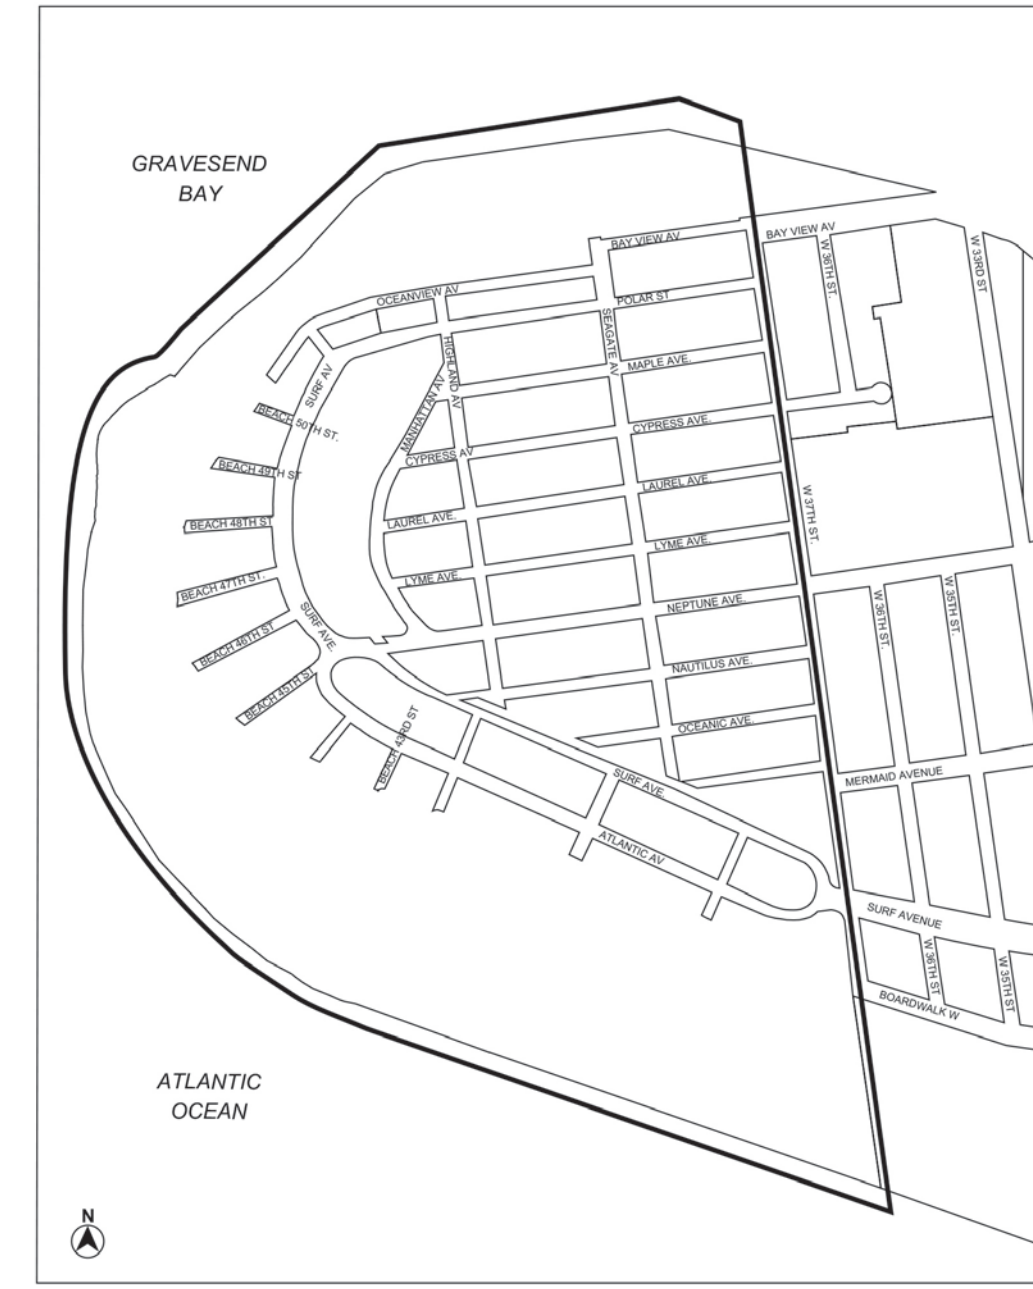

Neighborhoods that experienced a high concentration of damage to #single#- and #two-family residences# from Hurricane Sandy are defined as Neighborhood Recovery Areas.

Enforcement, Administration and Amendments**

(12/15/61)

**71-00
ENFORCEMENT AND ADMINISTRATION**

The Commissioner of the Department of Buildings shall administer and enforce this Resolution, except as otherwise specifically provided in the New York City Charter and in this Resolution.

The Department of Environmental Protection shall have exclusive jurisdiction to administer and enforce all provisions of this Resolution relating to air pollution, specifically including the performance standards regulating #smoke#, #dust# and other #particulate matter#, odorous matter, and #toxic or noxious matter# emitted into the atmosphere, in accordance with rules and regulations adopted by the Department of Environmental Protection.

(4/30/12)

**71-10
PROCEDURE FOR AMENDMENTS**

The City Planning Commission shall adopt resolutions to amend the text of this Resolution or the #zoning maps# incorporated therein, and the City Council shall act upon such amendments, in accordance with the provisions of the New York City Charter.

Chapter 2

Interpretations and Variances

(12/15/61)

72-00

POWERS OF THE BOARD OF STANDARDS AND APPEALS

(2/2/11)

72-01

General Provisions

The Board of Standards and Appeals (referred to hereinafter as the Board) shall have the power, pursuant to the provisions of the New York City Charter and of this Resolution, after public notice and hearing:

- (a) to hear and decide appeals from and to review interpretations of this Resolution;
- (b) to hear, decide, and determine, in a specific case of practical difficulties or unnecessary hardship, whether to vary the application of the provisions of this Resolution;
- (c) to hear and decide applications for such special permits as are set forth in this Resolution and are more specifically enumerated in Section 73-01 (General Provisions);
- (d) to adopt, amend, or repeal such rules or regulations as may be necessary to carry into effect the provisions of this Resolution;
- (e) to hear and decide applications for such authorizations as are set forth in this Resolution and enumerated in Section 72-30; and
- (f) to make such administrative determinations and findings as may be set forth in this Resolution or pursuant to Section 72-40 (AMORTIZATION OF CERTAIN ADULT ESTABLISHMENTS AND SIGNS FOR ADULT ESTABLISHMENTS) or to Section 72-41 (Continuation of Certain Adult Establishments).
- (g) to waive #bulk# regulations affected by unimproved #streets#

where a #development#, #enlargement# or alteration consists in part of construction within such #streets# and where such #development#, #enlargement# or alteration would be #non-complying# absent such waiver, provided the Board has granted a permit pursuant to Section 35 of the General City Law and has prescribed conditions which require the portion of the #development# or #enlargement# to be located within the unimproved #streets# to be compliant and conforming to the provisions of this Resolution. Such bulk waivers shall only be as necessary to address #non-compliance# resulting from the location of the #development# or #enlargement# within and outside the unimproved #streets#, and the #zoning lot# shall comply to the maximum extent feasible with all applicable zoning regulations as if such unimproved #streets# were not mapped. Where such #zoning lots# with #private roads# access fewer than 20 #dwelling units#, such #bulk# waivers may be granted by the Board only where the #zoning lots# are fully compliant with the regulations for #private roads# set forth in Article II, Chapter 6. However, for #zoning lots# with #private roads# that access at least 20 #dwelling units#, or for #zoning lots# with #private roads# that access fewer than 20 #dwelling units# for which a modification or waiver of the requirements for #private roads#, pursuant to Section 26-26, is necessary, such #bulk# waivers shall be permitted only by authorization of the City Planning Commission, pursuant to Section 26-27 (Waiver of Bulk Regulations for Developments with Unimproved Streets).

(12/15/61)

72-10

APPEALS FOR INTERPRETATION

(12/15/61)

72-11

General Provisions

The Board of Standards and Appeals shall hear and decide appeals from or may, on its own initiative, review any rule or regulation, order, requirement, decision, or determination of the Commissioner of Buildings, of any duly authorized officer of the Department of Buildings, or of the Commissioner of any agency which, under the provisions of the New York City Charter, has jurisdiction over the #use# of land or over the #use# or #bulk# of #buildings or other structures#, subject to the requirements

of this Resolution.

On such an appeal or review, the Board may reverse, affirm, in whole or in part, or modify, such rule, regulation, order, requirement, decision, or determination and may make such rule, regulation, order, requirement, decision, or determination as in its opinion should have been made in the premises in strictly applying and interpreting the provisions of this Resolution, and for such purposes the Board shall have the power of the officer from whose ruling the appeal or review is taken.

However, there shall be no appeal to or review by the Board from an interpretation of this Resolution made by the Board of Environmental Protection of the Department of Environmental Protection, or any other agency for which the New York City Charter establishes a board empowered to adopt rules and regulations for such agency.

(12/15/61)

72-12

Street Layout Varying from Maps

Where the street layout actually on the ground varies from the street layout as shown on the #zoning maps#, the designation as shown on such maps shall be applied by the Board of Standards and Appeals, after public notice and hearing, in such a way as to carry out the intent and purpose of this Resolution.

(12/15/61)

72-20

VARIANCES

(2/2/11)

72-21

Findings Required for Variances

When in the course of enforcement of this Resolution, any officer from whom an appeal may be taken under the provisions of Section 72-11 (General Provisions) has applied or interpreted a provision of this Resolution, and there are practical difficulties or unnecessary hardship in the way of carrying out the strict letter of such provision, the Board of Standards and Appeals may, in

accordance with the requirements set forth in this Section, vary or modify the provision so that the spirit of the law shall be observed, public safety secured and substantial justice done.

Where it is alleged that there are practical difficulties or unnecessary hardship, the Board may grant a variance in the application of the provisions of this Resolution in the specific case, provided that as a condition to the grant of any such variance, the Board shall make each and every one of the following findings:

- (a) that there are unique physical conditions, including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to and inherent in the particular #zoning lot#; and that, as a result of such unique physical conditions, practical difficulties or unnecessary hardship arise in complying strictly with the #use# or #bulk# provisions of the Resolution; and that the alleged practical difficulties or unnecessary hardship are not due to circumstances created generally by the strict application of such provisions in the neighborhood or district in which the #zoning lot# is located;
- (b) that because of such physical conditions there is no reasonable possibility that a #development#, #enlargement#, extension, alteration or change of #use# on the #zoning lot# in strict conformity with the provisions of this Resolution will bring a reasonable return, and that the grant of a variance is therefore necessary to enable the owner to realize a reasonable return from such #zoning lot#; this finding shall not be required for the granting of a variance to a non-profit organization;
- (c) that the variance, if granted, will not alter the essential character of the neighborhood or district in which the #zoning lot# is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare;
- (d) that the practical difficulties or unnecessary hardship claimed as a ground for a variance have not been created by the owner or by a predecessor in title; however, where all other required findings are made, the purchase of a #zoning lot# subject to the restrictions sought to be varied shall not itself constitute a self-created hardship; and
- (e) that within the intent and purposes of this Resolution, the variance, if granted, is the minimum variance necessary to afford relief; and to this end, the Board may permit a

lesser variance than that applied for.

It shall be a further requirement that the decision or determination of the Board shall set forth each required finding in each specific grant of a variance, and in each denial thereof which of the required findings have not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Board in reaching its decision, including the personal knowledge of, or inspection by, the members of the Board. Reports of other City agencies made as a result of inquiry by the Board shall not be considered hearsay, but may be considered by the Board as if the data therein contained were secured by personal inspection.

(12/15/61)

72-22

Conditions or Restrictions

The Board of Standards and Appeals may prescribe such conditions or restrictions applying to the grant of a variance as it may deem necessary in the specific case, in order to minimize the adverse effects of such variance upon other property in the neighborhood. Such conditions or restrictions shall be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

(7/18/95)

72-23

Lapse of Variances

A variance granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such variance was granted, has not been completed within four years from the date of granting such variance by the Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Board's decision to grant any variance, the four-year lapse period shall commence upon the date of entry of the final order in such proceedings, including appeals.

(4/9/81)

72-30

AUTHORIZATIONS

(4/9/81)

72-31

General Provisions

The Board of Standards and Appeals shall have the power to issue authorizations on such matters as are set forth in this Section. The Board shall hear and decide applications for authorizations in an administrative proceeding in the same manner in which it hears appeals for interpretation pursuant to Section 72-10.

(2/2/11)

72-40

AMORTIZATION OF CERTAIN ADULT ESTABLISHMENTS AND SIGNS FOR ADULT ESTABLISHMENTS

The Board of Standards and Appeals may permit any #non-conforming adult establishment# or any #non-conforming sign#, other than #advertising signs#, for an #adult establishment# to continue for a limited period of time beyond that provided for in Sections 52-734 (Non-conforming signs for adult establishments) or 52-77 (Termination of Adult Establishments), provided that:

- (a) an application is made by the owner of such establishment to the Board of Standards and Appeals at least 120 days prior to the date on which such establishment or #sign# must terminate;
- (b) the Board shall find, in connection with such establishment or #sign#, that:
 - (1) the applicant had made, prior to the #non-conformity#, substantial financial expenditures related to the #non-conformity#; and
 - (2) the applicant has not recovered substantially all of the financial expenditures related to the #non-conformity#; and

- (3) the period for which such establishment or #sign# may be permitted to continue is the minimum period sufficient for the applicant to recover substantially all of the financial expenditures incurred related to the #non-conformity#.

For the purpose of this Section, "financial expenditures" shall mean the capital outlay made by the applicant to establish the #adult establishment# or #sign#, exclusive of the fair market value of the #building# in which such #use# or #sign# is located and exclusive of any improvements unrelated to the #non-conforming adult establishment# or #non-conforming accessory business sign# for #adult establishments#.

This Section shall not apply to #commercial# establishments described in Section 72-41 (Continuation of Certain Adult Establishments).

(2/2/11)

72-41

Continuation of Certain Adult Establishments

Any #commercial# establishment in existence as of August 8, 2001 which: (i) subsequent to September 18, 1995, and prior to August 8, 2001, made financial expenditures so as to avoid becoming subject to the provisions of Section 32-01 or 42-01 (Special Provisions for Adult Establishments); and (ii) is defined as an #adult establishment# pursuant to the amendments to the definition of #adult establishment# in Section 12-10 adopted on October 31, 2001, shall terminate as an #adult establishment# within one year from October 31, 2001. Notwithstanding the foregoing, the Board of Standards and Appeals may permit such #adult establishment# to continue for a limited period beyond such one year period, provided that:

- (a) an application is made by the owner of such establishment to the Board of Standards and Appeals at least 120 days prior to the date on which such establishment must terminate;
- (b) the Board shall find, in connection with such establishment, that:
 - (1) the applicant had made, subsequent to September 18, 1995 and prior to August 8, 2001, substantial financial expenditures so as to avoid becoming subject to the provisions of Section 32-01 or 42-01;

- (2) the applicant has not recovered substantially all such financial expenditures; and
- (3) the period for which such establishment may be permitted to continue is the minimum period sufficient for the applicant to recover substantially all of such financial expenditures.

For purposes of this Section, "financial expenditures" shall mean the following: (i) any capital outlay for improvements made in connection with the configuration or reconfiguration of the amount of #floor area# and #cellar# space within such establishment accessible to customers either: (a) containing books, magazines, periodicals or other printed matter or photographs, films, motion pictures, video cassettes, slides or other visual matter characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas"; or (b) allocated to one of the activities described in paragraphs (b) (c) or (d) of Section 1. of the definition of #adult establishment# in Section 12-10; and (ii) any purchases of books, magazines, periodicals, or other printed matter, or photographs, films, motion pictures, video cassettes, slides or other visual matter, which are not characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."

The provisions of Sections 52-77 and 72-40 shall not apply to #commercial# establishments subject to this Section.

(12/15/61)

Chapter 3

Special Permits by the Board of Standards and Appeals

(12/15/61)

73-00

SPECIAL PERMIT USES AND MODIFICATIONS

(4/22/09)

73-01

General Provisions

In harmony with the general purpose and intent of this Resolution and in accordance with the provisions set forth in this Chapter, the Board of Standards and Appeals may, in an appropriate case:

- (a) grant special permits for specified #uses# in specific districts (referred to hereinafter as special permit #uses#);
- (b) permit specified modifications of the #use# or #bulk# regulations of this Resolution;
- (c) permit the renewal of revoked building permits as provided in Sections 11-31 to 11-33, inclusive, relating to Building Permits Issued before Effective Date of Amendment; or
- (d) permit the renewal of a variance, exception, or permit issued by the Board prior to December 15, 1961, in accordance with the provisions of Section 11-41 relating to Exceptions, Variances, or Permits Previously Authorized;

provided that, in each specific case, the requirement for findings as set forth in this Chapter (or in the Sections referred to in paragraph (c) or (d) of this Section) shall constitute a condition precedent to the grant of such special permit, modification, or renewal.

In addition to meeting the requirements, conditions, and safeguards prescribed by the Board as set forth in this Chapter, each such special permit #use# shall conform to and comply with all of the applicable district regulations on #use#, #bulk#, supplementary #use# regulations, regulations applying along

district boundaries, #accessory signs#, #accessory# off-street parking and off-street loading, and all other applicable provisions of this Resolution, except as otherwise specifically provided in this Chapter or as they may be modified in accordance with paragraph (b) of this Section. In the case of required #accessory# off-street parking, such #use# shall satisfy the requirements specified for such #uses# in Sections 25-31, 36-21 or 44-21 (General Provisions) except that, where no parking requirement is specified therein, such #use# shall satisfy the requirements set forth in this Chapter.

In the #waterfront area#, the powers of the Board to grant special permits are made inapplicable or modified in accordance with the provisions of Section 62-131 (Applicability of Article VII, Chapter 3).

(12/15/61)

73-02

Further Requirements

It shall be a further requirement that the decision or determination of the Board of Standards and Appeals shall set forth each required finding in each specific grant of a special permit #use#, modification or renewal and, in each denial thereof, which of the required findings have not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Board in reaching its decision, including the personal knowledge of or inspection by the members of the Board.

(12/18/80)

73-03

General Findings Required for All Special Permit Uses and Modifications

The Board of Standards and Appeals shall have the power, as authorized by Section 73-01, paragraph (a) or (b), and subject to such appropriate conditions and safeguards as the Board shall prescribe, to grant special permit #uses# or modifications of #use#, parking, or #bulk# regulations as specifically provided in this Chapter, provided in each case:

- (a) The Board shall make all of the findings required in the applicable sections of this Chapter with respect to each

such special permit #use# or modification of #use#, parking or #bulk# regulations and shall find that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of such special permit #use# or modification of #use#, parking or #bulk# regulations at the particular site are outweighed by the advantages to be derived by the community by the grant of such special permit. In each case the Board shall determine that the adverse effect, if any, on the privacy, quiet, light and air in the neighborhood of such special permit #use# or modification of #use#, parking or #bulk# regulations will be minimized by appropriate conditions governing location of the site, design and method of operation.

- (b) In all cases the Board shall deny a special permit whenever such proposed special permit #use# or modification of #use#, parking or #bulk# regulations will interfere with any public improvement project (including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or right-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, Site Selection Board or the City Planning Commission as determined from the calendars of each such agency issued prior to the date of the public hearings before the Board of Standards and Appeals.
- (c) When under the applicable findings the Board is required to determine whether the special permit #use# or modification of #use#, parking or #bulk# regulations is appropriately located in relation to the #street# system, the Board shall in its discretion make such determination on the basis of the Master Plan of Arterial Highways and Major Streets on the official City Map. Whenever the Board is required to make a finding on the location of a proposed special permit #use# or modification of #use#, parking or #bulk# regulations in relation to secondary or local #streets# and such classification of #streets# is not shown on the Master Plan, the Board in its discretion shall request the City Planning Commission to establish a report on the appropriate classification of such #street#.
- (d) For applications relating to Sections 73-243, 73-48 and 73-49, the Board in its discretion shall request from the Department of Transportation a report with respect to the anticipated traffic congestion resulting from such special permit #use# or modification of #use#, parking or #bulk# regulations in the proposed location. If such a report is requested, the Board shall in its decision or determination give due consideration to such report and further shall have

the power to substantiate the appropriate finding solely on the basis of the report of the Department of Transportation with respect to the issue referred.

- (e) If a term of years is specified in the applicable section, the Board shall establish a term of years not to exceed such maximum. For those special permit #uses# or modification of #use# parking or #bulk# regulations for which a maximum term has not been specified, the Board may fix an appropriate term for any such special permit #use# or modification of #use# parking or #bulk# regulations.
- (f) On application for renewal of any such special permit authorized in this Chapter, the Board shall determine whether the circumstances warranting the original grant still obtain. In addition, the Board shall ascertain whether the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term. In the event that the Board shall find the applicant has been in substantial violation thereof, it shall deny the application for renewal.
- (g) The Board may permit the #enlargement# or #extension# of any existing #use#, which, if new, would be permitted by special permit in the specified districts under the provisions of Section 73-01 and other applicable provisions of this Chapter, provided that before granting any such permit for #enlargement# or #extension# within the permitted districts, the Board shall make all of the required findings applicable to the special permit #use#, except that:
 - (1) in the case of colleges or universities in R1 or R2 Districts, the Board may waive all such required findings set forth in Section 73-121 (Colleges or universities); and
 - (2) in the case of public utility #uses#, the Board may waive all such required findings set forth in Sections 73-14 (Public Service Establishments) or 73-16 (Public Transit, Railroad or Electric Utility Substations).

No such #enlargement# or #extension# shall create a new #non-compliance# or increase the existing degree of #non-compliance# with the applicable #bulk# regulations, except as may be permitted in accordance with the provisions of Sections 73-62 to 73-68, inclusive, relating to Modification of Bulk Regulations.

73-04

Conditions and Safeguards

The Board of Standards and Appeals may prescribe such conditions and safeguards to the grant of special permit (#uses#) as it may deem necessary in the specific case, in order to minimize the adverse effects of such special permit upon other property and the community at large. Such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

(7/22/71)

73-10

SPECIAL PERMIT USES

(4/28/94)

73-11

General Provisions

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-12 to 73-36, inclusive, the Board of Standards and Appeals shall have the power to permit special permit #uses#, and shall have the power to impose appropriate conditions and safeguards thereon.

In the #Special Midtown District#, the powers of the Board to permit special permit #uses# are modified by the provisions of Sections 81-13 (Special Permit Use Modifications) and 81-061 (Applicability of Chapter 3 of Article VII).

Except as permitted pursuant to this Chapter, in R3, R4 or R5 Districts, the following #uses# shall be subject to the height and setback requirements of an R2 District:

Camps

Public utility or public service facilities

Radio and television towers, non-#accessory#

Riding academies or stables.

(9/9/04)

73-12

Community Facility Uses in R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1 Districts

In R1, R2, R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, the Board of Standards and Appeals may permit specified #community facility uses# in accordance with the provisions of this Section.

(12/15/61)

73-121

Colleges or universities

The Board of Standards and Appeals may permit colleges or universities including professional schools but excluding business colleges or trade schools in R1 or R2 Districts, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#; and
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-122

College or school student dormitories or fraternity or sorority student houses

The Board of Standards and Appeals may permit college or school student dormitories or fraternity or sorority student houses in R1 or R2 Districts, provided that the following findings are made:

- (a) that such #use# does not exceed the maximum #floor area ratio# for #residential use# as set forth in Section 23-14 (Minimum Required Open Space, Open Space Ratio, Maximum Lot Coverage and Maximum Floor Area Ratio);
- (b) that the amount of #open space# and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood;
- (c) that, notwithstanding the provisions of Section 25-33 (Waiver of Requirements for Spaces below Minimum Number), at least one #accessory# off-street parking space is provided for each six beds; and
- (d) that such #use# conforms to all the other applicable Off-Street Parking Regulations as set forth in Article II, Chapter 5.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-123

Non-commercial clubs

The Board of Standard and Appeals may permit non-commercial clubs, except swimming pool clubs or clubs with swimming pools located less than 500 feet from any #lot line#, in R1 or R2 Districts, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#;
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#;
- (c) that such #use# complies with the minimum required #open space ratio# and maximum #floor area ratio# for #residential use# as set forth in Section 23-14 (Minimum Required Open Space, Open Space Ratio, Maximum Lot Coverage and Maximum Floor Area Ratio);
- (d) that not more than half the #open space# provided is occupied by driveways, private streets, open #accessory#

off-street parking spaces or active outdoor recreation facilities; and

- (e) that the amount of #open space# provided and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, screening or landscaping.

(12/15/61)

73-124

Welfare centers

The Board of Standard and Appeals may permit welfare centers in R1 or R2 Districts, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#; and
- (b) that such #use# is conveniently accessible to the people it serves.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(1/18/11)

73-125

Ambulatory diagnostic or treatment health care facilities

In R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, excluding #lower density growth management areas#, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed in Use Group 4, limited in each case to a maximum of 10,000 square feet of #floor area#, provided that the Board finds that the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-126

Certain community facility uses in lower density growth management areas

In R3A, R3X, R3-1, R4A, R4B or R4-1 Districts in #lower density growth management areas#, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed in Use Group 4, limited in each case to a maximum of 10,000 square feet of #floor area#, provided that such facilities are located on #zoning lots# that comply with the minimum #lot area# and #lot width# regulations of Section 23-35 (Special Provisions for Zoning Lots Containing Certain Community Facility Uses in Lower Density Growth Management Areas).

In addition, for #buildings# in R3, R4 and R5 Districts in #lower density growth management areas# subject to the provisions of paragraph (b) of Section 24-011 (Exceptions to the bulk regulations of this Chapter) the Board may permit the #development# of a #building# pursuant to the #bulk# regulations of Article II, Chapter 4 (Bulk Regulations for Community Facility Buildings in Residence Districts).

In order to grant such special permit, the Board shall find that:

- (a) the amount and type of open area and its distribution on the #zoning lot# is compatible with the character of the neighborhood;
- (b) the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and
- (c) the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-13

Open Uses in R1 or R2 Districts

In R1 or R2 Districts, the Board of Standard and Appeals may permit outdoor tennis courts or ice skating rinks, provided that the Board finds that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#.

The Board shall prescribe the following conditions:

- (a) that such #use# and any #accessory# facilities affixed to the land are not located closer than 20 feet to any #lot line#; and
- (b) that all lighting is directed away from nearby #zoning lots# containing #residences#.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for screening or for landscaping.

(2/2/11)

73-14

Public Service Establishments

In all #Residence Districts#, the Board of Standard and Appeals may permit electric or gas utility substations, limited in each case to a site of not more than 10,000 square feet, potable water pumping stations, or telephone exchanges or other communications equipment structures, provided that the following findings are made:

- (a) that such #use# will serve the residential area within which it is proposed to be located; that there are serious difficulties in locating it in a district wherein it is permitted as of right and from which it could serve the residential area, which make it necessary to locate such #use# within a #Residence District#; and
- (b) in the case of such electric or gas utility substations or potable water pumping stations, that the site for such #use# has a minimum #lot area# of 4,500 square feet.

The Board may prescribe appropriate conditions or safeguards to

minimize adverse effects on the character of the surrounding area, including requirements that electric utility substations shall meet the performance standards for an M1 District; that such electric or gas utility substations or potable water pumping stations shall be surrounded with fences, barriers, or other safety devices; or that any such #use# shall be landscaped.

(12/15/61)

73-15

Other Public Utility Facilities

In all #Residence Districts#, the Board of Standard and Appeals may permit public utility stations for oil or gas metering or regulating, or terminal facilities located at river crossings for access to electric, gas or steam lines, provided that the Board finds that the proposed location, design and method of operation will not have a detrimental effect on the privacy and quiet of the neighborhood and the safety of its inhabitants.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for construction of fences, barriers or other safety devices, or for landscaping.

(2/2/11)

73-16

Public Transit, Railroad or Electric Utility Substations

In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the Board of Standard and Appeals may permit electric utility substations (including transformers, switches, or auxiliary apparatus) or public transit or railroad electric substations, limited in each case to a site of not more than 40,000 square feet, and in the case of electric utility substations to a site of not less than 10,000 square feet, provided that the following findings are made:

- (a) that such #use# will serve either the residential community within which it is proposed to be located or the residential community immediately adjacent, and that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;

- (b) in the case of public transit or railroad electric substations, that the site for such #use# has a minimum frontage of 50 feet and a minimum #lot area# of 4,500 square feet;
- (c) that the site for such #use# is so located in #Residence Districts# as to minimize the adverse effects on the integrity of existing and future development, or is so located in #Commercial Districts# as to minimize the interruption of the continuity of retail frontage;
- (d) that the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and
- (e) that such #use# will conform to the performance standards applicable to M1 Districts.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing, for the construction of fences, barriers, or other safety devices, for screening of apparatus, or for landscaping.

(12/15/61)

73-17

Camps, Overnight or Outdoor Day

In all #Residence Districts#, and in C1, C2 or C3 Districts, the Board of Standards and Appeals may permit overnight or outdoor day camps, whether commercial or philanthropic, for a term not to exceed five years, provided that the Board finds that such #use# will not cause excessive traffic congestion.

The Board shall prescribe the following conditions:

- (a) that a minimum of 150 square feet of #lot area# is provided for each child enrolled in the camp;
- (b) that along any #rear# or #side lot lines#, #yards# are provided, each with a minimum depth (or width) of 40 feet, within which no camp equipment is affixed to the land;
- (c) that in #Residence Districts# or C3 Districts the #zoning lot# is screened along the #rear# and #side lot lines#, and in C1 or C2 Districts along any #rear# or #side lot line# adjoining a #Residence District#, by a strip at least four feet wide, densely planted with shrubs or trees which are at

least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; and

- (d) that in the case of outdoor day camps, for each 6,000 square feet of #lot area#, one #accessory# off-street parking space of 500 square feet is provided to accommodate buses used in the transportation of campers, in addition to the #accessory# off-street parking requirement established for such #uses# under the applicable provisions of Sections 25-31 or 36-21 (General Provisions).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/15/61)

73-18

Riding Academies or Stables

In all #Residence Districts#, and in C2, C6 or C7 Districts, the Board of Standards and Appeals may permit riding academies or stables operated as a recreation service, for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character of the surrounding area;
- (b) that adequate horseback riding facilities are available on the same #zoning lot# or within 600 feet of such #zoning lot#;
- (c) that the location and operation of such #use# will not be such as to result in any serious traffic hazards or conflicts on nearby #streets#; and
- (d) that in #Residence Districts#, no stables or riding areas are located within 40 feet of any #side# or #rear lot line#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for sanitation, for screening, or for landscaping.

(11/19/87)

73-19

Schools

In C8 or M1 Districts, the Board of Standards and Appeals may permit #schools# which have no #residential# accommodations except #accessory# accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed #school# there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such #school# is located not more than 400 feet from the boundary of a district wherein such #school# is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-#Residential Districts# is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#; and
- (d) that the movement of traffic through the #street# on which the #school# is located can be controlled so as to protect children going to and from the #school#. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(8/19/76)

73-20

THEATERS

(2/2/11)

73-201

In C1 Districts

In C1 Districts, the Board of Standards and Appeals may permit theaters with a capacity of not more than 500 persons in a new or existing #building#. In C1-5, C1-6, C1-7, C1-8 and C1-9 Districts, motion picture theaters shall have a minimum of four square feet of waiting area within the #zoning lot# for each seat. The required waiting space shall be either in an enclosed lobby or open area that is covered or protected during inclement weather and shall not include space occupied by stairs or space within 10 feet of a refreshment stand or of an entrance to a public toilet. The Board shall not apply these requirements to any additional motion picture theater created by the subdivision of an existing motion picture theater.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of nearby residential areas.

(2/2/11)

73-202

In M1-5A or M1-5B Districts

In M1-5A or M1-5B Districts, the Board of Standards and Appeals may permit theaters for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# will not impair the character or the future use or development of the surrounding residential or mixed use neighborhoods;
- (b) that such #use# will not cause undue congestion in local #streets#; and
- (c) that such #use# provides a waiting area of adequate size to prevent obstruction of #street# areas and other #uses# within the same or other #building#.

The Board shall prescribe appropriate controls to minimize adverse effects on the character of the surrounding area, including, but not limited to, location of entrances and operable windows; provision of sound-lock vestibules; specification of acoustical insulation; maximum size of establishment; number, kinds of amplification of musical instruments or voices; shielding of flood lights; adequate screening; curb cuts, or parking.

(12/15/61)

73-21

Automotive Service Stations

(4/8/98)

73-211

Location in C2, C4, C6 or C7 Districts

In any C2, C4, C6 or C7 District whose longer dimension is 375 feet or more (exclusive of land in #streets#), the Board of Standards and Appeals may permit #automotive service stations#, provided that the following findings are made:

- (a) that the site for such #use# has a minimum area of 7,500 square feet; and
- (b) that the site for any such #use# which is not located on an arterial highway or a major #street# has a maximum area of 15,000 square feet.

The Board shall prescribe the following conditions:

- (1) that any facilities for lubrication, minor repairs or washing are located within a #completely enclosed building#;
- (2) that the site is so designed as to provide reservoir space for five waiting automobiles within the #zoning lot# in addition to spaces available within an enclosed lubritorium or at the pumps;
- (3) that entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the #automotive service station# will cause a minimum of obstruction on #streets# or sidewalks;
- (4) that, along any #rear lot line# or #side lot line# adjoining a #Residence District#, the #zoning lot# is screened, as the Board may prescribe, by either of the following methods:
 - (i) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or

- (ii) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open; and
- (5) that #signs#, other than #advertising signs#, shall be subject to the applicable district #sign# regulations, provided that:
 - (i) in C2 Districts, the provisions of Sections 32-642 (Non-illuminated signs) and 32-643 (Illuminated non-flashing signs) shall be modified to permit non-#illuminated# or #illuminated# non-#flashing signs# with a total #surface area# not exceeding 150 square feet on any #zoning lot#; and
 - (ii) the provisions set forth in Section 32-652 (Permitted projection in all other Commercial Districts) may be modified in accordance with the provisions of Section 73-212 (Projection of accessory signs).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and to protect #residential zoning lots# which are adjoining or across the #street#.

(12/15/61)

73-212

Projection of accessory signs

In C2, C4, C6 or C8 Districts, the Board of Standards and Appeals may permit not more than one #sign accessory# to an #automotive service station#, to project across a #street line# more than the amount permitted in Section 32-652 (Permitted projection in all other Commercial Districts), but in no case more than four feet, provided that the following findings are made:

- (a) That projection in the amount permitted is required for adequate advance identification of such #automotive service station# to motorists on heavily traveled #streets# in the interests of traffic safety.
- (b) That such #sign# conforms to all other applicable district #sign# regulations, and its total #surface area# is not more than 30 square feet.

(2/2/11)

73-22

Commercial Beaches

In C3 Districts, the Board of Standards and Appeals may permit #commercial# beaches for a term not to exceed five years, provided that the Department of Health has certified that the waters may be used for bathing purposes and do not violate safe and acceptable standards of water pollution, and provided further that the Board shall make the following findings:

- (a) that such #use# is so located as to minimize interference with the movement and navigation of ships or boats;
- (b) that no more than 20 percent of the shore line in any one mapped district is used for such #use#;
- (c) that no #accessory# stands for the sale of food or drink shall be located within 100 feet of a #Residence District# boundary, and that the total #floor area# of all such stands shall not exceed 200 square feet; and
- (d) that such #use# will not create such traffic congestion as to impair the residential character of the area. The Board shall refer the application to the Department of Traffic for a report as to whether the #use# will create such detrimental traffic congestion that it impairs such residential character.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, or requirements for the shielding of floodlights or adequate screening.

(2/2/11)

73-23

Commercial Swimming Pools

In C3 Districts, the Board of Standards and Appeals may permit #commercial# swimming pools with a pool area of not more than 5,000 square feet for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or the future use or development of the nearby residential neighborhood; and
- (b) that such pool is not located within 200 feet of the shore line.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights or adequate screening.

(12/18/80)

73-24

Eating or Drinking Places

(2/2/11)

73-241

In C1-1, C1-2, C1-3, C1-4, C2-1, C2-2, C2-3, C2-4, C3, C5, M1-5A or M1-5B Districts

In C1-1, C1-2, C1-3, C1-4, C2-1, C2-2, C2-3, C2-4, C3, C5, M1-5A or M1-5B Districts, the Board of Standards and Appeals may permit eating or drinking establishments with entertainment but not dancing, with a capacity of 200 persons or less, for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# will not impair the character or the future use or development of the surrounding residential or mixed use neighborhood;
- (b) that such #use# will not cause undue congestion in local #streets#;
- (c) that in M1-5A and M1-5B Districts, eating and drinking places shall be limited to not more than 5,000 square feet of floor space;
- (d) that in C1-1, C1-2, C1-3, C1-4, C2-1, C2-2, C2-3, C2-4, C5, M1-5A and M1-5B Districts, such #use# shall take place in a #completely enclosed building#; and
- (e) that the application is made jointly by the owner of such

#building# and the operators of such eating or drinking establishment.

The Board may modify the regulations relating to #signs# in C3 Districts to permit a maximum total #surface area# of 50 square feet of non-#illuminated# or #illuminated# non-#flashing signs#, provided that any #illuminated sign# shall not be less than 150 feet from the boundary of any #Residence District#.

The Board shall prescribe appropriate controls to minimize adverse effects on the character of the surrounding area, including, but not limited to, location of entrances and operable windows, provision of sound-lock vestibules, specification of acoustical insulation, maximum size of establishment, kinds of amplification of musical instruments or voices, shielding of floodlights, adequate screening, curb cuts or parking.

(2/2/11)

73-242

In C3 Districts

In C3 Districts, the Board of Standards and Appeals may permit eating or drinking establishments (including those which provide outdoor table service or musical entertainment but not dancing, with a capacity of 200 persons or less, and including those which provide music for which there is no cover charge and no specified showtime) for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or the future use or development of the nearby residential neighborhood; and
- (b) that such #use# will generate a minimum of vehicular traffic to and through local #streets# in residential areas.

The Board may modify the regulations relating to #signs# in C3 Districts to permit a maximum total #surface area# of 50 square feet of non-#illuminated# or #illuminated# non-#flashing signs#, provided that any #illuminated sign# shall not be less than 150 feet from the boundary of any #Residence District#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights or adequate screening.

(2/8/90)

73-243

In C1-1, C1-2 and C1-3 Districts

In C1-1, C1-2 and C1-3 Districts, (except in Special Purpose Districts) the Board of Standards and Appeals may permit eating or drinking places (including those which provide musical entertainment but not dancing, with a capacity of 200 persons or less, and those which provide outdoor table service) with #accessory# drive-through facilities for a term not to exceed five years, provided that the following findings are made:

- (a) the drive-through facility contains reservoir space for not less than 10 automobiles;
- (b) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity;
- (c) the eating or drinking place with #accessory# drive-through facility fully complies with the #accessory# off-street parking regulations for the indicated zoning district, including provision of the required number of #accessory# off-street parking spaces for the indicated zoning district (for the purpose of this finding, the waiver provisions of Sections 36-231 and 36-232 shall be inapplicable);
- (d) the character of the commercially zoned #street# frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing #commercial uses# contained within such area and to the subject eating or drinking place (excluding the #accessory# drive-through facility portion);
- (e) the drive-through facility shall not have an undue adverse impact on #residences# within the immediate vicinity of the subject premises; and
- (f) there will be adequate buffering between the drive-through facility and adjacent #residential uses#.

In connection therewith, the Board may modify the requirement of Section 32-411 insofar as it relates to the #accessory# drive-through facility. The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(3/20/13)

73-244

In C2, C3, C4*, C6-4, M1-5A, M1-5B, M1-5M and M1-6M Districts, the Special Hudson Square District and the Special Tribeca Mixed Use District**

In C2, C3, C4*, C6-4**, M1-5A, M1-5B, M1-5M and M1-6M Districts, the Special Hudson Square District and the #Special Tribeca Mixed Use District#, the Board of Standards and Appeals may permit eating or drinking establishments with entertainment and a capacity of more than 200 persons or establishments of any capacity with dancing, for a term not to exceed three years, provided that the following findings are made:

- (a) that a minimum of four square feet of waiting area within the #zoning lot# shall be provided for each person permitted under the occupant capacity as determined by the New York City Building Code. The required waiting area shall be in an enclosed lobby and shall not include space occupied by stairs, corridors or restrooms. A plan shall be provided to the Board to ensure that the operation of the establishment will not result in the gathering of crowds or the formation of lines on the #street#;
- (b) that the entrance to such #use# shall be a minimum of 100 feet from the nearest #Residence District# boundary;
- (c) that such #use# will not cause undue vehicular or pedestrian congestion in local #streets#;
- (d) that such #use# will not impair the character or the future use or development of the surrounding residential or mixed use neighborhoods;
- (e) that such #use# will not cause the sound level in any affected conforming #residential use#, #joint living-work quarters for artists# or #loft dwelling# to exceed the limits set forth in any applicable provision of the New York City Noise Control Code; and
- (f) that the application is made jointly by the owner of the #building# and the operators of such eating or drinking establishment.

The Board shall prescribe appropriate controls to minimize adverse effects on the character of the surrounding area, including, but not limited to, location of entrances and operable

windows, provision of sound-lock vestibules, specification of acoustical insulation, maximum size of establishment, kinds of amplification of musical instruments or voices, shielding of flood lights, adequate screening, curb cuts or parking.

Any violation of the terms of a special permit may be grounds for its revocation.

* In C4 Districts where such #use# is within 100 feet from a #Residence District# boundary

** In C6-4 Districts mapped within that portion of Community District 5, Manhattan, bounded by West 22nd Street, a line 100 feet west of Fifth Avenue, a line midway between West 16th Street and West 17th Street, and a line 100 feet east of Sixth Avenue

(2/2/11)

73-25

Boatels

In C3 Districts, the Board of Standards and Appeals may permit #boatels# provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or the future use or development of the nearby residential neighborhood; and
- (b) that any restaurant permitted in connection with such #use# satisfies the conditions for issuance of special permits to eating or drinking places, as set forth in Section 73-24.

The Board may modify the regulations relating to #signs# in C3 Districts to permit a maximum total #surface area# of 50 square feet of non-#illuminated# or #illuminated# non-#flashing signs# on each of not more than three #street# or water frontages.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements with respect to the location of #illuminated signs#, the shielding of floodlights or adequate screening.

(2/2/11)

73-26

Children's Amusement Parks

In C8 or M1 Districts, the Board of Standards and Appeals may permit children's amusement parks with an area of at least 10,000 square feet but not more than 75,000 square feet, for a term not to exceed five years, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or the future use or development of the surrounding area;
- (b) that the principal vehicular access for such #use# is not located on a local #street# or on an arterial highway;
- (c) that such #use# is not located within 400 feet of a #Residence District#;
- (d) that vehicular entrances and exits for such #use# are provided separately, and that no entrance is located less than 50 feet from any exit; and
- (e) that such #use# will not cause traffic congestion or other adverse effects which interfere with the appropriate use of land in the district or in any adjacent district, and that such #use# is so located as to minimize vehicular traffic to and through local #streets# in residential areas.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, or requirements for shielding of floodlights, adequate screening, or surfacing all access roads or driveways.

(2/2/11)

73-27

Funeral Establishments

In C1 or C4 Districts, the Board of Standards and Appeals may permit funeral establishments provided that the following findings are made:

- (a) that there are serious difficulties involved in locating within a district wherein such #use# is permitted as-of-right and from which it could serve the needs of its prospective clientele, which make it necessary to locate such #use# within a C1 or C4 District;

- (b) that the site for such #use# is so located as to cause minimum interruption of the continuity of the frontage devoted to retail shopping #uses#. In determining whether the #use# will cause only minimum interruption of such retail frontage, the Board may make a favorable finding on the ground that there exists a substantial number of other incompatible #uses# interrupting such frontage within 200 feet on either side of the proposed site (not including land in #streets#); and
- (c) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/15/61)

73-28

Newspaper Publishing

In C6 Districts, the Board of Standards and Appeals may permit newspaper publishing establishments provided that the following findings are made:

- (a) that such #use# will not cause undue traffic congestion in local #streets#;
- (b) that such #use# is not located within 200 feet of a #Residence District#; and
- (c) that such #use# shall conform to all performance standards applicable in M1 Districts.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/15/61)

73-29

Utilization of Explosives in Manufacturing Processes

In all #Manufacturing Districts#, the Board of Standards and Appeals may permit the utilization of Class IV explosives, as defined in Section 42-272 (Classifications), in manufacturing processes or other production and storage #accessory# thereto, provided that the following findings are made:

- (a) that such manufacture is carried on within #completely enclosed buildings or other structures# whose exterior walls are of incombustible materials;
- (b) that such #buildings or other structures# are protected throughout by an automatic fire extinguishing system which meets all requirements set forth in the Administrative Code of the City of New York; and
- (c) that such utilization and the storage #accessory# thereto complies with all additional applicable provisions of the Administrative Code and all rules and regulations of the Fire Department.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/15/61)

73-30

Radio or Television Towers

In all districts, the Board of Standards and Appeals may permit non-#accessory# radio or television towers, provided that it finds that the proposed location, design, and method of operation of such tower will not have a detrimental effect on the privacy, quiet, light and air of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/15/61)

73-31

Sand, Gravel or Clay Pits

(4/23/64)

73-311

General provisions

In all districts, the Board of Standards and Appeals may permit, for a term not to exceed 10 years, the extraction of sand, gravel, or clay from a #zoning lot# which is limited in size to a maximum of 50 acres and which is located not less than 1,000 feet from the nearest boundary of any #zoning lot# 10 acres or more in area used for such extraction, provided that the Board finds that such #use# is so located as not to impair the essential character or the future use or development of the surrounding area, and provided that the following conditions are met:

- (a) that the applicant submits a site plan showing the proposed extent and depth of the area to be excavated, together with the certification of the Department of Buildings that the proposed method of operations and the final elevation of the pit will not undermine or cause settlement to nearby #streets#, sewers, #buildings or other structures#, or installations;
- (b) that the applicant submits a plan for the rehabilitation of the #zoning lot# to be undertaken after the completion of the excavation operations which is satisfactory to the Board, and posts a bond, in an amount to be determined by the Board, for the performance of such rehabilitation;
- (c) that the entire perimeter of the #zoning lot#, except for necessary truck roads, is fenced, including locked gates, so as to prevent children from gaining access to the excavated areas;
- (d) that one #accessory# off-street parking space is provided for every 2,000 square feet of #lot area# or for every three employees, whichever shall require a lesser number of spaces; and
- (e) that the performance standards for M1 Districts shall apply to such operations in all districts other than M2 or M3 Districts, where the applicable performance standards shall govern.

(12/15/61)

73-312

Conditions on operation

The Board of Standards and Appeals shall impose the following conditions on the method of operation of such #uses#:

- (a) that all drilling, blasting, or excavation operations shall be limited to Mondays through Fridays between the hours of 8:00 a.m. and 5:00 p.m.;
- (b) that the emission of process dust either from the area of operations or from the excavated materials themselves shall be minimized by frequent watering or by such other means as the Board shall direct;
- (c) that the warning notices respecting unlawful entry shall be posted on the fence, and that a watchman shall be stationed on the premises to police the entire area after normal working hours and on weekends and holidays; and
- (d) that excavation operations shall be undertaken in such manner as to avoid the creation of undrained pockets and the formation of stagnant pools. When topographical conditions make such compliance impossible, all pools of water resulting from surface drainage shall be sprayed in accordance with the requirements of the Department of Health to eliminate breeding places for mosquitoes or other insects.

The Board may prescribe additional appropriate conditions and safeguards to protect the public health, safety, and general welfare during the period between the cessation of operations and the final rehabilitation of the site in accordance with approved plans.

(10/11/62)

73-32

Manufacture of Gaseous or Liquid Oxygen

In M3 Districts, the Board of Standards and Appeals may permit the manufacture of gaseous or liquid oxygen provided that such manufacture complies with all the applicable provisions of the Administrative Code of the City of New York and all rules and regulations of the Fire Department.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including adequate buffering.

(8/22/69)

73-33

Storage of Non-flammable Liquids

In M1 Districts, the Board of Standards and Appeals may permit the storage of non-flammable liquids in tanks to be located no closer than 100 feet from a #Residence District# boundary.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including adequate buffering.

(2/13/70)

73-34

Fire Stations in Prefabricated Temporary Structures

In all #Residence Districts# except R1, R2, R3 and R4 Districts, the Board of Standards and Appeals may permit, for a term of five years, fire stations in prefabricated temporary structures, provided that such #use# is located in a high fire incidence area as designated by the Fire Department.

For fire stations in prefabricated temporary structures, in all #Residence Districts# except R1, R2, R3 and R4 Districts and in all #Commercial# and #Manufacturing Districts#, the Board may permit modifications of the applicable regulations in Sections 23-40 to 23-55, inclusive, Sections 33-20 to 33-31, inclusive, and Sections 43-20 to 43-22, inclusive, relating to Yard Regulations.

(4/8/98)

73-35

Amusement Arcades

In C4-1 Districts, or in M2 or M3 Districts which contain shopping centers on March 4, 1976, the Board of Standards and Appeals may permit amusement arcades to be located within shopping centers for a term of one year, provided the following findings are made:

(a) that the application for the special permit is a joint

application made by the management of such shopping center and the operator of the proposed amusement arcade;

- (b) that such amusement arcade will be beneficial to the other #uses# located within the shopping center; and
- (c) that the #use# is so located within the shopping center that no entrance and no #sign# fronts upon or faces a #street#.

The special permit may be renewed for subsequent one year terms provided the Board finds that the facts upon which the special permit was granted have not substantially changed.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on hours of operation or requirements for security and supervision.

(2/2/11)

73-36

Physical Culture or Health Establishments

- (a) In C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board of Standards and Appeals may permit #physical culture or health establishments# as defined in Section 12-10, including gymnasiums (not permitted under Use Group 9) or massage establishments other than #adult physical culture establishments#, for a term not to exceed ten years, provided the following findings are made:
 - (1) that such #use# is so located as not to impair the essential character or the future use or development of the surrounding area; and
 - (2) that such #use# contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs

for physical improvement, body building, weight reduction, aerobics or martial arts; or

- (iv) facilities for the practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as #accessory# to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.

- (b) In C4-7, C5-2, C5-3, C5-4, C5-5, C6-4, C6-5, C6-6, C6-7, C6-8 or C6-9 Districts, the Board may permit #physical culture or health establishments# located on the roof of a #commercial building# or the #commercial# portion of a #mixed building#, provided the following additional findings are made:

- (1) that such #use# shall be an incidental part of a permitted #physical culture or health establishment# located within the same #commercial# or #mixed building#;
- (2) that such #use# shall be open and unobstructed to the sky;
- (3) that such #use# shall be located on a roof not less than 23 feet above #curb level#;
- (4) that the application for such #use# shall be made jointly by the owner of the #building# and the operator of such #physical culture or health establishment#; and
- (5) that the Board shall prescribe appropriate controls to minimize adverse impacts on the surrounding area, including but not limited to, requirements for the location, size and types of signs, limitations on the manner and/or hours of operation, shielding of floodlights, adequate screening, and the control of undue noise including the amplification of sound, music or voices.

- (c) No special permit shall be issued pursuant to this Section unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from

the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.

The Board shall retain the right to revoke the special permit, at any time, if it determines that the nature or manner of operation of the permitted #use# has been altered from that authorized.

The Board may prescribe appropriate conditions and safeguards including location of #signs# and limitations on the manner and/or hours of operation in order to minimize adverse effects on the character of the surrounding community.

(7/22/71)

73-40

MODIFICATIONS OF USE OR PARKING REGULATIONS

(12/17/87)

73-41

General Provisions

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-42 to 73-53, the Board of Standards and Appeals shall have the power to permit modification of #use# or parking regulations of this Resolution, and shall have the power to impose appropriate conditions and safeguards thereon.

(1/28/65)

73-42

Enlargement of Uses across District Boundaries

In all districts, the Board of Standards and Appeals may permit the expansion of a conforming #use# located within a #building or other structure# into a district where such #use# is not permitted, provided that the #enlarged use# is contained within a single #block# and the expansion of either the depth or the width of the conforming #use# is no greater than 50 percent of either

the depth or width, respectively, of that portion of the #zoning lot# located in the district where such #use# is a conforming #use#, but in no case shall the area of the expansion exceed 50 percent of the area of the #zoning lot# located in the district where such #use# is a conforming #use#, and provided further that the following findings are made:

- (a) there is no reasonable possibility of expanding such #use# within the existing district where it is a conforming #use#;
- (b) such conforming #use# was in existence prior to January 6, 1965, or the date of any applicable subsequent amendment to the #zoning maps#; and
- (c) such expanded #use# is not so situated or of such character or size as to impair the essential character or the future use or development of the surrounding area.

In the case of a #use# which, at the time of application to the Board under the provisions of this Section, is already partially located in the more restricted district, where it is a #non-conforming use#, or which has extended into such district in accordance with the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot), the maximum expansion to be permitted under the provisions of this Section shall be computed as 50 percent of the width or depth of that portion of the #zoning lot# located within the mapped boundary of the district where such #use# is a conforming #use#, and shall be measured from such mapped district boundary.

In every case where the Board permits such expansion, the #building or other structure#, or portion thereof, situated on the expanded portion of the #zoning lot# shall comply on such expanded portion with the applicable #bulk# regulations of the district in which such #use# is a conforming #use# and, subject to such compliance on the expanded portion of the #zoning lot#, the Board may permit such conforming #use#, even when located in an existing #building or other structure# which is #non-complying#, to expand across the district boundary in accordance with the provisions of this Section.

All the applicable regulations of the district in which such #use# is a conforming #use# shall apply on the entire #zoning lot#, or any portion thereof, to be occupied by such #use# and any special regulation applying along district boundaries shall apply along #rear# and #side lot lines# of the expanded #zoning lot#.

Where #yard# regulations are applicable, the Board may permit the expanded area to include, in addition to area permitted under

other provisions of this Section, such area as is necessary for the required #yards#. However, such additional area shall not be counted as #lot area# for purposes of #bulk# computations.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the district including requirements for adequate screening.

(9/9/04)

73-43

Reduction of Parking Spaces for Houses of Worship or Places of Assembly

The Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required under the provisions of Sections 25-31, 36-21 or 44-21 (General Provisions) for houses of worship or places of assembly, in accordance with the applicable provisions of Sections 73-431 and 73-432 for the reduction of parking spaces.

(9/9/04)

73-431

Reduction of parking spaces for houses of worship

In all districts, the Board of Standards and Appeals may permit a waiver of, or a reduction in, the number of required #accessory# off-street parking spaces for houses of worship, provided:

- (a) the house of worship will be operated or utilized in such a manner as to reduce demand for on-site parking; and
- (b) such reduction is commensurate with the reduced demand for on-site parking.

Factors to be considered by the Board may include, without limitation, the size of the congregation, the frequency and time of worship services and other events, and the proximity of public transportation. The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-432

Reduction of parking spaces for places of assembly

In all #Commercial# and #Manufacturing Districts#, the Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required under the provisions of Sections 25-31, 36-21 or 44-21 (General Provisions) for #uses# in parking requirement category D (Places of Assembly) whenever such #uses# are located on the same #zoning lot# as other #uses#, proportionate to the extent that the Board finds:

- (a) that the spaces #accessory# to such other #uses# will remain available for #use# by persons visiting the place of assembly during the entire period that such place of assembly remains in #use#; and
- (b) that, in accordance with submitted schedules of the times of operation for all #uses# on the #zoning lot#, there will be no conflict in the #use# of such #accessory# off-street parking spaces, and that the provision of the full quota of required off-street parking spaces for places of assembly is therefore not needed. The permit to reduce such spaces shall be automatically revoked whenever there is a change in the nature of the conditions upon which such reduced requirements were based, including changes in #use#, availability of spaces or hours of operation.

(9/9/04)

73-44

Reduction of Parking Spaces for Ambulatory Diagnostic or Treatment Facilities Listed in Use Group 4 and Uses in Parking Requirement Category B1

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for ambulatory diagnostic or treatment facilities listed in Use Group 4 and #uses# in parking requirement category B1 in Use Group 6, 7, 8, 9, 10, 11, 14 or 16 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by ambulatory diagnostic or treatment facilities listed in Use Group 4 or #uses# in parking category B1 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the #building# within which

such #use# is located shall state that no certificate shall thereafter be issued if the #use# is changed to a #use# listed in parking category B unless additional #accessory# off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius.

REDUCED ACCESSORY OFF-STREET
PARKING SPACES REQUIRED FOR AMBULATORY DIAGNOSTIC
OR TREATMENT FACILITIES LISTED IN USE GROUP 4 AND
COMMERCIAL USES IN PARKING REQUIREMENT CATEGORY B1

Parking Spaces Required per Number of Square Feet of #Floor Area#*	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1
1 per 800	C1-3 C2-3 C4-3 C7 C8-2

- * For ambulatory diagnostic or treatment facilities listed in Use Group 4, parking spaces required per number of square feet of #floor area# or #cellar# space, except #cellar# space #used# for storage

(5/8/13)

73-45

Modification of Off-Site Parking Provisions

In all districts, the Board of Standards and Appeals may modify the provisions regulating the location of #accessory# off-street parking spaces provided off the site, in accordance with the provisions of this Section which are applicable in the specified district. However, in no event shall #accessory# off-street parking spaces be permitted off-site in a #public parking garage#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply.

In all cases, the Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-451

For residences

The Board of Standards and Appeals may permit off-site spaces #accessory# to #residences# or to #non-profit hospital staff dwellings# to be located in any district except an R1 or R2 District, or at a greater distance from the #zoning lot# than the maximum distance specified in the applicable district regulations, provided that the following special findings are made:

- (a) that the required #accessory# on-street parking spaces cannot reasonably be provided on the #zoning lot# because of physical conditions including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions;
- (b) that within the maximum permitted radius for off-site parking or within a district other than a #Residence District#, there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces because such sites are occupied by substantial improvements;
- (c) that where such spaces are located at a greater distance from the #zoning lot# than the maximum distance permitted by the district regulations, such distance is not greater than as shown in the following table for the specified districts; and

Maximum Distance (in feet)	Districts							
1,200				R3	R4	R5	R6	R7-1 R7B
	C1-1	C1-2	C1-3	C2-1	C2-2	C2-3	C3	
					C4-1	C4-2	C4-3	
1,500				R7-2	R7A	R7X	R8	R9 R10
	C1-4	C1-5	C1-6	C1-7	C1-8	C1-9		
				C2-4	C2-5	C2-6	C2-7	C2-8
				C4-4	C4-5	C4-6	C4-7	C5 C6

- (d) that where such off-site spaces are located in a #Residence District#, they are so located as not to impair the essential character or the future use or development of the

nearby residential neighborhood.

(6/27/63)

73-452

For community facilities in Residence Districts

The Board of Standards and Appeals may permit off-street parking spaces #accessory# to a #community facility use# other than a #non-profit hospital staff dwelling#, which #use# is located in an R1, R2, R3 or R4 District, to be provided off-site and located in any district, or may permit off-street parking spaces #accessory# to a #community facility use# other than a #non-profit hospital staff dwelling#, which #use# is located in any other #Residence District#, to be provided off-site and located in an R1, R2, R3 or R4 District or located in any other #Residence District# at a greater distance from the #zoning lot# than the maximum distance specified in Section 25-53 (Off-Site Spaces for Permitted Non-Residential Uses), provided that in such instances, all such spaces shall be not further than 600 feet from the nearest boundary of the #zoning lot# containing such #use#, and provided further that the following special findings are made:

- (a) that where such spaces are located in an R1 or R2 District, the #community facility use# to which they are #accessory# is a #use# permitted as-of-right in such district;
- (b) that there is no way to arrange such spaces on the same #zoning lot# as such #use#;
- (c) that such spaces are so located as to draw a minimum of vehicular traffic to and through #streets# having predominantly #residential# frontage; and
- (d) either that such spaces are located on an adjoining #zoning lot# or a #zoning lot# directly across the #street# from such #use# or, if such spaces are not so located, that there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces on an adjoining #zoning lot# or a #zoning lot# directly across the #street# from such #use# or in a location where such off-site spaces would be permitted as-of-right, because such sites are occupied by substantial improvements.

(6/27/63)

73-453

For non-residential uses in Commercial or Manufacturing Districts

For non-#residential uses#, other than #non-profit hospital staff dwellings#, the Board of Standards and Appeals may extend the maximum permitted radius for off-site parking spaces located in #Commercial# or #Manufacturing Districts#, as specified in Sections 25-53 (Off-Site Spaces for Permitted Non-Residential Uses), 36-43 (Off-Site Spaces for Commercial or Community Facility Uses) or 44-32 (Off-Site Spaces for All Permitted Uses), from 600 to 1,200 feet, whenever the Board finds:

- (a) that the required #accessory# off-street parking spaces cannot reasonably be provided on the #zoning lot# because of physical conditions including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions; and
- (b) that, within 600 feet of a boundary of the #zoning lot#, there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces because such sites are occupied by substantial improvements.

(9/9/04)

73-454

For houses of worship

The Board of Standards and Appeals may modify, as applicable, the provisions of Sections 25-53 (Off-Site Spaces for Permitted Non-Residential Uses), 25-542 (Shared parking facilities for houses of worship), 36-43 (Off-Site Spaces for Commercial or Community Facility Uses), 36-442 (Shared parking facilities for houses of worship), 44-32 (Off-Site Spaces for All Permitted Uses) or 44-332 (Shared facilities for houses of worship), relating to the maximum permitted distance of the location of #accessory# off-street parking spaces for houses of worship, provided that in such instances all such spaces shall be not further than 1,000 feet from the nearest boundary of the #zoning lot# containing such house of worship, upon finding that:

- (a) such spaces conform to all applicable regulations of the district in which they are located; and
- (b) the location of such spaces will not result in undue traffic

congestion in the area.

The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-46

Waiver of Requirements for Conversions

In R6 or R7-1 Districts, in C1 or C2 Districts mapped within R6 or R7-1 Districts, or in C4-2 or C4-3 Districts, where the number of #accessory# off-street parking spaces required for additional #dwelling units# created by #conversions# of any kind exceeds the number of spaces which may be waived as of right under the provisions of Sections 25-262 (For conversions), 36-363 (For conversions in C1 or C2 Districts governed by surrounding Residence District bulk regulations) or 36-364 (For conversions in C4 Districts), the Board of Standards and Appeals may waive all or part of the required spaces, provided that the Board finds that there is neither a practical possibility of providing such spaces:

- (a) on the same #zoning lot# because of insufficient #open space# and the prohibitive cost of structural changes necessary to provide the required spaces within the #building#; nor
- (b) on a site located within 1,200 feet of the nearest boundary of the #zoning lot# because all sites within such radius are occupied by substantial improvements.

(5/8/13)

73-47

Rental of Accessory Off-Street Parking Spaces to Non-Residents

In C1 or C5 Districts, for a term not to exceed five years, the Board of Standards and Appeals may permit off-street parking spaces #accessory# to #residences# or #non-profit hospital staff dwellings# to be rented for periods of less than one week, to persons who are not occupants of such #residences# or #non-profit hospital staff dwellings#, provided that such rental of spaces conforms to the provisions set forth in Section 36-46 (Restrictions on Use of Accessory Off-Street Parking Spaces) and

that the following special findings are made:

- (a) that the number of spaces to be rented or the location of access, thereto, is such as to draw a minimum of vehicular traffic to and through #streets# having predominantly #residential# frontages;
- (b) that the total number of spaces to be rented to non-residents does not exceed 100; and
- (c) that where the total number of spaces to be rented to non-residents exceeds 20, reservoir space is provided at the vehicular entrance to accommodate 10 automobiles or 20 percent of the spaces so rented, whichever amount is less.

The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for the shielding of floodlights.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply.

(5/8/13)

73-48

Exceptions to Maximum Size of Accessory Group Parking Facilities

The Board of Standards and Appeals may permit #accessory group parking facilities# with more than 150 spaces in #Commercial# or #Manufacturing Districts# or for hospital and related facilities in #Residence Districts# in accordance with the provisions of this Section provided that such provisions shall not apply to #accessory# off-street parking spaces provided in #public parking garages# in accordance with the provisions of Section 36-57 or 44-46 (Accessory Off-Street Parking Spaces in Public Parking Garages).

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply.

(2/2/11)

73-481

For hospitals and related facilities in Residence Districts

The Board of Standards and Appeals may permit #accessory group parking facilities# with more than 150 spaces for hospitals and related facilities in all #Residence Districts#, provided that the following findings are made:

- (a) that such facility is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;
- (b) that such facility has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the facility, whichever amount is greater, but in no event shall such reservoir space be required for more than 20 automobiles; and
- (c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for locations of entrances and exits or for shielding of floodlights.

(6/27/63)

73-482

In Commercial or Manufacturing Districts

The Board of Standards and Appeals may permit #accessory group parking facilities# with more than 150 spaces in #Commercial# or #Manufacturing Districts#, provided either that such facilities have separate entrances and exits on two or more #streets# or that the following findings are made:

- (a) that such facility, if #accessory# to a non-#residential use#, other than a #non-profit hospital staff dwelling#, has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the facility, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles; and
- (b) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding

area, including limitations on #signs# or requirements for locations of entrances or for shielding of floodlights.

(6/27/63)

73-49

Roof Parking

In C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C7, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, the Board of Standards and Appeals may permit the parking or storage of motor vehicles on the roof of a #public parking garage# with a total of 150 spaces or less and, in all districts, the Board may permit modifications of the applicable provisions of Sections 25-11, 36-11 or 44-11 (General Provisions) so as to permit #accessory# off-street parking spaces to be located on the roof of a #building#. As a condition of permitting such roof parking, the Board shall find that the roof parking is so located as not to impair the essential character or the future use or development of adjacent areas.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for setback of roof parking areas from #lot lines#, or for shielding of floodlights.

(6/12/96)

73-50

Special Provisions Applying Along District Boundaries

In appropriate cases, for #zoning lots# with single frontage, the Board of Standards and Appeals may permit primary business entrances, #show windows#, or #signs# not otherwise permitted under the provisions of Section 32-51 or 42-44 (Limitations on Business Entrances, Show Windows or Signs), provided that in no case shall any such primary business entrance, #show window# or #sign# be permitted within 10 feet of a #Residence District# boundary.

In addition, in appropriate cases, the Board may waive the requirements for #rear yards# or #side yards# set forth in Sections 33-29 or 43-30 (Special Provisions Applying along District Boundaries) or the requirements for #front yards# as set forth in Section 34-233 (Special provisions applying along district boundaries).

It is further provided that, in appropriate cases, the Board may waive in whole or in part the #front yard# requirement set forth in Section 43-304 (Required front yards along district boundary located in street) after finding that such waiver will not have an adverse effect on the surrounding area. The Board shall prescribe appropriate conditions and safeguards to preserve and enhance the character of the surrounding area, and to ensure the maintenance of resulting #front yards#.

(6/22/63)

73-51

Modification of Supplementary Use Regulations

In C1, C2, C3, C4, C5, C6 or C7 Districts, the Board of Standards and Appeals may permit public utility radio or television facilities which do not comply with the applicable provisions of Section 32-42 (Location within Buildings) to be located on the top #story# or the roof of a #building# and may prescribe appropriate conditions and safeguards to minimize adverse effects on #uses# occupying lower #stories# or on the character of the surrounding area.

In addition, the Board may permit public utility antennas, microwave platforms and dishes or other radio or television equipment to penetrate the maximum height limit or the #sky exposure plane# set forth in Section 33-43 (Maximum Height of Walls and Required Setbacks) or 33-44 (Alternate Front Setbacks) provided that such equipment shall not exceed 20 feet in height.

(6/25/64)

73-52

Modifications for Zoning Lots Divided by District Boundaries

Whenever a #zoning lot# existing in single ownership on December 15, 1961, or on the effective date of any applicable subsequent amendment to the #zoning maps# is divided by a boundary between two or more districts in which different #uses# are permitted, the Board of Standards and Appeals may permit a #use# which is a permitted #use# in the district in which more than 50 percent of the #lot area# of the #zoning lot# is located to #extend# not more than 25 feet into the remaining portion of the #zoning lot#, where such #use# is not a permitted #use#, provided that the following findings are made:

- (a) that, without any such extension, it would not be economically feasible to use or #develop# the remaining portion of the #zoning lot# for a permitted #use#; and
- (b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area.

Where such an extension of a #use# is permitted, the Board may permit the #bulk#, off-street parking and loading, and all other regulations of the district in which more than 50 percent of the #lot area# of the #zoning lot# is located, to apply for the distance, not exceeding 25 feet, that such #use# is permitted to #extend# into the remaining portion of the #zoning lot#.

Any portion of the #zoning lot# beyond such distance shall be subject to all the regulations of the district in which it is located, and shall not be counted as #lot area# for a #building or other structure#, or portion thereof, used for such #extended use#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effect on the character of the surrounding area.

(2/2/11)

73-53

Enlargements or Extensions of Certain Manufacturing or Related Uses

- (a) In all districts, the Board of Standards and Appeals may modify #use# and #bulk# regulations to permit the #enlargement# or #extension# of #floor area# of a conforming or #non-conforming use# listed in Section 15-50 (REFERENCED COMMERCIAL AND MANUFACTURING USES), provided that:
 - (1) such #use# is not subject to termination pursuant to Section 52-70, et seq.;
 - (2) the #use# for which such special permit is being sought has been lawfully located on the #zoning lot# on which the expansion is to occur, or a portion thereof, for five years or more;
 - (3) the #building# in which such #use# is located has not previously been #enlarged#, pursuant to Sections 11-412, 43-121 or 72-21;

- (4) the #use# is not listed in Use Group 18; and
 - (5) in a #Residence District#, such #enlargement# or #extension# shall be permitted in existing #floor area# or on a vacant portion of a #zoning lot# only when no lawful #residential use# has occupied such #floor area# or vacant portion of a #zoning lot# at any time during the five years prior to the date of application for such special permit.
- (b) Any #enlargement# or #extension# permitted pursuant to this Section shall be subject to the following requirements:
- (1) the permitted #enlargement# or #extension# may be the greater of:
 - (i) 45 percent of the #floor area# occupied by such #use# on December 17, 1987; or
 - (ii) 2,500 square feet additional to the #floor area# occupied by such #use# on December 17, 1987.

In no event shall the amount of #enlargement# or #extension# under paragraph (b)(i) of this Section exceed 10,000 square feet additional to the #floor area# occupied by such #use# on December 17, 1987;

- (2) unless the #zoning lot# is located within an M2 or M3 District, more than 300 feet from a #Residence District# boundary, any #enlarged# or #extended# portion, or activity generated by such #enlargement# or #extension#, including storage and processing, shall be in #completely enclosed buildings#;
- (3) in the case of a #non-conforming use#, such #enlarged# or #extended use# shall conform to all performance standards applicable in a M1 District located at the boundary with a #Residence District#; however, conforming #uses# shall conform to the applicable performance standards of the district in which they are located;
- (4) no open #uses# of any kind, including storage or processing, shall be permitted within 30 feet of a #rear lot line# that is located within a #Residence District# or within 30 feet of the #rear lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;

- (5) no #enlargement# or #extension# that exceeds 16 feet above #curb level# shall be permitted within 30 feet of the #rear lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;
 - (6) no #enlargement# or #extension# that exceeds 16 feet above #curb level# shall be permitted within eight feet of the #side lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;
 - (7) no open #uses# of any kind, including storage or processing, shall be permitted within eight feet of the #side lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;
 - (8) no #enlargement# or #extension#, or open #uses# of any kind, including storage or processing, shall be permitted within eight feet of the #lot line# which coincides with a #side lot line# of a #zoning lot# in an R1, R2, R3, R4 or R5 District; and
 - (9) no #side yard# shall be required in an R6, R7, R8, R9 or R10 District or in a #Commercial or #Manufacturing District#; however, if such #side yard# is provided, it must be at least eight feet in width.
- (c) In granting such special permit, the Board shall find:
- (1) that such #enlargement# or #extension# will not generate significant increases in vehicular or pedestrian traffic nor cause congestion in the surrounding area;
 - (2) that there will be adequate parking for any vehicles generated by such #enlargement# or #extension#;
 - (3) that any required #side yard# shall be suitably landscaped or fenced as the Board shall prescribe;
 - (4) that any #accessory# parking or loading generated by such #enlargement# or #extension# shall be suitably buffered from adjacent #uses# by methods that the Board shall prescribe; and
 - (5) that the special permit, if granted, will not alter the essential character of the neighborhood or district in which the #use# is located, nor impair the future use or development of the surrounding area.

The Board may prescribe appropriate conditions and safeguards

including, if appropriate, limitations on hours of parking and delivery, requirements for off-street loading, and location of curb cuts to minimize adverse effects of the #enlargement#, #extension# or existing #uses# on the character of the surrounding area, and to protect #residential# or #commercial zoning lots#.

(7/22/71)

73-60

MODIFICATIONS OF BULK REGULATIONS

(8/26/92)

73-61

General Provisions

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-62 to 73-68 inclusive, the Board of Standards and Appeals shall have the power to permit modification of the #bulk# regulations of this Resolution, and shall have the power to impose appropriate conditions and safeguards thereon.

In the #Special Midtown District#, the powers of the Board to permit modification of the #bulk# regulations are made inapplicable in accordance with the provisions of Section 81-061 (Applicability of Chapter 3 of Article VII).

(2/2/11)

73-62

Modification of Bulk Regulations for Buildings Containing Residences

(2/2/11)

73-621

Enlargement, change of use, or extension within buildings containing residential uses

For a complying or #non-complying building# existing on December 15, 1961, or in R2X, R3, R4 or R5 Districts on June 30, 1989, and containing #residential uses#, the Board of Standards and Appeals may permit an #enlargement#, a change of #use# or (in the case of a #mixed building#) an #extension#, provided that such #enlargement#, change of #use# or #extension# shall not create any new #non-compliance# or increase the amount or degree of any existing #non-compliance# except as provided in this Section.

In the districts and for the #buildings# for which an #open space ratio# is required, the #open space ratio# permitted under this Section shall not be less than 90 percent of the #open space ratio# required under the applicable #bulk# regulations set forth in Article II or III of this Resolution. In the districts and for the #buildings# to which a maximum #lot coverage# applies, the maximum #lot coverage# permitted under this Section shall not exceed 110 percent of the maximum #lot coverage# permitted under the applicable #bulk# regulations set forth in Article II or III of this Resolution. In all districts, the #floor area ratio# permitted under this Section shall not exceed the #floor area ratio# permitted under such regulations by more than 10 percent. In R2X, R3 or R4 Districts, the additional #floor area# permitted pursuant to this Section may be computed using a base #floor area ratio# including the #floor area# permitted under a sloping roof with a structural headroom between five and eight feet when such space is provided in the #building#.

(2/2/11)

73-622

Enlargements of single- and two-family detached and semi-detached residences

The Board of Standards and Appeals may permit an #enlargement# of an existing #single-# or #two-family detached# or #semi-detached residence# within the following areas:

- (a) Community Districts 10, 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn.

Such #enlargement# may create a new #non-compliance#, or increase the amount or degree of any existing #non-compliance#, with the applicable #bulk# regulations for #lot coverage#, #open space#, #floor area#, #side yard#, #rear yard# or perimeter wall

height regulations, provided that:

- (1) any #enlargement# within a #side yard# shall be limited to an #enlargement# within an existing #non-complying side yard# and such #enlargement# shall not result in a decrease in the existing minimum width of open area between the #building# that is being #enlarged# and the #side lot line#;
- (2) any #enlargement# that is located in a #rear yard# is not located within 20 feet of the #rear lot line#; and
- (3) any #enlargement# resulting in a #non-complying# perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the #enlarged building# is adjacent to a #single-# or #two-family detached# or #semi-detached residence# with an existing #non-complying# perimeter wall facing the #street#. The increased height of the perimeter wall of the #enlarged building# shall be equal to or less than the height of the adjacent #building's non-complying# perimeter wall facing the #street#, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the #enlarged building# will not alter the essential character of the neighborhood or district in which the #building# is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-63

Enlargement of Non-Residential Buildings

For a complying or #non-complying non-residential building# existing on December 15, 1961, the Board of Standards and Appeals may permit an #enlargement#, provided that such #enlargement# shall not create any new #non-compliance# or increase the amount or degree of any existing #non-compliance# except as provided in this Section.

In all districts, the #floor area ratio# permitted under this Section shall not exceed the #floor area ratio# permitted under the applicable #bulk# regulations set forth in Article II, III or IV of this Resolution by more than 10 percent, or 10,000 square feet, whichever is less.

(9/9/04)

73-64

Modifications for Community Facility Uses

On a #zoning lot# occupied by any of the #community facility uses# specified in this Section, and in all districts where such #uses# are permitted as-of-right or by special permit, the Board of Standards and Appeals may permit #developments# or #enlargements# for such #uses#, which do not comply with certain applicable district #bulk# regulations, in accordance with the provisions of this Section.

Such specified #community facility uses# are:

College or school student dormitories or fraternity and sorority student houses

Colleges or universities, including professional schools, but excluding business colleges or trade schools

Community centers

Houses of worship, rectories, parish houses or seminaries

Libraries, museums or non-commercial art galleries

Monasteries, convents or novitiates

#Non-profit hospital staff dwellings#

Non-profit or voluntary hospitals and related facilities

Philanthropic or non-profit institutions with or without sleeping accommodations, excluding ambulatory diagnostic or treatment health care facilities listed in Use Group 4

#Schools#.

(2/2/11)

73-641

Integration of new buildings or enlargements with existing buildings

For any such new #building# or #enlargement#, subject to the required findings set forth in this Section, the Board of Standards and Appeals may permit modifications of the applicable regulations in Sections 24-38, 33-28 or 43-28 (Special Provisions for Through Lots), or in Sections 24-51 to 24-55, inclusive, Sections 33-41 to 33-45, inclusive, or Sections 43-41 to 43-45, inclusive, relating to Height and Setback Regulations, or in Sections 24-61 to 24-65, inclusive, Section 33-51, or Section 43-51, relating to Court Regulations and Minimum Distance between Windows and Walls or Lot Lines, provided that on December 15, 1961, the applicant owned the #zoning lot# or any portion thereof, and continuously occupied and used one or more #buildings# located thereon for a specified #community facility use#, from December 15, 1961, until the time of application.

As a condition of granting such modification, the Board shall find:

- (a) that such modification is required in order to enable such #use# to provide an essential service to the community;
- (b) that without such modification there is no way to design and construct the new #buildings# or #enlargements# in satisfactory physical relationships to the existing #buildings# which are to remain upon the site, so as to produce an integrated development; and
- (c) that such modification is the minimum modification necessary to permit the development of such integrated community facility, and thereby creates the least detriment to the character of the neighborhood and the use of nearby #zoning lots#.

(2/2/11)

73-642

Temporary failure to comply

In any district where such a specified #community facility use# is permitted, and on any #zoning lot# where one or more #buildings# occupied by such #use# exist on the date of application for the special permit, the Board of Standards and Appeals may permit #development# or #enlargements# which, only because of the continued existence of such #buildings# on a temporary basis, fail to comply with one or more of the applicable district #bulk# regulations, provided that the Board finds that continued use of the existing #buildings# is essential

as a service to the community until the new construction makes it possible to replace the facilities contained therein.

The Board shall prescribe as a condition of such permit that such existing #buildings# will be removed within a stated period of time not to exceed two years after completion of the #development# or #enlargement#.

(2/2/11)

73-643

Community centers

In any such #development# or #enlargement# consisting of a community center serving primarily the residents of the #zoning lot#, the Board of Standards and Appeals may permit the density regulations set forth in Sections 24-20 (APPLICABILITY OF DENSITY REGULATIONS TO ZONING LOTS CONTAINING BOTH RESIDENTIAL AND COMMUNITY FACILITY USES) or 35-40 (APPLICABILITY OF DENSITY REGULATIONS) to be modified, provided that the total number of #dwelling units# permitted by these Sections and all other applicable #bulk# regulations set forth in Articles II and III of this Resolution shall not be increased by more than 10 percent.

(3/8/62)

73-65

Enlargement of Public Utility Facilities

The Board of Standards and Appeals may permit an #enlargement# which does not comply with the applicable district #bulk# regulations for any #building or other structure# existing on December 15, 1961, within which any one of the following public utilities is located:

Electric or gas utility substations

Telephone exchanges or other communications equipment structures

Water or sewage pumping stations;

provided that the following findings are made:

- (a) that the growth of the utility service demand in the area served by the #building or other structure# requires such

#enlargement# to house the additional facilities needed to fulfill the demand;

- (b) that the network of lines, pipes or other distribution facilities located below the surface of the #streets# is so integrated with the operations carried on within such #building# that the provision of such additional facilities at another location would cause substantial duplication of plant and facilities and inconvenience to the public; and
- (c) that #non-compliance#, if any, with the applicable #yard# or height and setback regulations is the minimum made necessary by essential engineering requirements.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and shall require that the certificate of occupancy shall be limited to such #use#.

(7/23/64)

73-66

Height Regulations around Airports

The Board of Standards and Appeals may permit the construction, #enlargement#, or reconstruction of a #building or other structure# in excess of the height limits established under Sections 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed #building or other structure# in relation to such maximum height limits, and that the Board finds that such proposed #building or other structure#, #enlargement#, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed #building#, to other #buildings# in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aeronautics Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways.

(10/29/07)

73-67

Additional Floor Space of Public Parking Garages

In C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C4-5D, C-7, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, for #public parking garages# with a total of 150 spaces or less, the Board of Standards and Appeals may permit floor space on one or more #stories# to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS), provided that all floor space so exempted is located not more than 23 feet above #curb level# and provided that the following findings are made:

- (a) that the additional floor space permitted is needed in order to prevent excessive on-street parking demand and relieve traffic congestion; and
- (b) that the hazards or disadvantages to the community at large resulting from the additional floor space permitted are outweighed by the advantages to be derived by the community therefrom under the conditions and safeguards imposed.

The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

73-68

Height and Setback and Yard Modifications

In C5-5, C6-8 and C6-9 Districts, the Board of Standards and Appeals may permit modifications of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to Rear Yard Regulations, or in Sections 33-41 to 33-45, inclusive, relating to Height and Setback Regulations.

The Board may grant such modifications upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of size or irregular shape of the lot, size or irregular shape of the #block#, and width of #streets#. The Board shall also consider the characteristics of surrounding development.

The Board shall require, where appropriate, sufficient safeguards to ensure the free flow of pedestrian and vehicular traffic in

the general area. The Board may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

(4/30/08)

73-69

Rear Yard Modifications

The Board of Standards and Appeals may permit modifications to the #rear yards# required pursuant to Sections 23-543, 24-393, 33-303 or 43-313 (For zoning lots with multiple rear lot lines) for #zoning lots# existing on April 30, 2008, provided the following findings are made:

- (a) that due to the irregular shape of the #zoning lot#, compliance with the #rear yard# regulations would create site planning constraints and adversely affect the layout and development of the site; and
- (b) that the requested reduction in #rear yard# depth is the least amount necessary to grant relief.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(7/18/95)

73-70

LAPSE OF PERMIT

A special permit for a specified #use# or for a modification of the #use# or #bulk# regulations granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such permit was granted, has not been completed within four years from the date of granting such permit by the Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Board's decision, the four-year lapse period shall commence upon the date of entry of the final order in such proceedings, including appeals.

(12/15/61)

Chapter 4

Special Permits by the City Planning Commission

(12/15/61)

74-00

POWERS OF THE CITY PLANNING COMMISSION

(4/22/09)

74-01

General Provisions

In harmony with the general purpose and intent of this Resolution and in accordance with the provisions set forth in this Chapter, the City Planning Commission may, after public notice and hearing, grant special permits in specific districts for the #uses# listed in this Chapter, whose location or control requires special consideration or major planning factors, or for specified modifications of the #use# or #bulk# regulations of this Resolution, provided that in each specific case the requirement for findings as set forth in this Chapter shall constitute a condition precedent to the grant of such special permit.

In addition to meeting the requirements, conditions, and safeguards prescribed by the Commission as set forth in this Chapter, each such special permit #use# or #building or other structure# permitted hereunder shall conform to and comply with all of the applicable regulations on #use#, #bulk#, supplementary #use# regulations, regulations applying along district boundaries, #accessory signs#, #accessory# off-street parking and off-street loading, and all other applicable provisions of this Resolution except as otherwise specifically provided in this Chapter.

In addition, the Commission, with the concurrence of the Board of Estimate, shall also have the power to permit the renewal of an exception or permit issued prior to December 15, 1961, in accordance with the provisions of Section 11-41 relating to Exceptions, Variances or Permits Previously Authorized.

In the #Special Midtown District#, the powers of the Commission to permit special permit #uses# are modified by the provisions of Section 81-13 (Special Permit Use Modifications), and the powers of the Commission to permit modification of the #bulk# regulations or

grant bonus #floor area# for certain amenities are made inapplicable or modified in accordance with the provisions of Section 81-062 (Applicability of Chapter 4 of Article VII).

In the #waterfront area#, the powers of the Commission to grant special permits are made inapplicable or modified in accordance with the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

Except as permitted pursuant to this Chapter, in R3, R4 or R5 Districts, the following #uses# shall be subject to the height and setback requirements of an R2 District:

Fire stations

Police stations

Public transit, railroad or electric utility substations limited to sites of not less than 40,000 square feet and not more than 10 acres

Sewage disposal plants.

(8/24/67)

74-02

Further Requirements

It shall be a further requirement that the decision or determination of the City Planning Commission shall set forth each required finding in each specific grant of a special permit #use#, or modification of the #use# or #bulk# regulations, and in each denial thereof which of the required findings has not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Commission in reaching its final decision, including the personal knowledge of or inspection by the members of the Commission.

In no case shall a special permit for a proposed sewage treatment plant or pumping station under Section 74-73 of this Chapter be denied without a prior public hearing by the Commission. Such public hearing must be held by the Commission and decision given within six months of the date of filing of the request for such special permit with the Commission.

(7/26/62)

74-20

REQUIREMENTS FOR APPLICATIONS

An application to the City Planning Commission for the grant of a special permit respecting any of the #uses# specified in this Chapter shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on the site, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the Commission.

(8/16/79)

74-21

Conditions and Safeguards

The City Planning Commission may prescribe such conditions and safeguards to the grant of special permits as it may deem necessary in the specific case, in order to minimize the adverse effects of such special permit upon other property and the community at large. Such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

(12/15/61)

74-30

SPECIAL PERMIT USES

(11/13/69)

74-31

General Provisions

The City Planning Commission shall have the power to permit in the districts indicated, the special permit #uses# set forth in this Chapter and to prescribe appropriate conditions and safeguards thereon, provided that in each specific case:

- (a) The Commission shall make all of the findings required in the applicable sections of this Chapter with respect to each such special permit #use#, and shall find that the hazards or disadvantages to the community at large through the location of such #use# at the particular site are outweighed by the advantages to be derived by the community from the grant of such special permit #use#.

The Commission shall in each case determine that the adverse effects, if any, on the privacy, quiet, light and air in the neighborhood of such #use# will be minimized by appropriate conditions governing location of the site, design and method of operation.

- (b) In all cases, the Commission shall deny a special permit #use# whenever such #use# will interfere with a public improvement project (including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate or City Planning Commission, as determined from the calendar of each such agency issued prior to the date of the public hearing on the application for a special permit #use#.
- (c) Where, under the applicable findings, the Commission is required to determine whether the special permit #use# is appropriately located in relation to the #street# system, the Commission shall make such determination on the basis of the Master Plan of Arterial Highways and Major Streets. Whenever the Commission is required to make a finding on the location of a proposed special permit #use# in relation to secondary or local #streets# and such classification of #streets# is not shown on the Master Plan, the Commission shall thereupon establish the appropriate classification of such #streets#.
- (d) All applications relating to Sections 74-41 to 74-70, inclusive, and Section 74-80 shall be referred by the Commission to the Department of Traffic for its report with respect to the anticipated traffic congestion resulting from such special permit #use# in the proposed location, and when so required in the specific Section, the Commission shall refer the application to a designated agency for a report on the issue in question. If such agency shall report thereon within one month from the date of referral, the Commission shall, in its determination, give due consideration to such report and, further, shall have the power to substantiate the appropriate findings solely on the basis of the report by such agency with respect to the issue referred. If such agency does not report within one month, the Commission may make a final determination without reference thereto.

- (e) The Commission may authorize any special permit #use# for such term of years as it deems appropriate.
- (f) The Commission may permit the #enlargement# or #extension# of any existing #use# which, if new, would be permitted by special permit in the specified districts under the provisions of Section 74-01 (General Provisions) and other applicable provisions of this Chapter, provided that before granting any such permit for #enlargement# or #extension# within the permitted districts, the Commission shall make all of the required findings applicable to the special permit #use#, except that:
 - (1) in the case of #public parking garages# or #public parking lots#, the Commission may waive all such applicable required findings set forth in Section 74-51 or 74-52, except that the capacity of any such garage or lot in a C1 District shall not exceed 100 spaces; and
 - (2) in case of electric utility substations or public transit or railroad electric substations, the Commission may waive all such required findings set forth in Section 74-61, except that the requirements with respect to site size shall not be waived.

No such #enlargement# or #extension# shall create a new #non-compliance# or increase the degree of #non-compliance# with the applicable #bulk# regulations.

(12/21/05)

74-40

USE PERMITS

(12/10/13)

74-41

Arenas, Auditoriums, Stadiums or Trade Expositions

C4 C6 C7 C8 M1 M2 M3

- (a) The City Planning Commission may permit arenas, auditoriums or stadiums with a capacity in excess of 2,500 seats, or trade expositions with a rated capacity in excess of 2,500 persons, provided that the following findings are made:

- (1) that the principal vehicular access for such #use# is not located on a local #street# but is located on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#;
 - (2) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
 - (3) that such #use# is not located within 200 feet of a #Residence District#;
 - (4) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent traffic congestion;
 - (5) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart; and
 - (6) that due consideration has been given to the proximity of bus and rapid transit facilities to serve such #use#.
- (b) In Community District 7 in the Borough of the Bronx, the City Planning Commission may permit an indoor arena with a maximum seating capacity of 6,000 within 200 feet of a #Residence District# and, in conjunction with such arena, permit modifications of the provisions of Sections 32-64 (Surface Area and Illumination Provisions), 32-655 (Height of signs in all other Commercial Districts), and 36-62 (Required Accessory Off-street Loading Berths), provided that:
- (1) the provisions of paragraphs (a)(1), (a)(2), (a)(4), (a)(5) and (a)(6) of this Section are met;
 - (2) open space surrounding such arena will be located and arranged to provide adequate pedestrian gathering areas to minimize disruption to the surrounding areas;
 - (3) the arena includes noise attenuation features and measures which serve to reduce arena-related noise in the surrounding area, including at nearby #residences#;
 - (4) where Sections 32-64 (Surface Area and Illumination Provisions) and 32-655 (Height of Signs in all other Commercial Districts) are modified, a #signage# plan has been submitted showing the location, size, height and illumination of all #signs# on the #zoning lot#, and the

Commission finds that all such #signs#, and any illumination from or directed upon such #signs#, are located and arranged so as to minimize any negative effects from the arena #use# on nearby #residences#; and

- (5) where Section 36-62 (Required Accessory Off-street Loading Berths) is modified, a loading plan has been submitted that addresses the operational needs of all servicers of the arena and shows the number, location and arrangement of all loading berths on the #zoning lot#, and the Commission finds that such loading plan is adequate to address the loading demand generated by the arena #use# and has received assurances that the arena operator will implement such plan in accordance with its terms.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs#, requirements for soundproofing of arenas or auditoriums, shielding of floodlights, screening of open #uses# or surfacing all access roads or driveways. The Commission may also prescribe requirements for pedestrian-accessible open areas surrounding the arena, auditorium or stadium, including #accessory# directional or building identification #signs# located therein. In addition, within Pennsylvania Station Subarea B4 of the #Special Hudson Yards District#, design changes to existing #plazas# located within such pedestrian-accessible open areas may be made without a certification by the Chairperson of the Commission pursuant to Section 37-625, and the design standards of Sections 37-70, inclusive, shall not apply to such #plazas#.

(2/2/11)

74-42

Drive-in Theaters

In C7 or C8 Districts or any #Manufacturing District#, the City Planning Commission may permit drive-in theaters, limited to a maximum capacity of 500 automobiles, provided that the following findings are made:

- (a) that the principal vehicular access for such #use# is not located on a local #street# or an arterial highway but is located on a major or secondary #street# within one-quarter mile of an arterial highway;
- (b) that such #use# is so located as to draw a minimum of

vehicular traffic to and through local #streets# in nearby residential areas;

- (c) that such #use# is not located within 200 feet of a #Residence District#;
- (d) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent congestion; and
- (e) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, screening or surfacing all access roads or driveways.

(2/2/11)

74-43

Racetracks

In C8 Districts or any #Manufacturing District#, the City Planning Commission may permit racetracks, provided that the following findings are made:

- (a) that the principal vehicular access for such #use# is not located on a local #street# but is located either on an arterial highway, a major #street#, or a secondary #street# within one-quarter mile of an arterial highway or major #street#;
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (c) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent congestion;
- (d) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart; and
- (e) that, in selecting the site, due consideration has been given to the proximity and adequacy of bus and rapid transit facilities.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, screening or surfacing all access roads or driveways.

In addition, the City Planning Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required spaces in accordance with the requirements established in this Resolution with respect to other major traffic generating #uses#.

(2/2/11)

74-44

Children's Amusement Parks

In C8 or M1 Districts, the City Planning Commission may permit children's amusement parks with an area of at least 75,000 square feet, but not more than 10 acres, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or the future use or development of the surrounding area;
- (b) that the principal vehicular access for such #use# is not located on a local #street# or on an arterial highway, but is located on a major or secondary #street# within one-quarter mile of an arterial highway or a major #street#;
- (c) that such #use# will not produce traffic congestion or other adverse effects which interfere with the appropriate use of land in the district or in any adjacent district, and that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (d) that such #use# is not located within 400 feet of a #Residence District#; and
- (e) that vehicular entrances and exits for such #use# are provided separately and are located not less than 50 feet apart.

The City Planning Commission may prescribe appropriate conditions

and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, screening or surfacing all access roads or driveways.

(2/2/11)

74-45

Swimming Pool Clubs or Certain Non-Commercial Clubs

In all #Residence Districts#, the City Planning Commission may permit a non-commercial outdoor swimming pool club, or any non-commercial club with an outdoor swimming pool located less than 500 feet from any #lot line#, provided that the following findings are made:

- (a) that such #use# is so located as not to impair the essential character or future use or development of the nearby residential neighborhood;
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#;
- (c) that such #use# has adequate reservoir space at the vehicular entrance to prevent the congestion of automobiles on the #streets#;
- (d) that in R1, R2, R3 or R4 Districts, the pool or any #accessory# facilities affixed to the land are not located closer than 100 feet or, in the case of an #accessory# outdoor tennis court, such tennis court shall not be closer than 20 feet, to any #side# or #rear lot line# coincident with a #side# or #rear lot line# of an adjoining #zoning lot# in a #Residence District#, and not located closer than 50 feet to any #street line#, and that any planned temporary enclosure such as an air-supported structure be indicated on the plans submitted with this application, and in no event shall such a structure be located closer than 50 feet from any #street# or #lot line#, if such a structure is planned subsequent to the approval of the special permit, then an amended application subject to the same approvals of this Section shall be submitted; and
- (e) that for every 200 square feet of #lot area# used for the pool and its #accessory# facilities, one #accessory# off-street parking space is provided.

The City Planning Commission may prescribe appropriate conditions

and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or the hours of operation, or requirements for shielding of floodlights, screening or surfacing of all access roads or driveways.

(1/8/97)

74-46

Indoor Interactive Entertainment Facilities

In C4, C6, C7, C8 Districts and M1 Districts, except in M1-1, M1-5A, M1-5B Districts and M1 Districts with a suffix "D," the City Planning Commission may permit, for a term not to exceed five years, indoor interactive entertainment facilities with eating and drinking, consisting of mechanical, electronic or computer-supported games subject to the following conditions:

- (a) there shall be a minimum of 1,000 square feet of #floor area# per game. This requirement shall not apply within the Theater Subdistrict of the #Special Midtown District#;
- (b) the entrance to such #use# shall be a minimum of 200 feet from the nearest #Residence District# boundary;
- (c) in C4 and C6 Districts, a minimum of four square feet of waiting area within the #zoning lot# shall be provided for each person permitted under the occupant capacity as determined by the New York City Building Code. The required waiting area shall be in an enclosed lobby and shall not include space occupied by stairs, corridors or restrooms;
- (d) parking shall be provided in accordance with the parking regulations for Use Group 12A (Parking Category D); and
- (e) the application is made jointly by the owner of the #building# and the operators of such indoor interactive entertainment facility.

In addition to the above conditions, the Commission shall find that:

- (1) such #use# will not impair the character or the future use or development of the surrounding area;
- (2) there is a reasonable plan to prevent the gathering of crowds and the formation of lines on the #street#;
- (3) such #use# will not cause undue vehicular or pedestrian

congestion in local #streets#; and

- (4) such #use# will not cause the sound level in any affected conforming #residential use# or #joint living-work quarters for artists# to exceed the limits set forth in any applicable provision of the New York City Noise Control Code.

The City Planning Commission shall prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including, but not limited to: location of entrances and operable windows, provision of sound-lock vestibules, specification of acoustical insulation, maximum size of establishment, kinds of mechanical amplification, shielding of flood lights, adequate screening, curb cuts or parking.

(7/26/01)

74-47

Amusement Arcades

In C6 Districts only, the City Planning Commission may permit amusement arcades to be located within department stores of a minimum 150,000 square feet of #floor area#, railroad terminal #buildings# other than Grand Central Station, bus terminal #buildings# or office #buildings# of a minimum 500,000 square feet of #floor area#. Such amusement arcades shall not occupy more than one location in one #building# and shall not occupy more than 4,000 square feet of area and the arcade shall be located at least 500 feet from any #Residence District# or any C1 or C2 District, or for #zoning lots# located wholly or partially within the Fulton Mall Subdistrict of the #Special Downtown Brooklyn District#, such amusement arcade may be separated from any #Residence District# or any C1 or C2 District by a #street# that has a width greater than 110 feet and such amusement arcade shall be located below #street# level. An application for an amusement arcade pursuant to this Section shall contain plans of the location and arrangement of the proposed #use# and duplicate copies of the application filed with the Department of Consumer Affairs for an arcade license. Such amusement arcades may be permitted for renewable terms, subject to annual certification as to compliance with the conditions of this permit, provided the Commission finds that:

- (a) the application for such special permit is a joint application made by the owner of the #building# and the operator of the proposed amusement arcade;
- (b) such amusement arcade will not have a deleterious effect on the other #uses# located within the #building# and the

surrounding area; and

- (c) the #use# is so located within the #building# that no entrance nor any #sign# of the amusement arcade fronts upon or faces a #street#.

No special permit shall be issued pursuant to this Section unless the Commission has received a report from the Department of Consumer Affairs concerning the applicant, including any prior experience with the said Department and recommendations as to the operation of the arcade so as to protect the consumer.

This permit shall become effective upon the issuance of an appropriate license from the Department of Consumer Affairs, whose requirements concerning the location, number and arrangement of machines, hours of operation and requirements for supervision or security shall be incorporated within the special permit and govern those aspects of the special permit.

The Commission may renew the special permit for subsequent terms provided the Commission finds that the facts upon which the permit was granted have not substantially changed. With respect to any special permit or subsequent renewals under this Section, the provisions of Section 74-31 (General Provisions), paragraph (d), shall not apply.

The Commission shall retain the right to revoke the special permit, at any time, if it determines that the nature or manner of operation of the permitted #use# has been altered from that authorized. The Commission and the Department of Consumer Affairs shall notify each other of any permit or license revocation hereunder.

Revocation of a special permit or a Department of Consumer Affairs license shall cause a revocation of the related license or special permit respectively. The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/5/04)

74-48

Scientific Research and Development Facility

In C6 Districts, the City Planning Commission may permit a scientific research and development facility containing laboratories for medical, biotechnological, chemical or genetic research, including space for production, storage and distribution

of scientific products generated through research and may modify height and setback regulations for the facility. Such facility shall conform to the performance standards applicable to M1 Districts and occupy a #zoning lot# that either contains a minimum #lot area# of 40,000 square feet or comprises an entire #block#. No #residential use# is to be located anywhere on a #zoning lot# containing such a facility.

As a condition for granting a special permit, the Commission shall find that the scientific research and development facility:

- (a) will not unduly affect the essential character or impair the future use and development of the surrounding area;
- (b) will be located so as to draw a minimum of vehicular traffic to and through local #streets#;
- (c) provides fully enclosed storage space for all raw materials, finished products, by-products and waste materials including debris, refuse and garbage; and
- (d) that the modification of such height and setback regulations will not unduly obstruct the access of light and air to adjoining properties or public #streets#.

To minimize traffic congestion in the area, the Commission shall require the provision of off-street loading berths conforming to the requirements set forth in Section 36-62 (Required Accessory Off-Street Loading Berths) for #commercial uses#.

The Commission may also require the provision of #accessory# off-street parking facilities to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#. The size and location of such parking and loading facilities shall comply with the applicable provisions of Section 36-00.

All applications for the grant of a special permit pursuant to this Section shall be referred to the Commissioner of Health of the City of New York or its successor for a report and recommendations on matters relating to health, safety and general welfare of the public with regard to the proposed facility. If the report is received within 45 days from the date of referral, the Commission shall, in its determination, give due consideration to the report and its recommendations. If such agency does not report within 45 days, the Commission may make a final determination without reference thereto.

In order to promote and protect the public health, safety and general welfare, the City Planning Commission may impose additional conditions and safeguards and more restrictive performance

standards where necessary.

(2/2/11)

74-49

Residential Use in C4-1 Districts in Staten Island

In the Borough of Staten Island, in C4-1 Districts that occupy at least four acres within a #block# and in other C4-1 Districts for #zoning lots# that, had a #lot area# greater than 20,000 square feet on December 21, 2005, or on any subsequent date, the City Planning Commission may permit #residences#, provided such #residences# comply with the #bulk# regulations for R5 Districts as set forth in Article II, Chapter 3, or Article III, Chapter 5, as applicable.

In order to grant such permit, the Commission shall find that such #residences# are part of a superior site plan, such #residences# are compatible with the character of the surrounding area, and that the #streets# providing access to such #residences# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may prescribe appropriate safeguards and conditions to minimize the adverse effect of any #residences# permitted under this Section on the character of the surrounding area.

(12/15/61)

74-50

OFF-STREET PARKING ESTABLISHMENTS

(1/11/62)

74-51

Public Parking Garages or Public Parking Lots outside High Density Central Areas

(2/2/11)

74-511

In C1 Districts

In C1-1, C1-2, C1-3 or C1-4 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# with a capacity of not more than 100 spaces, provided that the regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street), 36-55 (Surfacing) and 36-56 (Screening) are met. The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) that such #use# has adequate reservoir space at the vehicular entrance to accommodate a minimum of 10 automobiles or 20 percent of the spaces so provided, whichever amount is less;
- (c) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and
- (d) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for the shielding of floodlights or for setback of any roof parking area from #lot lines#.

(5/8/13)

74-512

In other Districts

In C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C4-5D, C7, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# with more than 150 spaces, provided that the applicable regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street) or 44-43 (Location of

Access to the Street), Sections 36-55 or 44-44 (Surfacing) and Sections 36-56 or 44-45 (Screening) are met. The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level# to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) that the principal vehicular access for such #use# is located on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#, except that in C5 or C6 Districts such access may be located on a local #street#;
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (c) that such #use# has adequate reservoir space at the vehicular entrances to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;
- (d) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;
- (e) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and
- (f) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, except as provided in Section 13-06 (Previously Filed or Approved Special Permits or Authorizations).

(2/2/11)

74-513

In C7 Districts

In C7 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# of any capacity, provided that the applicable regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street), 36-55 (Surfacing) and 36-56 (Screening) are met. The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) that the principal vehicular access for such #use# is located on an arterial highway, or major #street#, or a secondary #street# within one-quarter mile or an arterial highway or major #street#;
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (c) that such #use# has adequate reservoir space at the vehicular entrances to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;
- (d) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;
- (e) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and
- (f) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

(5/8/13)

74-52

Parking Garages or Public Parking Lots in High Density Central Areas

In C1-5, C1-6, C1-7, C1-8 or C1-9 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# with a capacity of not more than 100 spaces, and in C2-5, C2-6, C2-7, C2-8, C4-5, C4-5A, C4-5X, C4-6, C4-7, C6, C8-4, M1-4, M1-5, M1-6, M2-3, M2-4 or M3-2 Districts, the Commission may permit #public parking garages# with any capacity or #public parking lots# with more than 150 spaces, and in C5 and C6-1A Districts, the Commission may permit #public parking garages# or #public parking lots# with any capacity, provided that the applicable regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street) or 44-43 (Location of Access to the Street), Sections 36-55 or 44-44 (Surfacing) and Sections 36-56 or 44-45 (Screening) are met.

The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) that such #use# will not be incompatible with, or adversely affect the growth and development of, #uses# comprising vital and essential functions in the general area within which such #use# is to be located;
- (b) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;
- (c) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (d) that such #use# has adequate reservoir space at the vehicular entrances to accommodate automobiles equivalent in number to 20 percent of the total number of spaces up to 50 and five percent of any spaces in excess of 200, but in no event shall such reservoir space be required for more than 50 automobiles;
- (e) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

- (f) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and
- (g) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, except as provided in Section 13-06 (Previously Filed or Approved Special Permits or Authorizations).

(5/8/13)

74-53

Accessory Group Parking Facilities for Uses in Large-Scale Residential Developments or Large-Scale Community Facility Developments or Large-Scale General Developments

The City Planning Commission may permit #group parking facilities accessory# to #uses# in #large-scale residential developments# or #large-scale community facility developments# or #large-scale general developments# with more than the prescribed maximum number of parking spaces set forth in Sections 25-12, 36-12 and 44-12 (Maximum Size of Accessory Group Parking Facilities) or may permit modifications of the applicable provisions of Sections 25-11, 36-11 and 44-11 (General Provisions) so as to permit off-street parking spaces #accessory# to such #uses# to be located on the roof of a #building#.

As a condition of permitting such exceptions or modifications, the Commission shall make the following findings:

- (a) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;
- (b) that such #use# has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent

of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;

- (c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby; and
- (d) that where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, or to the #Long Island City area#, as defined in Section 16-02 (Definitions), where the regulations set forth in Article I, Chapter 6, shall apply.

(10/9/69)

74-54

Rear Yard Modifications

In C4, C6, C7, C8, M1, M2 or M3 Districts, for #public parking garages# with more than 150 spaces, the City Planning Commission may permit modifications of the applicable regulations in Sections 33-26 to 33-30, inclusive, and Sections 43-26 to 43-31, inclusive, relative to #rear yard# regulations, provided the following findings are made:

- (a) that the #public parking garage# will alleviate excessive on-street parking demand and thereby relieve traffic congestion in the area; and
- (b) that because of site limitations such modification is necessary for the proper design and operation of the #public parking garage#.

The Commission shall consider the characteristics of surrounding development and may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of adjacent areas.

(2/2/11)

74-55

Off-street Parking Requirement for Youth-oriented or Senior Citizen-oriented Community Centers and Non-profit Neighborhood Settlement Houses

In C1-2 and C2-2 Districts, for youth-oriented or senior citizen-oriented community centers and non-profit neighborhood settlement houses, the City Planning Commission may permit modifications of the parking requirement of Section 36-21, provided the following findings are made:

- (a) that, because of site limitations, such a reduction is necessary for the proper design and operation of such community centers and non-profit neighborhood settlement houses; and
- (b) that available off-site parking and mass transit facilities are adequate to satisfy the additional parking demand generated by such #community facility#.

(2/2/11)

74-56

Open Automobile Rental Establishments

In C2 Districts within a one-half mile radius of the main entrance of La Guardia Airport, located at the intersection of Grand Central Parkway and the 94th Street Bridge, the City Planning Commission may permit open automobile rental establishments on #zoning lots# having a frontage of at least 200 feet on Ditmars Boulevard, provided that the following findings are made:

- (a) that such open #use# will not be incompatible with, or adversely affect the growth and development of, appropriate #uses# in the general area within which such open #use# is to be located;
- (b) that such open #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;
- (c) that such open #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

- (d) that such open #use# has adequate reservoir space at the vehicular entrances to accommodate either ten automobiles or five percent of the total parking spaces provided by the open #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than fifty automobiles;
- (e) that the #streets# providing access to such open #use# will be adequate to handle the traffic generated thereby;
- (f) that acoustic barriers be installed around the parking areas to minimize noise impacts on surrounding properties;
- (g) that visual barriers be installed and properly maintained to screen the parking area from surrounding properties; and
- (h) that #accessory# automotive repairs, maintenance and car washing are within an enclosed #building#.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, requirements for shielding of floodlights and for locations of entrances and exits.

(12/15/61)

74-60

PUBLIC SERVICE OR TRANSPORTATION FACILITIES

(9/10/07)

74-61

Public Transit, Railroad or Electric Utility Substations

In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the City Planning Commission may permit electric utility substations (including transformers, switches, or auxiliary apparatus) or public transit or railroad electric substations, limited in each case to a site of not less than 40,000 square feet nor more than 10 acres, provided that the following findings are made:

- (a) that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;
- (b) that the site for such #use# is so located as to minimize the adverse effects on the integrity of existing and future

development;

- (c) that the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and
- (d) that such #use# will conform to the performance standards applicable to M1 Districts.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing of electric substations, for the construction of fences, barriers, or other safety devices, for surfacing of all access roads and driveways, for shielding of floodlights or other artificial illumination, or for landscaping or screening.

(2/2/11)

74-62

Railroad Passenger Stations

- (a) Except as provided in paragraph (b) of this Section, the City Planning Commission may permit the construction of railroad passenger stations in all districts, provided that the following findings are made:
 - (1) that the principal access for such #use# is not located on a local #street#;
 - (2) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas; and
 - (3) that vehicular entrances and exits for such #use# are provided separately and are located not less than 50 feet apart.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights or surfacing of access roads or driveways.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required spaces in accordance with the purposes

established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, not less than 20 spaces for the temporary parking of automobiles, and three spaces for buses.

- (b) In Community Districts 4 and 5 in the Borough of Manhattan, the City Planning Commission may permit the construction of railroad passenger stations and ventilation facilities or other facilities or services used or required in connection with such railroad passenger station or in connection with an underground railroad right-of-way that provides access to such railroad passenger station, and may permit waivers of applicable #bulk# regulations, other than #floor area ratio#, in connection with such ventilation facilities, or other facilities or services, provided that the following findings are made:

- (1) that the principal access for such railroad passenger station is not located on a local #street#;
- (2) that such railroad passenger station is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;
- (3) that any vehicular entrances and exits for such railroad passenger station are provided separately and are located not less than 50 feet apart;
- (4) that the locations of at-grade entrances to such railroad passenger station are well situated in relation to existing at-grade pedestrian circulation patterns;
- (5) that any below-grade pedestrian circulation elements provided in connection with the railroad passenger station are well integrated with any existing or planned below-grade pedestrian circulation networks providing connections to and from other transportation facilities; and
- (6) for ventilation facilities or other facilities or services used or required in connection with a railroad passenger station or in connection with an underground railroad right-of-way that provides access to a railroad passenger station, that:
 - (i) any #bulk# modifications are the minimum necessary for the proper operation of the facility; and
 - (ii) the design of the facility will blend harmoniously with the surrounding area or that a process has been

created with the purpose of ensuring that the future design of the facility takes into account existing conditions and anticipated development in the surrounding area.

Railroad passenger station entrances provided pursuant to paragraph (b)(4) of this Section and railroad passenger station emergency access stairs, located within #publicly accessible open areas# of #zoning lots# subject to the provisions of Section 81-542 (Retention of floor area bonus for plazas or other public spaces), shall be permitted obstructions within such #publicly accessible open areas#, provided that the Commission finds that any encroachment within such #publicly accessible open areas# by such entrances or emergency access stairs will facilitate improved pedestrian circulation to, from and within the proposed railroad passenger station.

The special permit shall provide that such #publicly accessible open area# shall be designed and improved in connection with the installation of entrances or railroad passenger station emergency access stairs pursuant to a site plan accepted by the Chairperson of the City Planning Commission. The proposed site plan shall be referred to the affected Community Board, City Council Member and Borough President. Included with the site plan shall be a report to the Chairperson demonstrating that any comments and recommendations of the affected Community Board, City Council Member and Borough President have been considered, as set forth in a written response to such comments or recommendations. Where design modifications have been made in response to such comments and recommendations, the report shall identify how the design has been modified. The Chairperson shall not accept such site plan prior to 60 days after such referral. A #publicly accessible open area# improved pursuant to an accepted site plan shall be deemed to be certified pursuant to Section 37-625 (Design changes) and the standards set forth therein. Subsequent modifications of the site plan for such #publicly accessible open area#, including modifications involving the co-location of transportation facility entrances, shall be subject to this paragraph. An application to modify the site plan to facilitate the co-location of railroad passenger station entrances may be filed by the transportation agency seeking to co-locate a transportation facility entrance in the #publicly accessible open area# or by the property owner. Such application shall include evidence of consultation with any transportation agency with existing or planned facilities located in the #publicly accessible open area#. The modified site plan shall also be referred to such transportation agency

by the Chairperson for comment.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize pedestrian and vehicular congestion and to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, surfacing of access roads or driveways, mitigation of pedestrian impacts, signage requirements, or screening or placement of the facilities or services permitted pursuant to paragraph (b) of this Section.

(12/15/61)

74-63

Bus Stations

(2/2/11)

74-631

New bus stations with 10 or more berths

In C4, C6 or #Manufacturing Districts#, the City Planning Commission may permit the construction of a bus station with 10 or more berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

- (a) that the use of the premises as a bus station will not create serious traffic congestion, will not be detrimental to public health or general welfare, and is consistent with the master plan of the city;
- (b) that the principal access for such #use# is not located on a local #street# but is located either on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#;
- (c) that such #use# is not located within 200 feet of a #Residence District#, or is otherwise separated from nearby residential areas by topographical or physical conditions of the land;
- (d) that vehicular entrances and exits for such facility are provided separately and are located not less than 100 feet apart; and
- (e) that access to such #use# is located on a #street# not less than 60 feet in width.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The City Planning Commission shall require, in any event, no less than 20 spaces for the temporary parking of automobiles.

(12/15/61)

74-632

New bus stations with fewer than 10 berths

In C1, C2, C4, C6, C7 or C8 Districts, or in any #Manufacturing District#, the City Planning Commission may permit bus stations with fewer than 10 berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

- (a) that the use of the premises as a bus station will not create serious traffic congestion, will not be detrimental to public health or general welfare, and is consistent with the master plan of the City;
- (b) that the principal access of such #use# is not located on a local #street#;
- (c) that vehicular entrances and exits for such facility are provided separately and are located not less than 50 feet apart; and
- (d) that access to such #use# is located on a #street# not less than 60 feet in width.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required

spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, not less than 10 spaces for the temporary parking of automobiles.

(12/15/61)

74-633

Existing bus stations

All bus stations lawfully existing on December 15, 1961 are permitted to continue for the duration of the term for which such #use# has been authorized but the #enlargement#, #extension#, reconstruction or relocation of any bus station heretofore or hereafter constructed shall not be permitted except in accordance with the provisions set forth in Sections 74-631 or 74-632.

(2/2/11)

74-634

Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan

The City Planning Commission may grant, by special permit, a #floor area# bonus not to exceed 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations, and may waive or modify the provisions of Article III, Chapter 7 (Special Regulations), and the #street wall# continuity provisions of Sections 81-43 (Street Wall Continuity Along Designated Streets), 91-31 (Street Wall Regulations) or 101-41 (Special Street Wall Location Regulations) for #developments# or #enlargements# located on #zoning lots# where major improvements to adjacent subway stations are provided in accordance with the provisions of this Section. For the purposes of this Section, "adjacent" shall mean that upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway. Subway stations where such improvements may be constructed are those stations located within the #Special Midtown District# as listed in Section 81-292 (Subway station improvements), the #Special Lower Manhattan District# as listed in Section 91-43 (Special Permit for Subway Station Improvements), the #Special Downtown Brooklyn District# as listed in Section 101-211 (Special permit for subway station improvements), the #Special Union Square District# as listed in Section 118-60 and those stations listed in the following table:

Station	Line
8th Street	Broadway-60th Street
23rd Street	Broadway-60th Street
23rd Street	Lexington Avenue
28th Street	Lexington Avenue
33rd Street	Lexington Avenue
34th Street-Penn Station	8th Avenue
59th Street/Lexington Avenue (60th St)	Lexington Avenue and Broadway-60th Street

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(a) Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b) Requirements for application

An application for a special permit pursuant to this Section shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

- (1) evaluate the benefits to the City;
- (2) determine the appropriate amount of bonus #floor area#; and
- (3) where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

- (1) Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.
- (2) Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict Core.

(d) Findings

- (1) In determining the amount of #floor area# bonus, the City Planning Commission shall consider the degree to which:
 - (i) the general accessibility and security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and
 - (ii) significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement# will occur.
- (2) In determining modifications to the requirements of Article III, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.
- (3) In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District#, Section 91-31 (Street Wall Regulations) in the #Special Lower Manhattan District# or Section 101-41 in the #Special Downtown Brooklyn District#, the Commission shall find that the modification will permit the proposed design to provide

for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(e) Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

- (1) a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasible; and
- (2) a legally enforceable instrument running with the land and signed by the applicant and all parties in interest, other than parties in interest who have waived and subordinated their interests, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide capital maintenance for the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the public.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue

such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

(12/15/61)

74-64

Trucking Terminals or Motor Freight Stations

In C8 Districts, the City Planning Commission may permit trucking terminals or motor freight stations with sites in excess of 20,000 square feet, provided that the following findings are made:

- (a) that the principal access for such #use# is not on a local #street# but is located within one-quarter mile of a secondary or major #street#;
- (b) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart;
- (c) that such #use# is not located within 200 feet of a #Residence District# boundary; and
- (d) that access to such #use# is located on a #street# not less than 60 feet in width.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, screening, and surfacing all access roads or driveways.

(12/15/61)

74-65

Airports

In all #Manufacturing Districts#, the City Planning Commission may permit the construction, reconstruction, or #enlargement# of airports and their facilities, in any case where the applicant has submitted a site plan showing the location and dimensions of all

runways, in addition to all other information required in Section 74-20 (REQUIREMENTS FOR APPLICATION), provided that the following findings are made:

- (a) that the airport is an appropriate #use# of the land and will not unduly interfere with surrounding land #uses#; and
- (b) that due consideration has been given to the selection of a site situated near or adjacent to large parks or other open areas, or bodies of water.

The Commission shall refer the application to the Federal Aeronautics Administration, for the report of such agency as to whether such airport is either an integral part of, or will not interfere with, the general plan of airports for New York City and the surrounding metropolitan region; and whether a new, reoriented, or lengthened runway will interfere with the flight pattern of any nearby airport.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and in the event that the application is granted, the Commission may adopt a resolution to amend the #zoning maps# so that for a depth of at least one-quarter mile around the entire perimeter of the airport, any adjacent #Residence District# shall be mapped as an R1, R2, or R3 District, and any adjacent #Commercial# or #Manufacturing District# shall be mapped as a C1, C2, C3, C4-1, C7, C8-1, C8-2, M1-1, M1-2, M1-4, M2-1, M2-3 or M3 District.

The City Planning Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities.

(7/23/64)

74-66

Heliports

In C3, C4, C5, C6, C7 or C8 Districts or in any #Manufacturing District#, the City Planning Commission may permit the construction, reconstruction, or #enlargement# of heliports and their facilities where the applicant has submitted a site plan showing the location of landing areas, in addition to all other

information required in Section 74-20 (REQUIREMENTS FOR APPLICATIONS), provided that the following findings are made:

- (a) that the heliport is an appropriate #use# of the land and will not unduly interfere with surrounding land #uses#; and
- (b) that due consideration has been given to the selection of a site situated near or adjacent to large parks or other open areas, or bodies of water.

The Commission shall refer the application to the Federal Aeronautics Administration for the report of such agency as to whether the heliport is either an integral part of, or will not interfere with, the general plan of airports for New York City and the surrounding metropolitan region.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

The City Planning Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in the Resolution with respect to other major traffic-generating facilities.

(2/2/11)

74-67

Fire or Police Stations

In all #Residence Districts#, the City Planning Commission may permit fire or police stations, provided that the following findings are made:

- (a) that such #use# will serve the residential area within which it is provided to be located; that there are serious difficulties in locating it in a district wherein it is permitted as-of-right and from which it could serve the residential area, which make it necessary to locate such #use# within a #Residence District#; and
- (b) in the case of fire stations, that such #use# is so located as to minimize the movement of fire apparatus through local #streets# in residential areas.

For any such #use#, the Commission may permit appropriate modifications of the applicable regulations of Article II, Chapter 3, provided that such #use# complies with all the applicable district #bulk# regulations for #community facility buildings# as set forth in Article II, Chapter 4.

The City Planning Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements for landscaping.

(2/22/90)

74-68

Development Within or Over a Right-of-Way or Yards

(7/26/01)

74-681

Development within or over a railroad or transit right-of-way or yard

- (a) In all districts, when a #development# or #enlargement#, including large-scale developments pursuant to Section 74-74, 78-00 et seq. or 79-00 et seq. is located partially or entirely within a railroad or transit right-of-way or yard and/or in #railroad or transit air space#, the City Planning Commission may permit:
 - (1) that portion of the railroad or transit right-of-way or yard which will be completely covered over by a permanent platform to be included in the #lot area# for such #development# or #enlargement#;
 - (2) any portion of the right-of-way or yard where railroad or transit #use# has been permanently discontinued or terminated to be included in the #lot area# for such #development# or #enlargement#;
 - (3) notwithstanding the applicable district regulations, certain #uses# may be located beneath a portion of a permanent platform, including a platform street as follows:
 - (i) any #use accessory# to a primary #use# located on the #zoning lot#;

- (ii) a #public parking garage# or #public parking lot# provided the findings set forth in Section 74-52 and hereby made applicable, are met for such garage or lot;
- (iii) a railroad passenger station (pursuant to Section 74-62) or a railroad including right-of-way, freight terminal, yard or appurtenance, or a facility or service used or required in railroad operations;
- (iv) a public transit yard, vehicle storage, warehouse, trucking terminal or motor freight station (without limitation on #lot area# per establishment).

(b) As a condition for granting a special permit, the Commission shall find that:

- (1) the #streets# providing access to all #uses# pursuant to paragraph (a) of this Section are adequate to handle traffic resulting therefrom;
- (2) the distribution of #floor area# and the number of #dwelling units# or #rooming units# does not adversely affect the character of the surrounding area by being unduly concentrated in any portion of such #development# or #enlargement#, including any portion of the #development# or #enlargement# located beyond the boundaries of such railroad or transit right-of-way or yard;
- (3) all #uses#, #developments# or #enlargements# located on the #zoning lot# or below a platform do not adversely affect one another;
- (4) if such railroad or transit right-of-way or yard is deemed appropriate for future transportation #use#, the site plan and structural design of the #development# do not preclude future use of, or improvements to, the right-of-way for such transportation #use#.

(c) For any #development# or #enlargement# located within or over railroad or transit right-of-way or yard:

- (1) the application to be filed with the Commission for special permit approval pursuant to this Section shall include a site plan showing:
 - (i) the total #lot area# of that portion of a railroad or transit right-of-way or yard to be covered by a

platform; and/or

- (ii) the total #lot area# of such right-of-way or yard that has been permanently discontinued or terminated;
- (2) ownership of rights to #develop# in #railroad or transit air space# or within a railroad or transit right-of-way or yard where such #use# has been permanently discontinued or terminated, shall meet the requirements of the #zoning lot# definition in Section 12-10 (DEFINITIONS);
- (3) where the railroad or transit right-of-way or yard is to be covered over by a permanent platform, such platform shall be unperforated except for such suitably protected openings as may be required for utilities, ventilation, drainage or other necessary purposes;
- (4) the Commission may establish an appropriate level or levels instead of #curb level# as the reference plane for the applicable regulations pertaining to, but not limited to, height and setback, #floor area#, #lot coverage#, #open space#, #yards#, and minimum distance between #buildings#;
- (5) the Commission may permit #buildings# to be connected by a bridge or tunnel, within a portion of a #street#, provided that the street volume occupied by such bridge or tunnel is not mapped and owned by the City, and provided that such structure is used exclusively for pedestrian or vehicular circulation; however, in no event shall such a bridge or tunnel be considered as #lot area# or generate any #floor area#; and in the case of a bridge, the Commission shall find that such bridge will:
 - (i) provide adequate vertical clearance at all points measured from #curb level# to the soffit;
 - (ii) not rest upon columns or other supports that intrude upon the #street#;
 - (iii) provide illumination of at least five foot candles at the #curb level# for the #street# area beneath the bridge;
 - (iv) not unduly obstruct any significant scenic view; and
 - (v) provide adequate light and air to the #street# or

surrounding public spaces or #streets#.

In the case of a tunnel, the Commission may permit #buildings# to be connected by a tunnel under a #street#, provided the Commission finds that the tunnel is used exclusively for vehicular circulation and is necessary to achieve improved vehicle circulation within the #development# and on adjoining #streets#.

- (d) The Commission shall require the provision of adequate #accessory# off-street parking spaces and loading berths necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by any #use# permitted on the #zoning lot#, and shall determine the required number of parking spaces and loading berths in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and may require where the #development# or #enlargement# includes an active railroad or transit #use#, that the structural design of such #development# or #enlargement# make due allowance for changes within the layout of tracks or other structures within such #railroad or transit air space# or railroad or transit right-of-way or yard which may be deemed necessary in connection with future development or improvement of the transportation system.

Prior to granting a special permit, the City Planning Commission shall request the Metropolitan Transportation Authority and the Departments of Transportation of the State of New York and the City of New York to indicate within 30 days whether said agencies have any plan to use that portion of the #railroad or transit air space# or railroad or transit right-of-way or yard where the railroad or transit #use# has been permanently discontinued or terminated.

(10/7/08)

74-682

Developments over streets

In R9 or R10 Districts when the air space above a #street# or portion thereof is closed, demapped and conveyed by the City to the owner of an adjoining #zoning lot# owned by a non-profit institution pursuant to State-enabling legislation enacted in 1971, the City Planning Commission may, by special permit, allow in such demapped air-space, the #development# or #enlargement# of #buildings# which are an expansion of an existing hospital,

college, university or functionally-related facility. In connection therewith, the Commission may also permit modification of off-street loading and #bulk# regulations, except #floor area ratio# regulations, under the applicable district regulation, provided that the requirements set forth in the 1973 Agreement among the City of New York, the Society of the New York Hospital, and the New York Society for the Relief of the Ruptured and Crippled, maintaining the Hospital for Special Surgery and the Rockefeller University are met; and that such demapped air space shall be considered as part of the adjoining #zoning lot#, except that any #building# located in demapped air space shall utilize only unused #floor area# from the portion of the adjoining #zoning lot# not within the demapped air space.

In order to grant such special permit, the Commission shall find:

- (a) for #development# or #enlargements# in such demapped air space and for modification of #bulk# regulations, that the location and distribution of new #bulk# shall result in a good site plan in relation to the existing #buildings# on-site and in the area; and
- (b) for modification of off-street loading requirements, when such non-profit institution includes more than one #building# on two or more #zoning lots#, the City Planning Commission may determine the required number of loading berths as if such non-profit institution were located on a single #zoning lot#, and may permit such loading berths to be located anywhere within such institution without regard for #zoning lot lines#, provided that such loading berths shall be:
 - (1) adequate to serve the requirements of the institution;
 - (2) accessible to all the #uses# in such institution without the need to cross any #street# at grade; and
 - (3) located so as not to adversely affect the movement of pedestrians or vehicles on the #streets# within or surrounding such institution.

The #curb level# of a #zoning lot# of which the demapped air space is a part shall not be affected by the closing and demapping of air space above such #street#. However, the Commission may establish an appropriate level or levels instead of #curb level# as the reference plane for the applicable regulations relating to #open space#, #yards#, level of #yards#, equivalent #rear yards#, #rear yard# setback, minimum distance between #buildings#, and the front height and setback.

The Commission may impose additional conditions and safeguards,

consistent with the requirements set forth in the 1973 Agreement, to improve the quality of the #development# and minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-69

Seaplane Bases

In all districts, the City Planning Commission may permit seaplane bases provided that the following findings are made:

- (a) that such #use# and the take-off and landing operations it serves are so located as not to impair the essential character or future #use# or #development# of the surrounding area; and
- (b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas.

The Commission shall refer the application to the Federal Aviation Administration for the report of such agency as to whether the seaplane base is either an integral part of, or will not interfere with, the general plan of airports for New York City and the surrounding metropolitan region.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

The City Planning Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution.

(2/2/11)

74-70

NON-PROFIT HOSPITAL STAFF DWELLINGS

In all #Residence Districts#, or in C1, C2, C3, C4, C5, C6 or C7 Districts, the City Planning Commission may permit #non-profit hospital staff dwellings# located on a #zoning lot#, no portion of which is located more than 1,500 feet from the non-profit or

voluntary hospital and related facilities, provided that the following findings are made:

- (a) that the #bulk# of such #non-profit hospital staff dwelling# and the density of population housed on the site will not impair the essential character or the future use or development of the surrounding area; and
- (b) that the number of #accessory# off-street parking spaces provided for such #use# will be sufficient to prevent undue congestion of #streets# by such #use#.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(10/21/76)

74-71

Landmark Preservation

(2/2/11)

74-711

Landmark preservation in all districts

In all districts, for #zoning lots# containing a landmark designated by the Landmarks Preservation Commission, or for #zoning lots# with existing #buildings# located within Historic Districts designated by the Landmarks Preservation Commission, the City Planning Commission may permit modification of the #use# and #bulk# regulations, except #floor area ratio# regulations, provided that:

- (a) The following conditions are met:
 - (1) any application pursuant to this Section shall include a report from the Landmarks Preservation Commission stating that a program has been established for continuing maintenance that will result in the preservation of the subject #building# or #buildings#, and that such #use# or #bulk# modifications, or restorative work required under the continuing maintenance program, contributes to a preservation purpose;
 - (2) any application pursuant to this Section shall include a Certificate of Appropriateness, other permit, or report

from the Landmarks Preservation Commission stating that such #bulk# modifications relate harmoniously to the subject landmark #building# or #buildings# in the Historic District, as applicable; and

- (3) the maximum number of #dwelling units# shall be as set forth in Section 15-111 (Number of permitted dwelling units).

(b) In order to grant a special permit, the City Planning Commission shall find that:

- (1) such #bulk# modifications shall have minimal adverse effects on the structures or #open space# in the vicinity in terms of scale, location and access to light and air; and
- (2) such #use# modifications shall have minimal adverse effects on the conforming #uses# within the #building# and in the surrounding area.

The City Planning Commission may prescribe appropriate additional conditions and safeguards which will enhance the character of the #development# and #buildings# on the #zoning lot#.

(2/4/14)

74-712

Developments in Historic Districts

Within Historic Districts designated by the Landmarks Preservation Commission, the City Planning Commission may grant a special permit, in accordance with the following provisions:

- (a) In M1-5A and M1-5B Districts, on a #zoning lot# that, as of December 15, 2003, is vacant, is #land with minor improvements#, has not more than 20 percent of the #lot area# occupied by existing #buildings#, or has #street# frontages on two or more #wide streets# and not more than 40 percent of the #lot area# occupied by existing #buildings#, the Commission may modify #use# regulations to permit #residential development# and, below the floor level of the second #story# of any #development#, #uses# permitted under Section 32-15 (Use Group 6), provided:
 - (1) the #use# modifications shall meet the following conditions, that:

- (i) #residential development# complies with the requirements of Sections 23-47 (Minimum Required Rear Yards) and 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) pertaining to R8 Districts;
 - (ii) total #floor area ratio# on the #zoning lot# shall be limited to 5.0;
 - (iii) the minimum #floor area# of each #dwelling unit# permitted by this Section shall be 1,200 square feet;
 - (iv) all #signs# for #residential# or #commercial uses# permitted by this Section shall conform to the applicable regulations of Section 32-60 (SIGN REGULATIONS) pertaining to C2 Districts; and
 - (v) eating and drinking establishments of any size, as set forth in Use Groups 6A and 12A, are not permitted; and
- (2) the Commission shall find that such #use# modifications:
- (i) have minimal adverse effects on the conforming #uses# in the surrounding area;
 - (ii) are compatible with the character of the surrounding area; and
 - (iii) for modifications that permit #residential use#, result in a #development# that is compatible with the scale of the surrounding area.

- (b) In all districts, the Commission may modify #bulk# regulations, except #floor area ratio# regulations, for any #development# on a #zoning lot# that is vacant or is #land with minor improvements#, and in M1-5A and M1-5B Districts, the Commission may make such modifications for #zoning lots# where not more than 20 percent of the #lot area# is occupied by existing #buildings# as of December 15, 2003, provided the Commission finds that such #bulk# modifications comply with the findings set forth below.

In addition, in M1-5A and M1-5B Districts, the Commission may also modify #bulk# regulations, except #floor area ratio# regulations, for #development# on a #zoning lot# that has #street# frontages on two or more #wide streets# and that, as of December 15, 2003, has more than 20 percent but not more than 40 percent of the #lot area# occupied by existing

#buildings#, provided the #development# contains no #residences# and the Commission finds that such #bulk# modifications:

- (1) shall not adversely affect structures or #open space# in the vicinity in terms of scale, location and access to light and air; and
- (2) relate harmoniously to #buildings# in the Historic District as evidenced by a Certificate of Appropriateness or other permit from the Landmarks Preservation Commission.

The City Planning Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# and to minimize adverse effects on the character of the surrounding area.

(12/17/81)

74-72

Bulk Modification

(2/2/11)

74-721

Height and setback and yard regulations

- (a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

- (1) provide a better distribution of #bulk# on the #zoning lot#;
- (2) result in a better relationship of the #building# to open

areas, adjacent #streets# and surrounding development;
and

- (3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties.

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width.

- (b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by commercial uses) for #developments# or #enlargements# on #zoning lots# occupying an entire #block# with a base #commercial floor area ratio# of 10.0, provided the following conditions are met:

- (1) that the non-#residential uses# are located in a portion of a #mixed building# that has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#;
and
- (2) that the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

- (c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, that occupies an entire #block# front on a #wide street#, subject to the following conditions:

- (1) where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:
 - (i) 55 percent of the area of such #zoning lot#; or
 - (ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots#

with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments;

- (2) that the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and includes skylights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development# or #enlargement#, or a transit station improvement that results in a direct major connection to a subway station.
- (3) In lieu of condition (c)(2), the #development# or #enlargement# may provide, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this paragraph, (c)(3), the term "adjoining block" shall mean a #block# that is contiguous to the #block# containing the #development# or #enlargement# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development# or #enlargement#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-70 (PUBLIC PLAZAS). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments# or #enlargements#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor

#commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as a #public plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #buildings# containing #residences# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

- (i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;
- (ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;
- (iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the #development# or #enlargement# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and
- (iv) that the #development# or #enlargement# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

- (4) As a further condition for the issuance of a permit under

this paragraph, (c), the owner of the #zoning lot# upon which #developments# or #enlargements# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and ensure that all #floor area# which is to be vacant in the #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (c), that the #development# or #enlargement#:

- (i) shall result in improved circulation; and
- (ii) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of #development# or #enlargement# and other improvements on the #zoning lot#.

In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

- (d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares a #lot line# with a landmark #building# site for an aggregate distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of

which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

- (1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and
- (2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

(7/23/70)

74-73

Sewage Disposal Plants and Pumping Stations

(2/2/11)

74-731

Private sewage disposal plants

In all #Residence Districts#, #Commercial Districts# and M1 and M2 Districts, the Commission may permit sewage disposal plants provided that such #use# will serve the commercial or residential area within which, or adjacent to which, it is to be located; that in the case of a residential area, such area contains more than 50 #dwelling units#; and that there are serious difficulties in locating it in a district where it is permitted as-of-right from which it could serve the residential area or commercial area. In addition, the Commission shall refer such application to the

Department of Health and the Department of Environmental Protection for a report.

The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices, and landscaping.

(2/2/11)

74-732

Private sewage pumping stations and sewage disposal plants

In all #Residence Districts#, the Commission may permit sanitary or storm water sewage pumping stations and sewage disposal plants, provided that such use will serve a #development# which contains more than 15 #dwelling units#; and that there are serious difficulties in locating it in a district where it is permitted as-of-right from which it could serve the residential area. In addition, the Commissioner shall refer such application to the Department of Health and the Department of Environmental Resources for a report. The Commission may review the scope and impact of the proposal on public facilities and may, in addition, prescribe appropriate conditions or safeguards without dictating the architectural design of individual #buildings# in order to minimize adverse effects on the surrounding area.

As a condition of granting a special permit for a sewage pumping station or a sewage disposal plant, the Commission shall find:

- (a) in the case of sewage pumping stations, the sewers and treatment plants to which the flow is to be pumped will be adequate to accommodate anticipated future development in the area to be served by these facilities;
- (b) in the case of sewage disposal plants serving a residential area, the related #development# is arranged in such a way as best to serve active and passive recreation needs; protect and preserve scenic assets and natural features such as trees, streams and topographic features; and provide suitable variations in the siting of #buildings# to achieve these objectives; and
- (c) in the case of sewage disposal plants, the proposed plant will be adequate for anticipated development in the area to be served; or

- (d) in all cases, the proposal promotes and protects the public health, safety and general welfare.

(2/2/11)

74-733

Municipal sewage disposal plants

In all #Residence Districts#, #Commercial Districts# and M1 and M2 Districts, the Commission may permit municipal sewage disposal plants, provided that there are serious difficulties in locating it in a district where it is permitted as-of-right. The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices, and landscaping.

As a condition of granting a special permit for a municipal sewage disposal plant, the Commission shall find:

- (a) the proposed plant will be adequate for anticipated development in the area to be served; and
- (b) that the proposal promotes and protects the public health, safety and general welfare.

(2/2/11)

74-734

Municipal sewage pumping stations

In all #Residence Districts#, the Commission may permit municipal sewage pumping stations provided that there are serious difficulties in locating it in a district where it is permitted as-of-right. The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices, and landscaping.

As a condition of granting a special permit for a municipal sewage pumping station, the Commission shall find:

- (a) that the proposal promotes and protects the public health, safety and general welfare; and

- (b) the sewers and treatment plants to which the flow is to be pumped will be adequate to accommodate anticipated future development in the area to be served by these facilities.

(2/2/11)

74-74

Large-Scale General Development

For #large-scale general developments# involving several #zoning lots# but planned as a unit, the district regulations may impose unnecessary rigidities and thereby prevent achievement of the best possible site plan within the overall density and #bulk# controls. The regulations of this Section are designed to allow greater flexibility for the purpose of securing better site planning, while safeguarding the present or future use and development of the surrounding area.

No portion of a #large-scale general development# shall contain:

- (a) any #use# not permitted by the applicable district regulations for such portion, except as otherwise provided in Section 74-744 (Modification of use regulations). When an existing #building# in a #large-scale general development# is occupied by a #non-conforming use#, any #enlargement# of such existing #building# shall be subject to the requirements set forth in Section 52-00 (NON-CONFORMING USES: DEFINITIONS AND GENERAL PROVISIONS);
- (b) any #zoning lot#, or portion thereof, that is part of a #large-scale residential development# or #large-scale community facility development#.

(8/13/15)

74-741

Requirements for application

An application to the City Planning Commission for the grant of a special permit pursuant to Section 74-74 for a #large-scale general development# shall include a site plan showing the boundaries of the #large-scale general development# and the proposed location and #use# of all #buildings or other structures# on each #zoning lot# comprising the #large-scale general development#.

However, for applications proceeding pursuant to the ownership provisions of paragraph (e) of Section 74-742, such site plan need only show the applicable portion of the #large-scale general development# as set forth in paragraph (e)(1) or (e)(2) of Section 74-742.

(8/13/15)

74-742

Ownership

Except as otherwise provided in this Section, any #large-scale general development# for which application is made for a special permit in accordance with the provisions of Section 74-74 (Large-Scale General Development) shall be on a tract of land which at the time of application is all under the control of the applicant(s) as the owner(s) or holder(s) of a written option to purchase. No special permit shall be granted unless the applicant(s) acquired actual ownership (single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10 (DEFINITIONS) for all #zoning lots# comprising the #large-scale general development#) of, or executed a binding sales contract for, all of the property comprising such tract.

When a #large-scale general development# is located within a designated urban renewal area, the City's urban renewal agency, or a person authorized by such agency, may apply for and be granted a special permit under the provisions of Section 74-74 even though such #large-scale general development# does not meet the ownership requirements set forth elsewhere in this Section. All parcels comprising such #large-scale general development# shall be within the designated urban renewal area and subject to the urban renewal controls set forth in the approved urban renewal plan.

A special permit may be applied for and granted under the provisions of Section 74-74, even though such #large-scale general development# does not meet the ownership requirements set forth elsewhere in this Section, when the site of such #large-scale general development# is:

- (a) to be #developed# or #enlarged# through assemblage by any other governmental agency, or its agent, having the power of condemnation; or
- (b) owned by the Federal government and is within Brooklyn Community District 2; or

- (c) partially under City ownership, within the former Washington Square Southeast Urban Renewal Area, within Community District 2 in the Borough of Manhattan, provided that the exception to the ownership requirements set forth herein shall apply only to tracts of land in City ownership; or
- (d) partially under State or City ownership, or may include a tract of land under private ownership that is located within the bed of 26th Avenue between 1st Street and the bulkhead line within the Halletts Point Peninsula, in the area bounded by 8th Street and Vernon Boulevard on the east, the East River on the west and south, and the north side of 26th Avenue on the north, in Community District 1 in the Borough of Queens, provided that the exception to the ownership requirements set forth herein shall apply only to:
 - (1) tracts of land in State or City ownership; or
 - (2) a tract of land in private ownership located within the bed of 26th Avenue, between 1st Street and the #bulkhead# line; or
- (e) within Manhattan Community District 2, where the Commission has approved a special permit under Section 74-74 for a #large-scale general development# located partially within a C2-7 District, and a portion of such #large-scale general development# is subsequently mapped as a park and transferred to City ownership, then the consent or authorization of any owner or party in interest to:
 - (1) such #public park# shall not be required for any application for a modification to the special permit or associated restrictive declaration relating only to property within the #large-scale general development# other than the #public park#; and
 - (2) property other than the #public park# shall not be required for any application for a modification to the special permit or associated restrictive declaration relating only to the #public park#.

However, the consent or authorization of the owners and any party in interest to the other property shall be required if the proposed modification would impose an additional obligation or increase the degree of an obligation existing as of the date of the application for the modification on any such owner or any such party in interest.

(8/13/15)

74-743

Special provisions for bulk modification

- (a) For a #large-scale general development#, the City Planning Commission may permit:
- (1) distribution of total allowable #floor area#, #rooming units#, #dwelling units#, #lot coverage# and total required #open space# under the applicable district regulations within a #large-scale general development# without regard for #zoning lot lines# or district boundaries, subject to the following limitations:
 - (i) no distribution of #bulk# across the boundary of two districts shall be permitted for a #use# utilizing such #bulk# unless such #use# is permitted in both districts;
 - (ii) when a #large-scale general development# is located partially in a #Residence District# or in a C1, C2, C3 or C4-1 District and partially in other #Commercial# or #Manufacturing Districts#, no transfer of #commercial floor area# to a #Residence District# or to a C1, C2, C3 or C4-1 District from other districts shall be permitted, except that for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, a transfer of #commercial floor area# from a C6 District to a C2 District may be permitted;
 - (2) location of #buildings# without regard for the applicable #yard#, #court#, distance between #buildings#, or height and setback regulations;
 - (3) variation in the location of primary business entrances and #show windows# along frontages adjacent to #zoning lots# outside the #large-scale general development# without regard to regulations applicable near #Residence District# boundaries;
 - (4) the maximum #floor area ratio# permitted pursuant to Section 23-142 (In R6, R7, R8 or R9 Districts) for the applicable district without regard for #height factor# or #open space ratio# requirements, provided that the #large-scale general development# is located partially in a C6-1, C6-2 or C6-3 District within the boundaries of

- Community Districts 2 or 7 in Manhattan or located within a C4-4 District within the boundaries of Queens Community District 7 and that a minimum of 50 percent of the required #open space# is provided within the #large-scale general development#. Required #open space# for the purposes of this paragraph, (a)(4), shall be calculated by utilizing the smallest #open space ratio# at the maximum #floor area ratio#, pursuant to Section 23-142 for the applicable district;
- (5) in an #Inclusionary Housing designated area# in a C4-6 or C5 District:
- (i) a portion of the #lot area# that contains a wholly #commercial building# to be excluded from the calculation of #floor area# for any other #buildings# on the remainder of the #zoning lot#; or
 - (ii) #community facility floor area# located above the ground floor to be excluded from the calculation of the amount of #affordable housing# required pursuant to Section 23-95;
- (6) modification of the requirements of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) for #developments# or #enlargements#, where:
- (i) the required minimum distance as set forth in Section 23-86 is provided between the #legally required window# in the #development# or #enlargement# and a wall or #lot line# on an #abutting# property; and
 - (ii) the required minimum distance is provided by a light and air easement acceptable to the Department of City Planning and recorded in the County Clerk's office in the county in which such tracts of land are located;
- (7) modification of the definition of #outer court# in Section 12-10 (DEFINITIONS) and the provisions of Section 23-84 (Outer Court Regulations) to include any open area that is bounded on all sides but one by #building# walls and is not otherwise a #yard# or an #inner court#, provided that:
- (i) such modifications are permitted only for #large-scale general developments#, previously approved by the City Planning Commission, in a C4-7 District

within the boundaries of Manhattan Community District 7; and

- (ii) the minimum distance between a #legally required window# facing onto such #outer court# and a #building# wall shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening;
- (8) in an #Inclusionary Housing designated area# in a C4-7 District within the boundaries of Manhattan Community District 7, for the purpose of applying the Inclusionary Housing Program within such #Inclusionary Housing designated area#, as set forth in a restrictive declaration:
- (i) modification of the base and maximum #floor area ratios# specified in Section 23-952 (Floor area compensation in Inclusionary Housing designated areas), not to exceed the maximum #floor area ratios# permitted by the underlying district, based on a proportionality between #affordable floor area#, as defined in Section 23-911, and #residential floor area# in #buildings# containing multiple #uses#; and
 - (ii) modification of the requirements regarding distribution of #affordable housing units#, as defined in Section 23-911, specified in paragraph (b) of Section 23-96 (Requirements for Generating Sites);
- (9) within the boundaries of Community District 3 in the Borough of the Bronx, portions of any #building#, at any level, that contain permitted or required #accessory# off-street parking spaces, to be excluded from the calculation of #lot coverage#;
- (10) for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, waiver of the planting requirements of Section 23-892 (In R6 through R10 Districts), provided the area between the #street line# and the #street walls# of the #building# and their prolongations is to be improved as a publicly accessible widened sidewalk;
- (11) wholly within a C1-9 District entirely within the boundaries of Community District 8 in Manhattan, for a predominantly #community facility development#, a #floor

area# bonus not to exceed 20 percent of the maximum #floor area ratio# permitted by the underlying district regulations where, in connection with such #development#, an improvement to a #public park# located within the same Community District and within a one mile radius of the proposed #development# is provided in accordance with the provisions of this Section.

- (i) A request for such bonus #floor area# shall be accompanied by:
 - (a) a site plan for a #public park# improvement, transmitted by the Commissioner of Parks and Recreation, sufficient in detail and scope with respect to the work necessary to complete such #public park# improvement, to enable the City Planning Commission to determine the appropriate amount of bonus #floor area# to be granted to the #development#; and
 - (b) a letter from the Commissioner of Parks and Recreation stating:
 - (i) the selection of the #public park# for the #public park# improvement has been informed by community input in the form of consultation or an existing plan;
 - (ii) such #public park# improvement provides an appropriate amenity for the surrounding area; and
 - (iii) that, absent funding to be provided by the applicant, such #public park# improvement is unlikely to be made in the foreseeable future.
- (ii) Prior to a determination as to whether to grant the special permit, the City Planning Commission shall have received from the Commissioner of Parks and Recreation:
 - (a) any revisions to the site plan for the #public park# improvement or a statement that the site plan provided in the application is unchanged; and
 - (b) a letter that shall include:
 - (i) cost estimates for the #public park#

improvement; and

- (ii) a statement that the funding to be provided by the applicant, in combination with any other available funding, is adequate for completion of the necessary infrastructure, landscape and other work necessary to complete the #public park# improvement; or

(12) within the boundaries of Community District 1 in the Borough of Queens, in the area generally north of 30th Road and west of 8th Street, within the Halletts Point Peninsula, the #floor area# distribution from a #zoning lot# containing existing public housing #buildings#, provided that upon approval of a #large-scale general development# there exists unused #floor area# on a separate parcel of land with existing light industrial #buildings# in an amount equivalent to, or in excess of, the #floor area# approved for distribution and further provided:

- (i) such parcel shall be made part of such #zoning lot# upon approval of such #large-scale general development#, pursuant to the definition of #zoning lot# in Section 12-10 (DEFINITIONS), paragraph (d); and

- (ii) the existing light industrial #buildings# on the separate parcel of land are demolished.

(b) In order to grant a special permit pursuant to this Section for any #large-scale general development#, the Commission shall find that:

- (1) the distribution of #floor area#, #open space#, #dwelling units#, #rooming units# and the location of #buildings#, primary business entrances and #show windows# will result in a better site plan and a better relationship among #buildings# and open areas to adjacent #streets#, surrounding development, adjacent open areas and shorelines than would be possible without such distribution and will thus benefit both the occupants of the #large-scale general development#, the neighborhood and the City as a whole;
- (2) the distribution of #floor area# and location of #buildings# will not unduly increase the #bulk# of #buildings# in any one #block# or unduly obstruct access of light and air to the detriment of the occupants or

users of #buildings# in the #block# or nearby #blocks# or of people using the public #streets#;

- (3) where a #zoning lot# of a #large-scale general development# does not occupy a frontage on a mapped #street#, appropriate access to a mapped #street# is provided;
- (4) considering the size of the proposed #large-scale general development#, the #streets# providing access to such #large-scale general development# will be adequate to handle traffic resulting therefrom;
- (5) when the Commission has determined that the #large-scale general development# requires significant addition to existing public facilities serving the area, the applicant has submitted to the Commission a plan and timetable to provide such required additional facilities. Proposed facilities that are incorporated into the City's capital budget may be included as part of such plan and timetable;
- (6) where the Commission permits the maximum #floor area ratio# in accordance with the provisions of paragraph (a)(4) of this Section, the #open space# provided is of sufficient size to serve the residents of new or #enlarged buildings#. Such #open space# shall be accessible to and usable by all residents of such new or #enlarged buildings#, have appropriate access, circulation, seating, lighting and paving, and be substantially landscaped. Furthermore, the site plan of such #large-scale general development# shall include superior landscaping for #open space# of the new or #enlarged buildings#;
- (7) where the Commission permits the exclusion of #lot area# or #floor area# in accordance with the provisions of paragraph (a)(5) of this Section or modification of the base and maximum #floor area ratios# or requirements regarding distribution of #affordable housing units# in accordance with paragraph (a)(8) of this Section, such modification will facilitate a desirable mix of #uses# in the #large-scale general development# and a plan consistent with the objectives of the Inclusionary Housing Program and those of Section 74-74 (Large-Scale General Development) with respect to better site planning;
- (8) where the Commission permits portions of #buildings# containing #accessory# parking spaces to be excluded from

the calculation of #lot coverage# in accordance with the provisions of paragraph (a)(9) of this Section, the exclusion of #lot coverage# will result in a better site plan and a better relationship among #buildings# and open areas than would be possible without such exclusion and therefore will benefit the residents of the #large-scale general development#;

- (9) where the Commission permits a #floor area# bonus for a #public park# improvement in accordance with the provisions of paragraph (a)(11) of this Section:
 - (i) the amount of such bonus #floor area# is appropriate in relation to the size and quality of the proposed #public park# improvement; and
 - (ii) such bonus #floor area# will not unduly increase the #bulk# of #buildings# on the #zoning lot# or unduly obstruct access of light and air to the detriment of the occupants or users of #buildings# on the #block# or nearby #blocks# or of people using the public #streets#.

Grant of a #floor area# bonus for a #public park# improvement in accordance with the provisions of paragraph (a)(11) of this Section shall be conditioned upon adequate assurances for provision of the funding identified by the Commissioner of Parks and Recreation in a letter pursuant to paragraph (a)(11)(ii) of this Section as necessary for completion of the necessary infrastructure, landscape and other work for the #public park# improvement. The Commissioner of Buildings shall not issue a building permit for the #large-scale development# unless the Commissioner of Parks and Recreation shall have certified that the funding has been made or secured in a manner acceptable to such Commissioner;

- (10) a declaration with regard to ownership requirements in paragraph (b) of the #large-scale general development# definition in Section 12-10 (DEFINITIONS) has been filed with the Commission; and
- (11) where the Commission permits #floor area# distribution from a #zoning lot# containing existing light industrial #buildings# to be demolished in accordance with the provisions of paragraph (a)(12) of this Section, such #floor area# distribution shall contribute to better site planning of the waterfront public access area and shall facilitate the #development# of affordable housing units

within a #large-scale general development#.

Within Manhattan Community District 2, within the former Washington Square Southeast Urban Renewal Area, where the Commission has approved a #large-scale general development# and a #lot line# of such #large-scale general development# coincides with the boundary of a mapped #public park#, such #lot line# shall be considered to be a #street line# of a #wide street# for the purposes of applying all #use# and #bulk# regulations of this Resolution.

In addition, within Manhattan Community District 2, where the Commission has approved a #large-scale general development# located partially within a C2-7 District, if any #open space# approved pursuant to paragraph (a)(4) of Section 74-743 is subsequently mapped as a park and transferred to City ownership, the #open space# requirement approved for such #large-scale general development# pursuant to paragraph (a)(4) of Section 74-743 shall be reduced by the area of such #public park#.

Within Community District 1 in the Borough of Queens, the Commission may prescribe additional conditions to ensure that the purpose of the Inclusionary Housing program as set forth in Section 23-92 (General Provisions) is achieved in a #large-scale general development#. The Commission may establish procedures resulting in limiting the amount of #affordable floor area# utilizing #public funding# that may count toward satisfying the #affordable floor area# required in paragraph (b)(1) of Section 23-953. Any such procedures established by the Commission shall be set forth in the restrictive declaration required in connection with the grant of a special permit for such #large-scale general development#.

For a phased construction program of a multi-#building# complex, the Commission may, at the time of granting a special permit, require additional information, including but not limited to a proposed time schedule for carrying out the proposed #large-scale general development#, a phasing plan showing the distribution of #bulk# and #open space# and, in the case of a site plan providing for common #open space#, common open areas or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

The Commission may prescribe additional conditions and safeguards to improve the quality of the #large-scale general development# and to minimize adverse effects on the character of the surrounding area.

(10/11/12)

74-744

Modification of use regulations

(a) #Use# modifications

(1) Waterfront and related #commercial uses#

In a C4 District, the City Planning Commission may modify applicable district regulations to allow certain boating and related #uses# listed in Use Group 14A, not otherwise allowed in such district, provided the Commission shall find that:

- (i) the #uses# are appropriate for the location and blend harmoniously with the rest of the #large-scale general development#; and
- (ii) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.

(2) Automotive sales and service #uses#

For #large-scale general developments#, previously approved by the City Planning Commission, in a C4-7 District within the boundaries of Manhattan Community District 7, the City Planning Commission may modify applicable district regulations to allow automotive sales and service establishments that include repair services and preparation for delivery, provided the Commission shall find that:

- (i) the portion of the establishment used for the servicing and preparation of automobiles is located entirely in a #cellar# level and below grade or established #curb level#, and the ground floor level of such establishment is used only for showrooms and sales;
- (ii) sufficient indoor space for storage of vehicles for sale or service has been provided; and
- (iii) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic or adversely affect pedestrian movement.

(3) Retail establishments

For a #large-scale general development# located partially

or wholly within the former Seward Park Extension Urban Renewal Area, the City Planning Commission may modify applicable district regulations to allow Use Groups 10, 11A and 12A, except for arenas or auditoriums, skating rinks, public auction rooms, trade expositions and stadiums, provided the Commission finds that:

- (i) such #uses# will not impair the character of future #uses# or development of the surrounding area; and
- (ii) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.

(b) Location of #commercial uses#

For any #large-scale general development#, the City Planning Commission may permit #residential# and non-#residential uses# to be arranged within a #building# without regard for the regulations set forth in Section 32-42 (Location within Buildings), provided the Commission shall find:

- (1) the #commercial uses# are located in a portion of the #mixed building# that has separate access to the outside with no opening of any kind to the #residential# portion of the #building# at any #story#;
- (2) the #commercial uses# are not located directly over any #story# containing #dwelling units#; and
- (3) the modifications shall not have any adverse effect on the #uses# located within the #building#.

(c) Modifications of #sign# regulations

- (1) In all #Commercial# or #Manufacturing Districts#, the City Planning Commission may, for #developments# or #enlargements# subject to the provisions of paragraphs (a)(1), (a)(2) or (a)(3) of Section 74-743 (Special provisions for bulk modification), permit the modification of the applicable provisions of Sections 32-64 (Surface Area and Illumination Provisions), 32-65 (Permitted Projection or Height of Signs), 32-66 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways), 42-53 (Surface Area and Illumination Provisions), 42-54 (Permitted Projection or Height of Signs), 42-55 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) and the limitations on the location of #signs# in Sections 32-51 and 42-44 (Limitations on Business Entrances, Show Windows or Signs), provided the Commission finds that

such modification will result in a better site plan.

- (2) For a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, the City Planning Commission, by authorization, may make the #sign# regulations of a C6-1 District applicable to those portions of such #large-scale general development# within a C2 District, and in addition, may modify the provisions of Section 32-68 (Permitted Signs on Residential or Mixed Buildings) to allow #signs accessory# to non-#residential uses# above the level of the finished floor of the third #story#, provided such #signs# do not exceed a height of 40 feet above #curb level#. In order to grant such authorizations, the Commission shall find that such modifications are consistent with the amount, type and location of #commercial uses# that the Commission finds appropriate within such #large-scale general development#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the development.

(8/13/15)

74-745

Modifications of parking and loading regulations

For a #large-scale general development# the City Planning Commission may permit:

(a) Modification of location requirements

When a #large-scale general development# includes two or more #zoning lots#, the City Planning Commission may permit required or permitted #accessory# off-street parking spaces, bicycle parking spaces or loading berths to be located anywhere within a #large-scale general development# without regard for #zoning lot lines#, provided that the Commission shall find:

- (1) such off-street parking spaces, bicycle parking spaces and loading berths will be conveniently located in relation to the #use# to which such spaces or berths are #accessory#;
- (2) such location of off-street parking spaces, bicycle parking spaces and loading berths will result in a better

site plan; and

- (3) such location of off-street parking spaces, bicycle parking spaces and loading berths will not unduly increase the number of spaces in any single #block#, draw excessive traffic through local #streets#, or otherwise adversely affect traffic conditions in the surrounding area.

Whenever required off-street parking spaces, bicycle parking spaces and loading berths are permitted to be located without regard for #zoning lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# shall be kept available for such #building# throughout its life.

(b) Waiver or reduction of loading berth requirements

For #zoning lots# in a #large-scale general development#, located within a waterfront area pursuant to paragraph (b) of Section 62-132, in Community District 1 in the Borough of Brooklyn, that contains one or more #retail or service uses# listed in Use Group 6A, 6C, 7B, 8B, 9A, 10A, 12B, 14A or 16A, and where no single such establishment exceeds 8,500 square feet in #floor area#, the City Planning Commission may waive or reduce the number of required loading berths, provided that:

- (1) curbside deliveries will not create or contribute to serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not interfere with the efficient functioning of nearby #uses#;
- (2) an efficient goods receiving system will be implemented within the #commercial# establishment to expedite the movement of goods from the curb to areas within the establishment;
- (3) such modification allows for a better relationship between the #street walls# of the #building# containing such establishment and the adjacent sidewalk and surrounding area; and
- (4) such modification will not impair or adversely affect the development of the surrounding area.

(c) Reduction of parking requirements

For #buildings# on #zoning lots# in a #large-scale general development#, within R7-2 Districts in Community District 1 in

the Borough of the Bronx, that contain a #non-profit residence for the elderly#, the City Planning Commission may waive or reduce the number of required #accessory# off-street parking spaces, including any spaces previously required for an existing #building#, provided that the Commission finds that:

- (1) the anticipated automobile ownership patterns for residents of such #non-profit residence for the elderly# are minimal and that such waiver or reduction is warranted;
- (2) such waiver or reduction of parking spaces will not have undue adverse impacts on the residents, businesses or community facilities in the surrounding area; and
- (3) such waiver or reduction of parking spaces will result in a better site plan with better quality open areas.

In determining the amount of parking spaces to waive or reduce, the Commission may take into account current automobile ownership patterns for an existing #non-profit residence for the elderly# on the #zoning lot#, as applicable.

The City Planning Commission may prescribe additional conditions and safeguards to minimize adverse effects on the surrounding area.

(2/2/11)

74-746

Special provisions for development or enlargement over streets

Within a #large-scale general development#, when the volume above a #street#, or portion thereof, has been eliminated, discontinued and closed, the City Planning Commission may permit such volume to be considered part of an adjoining #zoning lot# and may allow, within such volume, a #development# or #enlargement# that is part of a #building# or #buildings# in the #large-scale general development#. In no event shall such volume contribute to the amount of #lot area# counted for the purposes of qualifying as a #large-scale general development# or generating any #floor area#.

- (a) The following conditions must be met for the #development# or #enlargement# to be permitted in such volume:
 - (1) a satisfactory ventilation plan consistent with the requirements of New York City's Departments of Transportation and Environmental Protection is provided for the #street# below the volume;

- (2) an illumination of at least five foot candles at the #curb level# is provided for the #street# below the volume; and
- (b) In order to grant the special permit, the City Planning Commission shall find that the #development# or #enlargement# in such volume:
 - (1) is functionally necessary or will improve the internal circulation within the #large-scale general development#, or will improve vehicular or pedestrian circulation on adjacent #streets#;
 - (2) will not adversely impact the continued use of the #street#;
 - (3) will not have an adverse impact on the essential character or future use or development of the adjacent area; and
 - (4) will not unduly obstruct any significant scenic view.

The City Planning Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-747

Previously granted special permits

Any #development# or #enlargement# granted a special permit by the City Planning Commission under previous Section 74-74 (Commercial Development Extending into More than One Block) prior to February 22, 1990, may be started or continued pursuant to that special permit.

The Commission may administratively, upon application, allow modifications of the special permit granted under previous Section 74-74 (Commercial Development Extending into More than One Block) before February 22, 1990.

In no event may the Commission grant a modification of a special permit approved prior to February 22, 1990, that would require additional #bulk# distribution among #zoning lots# or modification of the height and #lot coverage# limitations previously established. Any modifications exceeding the limitations set forth

herein shall be subject to the provisions of the new Section 74-74 (Large-Scale General Development).

No existing #publicly accessible open area# or other public amenity for which a #floor area# bonus or any increase in tower coverage above 40 percent of the #lot area# of the #zoning lot# has been received under previous Section 74-74 (Commercial Development Extending into More than One Block) prior to February 22, 1990, shall be eliminated or reduced in size except by special permit of the Commission pursuant to a finding that a proposed change will provide a greater public benefit in the light of the public amenity's purpose.

Any #sign# shown on a site plan incorporated as part of a special permit of the City Planning Commission under the provisions of Section 74-74 (Large-Scale General Development) prior to February 27, 2001, may be erected and maintained in accordance with such special permit.

(2/2/11)

74-75

Educational Construction Fund Projects

In R5, R6, R7, R8, R9 or R10 Districts, in C1 or C2 Districts mapped within such #Residence Districts#, or in C1-6, C1-7, C1-8, C1-9, C2-6, C2-7, C2-8, C4, C5, C6 or C7 Districts, for combined #school# and #residences# including air rights over #schools# built on a #zoning lot# owned by the New York City Educational Construction Fund, the City Planning Commission may permit utilization of air rights; modify the requirements that open area be accessible to and usable by all persons occupying a #dwelling unit# or #rooming unit# on the #zoning lot# in order to qualify as #open space#; permit ownership, control of access and maintenance of portions of the #open space# to be vested in the New York City Educational Construction Fund or City agency successor in title; permit modification of #yard# regulations and height and setback regulations; authorize the total #floor area#, #open space#, #dwelling units# or #rooming units# permitted by the applicable district regulations on such site to be distributed without regard for district boundaries; and authorize an increase of 25 percent in the number of #dwelling units# or #rooming units# permissible under the applicable district regulations. For the purposes of this Section, a #zoning lot# owned by the New York City Educational Construction Fund may also include a tract of land under single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10, when such tract of land includes a parcel which was the site of a public school listed in

the following table.

School	Community District
P.S. 151	CD 8, Manhattan

The total number of #dwelling units# or #rooming units# and #residential floor area# shall not exceed that permissible for a #residential building# on the same #zoning lot#.

The distribution of #bulk# on the #zoning lot# shall permit adequate access of light and air to the surrounding #streets# and properties.

As further conditions for such modifications:

- (a) the #school# and the #residence# shall be #developed# as a unit in accordance with a plan approved by the Commission;
- (b) at least 25 percent of the total #open space# required by the applicable district regulations, or such greater percentage as may be determined by the Commission to be the appropriate minimum percentage, shall be accessible exclusively to the occupants of such #residence# and under the direct control of its management;
- (c) notwithstanding the provisions of Section 23-12 (Permitted Obstructions in Open Space), none of the required #open space# shall include driveways, private streets, open #accessory# off-street parking spaces or open #accessory# off-street loading berths; and
- (d) the Commission shall find that:
 - (1) a substantial portion of the #open space# which is not accessible exclusively to the occupants of such #residence# will be accessible and usable by them on satisfactory terms part-time;
 - (2) playgrounds, if any, provided in conjunction with the #school# will be so designed and sited in relation to the #residence# as to minimize any adverse effects of noise; and
 - (3) all #open space# will be arranged in such a way as to minimize friction among those using #open space# of the #buildings or other structures# on the #zoning lot#.

The Commission shall give due consideration to the landscape design of the #open space# areas. The Commission shall also give due

consideration to the relationship of the #development# to the #open space# needs of the surrounding area and may require the provision of a greater amount of total #open space# than the minimum amount required by the applicable district regulation where appropriate for the purpose of achieving the #open space# objectives of the #Residence District# regulations.

The Commission may prescribe other appropriate conditions and safeguards to enhance the character of the surrounding area.

(3/7/68)

74-76 Plazas

(2/2/11)

74-761

Elimination or reduction in size of bonused public amenities

In all districts, the City Planning Commission may, by special permit, allow the elimination or reduction in size of any existing #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, provided that such reduction or elimination shall not create a #floor area non-compliance# on the #zoning lot#.

In granting such special permit, the Commission shall find that:

- (a) such elimination or reduction is adequately compensated by the substitution of another public amenity or improvement on the #zoning lot# that shall provide equal or increased public benefit; and
- (b) for #publicly accessible open areas# any remaining bonused open area will comply to the maximum extent feasible with the standards of #public plazas# as set forth in Section 37-70.

However, the Commission may waive the provisions of paragraph (b) of this Section if it finds that such standards for #public plazas# would compromise the design integrity of the #publicly accessible open area# or would result in the loss of significant design elements or character that are integral components of the #publicly accessible open area's# design.

The Commission may prescribe additional conditions to enhance the relationship of public open areas, #buildings# or other amenities

on the #zoning lot#, to the surrounding areas.

(8/12/69)

74-77

Artists' Centers

In C6-1, C6-2, C6-3 or C6-4 Districts, for alterations or additions to existing #buildings#, to be occupied as living and working quarters by #artists# engaged in the visual or performing arts, with or without related community studio space, the City Planning Commission may permit #residential# and non-#residential uses# to be arranged within the #building# without regard for the regulations set forth in Sections 32-42 (Location within Buildings). For alterations of such #buildings# but not for additions, the Commission may permit modifications of the regulations set forth in Sections 23-81 to 23-87, inclusive, relating to Court Regulations and Minimum Distance between Windows or Walls or Lot Lines and may permit modification of the requirements set forth in Sections 23-40 to 23-47, inclusive, relating to #rear# and #side yard# regulations.

As a condition precedent to the grant of such special permit, the Commission shall make the following findings:

- (a) that the location, design and construction of such #building# particularly suit it to use as an #artists'# center, and that full realization of these advantages requires modification of the regulations controlling arrangement of #residential# and non-#residential uses# within the #building#, or modification of the #court# regulations or the required distance between #legally required windows# and existing walls or #lot lines#, or modification of the #rear# and #side yard# requirements; and
- (b) that an organization has been established for assuring that the #dwelling units# will be occupied by persons who qualify as #artists#.

For the purposes of this Section, non-#commercial# studio space for use in common by artists residing in the #building# may be classified as a #community facility use#.

(2/2/11)

74-78

Conversions of Non-Residential Floor Area

(2/2/11)

74-781

Modifications by special permit of the City Planning Commission of uses in M1-5A and M1-5B Districts

In M1-5A and M1-5B Districts, the City Planning Commission may, after public notice and hearing and subject to Board of Estimate approval, permit modification of Section 42-14, paragraphs D.(1)(c), D.(1)(d), D.(2)(a) or D.(2)(b), provided that the Commission finds that the owner of the space, or a predecessor in title, has made a good faith effort to rent such space to a mandated #use# at fair market rentals. Such efforts shall include but not be limited to: advertising in local and citywide press, listing the space with brokers and informing local and citywide industry groups. Such efforts shall have been actively pursued for a period of no less than six months for #buildings# under 3,600 square feet and one year for #buildings# over 3,600 square feet, prior to the date of the application for a special permit.

(2/2/11)

74-782

Residential conversion in C6-1G, C6-2G, C6-2M, C6-4M, M1-5A, M1-5B, M1-5M and M1-6M Districts

In C6-1G, C6-2G, C6-2M, C6-4M, M1-5M and M1-6M Districts, the City Planning Commission may permit modification of the requirements of Sections 15-021, paragraph (e), or 15-21, and in M1-5A and M1-5B Districts, the City Planning Commission may permit modification of the requirements of Section 42-14, paragraph D.(1)(b), provided that the Commission finds that:

- (a) the #conversion# will not harm the industrial sector of the City's economy;
- (b) the applicant for the special permit or a predecessor in title, has made a good faith effort to rent such space to a mandated #use# at fair market rentals. Such effort shall have been actively pursued for a minimum of one year immediately preceding the application. A good faith effort shall include, but not be limited to, advertising in local and citywide press, listing the space with brokers doing business in the industrial real estate market, and informing local and

citywide industry groups. The applicant shall provide records showing the specific efforts to rent such space;

- (c) there is sufficient alternative space to meet the needs of #commercial# and #manufacturing uses# in the area. The vacancy rate for industrial space in the area shall be one evidentiary element to prove the availability of alternative space;
- (d) City, State and Federal economic development programs, to the extent applicable, had been explored and found not suitable;
- (e) the #commercial# and industrial tenants were given the opportunity by the applicant, or predecessor in title, to remain in the spaces at fair market rentals, and the property owner or predecessor in title did not cause the vacating of the space for the additional #conversion#;
- (f) the neighborhood in which the #conversion# is taking place will not be excessively burdened by increased residential activity; and
- (g) all #dwelling units# or #joint living-work quarters for artists# permitted by this special permit meet the standards of the applicable district for such units or quarters.

If the Commission determines that #floor area# in the #building#, or portion thereof, was occupied as #dwelling units# or #joint living-work quarters for artists# on September 1, 1980, findings (b), (c), (d) and (e) of this Section shall not be required for the grant of a special permit for such #floor area#, provided that a complete application to prove occupancy as a #dwelling unit# or #joint living-work quarters for artists# is submitted to the City Planning Commission by the owner of the #building# or the occupant of a #dwelling unit# or #joint living-work quarters for artists# in such #buildings# not later than June 21, 1983. In addition, the Commission must find that there is no substantial evidence that the landlord forced #commercial# or #manufacturing# tenants to vacate such #floor area# through harassment, non-renewal of leases or the charging of rents in excess of the then fair market value. Notwithstanding anything to the contrary above, the Commission shall not grant or deny a special permit pursuant to the provisions of this Section unless an application for such special permit has been submitted by the owner of the #building#.

The Commission shall request a report from the Office of Economic Development regarding information useful in making findings (a), (b), (c), (d) and (e) of this Section. Said report is to be provided within 30 days of the Commission's request.

In granting the special permit under this Section, the Commission

shall require the preservation of the maximum amount of #floor area# for #commercial# or #manufacturing uses# that the Commission deems feasible.

(2/2/11)

74-79

Transfer of Development Rights from Landmark Sites

In all districts except R1, R2, R3, R4 or R5 Districts or C1 or C2 Districts mapped within such districts, for #developments# or #enlargements#, the City Planning Commission may permit development rights to be transferred to adjacent lots from lots occupied by landmark #buildings or other structures#, may permit the maximum permitted #floor area# on such adjacent lot to be increased on the basis of such transfer of development rights, may permit, in the case of #developments# or #enlargements# containing #residences#, the minimum required #open space# or the density requirements to be reduced on the basis of such transfer of development rights, may permit variations in the front height and setback regulations and the regulations governing the size of required loading berths, and minor variations in #public plaza#, #arcade# and #yard# regulations, for the purpose of providing a harmonious architectural relationship between the #development# or #enlargement# and the landmark #building or other structure#.

Where a #zoning lot# occupied by a landmark #building or other structure# is located in a #Residence District#, the Commission may modify the applicable regulation of primary business entrances, #show windows#, #signs# and entrances and exits to #accessory# off-street loading berths on the "adjacent lot" in a #Commercial District# provided that such modifications will not adversely affect the harmonious relationship between the #building# on the "adjacent lot" and landmark #building or other structure#.

For the purposes of this Section, the term "adjacent lot" shall mean a lot that is contiguous to the lot occupied by the landmark #building or other structure# or one that is across a #street# and opposite to the lot occupied by the landmark #building or other structure#, or, in the case of a #corner lot#, one that fronts on the same #street# intersection as the lot occupied by the landmark #building or other structure#. It shall also mean, in the case of lots located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts, a lot contiguous or one that is across a #street# and opposite to another lot or lots that except for the intervention of #streets# or #street# intersections, form a series extending to the lot occupied by the landmark #building or other structure#. All such lots shall be in the same ownership (fee ownership or ownership as defined

under #zoning lot# in Section 12-10 (DEFINITIONS).

A "landmark #building or other structure#" shall include any structure designated as a landmark by the Landmarks Preservation Commission and the Board of Estimate pursuant to Chapter 8-A of the New York City Charter and Chapter 8-A of the New York City Administrative Code, but shall not include those portions of #zoning lots# used for cemetery purposes, statues, monuments, and bridges. No transfer of development rights is permitted pursuant to this Section from those portions of #zoning lots# used for cemetery purposes, any structures within historic districts, statues, monuments or bridges.

The grant of any special permit authorizing the transfer and use of such development rights shall be in accordance with all the regulations set forth in Sections 74-791 (Requirements for application), 74-792 (Conditions and limitations) and 74-793 (Transfer instruments and notice of restrictions).

(2/2/11)

74-791

Requirements for application

An application to the City Planning Commission for a grant of a special permit to allow a transfer of development rights and construction based thereon shall be made by the owners of the respective #zoning lots# and shall include: a site plan of the landmark lot and the adjacent lot, including plans for all #developments# or #enlargements# on the adjacent lot; a program for the continuing maintenance of the landmark; and such other information as may be required by the City Planning Commission. The application shall be accompanied by a report from the Landmarks Preservation Commission.

A separate application shall be filed for each independent "adjacent lot" to which development rights are being transferred under this Section.

(2/2/11)

74-792

Conditions and limitations

- (a) For the purposes of this Section, except in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts, the basic maximum allowable #floor

area# for a #zoning lot# occupied by a landmark shall be the maximum #floor area# allowed by the applicable district regulations on maximum #floor area ratio# or minimum required #open space ratio# and shall not include any additional #floor area# allowed for #public plazas#, #arcades# or any other form of bonus whether by right or special permit.

- (b) The maximum amount of #floor area# that may be transferred from any #zoning lot# occupied by a landmark #building# shall be computed in the following manner:
 - (1) the maximum allowable #floor area# that could be built for #buildings# other than #community facility buildings# under existing district regulations on the same #zoning lot# if it were undeveloped;
 - (2) less the total #floor area# of all #buildings# on the landmark lot;
 - (3) the figure computed from paragraphs (a) and (b) of this Section, inclusive, shall be the maximum amount that may be transferred to any one or number of adjacent lots; and
 - (4) unutilized #floor area# may be transferred from one or any number of #zoning lots# occupied by a landmark #building# to one or any number of #zoning lots# adjacent to the landmark lot so as to increase the basic maximum allowable #floor area# that may be utilized on such adjacent #zoning lots#. For each such adjacent #zoning lot#, the increase in #floor area# allowed under the provisions of this Section shall in no event exceed the basic maximum #floor area# allowable on such adjacent #zoning lot# by more than 20 percent.
- (c) When adjacent lots are located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts and are to be #developed# or #enlarged# with #commercial buildings#, the following conditions and limitations shall apply:
 - (1) the maximum amount of #floor area# that may be transferred from any #zoning lot# occupied by a landmark #building# shall be the maximum #floor area# allowed by Section 33-12 for #commercial buildings# on said landmark #zoning lot#, as if it were undeveloped, less the total #floor area# of all existing #buildings# on the landmark #zoning lot#;
 - (2) for each such adjacent #zoning lot#, the increase in #floor area# allowed by the transfer pursuant to this Section shall be over and above the maximum #floor area#

allowed by the applicable district regulations; and

- (3) the City Planning Commission may require, where appropriate, that the design of the #development# or #enlargement# include provisions for public amenities such as, but not limited to, open public spaces, subsurface pedestrian passageways leading to public transportation facilities, #public plazas# and #arcades#.
- (d) In any and all districts, the transfer once completed shall irrevocably reduce the amount of #floor area# that can be utilized upon the lot occupied by a landmark by the amount of #floor area# transferred. In the event that the landmark's designation is removed or if the landmark #building# is destroyed, or if for any reason the landmark #building# is #enlarged# or the landmark lot is redeveloped, the lot occupied by a landmark can only be #developed# or #enlarged# up to the amount of permitted #floor area# as reduced by the transfer.
- (e) As a condition of permitting such transfers of development rights, the Commission shall make the following findings:
 - (1) that the permitted transfer of #floor area# or variations in the front height and setback regulations will not unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of use in any #block# to the detriment of the occupants of #buildings# on the #block# or nearby #blocks#, and that any disadvantages to the surrounding area caused by reduced access of light and air will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole;
 - (2) that the program for continuing maintenance will result in the preservation of the landmark; and
 - (3) that in the case of landmark sites owned by the City, State or Federal Government, transfer of development rights shall be contingent upon provision by the applicant of a major improvement of the public pedestrian circulation or transportation system in the area.

The Commission shall give due consideration to the relationship between the landmark #building# and any #buildings developed# or #enlarged# on the adjacent lot regarding materials, design, scale and location of #bulk#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding

area.

(2/2/11)

74-793

Transfer instruments and notice of restrictions

The owners of the landmark lot and the adjacent lot shall submit to the City Planning Commission a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# on the lot occupied by the landmark and the adjacent lot shall be filed by the owners of the respective lots in the place and county designated by law for the filing by the owners of the respective lots in the place and county designated by law for the filing of deeds and restrictions on real property, a certified copy of which shall be submitted to the Commission.

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# to be transferred, and shall specify, by lot and #block# numbers, the lots from which and the lots to which, such transfer is made.

(9/21/11)

74-80

TRANSIENT HOTELS

(9/21/11)

74-801

In R10H Districts

In R10H Districts, the City Planning Commission may permit #transient hotels#. Where a #building# in existence on December 15, 1961, is located on a #zoning lot#, a substantial portion of which is located in an R10H District and the remainder in a #Commercial District#, the Commission may also permit the #conversion# of specified #floor area# within such #building# from #residential use# to #transient hotel use# without regard to the #floor area#, supplementary #use# or density regulations otherwise applicable in the #Commercial District#. The Commission may also allow any subsequent #conversion# of such specified #floor area# to and from #residential# or #transient hotel use# to occur without further

Commission approval, subject to the conditions of the special permit.

As a condition precedent to the granting of such #use# or #bulk# modifications, the Commission shall find that such modifications will not impair the essential character of the #Residence District#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(9/21/11)

74-802

In M1-6D Districts

In M1-6D Districts, in areas that have not met the residential development goal set forth in paragraph (a) of Section 42-483 (Commercial uses), the City Planning Commission may permit #developments# or #enlargements# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with Section 42-481 (Residential use), provided the Commission finds that:

- (a) sufficient development sites are available in the area to meet the residential development goal; or
- (b) a harmonious mix of #residential# and non-#residential uses# has been established in the area, and such #transient hotel# resulting from a #development# or #enlargement# is consistent with such character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(8/20/70)

74-81

Non-profit Residences for the Elderly

The related #accessory# social and welfare facilities minimum requirement, as set forth in Section 12-10 (DEFINITIONS - Non-profit Residence for the Elderly) may be reduced or waived in any #non-profit residence for the elderly# as to which the City

Planning Commission makes the following findings:

- (a) the proposed #non-profit residence for the elderly# is an addition to or #enlargement# or expansion of an existing #non-profit residence for the elderly# and is located on a #zoning lot# no portion of which is more than 1,500 feet from the existing #non-profit residence for the elderly#;
- (b) both #non-profit residences for the elderly# will be owned, operated and maintained by the same sponsoring organization;
- (c) the existing #non-profit residence for the elderly# contains related social and welfare facilities which will be used to adequately and conveniently service tenants of both the existing and proposed #non-profit residences for the elderly#.

The Commission may prescribe appropriate conditions and safeguards to enhance the character and purposes of the project.

(2/2/11)

74-82

Through Block Arcades

In C4-7, C5-2, C5-3, C5-4, C5-5 and C6 Districts, the City Planning Commission may permit #through block arcades# to be located in #commercial buildings# or #mixed buildings#. For each square foot of #through block arcade# located in C4-7, C5-2, C5-4, C6-1, C6-2, C6-3, C6-4, C6-5 and C6-8 Districts, a bonus of three feet of #floor area# may be permitted and for each square foot of #through block arcade# located in C5-3, C5-5, C6-1A, C6-6, C6-7 and C6-9 Districts, a bonus of six feet of #floor area# may be permitted. #Through block arcades# may be located on a #zoning lot# in conjunction with a #publicly accessible open area# or an #arcade# but in no event shall the total #floor area# permitted on that #zoning lot# exceed the amount set forth in Section 33-12 (Maximum Floor Area Ratio) by more than 20 percent.

In the districts with an equivalent #residential floor area ratio# of 10, any #floor area# bonus earned by providing a #through block arcade# may be applied to increase the #residential floor area# of a #mixed building# provided the maximum #floor area ratio# for the #residential# portion does not exceed 12.0.

Each application for a #through block arcade# must meet the following criteria:

- (1) result in substantial improvement of pedestrian circulation;

and

- (2) provide appropriate secondary #commercial# frontage along the #through block arcade# such as small shops and restaurants.

Bridges, mezzanines and balconies which add interest and function to the #arcade# without unduly obstructing its light and air may be incorporated in the proposal.

Lighting, paving, #signs# and plantings shall be specified in the application.

The Commission may prescribe appropriate conditions and safeguards to minimize any adverse effects on the character of the surrounding area.

(7/22/71)

74-83

Court Houses

In all #Commercial Districts#, the City Planning Commission may permit modifications of the applicable #bulk# regulations so as to allow the same #bulk# regulations as would apply for a #community facility building# in the applicable #Commercial District# and may permit modifications of the applicable regulations in Section 33-26 to 33-30, inclusive, relating to Yard Regulations or Sections 33-41 to 33-45, inclusive, relating to Height and Setback Regulations. The Commission shall find that because of site limitations such modifications are necessary for the proper design and operation of the court house.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/22/69)

74-84

Developments with Existing Buildings

(10/14/71)

74-841

Development in Certain Commercial Districts

In C5-2, C5-3, C5-4, C5-5, C6-4, C6-5, C6-6, C7, C6-8 or C6-9 Districts, the City Planning Commission may permit a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block# to be #developed# to its maximum allowable #bulk# under applicable district regulations and any existing #buildings# to remain temporarily on that lot and may permit the #floor area# of any existing #buildings# to be excluded from computations determining such maximum allowable #floor area#, provided that each and every one of the following conditions are met:

- (a) that existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;
- (b) that all leases within the existing #buildings# must terminate within five years after the issuance of a special permit under this Section, and that no new leases or any lease renewals shall be entered into on any existing #buildings# or portion of such existing #buildings#;
- (c) that the total #floor area# of all such existing #buildings# on the #zoning lot# is not greater than 20 percent of the maximum allowable #floor area# for that #zoning lot#;
- (d) that demolition of all such existing #buildings# must commence within five years after the issuance of the special permit under this Section;
- (e) that the portions of the #zoning lot# where existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan; and
- (f) that, until such time as demolition of all such existing #buildings# and completion of the approved site plans, #floor area# equal in amount to that which was located in such existing #buildings#, must be left unfinished and vacant in the new #development#; and a temporary certificate of occupancy, for the vacant space, shall remain in effect until all conditions in the special permit are satisfied.

The owner of the #zoning lot# shall submit a copy of all leases on any #building# or portion of any #building# on the #zoning lot# together with an opinion of counsel that the leases will terminate within five years.

All leases of such existing #buildings# or portions of #buildings# shall submit affidavits attesting to the expiration date of their leases together with an opinion of counsel that the lease will expire within five years.

The owner of the #zoning lot# shall have prominently displayed on the front of all existing #buildings# a sign stating the date that the #building# is to be demolished.

As a further condition for the issuance of a permit under this Section, the owner of the #zoning lot#, upon which new #development# is to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel sufficient in amount to:

- (1) cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time;
- (2) ensure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant; and
- (3) ensure that no new leases or lease renewals are entered into on any portion of any of the existing #buildings#.

The bonds or other securities shall be payable to The City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this Section, that the #development# shall result in improved circulation and would eliminate the undesirable preemption of ground level space by private #buildings or other structures#. In making this finding, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this Section shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.

(10/14/71)

74-842

Staged development of public or publicly-assisted housing projects

In all #Residence Districts# except R9 and R10 Districts, in C1 or C2 Districts mapped within all such #Residence Districts# except R9 and R10 Districts, or in C1-6, C1-7 or C2-6 Districts, for a staged #development# of public, or publicly-assisted housing projects, the City Planning Commission may permit any existing occupied #building# to remain temporarily on a #zoning lot#, and may authorize the applicable #bulk# regulations of the underlying

districts to apply to the entire #zoning lot# without regard to the existence of such temporary #building# if the following conditions are met:

- (a) that the entire #zoning lot# of such #development# is owned by the applicant;
- (b) that the development plan for the project, showing compliance with all provisions of this Resolution, has been approved by the Board of Estimate, or will be subject to Board of Estimate approval in conjunction with the application for a special permit under this Section;
- (c) that the number of existing #dwelling units# temporarily retained on a #zoning lot# are no more than the number of new #dwelling units# approved for construction on such #zoning lot#;
- (d) that no final certificate of occupancy shall be issued by the Department of Buildings for the new construction until all pre-existing #buildings# except those #buildings# which are to be retained in accordance with the approved development plan are vacated, demolished and their sites are redeveloped in accordance with the approved project plan;
- (e) that the #use# of this staged #development# process, rather than a method of #development# requiring compliance with this Resolution, is necessary to expedite the construction of new housing and to alleviate the City's relocation housing problems; and
- (f) that the final #development# complies with all the applicable regulations of the underlying districts of the Zoning Regulation.

The site plan accompanying each application for a grant of special permit under this Section shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.

The Commission may prescribe appropriate conditions and safeguards to minimize any adverse effects on the character of the #block# and of the surrounding area resulting from the temporary non-conformity with the Resolution permitted pursuant to this Section.

74-843

Preservation of existing buildings within certain developments containing open areas

In R10 Districts, in C1 or C2 Districts mapped within such #Residence Districts#, or in C1-9 or C2-8 Districts, for any #development# on a #zoning lot# which was all within single ownership on or before May 31, 1973, which contained a portion of its #zoning lot# mapped within an R8 District on or before May 31, 1973, which is located within the boundaries of Community Board 8 in the Borough of Manhattan, and which preserves and maintains existing on-site #residential buildings# the City Planning Commission may grant upon application resulting from joint efforts of a developer and on-site tenants, and after Community Board 8 has reviewed the architectural plans, a #floor area# bonus for public open area and relocation housing as set forth in this Section, and modify height and setback, #yards#, #courts#, and distance between #buildings# regulations. The provisions of this Section shall not apply in any special purpose district, unless permitted by such special purpose district.

As a condition for granting a special permit for such #development#, the Commission shall make the following findings:

- (a) that the retention of existing #residential buildings# is essential to preserve the character of the neighborhood;
- (b) that the existing #residential buildings# are suitable for rehabilitation;
- (c) that no #residential# or #community facility building# existing prior to May 31, 1973 be demolished or residential tenants evicted, on a #narrow street#, if 50 percent or more of the #floor area# of such #building# is located beyond 125 feet from a #street# intersection;
- (d) that the relocation practices followed by the developer on the entire #zoning lot# satisfy applicable governmental standards;
- (e) that existing #buildings# or portions thereof contain #dwelling units# which will be available on a priority basis for occupancy by on-site tenants displaced by new construction or by rehabilitation after December 31, 1970 in accordance with an approved relocation, rehabilitation and continued maintenance program;
- (f) that any outstanding eviction notices have been withdrawn;
- (g) that on-site tenants have not been subject to harassment by intent or otherwise or where harassment has occurred, it has

ceased as of the date of the application for the special permit hereunder;

- (h) that the #dwelling units# that are reserved for such relocation housing shall comply with an approved rent schedule;
- (i) that an agreement between the tenants and developers on the relocation plan has been reached which is satisfactory to two-thirds of the tenants on-site on the date of application for special permit hereunder;
- (j) that the #development# provides a minimum of 30 percent of the #lot area# of the #zoning lot# as public open area at #curb level#. Where site conditions preclude open area at #curb level#, such open area shall not at any point be more than five feet above nor more than eight feet below #curb level# of the #street# providing primary access to such area. The public open area shall be preferably on the southerly side of the lot unobstructed from its lowest level to the sky except as set forth in this Section, and directly accessible to the public from an adjoining #street#. Access to such public open area shall be clearly visible from the #street#. The said area shall contain lighting, landscaping, planting, pedestrian ways and sitting areas and be maintained in accordance with reasonable standards. #building# columns or similar elements may be permitted but the aggregate area of such elements may not exceed two percent of the total public open area. Driveways, off-street parking spaces and loading berths and balconies are not permitted within the public open area:
 - (1) for a #development# within 600 feet of a #public park# or playground having a minimum area of one acre, the minimum dimension of the public open area shall be at least 30 feet; access to such public area shall be at least 25 feet wide at the #street line# and the clear width of the walkway for pedestrian traffic shall not be less than 20 feet. The public open area may include covered or arcaded areas, total area of which shall not exceed 20 percent of the required public open area. Such arcaded or covered areas shall have an average clear height of not less than 20 feet and a minimum clear height of 12 feet.
 - (2) for all other #development# pursuant to this Section, the minimum dimension of such public open area shall be 45 feet and have a minimum area of 4,500 square feet. The #development# shall also provide an #arcade# which #abuts# the #street line# along the short dimension of the #block# and extends along the full length of the #building# on such frontage. Such #arcades# and required

setback areas which abut the #street line# along the short dimension of the #block# shall be included in meeting the 30 percent public open area requirements of this Section.

- (k) that the finish of exterior walls of the existing #building# fronting on such public open area is compatible with the #development# and the public open area;
- (l) that a roof area of #development# shall be landscaped for use by #residential# tenants and shall:
 - (1) be restricted to occupants of the #residential# portion and their guests for whom no admission or membership fees are charged;
 - (2) be directly accessible from a lobby or other public area served by the residential elevators;
 - (3) be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas; and
 - (4) contain not less than 2,500 square feet of continuous area open to the sky on a single level with a minimum dimension of not less than 40 feet.
- (m) that the total #development# will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and surrounding developments;
- (n) that the #development# will not have a negative environmental impact on the neighborhood or change the character of the neighborhood.
- (o) that the basic #floor area ratio# for the #zoning lot# may be increased from 10.0 to 12.0 for complying with the provisions of this Section.

In determining the precise extent of the increase in the basic #floor area ratio# on a #zoning lot# from 10.0 to 12.0, the Commission shall, after consultation with Manhattan Community Board 8, balance the economic benefit received by the builder after deducting the cost of the following:

- (1) the number of tenants relocated on and off site;
- (2) the number of units and cost of on-site renovation; and

- (3) the extent and period of years for which rent subsidies are provided over and above those required as relocation benefits under applicable governmental standards.

In no event shall a new #building# exceed 32 #stories# excluding the #basement# level.

No final certificate of occupancy shall be issued by the Department of Buildings for the new construction until the total #development# complies with the approved rehabilitation and relocation program.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-844

Preservation of community facility uses within certain developments containing public open areas

For any #development# on a #zoning lot# a portion of which, exceeding 50 percent, is located in an R9 District, in a C1 or C2 District mapped within an R9 District or in a C1-8 or C2-7 District, and the remaining portion of which is located in an R8 District, and which provides a new #community facility building# for an institution existing on the #zoning lot# prior to the #development# and which includes an open area for public use, the City Planning Commission may allow the zoning district regulations applicable to the #zoning lot# including but not limited to #bulk# and parking to be changed as set forth in this Section and may modify #yard#, height and setback, density and distance between #buildings# regulations in accordance with the provisions of this Section.

As a condition for granting a special permit for such #development#, the Commission shall find that:

- (a) the provision of the new #community facility building# will result in the reinforcement or preservation of an existing church or house of worship, community center, #school#, library, museum, college or university which is essential to the character of the neighborhood and that such #community facility building# will be used only as a #community facility building#;
- (b) such #community facility building# is free-standing and independent of any new #residential building# and contains

floor space of at least 10,000 square feet and shall be located entirely on the R8 portion of the #zoning lot#; the height of the #community facility building# shall not exceed the greater of:

- (1) a height of 20 feet greater than that of the nearest existing #building# in the adjacent R8 District; or
 - (2) 40 feet;
- (c) the arrangement has been made for continuing maintenance of the #community facility building#;
- (d) the #development# provides a minimum of 25 percent of the #lot area# of the #zoning lot# as public open area at #curb level#. Where site conditions preclude open area at #curb level#, such open area shall at no point be more than three feet below #curb level# or six feet above #curb level# of the #street# providing primary access to such area. The public open area shall be unobstructed from its lowest level to the sky except as set forth in this Section, directly accessible to the public from an adjoining #street# and, if feasible, be located on the southerly side of the #zoning lot#. Entrance to such public open area shall be clearly visible from the #street#. The said area shall be developed with lighting, landscaping including planting of shrubs and trees, pedestrian ways and seating areas in accordance with plans approved by the Commission and shall be maintained in accordance with a maintenance program approved by the Commission. #Building# columns or similar elements may be permitted, but the aggregate area of such elements may not exceed two percent of the total public area. Driveways, off-street parking spaces and loading berths are not permitted within the public open area.

A portion of the open area shall be developed as a park area concentrated in one location and having a minimum dimension of 45 feet and a minimum area of 4,500 square feet. The park area shall be accessible to the public from 9:00 a.m. to 9:00 p.m. each day from May 1 to September 30 and from 9:00 a.m. to 6:00 p.m. each day from October 1 to April 30, and such hours shall be posted on a #sign# that is plainly visible from the sidewalk adjoining the principal entrance to the park. In addition to the 4,500 square feet of park area, in meeting the 25 percent public open area requirements of this Section, the #development# may provide a non-bonusable #public plaza#, #arcade# or sidewalk continuation area; and

- (e) that any #bulk# modifications granted will result in satisfactory site planning and satisfactory urban design

relationships of #buildings# within the #development# to adjacent #streets# and surrounding #developments#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area. The #zoning lot# containing such #development# shall be subject to all the regulations applicable to a C1-9 District subject to the provisions of any special purpose district within which the #zoning lot# is located, except that the maximum permitted #floor area ratio# shall be 11.0. The #floor area# bonus provision for #public plazas# or #arcades# shall not apply. The #accessory# off-street parking requirements of Section 36-332 shall be 20 percent.

At any level at which a #building# within the #development# penetrates an established #sky exposure plane#, such #building# shall not, in the aggregate, occupy more than 45 percent of the #lot area# of the #zoning lot#.

Notwithstanding any other provision of the Zoning Resolution, the #community facility# portion of the #development# may be conveyed by deed, lease or otherwise to the institution operating the #community facility building# and, for the purposes of this #development#, such conveyance shall be deemed not to alter the single #zoning lot# status of the #zoning lot# containing the total #development# authorized under this Section. In no event shall the #floor area# of the total #development#, including the #community facility# portion, exceed a #floor area ratio# of 11.0.

(9/17/70)

74-85

Special Height and Setback Regulations

(2/2/11)

74-851

Height and setback regulations for certain buildings containing residences

In R8, R9 and R10 Districts, and in C1-7, C1-8, C1-9, C2-7 and C2-8 Districts, the City Planning Commission may permit modifications of height and setback regulations for #developments# or #enlargements# containing #residences#, provided the following findings are made:

(a) that the resulting site plan affords better placement of the

#buildings# on the #zoning lot# with improved arrangement of #open space# and improved access of light and air for the #dwelling units#; and

- (b) that the site is adjacent to or opposite a permanent space comprising an area of at least three acres such as a park, public place, waterfront, wharf property, wharves or docks, and that the resulting placement of the #buildings# will not unduly obstruct access of light and air in the #street# or on adjacent #zoning lots#.

The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area.

However, the provisions of this Section shall not apply to #Quality Housing buildings#.

(2/2/11)

74-852

Height and setback regulations for zoning lots divided by district boundaries

For a #zoning lot# divided by a boundary between an R8 District, or a #Commercial District# permitting an equivalent #residential floor area ratio#, and an R10 District, or a #Commercial District# permitting an equivalent #residential floor area ratio#, the City Planning Commission may permit modifications of the height and setback regulations for that portion of a #development# which fronts on a #wide street# and is located in the R8 or equivalent District, provided it finds that such modification will not unduly obstruct access of light and air to surrounding #streets# and properties.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-86

Accessory Outdoor Swimming Pools for Residences

The City Planning Commission may permit, as #accessory# to a #use# in Use Group 2 other than a #single-family# or #two-family#

residence#, an outdoor swimming pool to be located not less than 50 feet from any #lot line#, provided that such pool is so located as not to impair the essential character of the residential neighborhood.

The Commission may require that the pool be appropriately screened from other areas on the same or adjacent #zoning lots#. In special circumstances where the Commission finds that the design operates as a suitable buffer or the conditions of topography so warrant, the minimum distance of 50 feet may be reduced or waived.

The Commission shall in each case give due consideration to the effect of such location on the adjacent #residences# and the #street# and may impose appropriate conditions and safeguards.

(6/12/96)

74-87

Covered Pedestrian Space

C4-7 C5-2 C5-3 C5-4 C5-5 C6-4 C6-5 C6-6 C6-7 C6-8 C6-9

In the districts indicated, the City Planning Commission may permit #floor area# bonuses for #covered pedestrian space# in accordance with the provisions of Sections 74-871 through 74-873, inclusive.

(2/2/11)

74-871

Floor area bonus for covered pedestrian space

For the #development# or #enlargement# of a #commercial#, #community facility# or #mixed building#, for each square foot of #covered pedestrian space# provided on a #zoning lot#, the total #floor area# permitted on that #zoning lot# under the provisions of Section 33-12 (Maximum floor area ratio) may be increased as set forth in the following table:

PERMITTED ADDITIONAL FLOOR AREA
PER SQUARE FOOT OF COVERED PEDESTRIAN SPACE

Basic (in square feet)	Maximum (in square feet)	District
11	14	C5-3 C5-5 C6-6

In no event shall the resulting #floor area ratio# exceed the amount set forth in Section 33-12 by more than 20 percent. Any #floor area# bonus earned by providing a #covered pedestrian space# may be applied to increase the #residential floor area# of a #mixed building# provided the maximum #floor area ratio# for the #residential# portion does not exceed 12.0.

Any portion of the #covered pedestrian space# that is within ten feet of a #street line# or #lot line# and that is extended along such #street line# or #lot line# on either side of an entrance to it from an adjoining #street#, #arcade#, #publicly accessible open area#, #court#, #yard# or other #covered pedestrian space#, may receive only that #floor area# bonus accorded to an #arcade#.

The basic #floor area# bonus may be increased by providing one or more of the following additional amenities:

- (a) An escalator, providing pedestrian access from sidewalk level to any floor level containing #uses# specified in paragraph (c) of Section 74-872 (Design requirements for covered pedestrian space). Such escalator may be either within or directly accessible from the #covered pedestrian space#. The basic #floor area# bonus may be increased by 1.5 square feet per square foot of #covered pedestrian space# for each floor level connected by such escalator. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such escalator shall not exceed the allowable maximum set forth in the table.
- (b) Where the height over at least one-third of the #covered pedestrian space# in one location is increased by more than one #story# of the #building# above the required height, the basic #floor area# bonus for that portion may be increased by 1.5 square feet per square foot of such raised portion for each such #story#. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such additional height shall not exceed the allowable maximum set forth in the table.
- (c) Where direct access from the #covered pedestrian space# to a subway station mezzanine or concourse is provided and such connection is major, necessary, and kept open to the general public for the same hours as the #covered pedestrian space# or as specified by the Commission, an additional bonus of two square feet of #floor area# per square foot of #covered

pedestrian space# may be permitted over the amount specified in the table.

(2/2/11)

74-872

Design requirements for covered pedestrian spaces

In order to qualify for a #floor area# bonus, a #covered pedestrian space# shall be directly accessible to the public from the adjoining #street#, #arcade#, #through block arcade#, #publicly accessible open area#, #court#, #yard#, #pedestrian mall# or other #covered pedestrian space# which is a part of the public pedestrian circulation system, and shall:

- (a) have an area of at least 3,000 square feet and a minimum width, at any point, of 20 feet. For spaces between 100 feet and 150 feet in length, the minimum width shall be 25 feet. For spaces longer than 150 feet, the average width shall be at least 30 feet;
- (b) have a height of at least 30 feet;
- (c) have appropriate #uses# permitted in the district, such as, but not limited to, small stores and cafes, occupying the maximum feasible frontage along those bounding walls of the #covered pedestrian space# which do not abut #lot lines# or #street lines#. At least 50 percent of such frontage shall be comprised of individual #uses#, each of which has a frontage not exceeding 25 feet, and the frontage of any other single #use# may not exceed 40 feet. In no event may banks, loan offices, insurance offices or similar office type #uses# occupy any portion of the frontage of the #covered pedestrian space#. Access to other #uses# within a #building# may be provided from the #covered pedestrian space# if such #uses# are not located at the same #story# as the pedestrian space;
- (d) be adequately illuminated, utilizing natural daylight wherever possible; and
- (e) be suitably maintained and kept open to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

Obstructions such as awnings, canopies, pedestrian bridges, escalators, stairs, balconies or other architectural elements above the floor level of the #covered pedestrian space# are prohibited unless it can be clearly demonstrated that they will enhance design

or pedestrian circulation. In any event, horizontal projection of balconies into any #covered pedestrian space# shall not exceed five feet.

Planting, landscaping, ornamental fountains, statuary, outdoor furniture, kiosks, works of art, light wells and other features may be permitted in a portion of the pedestrian space, but not to the extent of impeding pedestrian movement.

Columns or similar elements may be permitted within a #covered pedestrian space#, but the aggregate area of such elements may not exceed two percent of the total pedestrian space. The clear span along the main path of pedestrian traffic shall not be less than the figure indicated for minimum dimensions of pedestrian space in paragraph (a) of this Section. However, when two or more pedestrian paths are provided, the minimum clear span widths of such paths may be reduced by five feet.

Where multiple access to the #covered pedestrian space# is provided from an #arcade#, the minimum clear spacing between columns at the face of the #building# may be reduced to 18 feet, provided the height of the #arcade# is not less than 30 feet.

A portion of the #covered pedestrian space# shall be public sitting areas with appropriate facilities such as cafes or other public seating arrangements.

Entrances to lobbies may be permitted along the boundary of a #covered pedestrian space#. The #floor area# of an entrance lobby shall not be considered as part of the #covered pedestrian space#. Where a #zoning lot# is bounded by more than one #street#, or by the combination of #streets#, #publicly accessible open areas# or other public rights-of-way, the #covered pedestrian space# will provide a connection between at least two such areas.

Where the space is heated or air-conditioned, the standards for heating, ventilating and air-conditioning shall be at least equal to that of the lobby.

For the purpose of ensuring prominent public attention to the #covered pedestrian space#, the openings at the face of the #building# for entrances to the #covered pedestrian space# shall be at least 20 feet wide, 30 feet high and unobstructed for a depth of 30 feet, except, where the #covered pedestrian space# is air-conditioned, the openings at the entrances may be partially enclosed. Such enclosure at the entrances shall be transparent in nature, commence at a height not less than eight feet above the floor level at the entrances, and be set back from the face of the #building# at least 12 feet. Air curtains are permitted but shall be located at a height not less than eight feet. Such entrances are

permitted to be fully enclosed only for that portion of the year between October 15 and April 15, provided, however, that such space is readily accessible to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

When a #through block arcade# provides public access to a #covered pedestrian space#, the opening at the point shall be at least 30 feet wide and 30 feet high. The two openings at the face of the #building# to the #through block arcade# shall be at least 20 feet wide and 30 feet high for a depth of 30 feet and shall be unobstructed except for stairs, ramps and escalators. If such space is air-conditioned, only one opening at the face of the #building# need comply with the partial enclosure requirements of the preceding paragraph.

A #covered pedestrian space# located at 12 feet or more below the sidewalk level shall provide direct subway or below grade pedestrian concourse access. For such #covered pedestrian spaces#, the entrance openings at the sidewalk level may be less than 30 feet in height, but not less than 15 feet, provided the entrance opening is unenclosed for its full height and is extended along the face of the #building# for the entire width of the #covered pedestrian space#.

(2/2/11)

74-873

Findings for covered pedestrian spaces

As a condition for permitting such bonus #floor area#, the Commission shall find that:

- (a) the proposed #covered pedestrian space# will have a useful role in meeting existing needs for sheltered space for the comfort and convenience of the general public;
- (b) the proposed #covered pedestrian space# is located at or close to the principal level of pedestrian circulation in adjacent areas, with prominent and obvious public entrances;
- (c) the public character of the proposed #covered pedestrian space# shall be obvious from the outside of the #building#;
- (d) appropriate #commercial uses# including, but not limited to, small stores and cafes fronting on the #covered pedestrian space# are provided;
- (e) the distribution of the #bulk# on the #zoning lot# permits

satisfactory access of light and air to surrounding #streets# and properties; and

- (f) the proposed connection to an underground subway station from a #covered pedestrian space# is necessary to ease pedestrian movement and sidewalk congestion in the area and the construction cost of the proposed amenity is substantial enough to justify the granting of additional #floor area ratio# bonus.

The Commission may permit modification of the entrance requirements for #covered pedestrian spaces#, provided that the Commission finds that the entrance is so designed as to ensure prominent public notice and promote public pedestrian circulation through such space.

(2/2/11)

74-88

Modification of Height and Setback and Street Wall Regulations

Upon application, the City Planning Commission may permit the modification of height and setback and #street wall# regulations of Section 23-651 (Tower-on-a-base) and paragraph (a) of Section 35-63 (Special Tower Regulations for Mixed Buildings), except for the permitted tower coverage or the required #floor area# distribution below a height of 150 feet, and may permit modification of the requirements of paragraph (a)(1)(ii) of Section 24-54 (Tower Regulations), provided the Commission makes the following findings:

- (a) that such modification will enhance the contextual relationship of the #development# or #enlargement# to nearby #buildings# and improve the overall scale, site design and architectural harmony among #buildings# in the neighborhood; and
- (b) that such modification will not unduly obstruct access of light and air to the detriment of the occupants or users of the #buildings# in the #block# or nearby #blocks# or of people using the public #streets#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the scale and character of the surrounding area.

(2/2/11)

74-89

Bulk Modifications for Telephone Exchanges or Other Communication Equipment Structures

In C1 and C2 Districts when mapped in R6, R7, R8, R9 and R10 Districts, and in C1-6, C1-7, C1-8, C1-9, C2-6, C2-7, C2-8, C4-2, C4-3, C4-4, C4-5, C4-6, C5-1, C6-1, C6-2, C6-3, C7, C8-2, C8-3, C8-4, M1-2, M1-3, M1-4, M1-5, M2 and M3 Districts, the City Planning Commission may permit modification of the #bulk# regulations for telephone exchanges or other communications equipment structures not existing on December 15, 1961, provided that the #zoning lot# has a minimum area of 40,000 square feet, a #floor area ratio# of no greater than 10.0 and that the following findings are made:

- (a) that the growth of the utility service demand to be served by the facility requires the construction of a #building or other structure# that would exceed the allowable #bulk# permitted by the district regulations;
- (b) that provisions of new or additional facilities at other locations would cause substantial duplication of plant and facilities;
- (c) that the proposal is the minimum modification necessary to permit the additional facilities needed to serve the demand;
- (d) that the design of the facility will not adversely affect the character of the neighborhood;
- (e) that the existing #street# and public transportation system will not be adversely affected; and
- (f) that, where appropriate and feasible in the judgment of the Commission, the applicant provides a public amenity for the benefit of the affected community.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and shall require that the certificate of occupancy shall be limited to such #use#.

(2/2/11)

74-90

USE AND BULK MODIFICATIONS FOR CERTAIN COMMUNITY FACILITY USES

In all #Residence# and #Commercial Districts# except C7 and C8

Districts, which are in the Community Districts within which, pursuant to Section 22-42 (Certification of Certain Community Facility Uses), nursing homes and health-related facilities are not permitted as-of-right, the City Planning Commission may permit the #development#, #extension# or #enlargement# or change of #use# involving such nursing homes and health-related facilities where such #uses# are not permitted as-of-right, provided that the Commission finds:

- (a) that the architectural landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography of the surrounding area;
- (b) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made;
- (c) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic;
- (d) that the disadvantages to the community imposed by the concentration of these facilities in the Community District are outweighed by the benefits derived from the proposed #use#; and
- (e) that in R1 and R2 Districts, such facilities are not proprietary nursing homes, proprietary health-related facilities or proprietary domiciliary care facilities for adults.

The Commission may prescribe appropriate conditions or safeguards to minimize the adverse effect of any #use# permitted under this Section on the character of the surrounding area.

Where such #use# is authorized by the Commission, it may be eligible for #bulk# modification, pursuant to the provisions of Sections 74-901 or 74-902.

Special permits granted by the Commission under Sections 74-901 or 74-902 on or before January 10, 1974, shall not require further approval or action pursuant to this Section or Sections 22-42 or 32-45.

In the event amendment CP-22490 is not held invalid by the courts, it shall be effective insofar as limiting vested rights is concerned but shall be superseded in all other respects by amendments CP-22490(A) and CP-22566.

(2/2/11)

74-901

Certain community facility uses in R1 and R2 Districts and certain Commercial Districts

In R1 and R2 Districts, and in C1 and C2 Districts mapped within such #Residence Districts# for any #development#, #extension# or #enlargement# or change of #use# involving any #community facility uses# other than domiciliary care facilities for adults or those for which a permit is required by the Board of Standards and Appeals pursuant to Sections 73-12 (Community Facility Uses in R1 or R2 Districts) or 73-13 (Open Uses in R1 or R2 Districts), the City Planning Commission may permit the allowable #community facility floor area ratio# and #lot coverage# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to all such #uses#, provided that the following findings are made:

- (a) that the distribution of #bulk# on the #zoning lot# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and the surrounding area;
- (b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;
- (c) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and
- (d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section.

To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

The Commission may prescribe appropriate conditions and safeguards

to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-902

Certain community facility uses in R3 to R9 Districts and certain Commercial Districts

In R3, R4, R5, R6, R7, R8 and R9 Districts, and in all #Commercial Districts# except C7 or C8 Districts, the City Planning Commission may permit the allowable #community facility floor area ratio# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to any #development#, #extension# or #enlargement#, or change of #use# involving nursing homes, health-related facilities, sanitariums or philanthropic or non-profit institutions as listed in Use Group 3, each of which have secured certification by the appropriate governmental agency; and in R3, R4, R5, R6 and R7 Districts, and in #Commercial Districts# with the equivalent #residential floor area ratio#, the Commission may permit the allowable #floor area ratio# of Section 23-147 (For non-profit residences for the elderly) to apply to domiciliary homes for adults which have secured certification by the appropriate governmental agency, provided the following findings are made:

- (a) that the distribution of #bulk# on the #zoning lot# will not unduly obstruct the access of light and air to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and the surrounding area;
- (b) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and
- (c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section.

To minimize traffic congestion in the area, the Commission may require, where necessary, off-street parking facilities and #accessory# off-street loading berths beyond the amount required by

the district regulations.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-903

Special permits for domiciliary care facilities for adults

In all #Residence# and #Commercial Districts#, except C7 and C8 Districts, the City Planning Commission may permit the #development#, #extension# or #enlargement#, or change of #use# involving domiciliary care facilities for adults, provided that the Commission finds:

- (a) that there is a program for residents including a maintenance and security plan for the facility;
- (b) that there is a plan designating #open space# recreation areas for the use of the residents of the facility;
- (c) that the architectural landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography of the surrounding area;
- (d) that the proposed facilities will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made;
- (e) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic; and
- (f) that in R1 and R2 Districts, such facilities are not proprietary domiciliary care facilities for adults.

The Commission may prescribe appropriate conditions or safeguards to minimize the adverse effect of any #use# permitted under this Section on the character of the surrounding area.

Where such #use# is authorized by the Commission, it may be eligible for #bulk# modification, pursuant to the provisions of Section 74-902 (Certain community facility uses in R3 to R9 Districts and certain Commercial Districts).

(2/2/11)

74-91

Modification of Public Plazas

In all districts, the City Planning Commission may permit modification of the provisions of Section 37-70 (PUBLIC PLAZAS) affecting the eligibility of #public plazas# for bonus #floor area#, provided that such modification shall not include any modification of Sections 23-15 (Maximum Floor Area Ratio in R10 Districts), 24-14 or 33-13 (Floor Area Bonus for a Public Plaza).

Any modification shall be conditioned upon the Commission finding that the usefulness and attractiveness of the #public plaza# will be assured by the proposed layout and design and that such modification will result in a superior urban design relationship with surrounding #buildings# and open areas.

The Commission may prescribe appropriate conditions and controls to enhance the relationship of such #public plazas# to surrounding #buildings# and open areas.

(9/24/08)

74-92

Use Groups 3A and 4A Community Facilities and Certain Large Retail Establishments in Manufacturing Districts

(2/2/11)

74-921

Use Groups 3A and 4A community facilities

(a) #Use# modifications for Use Groups 3A and 4A in M1 Districts

In M1 Districts, except for houses of worship and ambulatory diagnostic or treatment health care facilities, the City Planning Commission may permit #uses# listed in Use Group 4A - Community Facilities and, in M1-5 Districts, except in M1-5A, M1-5B and M1-5M Districts, the Commission may permit museums and non-commercial art galleries as listed in Use Group 3A, provided that such #community facility# is located not more than 400 feet from the boundary of a district where such facility is permitted as-of-right and the Commission finds that:

- (1) an adequate separation from noise, traffic and other adverse effects of the surrounding non-#residential districts# is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#;
- (2) such facility is so located as to draw a minimum of vehicular traffic to and through local #streets# and that such #use# will not produce traffic congestion or other adverse effects that interfere with the appropriate #use# of land in the district or in any adjacent district;
- (3) where applicable, adequate reservoir space at the vehicular entrance and sufficient vehicular entrances and exits are provided to prevent congestion;
- (4) in selecting the site, due consideration has been given to the proximity and adequacy of bus and rapid transit facilities;
- (5) for a Use Group 4A #use#, within the neighborhood primarily to be served by the #community facility#, there is no practical possibility of obtaining a site of adequate size located in a district where it is permitted as-of-right because appropriate sites in such districts are occupied by substantial improvements; and
- (6) such facility will not impair the essential character of the surrounding area.

(b) #Bulk# modifications for museums in M1-5 Districts

For a #building# containing a museum #use# listed in Use Group 3A, in an M1-5 District, on a #zoning lot# over which the High Line (as defined in Section 98-01) passes, the Commission may modify height and setback regulations, provided that such modifications:

- (1) provide a better distribution of #bulk# on the #zoning lot#;
- (2) result in a better relationship of the #building# to open areas including the High Line, adjacent #streets# and surrounding properties;
- (3) provide adequate light and air for #buildings# on the #zoning lot# and do not adversely affect adjacent #zoning lots# by unduly restricting access to light and air to

surrounding #streets# and properties; and

- (4) result in a #building# containing a museum #use# that facilitates the public's use and enjoyment of the High Line.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/28/85)

74-922

Certain large retail establishments

In M1 Districts, the City Planning Commission may permit department stores, carpet, rug, linoleum or other floor covering stores, clothing or clothing accessory stores, dry goods or fabric stores, food stores, furniture stores, television, radio, phonograph or household appliance stores, or variety stores, with no limitation on #floor area# per establishment.

In M1-5 or M1-6 Districts, the Commission may modify the applicable regulations governing height and setback or #yards# for a change of #use#, #extension# or minor #enlargement# involving a large retail establishment.

In M1-5M Districts, the Commission may also modify the applicable regulations governing loading berths so as to allow the location of such berths off-site in conjunction with a change of #use#, #extension# or #enlargement# of a large retail establishment with a #floor area# of at least 25,000 square feet within a #building designed for residential use#.

As a condition of granting a special permit for such large retail establishments, the Commission shall find:

- (a) that the principal vehicular access for such #use# is not located on a local #narrow street#;
- (b) that such #use# is so located to draw a minimum of vehicular traffic to and through local #streets#;
- (c) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent congestion;
- (d) that vehicular entrances and exits are provided for such

#uses# and are located not less than 100 feet apart;

- (e) that in selecting the site due consideration has been given to the proximity and adequacy of bus and rapid transit facilities;
- (f) that such #use# is so located as not to impair the essential character or the future use of or development of the surrounding area;
- (g) that such #use# will not produce any adverse effects which interfere with the appropriate #use# of land in the district or in any adjacent district;
- (h) that such #bulk# modifications will not unduly obstruct the access of light and air to surrounding streets and properties; and
- (i) that in the case of modification of loading berth regulations to allow off-site loading berths, the Commission further finds:
 - (1) that an adequate alternate loading facility in the same ownership (single fee ownership or control or alternative ownership arrangements of the #zoning lot# definition in Section 12-10) as the retail store is provided, subject to a deed restriction filed in an office of record binding the owner and his heirs and assigns to maintain the alternate facility throughout the life of the retail store;
 - (2) that the alternate loading facility is located within the same district or an adjoining C6-M, C8 or #Manufacturing District# and the maximum distance between the two sites is 1000 feet;
 - (3) that the location of the loading berths on the same #zoning lot# as the retail store would have a significant impact on the existing #residential uses# in the #building#;
 - (4) that the location of the loading berths on the same #zoning lot# as the retail store would create serious vehicular and pedestrian traffic conflict on the #street# upon which the store fronts; and
 - (5) that the alternate location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the #streets# surrounding the alternate site.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

74-93

Special Commercial or Mixed Use Developments in Commercial Districts

Within the boundaries of Community District 6, Borough of Queens, for #commercial# or #mixed use developments# or #enlargements# on two or more #zoning lots# in more than one #block#, which #zoning lots#, as defined in Section 12-10, each have single fee ownership or equivalent ownership arrangements for all lots comprising the #development# or #enlargement#, which are contiguous or would be contiguous but for their separation by a #street#, and located partially in a C4-2 District, partially in a C4-2F District, the City Planning Commission may permit upon application:

- (a) reduction of the parking requirement of Section 36-21 (General Provisions) by an amount not to exceed 50 percent, provided that the Commission finds that the applicant has demonstrated that the proposed parking is sufficient for the #uses# proposed;
- (b) any closed and demapped air space above a #street# to be considered as a part of the #development# or #enlargement# and to be used for automobile ways, or for pedestrian ways, provided the Commission finds that:
 - (1) each bridge over the #street# bed utilizes only unused #floor area# from an adjoining #zoning lot# within the #development# or #enlargement# and that no #floor area# credit is generated from the demapped air space;
 - (2) each bridge adjoins #zoning lots# which are wholly within the #development# or #enlargement#;
 - (3) the #curb levels# of the adjoining #zoning lots# are not affected by the closing and demapping of such air space;
 - (4) all #street# frontages of the #zoning lots# under each bridge are provided with satisfactory lighting; and
 - (5) a landscaped open, covered or enclosed space for public use at #street# level, linked with the pedestrian circulation system, is provided in one location within

the #development# or #enlargement#, which open, covered or enclosed space is at least equivalent to the #street# area covered by the bridges, has a minimum area of 20,000 square feet, and is maintained with planting and seating facilities, by the owner of the #development# or #enlargement# or his designee, said open, covered or enclosed space to be subject to such other requirements as the Commission may deem appropriate;

- (c) automobile service establishments, including: automobile, tire, battery, muffler and accessories establishments, including installation services; automobile glass and mirror shops, including installation services where such #use# is an integral part of the permitted principal #use#; automotive seat cover or convertible top establishments, including installation service, but not including automobile laundries; automobile painting establishments; automobile body repair establishments; or automobile fuel service stations;
- (d) modification of applicable #bulk# regulations by permitting the total permitted #floor area# for all #zoning lots# within such #development# or #enlargement# to be distributed without regard to #zoning lot lines# and permitting the location of #buildings# without regard for the applicable height and setback regulations, provided the Commission finds that:
 - (1) such distribution of #floor area# and location of #buildings# will result in better site planning and will thus benefit both the neighborhood and the City as a whole; and
 - (2) such distribution of #floor area# and location of #buildings# will permit adequate access of light and air to surrounding #streets# and properties; and
- (e) modification of the applicable provisions of Sections 32-64 (Surface Area and Illumination Provisions) and 32-65 (Permitted Projection or Height of Signs), provided that the Commission finds that such modification will result in a better site plan.

The Commission may impose additional conditions and safeguards to improve the quality of the #development# or #enlargement# and minimize adverse effects on the character of the surrounding area, including restrictions on permitted #commercial uses#, #signs# and location of curb cuts to ease vehicular and pedestrian circulation in the area.

(7/26/01)

74-94

Residences for People With Disabilities

In C6-2 Districts, for any #development# designed as a residence for people with disabilities, the City Planning Commission may, by special permit, modify the applicable height and setback regulations, #open space# and density requirements, regulations pertaining to permitted obstructions in required #yards#, and #accessory# parking requirements, and may increase, to a maximum of 7.2, the allowable #residential floor area ratio# on the #zoning lot# in accordance with the provisions of this Section. For purposes of this Section, a "residence for people with disabilities" is defined as a #residence# occupied at least 75 percent by disabled individuals or by households at least one of the members of which is disabled, and the remainder by individuals sixty-two years of age or older or by households at least one of the members of which is sixty-two years of age or older, and by the staff of such #residence#; that:

- (a) contains #dwelling units# especially designed for disabled persons and reserved for use as residences for the disabled for a period of not less than 40 years;
- (b) contains related #accessory# social and welfare facilities primarily for residents which may also be made available to the community, such as cafeterias or dining halls, community rooms, workshops and other essential service facilities, provided that these facilities shall occupy #floor area#, #cellar# space or roof space in an amount equal to not less than ten percent of the total #floor area# of the #building# or #buildings#. In no event shall the floor space occupied by lobbies, passageways, storage areas or other spaces normally provided in usual #residential buildings# be considered as part of the floor space attributable to the social and welfare facilities; and
- (c) is constructed with the assistance of mortgage financing or other financial assistance insured by or procured through or with the assistance of a municipal, State or Federal government agency.

As a condition for such special permit, the Commission shall make the following findings:

- (1) that the Mayor's Office for People with Disabilities, which may consult with other appropriate City agencies, has certified that the organization making the application for the special permit for the proposed residence for people with

disabilities is a responsible group dealing with the needs of the disabled;

- (2) that the Commission, in consultation with the Mayor's Office for People with Disabilities and/or other appropriate City agencies, has determined that the special features and facilities are appropriate to the needs of the intended disabled residents of the #development#;
- (3) that the modifications of #bulk# requirements for the #development# will not impede adequate access of light and air to the surrounding #streets# and #residential# properties; and
- (4) that the modification of #accessory# off-street parking requirements on the #zoning lot# will not unduly inhibit surface traffic and pedestrian flow in the area.

For each square foot of space provided for #accessory# social or welfare facilities, the total #residential floor area# permitted on the #zoning lot# may be increased by two square feet. No #floor area# bonus provisions other than those set forth herein shall be applicable to the #zoning lot#. In no event shall the maximum #floor area ratio# on the #zoning lot# exceed 7.2.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

For the purposes of this Section, the term "disabled" shall be applicable to any person who in the determination of the New York City Commissioner of Health has an impairment which is expected to be of long-continued and indefinite duration, is a substantial impediment to his or her ability to live independently, and is of a nature that such ability could be improved by more suitable housing conditions.

(2/2/11)

74-95

Modifications of Housing Quality Special Permits

Housing Quality #developments# granted a special permit by the Board of Estimate, prior to August 14, 1987, may be started or continued pursuant to that special permit.

The City Planning Commission may, upon application, authorize modifications of special permits granted before August 14, 1987, under previous Sections 74-95 (Housing Quality Developments) and

74-97 (Special Provisions for a Housing Quality Development on a Through Lot Divided by Residence-Manufacturing District Boundaries with a Substantial Grade Differential).

No such modification may create a new #non-compliance# or increase the degree of an existing #non-compliance#.

#Non-compliance# shall be measured pursuant to the applicable district #bulk# regulations and the provisions of Article II, Chapter 8.

In no event may the Commission grant a modification of a previously approved special permit, which would:

- (a) increase the height of the #building#;
- (b) extend the location of the exterior walls of the #building#;
- (c) increase the portion of the #zoning lot# covered by the #building#;
- (d) increase the #floor area# on the #zoning lot#;
- (e) reduce the amount of indoor and outdoor recreation space other than laundry rooms in the #building#;
- (f) reduce the amount of #bulk# storage within a #dwelling unit# or reduce shared #bulk# storage below 40 cubic feet of storage space for each additional 300 square feet of #dwelling unit#, or portion thereof, above 450 square feet; or
- (g) affect the provision and maintenance of off-site neighborhood improvements.

(7/18/95)

74-99

Lapse of Authorization or Special Permit

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

Chapter 5

Certifications

(4/30/12)

75-00

CERTIFICATIONS

(4/30/12)

75-01

Certification for Rooftop Greenhouses

A rooftop greenhouse shall be excluded from the definition of #floor area# and may exceed #building# height limits, upon certification by the Chairperson of the City Planning Commission that such rooftop greenhouse:

- (a) is located on the roof of a #building# that does not contain #residences# or other #uses# with sleeping accommodations;
- (b) will only be used for cultivation of plants, or primarily for cultivation of plants when #accessory# to a #community facility use#;
- (c) is no more than 25 feet in height;
- (d) has roofs and walls consisting of at least 70 percent transparent materials, except as permitted pursuant to paragraph (f)(3) of this Section;
- (e) where exceeding #building# height limits, is set back from the perimeter wall of the #story# immediately below by at least six feet on all sides; and
- (f) has been represented in plans showing:
 - (1) the area and dimensions of the proposed greenhouse, the location of the existing or proposed #building# upon which the greenhouse will be located, and access to and from the #building# to the greenhouse;
 - (2) that the design of the greenhouse incorporates a rainwater collection and reuse system; and

- (3) any portions of the greenhouse dedicated to office or storage space #accessory# to the greenhouse, which shall be limited to 20 percent of the floor space of the greenhouse, and shall be exempt from the transparency requirement in paragraph (d) of this Section.

Plans submitted shall include sections and elevations, as necessary to demonstrate compliance with the provisions of paragraphs (a) through (f) of this Section, as applicable. A copy of the proposed rooftop greenhouse plan shall be delivered to the affected Community Board, which may review such proposal and submit comments to the Chairperson of the Commission. The certification of a rooftop greenhouse shall not be complete until the earlier of the date that the affected Community Board submits comments regarding such proposal to the Chairperson of the Commission or informs the Chairperson of the Commission that such Community Board has no comments; or 45 days from the date that such proposal was submitted to the affected Community Board.

No building permits or certificates of occupancy related to the addition of #residences# or other #uses# with sleeping accommodations within the #building# may be issued by the Department of Buildings unless and until such rooftop greenhouse has been fully dismantled. A Notice of Restrictions shall be recorded for the #zoning lot# providing notice of the certification pursuant to this Section. The form and contents of the legal instrument shall be satisfactory to the Chairperson of the City Planning Commission, and the filing and recording of such instrument shall be a precondition to the use of such rooftop greenhouse. The recording information for the rooftop greenhouse certification shall be referenced on the first certificate of occupancy to be issued after such notice is recorded, as well as all subsequent certificates of occupancy, for as long as the rooftop greenhouse remains intact.

(12/15/61)

Chapter 6
Location of District Boundaries

(12/15/61)

76-00
MEASUREMENT OF DISTANCES

(12/15/61)

76-01
Method of Measurement

Except as otherwise specifically provided, all prescribed distances shall be measured in a straight line, not necessarily coinciding with a #street line#.

(12/15/61)

76-10
DISTRICT BOUNDARIES ON THE ZONING MAPS

(12/15/61)

76-11
General Provisions

The district boundaries on the #zoning maps# shall be interpreted in accordance with the provisions set forth in Sections 76-12 (Area Enclosed by District Boundary Line), 76-13 (Location of Boundary Line) and 76-14 (Additional Rules of Construction).

(12/15/61)

76-12
Area Enclosed by District Boundary Line

An area enclosed by a district boundary line shall be in the district designated therein.

(12/15/61)

76-13

Location of Boundary Line

The precise location of a boundary line is to be interpreted in accordance with the provisions set forth in this Section, inclusive.

(12/15/61)

76-131

Boundary line parallel to the short dimension of block

In cases where a boundary line extends parallel to the short dimension of the #block# and no dimensions are shown, such boundary line shall be considered to be located:

- (a) in the case of C1-1, C4-1, C4-2 or C4-4 Districts, 200 feet from the nearest #street# within the district;
- (b) in the case of C1-2, C1-3, C2-1, C2-2, C2-3, C4-3 or C-7 Districts, 150 feet from the nearest #street# within the district; and
- (c) in the case of all other districts, 100 feet from the nearest #street# within the district.

(12/15/61)

76-132

Boundary line parallel to the long dimension of block between parallel streets

In case of parallel #streets#, where a boundary line extends parallel to the long dimension of the #block# and no dimension is shown, such boundary line shall be considered to coincide with the center line of the #block#.

(12/15/61)

76-133

Boundary line parallel to the long dimension of block between streets which are not parallel

In case of #streets# which are not parallel, where a boundary line extends parallel to the long dimension of the #block# and no dimension is shown, such boundary line shall be considered as the bisector of the angle formed by prolonging the #street lines# to an intersection.

(12/15/61)

76-14

Additional Rules of Construction

(2/26/67)

76-141

When distance from street line shown

In cases where the boundary line is shown by a dimension as being located a specific distance from a #street line#, this distance shall be considered to be measured from the nearest #street line# of the #street# from which dimensioned.

In cases where a #Limited Height District# boundary line appears to be identical or approximately identical with the boundary line of another district whose location is shown by a dimension, the boundary line of the #Limited Height District# shall be considered to be identical with the boundary line of the other district.

(6/11/74)

76-142

Boundary line within street

In cases where the boundary line is given a position within a #street#, it shall be considered to be in the center of the #street#.

In cases where a C1 or C2 District is mapped within a #Residence District# and such C1 or C2 District abuts a #street line#, the boundary line along such abutting portion shall be deemed to be located in the center of the abutting #street#.

(12/15/61)

76-143

Boundary line oblique to streets

In cases where a boundary line is shown having a position oblique to the #streets# bounding the #block# in which it is located, it shall (unless otherwise fixed) be considered to be the bisector of the angle formed by the intersection of lines 100 feet from and parallel to each of said bounding #streets#, this distance being measured at right angles to said #street lines#.

(12/15/61)

76-144

Boundary line adjoining a railroad

In cases where a boundary line is shown as adjoining a railroad, it shall (unless otherwise fixed) be considered to coincide with the boundary line of the railroad right-of-way.

(12/15/61)

76-145

Boundary line coinciding with parks, cemeteries or navigable waters

In cases of parks, cemeteries, or navigable waters, the boundary line shall (unless otherwise fixed) be considered to coincide with the boundary line of the park or the cemetery or the pierhead line, except that in cases where no pierhead line has been established, the shore line shall control.

(12/15/61)

76-146

Islands

Any island, or portion thereof, outside of the shore or pierhead lines, that is not a #public park# shall, unless otherwise designated or determined by the City Planning Commission, be considered to be in an R3-2 District.

(12/15/61)

76-147

Park boundary line

The boundary line of a #public park# shall be considered a district boundary line.

(10/24/74)

76-148

Scenic View District boundary line

The boundary lines of #Special Scenic View Districts# are set forth in Section 102-60 (SPECIAL SCENIC VIEW DISTRICTS SPECIFIED).

(12/15/61)

Chapter 7

Special Provisions for Zoning Lots Divided by District Boundaries

(12/15/61)

77-00

GENERAL PROVISIONS

(12/15/61)

77-01

Applicability of This Chapter

Whenever any #zoning lot# is located in two or more districts in which different #uses# are permitted, or in which different #use#, #bulk#, #accessory# off-street parking and loading, or other regulations apply, the provisions of this Chapter shall apply.

(2/2/11)

77-02

Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution

Whenever a #zoning lot# is divided by a boundary between two or more districts and such #zoning lot# did not exist on December 15, 1961, or any applicable subsequent amendment thereto, each portion of such #zoning lot# shall be regulated by all the provisions applicable to the district in which such portion of the #zoning lot# is located. However, the provisions of paragraph (a) of Section 77-22 (Floor Area Ratio) and Section 77-40 (SUPPLEMENTAL REGULATIONS) shall apply to #zoning lots# created at any time where different #bulk# regulations apply to different portions of such #zoning lot#.

(12/15/61)

77-03

Zoning Lots Existing Prior to Effective Date or Amendment of Resolution

Whenever a #zoning lot# is divided by a boundary between two or more districts and such #zoning lot# existed on December 15, 1961, or any applicable subsequent amendment thereto, the provisions of this Resolution may be applied to such #zoning lot# as set forth in subsequent Sections of this Chapter. Except as specifically provided in this Chapter, each portion of such #zoning lot# shall be regulated by all the provisions applicable to the district in which such portion of the #zoning lot# is located.

(12/15/61)

77-10 USE REGULATIONS

(12/5/90)

77-11 Conditions for Application of Use Regulations to Entire Zoning Lot

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts in which different #uses# are permitted, the #use# regulations applicable to the district in which more than 50 percent of the #lot area# of the #zoning lot# is located may apply to the entire #zoning lot#, provided that the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

Whenever the #use# regulations are so applied, the district boundary may be assumed to be relocated accordingly, and the #bulk#, off-street parking and loading, and all other regulations applying to such expanded district shall apply to the entire #zoning lot#. However, when the #zoning lot# is divided by a district boundary between a district limited to #single-# or #two-family residences# and a district permitting multiple dwellings, the #use# and #bulk# regulations of an R3-2 District shall apply in the R1, R2, R3A, R3X or R3-1 portion, and the #use# and #bulk# regulations of an R4 District shall apply in the R2X, R4A, R4-1 or R4B portion.

Except as specifically provided by the provisions of a special purpose district, the provisions of this Section shall apply to #zoning lots# which are divided by a special purpose district boundary line.

(6/25/64)

77-12

Application of Use Regulations under All Other Conditions

Whenever a #zoning lot# is divided by a boundary between districts in which different #uses# are permitted and the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) do not apply, the applicable #use# regulations for each district shall apply to that portion of the #zoning lot# located within such district, except as provided in Section 73-42 (Enlargement of Uses across District Boundaries) or 73-52 (Modification for Zoning Lots Divided by District Boundaries).

The regulations governing #use# are set forth in Article II, Chapter 2; Article III, Chapter 2; and Article IV, Chapter 2.

(12/15/61)

77-20

BULK REGULATIONS

(9/27/62)

77-21

General Provisions

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts with different #bulk# regulations, and the provisions of Sections 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) or 77-211 (Conditions for application of bulk regulations to entire zoning lot) do not apply, the #bulk# regulations may apply as set forth in Sections 77-22 to 77-29, inclusive, relating to Bulk Regulations.

(12/5/90)

77-211

Conditions for application of bulk regulations to entire zoning lot

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between:

- (a) two #Residence Districts# limited to #single-# or #single-# and #two-family residences#; or
- (b) two #Commercial Districts# or two #Manufacturing Districts# in which the same #uses# are permitted but different #bulk# regulations apply;

the #bulk# regulations applicable to the district in which more than 50 percent of the #lot area# of the #zoning lot# is located may apply to the entire #zoning lot#, provided that the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

Whenever the #bulk# regulations are so applied, the district boundary may be assumed to be relocated accordingly, and the off-street parking and loading and all other regulations applying to such expanded district shall apply to the entire #zoning lot#.

Except as specifically provided by the provisions of a Special Purpose District, the provisions of this Section shall apply to #zoning lots# that are divided by a Special Purpose District boundary line.

(2/2/11)

77-22

Floor Area Ratio

The maximum #floor area ratio# permitted on each portion of such #zoning lot# for the applicable type of #building# or #buildings# on such #zoning lot# shall be determined under the applicable regulations of Articles II, III and IV.

Each such #floor area ratio# shall be multiplied by the percentage of the #zoning lot# to which such #floor area ratio#

applies. The sum of the products thus obtained shall be the adjusted maximum #floor area ratio# applicable to such #zoning lot#.

In applying this provision, the #floor area# bonus permitted for #publicly accessible open areas# or #arcades#, under the applicable regulations of this Resolution, shall apply only to such #publicly accessible open areas#, #arcades# or portions thereof, as are located in a district in which such bonus is granted.

When a #zoning lot# (with a #height factor# greater than 21) does not have a specified maximum #floor area ratio#, for the purpose of computing the adjusted maximum #floor area ratio#, the #floor area ratio# of such #zoning lot# shall be deemed to be that which can be achieved at the minimum required #open space ratio# for such #zoning lot#.

The #floor area# resulting from application of the adjusted maximum #floor area ratio# may be located anywhere on the #zoning lot#, subject to all other regulations of this Resolution, and provided that the #floor area ratio# for any portion of the #zoning lot# within one district shall not exceed the maximum #floor area ratio#, by #height factor#, if applicable, specified for that district, or the adjusted maximum #floor area ratio# for the #zoning lot#, whichever is greater, except as follows:

- (a) In R3-2 Districts, R4 Districts, except R4A, R4-1 and R4B Districts, R5 Districts, and equivalent #Commercial Districts#, and for #Quality Housing buildings# in R6, R7 and R8 Districts and equivalent #Commercial Districts# outside the #Manhattan Core#, the #residential floor area ratio# of that portion of the #zoning lot# fronting on and within 100 feet of a #wide street# and permitting the greater maximum permitted #residential floor area ratio# may exceed the maximum permitted #residential floor area ratio# for the portion of the #zoning lot# by up to 20 percent, provided that the maximum #residential floor area ratio# for the #zoning lot# does not exceed the adjusted maximum #residential floor area ratio# applicable to such #zoning lot#.
- (b) For portions of #zoning lots# within an R2X, R3-1, R3A, R3X, R4-1, R4A or R4B District not subject to the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot), the #floor area ratio# for such portion of the #zoning lot# shall not exceed the maximum #floor area ratio# specified for that district.

(2/2/11)

77-23

Open Space Ratio

The #open space# required for such #zoning lot# shall be computed separately for each portion of the #zoning lot# under the applicable regulations of the underlying districts. The total #open space# provided on the #zoning lot# shall not be less than the sum of such required #open space# so computed.

For portions of the #zoning lot# located in districts that have required #open space ratios#, the required #open space# for each such portion is computed by multiplying the #lot area# of that portion, by the maximum #floor area ratio# permitted for the applicable type of #building# or #buildings#, by the minimum #open space ratio# required at that #floor area ratio#, divided by 100.

For portions of the #zoning lot# located in other districts that do not have required #open space ratios# but do have required #open space#, the required #open space# for each such portion is computed by multiplying the #lot area# of that portion, by the minimum percentage of #open space# required, divided by 100.

For portions of the #zoning lot# located in districts that do not have a required #open space ratio# or required #open space#, no #open space# shall be required but any required #yards#, or #publicly accessible open area# provided, for which a #floor area# or #lot area# bonus is taken, shall be in addition to the amount of #open space# required on the remaining portion of the #zoning lot#. No open area may be counted twice in fulfilling these requirements.

The required #open space# may be located anywhere on the #zoning lot# subject to all other regulations of this Resolution and provided that the #open space ratio# for any portion of the #zoning lot# within one district shall not be less than 60 percent of the required #open space ratio# for that district.

(2/2/11)

77-24

Lot Coverage

The maximum percent of #lot coverage# permitted on each portion of a #zoning lot# shall be determined under the applicable

regulations of Article II, Chapters 3 and 4.

Each such maximum percent of #lot coverage# shall be multiplied by the #lot area# of the portion of the #zoning lot# to which such percent of #lot coverage# applies. The sum of the areas of #lot coverage# thus obtained shall be the maximum area of #lot coverage# for the #zoning lot#. Such maximum area of #lot coverage#, divided by the #lot area# of the #zoning lot#, shall be the adjusted maximum percent of #lot coverage# for the #zoning lot#.

A #building# whose #lot coverage# does not exceed the adjusted maximum percentage of #lot coverage# may be located anywhere on such #zoning lot# or portion of such #zoning lot#, subject to all other regulations of this Resolution, and provided that the percentage of #lot coverage# for any portion of the #zoning lot# within one district shall not exceed the maximum percentage of #lot coverage# specified for that district, or the adjusted maximum percentage of #lot coverage# for the #zoning lot#, whichever is greater.

If a #zoning lot# divided by a boundary between two or more districts is partly a #corner lot# and partly an #interior lot# or #through lot#, separate adjusted maximum percentages of #lot coverage# shall be computed for such #corner lot# and for such #interior lot# or #through lot# and applied separately to such #corner lot# and to such #interior lot# or #through lot#, as though each were a separate #zoning lot#. The provisions of this paragraph shall not apply to #zoning lots# located on #waterfront blocks#.

If a #zoning lot# is partly in a district in which there is no maximum permitted percentage of #lot coverage# for the #use#, the provisions of this Section shall apply to such portions of the #zoning lot# as are in a district with a maximum #lot coverage# requirement.

In R2X, R3, R4 or R5 Districts for #residential# portions of #buildings#, each portion of the #zoning lot# shall be governed by the #lot coverage# regulations specified for the district in which it is located as set forth in Article II, Chapter 3.

Wherever a #zoning lot# is divided by a district boundary in which one portion of the #zoning lot# is located in a district having a #lot coverage# requirement and the other portion is located in a district having an #open space ratio# requirement, the required #open space# for the portion having the #open space ratio# requirement shall be computed in accordance with Section 77-23 (Open Space Ratio). The inverse of such required #open space# shall be the maximum #lot coverage# permitted on that

portion of the #zoning lot#, and may be located anywhere on the #zoning lot# subject to all other regulations of this Resolution.

(2/2/11)

77-25

Density Requirements

Whenever a #zoning lot# is divided by a boundary between districts with different density requirements, the maximum number of #dwelling units# or #rooming units# permitted on the #zoning lot# shall equal the sum of the maximum number of #dwelling units# or #rooming units# permitted for each portion of the #zoning lot# in accordance with the applicable district regulations. Such #dwelling units# or #rooming units# may be located wherever a #building# is permitted on the #zoning lot#. However, for portions of #zoning lots# in R1, R2, R3-1, R3A, R3X, R4-1, R4A, R4B or R5A Districts, no more than one or two #dwelling units# may be provided, as applicable.

(2/2/11)

77-26

Minimum Lot Area and Lot Width Requirements for Residences

The minimum #lot area# and #lot width# regulation applying to the district with the more restrictive regulations shall apply to the entire #zoning lot#.

(2/2/11)

77-27

Yard Regulations

Each portion of the #zoning lot# shall be governed by the #yard# regulations specified for the district in which it is located.

(2/2/11)

77-28

Height and Setback Regulations

For #zoning lots# divided by district boundaries in which all applicable height and setback regulations include the use of #sky exposure planes#, the height and setback regulations of each #street# frontage of the #zoning lot# shall be determined by multiplying the quantitative requirements set forth in the regulations of the Chapters, which are applicable to each portion of such #street# frontage, by the percentage of such #street# frontage to which such regulations apply. The sum of the products obtained shall be the controlling requirements for the #zoning lot#.

In determining the percentage of such #street# frontage, the percentage shall be based on the total frontage of the #zoning lot# along such #street#.

However, if any portion of such #zoning lot# is located within a #Limited Height District#, the provisions of Sections 23-691, 24-591, 33-491 or 43-49 (Limited Height Districts) shall apply to such portion of the #zoning lot#.

For all other #zoning lots#, each portion of such #zoning lot# shall be regulated by the height and setback provisions applicable to the district in which such portion of the #zoning lot# is located.

In R2X, R3, R4 or R5 Districts, for #residential# portions of #buildings#, each portion of the #zoning lot# shall be governed by the height and setback regulations specified for the district in which it is located, as set forth in Article II, Chapter 3.

For the purposes of defining a #building# envelope pursuant to paragraph (b) of Section 23-631 (Height and setback in R1, R2, R3, R4 and R5 Districts), apex points may be located on a zoning district boundary which divides a #building#.

Furthermore, if any portion of a #zoning lot# is located in an R2X, R3, R4, R4A or R4-1 District, the height and setback regulations specified for such district may apply to the entire #zoning lot# provided that such district comprises more than 50 percent of such #zoning lot#, and the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

77-29

Tower Regulations

If 50 percent or more of a #zoning lot# is located within a district to which the provisions of Sections 23-65, 24-54, 33-45 or 43-45 (Tower Regulations) apply, and the remaining portion of the #zoning lot# is within a district to which such provisions do not apply, any #building# or portion thereof which, in the aggregate, occupies not more than 40 percent or, on small lots, the percentage set forth in Sections 23-65, 24-54, 33-454 or 43-451 (Towers on small lots) of the #lot area# of the entire #zoning lot# (which #building# or portion thereof is hereinafter referred to as a tower) may penetrate any applicable established #sky exposure plane#, provided that such tower shall comply with the applicable setback requirements or restrictions on aggregate area that may be occupied within 50 feet of a #narrow street# or 40 feet of a #wide street#, as set forth in Sections 23-65, 24-54, 33-45 or 43-45.

If 50 percent or more of a #zoning lot# is located in a district in which the provisions of Sections 33-455 (Alternate regulations for towers on lots bounded by two or more streets), 33-456 (Alternate setback regulations on lots bounded by two or more streets) or 33-457 (Tower setbacks on narrow blocks) apply, and the remaining portion of the #zoning lot# is within a district in which such provisions do not apply, any #building# or any tower that occupies not more than the applicable percent of the #lot area# of a #zoning lot# as set forth in Section 33-455 or 33-456 and which complies with the applicable setback requirements as set forth in Sections 33-455, 33-456 or 33-457, may penetrate any applicable established #sky exposure plane#.

Subject to the requirements set forth hereinbefore and those specified in Sections 77-22 (Floor Area Ratio) and 77-23 (Open Space Ratio), such tower may be located anywhere on such #zoning lot#.

(12/15/61)

77-30

OFF-STREET PARKING AND LOADING REGULATIONS

(12/15/61)

77-31

General Provisions

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts with different off-street parking or loading regulations, and the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) do not apply, the off-street parking and loading regulations may apply as set forth in this Chapter.

(12/15/61)

77-32

Districts of Same General Use Class

When such boundary is between two #Residence Districts# or two #Commercial Districts# or two #Manufacturing Districts#, the provisions of this Section shall apply.

(2/2/11)

77-321

Provisions governing off-street parking for residences

The percentage requirements for #accessory# off-street parking for #residences# applicable to each portion of the #zoning lot# shall be multiplied by the percentage of the total #lot area# of the #zoning lot# to which each such requirement applies. The sum of the products obtained shall be the percentage requirement applicable to #residences# on such #zoning lot#. Such off-street parking spaces may be located anywhere on the #zoning lot# without regard to district boundaries, provided that such spaces shall conform to all the other applicable provisions of this Resolution.

(2/2/11)

77-322

Provisions governing off-street parking for non-residential uses

For non-#residential uses#, the requirements for #accessory# off-street parking or loading of that district in which more than 50 percent of the total area of the #zoning lot# is located, shall apply to the entire #zoning lot#. The parking spaces or loading berths may be located anywhere on the #zoning lot# without regard

to district boundaries, provided that such spaces or berths shall conform to all other applicable regulations of this Resolution.

(12/15/61)

77-33

Districts of Different General Use Class

When such boundary is between a #Residence District# and a #Commercial District#, or between a #Commercial District# and a #Manufacturing District#, or between a #Residence District# and a #Manufacturing District#, the provisions of this Section shall apply.

(12/15/61)

77-331

Use permitted in both districts

For any #use# which is permitted in both such districts, the applicable requirements for #accessory# off-street parking and loading of that district in which more than 50 percent of the #zoning lot# is located shall apply to the entire #zoning lot#. The parking spaces or loading berths may be located anywhere on the #zoning lot# without regard to district boundaries, provided that such spaces or berths shall conform to all other applicable regulations of this Resolution.

(12/15/61)

77-332

Use not permitted in both districts

For any #use# which is permitted in one such district but not in the other, the applicable district requirements for #accessory# off-street parking and loading shall be satisfied entirely within the district within which such #use# is permitted, provided, however, that:

- (a) the required parking spaces for #residential# or #community facility uses#, or the loading berths for #community facility uses#, may be located on that portion of the #zoning lot# which is in a C8 or #Manufacturing District#;

- (b) the required parking spaces or loading berths for any #commercial use# may be located on that portion of the #zoning lot# which is in a #Manufacturing District#;
- (c) the required parking spaces or loading berths for #manufacturing uses# may be located on that portion of the #zoning lot# which is in a C8 District; and

provided, further, that such spaces or berths shall conform to all other applicable regulations of this Resolution.

(4/30/08)

77-40

SUPPLEMENTAL REGULATIONS

For #buildings developed# or #enlarged# on #zoning lots# in which a district boundary divides the #building# such that the Quality Housing Program applies in one portion of the #building# but not the other, the following Sections of Article II, Chapter 8, shall apply to the entire #building# or #zoning lot#, as applicable:

Section 28-20 (BUILDING INTERIOR)

Section 28-30 (RECREATION SPACE AND PLANTING AREAS)

Section 28-40 (SAFETY AND SECURITY)

Section 28-50 (PARKING FOR QUALITY HOUSING).

Where each zoning district has a different recreation space requirement, and/or density of #dwelling units# per corridor standard, the following rule shall apply:

To arrive at one standard for the #building#, each standard shall be multiplied by the percentage of the #zoning lot# to which such standard applies. The sum of the products thus obtained shall be the adjusted standard applicable to the #building#. For any portion of the #zoning lot# in an R3-2, R4 (except R4-1, R4A or R4B), or R5 District, the R6B District standards shall apply.

Chapter 8

Special Regulations Applying to Large-Scale Residential Developments

(8/18/77)

78-00

GENERAL PURPOSES, DEFINITIONS AND GENERAL PROVISIONS

(8/24/67)

78-01

General Purposes

The regulations set forth in this Chapter are designed to deal with certain types of problems which arise only in connection with large-scale residential developments and to promote and facilitate better site planning and community planning through modified application of the district regulations in such developments.

For large-scale residential developments involving several zoning lots but planned as a unit, the district regulations may impose unnecessary rigidities and thereby prevent achievement of the best possible site plan within the overall density and bulk controls. For such developments, the regulations of this Chapter are designed to allow greater flexibility for the purpose of securing better site planning for development of vacant land and to provide incentives toward that end while safeguarding the present or future use and development of surrounding areas and, specifically, to achieve more efficient use of increasingly scarce land within the framework of the overall bulk controls, to enable open space in large-scale residential developments to be arranged in such a way as best to serve active and passive recreation needs of the residents, to protect and preserve scenic assets and natural features such as trees, streams and topographic features, to foster a more stable community by providing for a population of balanced family sizes, to encourage harmonious designs incorporating a variety of building types and variations in the siting of buildings, and thus to promote and protect public health, safety and general welfare.

(2/2/11)

78-02

Definitions

Words in italics are defined in Section 12-10 or, if applicable exclusively to this Chapter, in this Section.

Floor area

For the purposes of this Chapter, in R3, R4 or R5 Districts, #floor area# shall be as defined in Section 12-10, except that:

- (a) #floor area# shall not include up to 200 square feet of floor space located in any #story# used for required #accessory# off-street parking spaces within individual garages; and
- (b) within the definition of #floor area# in Section 12-10, listed under "#floor area# includes," paragraph (i)(3) shall not apply, and listed under "#floor area# of a #building# shall not include," paragraph (6)(ii), shall not apply.

(2/2/11)

78-03

Applicability of this Chapter

#Large-scale residential developments# are governed by all the #use#, #bulk#, off-street parking and loading, and other applicable regulations of this Resolution, except for such special provisions as are specifically set forth in this Chapter and apply only to such #large-scale residential developments#. However, the Quality Housing Program is inapplicable in #large-scale residential development#.

Any #large-scale residential development# having a total of at least 500 #dwelling units# shall be subject to the provisions of Section 78-11 (General Provisions), relating to Provision of Public Facilities in Connection with Large-Scale Residential Developments.

#Large-scale residential developments# within the #waterfront area# shall be subject to the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

(8/24/67)

78-04

Powers of the City Planning Commission

(8/24/67)

78-041

Authorization by Commission

For any #large-scale residential development# for which proposed modifications of the applicable district regulations are limited to those which may be granted in accordance with the provisions of Sections 78-21 to 78-23, inclusive, relating to Use Regulations, Sections 78-311 and 78-313 relating to Bulk Regulations, Section 78-41 (Location of Accessory Parking Spaces), or Sections 78-51 to 78-53, inclusive, relating to Subdivision of Large-Scale Residential Developments, the City Planning Commission may grant such modifications in accordance with the provisions of such specified Sections and may prescribe appropriate conditions and safeguards thereon.

(12/18/68)

78-042

Special permits

For #large-scale residential developments# for which proposed modifications of the applicable district regulations include those which may be granted only in accordance with the provisions of Sections 78-312 to 78-33, inclusive, relating to Bulk Regulations, or Section 78-42 (Parking Regulations for Commercial and Community Facility Uses), the City Planning Commission may grant special permits for such modifications in accordance with the applicable provisions of such specified Sections and other sections of this Chapter and may prescribe appropriate conditions and safeguards thereon.

(2/2/11)

78-043

Requirements for findings

The requirements for findings as set forth in this Chapter shall constitute a condition precedent to the grant of any such modification by special permit or otherwise. The decision or determination of the City Planning Commission shall set forth each required finding in each grant of modifications for a #large-scale residential development#. Each finding shall be supported by substantial evidence or data considered by the Commission in reaching its final decision.

(8/24/67)

78-044

Contractual agreements

The City of New York may enter into contractual agreements with the applicant as may be required to assure compliance with the terms and conditions of the modifications granted under the provisions of this Chapter.

(2/2/11)

78-05

Requirements for Applications

An application to the City Planning Commission for an authorization or special permit respecting any #large-scale residential development# shall include a site plan and related schedules showing the location and proposed #use# of all #buildings or other structures# on the site, the location of existing natural features such as important trees or clusters of trees, streams or rock formations, and all information necessary to indicate the authorizations requested and their justification.

The Commission shall require, where relevant, a time schedule for carrying out the proposed #large-scale residential development#, a financial plan, a subdivision plan and, in the case of a site plan providing for common #open space# or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

(10/9/13)

78-06

Ownership

- (a) Except as otherwise provided in this Section, any #large-scale residential development# for which application is made for an authorization or special permit or modification thereto, in accordance with the provisions of this Chapter, shall be on a tract of land that at the time of application is all under the control of the applicant(s) as the owner(s) or holder(s) of a written option to purchase. Except as otherwise provided in this Section, no authorization or special permit or modification thereto, shall be granted for such #large-scale residential development# unless the applicant(s) acquired actual ownership (single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10 for all #zoning lots# comprising the #large-scale residential development#) of, or executed a binding sales contract for, all of the property comprising such tract.
- (b) Notwithstanding the provisions of paragraph (a) of this Section, the following actions shall be permitted:
- (1) When a #large-scale residential development# is part or all of a designated urban renewal project, the City's urban renewal agency, or a person authorized by such agency, may make application for and may be granted authorizations or special permits under the provisions of this Chapter, even though such #large-scale residential development# does not meet the ownership requirements set forth in paragraph (a) of this Section. All parcels comprising such #large-scale residential development# shall be within the designated urban renewal area and subject to the urban renewal controls set forth in the approved urban renewal plan.
 - (2) In the event that the urban renewal plan has expired, the owner(s) of a vacant parcel(s) within such #large-scale residential development#, if located in a former urban renewal area listed in this paragraph, (b)(2), may make application for and may be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter with respect to such parcel(s), subject to the conditions of paragraph (b)(5) of this Section.

Borough	Community District	Former Urban Renewal Area (URA)
Manhattan	7	West Side URA

(3) The owner(s) of a developed parcel(s) within a #large-scale residential development# located in a former urban renewal area listed in paragraph (b)(2), where at least 50 percent of such parcel(s) is located within a C1-9 or C2-8 District, may make application for, and may be granted, modifications of authorizations or special permits previously granted under the provisions of this Chapter, in order to utilize available #floor area# for #commercial# or #community facility uses#, subject to the conditions of paragraph (b)(5) of this Section and provided further that:

- (i) no #residential use# existing prior to July 23, 2008, located above the level of the ground floor may be changed to a non-#residential use#;
- (ii) the #enlarged# portion of the #building# shall be restricted to #community facility uses# and #commercial uses# listed in Use Groups 6A, 6C and 6F, provided that any ground floor #community facility use#, and any bank or loan office shall occupy not more than 25 feet of the #wide street# frontage, measured to a depth of 30 feet from the #wide street line#, and no #community facility use# shall be permitted above the level of the second #story# ceiling;
- (iii) any #enlargement# fronting upon Columbus or Amsterdam Avenue shall contain a number of establishments, such that the entire #block# front on Columbus or Amsterdam Avenue shall contain no fewer than three establishments, each with a separate entrance on Columbus or Amsterdam Avenue. The Columbus or Amsterdam Avenue frontage of any one such establishment shall not exceed 100 feet;
- (iv) the ground floor #street wall# of an #enlargement# located within C1-9 or C2-8 Districts shall be glazed with transparent materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of the area of each such ground floor #street wall#, measured to a height of 12 feet above the level of the adjoining sidewalk or public access area;
- (v) required #open space# with appropriate circulation, seating, lighting and plantings shall be accessible and usable by all residents of the

#large-scale residential development#;

- (vi) a plan, including elevations, shall be submitted showing the proposed #building(s)# and modification, and #open space#; and
- (vii) the #enlargement# enhances the streetscape and the design promotes a harmonious relationship with the existing #buildings# and contiguous #blocks# within the #large-scale residential development#.

In addition, any significant adverse impacts resulting from a #development# or #enlargement# pursuant to such modifications, considered in combination with #developments# or #enlargements# within the former urban renewal area listed in paragraph (b)(2), previously the subject of modifications under this paragraph, (b)(3), shall have been avoided or minimized to the maximum extent practicable by incorporating as conditions to the modification those mitigative measures that have been identified as practicable.

The provisions of paragraphs (b)(3)(ii) and (b)(3)(iii) shall not apply to #enlargements# of #community facility uses# and bank or loan offices existing prior to July 23, 2008, provided that such #enlargement# does not increase existing #street# frontage on Columbus or Amsterdam Avenues by more than ten feet.

An application filed pursuant to this paragraph, (b)(3), shall be referred to the affected Community Board, and the City Planning Commission shall not grant any modification of an authorization or special permit pursuant thereto prior to 45 days after such referral.

- (4) For any #large-scale residential development# located in the Community District(s) listed in this paragraph, (b)(4), the owner(s) of a vacant parcel(s) may make application for and may be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter with respect to such parcel(s), subject to the conditions of paragraph (b)(5).

Borough
Queens

Community District

7

- (5) Modifications of authorizations or special permits previously granted under the provisions of this

Chapter, as permitted in paragraphs (b)(2), (b)(3) and (b)(4) of this Section, shall not:

- (i) result in the distribution of #floor area# from any #zoning lot# not coextensive with or included within such parcel(s); or
- (ii) increase the total allowable #floor area# on any #zoning lot# included within such parcel(s) beyond that amount permitted by the applicable district regulations.

Such modifications may include the withdrawal of such parcel(s) from the boundaries of the #large-scale residential development#, provided that such modification would not create a #non-compliance# within the #large-scale residential development#.

- (6) When a #large-scale residential development# is to be #developed# or #enlarged# through assemblage by any other governmental agency, other than the City's urban renewal agency, or its agent, having the power of condemnation, authorizations or special permits may be applied for and may be granted under the provisions of this Chapter, even though such #large-scale residential development# does not meet the ownership requirements set forth elsewhere in this Section.
- (7) In the event that the urban renewal plan has expired, the owner(s) of a parcel(s) of land previously used as open space for a term of years that has expired within such #large scale residential development#, if located in a former urban renewal area listed in this paragraph, (b)(7), may make application for and be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter, where such modifications do not seek the distribution of #floor area# from any #zoning lot# not included within such parcel(s), for a #development# that includes a #building# and public open space permitted by the applicable district regulations. Such modifications shall result in a site plan that includes a #building# and public open space that are appropriately located and oriented with respect to other uses in the surrounding area.

Borough	Community District	Former Urban Renewal Area (URA)
Manhattan	8	Ruppert Brewery URA

(7/18/95)

78-07

Lapse of Authorization or Special Permit

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

(8/24/67)

78-10

PROVISION OF PUBLIC FACILITIES IN CONNECTION WITH LARGE-SCALE RESIDENTIAL DEVELOPMENT

(8/24/67)

78-11

General Provisions

The following regulations apply to all #large-scale residential developments# with a total of at least 500 #dwelling units#, except duly authorized urban renewal projects, as a condition precedent to the issuance of a building permit.

(2/2/11)

78-111

Public facilities report

Within one month after a request from the Chairperson of the City Planning Commission, the Department of City Planning shall make a report, based upon information from the Department of Education and other appropriate City Departments, on the anticipated effect of the proposed #large-scale residential development# on the

existing capacity of public #schools# or other public facilities serving the area in which the proposed #large-scale residential development# is to be located.

(2/2/11)

78-112

If no additional public facilities needed

If the Department of City Planning reports that the proposed #large-scale residential development# will not require any significant addition to the public facilities serving the neighborhood, then the requirements of this Section shall be considered to be satisfied.

(2/2/11)

78-113

If additional public facilities needed

If the Department of City Planning reports that the proposed #large-scale residential development# can be expected to create a need for one or more new public facilities in the neighborhood, the City Planning Commission may, in its discretion, recommend that a site for one or more such facilities should be reserved within the site of such proposed #large-scale residential development#. If the Commission does so recommend, the issuance of a building permit shall be withheld for a period not to exceed three months. In such a case, the requirements of this Section shall be considered to be satisfied:

- (a) if, within a period of less than three months, the developer and the appropriate City officials have agreed on the reservation of such a site or sites, or official proceedings have been initiated to authorize acquisition of such a site or sites, or if necessary to amend the capital budget to include the project as a prerequisite to site acquisition; or
- (b) in any event, at the expiration of the above-mentioned period of three months.

(8/24/67)

78-20

USE REGULATIONS

(1/22/70)

78-21

Permitted Uses

A #large-scale residential development# may include within its area any #residential uses#, #commercial uses# or #community facility uses# permitted in the district or districts in which it is located. The #commercial uses# in these #Commercial Districts# shall be restricted to #uses# permitted in C1, C2 or C4 Districts.

(2/2/11)

78-22

Accessory Uses in Large-Scale Residential Developments

A #large-scale residential development# in a #Residence District# may contain as #accessory uses#, any #commercial uses# listed in Use Group 6A or 6F which in the aggregate occupy not more than two percent of the total #floor area# in the #large-scale residential development#, and of which no single establishment occupies more than 15,000 square feet of #floor area#, provided that upon a review of the site plan, the City Planning Commission finds that such #commercial uses#:

- (a) will be primarily for the use of the residents of the #large-scale residential development# and will provide more convenient shopping for such residents;
- (b) are so located as to minimize interference with #residential# or recreational areas within the #large-scale residential development# and to avoid creation of traffic congestion or other objectionable influences affecting #residences# outside the #large-scale residential development#;
- (c) comply with all the applicable #bulk# and off-street parking and loading regulations for such #accessory commercial uses#, as set forth in Article II, Chapters 3 and 5; and
- (d) conform to those provisions of the following Sections which are applicable to #commercial uses# in C1 Districts:

Section 32-41 (Enclosure within Buildings)

Section 32-42 (Location within Buildings)

Sections 32-61 to 32-68, inclusive, relating to Sign Regulations.

(4/30/81)

78-23

Other Accessory Uses

(2/2/11)

78-231

Accessory swimming pools

Swimming pools may be authorized by the City Planning Commission as #accessory uses# even though not located on the same #zoning lots# as the principal #uses# to which they are related, provided that:

- (a) any such swimming pool is located in a common #open space# area and as a part of such area meets all the requirements set forth in Section 78-52 (Common Open Space);
- (b) the use of such swimming pool is restricted to the residents of the #large-scale residential development# or portion thereof served by such common #open space#, and their guests;
- (c) the edge of such swimming pool is located not less than 50 feet from any #lot line# on the periphery of the #large-scale residential development#, and is suitably screened from other areas on the same or adjacent #zoning lots#; and
- (d) such swimming pool complies in all other respects with the definition of #accessory use# as set forth in Section 12-10 (DEFINITIONS).

(4/30/81)

78-232

Accessory sewage disposal plants

In Staten Island, sewage disposal plants to serve not more than 50 #dwelling units# may be authorized by the City Planning Commission as #accessory uses# to be located anywhere within a #large-scale residential development# without regard for #zoning lot lines#, provided the Commission finds that:

- (a) the sewage disposal plant is located not closer than 100 feet from any #residential use#;
- (b) the #large-scale residential development# is arranged so as to best serve the active and passive recreation needs of the #residential development#, protect and serve scenic assets and natural features and provide suitable variations in the siting of #buildings#;
- (c) the sewage disposal plant is adequately landscaped and buffered from all #residential uses# on the same or adjacent #zoning lots#; and
- (d) the proposal promotes and protects the public health, safety and general welfare.

(2/2/11)

78-24

Special Permits

(2/2/11)

78-241

Waterfront and related commercial uses

For any #large-scale residential development# in a C4 District, the City Planning Commission may, by special permit modify applicable district regulations to allow #uses# listed in Use Group 14A, not otherwise allowed in such district, provided that:

- (a) the #uses# are appropriate for the location and blend harmoniously with the rest of the #large-scale residential development#; and
- (b) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the #large-scale residential development#.

(2/2/11)

78-242

Location of commercial uses

For any #large-scale residential development#, the City Planning Commission, by special permit, may allow #residential# and non-#residential uses# to be arranged within a #building# without regard for the regulations set forth in Section 32-42 (Location within Buildings) when terracing is required because of unusual topographic conditions in a #large-scale residential development# having a minimum area of 20 acres.

(8/24/67)

78-30

BULK REGULATIONS

(2/2/11)

78-31

Location of Buildings, Distribution of Bulk and Open Space and Modification of Height and Setbacks

(a) General provisions

For the purposes of this Section, the term "periphery" shall mean any #street line# bounding a #large-scale residential development# or any #lot line# abutting a #zoning lot# that is not part of the #large-scale residential development#. The term "wholly within" shall therefore mean any area of the #large-scale residential development# which is not within the area designated as "periphery." However, in R3-2 Districts, R4 Districts except R4A, R4-1 and R4B Districts, or R5 Districts except R5B Districts, the "periphery" shall also include all portions of a #large-scale residential development# within 100 feet of a peripheral #street line# or within 30 feet of any other peripheral #lot line#, except for portions directly opposite:

- (1) an area of at least 1.5 acres in a #Residence District# that is either vacant or #land with minor improvements#; or
- (2) a #large-scale residential development developed# pursuant to the provisions of paragraph (b) of this Section; or
- (3) a #Commercial# or a #Manufacturing District#.

All #buildings or other structures# in the periphery of a #large-scale residential development# shall comply with the height and setback regulations of Article II, Chapter 3, except as otherwise provided in this Section.

Special provisions applying to #large-scale residential developments# in R3, R4 or R5 Districts are set forth in paragraphs (b) and (c) of this Section. The provisions of paragraph (b) shall apply to any #large-scale residential development# in R3-2 Districts, R4 Districts except R4A, R4-1 and R4B Districts, or R5 Districts except R5B Districts. The provisions of paragraph (c) shall apply only to #large-scale residential developments# in all R3, R4 or R5 Districts that utilize the bonus provisions of Section 78-32 through 78-35, inclusive.

- (b) Alternate height and setback regulations for certain districts

In R3-2 Districts, R4 Districts except R4A, R4-1 and R4B Districts, or R5 Districts except R5B Districts, #buildings or other structures#, or portions thereof, "wholly within" a #large-scale residential development# may use the alternate height and setback regulations set forth in paragraphs (b)(1) through (b)(3) of this Section.

- (1) In R3-2 Districts, the height and setback regulations applicable to R4 Districts, except R4A and R4B Districts, may be used.
- (2) In R4 Districts, no portion of any #building or other structure#, including the apex of a roof, shall penetrate a plane 35 feet in height above the #base plane#.
- (3) In R5 Districts, no portion of any #building or other structure#, including the apex of a pitched roof, shall penetrate a plane 40 feet in height above the #base plane#.

- (c) Alternate #floor area# and #open space# regulations in R3, R4 or R5 Districts

In #large-scale residential developments# that utilize the bonus provisions of this Chapter, the #floor area ratio# and the #open space ratio# controls set forth in the following table shall apply in lieu of the #floor area ratio# and #lot coverage# controls of Article II, Chapter 3.

District	#Open Space Ratio#	#Floor Area Ratio#
R3	150	.50*
R4	80	.75*
R5	40	1.25

- * The #floor area ratio# in the table may be increased by up to 20 percent provided that any such increase in #floor area# is located under a sloping roof which rises at least 3 1/2 inches in vertical distance per each foot of horizontal distance and the structural headroom of such #floor area# is between five and eight feet. Any such additional #floor area# under a sloped roof shall not be used to compute the #open space ratio#

- (d) Authorizations may be granted for #buildings# to be located, #bulk# and #open space# distributed, and height and setback modified, in accordance with the provisions of this Section.
- (e) In R9, R10, C1-8, C1-9, C2-7 or C2-8 Districts, or in C1 or C2 Districts mapped within R9 or R10 Districts, #floor area# bonuses for #public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a #development# or #enlargement# with 25 percent or less of the total #floor area# of the #building# in #residential use#.

(2/2/11)

78-311

Authorizations by the City Planning Commission

When a #large-scale residential development# includes, or will include after subdivision, two or more #zoning lots#, the City

Planning Commission may authorize:

- (a) the total #floor area#, #lot coverage#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning lot lines#;
- (b) the total #open space# required by the applicable district regulations for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning lot lines#, except that where subdivision is authorized in accordance with the provisions of Section 78-51 (General Provisions), the Commission, in authorizing such distribution may allow reductions in the minimum required #open space# on individual #zoning lots# only where adequate provision is made for common #open space# to serve such lots.

If the required #open space# on the roof of a #community facility building# has an equivalent access arrangement acceptable to the Commission, it may authorize modification of requirements set forth in paragraph (b) of the #open space# definition in Section 12-10;

- (c) for #zoning lots# adequately served by common #open space#, the minimum required #lot area# as set forth in Section 23-32 (Minimum Lot Area or Lot Width for Residences) to be reduced, provided that any #residence# for which the minimum required #lot area# is so reduced shall be separated from all other #buildings# on the same or adjacent #zoning lots# by a distance consistent with the provisions of Section 23-71 (Minimum Distance between Buildings on a Single Zoning Lot), or in cases where at least one of the #buildings# is a one-family or two-family #detached# or #semi-detached# house, rowhouse, or series of rowhouses, by a lesser distance to be determined by the Commission;
- (d) the location of #buildings# without regard for #yard# regulations which would otherwise apply along portions of #streets# or #lot lines# "wholly within" the #large-scale residential development# provided that any #building# for which required #rear# or #side yards# are reduced shall be separated from all other #buildings# with which it does not share a party wall, on the same or adjacent #zoning lots#, by a distance consistent with the provisions of Section 23-71 or, in cases where at least one of the #buildings# is a single-family or two-family #detached# or #semi-detached# house, rowhouse or series of rowhouses, by a lesser distance to be determined by the Commission, where the location of

the #buildings# will not be detrimental to the privacy of the occupants of the #buildings# on the #block#;

- (e) the location of #buildings# without regard for the height and setback regulations which would otherwise apply along portions of #streets# "wholly within" the #large-scale residential development# or along #side# or #rear lot lines abutting# other #zoning lots# within the #large-scale residential development#, provided that any #building# for which required rear or side setbacks are reduced shall be separated from all other #buildings# with which it does not share a party wall, on the same or adjacent #zoning lots#, by a distance consistent with the provisions of Section 23-71;
- (f) the location of primary business entrances, #show windows# or #signs# along frontages which are adjacent only to other #zoning lots# within the #large-scale residential development#, without regard to restrictions applicable near #Residence District# boundaries, for the purpose of achieving better site planning and community planning;
- (g) special directional #signs# and their location and design within a #large-scale residential development# comprising an area of at least five acres provided that their construction would result in better pedestrian and vehicular circulation. The Commission shall in each case give due consideration to the effect of such #signs# on the surrounding residential area and may impose appropriate conditions and safeguards;
- (h) the location of #buildings# on a single #zoning lot# without regard for spacing between #buildings#, provided that the resultant spacing will not be reduced beyond an amount considered appropriate by the Commission and in no case by more than 15 percent of that required by Section 23-71.

For that portion of a #large-scale residential development# located in an R6 District, the Commission may authorize the permitted #floor area ratio# and required #open space ratio# to be determined on the basis of a #height factor# which is different than the actual #height factor# of such portion of the #large-scale residential development#, for the purpose of achieving better site planning and community planning.

When subdivision is authorized in accordance with the provisions of Section 78-51 and satisfactory provision is made for common #open space#, the Commission may consider such common #open space# in determining to what extent, if any, modifications of the #yard# regulations are justified.

For any #large-scale residential development#, the City Planning Commission may, upon application, authorize in R3, R4 and R5 Districts, modifications of the height and setback regulations set forth in Section 23-631 and paragraph (b) of Section 78-31 for #buildings# "wholly within" the #large-scale residential development# for the purposes of introducing variety or preserving natural features or view corridors.

(2/2/11)

78-312

Special permits by the City Planning Commission

For any #large-scale residential development#, the City Planning Commission may permit:

- (a) the total #floor area#, #lot coverage#, #dwelling units# or #rooming units# permitted by the applicable district regulations or by Sections 78-32 (Bonus for Good Site Plan) or 78-33 (Bonus for Common Open Space) for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning lot lines#;
- (b) the total #open space# required by the applicable district regulations or by Sections 78-32 or 78-33 for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning lot lines# except that where subdivision is authorized in accordance with the provisions of Section 78-51 (General Provisions), the Commission, in authorizing such distribution may allow reductions in the minimum required #open space# on individual #zoning lots# only where adequate provision is made for common #open space# to serve such lots;
- (c) minor variations in required #front# or #rear yards# on the periphery of such #large-scale residential development# for the purpose of introducing variety or preserving natural features;
- (d) in R1, R2, R6, R7, R8, R9 or R10 Districts, minor variations in the front height and setback regulations on the periphery of such #large-scale residential development# for the purpose of introducing variety, preserving natural features, or providing for improved access of light and air, but within the general purpose and intent of the height and setback regulations. In R3, R4 or R5 Districts, the Commission may modify the height and setback regulations set forth in Section 23-631 and paragraph (b) of Section 78-31,

on the periphery of such #large-scale residential development#, for the purposes of introducing variety, providing a transition in neighborhood scale between the #large-scale residential development# and surrounding #buildings#, preserving natural features or view corridors, or improving the access of light and air;

- (e) variations in the location of primary business entrances, #show windows#, and #signs# along frontages adjacent to #zoning lots# outside the #large-scale residential development#, without regard to restrictions applicable near #Residence District# boundaries, for the purpose of achieving better site planning and community planning. However, in no event shall the Commission allow such primary business entrances, #show windows# or #signs# to be located within 10 feet of the #Residence District# boundary; and
- (f) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section 23-71 (Minimum Distance between Buildings on a Single Zoning Lot) and may authorize modifications of the spacing required by paragraphs (c), (d), (e) and (h) of Section 78-311 (Authorizations by the Planning Commission).

(2/2/11)

78-313

Findings

As a condition precedent to the granting of authorizations under the provisions of Section 78-311 (Authorizations by the City Planning Commission) or a special permit under the provisions of Section 78-312 (Special permits by the City Planning Commission), the Commission shall make the following findings:

- (a) that such modifications will aid in achieving the general purposes and intent of this Chapter as set forth in Section 78-01 (General Purposes);
- (b) that such distribution of #floor area#, #dwelling units#, #rooming units#, #open spaces#, locations of #buildings#, or location of primary business entrances, #show windows# or #signs# will permit better site planning and will thus benefit both the residents of the #large-scale residential development# and the City as a whole;
- (c) that such distribution or location will not unduly increase the #bulk# of #buildings#, density of population, or

intensity of #use# in any #block#, to the detriment of the occupants of #buildings# in the #block# or nearby #blocks#;

- (d) that such distribution or location will not affect adversely any other #zoning lots# outside the #large-scale residential development# by restricting access to light and air or by creating traffic congestion;
- (e) where portions of the total required #open space# are pooled in common #open space# areas or common parking areas, that such common areas will, by location, size, shape and other physical characteristics, and by their relationship to surrounding development and the circulation system, permit realization of the full community service of advantages for which such pooled areas are designed;
- (f) where one or more #zoning lots# in the #large-scale residential development# do not #abut# mapped #streets#, that suitable private access to mapped #streets# will be provided conforming to standards which will ensure adequate circulation and make adequate provision for public services; and
- (g) the modification of height and setback will not impair the essential character of the surrounding area and will not have adverse effects upon the access to light, air and privacy of adjacent properties.

(2/2/11)

78-32

Bonus for Good Site Plan

In R1-2, R2 or R3-1 Districts, including #Commercial Districts# mapped within such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may allow the #open space ratio# otherwise required for the #large-scale residential development# as a whole and for individual #zoning lots# therein to be reduced by not more than 10 percent, may allow the maximum number of #dwelling units# to be increased by not more than five percent, and may allow the maximum #residential floor area ratio# to be increased by not more than 7.5 percent, if the Commission finds that throughout the #large-scale residential development# the site plan provides a significantly better arrangement of the #buildings# in relation to one another and to their sites from the standpoints of privacy, access of light, organization of private #open spaces#, and preservation of important natural

features than would be possible or practical for a development comprised of similar types built in strict compliance with the applicable district regulations.

(2/2/11)

78-33

Bonus for Common Open Space

In R3-1 Districts, including #Commercial Districts# mapped within such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may allow the #open space ratio# otherwise required for such #large-scale residential development# as a whole to be reduced by not more than 20 percent, may allow the maximum number of #dwelling units# to be increased by not more than 10 percent, and may allow the maximum #residential floor area ratio# to be increased by not more than 15 percent, provided that:

- (a) at least one acre or 20 percent of the total #open space#, whichever is more, is provided in common areas meeting the requirements of Section 78-52 (Common Open Space) and not used for off-street parking;
- (b) the #large-scale residential development# qualifies for a bonus in accordance with the provisions of Section 78-32; and
- (c) the Commission makes the findings required in Section 78-32 and in paragraph (e) of Section 78-313 (Findings).

Such authorizations shall be instead of, rather than in addition to, those which would be allowable under the provisions of Sections 78-32.

(2/2/11)

78-34

Special Permit Provisions for Certain Large-Scale Developments

In R3-2, R4 and R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may make modifications in the #open space ratio#, #residential floor area ratio# and density regulations, pursuant

to the provisions of Section 78-35 (Special Bonus Provisions), if the Commission finds that:

- (a) throughout the #large-scale residential development# the site plan provides a significantly better arrangement of the #buildings# in relation to one another and to their sites from the standpoints of privacy, access of light, organization of private #open spaces# and preservation of important natural features to a greater degree than would be possible or practical for a development composed of similar types built in strict compliance with the applicable district regulations;
- (b) the public facilities and utilities in the area are adequate to meet the needs of the #large-scale residential development# or that needed additional facilities will be provided as a part of the #large-scale residential development# by the developer or owner;
- (c) the #large-scale residential development# complies with the provisions of Section 78-351 (Bonus for common open space and good site plan); and
- (d) a #large-scale residential development# having an area of four acres or more complies with the provisions of Section 78-352 (Bonus for community facility space).

If the Commission determines that a proposed #large-scale residential development# containing not more than 250 #dwelling units# does not require #community facility# space, finding (d) shall be waived and the provisions of Section 78-352 made inapplicable. In making its determination, the Commission shall give due consideration to a recommendation from the Community Board within which the proposed #large-scale residential development# is located.

If a site for a fire or police station is provided within the Community District in which a #large-scale residential development# is to be located, which site has been donated in fee to the City, selected as a site pursuant to Section 218 (Site Selection) of the New York City Charter and, if applicable, approved under the provisions of Section 74-67 (Special Permit for Fire or Police Stations in Residence Districts), the Commission may waive finding (d), provided that the #community facility# requirements contained in Section 78-352 are determined to be unnecessary.

Any #large-scale residential development# which qualifies for a bonus in accordance with this Section and the applicable provisions of Section 78-35 shall be eligible for any

modifications permitted under Sections 78-311 (Authorization by the Planning Commission) or 78-312 (Special permit authorizations) provided the findings of Section 78-313 (Findings) are satisfied.

(3/8/73)

78-35

Special Bonus Provisions

(2/2/11)

78-351

Common open space and good site plan

The provisions of this Section shall not apply to any #zoning lot# subdivided to under four acres after January 1, 1972, nor to any #large-scale residential development# for which authorization has been granted by the City Planning Commission prior to July 31, 1972.

In R3-2 or R4 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the requirements of Section 78-34 (Special Permit Provisions for Certain Large-Scale Developments), the permitted #residential floor area ratio#, required #open space ratio# and density regulations for the #large-scale residential development# as a whole may be modified as set forth in this Section. At least 25 percent of the total required #open space# is to be provided in common areas meeting the requirements of Section 78-52 (Common Open Space). No portion of such common #open space# is to be used for driveways or off-street parking. The findings required in paragraph (e) of Section 78-313 (Findings) are to be satisfied.

District	Maximum #Floor Area Ratio#	Minimum #Open Space Ratio#
R3-2	.60	125.0
R4	1.00	66.5

The maximum number of #dwelling units# shall equal the total #residential floor area# permitted divided by the applicable factor in Section 23-20 (DENSITY REGULATIONS).

In R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, at least 25 percent of the total required #open space# is to be provided in common areas that meet the requirements of Section 78-52. No portion of such common #open space# is to be used for driveways or off-street parking. All findings required in paragraph (c) of Section 78-313 are to be satisfied.

(2/2/11)

78-352

Bonus for community facility space

In R3-2, R4 and R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the provisions of Section 78-34 (Special Permit Provisions for Certain Large-Scale Developments), the permitted #residential floor area ratio#, required #open space ratio#, and required #floor area# per #dwelling unit# for the #large-scale residential development# as a whole may be modified as set forth in this Section, provided floor space for #community facility use# and/or a program for improvement and maintenance for parks not included in the City capital budget is provided as required in paragraph (b) of this Section.

- (a) Permitted #Floor Area Ratio# and Required #Open Space Ratio#:

District	Maximum #Floor Area Ratio#	Minimum #Open Space Ratio#
R3-2	.70	102.0
R4	1.15	54.7
R5	1.45	37.7

The maximum number of #dwelling units# shall equal the total #residential floor area# permitted divided by the applicable factor in Section 23-20 (DENSITY REGULATIONS).

- (b) There shall be at least 15 square feet of #community facility# floor space for each #dwelling unit# within the #large-scale residential development# and/or a substantial

park area located adjacent to or within a reasonable distance from the #large-scale residential development#. Such space shall be used for #schools# where the need is certified by the Board of Education and where the Board agrees to lease such space at no cost. Otherwise such space shall be allocated for one or more #uses# as specified in this Section where the need for such space has been certified by the City Planning Commission and a City Department agrees to lease such space at no cost. If such certification and agreement are not obtained in either case, the Commission shall approve any private #community facility# proposed to be rented or maintained by the developer, or the homeowners' association or other entity owning the common elements of the #large-scale residential development#. In no case shall the size of an individual #use# be less than the amount set forth in this Section.

#Community Facility#	Size (in square feet)
Day care center	3,000
Ambulatory care center	10,000
Library	7,500
Senior citizen center	3,750
Community center	2,000
Indoor recreation center	2,000

In the case of a program for improvement and/or maintenance for parks which is eligible for a bonus pursuant to this Section, comparable improvements and maintenance costs for an equivalent amount of the required #community facility# space shall be incurred.

- (c) In no event shall the total #floor area# for any #development# constructed pursuant to the Provisions Section exceed the maximum #floor area ratio# for #community facility uses# permitted by the applicable district regulations.

(2/2/11)

78-353

Bonus for enclosed parking

In R4 or R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the provisions of Section 78-34 (Special Permit Provisions for Certain Large-Scale Developments), the permitted #residential floor area ratio# may be increased over the amount earned by other provisions of Section 78-35 (Special Bonus Provisions) and the required #open space ratio# for the #large-scale residential development# as a whole correspondingly decreased as set forth in this Section provided that at least two-thirds of the required off-street parking is enclosed.

District	Increase in #Floor Area Ratio#	Decrease in #Open Space Ratio#
R4	.25	14.5
R5	.25	10.0

For any #large-scale residential developments# comprising #buildings# of not more than four #stories# receiving a bonus under this Section, the Commission may modify where appropriate the requirements of Section 23-12 (Permitted Obstructions in Open Space), paragraph (f).

(8/24/67)

78-40

OFF-STREET PARKING REGULATIONS

(2/2/11)

78-41

Location of Accessory Parking Spaces

When a #large-scale residential development# includes, or will include after subdivision, two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted or required #accessory# off-street parking spaces or bicycle parking spaces to be located anywhere within the #large-scale residential development# without regard for #zoning lot lines#, provided that in each case the Commission shall make the following special findings:

(a) that such off-street parking spaces or bicycle parking

spaces will be conveniently located in relation to the #use# or #uses# to which such spaces are #accessory#;

- (b) that such location of the off-street parking spaces or bicycle parking spaces will permit better site planning and will thus benefit both the owners, occupants, employees, customers, residents or visitors of the #large-scale residential development# and the City as a whole; and
- (c) that such location of the off-street parking spaces or bicycle parking spaces will not increase the number of spaces in any single #block# or the traffic drawn through any one or more of the nearby local #streets# in such measure as to affect adversely other #zoning lots# outside the #large-scale residential development# or traffic conditions in the surrounding area.

Whenever required off-street parking spaces or bicycle parking spaces are authorized to be located without regard for #zoning lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# or #use# shall be kept available for such #building# or #use# throughout its life. Whenever any #zoning lot# within such a #large-scale residential development# is subdivided into two or more #zoning lots#, such subdivision shall be subject to the provisions of Section 78-51 (General Provisions).

(2/2/11)

78-42

Parking Regulations for Commercial and Community Facility Uses

For #large-scale residential developments# in R3-2, R4, R5, R6, R7, R8, R9 or R10 Districts, or in #Commercial Districts# in which #residences# are governed by the #bulk# regulations of R3-2, R4, R5, R6, R7, R8, R9 or R10 Districts, the City Planning Commission may, by special permit, waive the requirements for off-street parking spaces #accessory# to any #commercial# or #community facility use# included in such #large-scale residential development# and intended primarily for the use of its residents.

(2/2/11)

78-43

Modification for Open Space Requirements in Large-Scale

Developments

For all #large-scale residential developments# in R5, R6, R7, R8 or R9 Districts, or in #Commercial Districts# in which #residences# are governed by the #bulk# regulations of such #Residence Districts#, the City Planning Commission may modify the requirement for #open space# as set forth in the definition of #open space# in Section 12-10 (DEFINITIONS) by allowing parking space on the roofs of parking garages not #abutting# another #building# and not more than 23 feet in height above #curb level#, to count as #open space# and by not requiring connections from such roofs to ground level by exterior passageways or ramps, provided that the following findings are made:

- (a) that the total area occupied by driveways, private streets, or open #accessory# off-street parking spaces in all areas claimed as common or private #open space# throughout the #large-scale residential development# shall not exceed 40 percent of the total required #open space# for the #large-scale residential development#; and
- (b) that such arrangement and use of #open space# results in better site planning and community planning.

(2/2/11)

78-44

Modification of Curb Cut Regulations

The City Planning Commission may, upon application, authorize modification of the requirements set forth in Section 25-631 (Location and width of curb cuts in certain districts), provided the Commission finds that the proposed location and width of curb cuts:

- (a) results in a more efficient traffic circulation system;
- (b) permits better site planning; and
- (c) does not unduly increase the amount of traffic on nearby local #streets# so as to adversely affect #zoning lots# outside the #large-scale residential development#.

(8/24/67)

78-50

SUBDIVISION OF LARGE-SCALE RESIDENTIAL DEVELOPMENTS

(2/2/11)

78-51

General Provisions

A #large-scale residential development# may be subdivided before, during or after #development# into two or more #zoning lots# which may be in different ownerships, provided that either:

- (a) all resulting #zoning lots# and all #buildings# thereon comply with all the applicable regulations of this Resolution;
- (b) such subdivision conforms to a subdivision plan which was included as part of the application for authorizations or special permits under the provisions of this Chapter and whose execution has been authorized in the grant of such authorizations or special permits; or
- (c) such subdivision is made necessary by forced sale or foreclosure of a portion of such #large-scale residential development#, but can be accommodated to any authorization or special permit granted pursuant to the provisions of this Chapter.

All #zoning lots# resulting from such subdivisions shall be subject to all the applicable regulations of this Resolution or, in the case of a #large-scale residential development# for which any modifications were granted in accordance with the provisions of this Chapter, shall be subject to the terms, conditions and limitations of the #large-scale residential development# plan as approved.

In any subdivision of a #large-scale residential development# for which such modifications were granted, covenants running with the land which shall permit of public or private enforcement, reflecting the terms, conditions and limitations of the #large-scale residential development# plan, as approved, shall be incorporated in the deed to each parcel conveyed.

Such subdivision may result in commonly or separately owned common #open space# or common parking areas, as set forth in Sections 78-52 (Common Open Space) or 78-53 (Common Parking Areas).

(2/2/11)

78-52

Common Open Space

An area designated on the site plan of a #large-scale residential development# as "common #open space#" and on the subdivision plan as an area to be held in separate ownership for the use and benefit of residents occupying specified #zoning lots# shown on such subdivision plan may be approved as part of such subdivision plan, provided that it meets the following requirements:

- (a) it shall be conveniently accessible to all residents of #zoning lots# for which it is intended to satisfy the #open space# requirements;
- (b) it shall be made available in its improved state as set forth on the site plan in accordance with an approved time schedule;
- (c) it shall be maintained in accordance with an approved maintenance plan specifying what such maintenance shall consist of, whose responsibility it shall be, and assuring satisfactory execution of maintenance;
- (d) provisions to ensure its continuing availability shall be included in the covenants to be incorporated in the deed to each parcel to be served by such common #open space#;
- (e) it shall be entirely at natural grade level or at the principal level of pedestrian circulation in adjacent areas;
- (f) it may contain only such obstructions as are specifically permitted under the provisions of Section 23-12 (Permitted Obstructions in Open Space) or minor #accessory# structures, and the total area occupied by driveways, private streets or open #accessory# off-street parking spaces in all areas claimed as common or private #open space# throughout the #large-scale residential development#, shall not exceed 50 percent of the total required #open space# for the #large-scale residential development#; and
- (g) such #open space# shall include both active and passive recreation space providing a range of recreational facilities and activities appropriate to the occupants of the #large-scale residential development#. Such space shall be physically and visually accessible to the occupants and shall be screened from unsuitable areas. Passive recreation

space shall be landscaped and shall be located in areas other than access and egress spaces. Active recreation facilities, such as play equipment, court game facilities, or ball fields, shall be designed to provide the maximum possible area appropriate to the size of the #large-scale residential development#.

The approval of a subdivision plan which includes common #open space# shall be conditioned upon a finding that these requirements are met.

(2/2/11)

78-53

Common Parking Areas

An area designated on the site plan of a #large-scale residential development# as "common off-street parking area" and on the subdivision plan as an area to be held in separate ownership for use by the occupants or visitors of specified #zoning lots# shown on such subdivision plan may be approved as part of such subdivision plan, provided that it shall meet the following requirements:

- (a) it shall be made available in its improved state as set forth in the site plan in accordance with an approved time schedule;
- (b) it shall be maintained in accordance with an approved maintenance plan specifying what such maintenance shall consist of, whose responsibility it shall be, and assuring satisfactory execution of maintenance; and
- (c) provisions to ensure its continuing availability shall be included in the covenants to be served by such common off-street parking area.

The approval of a subdivision plan which includes common off-street parking areas shall be conditioned upon a finding that these requirements are met.

Chapter 9

Special Regulations Applying to Large-Scale Community Facility Developments

(11/19/87)

79-00

DEFINITIONS

Words in italics are defined in Section 12-10 (DEFINITIONS) or, if applicable exclusively to this Chapter, in this Section.

(8/24/67)

79-10

GENERAL PROVISIONS

(2/2/11)

79-11

Applicability of this Chapter

#Large-scale community facility developments# are governed by all the #use#, #bulk#, off-street parking and loading, and other applicable regulations of this Resolution, except for such special provisions as are specifically set forth in this Chapter. Such special provisions are designed to deal with problems which arise only in connection with #large-scale community facility developments# and apply only to such #large-scale community facility developments# as set forth herein.

#Large-scale community facility developments# within the #waterfront area# shall be subject to the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

(1/25/68)

79-12

Permitted Uses

A #large-scale community facility development# may include within its area any #community facility uses#, #residential uses# or #commercial uses# permitted in the district or districts in which it is located.

(8/24/67)

79-20

BULK REGULATIONS

(2/2/11)

79-21

General Provisions

When a #large-scale community facility development# includes two or more #zoning lots# which are contiguous or would be contiguous but for their separation by a #street#, the City Planning Commission may, in appropriate cases, upon application, authorize the permitted #floor area#, #lot coverage#, #dwelling units# or #rooming units#, or the required #open space# for all #zoning lots# within the #large-scale community facility development#, to be distributed without regard for #zoning lot lines#, may modify the minimum required distance between #buildings# as set forth in Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT), provided such reduction does not exceed 15 percent of that required by Section 23-71, may authorize the location of #buildings# without regard for #front yard# or height and setback regulation which would otherwise apply along portions of #streets# wholly within the #large-scale community facility development# and, further, may authorize the location of #community facility buildings# without regard to #side# or #rear yard# regulations which would otherwise apply along portions of #lot lines abutting# other #zoning lots# within the #large-scale community facility development#.

As a condition of granting such authorizations, in each case the Commission shall make the following special findings:

- (a) that such distribution or location will permit better site planning and will thus benefit both the residents, occupants or users of the #large-scale community facility development# and the City as a whole;
- (b) that such distribution or location will not unduly increase

the #bulk# of #buildings# in any #block#, to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and

- (c) that such distribution or location will not affect adversely any other #zoning lots# outside the #large-scale community facility development# by restricting access to light and air or by creating traffic congestion.

In R9, R10, C1-8, C1-9, C2-7 or C2-8 Districts, or in C1 or C2 Districts mapped within R9 or R10 Districts, #floor area# bonuses for #public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a #development# or #enlargement# with 25 percent or less of the total #floor area# of the #building# in #residential use#.

In R9, R10, C1-8, C1-9, C2-7 or C2-8 Districts, or in C1 or C2 Districts mapped within R9 or R10 Districts, no existing #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been received pursuant to regulations prior to February 9, 1994, shall be eliminated or reduced in size except by special permit, pursuant to Section 74-761 (Elimination or reduction in size of bonused public amenities).

(8/24/67)

79-30

PARKING REGULATIONS

(2/2/11)

79-31

Location of Parking Spaces

When a #large-scale community facility development# includes two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted or required #accessory# off-street parking spaces or bicycle parking spaces to be located anywhere within the #large-scale community facility development# without regard for #zoning lot lines#, provided that in each case the Commission shall make the following special findings:

- (a) that such off-street parking spaces or bicycle parking spaces will be conveniently located in relation to the #use# or #uses# to which such spaces are #accessory#;

- (b) that such location of the off-street parking spaces or bicycle parking spaces will permit better site planning and will thus benefit both the owners, occupants, employees, customers, residents or visitors of the #large-scale community facility development# and the City as a whole; and
- (c) that such location of the off-street parking spaces or bicycle parking spaces will not increase the number of spaces in any single #block# or the traffic drawn through any one or more of the nearby local #streets# in such measure as to affect adversely other #zoning lots# outside the #large-scale community facility development# or traffic conditions in the surrounding area.

Whenever required off-street parking spaces or bicycle parking spaces are authorized to be located without regard for #zoning lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# or #use# shall be kept available for such #building# or #use# throughout its life.

(2/2/11)

79-32

Location of Loading Berths

When a #large-scale community facility development# includes two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted required #accessory# loading berths to be located anywhere within the #large-scale community facility development# without regard for #zoning lot lines#, provided that in each case the Commission shall make the following special findings:

- (a) that such loading berths will be appropriately located in relation to the #use# or #uses# to which such berths are #accessory# so as to permit better site planning and will thus benefit the owners, occupants, employees, residents or visitors to the #large-scale community facility development# and the City as a whole;
- (b) that such loading berths will be accessible to all the #uses# in the #large-scale community facility development# without the need to cross any #wide street# at grade;
- (c) that the location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the #streets# within or surrounding such #large-scale community

facility development#; and

- (d) that the loading berths comply with all other applicable district regulations.

(7/19/73)

79-40

SPECIAL PERMIT PROVISIONS

(2/2/11)

79-401

Special permit for development over streets

In a #large-scale community facility development# containing #schools#, hospitals or functionally-related facilities in R6 or R7-1 Districts, in C1 or C2 Districts mapped within such #Residence Districts#, when the air space above a #narrow street# or portion thereof is closed and demapped, the City Planning Commission may, by special permit, allow the demapped air space to be considered as part of the adjoining #zoning lots# constituting a single #zoning lot#, and may allow within such demapped air space the #development# or #enlargement# of a #building# which is a necessary expansion of an existing #school#, hospital or functionally-related facility located on adjoining #zoning lots#. As a condition for granting a permit for such #building#, or portion thereof, within the demapped air space, the Commission shall find:

- (a) that there is a Master Plan for institutional development which demonstrates that the #building# over the #street# is necessary to avoid or minimize demolition of existing facilities, or #buildings designed for residential use#, and expansion on existing #zoning lots# owned by the #community facility# is not feasible to meet its expansion needs;
- (b) that the location of such #building#, or portion thereof, will not impair the existing residential character of the area;
- (c) that such #building#, or portion thereof, utilizes only unused #floor area# from adjoining #zoning lots# and no #floor area# credit is received from the demapped air space, and such #building# complies with the off-street parking and loading requirements of the underlying district or

districts;

- (d) that such #building#, or portion thereof, is contained entirely within the buildable area of the air space plane as defined in this Section, conforms with the height and setback regulations set forth in this Section, is no more than 200 feet in length and is the only such #building# on a #block# front;
- (e) that such #building#, or portion thereof, links the #zoning lots# across the #street#, in the same ownership, with adequate clearance above the #street# bed, and there is no intrusion on the existing #street#, including column supports;
- (f) that all #street# frontages of the #zoning lots# under such #building#, or portion thereof, are provided with fenestration or natural light along at least 75 percent of such frontages, and such #street# frontages when #developed# with #uses# other than open area, contain only #uses# requiring human occupancy such as amusement, education, dining, shopping and other similar #uses# permitted by the underlying district regulations; that the main entrance for principal pedestrian access to the #development# is located along the #street# frontages under such #building# and that no storage rooms, mechanical equipment rooms, parking and loading facilities or curb cuts are located along such #street# frontage unless authorized by the Commission;
- (g) that a satisfactory lighting and ventilation plan consistent with current environmental standards is provided for the #development#; and
- (h) that an additional amount of #open space# for public use at #street# level, linked with the pedestrian circulation system of the area, equivalent to the #street# area covered by such #building#, is provided within 1,000 feet of the #building# and such #open space# maintained as usable public area in the ownership of the applicant.

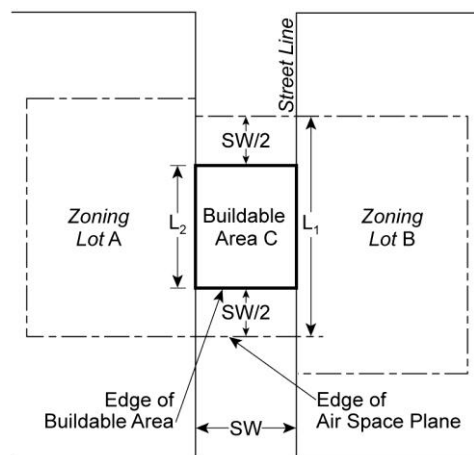

#Curb levels# of the pre-existing #zoning lots# shall not be affected by the closing and demapping of air space over such #street#.

The Commission may impose additional conditions and safeguards to improve the quality of the development and minimize adverse effects on the character of the surrounding area.

For the purposes of paragraph (d) of this Section:

Air space plane is a plane above a #narrow street# located at the same elevation as the lower limiting plane of a volume of #street# eliminated, discontinued and closed by the Board of Estimate, or its successors. The length "L1" of such air space plane is the length of the common lot frontage of two #zoning lots# opposite and across the #street# in the same ownership and its width is the width of the #narrow street# "SW" (See illustration of Required Setback for the Buildable Area).

The buildable area "C" is the lower limiting plane of the volume of #street# eliminated, discontinued and closed by the Board of Estimate, or its successors, except that in no case shall the edge of the buildable area be closer to the edge of the air space plane by a distance equal to one half the #street# width "SW/2" (See illustration of Required Setback for the Buildable Area).

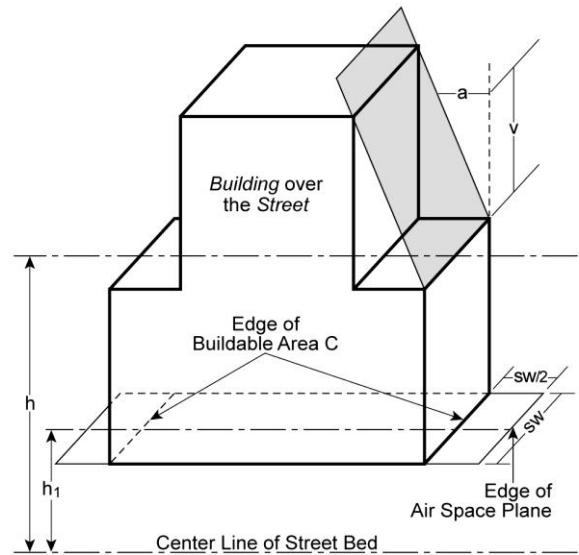

- SW - Width of a *narrow street*
- SW/2 - Minimum required setback for the buildable area from the edge of air space plane
- L₁ - Length of common lot frontage of two *zoning lots* across a *narrow street*
- L₂ - Permissible length of the buildable area for a *building over the street*

REQUIRED SETBACK FOR THE BUILDABLE AREA

The #building# over the #street# shall comply with the height and setback regulations of this Section and the buildable area shall be completely covered by such #building#, except that such #building# may be set back from the edge of the buildable area which traverses the #street# provided that such setback area is open and obstructed from the lowest level of the #street# to the sky.

The #development# or #enlargement# of such #building# on the buildable area of the air space plane shall comply with the following #sky exposure plane# regulations (See illustration of Required Sky Exposure Plane):

Height above #street# bed (in ft.)	#Sky Exposure Plane#				District	
	Slope over buildable area (expressed as a ratio of vertical distance to horizontal distance)					
	Vertical Distance		Horizontal Distance			
60	2.7	to	1		R6	R7-1 C1 C2

- a - Horizontal distance
- v - Vertical distance
- h - Height of *sky exposure plane* above center line of street bed
- h₁ - Required clearance above center line of street bed for a *building over the street*
- h-h₁ - (h minus h₁) Maximum permissible height of vertical wall of a *building over the street* along the edge of a buildable area
- SW - Width of a *narrow street*
- SW/2 - Minimum required setback for the buildable area from the edge of air space plane
- Sky exposure plane*

REQUIRED SKY EXPOSURE PLANE

The height of the vertical wall or any other portion of a #building# over the #street#, shall not penetrate the #sky exposure plane#.

The #sky exposure plane# shall be measured from a point above the edge of the buildable area which traverses the #street#.

(2/2/11)

79-402

Special permit for development of bridges over streets

In a #large-scale community facility development# containing hospitals or functionally-related facilities in Manhattan Community Board 12, when the air space above a #wide street#, or

portion thereof, is closed and demapped, the City Planning Commission may, by special permit, allow the #development# in such demapped air space of an enclosed bridge or bridges to connect #buildings# within the #large-scale community facility development#. As a condition for granting a permit for #development# of such bridges, the Commission shall find that:

- (a) such bridge or bridges are essential to internal circulation of the medical function of the health care facility;
- (b) such bridge or bridges shall not rest upon columns or other supports which intrude upon the #street#;
- (c) the width of each such bridge shall not exceed 20 feet;
- (d) such bridge within the demapped air space utilizes only #floor area# derived from the adjoining #zoning lots# and that no #floor area# credit is generated from the demapped air space;
- (e) illumination of at least five foot candles is provided at the #curb level# of such bridge or bridges;
- (f) such bridge in demapped air space over a #wide street# adjoins #zoning lots# wholly within the #large-scale community facility development#;
- (g) the minimum horizontal distance between the nearest edges of two such bridges traversing the same #street# shall be two times the width of the #street#;
- (h) the maximum exterior height of each such bridge shall not exceed 12 feet;
- (i) the benefit gained from the bridge or bridges resulting from the #bulk# design or placement of such bridge or bridges outweighs any adverse impact on neighborhood character and any restriction of access to light and air to surrounding public spaces and #streets#; and
- (j) a landscaped open area for public use at #street# level, linked with the pedestrian circulation system, which is at least equivalent to the #street# area covered by the bridge is provided in one location within the #large-scale community facility development# and such open area is maintained with planting and seating facilities by the owner of the #large-scale community facility development# or the owner's designee.

The City Planning Commission may prescribe appropriate conditions

and safeguards to minimize the effect of the bridges, including but not limited to clearance above the #street# and surfacing materials of the bridge.

(10/10/74)

79-41

Special Permit for Change of Community Facility Use

For #large-scale community facility developments# previously approved by the City Planning Commission, the Commission may, by special permit, allow a change of #community facility use# to a #residential use# subject to the applicable district regulations.

For the purpose of this special permit, such change of #use# shall be deemed not to alter the status and previous authorizations relating to the #large-scale community facility development#.

As a condition precedent to the grant of such special permit, the Commission shall find:

- (a) that such #community facility use# does not provide essential services to the community at large; and
- (b) that such #community facility use# has been actively operated as a #community facility use# for a period not less than five years following Commission approval of the #large-scale community facility development# or was actively operated as a #community facility use# prior to Commission approval of the #large-scale community facility development#.

(9/9/04)

79-42

Special Permit for Non-profit Hospital Staff Dwelling Buildings

For #non-profit hospital staff dwellings# in #large-scale community facility developments# in Manhattan Community Board 8, the City Planning Commission, may by special permit, allow:

- (a) Temporary occupancy of #dwelling units# by outpatients of the non-profit or voluntary hospital or by families visiting hospitalized patients provided the following findings are

made:

- (1) that the density and transient nature of the population housed in such #dwelling units# will not impair the essential character, future use or development of the surrounding area; or impair the security of the hospital staff residing in the #building#;
 - (2) that such occupancy will neither create nor contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and
 - (3) that the number of such #dwelling units# so occupied is less than fifty percent of the total number of #dwelling units# in the #building#.
- (b) Ambulatory diagnostic or treatment health care facilities listed in Use Group 4 on the third floor of such #buildings# in C1 Districts, provided the following findings are made:
- (1) that such facilities are used exclusively for staff of, or staff affiliated with, the non-profit or voluntary hospital;
 - (2) that such occupancy will neither create nor contribute to serious traffic congestion and will not unduly inhibit surfaced traffic and pedestrian flow;
 - (3) that such #use# will not impair the essential character, future use or development of the surrounding area;
 - (4) that such #use# will not produce any adverse effects which interfere with the appropriate use of land in the districts or in any adjacent district; and
 - (5) that separate access to the outside is provided.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

79-43

Special Permit for Limited Bulk Modifications for Certain Large-Scale Community Facility Developments

For #large-scale community facility developments# located within the boundaries of Community Districts 8 and 12 in the Borough of Manhattan, that contain #community facility uses# specified in Section 73-64 (Modification for Community Facility Uses), the City Planning Commission may, by special permit, permit modification of regulations relating to height and setback on the periphery of the #large-scale community facility development#, #courts# and distance between windows and walls or #lot lines# not otherwise allowed in Section 79-21 (General Provisions). As a condition for such action, the Commission shall find that such modification:

- (a) is required in order to enable the #large-scale community facility development# to provide an essential service to the community;
- (b) will provide a more satisfactory physical relationship to the existing #buildings# which form the #large-scale community facility development#, and provide a more efficient and integrated site plan;
- (c) will better complement the existing character of the neighborhood;
- (d) will not unduly increase the #bulk# of #buildings# in any #block# to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and
- (e) will not adversely affect any other #zoning lots# or #streets# outside the #large-scale community facility development# by unduly restricting access to light and air.

7/18/95

79-44

Lapse of Authorization or Special Permit

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

Chapter 1

Special Midtown District

(5/27/15)

81-00

GENERAL PURPOSES

The "Special Midtown District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to strengthen the business core of Midtown Manhattan by improving the working and living environments;
- (b) to stabilize development in Midtown Manhattan and provide direction and incentives for further growth where appropriate;
- (c) to control the impact of buildings on the access of light and air to the streets and avenues of Midtown;
- (d) to link future Midtown growth and development to improved pedestrian circulation, improved pedestrian access to rapid transit facilities, and avoidance of conflicts with vehicular traffic;
- (e) to preserve the historic architectural character of development along certain streets and avenues and the pedestrian orientation of ground floor uses, and thus safeguard the quality that makes Midtown vital;
- (f) to continue the historic pattern of relatively low building bulk in midblock locations compared to avenue frontages;
- (g) to improve the quality of new development in Midtown by fostering the provision of specified public amenities in appropriate locations;
- (h) to preserve, protect and enhance the character of the Theater Subdistrict as the location of the world's foremost concentration of legitimate theaters and an area of diverse uses of a primarily entertainment and entertainment-related nature;
- (i) to strengthen and enhance the character of the Eighth Avenue Corridor and its relationship with the rest of the Theater

Subdistrict and with the Special Clinton District;

- (j) to create and provide a transition between the Theater Subdistrict and the lower-scale Clinton community to the west;
- (k) to preserve, protect and enhance the scale and character of Times Square, the heart of New York City's entertainment district, and the Core of the Theater Subdistrict, which are characterized by a unique combination of building scale, large illuminated signs and entertainment and entertainment-related uses;
- (l) to preserve, protect and enhance the character of Fifth Avenue as the showcase of New York and national retail shopping;
- (m) to preserve the midblock area north of the Museum of Modern Art for its special contribution to the historic continuity, function and ambience of Midtown;
- (n) to protect and strengthen the economic vitality and competitiveness of the Grand Central Subdistrict by facilitating the development of exceptional and sustainable buildings within the Vanderbilt Corridor and enabling improvements to the pedestrian and mass transit circulation network;
- (o) to ensure that development within the Vanderbilt Corridor occurs on sites that meet sound site planning criteria and therefore can accommodate additional density as appropriate;
- (p) to protect and enhance the role of Grand Central Terminal as a major transportation hub within the City, to expand and enhance the pedestrian and mass transit circulation network connecting Grand Central Terminal to surrounding development, to minimize pedestrian congestion and to protect the surrounding area's special character;
- (q) to expand the retail, entertainment and commercial character of the area around Pennsylvania Station and to enhance its role as a major transportation hub in the city;
- (r) to provide freedom of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms without the need for special development permissions or "negotiated zoning"; and
- (s) to promote the most desirable use of land and building

development in accordance with the District Plan for Midtown and thus conserve the value of land and buildings and thereby protect the City's tax revenues.

(2/2/11)

81-01

Definitions

For purposes of this Chapter, matter in italics is defined in Sections 12-10 (DEFINITIONS), 81-261 (Definitions) or 81-271 (Definitions).

(5/13/82)

81-02

General Provisions

(4/28/88)

81-021

Applicability of underlying district regulations

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect.

The regulations of the districts set forth below are applicable in the following Midtown districts unless modified by this Chapter:

Midtown Districts	Districts Whose Regulations Apply
C5P C5-2.5	C5-2
C6-4.5	C6-4
C6-5.5	C6-5
C6-6.5	C6-6
C6-7T	C6-7

(6/28/04)

81-022

Applicability of Special Transit Land Use District regulations

Except as otherwise provided in paragraphs (a) and (b) of this Section, wherever the #Special Transit Land Use District# includes an area which also lies within the #Special Midtown District#, as described in paragraph (c), the requirements of the #Special Transit Land Use District#, as set forth in Article IX, Chapter 5, shall apply.

- (a) However, the requirements of Article IX, Chapter 5, shall be waived where the City Planning Commission certifies, in the case of a specific #development# otherwise subject to those requirements, that:
 - (1) the developer has agreed in a writing recorded against the property to implement a plan approved by the City Planning Commission and New York City Transit for off-street relocation of a subway stair entrance, in accordance with the requirements of Section 81-46 (Off-Street Relocation or Renovation of a Subway Stair); or
 - (2) the developer has agreed in a writing recorded against the property to implement a plan approved by the Commission and New York City Transit for the provision of a subway station improvement in accordance with the provisions of Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan).
- (b) Where the requirements of Article IX, Chapter 5, are not waived, modifications of the underlying district #bulk# regulations as set forth in this Chapter shall prevail over any inconsistent #bulk# regulations in Article IX, Chapter 5.
- (c) Within the #Special Midtown District#, the #Special Transit Land Use District# includes the area bounded by a line 100 feet west of Third Avenue, a line midway between East 53rd Street and East 54th Street, a line 160 feet east of Third Avenue (the #Special Midtown District# boundary) and a line midway between East 52nd Street and East 53rd Street.

(8/6/98)

81-023

Applicability of Special Clinton District Regulations

Wherever the #Special Midtown District# includes an area which also lies within the #Special Clinton District#, the regulations of the #Special Clinton District# as set forth in Article IX, Chapter 6, shall also apply. In the event of any conflict or discrepancy between the regulations, the more restrictive regulations shall apply in accordance with Section 11-22 (Application of Overlapping Regulations).

The portion of the #Special Clinton District# within the #Special Midtown District# includes the area bounded by a line 150 feet west of Eighth Avenue, West 45th Street, Eighth Avenue and West 42nd Street. The area is designated on the #zoning maps# by the letters CL-MiD.

(10/31/01)

81-024

Integration clauses

- (a) The underlying zoning districts shall be deemed to be integral parts of the #Special Midtown District#. If the underlying zoning district of any #zoning lot# shall be amended or shall be nullified by any court of competent jurisdiction, such amendment or adjudication shall be construed to amend the #Special Midtown District# to remove such #zoning lot# from the #Special Midtown District# whereupon the regulations of the prior underlying district shall apply.
- (b) The #bulk# regulations contained in Sections 81-20 through 81-29, inclusive, shall be deemed to be an integral unit and no modification thereof shall be permitted, except in accordance with the provisions of Section 200 of the New York City Charter. If any sentence, clause, paragraph or part of Sections 81-20 through 81-29, inclusive, shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not be confined in its operation to the sentence, clause, paragraph or part thereof directly involved in the controversy in which such judgment shall have been rendered, but shall also be construed to invalidate and prohibit the application of the remainder of Sections 81-20 through 81-29, inclusive. However, any such judgment shall not act to invalidate any other sentence, paragraph, clause, section or chapter of the Zoning Resolution.

(5/27/15)

81-03

District Plan

The regulations of this Chapter are designed to implement the #Special Midtown District# Plan.

The District Plan includes the following three maps:

- | | |
|-------|---|
| Map 1 | Special Midtown District and Subdistricts |
| Map 2 | Retail and Street Wall Continuity |
| Map 3 | Subway Station and Rail Mass Transit Facility Improvement Areas |

The maps are located in Appendix A of this Chapter and are hereby incorporated and made a part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter apply.

(10/31/01)

81-04

Subdistricts

In order to carry out the purposes and provisions of this Chapter, five special Subdistricts are established within the #Special Midtown District#. In each of these Subdistricts certain special regulations apply which do not apply in the remainder of the #Special Midtown District#. The Subdistricts are outlined on Map 1 (Special Midtown District and Subdistricts) in Appendix A.

The Subdistricts, together with the Sections of this Chapter specially applying to each, are as follows:

Subdistricts	Sections Having Special Application
Penn Center Subdistrict	81-50
Grand Central Subdistrict	81-60

Theater Subdistrict	81-70
Fifth Avenue Subdistrict	81-80
Preservation Subdistrict	81-90

The Subdistricts are also subject to all other regulations of the #Special Midtown District# and, where applicable pursuant to Section 81-023, the #Special Clinton District# and the underlying districts, except as otherwise specifically provided in the Subdistrict regulations themselves.

(4/28/88)

81-05

Applicability of Certain Amendments

For #developments#, #enlargements# or other alterations within the #Special Midtown District#, any building permits issued by the Department of Buildings prior to April 28, 1988, shall continue in effect through May 12, 1988. Thereafter any #non-conformance# or #non-compliance# with the Zoning Resolution as so amended shall be subject to the provisions of Section 11-33 (Building Permits for Minor or Major Development Issued before Effective Date of Amendment).

(8/26/92)

81-06

Applicability of Article VII Provisions

(8/26/92)

81-061

Applicability of Chapter 3 of Article VII

Within the #Special Midtown District#, the following provisions regarding special permits by the Board of Standards and Appeals for #non-complying buildings# shall not be applicable:

Section 73-62 (Enlargement, Extension or Conversion of
Buildings Containing Residential Uses)

Section 73-63 (Enlargement of Non-Residential Buildings)

Section 73-64 (Modifications for Community Facility Uses)

Within the #Special Midtown District#, the following provisions regarding special permits by the Board of Standards and Appeals shall only be applicable as modified below:

Section 73-16 (Public Transit, Railroad or Electrical Utility Substations) shall be applicable subject to the provisions of the #Special Midtown District#.

Section 73-28 (Newspaper Publishing) shall be applicable subject to the provisions of the #Special Midtown District#.

Section 73-36 (Physical Culture or Health Establishments) shall be applicable subject to the locational restrictions of the #Special Midtown District#.

Section 73-51 (Modification of Supplementary Use Regulations) shall be applicable subject to the height and setback or alternate height and setback regulations of the #Special Midtown District#.

Section 73-52 (Modifications for Zoning Lots Divided by District Boundaries) shall be applicable subject to the height and setback or alternate height and setback regulations of the #Special Midtown District#.

(8/6/98)

81-062

Applicability of Chapter 4 of Article VII

Within the #Special Midtown District#, the following provisions regarding special permits by the City Planning Commission shall not be applicable:

Section 74-72 (Bulk Modification)

Section 74-74 (General Large-Scale Development)

Section 74-75 (Educational Construction Fund Projects)

- Section 74-82 (Through Block Arcades)
- Section 74-83 (Court Houses)
- Section 74-841 (Developments in Certain Commercial Districts)
- Section 74-852 (Height and setback regulations for developments on lots divided by district boundaries)
- Section 74-87 (Covered Pedestrian Space)
- Section 74-91 (Urban Open Space Modifications)
- Section 74-95 (Modifications of Housing Quality Special Permits)

Within the #Special Midtown District#, the following provisions regarding special permits by the City Planning Commission shall only be applicable as modified below:

- Section 74-71 (Landmark Preservation) shall be applicable subject to the height and setback modifications of Sections 81-067, 81-254, 81-266 and 81-277
- Section 74-79 (Transfer of Development Rights from Landmark Sites) shall be applicable subject to modifications of the conditions and limitations on transfer of #floor area# (see Sections 81-212 and 81-747), the meaning of the term "adjacent lot" (see Section 81-747) and the provisions relating to height and setback variations (see Sections 81-254, 81-266 and 81-277).

(8/6/98)

81-063

Regulations for Developments or Enlargements on Lots Divided by District Boundaries, Within or Partially Within the Theater Subdistrict

Within the Theater Subdistrict of the #Special Midtown District#, the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), are modified in part by the provisions of Section 81-746 (Additional provisions for

zoning lots divided by district or subdistrict core boundaries).

(8/26/92)

81-064

**Inapplicability of provisions for height and setback
modifications in large-scale residential developments**

Within the #Special Midtown District#, the provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-Scale Residential Developments), permitting the City Planning Commission to authorize the location of #buildings# without regard for height and setback regulations shall be inapplicable.

(8/26/92)

81-065

**Inapplicability of provisions for height and setback
modifications in large-scale community facility developments**

Within the #Special Midtown District#, the provisions of Article VII, Chapter 9 (Special Regulations Applying to Large-Scale Community Facility Developments), permitting the City Planning Commission to authorize the location of #buildings# without regard for height and setback regulations shall be inapplicable.

(2/2/11)

81-066

**Special permit modifications of Section 81-254, Section 81-40 and
certain Sections of Article VII, Chapter 7**

- (a) The City Planning Commission, by special permit, for #zoning lots# where the #lot area# is at least 60,000 square feet or that occupy an entire #block#, may permit modification of the mandatory district plan elements of Section 81-40 or the provisions of Article VII, Chapter 7, that determine the distribution of permitted #floor area# on such #zoning lots# and, in conjunction with such modifications, may also modify the applicable #yard# and #court# requirements. However, no exception to the #street wall# or retail continuity requirements shall be permitted on Fifth Avenue or within 50 feet of Fifth Avenue within the #Special Midtown District#.

The modifications shall be subject to the following findings:

- (1) that the modifications of mandatory plan elements, #floor area# allocation or #rear yard# and #court# regulations, result in a better arrangement of required facilities or in better site planning on a uniquely large #zoning lot#;
 - (2) that a substantial majority of the #zoning lot# is either vacant at the time of certification for review, pursuant to Section 197-c of the New York City Charter, or contains #buildings# that will be integrally related to #developments#, both physically and programmatically;
 - (3) that the design, scale and location of the new #buildings# or #enlarged buildings# are compatible with the character of the surrounding area and existing #buildings# to remain on the #zoning lot#;
 - (4) that such modifications will not unduly obstruct the access of light and air to surrounding properties;
 - (5) that any adverse impact on retail continuity is minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any open or enclosed public areas on the #zoning lot#;
 - (6) that such modifications of mandatory plan elements or #floor area# allocation are consistent with the basic strategy of the #Special Midtown District# and the purposes of the Mandatory District Plan Elements.
- (b) For #developments# or #enlargements# on a #zoning lot# with a #lot area# of at least 60,000 square feet located wholly or partially in the Penn Center Subdistrict, which have been granted a #floor area# bonus for subway station and/or rail mass transit facility improvements pursuant to Section 81-541 in accordance with Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan), the Commission may permit modifications of the mandatory district plan elements of Section 81-40, the height and setback regulations of 81-26 and 81-27, or the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), that determine the distribution of permitted #floor area# on such #zoning lots# and, in conjunction with such modifications, may also modify the

applicable #yard# and #court# requirements subject to the following findings:

- (1) the modifications of mandatory plan elements, #floor area# allocation or #rear yard# and #court# regulations result in a better arrangement of required facilities or in better site planning on a uniquely large #zoning lot#;
- (2) the design, scale and location of the new #buildings# or #enlarged buildings# are compatible with the character of the surrounding area and existing #buildings# to remain on the #zoning lot#;
- (3) such modifications will not unduly obstruct the access of light and air to surrounding properties;
- (4) any adverse impact on retail continuity is minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any open or enclosed public areas within the #zoning lot#;
- (5) such modifications of mandatory plan elements or #floor area# allocation are consistent with the basic strategy of the #Special Midtown District# and the purposes of the Mandatory District Plan Elements;
- (6) the improvements to the below-grade pedestrian circulation network provided by the #development# or #enlargement# significantly increase public accessibility to and from subway stations and/or rail mass transit facilities in and around Pennsylvania Station; and
- (7) the modifications of height and setback regulations:
 - (i) are necessary due to the constraints or conditions of the #development# or #enlargement# and conditions imposed by the configuration of the site; and
 - (ii) will provide an appropriate distribution of #bulk# on the #zoning lot# with due consideration of the basic strategy of the #Special Midtown District# and the purpose of the District's height and setback regulations. In considering whether such distribution of #bulk# is appropriate, the Commission shall consider a complete daylight evaluation for the proposed design.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

81-067

Modification of provisions for minimum base height and street wall location in Historic Districts

Within the Special Midtown District, for any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, any applicable provisions relating to minimum base height and #street wall# location requirements as modified in Sections 81-43 (Street Wall Continuity Along Designated Streets), 81-621 (Special street wall requirements) pertaining to the Grand Central Subdistrict, 81-75 (Special Street Wall and Setback Requirements) pertaining to the Theater Subdistrict, 81-83 (Special Street Wall Requirements) pertaining to the Fifth Avenue Subdistrict, and 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT) pertaining to mandatory #street walls# may be modified pursuant to Sections 23-633 (Street wall location and height and setback regulations in certain districts) and 35-24 (Special Street Wall Location and Height and Setback Regulations in Certain Districts).

(5/13/82)

81-10

USE REGULATIONS

(5/13/82)

81-11

Modifications of Use Regulations in Subdistricts

The #use# regulations of the underlying districts are modified in the Theater Subdistrict in accordance with the provisions of Sections 81-72 (Use Regulations Modified) and 81-73 (Special Sign and Frontage Regulations) and are modified in the Fifth Avenue Subdistrict in accordance with the provisions of Section 81-82 (Special Regulations on Permitted and Required Uses).

(5/13/82)

81-12

Special Retail Continuity Requirements

Special requirements for allocation of frontage to retail and service #uses# along designated #streets# are set forth in Section 81-42 (Retail Continuity along Designated Streets).

(5/13/82)

81-13

Special Permit Use Modifications

No special permits shall be issued by the Board of Standards and Appeals for #automotive service stations# pursuant to Section 73-21 for any #zoning lots# with frontage on any of the #streets# designated in Sections 81-42 (Retail Continuity along Designated Streets) or 81-43 (Street Wall Continuity along Designated Streets).

No other special permit #use# within the #Special Midtown District# shall be granted by the Board of Standards and Appeals pursuant to Section 73-10 (SPECIAL PERMIT USES) or by the City Planning Commission pursuant to Section 74-30 (SPECIAL PERMIT USES) without a finding that such special permit #use# will be consistent with the purposes and provisions of this Chapter.

(5/13/82)

81-14

Modification of Sign and Frontage Regulations in the Fifth Avenue Subdistrict

(6/23/05)

81-141

Special sign regulations

- (a) For all existing and new #uses# in the Fifth Avenue Subdistrict, #signs# shall not be permitted on the exterior of any #building# below a level of ten feet above #curb

level#. The aggregate #surface area# of all #signs# in ground floor windows is restricted to not more than one-third of the window area.

Any #sign# that does not comply with the provisions of this paragraph, (a), shall be terminated, except that a #sign# which the Chairperson of the City Planning Commission certifies is an integral part of the #building#, shall not be required to terminate.

- (b) In a C5-3 District within the Fifth Avenue Subdistrict, the Chairperson of the City Planning Commission may, by certification, modify the requirements of Section 32-655 (Height of signs in all other Commercial Districts), to allow a single non-#illuminated sign# per #building#, other than an #advertising sign#, to be located at a height between 25 and 50 feet above #curb level#, provided that the permitted #sign# shall:
 - (1) be limited to one name and/or address of the #building# or the name of an establishment located therein, consisting only of individual letters and/or numbers not exceeding 18 inches in height;
 - (2) not be within a frame, a border, or any kind of background other than the #building# facade;
 - (3) not project more than three inches from the facade of the #building#; and
 - (4) not exceed 25 square feet in aggregate #surface area#.
- (c) On any #zoning lot# occupied by a landmark designated by the Landmarks Preservation Commission which lies partially or wholly within the Fifth Avenue Subdistrict, the Chairperson of the City Planning Commission may, by certification, modify the applicable #sign# regulations of Section 32-60 to permit #illuminated signs# on the open area of the #zoning lot#, provided that such #signs# shall:
 - (1) be a re-creation of historic #signs# and that the Landmarks Preservation Commission has issued a Certificate of Appropriateness or other permit for such #signs#;
 - (2) not exceed a #surface area# of 12 square feet per #sign#; and
 - (3) not project across a #street line#.

(2/2/11)

81-142

Special frontage regulations

(a) Transparency requirement

On #wide street# frontages in underlying C5 Districts, at least 50 percent of a #building's street wall# surface shall be glazed and transparent at the ground floor level, and not more than 50 percent of such transparent surface shall be painted. For the purpose of the glazing requirements, the #building's street wall# surface at the ground floor level shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

(b) Banners or pennants

The display of banners or pennants from the exterior of any #building# in an underlying C5 District is prohibited.

(5/13/82)

81-20

BULK REGULATIONS

(5/13/82)

81-21

Floor Area Ratio Regulations

The #floor area ratio# regulations of the underlying districts are modified in accordance with the provisions of this Section or Section 81-241 (Maximum floor area ratios for a residential building or the residential portion of a mixed building).

(5/27/15)

81-211

Maximum floor area ratio for non-residential or mixed buildings

- (a) For #non-residential buildings# or #mixed buildings#, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section.
- (b) In the #Special Midtown District#, the basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

MAXIMUM FLOOR AREA ALLOWANCES FOR SPECIFIED FEATURES
AND MAXIMUM FLOOR AREA RATIOS BY DISTRICTS

Theater Subdistrict Core

- 2 Not available within the Eighth Avenue Corridor
- 3 Not available within 100 feet of a #wide street# in C5-2.5 Districts
- 4 Applicable only within that portion of the Theater Subdistrict also located within the #Special Clinton District#
- 5 12.0 in portion of C6-5.5 District within the Theater Subdistrict Core
- 6 Limited to 21.6 FAR on a "receiving lot" pursuant to Section 81-635 in the Grand Central Subdistrict, and limited to 30.0 FAR on a #zoning lot# located within the Vanderbilt Corridor, pursuant to Sections 81-635 or 81-64 in the Grand Central Subdistrict
- 7 Not available on west side of Eighth Avenue within the Eighth Avenue Corridor
- 8 12.0 for #zoning lots# with full #block# frontage on Seventh Avenue and frontage on West 34th Street, pursuant to Section 81-542 (Retention of floor area bonus for plazas or other public amenities)

(2/2/11)

81-212

Special provisions for transfer of development rights from landmark sites

The provisions of Section 74-79 (Transfer of Development Rights from Landmark Sites) shall apply in the #Special Midtown District#, subject to the modification set forth in this Section and Sections 81-254, 81-266 and 81-277 pertaining to special permits for height and setback modifications, Section 81-747 (Transfer of development rights from landmark theaters) and Section 81-85 (Transfer of Development Rights from Landmark Sites).

The provisions of Section 74-79 pertaining to the meaning of the term "adjacent lot" in the case of lots located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts are modified to apply in the #Special Midtown District# where the "adjacent lot" is in a C5-3, C6-6, C6-7, C6-5.5, C6-6.5 or C6-7T District.

The provisions of paragraph (c) of Section 74-792 as applied in the #Special Midtown District# shall be subject to the restrictions set forth in the table in Section 81-211 on the development rights (FAR) of a landmark "granting lot" for transfer purposes.

Wherever there is an inconsistency between any provision in Section 74-79 and the table in Section 81-211, the table in Section 81-211 shall apply.

Within the Grand Central Subdistrict, any transfer of development rights from a landmark site may be made pursuant to either Section 74-79 or Section 81-63 (Transfer of Development Rights from Landmark Sites), but not both.

For #developments# or #enlargements# in C5-3, C6-6, C6-7 and C6-7T Districts, the City Planning Commission may also modify or waive the requirements of Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines) and requirements governing the minimum dimensions of a #court#, where:

- (a) the required minimum distance as set forth in Section 23-86 is provided between the #legally required windows# in the #development# or #enlargement# and a wall or #lot line# on an adjacent #zoning lot# occupied by the landmark; and
- (b) such required minimum distance is provided by a light and air easement on the #zoning lot# occupied by the landmark, and such easement is acceptable to the Department of City Planning and recorded in the County Clerk's office of the county in which such tracts of land are located.

For #developments# or #enlargements#, on #zoning lots# located in C5-3, C6-6, C6-7 and C6-7T Districts and with frontage on #streets# on which curb cuts are restricted, pursuant to Section 81-44, the Commission may also modify or waive the number of loading berths required pursuant to Section 36-62. In granting such special permit, the Commission shall find that:

- (1) a loading berth permitted by Commission authorization, pursuant to Section 81-44, would have an adverse impact on the landmark #building or other structure# that is the subject of the special permit;
- (2) because of existing #buildings# on the #zoning lot#, there is no other feasible location for the required loading berths; and
- (3) the modification or waiver will not create or contribute to

serious traffic congestion or unduly inhibit vehicular and pedestrian movement. For #developments# or #enlargements#, on #zoning lots# located in C5-3, C6-6, C6-7 and C6-7T Districts, the Commission may also modify the dimensions and minimum clear height required for pedestrian circulation space, pursuant to Sections 37-50 and 81-45. In granting such special permit, the Commission shall find that the modification will result in a distribution of #bulk# and arrangement of #uses# on the #zoning lot# that relate more harmoniously with the landmark #building or other structure# that is the subject of the special permit.

(9/13/06)

81-213

Special provisions for transfer of development rights from listed theaters within the Special Clinton District

In C6-2 Districts within the #Special Clinton District#, for #zoning lots#, or portions thereof, comprised of listed theaters designated in Section 81-742, the City Planning Commission shall allow a transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). The basic maximum #floor area ratio# for transfer purposes for such #zoning lots#, or portions thereof, shall be 6.02.

(5/27/15)

81-214

Special provisions within the Vanderbilt Corridor in the Grand Central Subdistrict

For #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, additional #floor area# may be permitted by the City Planning Commission pursuant to Section 81-635 (Transfer of development rights by special permit) or Section 81-64 (Special Permit for Grand Central Public Realm Improvement Bonus), or any combination thereof, up to the maximum permitted #floor area# set forth in the table in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings), respectively. In no event shall the total #floor area ratio# of the #zoning lot# resulting from such proposed #development# or #enlargement# exceed 30.0.

(10/17/07)

81-22

As-of-Right Floor Area Bonuses

As-of-right #floor area# bonuses are not permitted in the #Special Midtown District#, except in accordance with the provisions of the following Section:

Section 81-23 (Floor Area Bonus for Public Plazas).

In addition, the provisions of Section 23-90 (INCLUSIONARY HOUSING) shall be applicable in that portion of the #Special Midtown District# which is also within the #Special Clinton District#, pursuant to Section 81-023 (Applicability of the Special Clinton District regulations).

Any #floor area# bonus granted by certification for through #block# gallerias prior to August 6, 1998, shall remain in effect, provided however that such certification shall automatically lapse if substantial construction, in accordance with the plans for which such certification was granted, has not been completed within four years from the effective date of such certification.

(2/2/11)

81-23

Floor Area Bonus for Public Plazas

Within the #Special Midtown District#, for each square foot of #public plaza# provided on a #zoning lot#, the basic maximum #floor area# permitted on that #zoning lot# under the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) may be increased by six square feet, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

This Section shall be applicable in all underlying districts throughout the #Special Midtown District#, except that there shall be no #floor area# bonus for a #public plaza# that is:

- (a) on #zoning lots# in the C5P District within the Preservation Subdistrict;
- (b) within 50 feet of a #street line# of a designated #street# on which retail or #street wall# continuity is required,

pursuant to Sections 81-42 (Retail Continuity Along Designated Streets) or 81-43 (Street Wall Continuity Along Designated Streets);

- (c) on a #zoning lot#, any portion of which is within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions); and
- (d) on #zoning lots#, any portion of which is in the Grand Central Subdistrict.

All #public plazas# provided within the #Special Midtown District# shall comply with the requirements for #public plazas# set forth in Section 37-70, inclusive.

A major portion of a #public plaza# may overlap with a sidewalk widening which may be provided to fulfill the minimum pedestrian circulation space requirements set forth in Section 81-45 (Pedestrian Circulation Space), provided that the overlapping portion of the #public plaza# also conforms to the design standards of Section 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE) for a sidewalk widening. Such sidewalk widening may be included in the major portion of a #public plaza# for purposes of calculating the proportional restrictions set forth in Section 37-71.5.

(10/17/07)

81-231

Existing plazas or other public amenities

- (a) Elimination or reduction in size of existing #publicly accessible open area# or other public amenities

No existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, shall be eliminated or reduced in size, except by special permit of the City Planning Commission, pursuant to Section 74-763 (Elimination or reduction in size of existing bonused public amenities).

- (b) Kiosks and open air cafes

Kiosks and open air cafes may be placed within an existing #publicly accessible open area# for which a #floor area# bonus has been received by certification, pursuant to Section 37-73 (Kiosks and Open Air Cafes).

- (c) Nighttime closing of existing #publicly accessible open areas#

The City Planning Commission may, upon application, authorize the closing of an existing #publicly accessible open area# for which a #floor area# bonus has been received, during certain nighttime hours, pursuant to Section 37-727 (Hours of access).

- (d) Special provisions for certain #covered pedestrian spaces#

Where a portion of an existing #covered pedestrian space# was designated by a special authorization of the City Planning Commission prior to May 13, 1982, to be used for off-street loading after business hours, the Commission may, by special permit, after public notice and hearing, and subject to City Council action, allow relocation of the loading facilities and modifications relating to the loading berth requirements, provided that such modifications will result in substantial improvement of the pedestrian circulation system and amenities within the existing #covered pedestrian space# without adversely affecting the operation of off-street loading facilities.

- (e) Elimination or reduction in size of non-bonused open area on a #zoning lot# containing a bonused amenity

Any existing open area for which a #floor area# bonus has not been utilized that occupies the same #zoning lot# as an existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, may be reduced in size or eliminated only upon certification of the Chairperson of the City Planning Commission that all bonused amenities comply with the standards under which such #floor area# bonus was granted.

(10/17/07)

81-232

Special provisions for zoning lots divided by district boundaries

Where a #public plaza# is located on a #zoning lot# divided by a district boundary, the #floor area# bonus for such #public plaza# may be credited to either portion of the #zoning lot# regardless of the #public plaza's# location or the date when the #zoning lot# was created, provided that the amount of such bonus permitted on either portion of the #zoning lot# shall not exceed the maximum amount that would be permitted on such portion if it

were a separate #zoning lot# and subject to all other applicable provisions of Article VII, Chapter 7.

(7/26/01)

81-24

Floor Area, Lot Coverage and Building Spacing Regulations for Residential Uses

(2/2/11)

81-241

Maximum floor area ratios for a residential building or the residential portion of a mixed building

For #residential buildings# or #residential# portions of #mixed buildings# in the #Special Midtown District#, the maximum #floor area ratio# for each underlying district is as follows:

- (a) In the C5-P District the maximum #floor area ratio# is 8.0, and no additional #floor area# shall be allowed above this limit.
- (b) In all underlying districts other than the C5-P District, except as provided in paragraph (c) of this Section, the maximum #residential floor area ratio# is 10.0.
- (c) In any underlying district other than a C5-P, C6-4 or C6-5 District, or in a C6-4 or C6-5 District within the Theater Subdistrict where a #zoning lot# has been granted bonus #floor area# or other #floor area# allowances in accordance with the provisions of Section 81-741 (General provisions), such #zoning lot# shall qualify for a maximum #residential floor area ratio# of 12.0 if the #development# or the #building# containing the #enlargement# includes recreational space for the #residential# occupants in an amount not less than 13 square feet for each #rooming unit#, 16.25 square feet for each #dwelling unit#, or a total area of at least 5,000 square feet, whichever is greater. The recreational space may be located at any level including a roof. Such recreational space shall:
 - (1) be restricted to #residential# occupants of the #development# or the #building# containing the #enlargement# and their guests, for whom no admission or membership fees may be charged;

- (2) be directly accessible from a lobby or other public area served by the #residential# elevators;
- (3) be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;
- (4) contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet;
- (5) have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be enclosed. In no event may more than 25 percent of the required recreational space be fully enclosed. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreational facilities or seating areas.

A copy of requirements (c)(1) through (c)(5), as set forth in this Section, shall be permanently posted in a conspicuous place within each recreational space.

(2/2/11)

81-242

Regulations on minimum spacing between buildings

When a #building# containing #residential uses# is located on the same #zoning lot# as another #building#, the provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

(2/2/11)

81-25

General Provisions Relating to Height and Setback of Buildings

For all #buildings# in the #Special Midtown District#, except as provided in Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT), the height and setback regulations of the underlying districts are superseded by the provisions of this Section and by the two alternate sets of regulations controlling the height and setback of #buildings# as set forth in Sections

81-26 (Height and Setback Regulations--Daylight Compensation) and 81-27 (Alternate Height and Setback Regulation--Daylight Evaluation), respectively. For the purposes of applying height and setback regulations, the term "#buildings#" shall include #buildings or other structures#, except if specifically stated otherwise.

For the purposes of Sections 81-25 through 81-27, inclusive, all #buildings# on a #zoning lot# shall be considered a single #building#. Existing portions of such #buildings# are referred to as an "existing #building#." A "new #building#" shall include #developments#, #enlargements# or alterations that increase the width or height of a #building# wall.

An applicant for plan approval by the Department of Buildings may elect to be governed by the provisions of either Section 81-26 or 81-27 in addition to the provisions of this Section.

This Section sets forth the provisions that are common to both sets of regulations.

(2/2/11)

81-251

Purpose of height and setback regulations

The common purpose of these two sets of regulations is to offer maximum design flexibility while setting reasonable but firm standards to protect access of light and air to public #streets# and adjacent #buildings#.

This purpose is implemented by the two alternate sets of regulations, which are based on two distinct approaches. Both sets are concerned with daylight at #street# level.

The daylight compensation regulations require any #building# generally to be built within a sky exposure curve which relates required setbacks to #building# heights. Within limits, the #buildings# may encroach outside the curve but only if extra setbacks or recesses provided elsewhere on the same #street# frontage of the #zoning lot# compensate for the #encroachment#. In the regulations, the sky exposure curve for three #street# width categories is represented in each case by a table of required setbacks related to #building# heights.

The daylight evaluation regulations measure and evaluate portions of sky blocked by a #building# as viewed from specified #vantage points# in the #street#. The #building# is plotted on #daylight

evaluation charts# representing the #zoning lot's# available daylight from specified #vantage points#, measured in daylight squares as defined in paragraph (b) of Section 81-272. Daylight blockage by the #building# is then measured to determine the #building's# score on each frontage and the average score for the #building# as a whole. The regulations specify the minimum passing scores for compliance.

(4/30/12)

81-252

Permitted obstructions

Except as set forth in this Section, structures which under the provisions of Sections 33-42 or 43-42 (Permitted Obstructions) or 34-11 or 35-11 (General Provisions), are permitted to penetrate a maximum height limit or a #sky exposure plane# shall not be permitted as exceptions to the height limitations, setback requirements or rules for the measurement of #encroachments# or #compensating recesses# set forth in Section 81-26 (Height and Setback Regulations), nor shall they be excluded in determining daylight blockage pursuant to the provisions of Section 81-27 (Alternate Height and Setback Regulations).

The following shall be permitted as exceptions to the height regulations, setback requirements or rules for the measurement of #encroachments# or #compensating recesses#, set forth in Section 81-26 (Height and Setback Regulations), and shall be excluded in determining daylight blockage, pursuant to the provisions of Section 81-27 (Alternate Height and Setback Regulations);

- (a) Unenclosed balconies conforming to the provisions of Section 23-13 (Balconies); and
- (b) Exterior wall thickness, up to eight inches, where such wall thickness is added to the exterior face of a #building# wall existing on April 30, 2012, provided the added wall thickness has a thermal resistance (R-value) of at least 1.5 per inch. Where #buildings# that have added exterior wall thickness pursuant to this Section are #enlarged#, such #enlarged# portion may similarly penetrate a maximum height limit in order to align with the exterior walls of the existing #building#, provided such #enlargement# contains less #floor area# than the existing #building#, and there is no penetration of #floor area# above a maximum height limit.

(2/2/11)

81-253

Special provisions for Grand Central, Theater, Fifth Avenue, Penn Center and Preservation Subdistricts

The provisions of Sections 81-26 (Height and Setback Regulations) and 81-27 (Alternate Height and Setback Regulations) are supplemented and modified by special provisions applying in the Fifth Avenue Subdistrict, as set forth in Sections 81-81 (General Provisions) and 81-83 (Special Street Wall Requirements) or in the Theater Subdistrict as set forth in Sections 81-71 (General Provisions) and 81-75 (Special Street Wall and Setback Requirements) or in the Grand Central Subdistrict as set forth in Sections 81-61 (General Provisions), 81-621 (Special street wall requirements) and 81-622 (Special height and setback requirements).

The provisions of Sections 81-26 and 81-27 are not applicable in the Preservation Subdistrict, where height and setback is regulated by the provisions of Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT), or in the Penn Center Subdistrict as set forth in Section 81-532 (Special street wall requirements).

(5/27/15)

81-254

Special permit for height and setback modifications

In the #Special Midtown District#, the City Planning Commission may modify the special height and setback regulations set forth in this Chapter only in accordance with the following provisions:

Section 74-711 (Landmark preservation in all districts) as modified by the provisions of Sections 81-266 or 81-277 (Special permit for height and setback modifications)

Section 74-79 (Transfer of Development Rights from Landmark Sites) where development rights are transferred from a landmark site to an adjacent lot in a C5-3, C6-6 or C6-7 District, as modified by Section 81-212, and the total #floor area# on the adjacent lot resulting from such transfer exceeds the basic maximum #floor area ratio# by more than 20 percent. In such cases, the granting of a

special permit by the Commission for height and setback modifications shall be in accordance with the provisions of Sections 81-266 or 81-277

Section 81-066 (Special permit modifications of Section 81-254, Section 81-40 and certain Sections of Article VII, Chapter 7)

Section 81-635 (Transfer of development rights by special permit)

Section 81-64 (Special Permit for Grand Central Public Realm Improvement Bonus).

(5/13/82)

81-26

Height and Setback Regulations-Daylight Compensation

(2/2/11)

81-261

Definitions

Compensating recess

A portion of a #zoning lot# which, at the #building# height selected for determining compliance with the provisions of Section 81-26 (Height and Setback Regulations), lies in the #free zone# (Zone A on the #encroachment grid#), is not covered by any portion of a #building# and qualifies as compensating for #encroachments# beyond the #free zone# under the provisions of Section 81-264 (Encroachments and compensating recesses). (See Illustration of #Compensating Recess# and #Encroachment#)

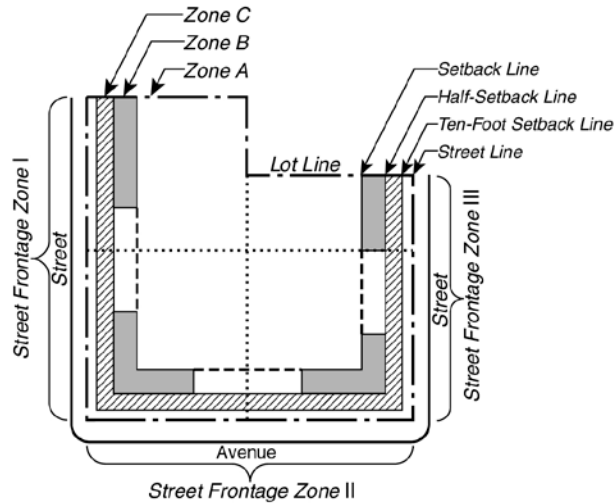

COMPENSATING RECESS AND ENCROACHMENT (81-265.1)

Encroachment

A projection beyond the #setback line#, the #free zone# or the #half-setback line# by any portion of a #building# that exceeds the maximum height permitted at the #street line#. (See Illustration of #Compensating Recess# and #Encroachment#)

Encroachment grid

A plan drawing of the #zoning lot# at any given height above #curb level# selected to determine compliance with the provisions of Section 81-26 (Height and Setback Regulations) and showing, for that height, #street lines#, #setback lines#, #half-setback lines#, #Zone A# (the #free zone#), #Zones B# and #C# (#encroachment zones#) and, where applicable, the #ten-foot setback line#. The #encroachment grid# serves as a device for measuring areas of #encroachment# beyond the #free zone# and areas of #compensating recess# within the #free zone#. (See Illustration of #Encroachment Grid#)

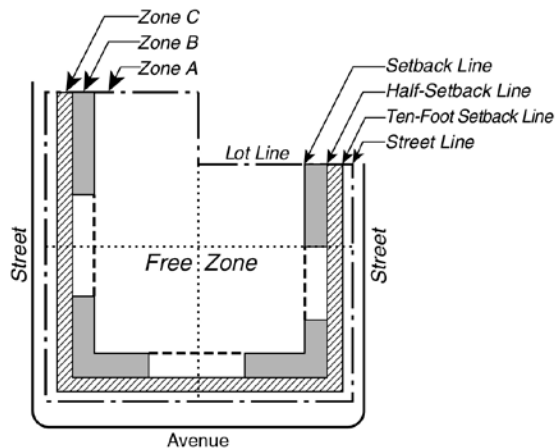

ENCROACHMENT GRID
(81-265.2)

Free zone

That portion of a #zoning lot#, at any given height, which may be covered by a #building# without coverage constituting an #encroachment# that requires daylight compensation.

In addition to the area that lies behind a #setback line# or #lines#, the #free zone# shall include areas between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#, and which qualify as #free zone# areas under the #middle one-third rule#. The #free zone# is referred to as #Zone A# on the #encroachment grid#.

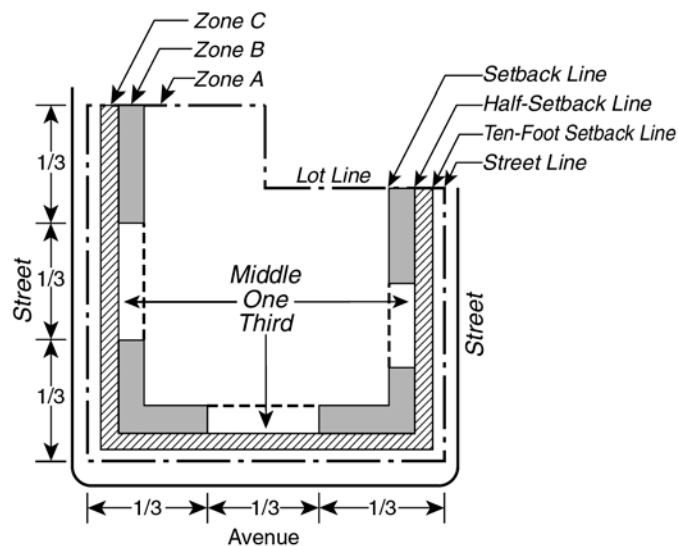

Free Zone
(81-265.3)

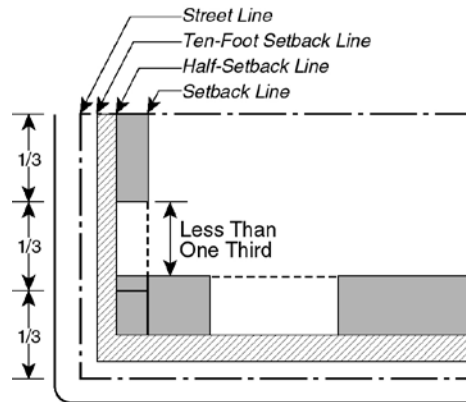

Half-setback line

A line drawn parallel to a #street line# and halfway between the #street line# and the #setback line#. (See Illustration of #Setback# and #Half-Setback Lines#)

Middle one-third rule

The rule under which, for the middle one-third of the #front lot line# length, the #free zone# includes area between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#. However, on a #corner lot# the #free zone# does not extend beyond the #setback line# along an intersecting #street#. (See Illustrations of #Middle One-Third Rule#)

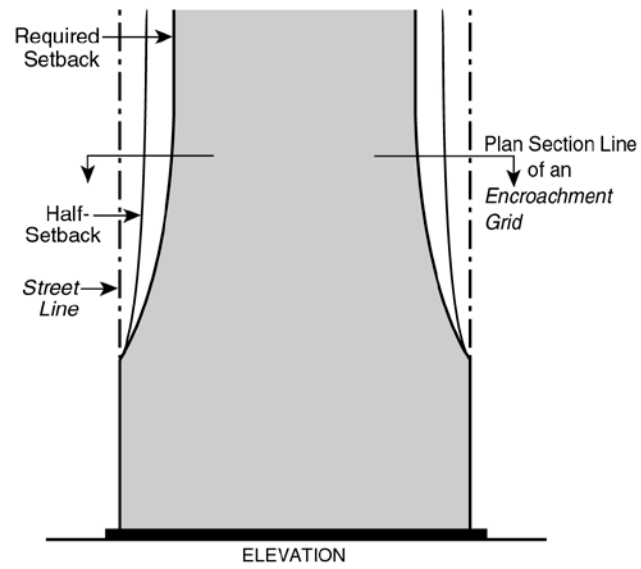

MIDDLE ONE-THIRD RULE
(81-265.4)

Setback line

A line drawn in plan parallel to a #street line# and showing for a given #building# height the minimum depth to which a #building# is required to be set back from the #street line# by the applicable depth to height chart in Section 81-263 (Standard setback requirements). Required setbacks, established by the chart, increase with the #building's# height. (See Illustration of #Setback# and #Half-Setback Lines#)

SETBACK AND HALF-SETBACK LINES
(81-265.5)

Street frontage zone

A portion of a #zoning lot# which lies within an area bounded by a continuous #front lot line# and either the center line of the #block# or a line 100 feet distant from and parallel to that #front lot line#, whichever is closer to that #front lot line#. There shall be a #street frontage zone# for each #zoning lot street# frontage. (See Illustration of #Street Frontage Zones#)

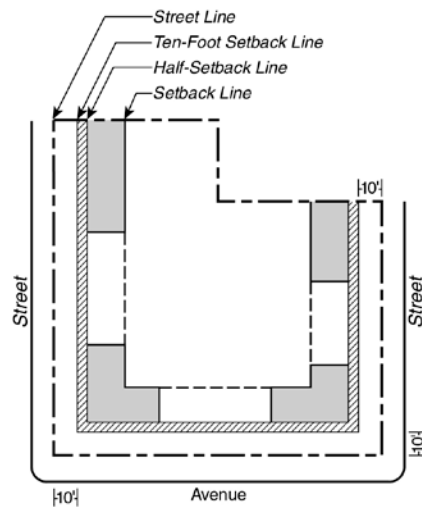

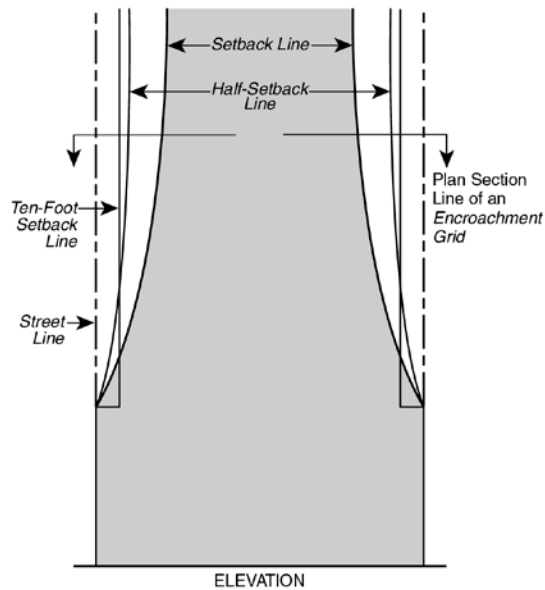

STREET FRONTAGE ZONES
(81-265.6)

Ten-foot setback line

A line which is parallel to the #street line# at a depth of 10

feet and represents the minimum distance any portion of a #building# exceeding the maximum height at the #street line# is required to be set back from the #street line#. A greater setback distance may be required by a #setback line# or a #half-setback line# depending upon the #building# height for which such #setback line# or #half-setback line# is established.

TEN-FOOT SETBACK LINE ON AN ENCROACHMENT GRID
(81-265.7)

Zone A, Zone B, Zone C

"Zone A," "Zone B" and "Zone C" are zones on an #encroachment grid# defined as follows:

- (a) #Zone A# is the #free zone#.
- (b) #Zone B#, an #encroachment# zone, is the zone, exclusive of any area in #Zone A# and any area closer to the #street line# than the #ten-foot setback line#, which lies between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#.
- (c) #Zone C#, an #encroachment# zone and penalty zone, is the zone, exclusive of any area closer to the #street line# than the #ten-foot setback line#, which lies between the #half-setback line# and the #ten-foot setback line#.

(5/13/82)

81-262

Maximum height of front wall at the street line

- (a) General provisions

The front wall of a #building# at the #street line# shall not exceed the height limit applying along the #street# on which it fronts. Maximum front wall heights at the #street line# vary with the width of the #street# on which the wall fronts, as follows:

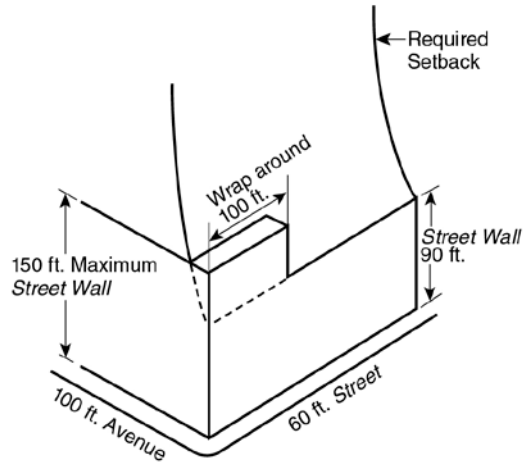

#Street# Width (in feet)	Maximum Front Wall Height at #Street Line# (in feet)
60 or less	90
75 or 80	120
100 or more	150

- (b) Special provisions for #corner lots#

For a #corner lot# with frontage on #streets# of different widths, the maximum front wall height at the #street line# of the narrower #street# may be increased above that indicated in paragraph (a) in accordance with either one of the following rules:

Rule 1:

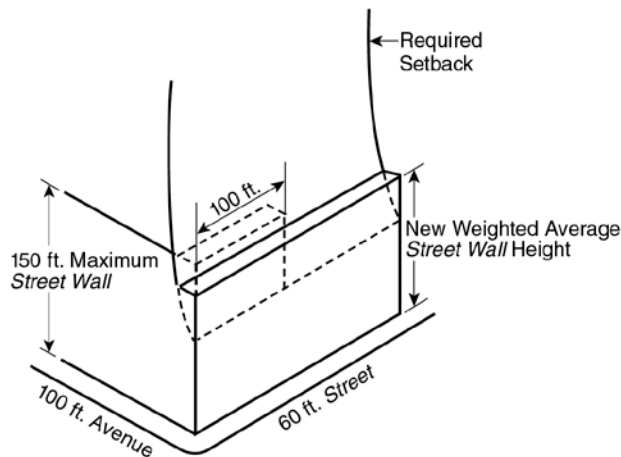

The maximum front wall height at the #street line# for the wider #street# may extend up to 100 feet from the corner along the #street line# of the narrower #street#; or

SPECIAL RULE 1 FOR CORNER LOTS
(81-262b.1)

Rule 2:

For any length of frontage from the corner along the narrower #street#, a maximum height for such length of frontage may apply, which shall be the weighted average of (1) the height permitted under Rule 1 for the first 100 feet from the corner, and (2) the standard height limit for front walls on the narrower #street# for the remainder of the frontage. (See Illustration of Special Rules for #Corner Lots#)

SPECIAL RULE 2 FOR CORNER LOTS
(81-262b.2)

(2/2/11)

81-263

Standard setback requirements

#Buildings# shall comply with the regulations of this Section.

(a) Ten-foot setback requirement

Above the maximum height permitted at the #street line# pursuant to the provisions of Section 81-262, every portion of a #building# shall be set back at least 10 feet from the #street line#.

(b) General setback provisions; depth to height charts

Above the maximum height permitted at the #street line#, #buildings#, in addition to meeting the requirements of paragraph (a) of this Section, are required to be set back behind the applicable #setback line#, the depth of the #setback line# at any point depending upon the height of the wall at that point in accordance with the requirements of applicable Tables A, B or C of this Section presenting required setbacks from #streets# 60 feet or less, 75 or 80 feet, or 100 or more feet in width, respectively.

710	50.00
Above 710	For every 10 feet the depth shall increase by one foot

(c) Use of tables

To comply with the setback requirements of this Section a #building# at any height shall be set back at least to the depth of the #setback line# indicated on the applicable table.

For heights between those shown on the table, the depth of the #setback line# shall be interpolated.

Required depths of #setback lines# shall be rounded off to the next highest half foot.

The setback requirements apply only to portions of #buildings# above the maximum height permitted at the #street line#, so that required setbacks on the narrower #street# frontage of a #corner lot# shall apply only to heights above the maximum front wall heights permitted by the #corner lot# provisions of paragraph (b) of Section 81-262 (Maximum height of front wall at the street line).

(d) #Middle one-third rule#

A #building# may penetrate beyond the #setback line# at any height if the penetration is confined to the middle third of the #front lot line# length and complies in all respects with the #middle one-third rule# as defined in Section 81-261 (Definitions).

(2/2/11)

81-264

Encroachments and compensating recesses

In addition to complying with the setback requirements of Section 81-263 (Standard setback requirements), a #building# shall not at any height encroach beyond a #half-setback line# or a #ten-foot setback line#, except as provided below. For each #street frontage zone# and for all #street frontage zones#, taken together on a single #encroachment grid#, a #building# shall not, at any level, have an aggregate area of #encroachment# beyond the #setback line#, other than in any #free zones#, greater than the aggregate area of #compensating recess# at such level.

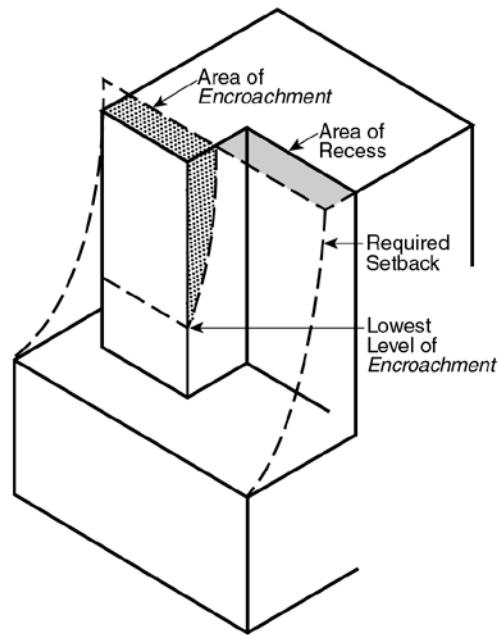

Except as provided below, an area of #compensating recess# in one #street frontage zone# shall not be used to compensate for #encroachment# in another #street frontage zone#. However, a #building# with a #street frontage zone# which lies along a north-south #wide street# and does not meet the above requirements because of excessive #encroachment# will be in compliance with the #street frontage zone# requirements of this Section if compensation is provided for such excessive #encroachment# by an overlapping #street frontage zone#.

The requirement that the aggregate area of #compensating recess# at least equal the aggregate area of #encroachment#, as set forth in this Section, shall also apply to any #building# which encroaches beyond a #half-setback line# and which is therefore subject to the provisions of Section 81-265 (Encroachment limitations by length and height rules). (See Illustration of Encroachments and Compensating Recesses)

(a) Rules for measuring #encroachments# and recesses

Areas of #encroachment# and #compensating recess# shall be measured in plan on one or more #encroachment grids# showing for the #zoning lot#, at a given height level, the #street lines#, the #setback lines#, the #half-setback lines#, the #ten-foot setback lines#, #Zones A#, #B# and #C# and the

#street frontage zones#.

ENCROACHMENTS AND COMPENSATING RECESSES (81-264a)

The scale of the #encroachment grid# shall be not more than 20 feet to the inch. All #buildings#, existing and proposed, shall be located accurately on the grid in plan at the height level selected to demonstrate compliance. For each #street frontage zone#, the areas of the #building's encroachment# in #Zones B# and #C# and the #compensating recess# areas not covered by any #building# in #Zone A# shall be measured on the #encroachment grid#.

(b) Limits of #encroachment#

Except as provided in paragraph (d) of this Section for existing #buildings# below specified heights, #encroachment# is limited as follows:

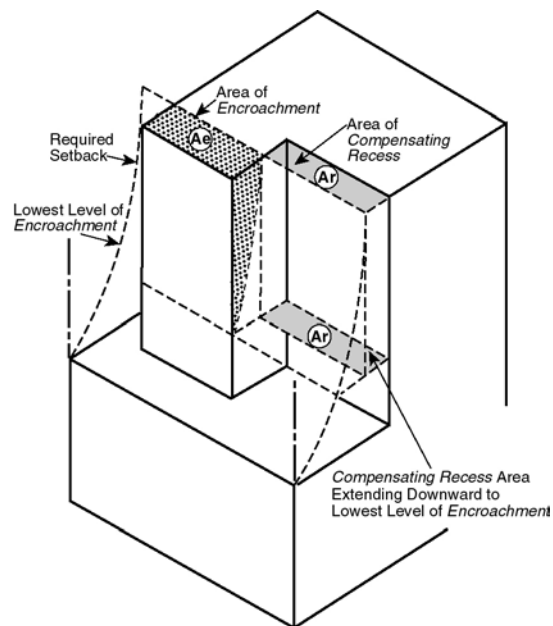

- (1) For each #street frontage zone#, at every height above the maximum front wall height at the #street line#, the area within #Zone A# that is not covered by a #building# and qualifies as #compensating recess# area shall, in the aggregate, equal or exceed the aggregate area in #Zones B# and #C# that is encroached upon by a #building# at such height.

- (2) No part of a #building# shall encroach into #Zone C# unless it complies with the provisions of Section 81-265.
- (3) On #corner lots#, the projection of a #building# beyond the #setback# or #half-setback line# on the narrower #street# shall not count as an #encroachment# except at heights above the maximum height permitted at the #street line# by the #corner lot# provisions in paragraph (b) of Section 81-262 (Maximum height of front wall at the street line).

(c) Limitations on #compensating recess#

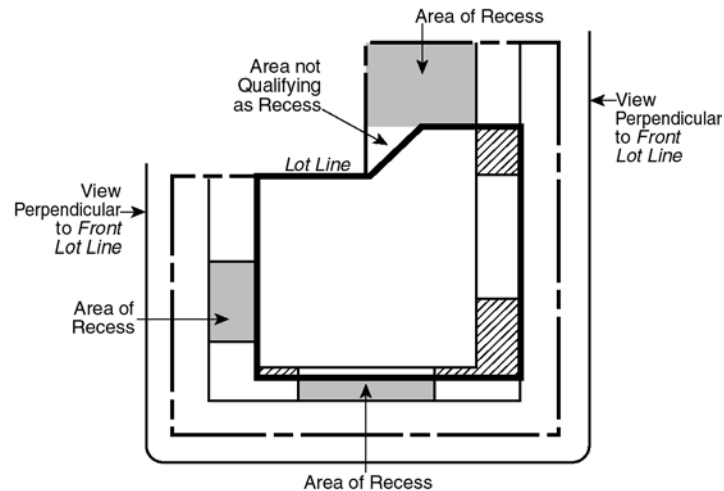

#Compensating recess# areas are subject to the following limitations:

- (1) Any required #compensating recess# area shall extend without diminution of dimensions downward at least to the lowest level at which any #encroachment# into #Zone B# or #C# occurs and upward to the sky. (See Illustration of Extension Downward of Compensating Recess Area)

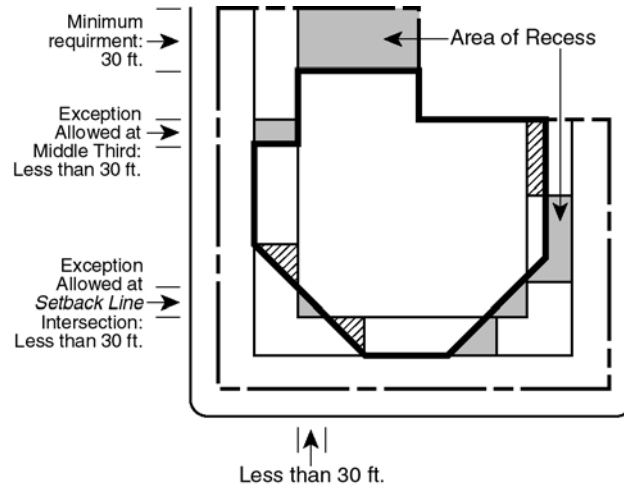

EXTENSION DOWNWARD OF COMPENSATING RECESS AREA
(81-264c1)

- (2) #Compensating recess# area shall be visible when viewed from at least one adjacent #street# along a line that intersects the #front lot line# of the #zoning lot# at right angles. (See Illustration of Visibility of Compensating Recess Area)

VISIBILITY OF COMPENSATING RECESS AREA
(81-264c2)

- (3) The minimum length of a #compensating recess#, measured parallel to the #street line#, and behind the #setback line#, is 30 feet, except for any uncovered portion of an area that qualifies as #Zone A# under the #middle one-third rule# or an uncovered area located behind two intersecting #setback lines#. An uncovered area between the #setback# and #half-setback lines# that qualifies as #Zone A# under the #middle one-third rule# is not subject to the minimum length requirement. (See Illustration of Minimum Length of Compensating Recess)

MINIMUM LENGTH OF COMPENSATING RECESS
(81-264c3)

(4) #Compensating recess# area shall be within 100 feet of a #front lot line#.

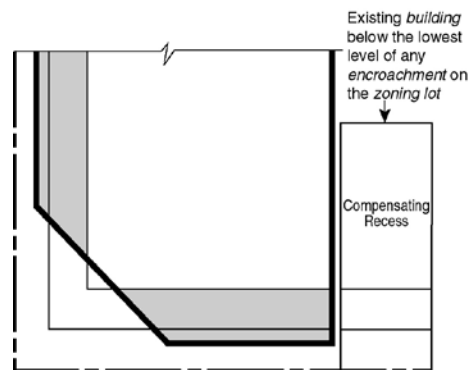

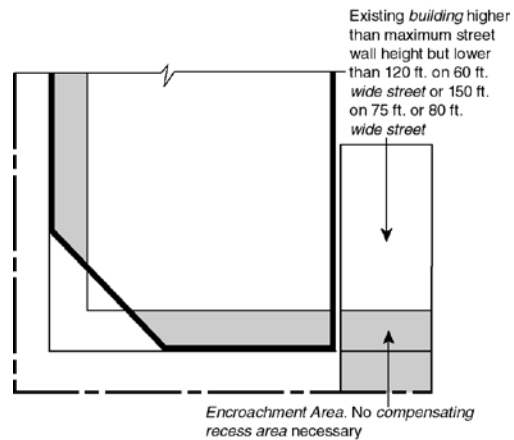

(d) Existing #buildings# on the #zoning lot#

Where a #zoning lot# contains an existing #building# which exceeds a height limit, an #enlargement# or #development# on such #zoning lot# shall comply with the following provisions:

- (1) For each #street frontage zone#, if the existing #building# is not more than 120 feet in height at any point and encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 60 feet wide, or if the existing #building# is not more than 150 feet in height at any point and encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 75 or more feet in width, the new #building# or #enlargement# is not required to compensate for such #encroachment# by the provision of #compensating recess# areas. #Encroachment# by such an existing #building# into #Zone C# or beyond the #ten-foot setback line# will not subject the new #building# or #enlargement# to the provisions of Section 81-265 unless the new #building# or #enlargement# also encroaches into #Zone C#.
- (2) For each #street frontage zone#, space above such existing #building# and within #Zone A# on the #encroachment grid# may count as #compensating recess#

area for the new #building# or #enlargement# provided that such space is at or below the lowest level of any compensable #encroachment# by the new #building# or #enlargement#, that it is located within the same #street frontage zone# as that compensable #encroachment#, and that it qualifies in all respects under the provisions of paragraph (c) of this Section (Limitations on #compensating recess#).

- (3) For each #street frontage zone#, if an existing #building# more than 120 feet in height at any point encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 60 feet wide, or if an existing #building# more than 150 feet in height at any point encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 75 or more feet in width, the #encroachment# of such #building# into #Zone B# or #Zone C# or beyond the #ten-foot setback line# at any height shall be subject to the requirements for #compensating recess# areas set forth in paragraph (b)(1) of this Section, as if it were a new #building#. Where such an existing #building# encroaches into #Zone C# or beyond the #ten-foot setback line#, the provisions of paragraph (f)(2) in Section 81-265 shall apply in addition to the provisions of this Section. (See Illustration of Existing Buildings on the Zoning Lot)

EXISTING BUILDINGS ON THE ZONING LOT (81-264d3)

(4/28/88)

81-265

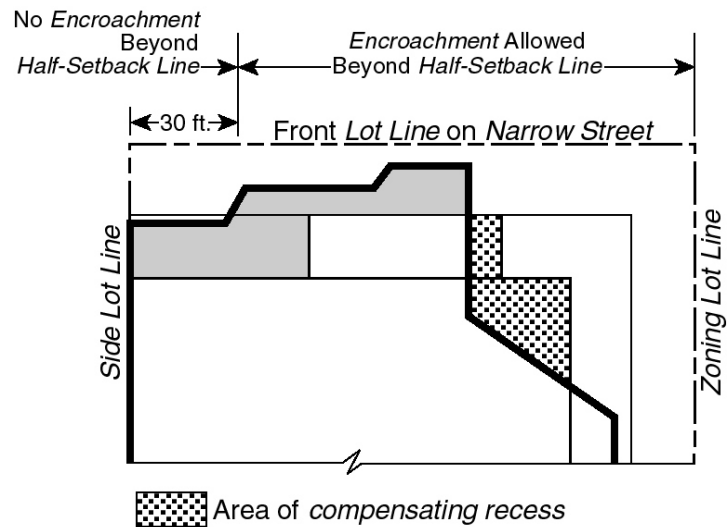

Encroachment limitations by length and height rules

Above the maximum height of a front wall at the #street line# as set forth in Section 81-262, a #building# may only encroach beyond the #half-setback line# if it complies with the provisions of this Section and if the area of #compensating recess# equals or exceeds the area of #encroachment# in #Zones B# and #C# in accordance with the provisions of Section 81-264 (Encroachments and compensating recesses).

(a) Special limitations

No #encroachment# beyond the #half-setback line# shall be within 30 feet of a #side lot line#. (See Illustration of Prohibited and Allowed Encroachment Beyond Half-Setback

Line)

PROHIBITED AND ALLOWED ENCROACHMENT BEYOND
HALF-SETBACK LINE
(81-265a)

(b) General provisions

The length, depth, height and area of #encroachments# along any #street# frontage all contribute to a #building's# impact on daylight access. In order to determine whether the depth of a #building's encroachment# into #Zone C# is justified, the length of the #encroachment#, measured parallel to the #street line#, and its height above #curb level# must also be evaluated. The extent of #encroachment# also must be considered in relation to the extent of the area of #compensating recess# in the same #street frontage zone#. The purpose of the length and height rule is to ensure, in the case of #encroachments# beyond the #half-setback line#, that the closer a #building# comes to the #street line#, the less will be the length of its #encroachment#, its height or both. (See Illustration of Elements Analyzed)

The elements comprising this analysis are represented by symbols and are as follows:

(1)

$$\frac{De}{D} = \frac{\text{depth of \#encroachment\#}}{\text{depth of \#setback line\#}}$$

De (depth of #encroachment#) means depth of #encroachment# beyond the #setback line#. Depth of #encroachment# is measured perpendicularly to the #setback line#.

D (depth of #setback line#) means depth of #setback line# from the #street line# or depth of #ten-foot setback line# from the #street line#, whichever depth is greater.

(2)

$$\frac{Le}{L} = \frac{\text{length of \#encroachment\#}}{\text{length of \#front lot line\#}}$$

Le (length of #encroachment#) means total length of #encroachment# outside the #half-setback line#. Length of #encroachment# is measured as the total length of the #encroachments'# projections on the #street line#.

L (length of #front lot line#) means the length of the #front lot line# along the particular #street#. However, the length of the #front lot line# for the purposes of this Section shall not exceed 300 feet, irrespective of the actual #lot line# length.

(3)

$$\frac{Le}{Lr} = \frac{\text{length of \#encroachment\#}}{\text{length of recess}}$$

Le (length of #encroachment#) as defined in paragraph (b)(2) of this Section.

Lr (length of recess) means total length of #setback line# not encroached upon by a #building#.

(4)

$$\frac{H}{L} = \frac{\text{height of \#encroachment\#}}{\text{length of \#front lot line\#}}$$

H (height of #encroachment#) means the height of the #encroachment# above #curb level#.

L (length of #front lot line#) as defined in paragraph (2) of this Section.

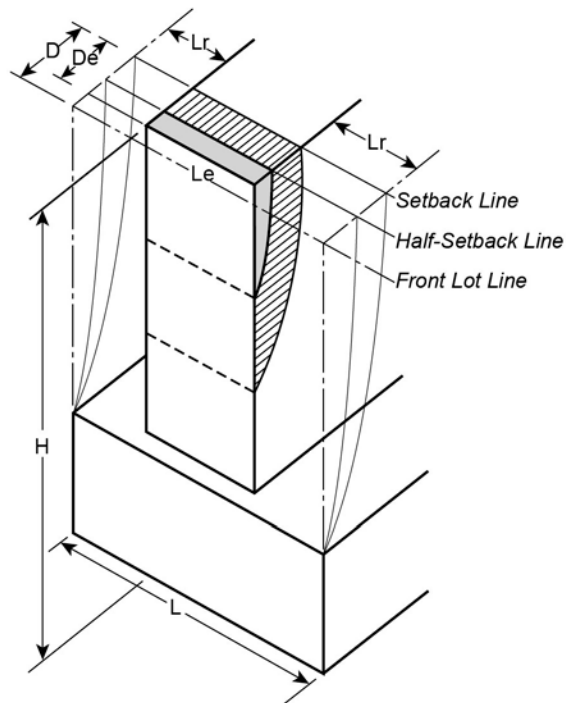

(5)

$$\frac{Ar}{Ae} = \frac{\text{area of \#compensating recess\#}}{\text{area of \#encroachment\#}}$$

Ar (area of #compensating recess#) means area of #compensating recess# in the particular #street frontage zone#. Area of #compensating recess# is calculated to a depth of 100 feet from the #street line#.

Ae (area of #encroachment#) means area of #encroachment# beyond the #setback line#. Area of #encroachment# is calculated to a depth of 100 feet from the #street line#.

Values for the elements in paragraphs (b)(1) through (b)(5) shall be found for each #street frontage zone# on which there is any #encroachment# beyond the #half-setback line#.

- L – Length of *front lot line* along the particular *street*
- L_e – Length of *encroachment* outside *half-setback line* or *ten-foot setback line*
- L_r – Total length of *setback line* not encroached by *building*
- D_e – Depth of *encroachment*
- D – Depth of *setback line*
- H – Height of *encroachment* above *curb level*

ELEMENTS ANALYZED (81-265b)

The elements, weighted according to the effects on daylight access, are represented in the formulas and charts that control the depth, length and height of #encroachments#, as set forth in paragraph (c) of this Section.

#Encroachments# of proposed #buildings# or #enlargements# beyond the #half-setback line# are permitted only if in compliance at every point with the formulas in paragraph (c) of this Section. Aside from this general requirement, specified points at which the length, depth, height and area rules shall be applied are presented in paragraphs (d) and (e) of this Section.

(c) #Encroachment# limitations by Formulas 1 and 2

Where applicants elect to have their #buildings# regulated by the formulas, #buildings# shall comply with both Formula 1 and Formula 2 as set forth in this paragraph. Elements of the formulas and the symbols by which they are represented are as set forth in paragraph (b) of this Section.

$$\text{Formula 1: Maximum } \frac{H}{L} = 5.5 - 4 \left(\frac{De}{D} \right)^{-2.5} \left(\frac{Le}{L} \right)$$

$$\text{Formula 2: Minimum } Lr = \frac{L}{3.5}$$

The maximum height of #encroachment# (H) allowed by Formula 1 may be modified for certain conditions, as follows:

(1) For short frontages

For any frontage less than 200 feet in length, the maximum

$$\frac{H}{L}$$

found by applying Formula 1 may be increased by the following multiplier:

$$2 - \frac{L}{200}$$

(2) For large areas of #compensating recess#

To the extent that the aggregate area of #compensating recess# (Ar) exceeds the aggregate area of #encroachment# (Ae), the maximum

$$\left(\frac{H}{L} \right)$$

found by applying Formula 1 may be increased by the following multiplier:

$$1 + \frac{.067 \text{ Ar}}{Ae}$$

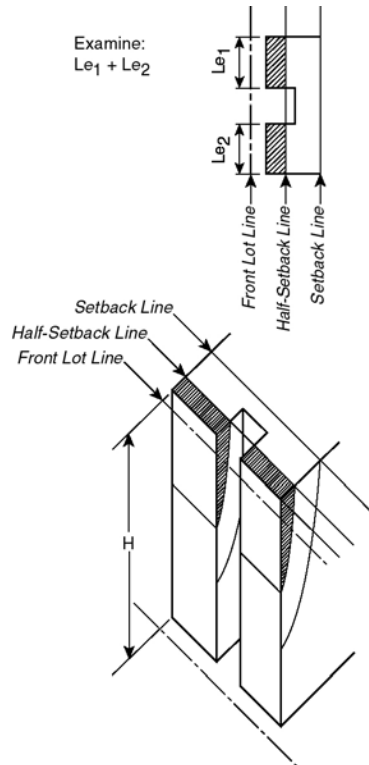

For the purposes of this modification, the measurement of

the area of #compensating recess# (Ar) and the area of #encroachment# (Ae) in each particular #street frontage zone# shall be made on the #encroachment grid# at the height level for which #encroachments# beyond the #half-setback line# are checked. The #encroachment grid# shall include all #street frontage zones#. (Ar) shall include all areas of #compensating recess# in the particular #street frontage zone#, whether or not connected, and (Ae) shall include all #encroachments# in both #Zone B# and #Zone C# in the same #street frontage zone#, whether or not such #encroachments# are connected.

(d) Measurement of #encroachments#

The points at which the formulas are applied will depend upon the shape and dimensions of the #encroachments# beyond the #half-setback line# and shall be in accordance with the provisions of this paragraph and paragraph (e) of this Section.

Where the #encroachments# along a single #street# frontage are not connected outside the #half-setback line#, each #encroachment# shall be measured separately in accordance with the provisions of paragraph (e). However, at any given height, where such non-contiguous #encroachments# occur, the #encroachments# shall be examined together, and the length of #encroachment# (le) shall be the total of the (le) for the individual #encroachments#. (See Illustration of Noncontiguous #Encroachments#)

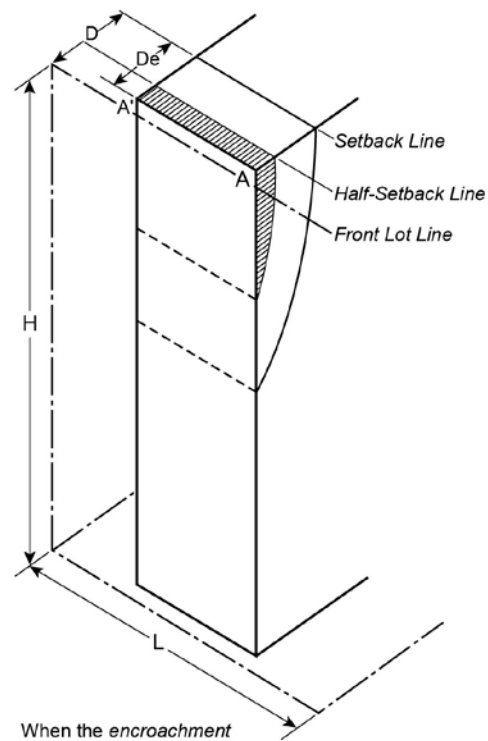

NONCONTIGUOUS ENCROACHMENTS (81-265d)

(e) Heights and depths at which formulas are applied

Heights and depths at which the formulas shall be applied are set forth in this paragraph. In addition to meeting the requirements of paragraphs (e)(1) and (e)(2) of this Section, the applicant shall demonstrate that there is no height at which the proposed #building# or #enlargement# fails to comply with the formulas in paragraph (c) of this Section.

(1) Standard requirement where length of #encroachment# is uniform

Where the length of the #encroachment# (Le) is uniform for the entire height of the #encroachment# (H) and the entire depth (De) at every height, the length, depth and height rules expressed in the formulas shall be applied only at the height where (De/D) is greatest and at the outermost edge of the #encroachment#. (See Illustration of Uniform Length of #Encroachment#)

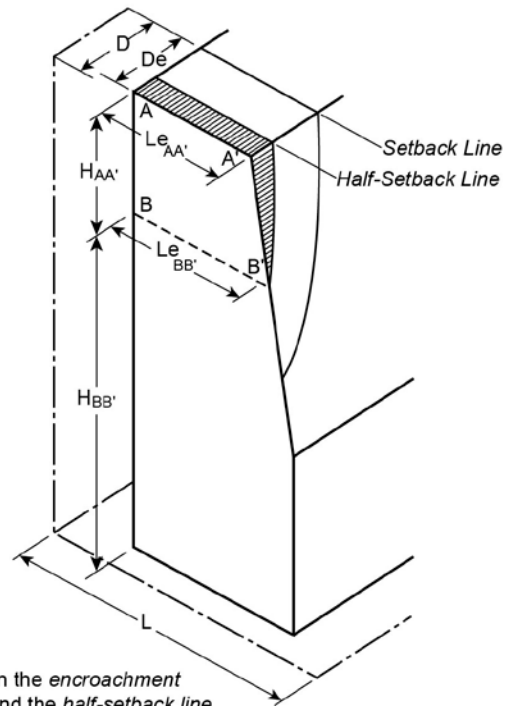

When the *encroachment*
beyond the *half-setback line*
has uniform length. (L_e is constant)
Check: AA' where De/D is the largest

UNIFORM LENGTH OF ENCROACHMENT (81-265e1)

- (2) Standard requirement where length of #encroachment# is not uniform

Where the length of the #encroachment# (L_e) is not uniform, the rules shall be applied at the height level where (D_e/D) is greatest and also at the height level where the length of #encroachment# (L_e) is greatest. If the greatest length of #encroachment# is uniform for part of the #building's# height, the rules shall be applied at the highest level at which such greatest length of #encroachment# occurs. (See Illustrations Where Length of #Encroachment# is Not Uniform).

If for a particular height level, the length of the #encroachment# (L_e) varies with the depth of the #encroachment# (D_e), the largest (L_e) of this #encroachment# shall be used together with the largest d_e in applying the rules as if the #encroachment# were of uniform length as provided in paragraph (e)(1) of this Section.

When the *encroachment* beyond the *half-setback line* has variable lengths

Check: AA' where De/D is largest

BB' where Le/L is largest

WHERE LENGTH OF ENCROACHMENT IS NOT UNIFORM
(81-265e2)

(f) #Encroachments# by existing #buildings#

When a #zoning lot# contains an existing #building# which encroaches beyond a #half-setback line# or a #ten-foot

setback line#, an #enlargement# or #development# on such #zoning lot# shall comply with the following provisions:

(1) Existing #buildings# below specified heights

- (i) Except as provided in paragraph (f)(1)(ii) of this Section, an existing #building# not more than 120 feet in height shall not be considered in applying the length and height rules even though a portion of such #building# encroaches beyond the #half-setback line# or #ten-foot setback line# along a 60 foot wide #street# and an existing #building# not more than 150 feet in height shall not be considered in applying the length and height rules even though a portion of such #building# encroaches beyond the #half-setback line# or #ten-foot setback line# along a #street# 75 or more feet in width.
- (ii) However, the area occupied by the existing #building# shall be included in the calculation of (Ar/Ae) for the modification of Formula 1 allowed in the case of large areas of #compensating recess#, as set forth in paragraph (c)(2) of this Section.

(2) Existing #buildings# above specified heights

Where an existing #building# more than 120 feet in height encroaches beyond the #half-setback line# or #ten-foot setback line# along a 60 foot wide #street# or where an existing #building# more than 150 feet in height encroaches beyond the #half-setback line# or #ten-foot setback line# along a #street# 75 or more feet in width, the following provisions, in addition to those of paragraph (d)(3) of Section 81-264 (Encroachments and compensating recesses), shall apply:

- (i) no new construction on the #zoning lot# shall encroach beyond the #half-setback line# along any #street#, and
- (ii) the length and height rules of this Section shall not apply.

(4/28/88)

Special permit for height and setback modifications

In C5-3, C6-6 or C6-7 Districts, where a special permit application is made pursuant to Section 74-71 (Landmark Preservation) for modification of #bulk# regulations on a #zoning lot# containing a landmark, or where a special permit application is made pursuant to Section 74-79 for transfer of development rights from a landmark site and the #floor area# represented by such transferred development rights exceeds 20 percent of the basic maximum #floor area# permitted on the #zoning lot# receiving the development rights, such application may include a request for modification of the height and setback regulations set forth in Sections 81-261 to 81-265, inclusive, relating to Height and Setback Regulations - Daylight Compensation. The City Planning Commission may authorize such height and setback modifications subject to the following conditions:

- (a) the applicant shall demonstrate to the satisfaction of the Commission that a feasible design for the proposed #development# or #enlargement# which accommodates the permitted #floor area# is not possible under the provisions of Sections 81-261 to 81-265, inclusive, and shall further indicate for the proposed design where and to what extent deficiencies of #compensating recess# are necessary or compliance with the length and height rules is not possible. Scale drawings shall be used in presenting the analyses required herein; and
- (b) the Commission shall make the following findings in addition to any required under the applicable provisions of Section 74-71 or Section 74-79:
 - (1) that the requested departure from the height and setback regulations is the minimum amount necessary to achieve a feasible #building# design;
 - (2) that the disadvantages to the surrounding area resulting from reduced light and air access will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole; and
 - (3) that where the landmark is located on the #zoning lot# proposed for #development# or #enlargement# or on a lot contiguous thereto or directly across a #street# therefrom, the modification of height and setback regulations will adequately protect the setting for the landmark.

(5/13/82)

81-27

Alternative Height and Setback Regulations - Daylight Evaluation

(2/2/11)

81-271

Definitions

Center line of the street (bounding a #zoning lot#)

A line equidistant from and parallel or nearly parallel to the #street lines# on both sides of the #street#. However, for the purposes of daylight evaluation:

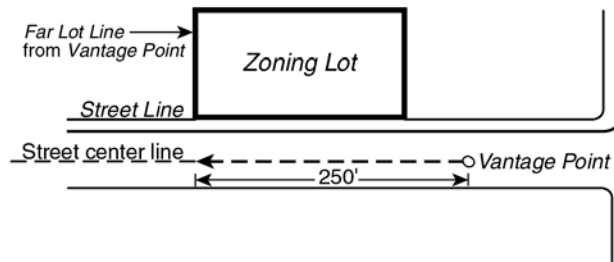

- (a) on a #street# 75 feet in width, the #center line of the street# shall be considered to be a line 40 feet from, and parallel to, the #front lot line# of the #zoning lot#; and
- (b) on a #street# more than 100 feet in width, the #center line of the street# shall be considered to be a line 50 feet from, and parallel to, the #front lot line# of the #zoning lot#.

Daylight Evaluation Chart (DEC)

A graphic tool which permits objective measurements of portions of sky blocked by a #building# when it is viewed from a #vantage point#. There are three #daylight evaluation charts# for use with #street# widths of 60 feet, 75 to 80 feet and 100 feet and over, respectively. All #buildings# are drawn on the appropriate #daylight evaluation chart# to evaluate their compliance with the regulations of Section 81-27 (Alternate Height and Setback Regulations). The three #daylight evaluation charts# are presented in Appendix A of this Chapter.

Far lot line

A #lot line# intersecting the #street line# of the #vantage street# such that, when viewed from the #vantage point#, the #zoning lot# does not contain any #lot area# that is on the far side of and immediately adjoining the #lot line# at its intersection with the #street line#. (See Illustration of #Far Lot Line# and #Vantage Point#)

FAR LOT LINE AND VANTAGE POINT
(81-271.1)

Near lot line

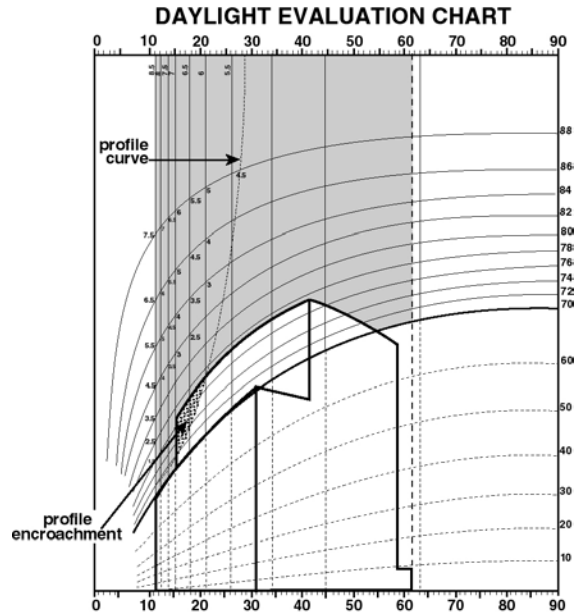

A #lot line#, other than the #far lot line#, which intersects the #street line# of the #vantage street# and which defines the extent of the #zoning lot's# continuous frontage along the #vantage street# from the #far lot line#.

Profile curve

A curved line on the #daylight evaluation chart# rising from the intersection of the curved line representing an elevation angle of 72 degrees with the vertical line at the #far lot line#. The #profile curve# is used to evaluate a #building's# obstruction of the sky as seen in profile from the #vantage point#.

Profile encroachment

The space on the #daylight evaluation chart# which, when viewed from the #vantage point#, is on the far side of the #profile curve# and which is blocked by the projection of the #building# on the #daylight evaluation chart#. (See Illustration of #Profile Encroachment#)

PROFILE ENCROACHMENT
(81-271.2)

Vantage point

A point on the #center line of the street# bounding the #zoning lot# and located 250 feet from the intersection of the extension of the #zoning lot's far lot line# with the #center line of the street#. (See Illustration of #Far Lot Line# and #Vantage Point#)

Vantage street

A #street# bounding the #zoning lot# and on the center line of which a #vantage point# is located.

(2/2/11)

81-272

Features of the Daylight Evaluation Chart

The #daylight evaluation chart(DEC)# is a graphic representation of a pedestrian's field of view as he or she looks down a #street# and sweeps his or her view 90 degrees to the left or to the right.

Under special conditions, this view can be extended to 180 degrees horizontally as specified in Section 81-275 (Special

conditions).

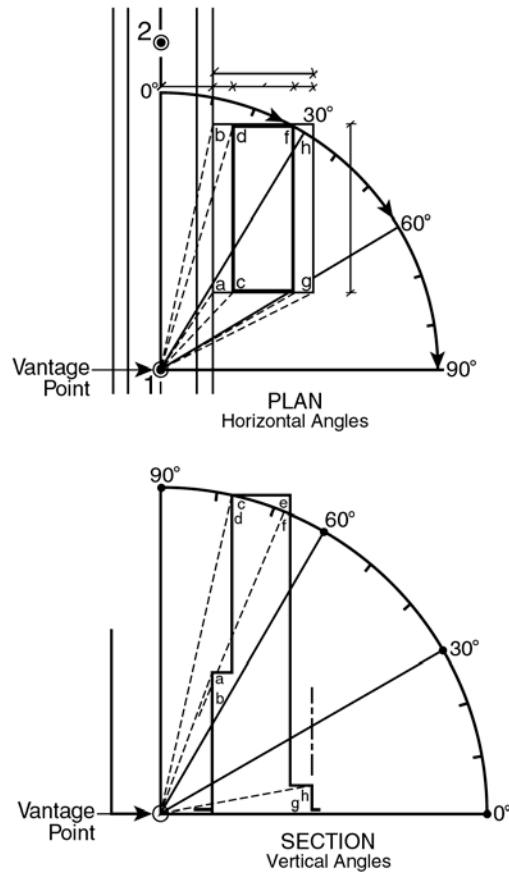

This pedestrian view is based on a #vantage point# located 250 feet from the intersection of the #zoning lot's far lot line# with the #center line of the street#.

There are three #daylight evaluation charts# for use with different Midtown #street# widths. They include a chart for 60-foot wide #streets# (for most east-west crosstown #streets#) as well as a chart for 75-foot or 80-foot wide #streets# and a chart for #streets# 100 feet or more in width (for avenues and major crosstown #streets#). All of these charts have the following features:

(a) Horizontal and vertical axes

The #daylight evaluation chart# has both a horizontal and vertical component, encompassing views sweeping both 90 degrees horizontally and 90 degrees vertically. (See Illustration of Horizontal and Vertical Angles of View)

Under special conditions, this view can be extended to 180 degrees horizontally as specified in Section 81-275 (Special conditions).

HORIZONTAL AND VERTICAL ANGLES OF VIEW
(81-272a.1)

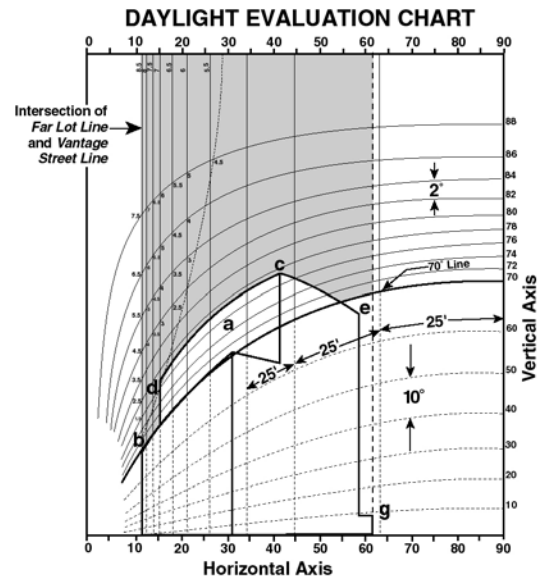

The horizontal axis of the #daylight evaluation chart# is measured in degrees of arc from zero degrees to 90 degrees starting from the #vantage point# along the #center line of the vantage street# and sweeping toward the #building#.

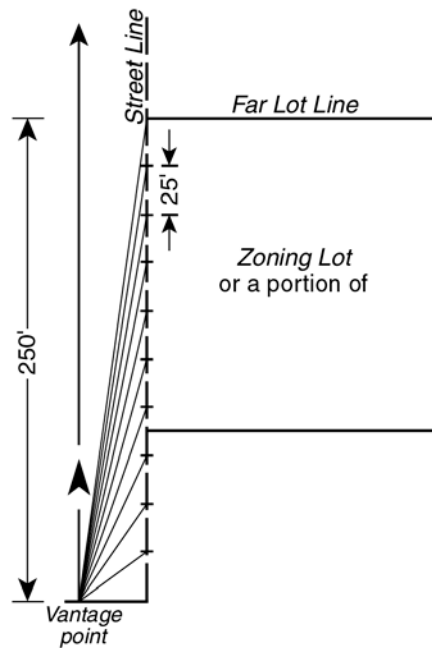

The horizontal axis is intersected by vertical lines corresponding to lines of sight from the #vantage point# to points 25 feet apart on the #front lot line# along the #vantage street# measured from the intersection of the #far lot line# with the #vantage street line#.

The vertical axis of the #daylight evaluation chart# is measured in degrees of arc from zero degrees to 90 degrees starting from the #center line of the vantage street# at #curb level# and sweeping upward.

The vertical axis is intersected by curved elevation lines representing elevation angles from the #center line of the

street# at 10 degree intervals from zero degrees to 70 degrees and at two degree intervals from 70 degrees to 90 degrees. (See Illustration of Horizontal and Vertical Axes)

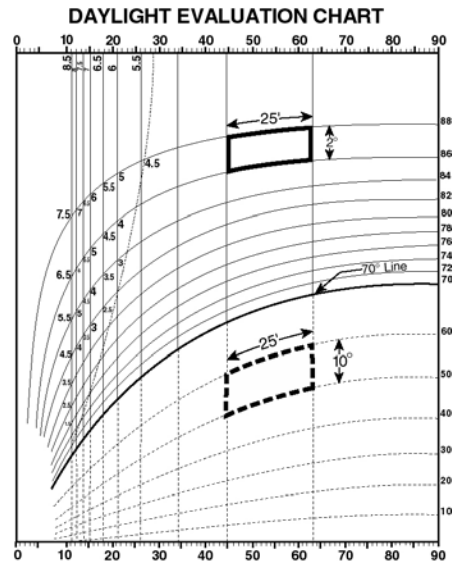

HORIZONTAL AND VERTICAL AXES
(81-272a.2)

(b) Daylight squares

The horizontal and vertical lines form a curvilinear grid dividing the #daylight evaluation chart# into areas called daylight squares. Above the 70 degree line, the grid is divided into 100 daylight squares starting from the vertical line rising from the intersection of the #far lot line# with the #street line# of the #vantage street# and ending at the vertical line representing 90 degrees along the horizontal axis. Each of these 100 squares represents 25 feet of lot frontage on the #vantage street# and two degrees of elevation angle from the #center line of the vantage street#.

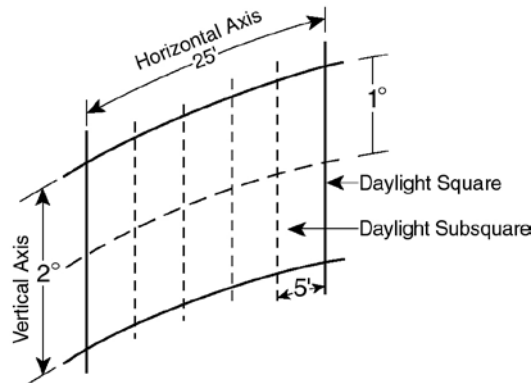

Below 70 degrees, the grid is divided into 70 daylight squares starting from the vertical line rising from the intersection of the #far lot line# with the #street line# of the #vantage street# and ending at the vertical line rising at 90 degrees along the horizontal axis. Each of these 70 squares represents 25 feet of lot frontage on the #vantage street# and 10 degrees of elevation angle from the #center line of the street#. (See Illustration of Daylight Squares)

DAYLIGHT SQUARES
(81-272b)

(c) Daylight subsquares

For greater plotting and scoring precision, the horizontal axis of the grid is further subdivided by vertical lines at points five feet apart on the #front lot line# as seen from the #vantage point#. The vertical axis is further subdivided by curved lines representing lines of equal elevation at one degree intervals from 70 degrees to 90 degrees. Therefore, each daylight square is subdivided into ten subsquares, each representing five feet of lot frontage on the #vantage street# and one degree of elevation angle from the #center line of the vantage street#. (See Illustration of Daylight Squares and Subsquares Above 70 Degrees)

DAYLIGHT SQUARE AND SUBSQUARES ABOVE 70 DEGREES
(81-272c)

(d) The seventy degree line

Research shows that, as an average, 70 degrees is the elevation angle at which #buildings# in the #Special Midtown District# are set back from the #street line#. Most of the daylight below 70 degrees is blocked by such #buildings#. Slabs, towers or other setback portions of #buildings# rise to block an average of 25 percent of the available daylight squares above 70 degrees.

In #building# evaluation, the #DEC# measures the blocked sky above 70 degrees. Below 70 degrees, #buildings# are given credit for unblocked daylight.

(e) The #profile curve#

The grid is traversed by the #profile curve#, which rises from the intersection of the curved line representing an elevation angle of 72 degrees with the vertical line at the #far lot line#. The #profile curve# is derived from the predominant built character of developed Midtown #streets# as seen in profile. #Encroachment# across the #profile curve# is penalized to discourage canyon-like Midtown #streets# and to protect neighboring #buildings#.

(2/2/11)

81-273

Rules for plotting buildings on the daylight evaluation chart

Evaluation of a #development# or #enlargement# requires drawing

the new #buildings#, remaining #buildings# and open areas on the #zoning lot# on the appropriate #daylight evaluation chart#, as viewed from each required #vantage point# and then scoring the #zoning lot#. The rules for plotting #buildings# on the #DEC# are set forth in the following paragraphs of this Section and illustrated by an example of a #building# which fronts on a 100 foot wide #street# and occupies a site 170 feet long by 100 feet deep.

(a) Draw the #building#

Draw the #building# in plan showing all #street# frontages of the #zoning lot#. Draw the #building# in section perpendicular to each #street# on which the #zoning lot# fronts. On both plan and section drawings label all corners of the #building#. In the example they are labeled corners (a) through (h). (See Illustrations of Example: Building Drawings)

EXAMPLE: BUILDING DRAWINGS
(81-273a)

(b) Establish #vantage points#

Establish on the plan all the #vantage points# from which views must be taken. #Vantage points# shall be established

on the #center line of the vantage street# 250 feet from the intersection of the #zoning lot's far lot line# and the #center line of the street#. For each #vantage street# there are at least two #vantage points#. In the example, they are V1 and V2. For each #vantage point# there shall be a separate #daylight evaluation chart#. The example will use #vantage point# one.

(c) Record plan and section dimensions

Record on a coordinate chart for each corner of the #building# the following dimensions:

(1) Dimensions in plan:

The distance (S) between the corner and the #center line of the street# as measured along a line that intersects the #center line of the street# at right angles. In the example, distance (S) of corner (b) + 50 feet.

The distance (D) measured along the #center line of the street# from the #vantage point# to the point where the #street# center line is intersected by the perpendicular line from the corner. In the example, distance (D) of corner (b) + 250 feet.

(2) Dimension in section:

The height (H) of the corner above #curb level#. In the example, height (H) of corner (b) + 140 feet.

(d) Calculate plan and section angles

Determine the plan and section angles for each corner of the #building# as viewed from the #vantage point#.

(1) A plan angle is an angle on the plan formed at the #vantage point# by the line of sight to a corner of the #building# and the #center line of the vantage street#. The plan angle is found by calculating the tangent. The tangent is the quotient found by dividing distance (S) by distance (D). The plan angle for the resulting tangent is found in a tangent table and is then entered on the coordinate chart in the column marked "plan angles."

(2) The section angle is an angle formed by a line representing the distance in section from a corner of the #building# to the #center line of the vantage

street# and a line representing the distance in plan (S) between the corner and the #center line of the street#. The section angle is found by calculating its tangent. The tangent is the quotient obtained by dividing the height of the corner (H) by its horizontal distance (S) from the #center line of the street#.

The section angle for the resulting tangent is found in a tangent table and is then entered on the coordinate chart in the column marked "section angles."

EXAMPLE OF COORDINATE CHARTS Plan Angles

Point	Distance (S) from #Street# Center line (in feet)	Distance (D) from #Vantage Point# 1 (in feet)	Tangent S (---) D of Angle	Angle
a	50	80	50/80 = 0.63	32.0°
b	50	250	50/250 = 0.20	11.3°
c	70	80	70/80 = 0.87	41.2°
d	70	250	70/250 = 0.28	15.6°
e	130	80	130/80 = 1.63	58.4°
f	130	250	130/250 = 0.52	27.5°
g	150	80	150/80 = 1.88	61.9°
h	150	250	150/250 = 0.60	31.0°

Section Angles

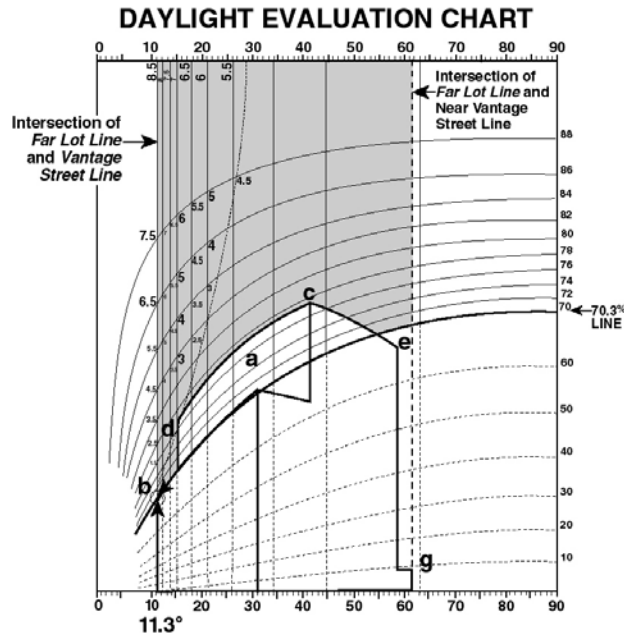

Point	Height (H) above #Curb Level# (in feet)	Distance (S) from #Street# Center line (in feet)	Tangent H (---) S of Angle	Angle
a & b	140	50	140/50 = 2.80	70.3°
c & d	320	70	320/70 = 4.57	77.7°
e & f	320	130	320/130 = 2.46	67.9°
g & h	23	150	23/150 = 0.15	8.7°

(e) Plot corner coordinates

Plot each corner of the #building# onto the #daylight evaluation chart# at the point where the coordinates for that corner intersect. The plan angle coordinates are found on the horizontal axis of the chart and the section angle coordinates are found on the vertical axis. The points plotted are then connected to represent the edges of the #building# as shown on the plan and section drawings. A connecting line parallel to the #vantage street line# is drawn as a curve parallel to the closest elevation line. A connecting line perpendicular to the #vantage street line# is drawn parallel to the closest dotted elevation line, which is perpendicular to the #street#. A connecting line which is neither parallel nor perpendicular to the #vantage street# is approximated on the chart by:

- (1) establishing points along the line in plan at 10 foot intervals;
- (2) finding the coordinates of the points and plotting them on the chart; and
- (3) connecting the resulting points.

The connecting lines produce a curvilinear perspective drawing of the #building# as seen from the #vantage point# projected onto the #daylight evaluation chart#. Since in the example #vantage point# one is on a 100 foot wide #street#, corner coordinates are plotted on a #daylight evaluation chart# for 100 foot wide #streets#. In the example, corner (b) is at the intersection of plan angle 11.3° and section angle 70.3° (See Illustration of Building as Drawn on the Daylight Evaluation Chart)

BUILDING AS DRAWN ON THE DAYLIGHT EVALUATION CHART
(81-273e)

(f) Determine daylight boundaries

Draw a vertical line on the chart rising from the intersection of the #near lot line# of the #zoning lot# with the center line of the #block# or with a line 100 feet distant from and parallel to the #front lot line# on the #vantage street#, whichever line is closer to the #vantage street#. This line and the #far lot line# represent the boundaries of the potential sky area that the #building# could block. (See Illustration of Building as Drawn on the Daylight Evaluation Chart)

(2/2/11)

81-274

Rules for determining the daylight evaluation score

A #zoning lot# is scored by determining the number and the value of the daylight squares the #building# blocks when viewed from the #vantage point#, compared to the total number of daylight squares available within the daylight boundaries as determined in paragraph (f) of Section 81-273 (Rules for plotting buildings on the daylight evaluation chart) and above an elevation angle of 70 degrees.

(a) Assign daylight values

The daylight squares on the #daylight evaluation chart# are each assigned a value.

- (1) Except along #vantage streets# designated for #street wall# continuity (see Section 81-43), each unblocked daylight square below the curved line representing an elevation of 70 degrees has a positive value of 0.3 and each unblocked subsquare below the same curved line has a positive value of 0.03.
- (2) Each blocked daylight square above the curved line representing an elevation of 70 degrees has a negative value of 1.0.
- (3) Where a #building# blocks any portion of a subsquare the #building# is charged with blocking the entire subsquare in computing the daylight evaluation score. Each blocked subsquare has a negative value of 1.0/10 or 0.1.
- (4) The daylight squares and subsquares which are on the far side of the #profile curve# are assigned additional weighted values set forth on the chart below. (See Illustration of #Profile Encroachment# Incurring Profile Penalty)

Degrees of Elevation	Distance from #Far Lot Line#							
	1 st 25ft	2nd 25ft	3rd 25ft	4th 25ft	5th 25ft	6th 25ft	7th 25ft	8th 25ft
88-90	8.5	8.0	7.5	7.0	6.5	6.0	5.5	5.0
86-88	7.5	7.0	6.5	6.0	5.5	5.0	4.5	4.0
84-86	6.5	6.0	5.5	5.0	4.5	4.0	3.5	-
82-84	5.5	5.0	4.5	4.0	3.5	3.0	2.5	-
80-82	4.5	4.0	3.5	3.0	2.5	2.0	1.5	-
78-80	3.5	3.0	2.5	2.0	1.5	1.0	-	-
76-78	2.5	2.0	1.5	1.0	.5	-	-	-
74-76	1.5	1.0	.5	.5	-	-	-	-
72-74	.5	.5	.5	-	-	-	-	-

PROFILE ENCROACHMENT INCURRING PROFILE PENALTY
(81-274a)

- (5) If the #building# encroaches beyond the #profile curve#, the entire subsquare in which the #encroachment# is located is given an additional weighted value. The total penalty is the additional weighted value of the daylight square multiplied by the negative value of the subsquare. The penalty is applied even if the subsquare does not lie entirely beyond the curve.

(b) Calculate daylight blockage

Count the number of blocked daylight squares and subsquares which are above the curved line representing an elevation of 70 degrees. A negative sign is to be given to this number. Total value of daylight blockage in the example is -20.5.

(c) Calculate unblocked daylight credit

Count the number of unblocked daylight squares which are below the curved line representing an elevation of 70 degrees and within the area defined by the intersection of the #far lot line# with the #vantage street line# and the intersection of the #near lot line# with the #vantage street line#. The total is given a positive value and multiplied by 0.3, the value of these daylight squares. This provision is not applicable where the #vantage street# is a designated #street# on which #street wall# continuity is required by the provisions of Section 81-43 (Street Wall Continuity along Designated Streets). In the example, the number and value of squares unblocked below 70 degrees = +0.0.

(d) Calculate profile daylight blockage

Count the number of blocked daylight squares which are entirely

on the far side of the #profile curve# when viewed from the #vantage point# and the number of blocked or partially blocked subsquares which are on the far side of the #profile curve#. All of these daylight squares and subsquares are given a negative sign, multiplied by their respective weighted values in the table in paragraph (a)(4) of this Section and the products added. Subsquares are counted as one tenth of a daylight square. In the example, the total value of profile daylight blockage = -0.45.

(e) Calculate available daylight

Count the number of daylight squares available to the site. This is the total number of daylight squares and subsquares, calculated to the nearest tenth, that are above the curved line representing the boundaries of the potential sky area available to the site, said boundaries being delineated in accordance with the provisions of paragraph (f) of Section 81-273 (Rules for plotting buildings on the daylight evaluation chart). Available daylight in the example is 89.9.

(f) Calculate daylight remaining

Calculate the remaining or unblocked daylight by adding the results of paragraphs (b) through (e) of this Section. Daylight remaining in the example is $(-20.5) + (0.0) + (-0.45) + (89.9) = 68.95$.

(g) Calculate daylight score

Compute the remaining daylight score from paragraph (f) of this Section, as a percentage of the available daylight from paragraph (e) of this Section. The percentage is the daylight score for the proposed #building# from that #vantage point#. In the example, the daylight score is $68.95/89.9 = 76.70$ percent for #vantage point# one (V1).

(h) Calculate overall daylight score

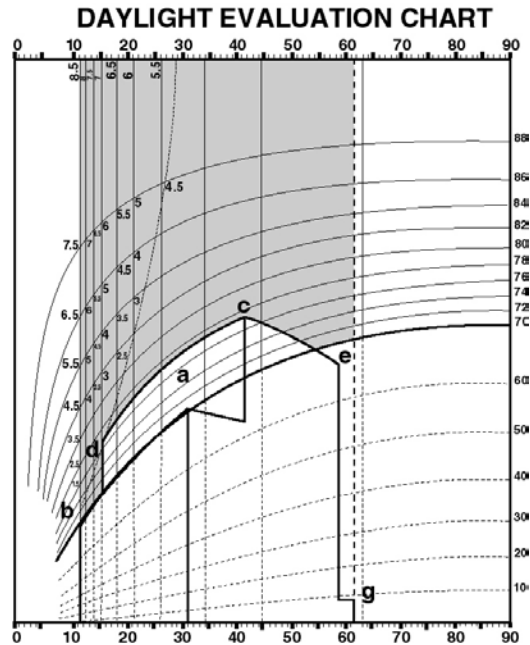

(1) The street score is the arithmetic mean of all the scores from all #vantage points# along a #vantage street#. When a #zoning lot# fronts on only one #street#, the street score is also the overall score. Where a #zoning lot# has more than one #street# frontage along any one #vantage street#, the street score is the average of all those individual #street# frontage scores computed pursuant to paragraph (b) of Section 81-275 (Special conditions), weighted by the lengths of all those #street# frontages.

(2) Where a #zoning lot# fronts on more than one #street#, the

overall score is the average of the street scores, weighted by the length of their respective #vantage street# frontages.

(i) The passing score

To be in compliance with these regulations, a #zoning lot# must have an overall score of not less than 75 percent, with no single #street# frontage having a street score of less than 66 percent. If a #zoning lot# fronts only on one #street#, a daylight evaluation score of not less than 75 percent is required for that #street# frontage. If a street score is less than 66 percent, or if the overall daylight score is less than the passing score of 75 percent, a modest improvement in either the street score or the overall score may be obtained by scoring the relative reflectivity of the #building's# surface, as specified in Section 81-276 (Modification of score for reflectivity). The passing daylight score of 75 percent is equivalent to the average daylight levels of Midtown #buildings# built as-of-right under the 1916 and 1961 Zoning Resolutions. The minimum requirement of 66 percent on one frontage is equivalent to the daylight level of any #interior lot building# built in Midtown under the 1916 Zoning Resolution in a two-times height district. However, if any one frontage is less than 75 percent, other frontages must be greater than 75 percent to reach the passing overall daylight score. This allows flexibility in #building# design while maintaining daylight standards within the levels established by #buildings# built as-of-right under the 1916 and 1961 Zoning Resolutions. (See Illustration of Daylight Evaluation Score Results)

SCORING SUMMARY
(Vantage point one)

<u>SECTION</u>		<u>SCORE</u>
81-274 (b)	Squares above 70° blocked	-20.5
81-274 (c)	Squares below 70° open	+ 0.0
81-274 (d)	Profile encroachment penalty	
	.1 x 1.5 = .15	
	.3 x 1 = .45	- 0.45
	Total Blockage	- 20.95
81-274 (e)	Available daylight squares	89.9
81-274 (f)	Remaining daylight	68.95
81-274 (g)	DAYLIGHT SCORE	
	$\frac{68.95}{89.9} = 76.70$	76.70%

DAYLIGHT EVALUATION SCORE RESULTS
(81-274i)

(5/13/82)

81-275
Special conditions

Notwithstanding the provisions of Sections 81-271 to 81-274, inclusive, relating to Alternate Height and Setback Regulations-Daylight Evaluation, the provisions of this Section shall apply under special conditions, as follows:

- (a) For #zoning lots# with #street# frontages exceeding 250 feet
- (1) Where the length of the #street# frontage is more than 250 feet but not more than 500 feet, the #building# as viewed from each #vantage point# shall be plotted on a #daylight evaluation chart# that extends in both directions from the 90 degree line on the horizontal axis. In each case, the number of available daylight squares for daylight evaluation shall be the number of squares between the #far lot line# and the #near lot line#.
 - (2) Where the length of the #street# frontage is more than 500 feet, daylight evaluations shall be made from three #vantage points#, as follows: #vantage points# one and two, each 250 feet distant from a #far lot line# extended to the #center line of the street#, and #vantage point# three, on the #center line of the street#, half-way between the other two #vantage points#. The #daylight evaluation charts# for the first two #vantage points# shall in each case encompass a view extending from the #far lot line# to the 90 degree line on the horizontal axis and the number of available daylight squares shall be the number of squares between the #far lot line# and the 90 degree line and above the curved line representing an elevation angle of 70 degrees. The #daylight evaluation chart# for the third #vantage point# shall extend in both directions from the 90 degree line on the horizontal axis to the vertical lines representing the points on the #front lot line# directly opposite #vantage points# one and two. The number of available daylight squares for daylight evaluation shall be the number of daylight squares between such vertical lines and above the curved line representing an elevation angle of 70 degrees.
- (b) For #zoning lots# with interrupted #street# frontages

Where a #zoning lot# has two or more #front lot lines# on the same #street# which are separated by frontage of an intervening #zoning lot#, there shall be two daylight evaluations for each such #front lot line#. Each #lot line# of the #zoning lot# that intersects the #street line# shall be treated as a #far lot line# for the purposes of daylight evaluation from a #vantage point#.

- (c) Where #front lot lines# are curved or broken

If the #front lot line# of the #zoning lot# is curved or bent, the extremities of such #front lot line# shall be connected by a straight line, which shall be considered the #front lot line#.

(2/2/11)

81-276

Modification of score for reflectivity

Where #zoning lots# have utilized the #daylight evaluation chart# but a street score along one frontage is less than 66 percent or the overall score is less than 75 percent, a modest improvement in either the street score or the overall score of a #zoning lot# within a #building# which reflects more light than a medium gray or glass #building# may be obtained by scoring the relative reflectivity of the #building's# surface.

The use of reflectivity is optional and not necessary if a passing score can be obtained under Section 81-274 (Rules for determining the daylight evaluation score). Reflectivity scoring permits greater design flexibility for a light-colored #building# than a dark one.

Because the greatest reflectivity comes from the upper portions of #buildings#, the value of reflected light is credited against the amount of daylight blocked by the portions of the #building# above an elevation angle of 70 degrees from the #center line of the street#.

Reflectivity has two components: the reflectance of the surface material and the orientation of the material to the sun.

(a) Reflectance

Reflectance values of materials will be determined by the Department of Buildings after the submission of samples of proposed surface materials by the applicant.

(1) Mixed reflectance

A #building# of several surface materials will have a reflectance value determined by multiplying each material's reflectance value by its percentage of the total wall surface and adding the products. For example, a #building# that is 60 percent limestone and 40 percent clear glass would have a reflectance of $.60 \times .45$ (the reflectance of limestone) plus $.40 \times .15$ (the reflectance of clear glass) or an overall reflectance of .33

(2) Relative reflectance

In order to be included in the reflectivity score of a

#zoning lot#, the material of the #building# must reflect more light than a medium gray or glass #building#. The reflectance value of a medium gray or glass #building# in Midtown is .15 so that the #building# with an overall reflectance of .33, given in the example in paragraph (a)(1) of this Section, would be increasing the expected reflectance by .33 minus .15 which equals .18.

Examples of potential reflectance values for different types of surface finishes are shown on the following chart.

REFLECTANCE VALUES - EXAMPLES OF BUILDING MATERIALS

White plaster or paint or glaze	.80 to .90
Aluminum paint	.55
Green paint	.50
Red paint	.26
Light gray paint	.25
Flat black paint	.06
Polished aluminum, stainless steel	.85
Polished light marble	.40 to .50
Light granite, limestone	.45
Copper, brass lead	.60 to .80
Smooth concrete	.45+
Rough concrete	.40
Asbestos cement	.31
Light buff brick	.48
Dark buff brick	.40
Light red brick	.45
Dark red glazed brick	.30
Dark red brick	.12
Slate	.11
Wood	.22+

Glass: double glazing with reflective coating*	
Solarcool(r) bronze or gray	.35 to .36
Solarban(r) clear	.36 to .44
Solarban(r) bronze	.18
Solarban(r) gray	.14
Glass: tinted double glazing	
Gray	.08
Bronze	.09
Solex(r) (green or blue)	.12
Glass: clear double glazing	.15
Glass: clear single glazing	.08

-
- * Reflectance varies according to which layer the reflective coating is placed on, but can be precisely determined for each position

Sources:

Anderson, Bruce. Solar Energy: #Fundamentals in Building Design#. (McGraw Hill, New York 1977).

Callendar, John Hancock. Time Saver Standards: #A Handbook of Architectural Design#. (McGraw Hill, New York, 4th Edition, 1964).

PPG Industries, Inc., #Architectural Glass Products# (G702). PPG, Pittsburgh, PA., 1977.

(b) Facade orientation

Orientation of the facade of the #building# is the second component required for measurement of reflectivity. Because reflectivity varies according to the orientation of the facade, the orientation value for a particular surface from the chart below is multiplied by the reflectance of the surface to ascertain the amount of daylight reflectivity.

The orientation values are shown on the following reflectivity chart. Orientation angles shall be rounded to the nearest 22.5 degrees.

Orientation based on True North		Orientation Value
North:	0°	.09
	22.5°	.15
	45.0°	.22
	67.5°	.40
East:	90.0°	.57
	112.5°	.72
	135.0°	.87
	157.5°	.93
South:	180.0°	1.00
	157.5°	.93
	135.0°	.87
	112.5°	.72
West:	90.0°	.57
	67.5°	.40
	45.0°	.22
	22.5°	.15

(c) Reflectivity Score

In order to obtain the reflectivity score for each view of the #building#, first count the daylight squares and subsquares which are blocked by the #building# on the #daylight evaluation chart# above an elevation angle of 70 degrees. This number shall be calculated separately for every orientation of each facade and multiplied by the relative reflectance of that portion of the #building# and the orientation value.

Reflectance = (% material A x reflectance material A) + (% material B x reflectance material B)

Relative reflectance (RR) = reflectance minus .15

Reflectivity score = RR x facade orientation value x daylight squares blocked above 70°.

The reflectivity scores for the several orientations are then added together to give the reflectivity score for that view of the #building# as a whole from the #vantage point# represented on the #daylight evaluation chart#.

The reflectivity score is added to the daylight remaining after accounting for daylight blockage as calculated in paragraph (f) of Section 81-274 (Rules for determining the daylight evaluation score).

The sum is then calculated as a percentage of the available daylight squares calculated in paragraph (e) of Section 81-274 to give the adjusted daylight score for the #zoning lot# from the #vantage point# represented on the #daylight evaluation chart#.

The adjusted street score along a particular #vantage street# is obtained by calculating the mean average of the adjusted daylight scores from all #vantage points# along the #vantage street#.

The adjusted overall score for the #zoning lot# is obtained by calculating the average of the adjusted street scores weighted by the lengths of their respective #vantage street# frontages.

(d) Limits on adjusted scores

(1) Adjusted street score

The adjusted street score shall not be more than six percentage points higher than the street score not adjusted for reflectivity.

If reflectivity scoring is used to bring the adjusted overall score for the #zoning lot# above 75 percent (the passing overall score), the street score for each #street# frontage without adjustment for reflectivity shall be not less than 66 percent.

(2) Adjusted overall score

The adjusted overall score shall not be more than six percentage points higher than the overall score not adjusted for reflectivity.

If the reflectivity scores for any single #street# frontage are used to bring the adjusted street score for that frontage above 66 percent (the passing score for a single #street# frontage), the overall score of the #zoning lot# without adjustment for reflectivity shall be

not less than 75 percent.

(11/25/97)

81-277

Special permit for height and setback modifications

In C5-3, C6-6 or C6-7 Districts, where a special permit application is made pursuant to Section 74-71 (Landmark Preservation) for modification of #bulk# regulations on a #zoning lot# containing a landmark, or where a special permit application is made pursuant to Section 74-79 (Transfer of Development Rights from Landmark Sites) and the #floor area# represented by such transferred development rights exceeds 20 percent of the basic maximum #floor area# permitted on the #zoning lot# receiving the development rights, such application may include a request for modification of the height and setback regulations set forth in Sections 81-261 to 81-275, inclusive, relating to Alternate Height and Setback Regulations - Daylight Evaluation. The City Planning Commission may authorize such height and setback modifications subject to the following conditions:

- (a) The applicant shall demonstrate to the satisfaction of the Commission that a feasible design for the proposed #development# or #enlargement# which accommodates the permitted #floor area# is not possible under the provisions of Sections 81-271 to 81-276, inclusive, and shall further present for the proposed design a complete daylight evaluation with an explanation of street score or overall daylight score deficiencies.
- (b) The Commission shall make the following findings in addition to any required under the applicable provisions of Sections 74-71 or 74-79:
 - (1) that the requested departure from the alternate height and setback regulations is the minimum amount necessary to achieve a feasible #building# design;
 - (2) that the disadvantages to the surrounding area resulting from reduced light and air access will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole; and
 - (3) that where the landmark is located on the #zoning lot# proposed for #development# or #enlargement# or on a lot contiguous thereto or directly across a #street# therefrom, the modification of the alternate height and

setback regulations will adequately protect the setting for the landmark.

(2/2/11)

81-28

Minimum Distance Between Buildings

On any single #zoning lot# within the #Special Midtown District#, if two or more #buildings# or portions of #buildings# are detached from one another at any level, such #buildings# or portions of #buildings# shall at no point be less than eight feet apart.

(10/31/01)

81-29

Incentives by Special Permit For Provisions of Public Amenities

(2/2/11)

81-291

General provisions and procedures

The City Planning Commission may grant special permits authorizing, for #non-residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of this Section.

(2/2/11)

81-292

Subway station improvements

Except in the Preservation Subdistrict and except for #zoning lots# wholly within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the City Planning Commission may grant special permits for #floor area# bonuses for #non-residential# or #mixed buildings#, in accordance with the provisions of Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan).

The subway stations where such improvements are permitted are listed

in the following table and shown on Map 3 (Subway Station and Rail Mass Transit Facility Improvement Areas) in Appendix A of this Chapter.

MIDTOWN SUBWAY STATIONS

Station	Line
34th Street-Penn Station	Broadway-7th Avenue
34th Street-Penn Station	8th Avenue
34th Street-Herald Square	6th Avenue/Broadway-60th Street
42nd Street-Times Square/42nd Street-Port Authority Bus Terminal	Broadway-7th Ave/Broadway/8th Ave/42nd Street Shuttle
42nd Street-Bryant Park/Fifth Avenue	6th Avenue/Flushing
42nd Street-Grand Central	Lexington Avenue/Flushing/42nd Street Shuttle
47th-50th Street-Rockefeller Center	6th Avenue
49th Street	Broadway-60th Street

Fifth Avenue-53rd Street	53rd Street
51st Street/Lexington Avenue-53rd Street	53rd Street/Lexington Avenue
57th Street	Broadway-60th Street
57th Street	6th Avenue
59th Street-Columbus Circle	Broadway-7th Avenue/8th Avenue

(5/13/82)

81-30

OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

(5/8/13)

81-31

General Provisions

The regulations of Article I, Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core), and the applicable underlying district regulations of Article III, Chapter 6, or Article IV, Chapter 4, relating to Off-Street Loading Regulations, shall apply throughout the #Special Midtown District#, except as otherwise provided in this Section.

(5/8/13)

81-311

Prohibitions of off-street parking or off-street loading facilities

Notwithstanding the provisions of Article I, Chapter 3, prohibitions of off-street parking facilities or #accessory# off-street loading berths or restrictions as to their location or access, as provided in Sections 81-44 (Curb Cut Restrictions) or 81-84 (Mandatory Regulations and Prohibitions), may be waived only in accordance with the applicable provisions of Sections 81-44 or 81-84.

(5/13/82)

81-40

MANDATORY DISTRICT PLAN ELEMENTS

(2/2/11)

81-41

General Provisions

The provisions of Section 81-40 (MANDATORY DISTRICT PLAN ELEMENTS) specify mandatory planning and urban design features. Requirements which apply generally or with minor specified exceptions throughout the #Special Midtown District# are fully set forth in the provisions of Section 81-40. For requirements which are not generally applicable but tied to specific locations within the District, the locations where these requirements apply are shown on Map 2 (Retail and Street Wall Continuity) or Map 3 (Subway Station and Rail Mass Transit Facility Improvement Areas) in Appendix A of this Chapter.

The provisions of Section 81-40 are all primarily oriented toward the accommodation and well-being of pedestrians. The requirements pertain to a number of elements which are interrelated and complement one another but are set forth in different sections because they can be treated separately. Sections 81-42 (Retail Continuity along Designated Streets), 81-43 (Street Wall Continuity along Designated Streets) and 81-44 (Curb Cut Restrictions) are a group of sections with closely related purposes concerned with amenity and the well-being and safety of pedestrians. Sections 81-45 to 81-48, inclusive, are all concerned primarily with pedestrian traffic circulation. Major #building# entrances are focal points of heavy pedestrian traffic, so that controls on the locations of these entrances, as set forth in Section 81-48, are closely related to the pedestrian circulation space requirements.

Special district plan requirements for the Penn Center Subdistrict are set forth in Section 81-50 (SPECIAL REGULATIONS FOR THE PENN CENTER SUBDISTRICT), for the Grand Central Subdistrict are set forth in Section 81-60 (SPECIAL REGULATIONS FOR THE GRAND CENTRAL SUBDISTRICT), for the Theater Subdistrict are set forth in Section 81-70 (SPECIAL REGULATIONS FOR THEATER SUBDISTRICT), for the Fifth Avenue Subdistrict are set forth in Section 81-80 (SPECIAL REGULATIONS FOR FIFTH AVENUE SUBDISTRICT) and for the Preservation Subdistrict are set forth in Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT).

(2/2/11)

81-411

Maintenance of pedestrian circulation spaces

Owners of property on which pedestrian circulation spaces are provided shall be responsible for their maintenance unless, in the case of relocated subway stairs, the Metropolitan Transit Authority has agreed in writing to such maintenance responsibility.

(5/13/82)

81-412

Directions signs

Directional #signs# are required to call attention to relocated subway stairs and through #block# connections and announce their accessibility to the public.

(10/17/07)

81-413

Provisions for persons with disabilities

All mandatory district plan elements required by the provisions of Section 81-45 (Pedestrian Circulation Space) shall conform with applicable laws pertaining to access for persons with disabilities.

(2/2/11)

81-42

Retail Continuity along Designated Streets

For #buildings developed# or #enlarged# after May 13, 1982, where the ground floor level of such #development# or #enlarged# portion of the #building# fronts upon a designated retail #street# (see Appendix A, Map 2), #uses# within #stories# on the ground floor or with a floor level within five feet of #curb level# shall be limited to retail, personal service or amusement #uses# permitted by the underlying zoning district regulations but not including #uses# in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 and 12D or automobile showrooms or plumbing, heating or ventilating equipment showrooms. Museums and libraries shall be permitted. A #building's street# frontage shall be allocated exclusively to such #uses#, except for:

- (a) lobby space or entrance space;
- (b) entrance areas to subway station improvements for which bonus #floor area# is granted and #street wall# continuity restrictions waived pursuant to Sections 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan) and 81-292 (Subway station improvements);
- (c) one or more of the following pedestrian circulation spaces subject to the #street wall# continuity requirements of Section 81-43 (Street Wall Continuity Along Designated Streets):
 - (1) relocated subway stairs provided in accordance with Sections 37-40 and 81-46 (Off-Street Relocation or Renovation of a Subway Stair);
 - (2) through #block# connections provided in accordance with paragraph (h) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces); and

- (3) off-street improvements of access to rail mass transit facilities provided in accordance with Section 81-48 (Off-Street Improvement of Access to Rail Mass Transit Facility).

Except as provided in the following sentence, in no event shall the length of #street# frontage occupied by lobby space, entrance space and/or a #building# entrance recess exceed the lesser of 40 feet or 25 percent of the #building's# total #street# frontage exclusive of any frontage occupied by a relocated subway stair, a through #block# connection, an off-street improvement of access to rail mass transit facility or the entrance area to a bonused subway station improvement. However, the total length of #street# frontage occupied by lobby space and/or entrance space need not be less than 20 feet.

Storefronts for the permitted ground floor #uses# shall be not more than 10 feet from the #street line# or, where an arcade is provided with supporting columns at the #street line#, not more than 10 feet from the supporting columns.

Access to each retail, personal service or amusement establishment required under this Section shall be provided directly from the designated retail #street#. Where more than one entrance is provided to the establishment, direct access from the designated retail #street# shall be provided via the entrance with the greatest aggregate clear opening width. At least 50 percent of the #street wall# surface of each required establishment shall be glazed with clear untinted transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#. For the purpose of this glazing requirement, the establishment's #street wall# surface shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

Special #use# regulations apply along designated retail #streets# located within the boundaries of the Penn Center Subdistrict, the Theater Subdistrict or the Fifth Avenue Subdistrict and #uses# along such designated #streets# shall be subject to the respective subdistrict retail requirements in Sections 81-531, 81-72 and 81-82.

Special ground level and entertainment-related #use# regulations apply to #zoning lots# located within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), and such #zoning lots# shall meet the ground level and entertainment-related #use# requirements of Section 81-72 (Use Regulations Modified).

81-43

Street Wall Continuity Along Designated Streets

On designated #streets# where #street wall# continuity is required (see Map 2 in Appendix A) and, between 43rd and 50th Streets, on the #narrow street# frontages of #zoning lots# with #street# frontage on Seventh Avenue and/or Broadway, the #street wall# of a #building#, for the minimum width and height set forth in this Section, shall be within 10 feet of the #street line# or within 10 feet of a permitted arcade's supporting columns at the #street line#, except that on 57th Street, 42nd Street, 34th Street and Fifth Avenue, no #street wall# setback below a height of 85 feet is permitted. The width of the #street wall# subject to setback restrictions shall be at least 80 percent of the length of the #front lot line# of the #zoning lot# along the specified #street#, measured at the specific heights or anywhere above the specific heights indicated in the table in this Section. At those specific heights or anywhere above those specific heights, the #street wall# must extend continuously within 10 feet of the #street line# for all of its required width, except that on 57th Street, 42nd Street, 34th Street and Fifth Avenue, at a height of 85 feet or above, the #street wall# must extend continuously without setback for at least 75 percent of its required width and no portion of its required width shall be set back more than 10 feet from the #street line#; and, for #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, any portion of the required width of a #street wall# which lies behind a #sign# required under the provisions of Section 81-732 (Special Times Square signage requirements) may be set back up to 15 feet from the #street line#.

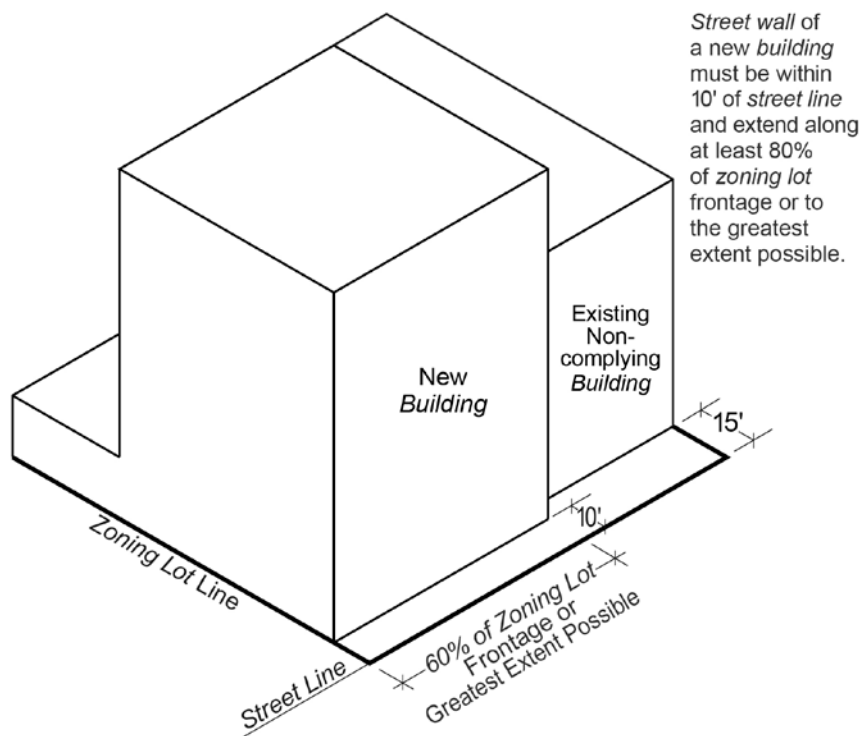

The minimum height of a #street wall# subject to the setback restrictions shall be as follows:

Length of #Zoning Lot# Frontage	Minimum Height of a #Street Wall# Subject to the Setback Restrictions
For #zoning lots# with frontages of 50 feet or less on the designated #street#	Four #stories# or 50 feet above #curb level#, whichever is less
For #zoning lots# with frontages of more than 50 feet on the designated #street#	Six #stories# or 85 feet above #curb level#, whichever is less

#Developments#, which are in their entirety no more than two #stories# in height, shall be exempt from the minimum #street wall#

height requirements set forth in the table in this Section, except that, subsequent to the issuance of a building permit for such #development#, if there are additional #developments# on the #zoning lot# or if any #building# on the #zoning lot# is #enlarged#, the #development# exempt from the requirements set forth in the table in this Section, shall no longer be exempt from such requirements and its #street walls# shall be raised to a height complying with the table.

Existing #buildings# need not comply with the minimum #street wall# height and location provisions of this Section. Such #buildings# shall be included in the calculation of the required percentage of #street wall# width and height along a #street# frontage. No existing #building# shall be altered such that a #non-compliance# with the provisions of this Section is created, nor shall an existing degree of #non-compliance# with these provisions be increased.

STREET WALL REQUIREMENT WITH EXISTING BUILDING
(81-43)

Pedestrian circulation spaces may be provided to meet the requirements of Sections 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair) or 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), subject to the setback restrictions of this Section and to the

minimum width of the #street wall# subject to such setback restrictions. However, the City Planning Commission may waive such restrictions for a subway entrance area which is part of a subway station or a rail mass transit facility improvement for which bonus #floor area# is granted, in accordance with the provisions of Sections 74-634 (Subway station improvements in Downtown Brooklyn and Commercial Districts of 10 FAR and above in Manhattan), 81-292 (Subway station improvements) and 81-542 (Retention of floor area bonus for plazas or other public spaces), or an off-street improvement of access to a rail mass transit facility that has been certified in accordance with Section 81-48.

Except on 57th Street, 42nd Street, 34th Street and Fifth Avenue, below the minimum height of a #street wall# subject to the setback restriction, recesses (whose depth shall be measured in all cases from the #street line#) shall be permitted only as follows: no recesses greater than 15 feet deep shall be permitted, recesses up to 15 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the new #street wall# below the minimum required #street wall# height; in addition, recesses up to 12 feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height, and recesses up to 10 feet deep shall not be limited in their aggregate area.

On 57th Street, 42nd Street, 34th Street and Fifth Avenue, below the minimum height of a #street wall# subject to the setback restriction, recesses (whose depth shall be measured in all cases from the #street line#) shall be permitted only as follows: no recesses greater than 10 feet deep shall be permitted; recesses up to 10 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the #street wall# below the minimum required #street wall# height; in addition, recesses up to two feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height and recesses up to one foot deep shall not be limited in their aggregate area.

The restrictions on recesses shall not apply to arcades, corner arcades, subway stairs relocated within the #building#, through #block# connections within the #building# or #building# entrance recess areas within the #building#, where such spaces are provided in accordance with the requirements and design standards of Sections 81-45 or 81-46 and provided that such spaces shall be subject to a maximum height limit of 30 feet. Any recesses in the #residential# portion of a #building# shall comply with the #outer court# regulations of Section 23-84.

No arcades, sidewalk widenings or #public plazas# shall be permitted on Fifth Avenue, 34th Street, 42nd Street or 57th Street frontages.

Between 42nd and 56th Street, no arcades or #public plazas# shall be permitted on Eighth Avenue. Between 43rd and 50th Streets, no arcades or #public plazas# shall be permitted on Seventh Avenue or Broadway and, with the exception of marquees and #signs#, any area between the Seventh Avenue or Broadway #street line# and any required #street wall# below the height of the first required setback, including permitted recesses, shall be open from #curb level# to the sky in its entirety. Any such area shall be at the same elevation as the adjoining sidewalk, directly accessible to the public at all times and free of all obstructions at ground level, including #street# trees. On the remaining #streets# designated for #street wall# continuity, arcades, if provided, shall be not less than 10 feet in depth and not more than 30 feet high. Arcades shall not be counted toward the recess allowances.

For #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements).

For #zoning lots# located wholly or partially within the Eighth Avenue Corridor, the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75.

On Fifth Avenue, the minimum required #street wall# height without setback shall be 85 feet and the maximum allowable #street wall# height without setback shall be 125 feet. Above the maximum #street wall# height, a setback of at least 10 feet shall be required, pursuant to the provisions of Section 81-83.

(5/8/13)

81-44

Curb Cut Restrictions

Along all avenues in Midtown and along 57th, 53rd, 42nd and 34th Streets, no driveway curb cuts for parking facilities or loading berths shall be permitted except for the following:

- (a) the Commissioner of Buildings may approve a curb cut where there are no alternative means of access to off-street loading berths from other #streets# bounding the #zoning lot#; or
- (b) the City Planning Commission may authorize curb cuts where such curb cuts are needed for required loading berths. Such loading berths must be adjacent to a fully enclosed maneuvering area on

the #zoning lot# at least equal in area to the area of the required loading berth and arranged so as to permit head-in and head-out truck movements to and from the #zoning lot#. The City Planning Commission will refer such applications to the Department of Transportation for their comment.

In addition, for #zoning lots# with frontage along such avenues and #streets# in Midtown where curb cuts are prohibited, the Commissioner of Buildings may waive required off-street loading berths pursuant to the provisions set forth in Section 13-35 (Modification of Loading Berth Requirements).

Where a curb cut is permitted as indicated in this Section, the maximum width of such curb cut shall be 15 feet for one-way traffic and 25 feet for two-way traffic. These curb cut requirements shall be in addition to any other applicable City rules or regulations concerning driveway curb cuts.

The above exceptions do not apply to Fifth Avenue, or between 43rd and 50th Streets, to Seventh Avenue or Broadway and no curb cuts shall be permitted in these cases. Between 43rd and 50th Streets, access to #accessory# off-street loading berths or off-street parking facilities shall not be permitted on Seventh Avenue or Broadway or, except where the length of a #narrow street block# frontage between the #street lines# of Seventh Avenue and Broadway exceeds 75 feet but is less than 125 feet, within 50 feet of the Seventh Avenue or Broadway #street line#. #Interior lots# between 43rd and 50th Streets with a #street# frontage only on Seventh Avenue or Broadway shall not contain loading berths.

(2/2/11)

81-45

Pedestrian Circulation Space

Within the #Special Midtown District#, all #developments# or #enlargements# constructed after May 13, 1982, on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area#, shall provide pedestrian circulation space on such #zoning lot# in accordance with the provisions of Section 37-50, as modified by the provisions of this Section.

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, #building# entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #public plaza#.

In addition to the types of pedestrian circulation spaces listed in Section 37-50, the following may be counted toward meeting the minimum pedestrian circulation space requirement:

- (a) up to a maximum of 3,000 square feet of an access improvement to rail mass transit provided pursuant to Section 81-48 (Off-Street Improvement of Access to Rail Mass Transit Facility);
- (b) within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451 (Theater waiting space).

However, pedestrian circulation space shall not be required if any of the following conditions exist:

- (1) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;
- (2) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage;
- (3) the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #public plazas# are prohibited;
- (4) the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or
- (5) the #zoning lot# is a #through lot# with both #street# frontages less than 25 feet in length.

#Developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 34th Street, 42nd Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to permitted obstructions in Section 37-50.

Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 37-53 (Design

Standards for Pedestrian Circulation Spaces). Where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet. Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway.

(8/6/98)

81-451

Theater waiting space

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

- (a) such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;
- (b) such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audience. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;
- (c) such space shall not adjoin a driveway or an off-street loading berth; and
- (d) the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles

(lumens per foot).

The theater waiting space may overlap with an arcade, a #building# entrance recess area, a corner arcade, a corner circulation space or a sidewalk widening. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

(2/2/11)

81-46

Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-40 (OFF-STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-50.

The subway stations where such improvements are required are listed in the following table and shown on Map 3 (Subway Station Improvement Areas) in Appendix A.

Station	Line
34th Street-Penn Station	Broadway-7th Avenue
34th Street-Penn Station	8th Avenue
34th Street-Herald Square	6th Avenue/Broadway-60th Street
42nd Street-Times Square/42nd Street-Port Authority Bus Terminal	Broadway-7th Ave/Broadway/8th Ave/42nd St. Shuttle
42nd Street-Bryant Park/Fifth Avenue	6th Avenue/Flushing
42nd Street-Grand Central	Lexington Avenue/Flushing/42nd St. Shuttle
47th-50th Street-Rockefeller Center	6th Avenue

49th Street	Broadway-60th Street
50th Street	8th Avenue
50th Street	Broadway-7th Avenue
7th Avenue	53rd Street
Fifth Avenue-53rd Street	53rd Street
51st Street/Lexington Ave.- 53rd Street	53rd Street/Lexington Avenue
57th Street	Broadway-60th Street
57th Street	6th Avenue
59th Street-Columbus Circle	Broadway-7th Avenue/8th Avenue

(2/2/11)

81-47

Major Building Entrances

In order to limit pedestrian traffic congestion on #zoning lots# with at least 20,000 square feet of #lot area#, the following restrictions apply to #buildings developed# after May 13, 1982, as described in paragraphs (a) and (b) of this Section, except as provided in paragraph (c) in this Section. For the purposes of this Section, the major entrance to a #building# shall be that entrance to the main lobby of the #building# which has the greatest aggregate width of clear openings for access.

- (a) When the #zoning lot# contains a #public plaza# or an open through #block# connection located entirely outside of the #building#, the major entrance to the #building# shall open on the #public plaza# or the open through #block# connection.
- (b) Where there is no #public plaza# or open through #block# connection on the #zoning lot#, the following restrictions on major entrances shall apply to #corner lots# or #block# front lots:

(1) #Corner lots#

On a #corner lot# with frontage on no more than one #narrow street#, the major entrance shall be located on the #narrow street#.

On a #corner lot# with frontages on two #wide streets#, the major entrance shall be located on either #wide street#.

(2) #Block# front lots

On a full #block# front lot with one or more #narrow street# frontages, a major entrance shall be located on at least one #narrow street#, except that this requirement shall not apply if the #zoning lot# contains a permitted sidewalk widening with a width of 10 feet along a #wide street#.

(c) Exceptions to requirements

Under the following conditions, #developments# shall not be subject to the locational requirements of this Section:

- (1) where the location of an existing #building# on the #zoning lot# precludes compliance with the regulations of this Section; or
- (2) where the #zoning lot# is located on a #block# where the distance between two intersections of #street lines# is less than 150 feet.

(2/2/11)

81-48

Off-street Improvement of Access to Rail Mass Transit Facility

An off-street rail mass transit access improvement shall provide a new point of unobstructed off-street public access to a rail mass transit station or facility. It shall immediately adjoin, and be accessible without any obstruction from, an arcade, a #building# entrance recess area, a corner arcade, a corner circulation space, a public sidewalk, a sidewalk widening or a #public plaza#, each of which shall have a minimum horizontal dimension equal to the width of the rail mass transit access improvement. The rail mass transit access improvement may be provided within a #building# but shall not be enclosed by any doors. The area it occupies within a #building# shall not be counted toward the #floor area# of the #zoning lot#.

The Chairperson of the City Planning Commission may certify that an off-street rail mass transit access improvement satisfies the requirements of Section 81-45 (Pedestrian Circulation Space), provided that such improvement is approved by the entity which operates the mass transit station or facility and meets the

following standards:

(a) Dimensions

An off-street mass transit access improvement shall have a minimum clear, unobstructed width of not less than 15 feet and a minimum clear, unobstructed height from finished floor to finished ceiling of not less than eight feet.

(b) Obstructions

An off-street mass transit access improvement shall be free of obstructions except for #building# columns and shall provide a continuous, unobstructed path at least 15 feet wide connecting the public sidewalk, pedestrian circulation space or #public plaza# with the rail mass transit station or facility.

(c) Hours of public accessibility

An off-street rail mass transit access improvement shall be accessible to the public during the hours when the circulation areas to which it connects are open to the public or during such hours as are otherwise approved by both the Chairperson of the City Planning Commission and the operating entity of the mass transit station or facility.

(d) Enclosures

The rail mass transit access improvement may be provided within a #building# but shall not be enclosed by any doors unless the Chairperson certifies that such improvement is an integral part of the #building# lobby and public circulation space, and such doors are secured only during the hours that the circulation areas of the rail mass transit facility to which it connects are closed.

(e) Maintenance

An off-street rail mass transit access improvement shall be maintained by the owner of the #development# or #enlargement#.

One and a half times the area of the new off-street rail mass transit access improvement measured at #street# level shall, upon the Chairperson's certification, count toward the minimum area of pedestrian circulation space required under the provisions of Section 81-45, up to a maximum of 3,000 square feet.

(10/31/01)

81-50

SPECIAL REGULATIONS FOR THE PENN CENTER SUBDISTRICT

(8/25/10)

81-51

General Provisions

In order to establish the Penn Center Subdistrict as a destination and enhance its retail, entertainment and commercial character and expand accessibility to its transportation network, special regulations are set forth governing the location and type of #signs#, urban design and streetscape relationships, and the improvement of pedestrian circulation to and from public transit facilities.

The regulations of Section 81-50 are applicable only in the Penn Center Subdistrict, the boundaries of which are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, except as set forth for rail mass transit improvements, pursuant to Section 81-541. These regulations supplement or modify the provisions of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

(10/31/01)

81-52

Sign Regulations

The provisions of this Section shall apply to all #zoning lots# with frontage along Seventh Avenue. The height of all #signs# shall be measured from the #curb level#.

- (a) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, unlimited in area, shall be permitted to a height of 40 feet. Below a height of 14 feet, such #signs# shall not occupy more than 50 percent of the glazed #street wall# surface required, pursuant to Section 81-42, nor shall such #signs# be located within ten feet of an entrance to a rail mass transit facility or subway station.
- (b) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, except as otherwise provided in Section 81-52, paragraph (c), may be permitted above a height of 40 feet by the City Planning Commission, upon certification that:

- (1) such #signs# and #sign# structures to which #signs# are attached shall not exceed a height of 60 feet; except that #signs# and #sign# structures onto which #signs# are attached, within 40 feet of the intersection of two #streets# or within 30 feet of the centerline of the westerly prolongation of West 32nd Street along the west #block# front of Seventh Avenue between West 31st and West 33rd Streets, shall not exceed a height of 100 feet;
- (2) such #signs# above a height of 60 feet are located on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station;
- (3) such #signs# shall not project across a #street line# more than 18 inches for double- or multi-faceted #signs# or 12 inches for other signs, except that #signs# within 40 feet of the intersection of two #streets# may project up to three feet across a #street line# above a height of 25 feet;
- (4) such #signs# that exceed a height of 60 feet, shall be no wider than 40 feet each;
- (5) such #signs# or #sign# structures that exceed a height of 60 feet, may include lighting effects at the top of such #sign# structure and such lighting effects shall not exceed a height of 10 feet above such #sign# or #sign# structure.
- (6) such #signs# and #sign# structures onto which #signs# are attached within 30 feet of the centerline of the westerly prolongation of West 32nd Street shall have a minimum clearance of 10 feet from the adjacent #building#, and such #sign# structure shall have a minimum clearance of 20 feet from the #street line# in order not to obstruct visibility of the transit entrance from the #street#;
- (7) on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station, the requirements for rail mass transit or subway entrance informational #signs# of Section 81-521 are met; and
- (8) monies will be deposited into an escrow account or similar fund established by the City, to be used at the direction of the Chairperson of the City Planning Commission and the Commissioner of the Department of Transportation, acting in consultation with the Metropolitan Transit Authority,

as necessary, for streetscape and for above-grade and below-grade pedestrian circulation improvements within the Penn Center Subdistrict. For the period through January 1, 2003, and thereafter, until adjusted by rule of the City Planning Commission pursuant to the City Administrative Procedure Act, such #sign# contribution shall be equal to \$30 per square foot of #sign# permitted above a height of 40 feet. Any net increase in the surface area of a previously approved #sign# shall require a new certification and the deposit of a supplemental #sign# contribution in an amount reflective of such increase.

Alternatively, an applicant may, at the time of the first certification for a #sign# at a location under its control, deposit a #sign# contribution in an amount equal to \$20 per square foot of #sign# above a height of 40 feet for the total amount of square footage of all #signs# eligible for certification at locations under the applicant's control. The deposit of monies under this alternative procedure shall not relieve the applicant of the requirement to seek and obtain a certification for each such #sign#, pursuant to this paragraph, (b), prior to installation.

For purposes of this paragraph, (b), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached. No #sign# for which a certification has been received shall be installed prior to deposit of the #sign# contribution in accordance with this paragraph, (b).

(c) #Signs# above a height of 40 feet on any #building# listed on the State and/or National Register of Historic Places, or any #building# formally determined eligible for inclusion on the Register, may be permitted upon authorization by the City Planning Commission, that:

- (1) the proposed method of attachment of such #signs# shall be reversible;
- (2) such #signs# shall not be disruptive to the historic fabric of the #building#;
- (3) such #signs# shall comply with all other requirements of paragraph (b) of this Section;
- (4) the requirements for rail mass transit or subway entrance informational #signs# of Section 81-521 are met; and
- (5) monies shall be deposited into an escrow account or

similar fund established by the City, to be used at the direction of the Chairperson of the City Planning Commission and the Commissioner of the Department of Transportation, acting in consultation with the Metropolitan Transit Authority, as necessary, for streetscape and for above-grade and below-grade pedestrian circulation improvements within the Penn Center Subdistrict. For the period through January 1, 2003, and thereafter, until adjusted by rule of the City Planning Commission pursuant to the City Administrative Procedure Act, such #sign# contribution shall be equal to \$30 per square foot of #sign# permitted above a height of 40 feet. For purposes of this paragraph, (c), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached. No #sign# for which an authorization has been approved shall be installed prior to deposit of the #sign# contribution in accordance with this paragraph, (c), or the alternative #sign# contribution provided in paragraph (b)(8) of this Section.

Any net increase in the #surface area# of a previously approved #sign# shall require a new authorization and the deposit of a supplemental #sign# contribution in an amount reflective of such increase.

(10/31/01)

81-521

Rail mass transit and subway entrance informational signs

For a #zoning lot# that contains or is adjacent to an entrance or entrances to a rail mass transit facility or subway station, no permit shall be issued for any #signs# that extend or are located above a height of 40 feet, unless the City Planning Commission certifies that each such entrance is clearly identified with rail mass transit or subway entrance informational #signs# and marquees in accordance with the paragraphs (a) and (b) of this Section. Such rail mass transit or subway entrance informational #sign# or marquee shall remain, or be upgraded or replaced by a similar #sign# or marquee, for the life of the related development.

- (a) Rail mass transit or subway entrance informational #signs# shall prominently identify the entrance on both #streets# of a #corner lot#. Where rail mass transit or subway entrance informational #signs# are provided at the western #block# front of Seventh Avenue between West 31st and West 33rd Streets, such

#signs# shall prominently identify the entrance to Pennsylvania Station to pedestrians on both Seventh Avenue and West 32nd Street. All such informational #signs# shall comply with the following requirements:

- (1) such #signs# shall contain only transit information;
 - (2) such #signs# shall be illuminated and located no less than 12 feet above and no more than 25 feet above #curb level#;
 - (3) such #signs# shall contain the word "Subway" and/or appropriate other rail mass transit identification and transit line symbols. The graphic standards shall adhere to New York City Transit or other pertinent transit agency standards with all letters no less than three feet and transit symbols no less than two feet in dimension;
 - (4) such #signs# shall be no less than 30 feet in length on each #street# and shall extend farther than 30 feet in order to include the actual entrance; and
 - (5) such #signs# may project up to five feet beyond the #street line#.
- (b) At the rail mass transit or subway entrance, a marquee shall be provided to further identify the entrance and shall:
- (1) contain only transit sign information;
 - (2) be illuminated and located no less than 12 feet above and no more than 25 feet above #curb level#;
 - (3) have a minimum length of 20 feet or the full width of the entrance, whichever is less;
 - (4) project no less than five feet beyond the transit or subway informational #sign#; and
 - (5) include illuminated mass transit identification and transit line symbols that meet the New York City Transit or other pertinent transit agency standards.

(2/2/11)

81-53

Special Bulk and Urban Design Requirements

In addition to the requirements set forth in Sections 81-25 (General

Provisions Relating to Height and Setback of Buildings) and 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), the provisions of this Section shall apply to a #zoning lot# having 50 percent or more of its #lot area# within the Penn Center Subdistrict. For the purposes of this Section, all such #zoning lots# shall be deemed to be entirely within the Subdistrict. If any of the provisions of Sections 81-25, 81-40 and 81-53 are in conflict, the regulations of this Section shall govern.

(10/31/01)

81-531

Special retail frontage requirements

The provisions of Section 81-42 (Retail Continuity along Designated Streets) shall apply within the Penn Center Subdistrict. However, the requirement that at least 50 percent of the #street wall# surface of each ground floor establishment be glazed with clear, untinted, transparent material, and not more than 50 percent of such transparent surface be painted or obstructed with #signs# shall not apply to any informational #signs# or marquees provided to identify rail mass transit or subway entrances in accordance with Section 81-52 (Sign Regulations).

(2/2/11)

81-532

Special street wall requirements

The provisions of Section 81-43 (Street Wall Continuity along Designated Streets) shall apply, except that the #street wall# of all #buildings# along the Seventh Avenue frontage of #zoning lots# shall be a minimum of 85 feet above #curb level# or the full height of the #building#, whichever is less. All other provisions of 81-43 shall apply without modification.

In addition, the restrictions on permitted recesses contained in Section 81-43 shall not apply to pedestrian circulation spaces provided in accordance with Sections 81-46 (Off-Street Relocation or Renovation of a Subway Stair) or 81-48 (Off-Street Improvement of Access to Rail Mass Transit Facility) nor to interstitial spaces between #signs# or between #building# walls and #signs#.

(10/31/01)

81-54

Floor Area Bonus in the Penn Center Subdistrict

(2/2/11)

81-541

Rail mass transit facility improvement

In addition to the provisions of Section 81-29 (Incentives by Special Permit for Provisions of Public Amenities), the City Planning Commission may grant #floor area# bonuses for subway station and/or rail mass transit facility improvements for #non-residential# or #mixed buildings#, in accordance with Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan), and may modify or waive the provisions of Section 81-43 (Street Wall Continuity Along Designated Streets) in accordance with the provisions of Section 74-634, provided that such improvement is approved by the entities which own and/or operate the rail mass transit facility.

Prior to granting a special permit, the City Planning Commission shall be provided with:

- (a) a letter from each entity that operates the rail mass transit facility confirming that the drawings of the subway and/or rail mass transit improvement are of sufficient scope and detail to describe the layout and character of the improvements and that the proposed implementation of the improvements is physically and operationally feasible, and
- (b) a legally enforceable instrument containing:
 - (1) drawings of the improvements, as approved by the transit operator;
 - (2) provisions that all easements required for the on-site improvements will be conveyed and recorded against the property;
 - (3) the obligations of the applicant to construct, maintain and provide capital maintenance for the improvements; and
 - (4) a schedule for completion of the improvements and a requirement that a performance bond or other appropriate security be provided to ensure the completion of the improvements.

For the purposes of this Section, improvements to any rail mass transit facility on a #zoning lot# located wholly or partially within the Subdistrict qualifies for bonus #floor area# in accordance with the provisions of Section 74-634, as modified herein. For #zoning lots# located partially within the Subdistrict, such bonus #floor area# may be located anywhere on such #zoning lot#. In addition, if a subway and/or rail mass transit improvement has been constructed in accordance with an approved special permit and has received a Notice of Substantial Completion in accordance with the provisions of Section 74-634, the bonus #floor area# may be retained at the full amount granted by the special permit and may be utilized elsewhere on the #zoning lot# subject to any applicable review and approval process for such #development# or #enlargement#.

(10/17/07)

81-542

Retention of floor area bonus for plazas or other public spaces

For the #zoning lot# bounded by West 34th Street, Seventh Avenue, West 33rd Street and Eighth Avenue, which contains at least 7,000 square feet of existing #publicly accessible open areas# or other bonused public amenity in the Penn Center Subdistrict, the maximum allowed #floor area# bonus for all existing #publicly accessible open areas# or other public amenities on the #zoning lot# may be retained at the amount allowed prior to October 31, 2001, subject to all other provisions of this Resolution, notwithstanding inclusion of such #zoning lot# within the #Special Midtown District#.

(8/26/92)

81-60

SPECIAL REGULATIONS FOR THE GRAND CENTRAL SUBDISTRICT

(5/27/15)

81-61

General Provisions

In order to preserve and protect the character of the Grand Central Subdistrict, as well as to expand and enhance the Subdistrict's extensive pedestrian and mass transit circulation network, and to facilitate the development of exceptional and sustainable buildings within the Vanderbilt Corridor, special regulations are set forth in

Section 81-60 (SPECIAL REGULATIONS FOR THE GRAND CENTRAL SUBDISTRICT), inclusive, governing urban design and streetscape relationships, the transfer of development rights from landmarks, and the improvement of the pedestrian and mass transit circulation network.

The regulations of Sections 81-60 (SPECIAL REGULATIONS FOR THE GRAND CENTRAL SUBDISTRICT) are applicable only in the Grand Central Subdistrict, the boundaries of which are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A. These regulations supplement or modify the provisions of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

As set forth in Section 81-212(Special provisions for transfer of development rights from landmark sites), transfer of development rights from landmark sites may be allowed pursuant to Section 81-63.

The provisions of Section 81-23 (Floor Area Bonus for Public Plazas) are inapplicable to any #zoning lot#, any portion of which is located within the Grand Central Subdistrict.

Where the #lot line# of a #zoning lot# coincides with the boundary of the public place located at the southerly prolongation of Vanderbilt Avenue between East 42nd Street and East 43rd Street, such #lot line# shall be considered to be a #street line# for the purposes of applying the #use#, #bulk# and urban design regulations of this Chapter.

(5/27/15)

81-611

Special use provisions

- (a) Except as provided in paragraph (b) of this Section, within the Vanderbilt Corridor, as shown in on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the #development# of a #building# containing a #transient hotel#, as listed in Use Group 5, or the #conversion# or change of #use# within an existing #building# to a #transient hotel#, shall only be allowed by special permit of the City Planning Commission, pursuant to Section 81-65.
- (b) In the event a casualty damages or destroys a #building# within the Vanderbilt Corridor, that was used as a #transient hotel# as of May 27, 2015, to an extent greater than the limits set forth in Section 52-53 (Buildings or Other Structures in All Districts), such #building# may be reconstructed and used as a

#transient hotel# without obtaining a special permit, provided the #floor area# of such reconstructed #building# does not exceed the underlying district #floor area ratio# regulations.

(2/2/11)

81-62

Special Bulk and Urban Design Requirements

In addition to the requirements set forth in Sections 81-25 (General Provisions Relating to Height and Setback of Buildings) and 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), the provisions of this Section shall apply to a #zoning lot# having 50 percent or more of its #lot area# within the Grand Central Subdistrict. For the purposes of this Section, all such #zoning lots# shall be deemed to be entirely within the Subdistrict. If any of the provisions of Sections 81-25, 81-40 and 81-62 are in conflict, the regulations of this Section shall govern.

(2/2/11)

81-621

Special street wall requirements

The requirements of Section 81-43 (Street Wall Continuity Along Designated Streets) shall be applicable within the Subdistrict, except as modified in this Section.

#Buildings# with frontage on Park, Lexington, Madison and Vanderbilt Avenues, or Depew Place, shall have a #street wall# within 10 feet of the #street line# of such #streets#.

On 42nd Street, the #street wall# shall be at the #street line#. The width of the required #street wall# shall be at least 80 percent of the length of the #front lot line#. The minimum height of such #street walls# without any setback shall be 120 feet above #curb level# or the height of the #building#, whichever is less, and the maximum height shall not exceed 150 feet above #curb level#. Where a #zoning lot# is bounded by the intersection of Park, Lexington, Madison and Vanderbilt Avenues, 42nd Street or Depew Place and any other #street#, these #street wall# height regulations shall apply along the full length of the #zoning lot# along the other #street# or to a distance of 125 feet from the intersection, whichever is less.

Beyond 125 feet from the intersection, the maximum height of the #street wall# above #curb level# shall not exceed 120 feet. For such #building#, the provisions of Section 81-262 (Maximum height of front wall at the street line) shall not be applicable.

However, the ten foot setback requirement of Section 81-263, paragraph (a), shall apply only to those portions of the #building# above this height.

(2/2/11)

81-622

Special height and setback requirements

Within the Subdistrict, the provisions of Sections 81-26 (Height and Setback Regulations-Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations-Daylight Evaluation) shall apply to all #buildings# on a #zoning lot#, except that:

- (a) where such #buildings# are governed by Section 81-26, no #compensating recess# shall be required for the #encroachment# of that portion of the #building# below 150 feet above #curb level#; or
- (b) where such #buildings# are governed by Section 81-27, the computation of daylight evaluation shall not include any daylight blockage, daylight credit, profile daylight blockage or available daylight for that portion of the #building# below 150 feet above #curb level#. However, the passing score required pursuant to paragraph (i) of Section 81-274 shall apply.

(2/2/11)

81-623

Building lobby entrance requirements

For #buildings developed# or #enlarged# on the ground floor after August 26, 1992, #building# lobby entrances shall be required on each #street# frontage of the #zoning lot# where such #street# frontage is greater than 75 feet in length, except that if a #zoning lot# has frontage on more than two #streets#, #building# entrances shall be required only on two #street# frontages. Each required #building# entrance shall lead directly to the #building# lobby. #Buildings developed# from May 13, 1982, to August 25, 1992, shall be subject to the provisions of Section 81-47 (Major Building

Entrances).

Required #building# entrances on opposite #street# frontages shall be connected directly to the #building# lobby by providing a through #block# connection in accordance with paragraph (h) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces), except that such through #block# connection shall be located at least 50 feet from the nearest north/south #wide street#.

Each required #building# entrance shall include a #building# entrance recess area, as defined in paragraph (b) of Section 37-53, except that for #developments# or #enlargements# with frontage on Madison or Lexington Avenues or 42nd Street, the width of a #building# entrance recess area shall not be greater than 40 feet parallel to the #street line# and there may be only one #building# entrance recess area on each such #street# frontage.

(8/26/92)

81-624

Curb cut restrictions and loading berth requirements

In addition to the provisions of Section 81-44 (Curb Cut Restrictions), for a #through lot#, the required loading berth shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot#.

The maximum width of any curb cut (including splays) shall be 15 feet for one-way traffic and 25 feet for two-way traffic. Curb cuts shall not be permitted on 47th Street between Park and Madison Avenues or on 45th Street between Depew Place and Madison Avenue.

(5/27/15)

81-625

Pedestrian circulation space requirements

Any #development# or #enlargement# within the Grand Central Subdistrict shall be subject to the provisions of Sections 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair) and 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), except that:

- (a) no arcade shall be allowed within the Subdistrict;
- (b) within the Subdistrict, a sidewalk widening may be provided

only for a #building# occupying an Avenue frontage, provided that such sidewalk widening extends for the length of the full #block# front; and

- (c) for #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, up to a maximum of 3,000 square feet of on-site improvements to the public realm provided in accordance with a special permit pursuant to Section 81-635 (Transfer of development rights by special permit) or Section 81-64 (Special Permit for Grand Central Public Realm Improvement Bonus) may be applied toward the pedestrian circulation space requirement.

(5/27/15)

81-626

Retail continuity requirements

For #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, where a #building# fronts upon a designated retail #street#, as shown on Map 2 (Retail and & Street Wall Continuity), any portion of such #building's# ground floor level frontage along such designated retail #street# allocated to above- or below-grade public realm improvements provided in accordance with a special permit pursuant to Section 81-635 (Transfer of development rights by special permit) or Section 81-64 (Special Permit for Grand Central Public Realm Improvement Bonus) shall be excluded from the retail continuity requirements of Section 81-42 (Retail Continuity along Designated Streets).

(8/26/92)

81-63

Transfer of Development Rights from Landmark Sites

For the purposes of the Grand Central Subdistrict:

A "landmark #building or other structure#" shall include any structure designated as a landmark pursuant to the New York City Charter, but shall not include those portions of #zoning lots# used for cemetery purposes, statues, monuments or bridges. No transfer of development rights is permitted pursuant to this Section from those portions of #zoning lots# used for cemetery purposes, or any structures within historic

districts, statues, monuments or bridges.

A "granting lot" shall mean a #zoning lot# which contains a landmark #building or other structure#. Such "granting lot" may transfer development rights pursuant to Sections 81-634 or 81-635 provided that 50 percent or more of the "granting lot" is within the boundaries of the Grand Central Subdistrict.

A "receiving lot" shall mean a #zoning lot# to which development rights of a "granting lot" are transferred. Such "receiving lot" may receive a transfer of development rights pursuant to Sections 81-634 or 81-635 provided that 50 percent or more of the "receiving lot" is within the boundaries of the Grand Central Subdistrict and provided that the "receiving lot" occupies frontage on Madison or Lexington Avenues or 42nd Street, if such "receiving lot" is west of Madison Avenue or east of Lexington Avenue.

(5/27/15)

81-631

Requirements for application

In addition to the land use review application requirements, an application filed with the City Planning Commission for certification pursuant to Section 81-634 (Transfer of development rights by certification) or special permit pursuant to Section 81-635 (Transfer of development rights by special permit) shall be made jointly by the owners of the "granting lot" and "receiving lot" and shall include:

- (a) site plan and zoning calculations for the "granting lot" and "receiving lot";
- (b) a program for the continuing maintenance of the landmark;
- (c) a report from the Landmarks Preservation Commission concerning the continuing maintenance program of the landmark and, for those "receiving" sites in the immediate vicinity of the landmark, a report concerning the harmonious relationship of the #development# or #enlargement# to the landmark;
- (d) for #developments# or #enlargements# pursuant to Section 81-635, a plan of any required pedestrian network improvement; and
- (e) any such other information as may be required by the Commission.

A separate application shall be filed for each transfer of development rights to an independent "receiving lot" pursuant to Section 81-63 (Transfer of Development Rights from Landmark Sites).

(2/2/11)

81-632

Conditions and limitations

The transfer of development rights from a "granting lot" to a "receiving lot," pursuant to Section 81-63, shall be subject to the following conditions and limitations:

- (a) the maximum amount of #floor area# that may be transferred from a "granting lot" shall be the maximum #floor area# allowed by Section 33-12 for #commercial buildings# on such landmark #zoning lot#, as if it were undeveloped, less the total #floor area# of all existing #buildings# on the landmark #zoning lot#;
- (b) for each "receiving lot," the #floor area# allowed by the transfer of development rights under Section 81-63 shall be in addition to the maximum #floor area# allowed by the district regulations applicable to the "receiving lot," as shown in Section 81-211; and
- (c) each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the "granting lot" by the amount of #floor area# transferred. If the landmark designation is removed, the landmark #building# is destroyed or #enlarged#, or the "landmark lot" is redeveloped, the "granting lot" may only be #developed# or #enlarged# up to the amount of permitted #floor area# as reduced by each transfer.

(2/2/11)

81-633

Transfer instruments and notice of restrictions

The owners of the "granting lot" and the "receiving lot" shall submit to the City Planning Commission a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the "granting lot" and the "receiving lot" shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New

York), a certified copy of which shall be submitted to the City Planning Commission.

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the lots from which and the lots to which such transfer is made.

(7/26/01)

81-634

Transfer of development rights by certification

Within the Grand Central Subdistrict, the City Planning Commission may allow by certification:

- (a) a transfer of development rights from a "granting lot" to a "receiving lot" in an amount not to exceed a #floor area ratio# of 1.0 above the basic maximum #floor area ratio# allowed by the applicable district regulations on the "receiving lot," provided that a program for the continuing maintenance of the landmark approved by the Landmarks Preservation Commission has been established; and
- (b) in conjunction with such transfer of development rights, modification of the provisions of Sections 77-02 (Zoning Lots not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions), 77-22 (Floor Area Ratio) and 77-25 (Density Requirements), as follows:

For any "receiving lot," whether or not it existed on December 15, 1961, or any applicable subsequent amendment thereto, #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations which allow a greater #floor area ratio# may be located on a portion of such "receiving lot" within a district which allows a lesser #floor area ratio#, provided that the amount of such #floor area#, #dwelling units# or #rooming units# to be located on the side of the district boundary permitting the lesser #floor area ratio# shall not exceed 20 percent of the basic maximum #floor area ratio# or number of #dwelling units# or #rooming units# of the district in which such #bulk# is to be located.

(5/27/15)

81-635

Transfer of development rights by special permit

Within the Grand Central Subdistrict Core, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the City Planning Commission may permit the transfer of development rights from a "granting lot" to a "receiving lot", and, in conjunction with such transfer, the Commission may permit modifications to #bulk# regulations, mandatory plan elements, and provisions regarding #zoning lots# divided by district boundaries, as set forth in paragraph (a) of this Section, provided that the Commission determines that the #development# or #enlargement# complies with the conditions of paragraph (b), the findings of paragraph (c) and the additional requirements of paragraph (d) of this Section.

(a) The Commission may permit:

- (1) a transfer of development rights from a "granting lot" to a "receiving lot" provided that:
 - (i) for #zoning lots# located within the Vanderbilt Corridor, as shown on Map 1 in Appendix A of this Chapter, the resultant #floor area ratio# on the "receiving lot" does not exceed 30.0; and
 - (ii) for #zoning lots# outside the Vanderbilt Corridor, the resultant #floor area ratio# on the "receiving lot" does not exceed 21.6;
- (2) modifications of the provisions of Sections 77-02 (Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions), 77-22 (Floor Area Ratio) and 77-25 (Density Requirements) for any #zoning lot#, whether or not it existed on December 15, 1961, or any applicable subsequent amendment thereto, #floor area#, #dwelling units# or #rooming units# permitted by the district regulations which allow a greater #floor area ratio# may be located within a district that allows a lesser #floor area ratio#;
- (3) in the case of an #enlargement# to an existing #building# utilizing the transfer of development rights from a designated landmark, modifications of the provisions of Sections 81-621 (Special street wall requirements), 81-622 (Special height and setback requirements), 81-623 (Building lobby entrance requirements), 81-624 (Curb cut restrictions and loading berth requirements), 81-625 (Pedestrian circulation space requirements), and Sections 81-25 (General Provisions Relating to Height and Setback

of Buildings), 81-26 (Height and Setback Regulations-Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations-Daylight Evaluation) in order to accommodate existing structures and conditions;

- (4) for #zoning lots# of more than 40,000 square feet of #lot area# that occupy an entire #block#, modifications of #bulk# regulations, except #floor area ratio# regulations; and
- (5) for #zoning lots# located within the Vanderbilt Corridor, modifications, whether singly or in any combination, to:
 - (i) the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Streets), or 81-621 (Special street wall requirements), inclusive;
 - (ii) the height and setback regulations of Sections 81-26 (Height and Setback Regulations-Daylight Compensation), inclusive, 81-27 (Alternative Height and Setback Regulations-Daylight Evaluation), inclusive, or 81-622 (Special height and setback requirements); or
 - (iii) the mandatory district plan elements of Sections 81-42 (Retail Continuity along Designated Streets), 81-44 (Curb Cut Restrictions), 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair), 81-47 (Major Building Entrances), 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), 81-623 (Building lobby entrance requirements), 81-624 (Curb cut restrictions and loading berth requirements), 81-625 (Pedestrian circulation space requirements) or 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive, except that no modifications to the required amount of pedestrian circulation space set forth in Section 37-51 shall be permitted.

(b) Conditions

As a condition for granting a special permit pursuant to this Section, the design of the #development# or #enlargement# shall include a major improvement of the above- or below-grade, pedestrian or mass transit circulation network in the Subdistrict. However, in the case of #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, this condition may be waived by the Commission, where appropriate, or may be deemed to have been met by utilization of the provisions of Section 81-64 (Special Permit for Grand

Central Public Realm Improvement Bonus). The improvement shall increase the general accessibility and security of the network, reduce points of pedestrian congestion and improve the general network environment through connections into planned expansions of the network. The improvement may include, but is not limited to, widening, straightening or expansion of the existing pedestrian network, reconfiguration of circulation routes to provide more direct pedestrian connections between the #development# or #enlargement# and Grand Central Terminal, and provision for direct daylight access, retail in new and existing passages, and improvements to air quality, lighting, finishes and signage.

The special permit application to the Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the general public from the proposed improvement. As part of the special permit application, the applicant shall submit schematic or concept plans of the proposed improvement to the Department of City Planning, as well as evidence of such submission to the Metropolitan Transportation Authority (MTA) and any other entities that retain control and responsibility for the area of the proposed improvement. Prior to ULURP certification of the special permit application, the MTA and any other entities that retain control and responsibility for the area of the proposed improvement shall each provide a letter to the Commission containing a conceptual approval of the improvement including a statement of any considerations regarding the construction and operation of the improvement.

(c) Findings

In order to grant a special permit for the transfer of development rights to a "receiving lot," the Commission shall find that:

- (1) a program for the continuing maintenance of the landmark has been established;
- (2) for any proposed improvement required pursuant to this Section:
 - (i) the improvement to the above- or below-grade pedestrian or mass transit circulation network provided by the #development# or #enlargement# increases public accessibility to and from Grand Central Terminal;
 - (ii) the streetscape, the site design and the location of #building# entrances contribute to the overall

improvement of pedestrian circulation within the Subdistrict and minimize congestion on surrounding #streets#; and

- (iii) a program is established to identify solutions to problems relating to vehicular and pedestrian circulation problems and the pedestrian environment within the Subdistrict;
- (3) where appropriate, for #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, the design of the #development# or #enlargement# includes provisions for public amenities including, but not limited to, publicly accessible open spaces, and subsurface pedestrian passageways leading to subway or rail mass transit facilities;
- (4) for #developments# or #enlargements# with a proposed #floor area ratio# in excess of 21.6 on #zoning lots# located within the Vanderbilt Corridor, the #building# has met the ground floor level, building design, sustainable design measures and, for #zoning lots# not located on two #wide streets#, the site characteristic considerations set forth in the applicable conditions and findings of Section 81-641 (Additional floor area for the provision of public realm improvements);
- (5) where the modification of #bulk# regulations is proposed:
 - (i) any proposed modification of regulations governing #zoning lots# divided by district boundaries or the permitted transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement# on the "receiving lot," density of population or intensity of #use# on any #block# to the detriment of the occupants of #buildings# on the #block# or the surrounding area;
 - (ii) for #enlargements# to existing #buildings#, any proposed modifications of height and setback requirements and the requirements of Section 81-62 are necessary because of the inherent constraints or conditions of the existing #building#, that the modifications are limited to the minimum needed, and that the proposal for modifications of height and setback requirements demonstrates to the satisfaction of the Commission that an integrated design is not feasible for the proposed #enlargement# which accommodates the transfer of development rights due to the conditions imposed by the existing #building#

or configuration of the site; and

(iii) for #developments# or #enlargements# on #zoning lots# of more than 40,000 square feet of #lot area# that occupy an entire #block#, any proposed modifications of #bulk# regulations are necessary because of inherent site constraints and that the modifications are limited to the minimum needed; or

(6) for #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor, any proposed modifications meet the applicable application requirements and findings set forth in Section 81-642 (Permitted modifications in conjunction with additional floor area).

(d) Additional requirements

Prior to the grant of a special permit, the applicant shall obtain approvals of plans from the MTA and any other entities that retain control and responsibility for the area of the proposed improvement, and, if appropriate, the applicant shall sign a legally enforceable instrument running with the land, setting forth the obligations of the owner and developer, their successors and assigns, to construct and maintain the improvement and shall establish a construction schedule, a program for maintenance and a schedule of hours of public operation and shall provide a performance bond for completion of the improvement.

The written declaration of restrictions and any instrument creating an easement on privately owned property shall be recorded against such private property in the Office of the Register of the City of New York (County of New York) and a certified copy of the instrument shall be submitted to the City Planning Commission.

No temporary certification of occupancy for any #floor area# of the #development# or #enlargement# on a "receiving lot" shall be granted by the Department of Buildings until all required improvements have been substantially completed as determined by the Chairperson of the City Planning Commission and the area is usable by the public. Prior to the issuance of a permanent certificate of occupancy for the #development# or #enlargement#, all improvements shall be 100 percent complete in accordance with the approved plans and such completion shall have been certified by letter from the Metropolitan Transportation Authority.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding

area.

(5/27/15)

81-64

Special Permit for Grand Central Public Realm Improvement Bonus

In order to facilitate the development of exceptional and sustainable #buildings# within the Vanderbilt Corridor as well as improvements to the pedestrian and mass transit circulation network in the vicinity of Grand Central Terminal, for #developments# and #enlargements# on #zoning lots# located within the Vanderbilt Corridor, as shown in on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the City Planning Commission may permit:

- (a) additional #floor area# for the provision of on-site or off-site, above- or below-grade improvements to the pedestrian or mass transit circulation network in the Grand Central Subdistrict, in accordance with the provisions of Section 81-641 (Additional floor area for the provision of public realm improvements); and
- (b) in conjunction with additional #floor area# granted pursuant to Section 81-641, modifications to #street wall# regulations, height and setback regulations, and mandatory district plan elements, provided such modifications are in accordance with the provisions of Section 81-642 (Permitted modifications in conjunction with additional floor area).

(5/27/15)

81-641

Additional floor area for the provision of public realm improvements

For #developments# and #enlargements# on #zoning lots# located within the Vanderbilt Corridor, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the City Planning Commission may allow by special permit #floor area# in excess of the basic maximum #floor area ratio# established in the table in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings), up to the maximum #floor area# set forth in the table, in accordance with the provisions of this Section.

All applications for a special permit for additional #floor area#

pursuant to this Section shall include on-site or off-site, above- or below-grade improvements to the pedestrian or mass transit circulation network, or a combination thereof, in the Grand Central Subdistrict. In addition, requirements pertaining to the ground floor level, building design, and sustainable design measures are set forth in this Section in order to ensure that any #development# or #enlargement# receiving additional #floor area# constitutes an exceptional addition to the #Special Midtown District#.

In order for the City Planning Commission to approve a special permit application for additional #floor area#, the Commission shall determine that such #development# or #enlargement# complies with the conditions and application requirements of paragraph (a), the findings of paragraph (b) and the additional requirements of paragraph (c) of this Section.

(a) Conditions and application requirements

All applications for a special permit for additional #floor area# pursuant to this Section shall include the following:

- (1) Above- or below-grade improvements to the pedestrian or mass transit circulation network.

In order to ensure that the proposed #development# or #enlargement# contributes to the improvement of pedestrian and mass transit circulation in the Grand Central Subdistrict, especially in the vicinity of Grand Central Terminal, any #development# or #enlargement# proposed under the provisions of this Section shall include above- or below-grade public realm improvements.

- (i) Where a #development# or #enlargement# proposes the inclusion of above-grade public realm improvements, such improvements may consist of on-site or off-site improvements to the pedestrian circulation network, or a combination thereof.

On-site, above-grade public realm improvements shall consist of open or enclosed publicly accessible spaces, of ample size, provided for public use and enjoyment. Such publicly accessible spaces shall include amenities characteristic of #public plazas# or public atriums, as applicable, and include amenities for the comfort and convenience of the public.

Off-site, above-grade public realm improvements shall consist of major improvements to the public right-of-way that support pedestrian circulation in the areas

surrounding Grand Central Terminal. Where the area of such improvements is to be established as a pedestrian plaza, such improvements shall be characteristic of best practices in plaza design, as set forth by the Department of Transportation. Where the area of such improvements is along a #street# accommodating both vehicular and pedestrian access, such improvements shall be characteristic of current best practices in #street# design, as set forth by the Department of Transportation, and include improvements to the right-of-way such as pedestrian amenities, or streetscape, sidewalk, crosswalk and median enhancements.

- (ii) Where a #development# or #enlargement# proposes the inclusion of below-grade public realm improvements, such improvements shall consist of on-site or off-site enhancements to the below-grade pedestrian and mass transit circulation network. Such improvements shall be characteristic of current best practice in mass-transit network design, and shall include improvements such as on-site or off-site widening, straightening, expanding or otherwise enhancing the existing below-grade pedestrian circulation network, additional vertical circulation, reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities, or providing daylight access, retail #uses#, or enhancements to noise abatement, air quality, lighting, finishes or rider orientation in new or existing passageways.

Applications shall include information and justification sufficient to provide the Commission with the basis for evaluating the benefits to the general public; determining the appropriate amount of bonus #floor area# to grant; and determining whether the applicable findings set forth in paragraph (b) of this Section have been met. Such application materials shall also include initial plans for the maintenance of the proposed improvements.

Where the Metropolitan Transportation Authority or any other City or State agency has control and responsibility for the area of a proposed improvement, the applicant shall submit concept plans for the proposed improvement to such agency and the Commission. At the time of certification of the application, any such agency with control and responsibility for the area of the proposed improvement shall each provide a letter to the Commission containing a conceptual approval of the improvement,

including a statement of any considerations regarding the construction and operation of the improvement.

(2) Ground floor level

In order to ensure that the proposed #development# or #enlargement# contributes to the improvement of the pedestrian circulation network in the Grand Central Subdistrict, especially in the vicinity of Grand Central Terminal, any #development# or #enlargement# proposed under the provisions of this Section shall provide enhancements to the ground floor level of the #building#, including, but not limited to, sidewalk widenings, streetscape amenities or enhancements to required pedestrian circulation spaces.

Where a #development# or #enlargement# includes #street# frontage along Madison Avenue or a #narrow street# between East 43rd Street and East 47th Street, sidewalk widenings shall be provided as follows:

- (i) where a #development# or #enlargement# is on a #zoning lot# which occupies the entire #block# frontage along Madison Avenue, a sidewalk widening shall be provided along Madison Avenue, to the extent necessary, so that a minimum sidewalk width of 20 feet is achieved, including portions within and beyond the #zoning lot#. However, no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#;
- (ii) where a #development# or #enlargement# is on a #zoning lot# that does not occupy the entire #block# frontage along Madison Avenue, a sidewalk widening shall be provided along Madison Avenue where all existing #buildings# on the #block# frontage have provided such a widening. Such required widening shall match the amount of widened sidewalk provided on adjacent #zoning lots#, provided that no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#; or
- (iii) where a #development# or #enlargement# with frontage on a #narrow street# between East 43rd Street and East 47th Street is on a #zoning lot# with a #lot width# of 100 feet or more, as measured along the #narrow street line#, a sidewalk widening shall be provided along such #narrow street#, to the extent necessary, so that a minimum sidewalk width of 15 feet is achieved, including portions within and

beyond the #zoning lot#. However, no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#.

Applications shall contain a ground floor level site plan, and other supporting documents of sufficient scope and detail to enable the Commission to determine the type of proposed #uses# on the ground floor level, the location of proposed #building# entrances, the size and location of proposed circulation spaces, the manner in which such spaces will connect to the overall pedestrian circulation network and the above- or below-grade public realm improvements required pursuant to this Section and any other details necessary for the Commission to determine whether the applicable findings set forth in paragraph (b) of this Section have been met.

(3) Building design

In order to ensure that the proposed #development# or #enlargement# contributes to its immediate surroundings, with particular emphasis on Grand Central Terminal, any #development# or #enlargement# proposed under the provisions of this Section shall demonstrate particular attention to the building design, including, but not limited to, the proposed #uses#, massing, articulation and relationship to #buildings# in close proximity and within the Midtown Manhattan skyline.

Applications shall contain materials of sufficient scope and detail to enable the Commission to determine the proposed #uses# within the #building#, as well as the proposed #building bulk# and architectural design of the #building#, and to evaluate the proposed #building# in the context of adjacent #buildings# and the Midtown Manhattan skyline. Such materials shall include a description of the proposed #uses# within the #building#; measured elevation drawings, axonometric views, and perspective views showing such proposed #building# within the Midtown Manhattan skyline; and any other materials necessary for the Commission to determine whether the applicable findings set forth in paragraph (b) of this Section have been met.

For those "receiving lots" that are contiguous to a lot occupied by Grand Central Terminal or a lot that is across a #street# and opposite the lot occupied by Grand Central Terminal, or, in the case of a #corner lot#, one that fronts on the same #street# intersection as the lot occupied by Grand Central Terminal, applications shall contain a report from the Landmarks Preservation

Commission concerning the harmonious relationship of the #development# or #enlargement# to Grand Central Terminal.

(4) Sustainable design measures

In order to foster the development of sustainable #buildings# in the Grand Central Subdistrict, any #development# or #enlargement# proposed under the provisions of this Section shall include sustainable design measures, including, but not limited to, enhancements to the energy performance, enhanced water efficiency, utilization of sustainable or locally sourced materials and attention to indoor environmental air quality of the #building#.

Applications shall contain materials of sufficient scope and detail to enable the Commission to determine whether the applicable findings in paragraph (b) of this Section have been met. In addition, any application shall include materials demonstrating the sustainable design measures of the #building#, including its anticipated energy performance, and the degree to which such performance exceeds either the New York City Energy Conservation Code (NYCECC) or the Building Performance Rating method of the applicable version and edition of American Society of Heating, Refrigerating and Air Conditioning Engineers, Inc., Standard 90.1 (ASHRAE 90.1), as referenced within the NYCECC.

(b) Findings

The Commission shall find that:

- (1) for a #development# or #enlargement# not located on two #wide streets#, the amount of additional #floor area# being granted is appropriate based on the extent to which any or all of the following physical factors are present in the #development# or #enlargement#:

- (i) direct access to subway stations and other rail mass transit facilities;

- (ii) the size of the #zoning lot#;

- (iii) the amount of wide #street# frontage; and

- (iv) adjacency to the open area above Grand Central Terminal;

- (2) for above-grade improvements to the pedestrian circulation

network that are located:

- (i) on-site, the proposed improvements will, to the extent practicable, consist of a prominent space of generous proportions and quality design that is inviting to the public; improve pedestrian circulation and provide suitable amenities for the occupants; front upon a #street# or a pedestrian circulation space in close proximity to and within view of and accessible from an adjoining sidewalk; provide or be surrounded by active #uses#; be surrounded by transparent materials; provide connections to pedestrian circulation spaces in the immediate vicinity; and be designed in a manner that combines the separate elements within such space into a cohesive and harmonious site plan, resulting in a high-quality public space; or
 - (ii) off-site, the proposed improvements to the public right-of-way, to the extent practicable, will consist of significant street and sidewalk designs that improve pedestrian circulation in the surrounding area; provide comfortable places for walking and resting, opportunities for planting and improvements to pedestrian safety; and create a better overall user experience of the above-grade pedestrian circulation network that supports the Grand Central Subdistrict as a high-density business district. Where the area of such improvement is to be established into a pedestrian plaza that will undergo a public design and review process through the Department of Transportation subsequent to the approval of this special permit, the Commission may waive this finding;
- (3) for below-grade improvements to the pedestrian or mass transit circulation network, the proposed improvements will provide:
- (i) significant and generous connections from the above-grade pedestrian circulation network and surrounding #streets# to the below-grade pedestrian circulation network;
 - (ii) major improvements to public accessibility in the below-grade pedestrian circulation network between and within subway stations and other rail mass transit facilities in and around Grand Central Terminal through the provision of new connections, or the addition to or reconfiguration of existing

connections; or

- (iii) significant enhancements to the environment of subway stations and other rail mass transit facilities including daylight access, noise abatement, air quality improvement, lighting, finishes, way-finding or rider orientation, where practicable;
- (4) the public benefit derived from the proposed above- or below-grade improvements to the pedestrian or mass transit circulation network merits the amount of additional #floor area# being granted to the proposed #development# or #enlargement# pursuant to this special permit;
- (5) the design of the ground floor level of the #building#:
 - (i) contributes to a lively streetscape through a combination of retail #uses# that enliven the pedestrian experience, ample amounts of transparency and pedestrian connections that facilitate fluid movement between the #building# and adjoining public spaces; and demonstrates consideration for the location of pedestrian circulation space, #building# entrances, and the types of #uses# fronting upon the #street# or adjoining public spaces;
 - (ii) will substantially improve the accessibility of the overall pedestrian circulation network, reduce points of pedestrian congestion and, where applicable, establish more direct and generous pedestrian connections to Grand Central Terminal; and
 - (iii) will be well-integrated with on-site, above or below-grade improvements required by this Section, where applicable and practicable;
- (6) the design of the proposed #building#:
 - (i) ensures light and air to the surrounding #streets# and public spaces through the use of setbacks, recesses and other forms of articulation, and the tower top produces a distinctive addition to the Midtown Manhattan skyline which is well-integrated with the remainder of the #building#;
 - (ii) demonstrates an integrated and well-designed facade, taking into account factors such as #street wall# articulation and fenestration, that creates a prominent and distinctive #building# which complements the character of the surrounding area,

especially Grand Central Terminal; and

(iii) involves a program that includes an intensity and mix of #uses# that are harmonious with the type of #uses# in the surrounding area;

(7) the proposed #development# or #enlargement# comprehensively integrates sustainable measures into the #building# and site design that:

(i) meet or exceed best practices in sustainable design; and

(ii) will substantially reduce energy usage for the #building#, as compared to comparable #buildings#; and

(8) in addition:

(i) the increase in #floor area# being proposed in the #development# or #enlargement# will not unduly increase the #bulk#, density of population or intensity of #uses# to the detriment of the surrounding area; and

(ii) all of the separate elements within the proposed #development# or #enlargement#, including above- or below-grade improvements, the ground floor level, #building# design, and sustainable design measures, are well-integrated and will advance the applicable goals of the #Special Midtown District# described in Section 81-00 (GENERAL PURPOSES).

(c) Additional requirements

Prior to the grant of a special permit pursuant to this Section, and to the extent required by the Metropolitan Transportation Authority (MTA) or any other City or State agencies with control and responsibility for the area in which a proposed improvement is to be located, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; where applicable, establish a program for maintenance; and, where applicable, establish a schedule of hours of public access for the proposed improvement. Where the MTA, or any other City or State agencies with control and responsibility for the area of a proposed improvement, deems necessary, such executed agreement shall set forth obligations of the applicant

to provide a performance bond or other security for completion of the improvement in a form acceptable to the MTA or any other such agencies.

Where the proposed #development# or #enlargement# proposes an off-site improvement located in an area to be acquired by a City or State agency, the applicant may propose a phasing plan to sequence the construction of such off-site improvement. To determine if such phasing plan is reasonable, the Commission may consult with the City or State agency that intends to acquire the area of the proposed improvement.

Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, setting forth the obligations of the owner to construct, and, where applicable, maintain and provide public access to public improvements provided pursuant to this Section, shall be recorded against such property in the Office of the Register of the City of New York (County of New York). Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

Except where a phasing plan is approved by the City Planning Commission, no temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of Section 81-64 (Special Permit for Grand Central Public Realm Improvement Bonus) until the required improvements have been substantially completed, as determined by the Chairperson of the City Planning Commission, acting in consultation with the MTA, or any other City or State agencies with control and responsibility for the area where a proposed improvement is to be located, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the MTA, or any other City or State agencies with control and responsibility for the area where a proposed improvement is to be located, where applicable.

The Commission may prescribe appropriate conditions and safeguards

to minimize adverse effects on the character of the surrounding area.

(5/27/15)

81-642

Permitted modifications in conjunction with additional floor area

In conjunction with the grant of a special permit pursuant to Section 81-641 (Additional floor area for the provision of public realm improvements), the City Planning Commission may permit modifications to #street walls#, height and setback regulations and mandatory plan elements, as set forth in paragraph (a) of this Section, provided that the Commission determines that the application requirements set forth in paragraph (b) and the findings set forth in paragraph (c) of this Section are met.

(a) The Commission may modify the following, whether singly or in any combination:

- (1) the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Streets) or 81-621 (Special street wall requirements), inclusive;
- (2) the height and setback regulations of Sections 81-26 (Height and Setback Regulations-Daylight Compensation), inclusive, 81-27 (Alternative Height and Setback Regulations-Daylight Evaluation), inclusive, or 81-622 (Special height and setback requirements); or
- (3) the mandatory district plan elements of Sections 81-42 (Retail Continuity along Designated Streets), 81-44 (Curb Cut Restrictions), 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair), 81-47 (Major Building Entrances), 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), 81-623 (Building lobby entrance requirements), 81-624 (Curb cut restrictions and loading berth requirements), 81-625 (Pedestrian circulation space requirements) or 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive, except that no modifications to the required amount of pedestrian circulation space set forth in Section 37-51 shall be permitted.

(b) Application requirements

Applications for a special permit for modifications pursuant to

this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications. In addition, where modifications to #street wall# or height and setback regulations are proposed, any application shall contain the following materials, at a minimum:

- (1) drawings, including but not limited to, plan views and axonometric views, that illustrate how the proposed #building# will not comply with the #street wall# regulations of Section 81-43 (Street Wall Continuity Along Designated Streets), or as such provisions are modified pursuant to Section 81-621 (Special street wall requirements), as applicable, and that illustrate how the proposed #building# will not comply with the height and setback regulations of Sections 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation), or as such provisions are modified pursuant to Section 81-622 (Special height and setback requirements), as applicable;
- (2) where applicable, formulas showing the degree to which such proposed #building# will not comply with the length and height rules of Section 81-26, or as such provisions are modified pursuant to Section 81-622; and
- (3) where applicable, #daylight evaluation charts# and the resulting daylight evaluation score showing the degree to which such proposed #building# will not comply with the provisions of Section 81-27 or as such provisions are modified pursuant to Section 81-622.

(c) Findings

The Commission shall find that such proposed modifications:

- (1) to the mandatory district plan elements will result in a better site plan for the proposed #development# or #enlargement# that is harmonious with the mandatory district plan element strategy of the #Special Midtown District#, as set forth in Section 81-41 (General Provisions); and
- (2) to the #street wall# or height and setback regulations will result in an improved distribution of #bulk# on the #zoning lot# that is harmonious with the height and setback goals of the #Special Midtown District# set forth in Section 81-251 (Purpose of height and setback regulations).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/27/15)

81-65

Special Permit for Transient Hotels

Within the Vanderbilt Corridor, as shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, the City Planning Commission may permit the #development# of a #building# containing a #transient hotel#, as listed in Use Group 5, or may permit the #conversion# or change of #use# within an existing #building# to a #transient hotel#, provided the Commission finds that the proposed #transient hotel# will:

- (a) be appropriate to the needs of businesses in the vicinity of Grand Central Terminal; and
- (b) provide on-site amenities and services that will support the area's role as an office district. Such business-oriented amenities and services shall be proportionate to the scale of the #transient hotel# being proposed, and shall include, but shall not be limited to, conference and meeting facilities, and telecommunication services.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(5/13/82)

81-70

SPECIAL REGULATIONS FOR THEATER SUBDISTRICT

(9/13/06)

81-71

General Provisions

The regulations of Sections 81-72 to 81-75, inclusive, relating to Special Regulations for the Theater Subdistrict, are applicable only in the Theater Subdistrict, of which the Theater Subdistrict Core and the Eighth Avenue Corridor are parts, except that any listed

theater designated in Section 81-742, or portion thereof, located outside of the Theater Subdistrict shall be deemed to be a "granting site" pursuant to Section 81-744 (Transfer of development rights from listed theaters).

The Theater Subdistrict is bounded by West 57th Street, Avenue of the Americas, West 40th Street, Eighth Avenue, West 42nd Street, a line 150 feet west of Eighth Avenue, West 45th Street and Eighth Avenue.

The Theater Subdistrict Core is bounded by West 50th Street, a line 200 feet west of Avenue of the Americas, West 43rd Street and a line 100 feet east of Eighth Avenue.

The Eighth Avenue Corridor is bounded by West 56th Street, a line 100 feet east of Eighth Avenue, West 43rd Street, Eighth Avenue, West 42nd Street, a line 150 feet west of Eighth Avenue, West 45th Street and Eighth Avenue.

The west side of Eighth Avenue between 42nd and 45th Streets is also subject to the provisions of the Special Clinton District to the extent set forth in Article IX, Chapter 6, subject to Section 81-023 (Applicability of Special Clinton District regulations).

These boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter. The regulations of Sections 81-72 to 81-75, inclusive, supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District# of which the Subdistrict is a part.

In order to preserve and protect the character of the Theater Subdistrict as a cultural, theatrical and entertainment showcase as well as to help ensure a secure basis for the useful cluster of shops, restaurants and related amusement activities, special incentives and controls are provided for the preservation and rehabilitation of existing theaters and special restrictions are placed on ground floor #uses# within the Subdistrict. In order to preserve and protect the special scale and character of the Theater Subdistrict Core, which includes Times Square, special #building street wall# height and setback controls and requirements for the inclusion of #illuminated signs# and entertainment and entertainment-related #uses# apply within the Subdistrict Core. In order to ensure the orderly growth and development of the Eighth Avenue Corridor and its transition to the scale and character of adjoining midblocks, special #building street wall#, height and setback controls apply within the Corridor. In order to preserve and maintain the character of the western edge of the Theater Subdistrict as both an integral part of the Theater Subdistrict and as a transition to the Clinton neighborhood, the west side of Eighth Avenue between 42nd and 45th Streets is also subject to the

provisions of the Special Clinton District.

A Theater Subdistrict Council shall be created comprised of the Mayor, three (3) representatives appointed by the Mayor from the performing arts, theatrical and related industries, the Director of the Department of City Planning, the Speaker of the City Council and his or her designee, and the Manhattan Borough President. The members shall choose a Chair from among themselves. The Theater Subdistrict Council shall be a not-for-profit corporation whose organizational purpose shall be limited solely to promoting theater and theater-related use and preservation within the Theater Subdistrict and promoting the welfare of the Theater Subdistrict generally. The goals of the Theater Subdistrict Council shall include enhancing the long-term viability of Broadway by facilitating the production of plays and small musicals within the Theater Subdistrict, developing new audiences for all types of theatrical productions, and monitoring preservation and use covenants in Broadway's "listed theaters."

The Theater Subdistrict Council shall adopt a plan every three years for the sale, distribution and marketing of reduced price tickets to new and undeveloped audience groups. Such plan shall include locations outside of the Theater Subdistrict where such reduced price tickets will be available. The plan shall also include a way to evaluate yearly its effectiveness by:

- (a) the number of tickets sold; and
- (b) the penetration of the new identified markets which shall be reported to the Chairperson of the City Planning Commission and filed with the Council of the City of New York.

The Theater Subdistrict Council shall advise the Chairperson of the City Planning Commission concerning applications for any special permit, authorization or certification pursuant to the special regulations for the Theater Subdistrict and shall be the holder and administrator of the funds received in connection with transfers of development rights from "listed theaters" pursuant to Section 81-744 in accordance with the provisions for the Theater Subdistrict Fund set forth in paragraph (h) of Section 81-741 (General provisions).

(2/2/11)

81-72

Use Regulations Modified

The #use# regulations of this Section, inclusive, shall apply within that portion of the Theater Subdistrict bounded by West 40th Street,

a line 100 feet east of Eighth Avenue, West 51st Street and a line 200 feet west of Avenue of the Americas, to #buildings developed# after May 13, 1982, to portions of #buildings enlarged# on the ground floor level after May 13, 1982, and to #extensions#.

(8/6/98)

81-721

Required use allocations on street frontages

#Uses# located on the ground floor or entered by stairs from a sidewalk entry, except for #uses# with no #street# frontage and accessible only through a lobby, shall be limited as follows:

- (a) On any #wide street#, at least 80 percent of any #wide street front lot line# ground level frontage shall be allocated to #uses# indicated in Section 81-722 (Use Group T).
- (b) On any #narrow street#, at least 50 percent of any #narrow street front lot line# ground level frontage shall be allocated to #uses# indicated in Section 81-722.
- (c) For #zoning lots# between 43rd and 50th Streets with #street# frontage on Broadway and/or Seventh Avenue, at least 50 percent of any length of #narrow street front lot line# ground level frontage within 100 feet of Broadway or Seventh Avenue shall be allocated to #uses# permitted only on #wide street# frontages in Section 81-722.

Where a stairway entrance into a subway is relocated onto a #zoning lot# pursuant to Section 81-46 (Off-Street Relocation of a Subway Stair), up to, but not more than, 40 feet of the #narrow street front lot line# ground level frontage occupied by that stairway may be excluded from the length of #narrow street# frontage to which the requirements of this Section apply.

(9/9/04)

81-722

Use Group T

The following #uses# are subject to the limitations on location and #floor area# of the underlying zoning district:

#Uses# marked with an asterisk (*) are allowed only on #narrow street# frontages.

#Uses# marked with double asterisks (**) are allowed only on floors other than the ground floor.

#Uses# marked thus (***) qualify as #uses# satisfying the requirements of Section 81-724 (Requirements for entertainment-related uses).

#Use#

Ambulatory diagnostic or treatment health care facilities listed in Use Group 4

Antique stores

#Apartment hotels# - lobby space is limited to 20 percent of total #zoning lot# frontage on #wide streets#

Appliance, repair shops - not permitted in C5 Districts

Appliances, sales

Art galleries, commercial

* Art galleries, non-commercial

Art metalcraft shops

Art needlework

Artists' supply stores

Athletic goods stores

81-723

Special ground floor street frontage restrictions

No single establishment shall have a #wide street front lot line# ground level frontage of less than 10 feet.

The following requirements apply to #wide street front lot line# ground level frontages and, for #zoning lots# between 43rd and 50th Streets with #street# frontage on Broadway and/or Seventh Avenue, #narrow street front lot line# ground level frontages within 100 feet of Broadway or Seventh Avenue:

- (a) Any length of #front lot line# ground level #street# frontage of a #zoning lot# devoted to banks and travel bureaus shall not constitute in total more than 15 percent of any such #front lot line# ground level #street# frontage.
- (b) Each establishment shall be located within 10 feet of the #lot line# on which it is required to front for the full length of the frontage of that establishment, except that, where a #street wall# recess at #curb level# permitted under Section 81-43 (Street Wall Continuity Along Designated Streets) extends a greater distance from the #lot line#, the length of frontage of any establishment adjoining that recess may be located at an equal, but not greater, distance from the #lot line#.
- (c) Lobby space shall not comprise more than 20 percent of any such #front lot line# ground level #street# frontage. In addition, a lobby frontage on any such #front lot line# ground level #street# frontage need not be less than 15 feet.
- (d) #Uses# with no #street# frontage and which are accessible only through a lobby shall not be restricted to Use Group T #uses#.

(2/2/11)

81-724

Requirements for entertainment-related uses

With the exception of a #development# or #enlargement# in which more than 50 percent of the new #floor area# is allocated to #transient hotel use#, or all of the #floor area# of the #development# or #enlargement# is allocated to #public parking

garage use#, a #development# or #enlargement# on a #zoning lot# with more than 50 percent of its #zoning lot# area located within the Theater Subdistrict Core shall meet the following requirements:

- (a) If the new #floor area# of the #development# or #enlargement# generated by that portion of the #zoning lot# located within the Theater Subdistrict Core exceeds 60,000 square feet, then an amount of floor space on the #zoning lot# equal to five percent of the amount by which such new #floor area# exceeds 50,000 square feet shall be allocated to #uses# listed in Section 81-725 (Entertainment-related uses) or to #front lot line# ground level #uses# designated thus (***) in Section 81-722 (Use Group T), as satisfying the requirements of this Section.

Except as provided in paragraphs (b), (f) and (g) of this Section, the amount of floor space specified shall be located on the same #zoning lot# as the #development# or #enlargement# for which that floor space is provided to meet the requirements of this Section.

- (b) A maximum of 75 percent of the amount of floor space specified in paragraph (a) of this Section may be located on a separate #zoning lot#, with the remainder located on the same #zoning lot# as the #development# or #enlargement#, by authorization of the City Planning Commission provided, upon examination of proposed plans, the Commission finds that:

(1) one of the following conditions exists:

- (i) more than 50 percent of the area of the separate #zoning lot# is located within the Theater Subdistrict Core;
- (ii) the separate #zoning lot# is located within the Theater Subdistrict and the floor space located on such separate #zoning lot# is allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, and #uses# accessory thereto, or a combination thereof, as listed in Section 81-725, and that the separate #zoning lot# is located within the Theater Subdistrict; or
- (iii) the separate #zoning lot# is located within an area bounded by West 42nd Street, Sixth Avenue, West 57th Street, a line 175 feet west of Ninth Avenue, West 52nd Street and a line 150 feet west

of Eighth Avenue, and the floor space located on such separate #zoning lot# is allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, or a combination thereof, and any support spaces related thereto, not including administrative office space, where such floor space occupies no less than 25,000 square feet;

- (2) the floor space located on the separate #zoning lot# is in addition to any floor space provided to meet the requirements of this Section for any other #development# or #enlargement#;
 - (3) the floor space located on the separate #zoning lot# is constructed or renovated specifically for the purpose of meeting the requirements of this Section and has not been utilized for any of the #uses# listed in Section 81-725 at any time during the two-year period immediately prior to the date on which this authorization, as described in paragraph (b) of this Section, is granted; and
 - (4) the #use# located on the separate #zoning lot# achieves a reasonable distribution of entertainment-related #uses# and locations of such #uses#.
- (c) Except as provided in this paragraph, (c), floor space allocated to entertainment-related #uses# listed in Section 81-725, accommodating any number of occupants, shall be classified under Sections 27-254 to 27-258 (Title 27, Chapter 1, Subchapter 3, Article 8 - Occupancy Group F-Assembly) of the 1968 Building Code or Section BC 303 of the 2008 Building Code, as applicable, and shall meet all relevant requirements of Sections 27-522 to 27-549 (Title 27, Chapter 1, Subchapter 8-Places of Assembly) of the 1968 Building Code or Section BC 1024 of the 2008 Building Code, as applicable.

Alternatively, where floor space in an existing #building# is allocated to #uses# listed in Section 81-725 in order to meet the requirements of this Section, the Commission may, by authorization, modify or waive the Code requirements of this paragraph, (c), if, upon examination of proposed plans, it finds that:

- (1) the existing #building# does not otherwise require structural alteration to accommodate the entertainment-related #uses#; and

(2) two plaques will be provided prior to the issuance of any certificate of occupancy for the floor space so allocated to be affixed, as follows:

- (i) the first in a prominently visible location either to the exterior wall of the #building# at ground level adjacent to the main entry or in the main lobby stating that floor space in the #building# is provided to meet the requirements of this Section; and
- (ii) the second either on or immediately adjacent to the corridor or lobby side of the main door to the space itself stating that such floor space is located within that part of the #building#.

Each plaque shall indicate in letters, not less than one inch high, the amount of entertainment-related floor space in square feet, the floor or floors on which it is located, the category of #use# under Section 81-725 to which it is dedicated, and the name and street address of the #development# or #enlargement# for which it partially fulfills the requirements of this Section.

- (d) The certificate of occupancy for the #development# or #enlargement# shall record and specifically describe all floor space allocated to meet the requirements of this Section and shall require the permanent reservation of this space for such purposes as a condition of the certificate of occupancy.

If a portion of the amount of the specified floor space is located on a separate #zoning lot#, no certificate of occupancy for the #development# or #enlargement# shall be issued until a certificate of occupancy has been issued for that floor space provided on the separate #zoning lot# and all other floor space allocated to fulfill the requirements of this Section.

The certificate of occupancy for the #development# or #enlargement# shall identify the amount and location of such specified floor space provided on the separate #zoning lot#. The certificate of occupancy of the separate #zoning lot# shall identify the #development# or #enlargement# for which the specified floor space is provided and the amount and location of that floor space on the separate #zoning lot#. Both certificates of occupancy shall require the permanent reservation of the floor space provided on the separate

#zoning lot# for #uses# which meet the requirements of this Section.

An amount of floor space allocated in an existing #building# to meet the requirements of this Section may be reallocated to another location, except that no floor space allocated in an existing #building# located within the Theater Subdistrict may be reallocated to another location outside the Theater Subdistrict. Such reallocation shall be made provided that the Commission finds, by authorization, that all of the requirements of this Section are still met and that the Commission has received sufficient assurances that the certificates of occupancy of the #development# or #enlargement# and the #building# to which the floor space has been reallocated, will be amended within a period of time after the date of such authorization specified therein to accord with the provisions of this Section.

- (e) A written declaration shall be recorded against the #zoning lot# of the #development# or #enlargement# and against the separate #zoning lot#, which contains an agreement that the floor space provided on the separate #zoning lot# shall be used solely for entertainment-related #uses# for the life of the #development# or #enlargement#.

If floor space allocated to entertainment-related #uses# on the separate #zoning lot# is reallocated in accordance with the provisions of paragraph (d) of this Section, the agreement contained in the written declaration shall be amended so that the #zoning lot# on which the newly allocated floor space is located complies with paragraph (d).

- (f) If a certificate of occupancy for floor space to be located on a separate #zoning lot#, pursuant to the provisions of paragraph (b) of this Section, is not reasonably anticipated to be issued prior to the date upon which the #development# or #enlargement# would otherwise be eligible for issuance of a certificate of occupancy, the Commission may also authorize the waiver of any or all of the provisions of paragraphs (b)(3), (d) and (e) of this Section, provided that:

- (1) the owner or lessee of the #development# or #enlargement#, or an affiliate thereof, will make or cause to be made a financial contribution, through payment or repayment of the costs thereof, which will facilitate on such separate #zoning lot#, the #development# of a #building# that will consist predominantly of either entertainment-related #uses#

and #uses# accessory thereto or #community facility# #uses# where at least 25,000 square feet of such floor space allocated to meet the requirements of this Section shall be allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, or a combination thereof, and any support spaces related thereto not including administrative office space;

- (2) the Department of City Planning has received a fully-executed copy of a written declaration against such separate #zoning lot#, requiring that the floor space allocated to meet the requirements of this Section and located on the separate #zoning lot# shall be used solely for entertainment-related #uses# and #uses accessory# thereto for the life of the #development# or #enlargement#. Prior to the release of the financial contribution, pursuant to paragraph (f)(3) of this Section, such declaration shall be filed and duly recorded in the borough office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the authorization pursuant to this Section;
- (3) such financial contribution will be deposited in a trust and agency account, to be released upon a determination made in writing by the Chairperson of the City Planning Commission, made in consultation with the Commissioner of Buildings, that all work on foundations has been completed for such #building#; and
- (4) the prospective operator of the entertainment-related #uses# in the #building# on such separate #zoning lot#:
 - (i) has made substantial financial and construction-related commitments towards the development of the #building#, including, at a minimum, commitments for site acquisition, such as a purchase agreement, deed or ground lease, and architectural agreements for the design of the floor space; and
 - (ii) has secured, or has implemented a fund-raising plan to secure, the funding necessary for the development of the #building#, other than the financial contribution by the owner or lessee of the #development# or #enlargement#.

Where the Commission makes the findings set forth in

paragraphs (f)(1) through (f)(4) of this Section, inclusive, a certificate of occupancy may be issued for the #development# or #enlargement# requiring the provision of such floor space, notwithstanding that no certificate of occupancy has been issued with respect to the floor space located on the separate #zoning lot#.

- (g) In the event that all work on foundations of the #building# on the separate #zoning lot# has not been completed within three years of the grant of an authorization provided under the provisions of paragraph (f) of this Section, the owner or lessee of the #development# or #enlargement# shall, in accordance with the terms of the written declaration recorded against the #development# or #enlargement# at the time of the grant of such authorization, apply to the Commission for:

- (1) an extension of the authorization for up to one additional year for good cause shown; or
- (2) a new authorization, under paragraph (b) of this Section, for alternative floor space consisting of entertainment-related #uses# to be located on a separate #zoning lot# as necessary to meet the requirements of this Section.

In granting such authorization for alternative floor space, the Commission may waive the provisions of paragraph (b)(3) of this Section, provided the floor space was not utilized for any of the #uses# listed in Section 81-725 at any time during the two-year period immediately prior to the date on which the authorization was originally granted under paragraph (b) of this Section.

- (h) Floor space allocated in an existing #building# on a separate #zoning lot#, pursuant to an authorization granted under paragraph (f) of this Section, may be reallocated to another location, provided that the Commission finds, by authorization, that all applicable requirements of this Section are met, except that no floor space allocated in an existing #building# located within the Theater Subdistrict may be reallocated to another location outside the Theater Subdistrict.
- (i) All #uses# satisfying the requirements of this Section shall be subject to the locational requirements of Section 81-72 (Use Regulations Modified).

(4/28/88)

81-725

Entertainment-related uses

Auditoriums, with capacity limited to 2,500 seats

Dance halls, public

Eating or drinking places, where there is entertainment or dancing

Museums, upon authorization by the City Planning Commission that the contents are predominantly theater and/or entertainment-related and are publicly exhibited on a continuing basis

Studios, motion picture production

Studios, music, dancing or theatrical

Studios, radio or television

Theaters

(5/13/82)

81-73

Special Sign and Frontage Regulations

(5/8/13)

81-731

Special regulations for signs, transparency, banners and canopies

Within that area of the Theater Subdistrict whose boundaries are described in Section 81-72 (Use Regulations Modified), the following provisions apply along #wide street# frontages. Within the Theater Subdistrict Core, the following provisions also apply along #narrow street# frontages.

- (a) At least 50 percent of the #street wall# of a #development# or ground floor #enlargement# shall be glazed at the ground floor level with clear, untinted, transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#.

For the purpose of the glazing requirements, the #street wall# surface at the ground floor level shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less, and shall exclude any area of #street wall# occupied by #accessory# off-street loading berths or entrances and exits to #accessory# off-street parking provided pursuant to the provisions of Section 81-30 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS). For the purposes of this Section, clear, unobstructed openings in the surface of a #street wall# provided for a stairway entrance into a subway relocated onto a #zoning lot# in accordance with the requirements of Section 81-46 (Off-Street Relocation or Renovation of a Subway Stair) or a through #block# connection provided in accordance with the requirements of paragraph (h) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) shall be treated as transparent glazed surfaces.

- (b) Canopies (as defined in the Building Code) and awnings shall not be permitted on the exterior of any #building#.

For the purposes of this Section, any #signs# which do not comply with the regulations of this Section may be continued for one year after May 13, 1982, provided that after the expiration of that period such #non-conforming sign# shall terminate; a #sign# which the Chairperson of the City Planning Commission certifies as an integral part of the #building# shall not be required to terminate.

(2/2/11)

81-732

Special Times Square signage requirements

The provisions of this Section shall apply to all #developments# and #enlargements# on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway in the Theater Subdistrict.

No building permit shall be issued by the Department of Buildings for any portion or all of a #development# or #enlargement# on a #zoning lot# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway without prior submission of drawings showing that the #sign# requirements related to #surface area#, location and number of #signs# set forth in paragraphs (a), (b) and (c) of this Section have been met and that electrical power is provided in amounts and locations sufficient to illuminate all such required #signs# to the illumination

levels specified herein. Such drawings shall include, at a scale of 1/16 inch equals one foot, a plan, elevations of #narrow streets# and Seventh Avenue and/or Broadway and cross-sections showing setbacks on Seventh Avenue, Broadway and #narrow streets#. These drawings shall show, for all the #signs# required under this Section, their number and for each, its #surface area# and location and shall list each requirement and the actual dimensions or areas achieved in the design.

Temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate more than 50 percent of the total #floor area# of the #development# or #enlargement# shall not be issued by the Department of Buildings until 50 percent of the aggregate #surface area# of #signs# required under paragraph (a)(3) of this Section has been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate more than 90 percent of the total #floor area# of the #development# or #enlargement# shall not be issued by the Department of Buildings until 90 percent of the aggregate #surface area# of #signs# required under paragraphs (a)(3) of this Section has been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Neither temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate 100 percent of the total #floor area# of the #development# or #enlargement# nor a first permanent certificate of occupancy for the #development# or #enlargement# shall be issued by the Department of Buildings until all of the #signs# required under this Section have been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Notwithstanding the foregoing requirements relating to the granting of certificates of occupancy, the City Planning Commission may, prior to January 1, 2003, certify to the Commissioner of Buildings that compelling circumstances warrant the waiver of any or all such provisions. In granting any such waiver, the Commission shall establish a completion schedule, not to exceed one year from the date of such certification, for the installation and operation of all requisite #signs# in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section. The Commission, as it deems appropriate, shall also require security for performance

under the schedule and may prescribe other conditions to address the delay in installation and operation of requisite #signs#.

(a) All #developments# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway shall provide #signs# meeting all of the following requirements:

- (1) At least one #illuminated sign# shall be provided for each ground floor establishment with a #street# frontage on Seventh Avenue, Broadway or a #narrow street# for the full length of the #zoning lot# frontage or the first 100 feet from Seventh Avenue or Broadway, whichever is less. With the exception of theater #signs#, each required #illuminated sign# shall be located directly behind the clear, untinted, transparent material with which the #street wall# is required to be glazed under Section 81-731 (Special regulations for signs, transparency, banners and canopies). There shall be no obstructions between the #sign# and the glazing material.
- (2) In addition, #illuminated signs# shall be provided with a minimum aggregate #surface area# of 12 square feet for each linear foot of #street# frontage of the #zoning lot# on Seventh Avenue, Broadway and intersecting #narrow streets# up to the first 40 linear feet of #street# frontage from either Seventh Avenue or Broadway.

No portion of any #illuminated sign# required under this paragraph, (a)(2), shall be located:

- (i) further than 40 feet from the Broadway or Seventh Avenue #street line#;
- (ii) below a height of 10 feet above #curb level# or above the top of the #street wall# of the #building# before setback as defined in Section 81-75 (Special Street Wall and Setback Requirements).

There shall be a minimum of one #sign# with a #surface area# of not less than 100 square feet for each 25 linear feet, or part thereof, of #zoning lot street# frontage on Seventh Avenue or Broadway.

- (3) In addition, #illuminated signs# shall be provided with a minimum aggregate #surface area# of 50 square feet for each linear foot of #street# frontage of the

#zoning lot# on Seventh Avenue, Broadway and intersecting #narrow streets# up to the first 40 linear feet of #street# frontage from either Broadway or Seventh Avenue, except that for any one #zoning lot#, the required minimum aggregate #surface area# shall not exceed 12,000 square feet.

No portion of any #illuminated sign# required under this paragraph, (a)(3), shall be located:

- (i) further than 40 feet from the Seventh Avenue or Broadway #street line# except that, for a #zoning lot# with #street# frontage on Seventh Avenue, Broadway and at least one #narrow street#, the areas of required #signs# specified in paragraph (a)(3)(ii) of this Section may be located without distance limit from the Seventh Avenue or Broadway #street line#;
- (ii) below a height of 10 feet or above a height of 120 feet above #curb level#, except that for a #zoning lot# with #street# frontage on Seventh Avenue, Broadway and 47th Street, a minimum of 25 percent of the minimum aggregate #surface area# required under this Section or 7,500 square feet, whichever is greater, shall comprise #signs# no portion of which shall exceed 250 feet in height above #curb level#, and each of which shall face the intersection of the center lines of 45th Street and Broadway and shall have its #surface area# measured by projecting its edges onto a plane perpendicular to a line drawn between the center of the #sign# and the above intersection at ground level and measuring the resultant #surface area# on that plane; and, for other #zoning lots# with #street# frontage on Seventh Avenue, Broadway and a #narrow street# a maximum of 25 percent of the minimum aggregate #surface area# required under this Section may comprise #signs# located without height limit provided that each such #sign# faces the intersection of the center lines of 45th Street and Broadway and its #surface area# is measured by projecting its edges onto a plane perpendicular to a line drawn between the center of the #sign# and the above intersection at ground level and measuring the resultant #surface area# on that plane.

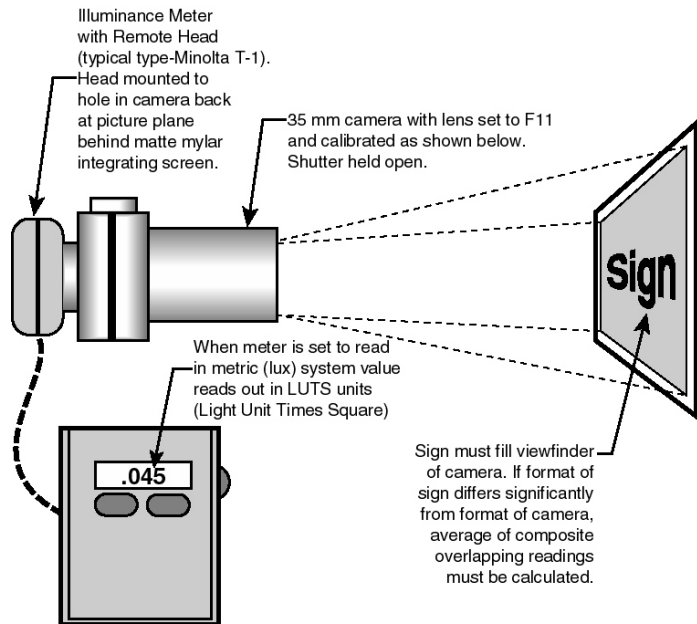

Where a #zoning lot# is located at the intersection of Seventh Avenue or Broadway and one

or more #narrow streets#, at least 60 percent of the minimum aggregate #surface area# of signage required under this paragraph, (a)(3), shall be located within 50 feet of the #narrow streets#. Where a #zoning lot# is located at two such intersections, at least 15 percent of the minimum aggregate #surface area# required under this subsection shall be within 50 feet of each #narrow street#. Where a #zoning lot# is located at three or more such intersections, at least seven percent of the minimum aggregate #surface area# required under this Section shall be within 50 feet of a #narrow street# at each intersection of that #narrow street# and Seventh Avenue or Broadway.

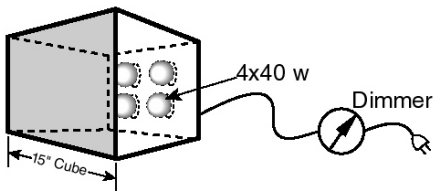

There shall be a minimum of one #illuminated sign# with a #surface area# of not less than 1,000 square feet for each 50 linear feet, or part thereof, of #street# frontage on Seventh Avenue or Broadway, except that for any one #zoning lot# no more than five #signs# shall be required.

With the exception of #signs# defined in paragraph (a)(3)(ii) of this Section as facing the intersection of the centerlines of 45th Street and Broadway, at least 75 percent of the #surface area# of #signs# required under this paragraph, (a)(3), shall be placed at an angle in plan view of not more than 45 degrees to the Seventh Avenue or Broadway #street line#.

#Signs# required under this paragraph, (a)(3), shall, when installed on the #building# and set in operation, meet at a minimum the requirements set out in paragraphs (a)(3)(iii), (iv) and (v) of this Section. The illumination standards contained therein for each #sign# shall be measured with an apparatus (to be known as a Light Unit Times Square or "LUTS" meter) comprising an illuminance meter attached to a 35 millimeter single lens reflex camera body and fitted with a lens of appropriate focal length in accordance with the diagrams herein (see Illustrations of Sign Brightness Measurement System - LUTS Meter). The lens shall be set at F-stop 11.

The LUTS meter must be calibrated prior to use. Although the lens is nominally set to F11, the actual light transmission value may differ especially with long focal length zoom lenses

To calibrate, build a lightbox as shown above. The front of the box shall be 1/4" #2447 opal plexiglass; the other five interior sides shall be painted matte white.

Four standard 40 watt 120 volt incandescent lamps shall be mounted on the back of the box and wired through a dimmer.

In a dark room adjust the dimmer so that the plexiglass is illuminated to a brightness (exitance) of 125 Footlamberts as measured with an accurate luminance meter (e.g. Minolta LS100, Photo Research 1500).

Using the measuring lens of the LUTS meter set to the appropriate focal length, fill the viewfinder with the lightbox, and adjust the aperture until the meter reads 1.5 LUTS. If different lenses or degrees of zoom are to be used, calibrate the meter for each condition and record the appropriate aperture settings.

SIGN BRIGHTNESS MEASUREMENT SYSTEM (LUTS Meter) (81-732aii)

The LUTS Meter shall be calibrated against a reference standard (See Illustrations of Sign Brightness Measurement System - LUTS Meter). Alternative measuring equipment may be employed provided such equipment provides identical measurement against the reference standard described herein.

In measuring the brightness of the whole of a #sign# under the provisions of paragraphs (a)(3)(iii) and (iv) of this Section, the illumination level of the #sign# shall be determined by pointing the LUTS Meter at the #sign# so that the entire #sign# completely fills the viewing frame of the meter. If, because of the shape of the #sign#, the entire #sign# cannot be viewed within the viewing frame, readings may be taken of discrete portions of the #sign# separately, provided, however, that no more of the #sign# than is absolutely necessary to measure the entire #sign#, may be included in more than one such reading. Readings of portions of a #sign# shall be averaged to obtain the average illumination level of the entire #sign#.

In measuring the brightness of a portion of a #sign# required to meet the incident illumination standards specified in paragraphs (a)(3)(iii) and (iv) of this Section, the illumination level of that portion of the #sign# shall be determined by pointing the LUTS Meter at that portion so that the entire portion completely fills the viewing frame of the meter. If, because of the shape or configuration of that portion of the #sign#, the entire portion cannot be viewed within the viewing frame, readings may be taken of discrete sections of that portion separately, provided, however, that no more of the portion than is absolutely necessary to measure the entire portion, may be included in more than one such reading. Readings of sections of that portion of the #sign# shall be averaged to obtain the average illumination level of the entire portion.

If the illumination of a required #sign# or portion thereof is measured prior to its installation on the #building#, all measurements shall be taken in an interior environment with an ambient air temperature of between 65 and 75 degrees Fahrenheit and no ambient light. For all

readings, the LUTS meter shall be located so that its relationship to the #sign# or portion thereof is identical to that described below for taking measurements when the same #sign# or portion thereof is installed on the #building#.

If the illumination of a required #sign# or portion thereof is measured after its installation on the #building#, all measurements shall be taken at night when the ambient air temperature, at a height above #street# level equal to that of the center of the #sign#, is between 65 and 75 degrees Fahrenheit. To measure the illumination level of a #sign# or portion thereof, an imaginary line shall be established which is perpendicular in plan view to the surface of the #sign# or portion thereof and connects its center to a point from which the #sign# or portion thereof is actually visible and which is five feet above #street# level and 60 or more feet away from the #sign#. The LUTS meter shall be located along this line at the furthest distance from the #sign# or portion thereof at which a reading may be obtained by the method specified above.

The duration of one complete operating cycle of any #sign# required under this paragraph, (a)(3), which is animated, in whole or in part, shall not exceed five minutes.

During any one complete operating cycle of any such #sign#, the aggregate time for which such #sign# is unlit shall not exceed 10 percent of the operating cycle and in no case shall exceed 15 seconds. In addition, no single continuous time period during which such a #sign# is unlit shall exceed three seconds. During any one complete operating cycle of any such #sign#, the brightness levels specified below in paragraphs (a)(3)(iii) and (iv) shall be attained for an aggregate time of not less than 20 percent of the operating cycle and in no case shall be less than 10 seconds. In addition, the #surface area# of any #sign# required to be continuously animated, either in whole or in part and either electrically or mechanically, shall exhibit visual changes clearly discernable by an observer at #street# level at intervals not exceeding 30 seconds.

(iii) A minimum of 25 percent of the required minimum

aggregate #surface area# of #signs# required under this paragraph, (a)(3), shall comprise #signs# each of which shall attain for a minimum of 25 percent of its #surface area# at least 1.5 LUTS incident illumination measured as specified in this paragraph, (a)(c), by means of electric lamps, such as neon tubes, incandescent lamps or cathode ray tubes, which are exposed directly to view. All of the remainder of each such #sign# shall attain at least 0.2 LUTS incident illumination measured as specified by means of electric lamps exposed directly to view and/or luminous surfaces comprising translucent material lit from behind by electric lamps.

In addition, each of the #signs# required to meet the standards of this paragraph, (a)(3)(iii), shall have either: a minimum of 20 percent of its #surface area# continuously electrically animated either by means of flashing borders, writing, pictorial representations, emblems or other figures of similar character or by means of #flashing sign surface area# serving as a field or background thereto; or, a minimum of 50 percent of its #surface area# continuously mechanically animated.

- (iv) In addition, a minimum of 25 percent of the required minimum aggregate #surface area# of #signs# required under this paragraph, (a)(3), shall comprise #signs# each of which shall attain for all of its #surface area# at least 0.4 LUTS incident illumination measured as specified by means of luminous surfaces comprising translucent material lit from behind by electric lamps. Alternatively, but also in addition to paragraph (a)(3)(iii) of this Section, a minimum of 25 percent of the required minimum aggregate #surface area# of #signs# required under this paragraph, (a)(3), shall achieve the same incident illumination levels for the same amounts of #surface area# as specified in paragraph (a)(3)(iii).

In addition, each of the #signs# required to meet the standards of this paragraph, (a)(3)(iv), shall have either: a minimum of 20 percent of its #surface area# continuously electrically animated either by means of flashing borders, writing, pictorial representations, emblems or other

figures of similar character or by means of #flashing sign surface area# serving as a field or background thereto; or, a minimum of 50 percent of its #surface area# continuously mechanically animated.

- (v) The provisions of paragraphs (a)(3)(iii) and (iv) of this Section may be modified or waived upon certification by the Chairperson of the City Planning Commission that the dynamic character and attractiveness of the #sign# or #signs# for which the modification or waiver is granted are assured by the proposed design and operation and that the signage on the #zoning lot# will produce an effect at least equal to that achieved through the application of paragraphs (a)(3)(iii) and (iv).

Except for an individual #sign# meeting the illumination requirements of paragraphs (a)(3)(iii) and (iv) for at least 50 percent of its #surface area#, for all of the #signs# required under this paragraph, (a)(3), all #surface area# not complying with paragraphs (a)(3)(iii) and (iv) shall be lighted with an average level of illuminance across the entirety of that #surface area# of 75 foot candles and with an average to minimum illuminance ratio of not greater than 3.0 to 1.0.

- (4) One illuminated marquee and one additional #illuminated# projecting identification #sign# are required for each theater on a #zoning lot#. A group of motion picture theaters under single ownership and operation shall be treated as one theater for the purposes of this requirement.

Each required marquee shall have a minimum area in plan of 500 square feet and each projecting identification #sign# shall have a minimum #surface area# of 200 square feet. Marquees and identification #signs# may count towards meeting the minimum aggregate #surface area# requirements of paragraph (a)(2) or (a)(3) of this Section, provided that they comply with the locational requirements therein.

- (5) #Signs# which do not meet the locational requirements of paragraph (a)(2) or (a)(3) are permitted, but shall not count towards meeting minimum aggregate #surface area# requirements.

- (6) Required minimum aggregate #surface areas# of #signs# for #zoning lots# with #street# frontage on both Seventh Avenue and Broadway shall be calculated by including both those #street# frontages and any #narrow street# frontages up to the first 40 linear feet of #street# frontage from either Seventh Avenue or Broadway.
- (7) All required #illuminated signs# shall at a minimum remain lit from dusk until 1:00 a.m. daily.

All of the #surface area# of #signs# required under paragraphs (a)(2) and (a)(3) shall be visible from a height of five feet above #street# level at any point 60 feet from the Seventh Avenue or Broadway #street line# of the #zoning lot# on which they are required to be provided.

At least 50 percent of the minimum aggregate #surface area# of #signs# required under paragraph (a)(3) shall comprise #signs# each of which shall be legible during daylight hours from a minimum distance of 60 feet when viewed from ground level at a point perpendicular in plan to the center of the #sign#.

- (b) For #enlargements# which add #floor area# amounting to a #floor area ratio# of at least 1.0, the #sign# requirements of this Section shall apply as follows:

- (1) If the #enlargement# involves an increase in #floor area#, minimum aggregate #surface areas# of required #signs# shall be determined in the same manner as for #developments# on the basis of the length of the #zoning lot's# frontage as set forth in paragraphs (a)(2), (a)(3) and (a)(6) of this Section.
- (2) All other requirements for #signs# required for #enlargements# shall be as provided for #developments# in paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(5) and (a)(7) of this Section.
- (3) The provisions of paragraphs (a)(1) or (a)(2) may be modified or waived upon certification by the Chairperson of the City Planning Commission that such modification or waiver results from compelling necessity.

- (c) #Zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway comprising #developments# or #enlargements# and existing #buildings# to

remain shall meet the requirements of paragraph (a) of this Section for #developments# or paragraph (b) for #enlargements# on the basis of the configuration and #street# frontages of the entire #zoning lot#.

There shall be no reduction in the aggregate #surface area# of #signs# on any existing #buildings# to remain. A #non-conforming sign# may be structurally altered, reconstructed or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in the creation of a new #non-conformity# or an increase in the degree of #non-conformity# of such #sign#.

(2/2/11)

81-733

Special provisions for central refuse storage area

For all #buildings# or portions of #buildings developed# or #enlarged# after May 13, 1982, located within the Theater Subdistrict, facilities shall be provided for central refuse storage within the #building#, and no refuse shall be stored outside the #building#.

In all cases there shall be an area for central refuse storage provided at the rate of 75 square feet for non-compressed refuse or 50 square feet for compressed refuse for each 10,000 square feet of #lot area#. Such area shall be ventilated.

For carting purposes, such central storage area shall be directly accessible on a 24-hour basis to loading berths, where provided, or to the exterior of the #building#. Furthermore, the central storage area shall be accessible at all times to all #uses# occupying space within the #building#.

Such area shall be exempt from calculations for #floor area# as defined in Section 12-10 (DEFINITIONS).

(5/13/82)

81-74

Special Incentives and Controls in the Theater Subdistrict

(2/2/11)

81-741

General provisions

(a) Certifications

- (1) The transfer of development rights from any "granting site" in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters) shall be permitted upon certification by the City Planning Commission.
- (2) In the Theater Subdistrict, modifications of the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries), shall be permitted upon certification of the Chairperson of the Commission.

(b) Authorizations by the City Planning Commission

The transfer of development rights from any "granting site" in accordance with the provisions of paragraph (b) of Section 81-744 shall be permitted by authorization by the City Planning Commission.

(c) Special permit by the City Planning Commission

In the Theater Subdistrict, the City Planning Commission may allow, by special permit:

- (1) demolition of a theater where permissible under the provisions of Section 81-742 (Listed theaters);
- (2) a #floor area# bonus for rehabilitation of an existing theater in accordance with the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing theaters); and
- (3) transfer of development rights from a #zoning lot# occupied by a theater that is a designated landmark in accordance with the provisions of Section 81-747 (Transfer of development rights from landmark theaters).

(d) Additional #floor area# bonuses

All #developments# or #enlargements# located on the west side of Eighth Avenue between 42nd and 45th Streets within the Theater Subdistrict may receive an increase in #floor area# pursuant to Section 96-22 (Special Regulations for Eighth Avenue Perimeter Area) for those #developments# or #enlargements# complying with the provisions of Section 23-90 (INCLUSIONARY HOUSING).

(e) Required assurances

All special permits, authorizations or certifications involving preservation of existing theaters shall be subject to the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use).

(f) Limits on total additional #floor area#

Except as otherwise provided in Section 81-212 (Special provisions for transfer of development rights from landmark sites), the total additional #floor area# permitted on the #zoning lot# by such special permit, authorization or certification, together with all bonus #floor area# or #floor area# derived from transferred development rights under other provisions of this Chapter, shall in no event exceed the maximum amount permitted by certification, authorization or special permit as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

(g) Limitations on non-theater-related bonuses in C6-4, C6-5 or M1-6 Districts

For #zoning lots# or portions thereof in C6-4, C6-5 or M1-6 Districts, the total amount of #floor area# derived from non-theater-related bonuses or other special #floor area# allowances, pursuant to provisions of this Chapter other than those in Sections 81-744, 81-745, 81-746 or 81-747, shall not exceed a #floor area ratio# of 2.0.

(h) Theater-related bonus #floor area# for #residences# in C6-4 and C6-5 Districts

For #zoning lots# or portions thereof in C6-4 or C6-5 Districts, some or all of the bonus #floor area# or other special #floor area# allowances permitted pursuant to the provisions of Sections 81-744, 81-745, 81-746 or 81-747, relating to the preservation or rehabilitation of existing theaters, may be allocated to a #residential building# or the #residential# portion of a #mixed building#, provided that the total #residential floor area ratio# with such

#floor area# allowances shall not exceed 12.0.

(i) Theater Subdistrict Fund

In furtherance of the purposes of this Section, the Theater Subdistrict Council shall establish a separate interest-bearing account (the "Theater Subdistrict Fund" or "Fund") for the deposit and administration of the revenues received by the Theater Subdistrict Council generated by the transfer of development rights pursuant to Section 81-744. Upon receipt of any revenue generated pursuant to such Section, the Theater Subdistrict Council shall notify the Comptroller, the Speaker and the Department of City Planning, and promptly deposit such revenues into the Theater Subdistrict Fund and shall expend such revenues and any interest accumulated thereon in the following manner:

- (1) a portion of any such revenues shall be reserved, sufficient in the judgment of the Theater Subdistrict Council but in no event less than 20 percent of such revenues, to undertake the ongoing periodic inspection and maintenance report requirements pursuant to paragraph (c) of Section 81-743. The Theater Subdistrict Council may petition the City Planning Commission for a reduction in the percentage of such reserve and the Commission may grant such reduction if, in its judgement, a lesser percentage will be sufficient to carry out the purposes of this paragraph; and
- (2) the remainder of such revenue shall be used for activities chosen by the Theater Subdistrict Council furthering the objectives and purposes of this Section, which activities may include judicial or administrative proceedings instituted by the Theater Subdistrict Council against any property owner or lessee to enforce the obligations of such owner or lessee pursuant to any restrictive declaration entered into in connection with a transfer of development rights pursuant to Section 81-744. Notwithstanding the foregoing, funds shall not be used for the physical repair and preservation of theaters.

The Theater Subdistrict Council shall provide an annual report to the Department of City Planning, the Comptroller, the Speaker and the City Planning Commission indicating the amounts and dates of any deposits to the Theater Subdistrict Fund in the immediately preceding calendar year, the balance of the Theater Subdistrict Fund at the close of the calendar year, the amounts expended on activities within the Theater

Subdistrict and the nature of those activities. The Theater Subdistrict Council shall maintain complete, accurate and detailed records, with supporting documentation, in respect to all deposits to and withdrawals from the Theater Subdistrict Fund, and shall make such records available to the City of New York, the Department of City Planning, the Comptroller, the Speaker and the City Planning Commission upon reasonable notice and during business hours for inspection and copying.

(2/2/11)

81-742

Listed theaters

(a) Designation of listed theaters

"Listed theaters" are theaters to which special provisions of this and other Sections as set forth in 81-741 (General provisions) apply, and are predominantly free-standing theaters with full stage and wings. The theaters as identified on August 6, 1998, in the table in this Section, are designated as "listed theaters."

LISTED THEATERS

Theater Name	Address	Block Number	Lot Number
Ambassador	215 West 49th St.	1021	15

Winter Garden	1634 Broadway	1022	2

* Indicates theaters which do not qualify as a "granting site" pursuant to Section 81-744

In the case of an existing legitimate theater that received a #floor area# bonus pursuant to regulations in effect prior to May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(b) Restrictions on demolition of listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a "listed theater," unless:

- (1) it is an unsafe #building# and demolition is required pursuant to the provisions of Title 28, Article 216 of the New York City Administrative Code;
- (2) it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 25-309 of Title 25, Chapter 3, of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or
- (3) the City Planning Commission, by special permit, allows its demolition in accordance with the provisions of paragraph (c) of this Section.

(c) Special permit for demolition of listed theaters

The City Planning Commission may allow, by special permit, the demolition of a theater designated as a "listed theater" pursuant to this Section, provided the Commission finds that the demolition of the theater structure will not unduly

diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase. In making this determination, the Commission may consider any or all of the following:

- (1) the current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;
- (2) the history of the theater's #use# as a legitimate theater, presenting legitimate attractions to the general public;
- (3) the likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry; and/or
- (4) that the applicant's plans, if any, for replacement of the theater structure with a #development# or #enlargement# contain replacement #uses# supportive of the character of the Theater Subdistrict.

As a condition of the special permit, there shall exist a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the "listed theater", that floor space at least equivalent in amount to the total #floor area# of the theater shall be reserved or devoted exclusively to #uses# described in Section 81-725 (Entertainment-related uses) and meeting the requirements of paragraphs (b) and (c) of Section 81-724 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. Notwithstanding the foregoing, if the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-725 is impractical or unreasonable, the Commission may permit a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a "listed theater" must, however, meet the requirements of paragraphs (b) and (c) of Section 81-724 whether or not the #zoning lot# is located within the area described in that Section.

(2/2/11)

81-743

Required assurances for continuance of legitimate theater use

Prior to the issuance of any special permit under the provisions of Sections 81-745 (Floor area bonus for rehabilitation of existing listed theaters) or 81-747 (Transfer of development rights from landmark theaters), or the issuance of a certification or authorization under the provisions of Sections 81-744 (Transfer of development rights from listed theaters) or 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries), the following conditions shall exist:

- (a) a signed lease from a prospective theater operator, or a written commitment from the owner of the theater if such owner is also the operator, for occupancy of the theater and its operation as a legitimate theater for a period of not less than five years;
- (b) a licensed engineer's and/or architect's report certifying either that the theater is physically and operationally sound so as to permit its use as a legitimate theater or, if it is determined that the theater is not physically or operationally sound, a plan and program for the upgrade of the theater to put it in condition of physical and operational soundness. For the purposes of this Section, physical and operational soundness shall include the structural integrity of the exterior and interior elements of the #building# to the extent that they relate to the theater, compliance with applicable electrical and fire safety codes, and compliance with applicable building code standards.

In the event that the theater has been designated as a landmark or an interior landmark by the Landmarks Preservation Commission, physical and operational soundness shall include preserving the integrity of existing significant architectural features identified in the Landmarks Preservation Commission designation report. In such case, a licensed engineer and/or architect with knowledge of historic preservation and credentials acceptable to the Landmarks Preservation Commission shall prepare a report documenting the condition of such significant architectural features and, if determined to be necessary, a plan and program to preserve such significant features in a state of good physical repair and sound proper condition. Any certification report regarding a landmark or

interior landmark theater shall be submitted concurrently to the Landmarks Preservation Commission and the Chairperson of the City Planning Commission;

- (c) A plan and program shall be accompanied by written commitment from such owner of the financial resources available to ensure timely completion of the identified scope of work;
- (d) a legal commitment providing for inspection and ongoing maintenance of the theater to ensure its continued availability for theater use. Such inspection shall be conducted every five years by a licensed engineer and/or architect or by the Theater Subdistrict Council, and a report issued to the Chairperson of the City Planning Commission and notice of such report shall be published in the City Record. Such report shall also be issued to the Theater Subdistrict Council unless the Theater Subdistrict Council has performed such inspection, and, in the event the theater has been designated a landmark or an interior landmark, such report shall also be issued to the Landmark Preservation Commission and notice of such report shall be published in the City Record. Such reports shall describe the condition of the theater and identify any maintenance or repair work necessary to ensure the physical and operational soundness of the theater and to maintain the condition of any landmark architectural features and establish a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work; and
- (e) a legal commitment for continuance of its #use# as a legitimate theater for the life of the related #development# or #enlargement#.

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, lessee of the theater and their successors and assigns, a certified copy of which shall be submitted to the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the declaration and receipt of such certified copy shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site.

81-744

Transfer of development rights from listed theaters

For the purposes of the Theater Subdistrict:

A "listed theater" shall mean a theater designated as listed pursuant to Section 81-742 (Listed theaters).

A "granting site" shall mean either a #zoning lot# or that portion of a #zoning lot# occupied by a "listed theater" and comprised of those block and lot numbers specified for such theater pursuant to the table in Section 81-742, as such block and lots existed on January 12, 1998. However, a "granting site" shall not include any #zoning lot# occupied by a "listed theater" located within the geographical area covered by the 42nd Street Development Land Use Improvement Project, adopted by the New York State Urban Development Project in 1984, as such Project has and may be subsequently amended.

A "receiving site" shall mean a #zoning lot# or the portion of a #zoning lot# located within the Theater Subdistrict to which development rights of the "granting site" are transferred. However, no portion of a "receiving site" shall be located within the 42nd Street Development Project Area. In addition, for #zoning lots# containing "listed theaters," that portion of the #zoning lot# occupied by the "listed theater" and comprised of the block and lot numbers specified for such theater, pursuant to the table in Section 81-742, shall not be included in the "receiving site."

Any "receiving site" divided by a district boundary or Theater Subdistrict Core boundary may locate #bulk# in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(a) Transfer of development rights by certification

The City Planning Commission shall allow, by certification, a transfer of development rights from a "granting site" to a "receiving site," except that any "granting site," or portion thereof, located outside the Theater Subdistrict, may not transfer development rights to any portion of a "receiving site" within the Special Clinton District, provided that:

- (1) the maximum amount of #floor area# transferred from a "granting site" is the basic maximum #floor area ratio# established pursuant to Sections 81-211 (Maximum floor

area ratio for non-residential or mixed buildings) or 81-213 (Special provisions for transfer of development rights from listed theaters within the Special Clinton District), as applicable, for such "granting site" as if it were undeveloped, less the total #floor area# of all existing #buildings# or portions of #buildings# on the "granting site" and #floor area# attributed to the "granting site" that has been previously used or transferred;

- (2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be #developed# or #enlarged# on the #zoning lot# containing the "granting site" by the amount of #floor area# transferred;
- (3) the maximum amount of #floor area# transferred to a "receiving site" shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 for such "receiving site" by more than 20 percent;
- (4) the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met; and
- (5) appropriate legal documents are executed ensuring that a contribution in an amount equal to ten dollars* per square foot of transferred #floor area# be deposited in the Theater Subdistrict Fund established pursuant to paragraph (i) of Section 81-741 (General provisions) at the earlier of either the time of closing on the transfer of development rights pursuant to this Section or the filing for any building permit for any #development# or #enlargement# that anticipates using such development rights.

The City Planning Commission shall review such amount no more than once every three years and no less than once every five years and shall adjust the amount to reflect any change in assessed value of all properties on #zoning lots# wholly within the Theater Subdistrict.

(b) Transfer of development rights by authorization

The City Planning Commission shall allow, by authorization, an additional transfer of development rights beyond the amount of #floor area# transfer permitted by certification in paragraph (a) of this Section from a "granting site" to any portion of a "receiving site" located within the Eighth Avenue Corridor, except that any "granting site," or portion thereof, located outside the Theater Subdistrict may not transfer development rights to any portion of a "receiving

site" within the Special Clinton District, subject to the following conditions:

- (1) the maximum amount of such additional #floor area# transfer to that portion of a "receiving site" located within such Corridor shall not exceed the maximum total #floor area ratio# with as-of-right #floor area# allowances in the Theater Subdistrict set forth in Section 81-211 by more than 20 percent; and
- (2) such transfer complies with the conditions and limitations set forth for the transfer of development rights in paragraph (a) of this Section.

In order to grant such authorization, the City Planning Commission shall find that such #development# or #enlargement#:

- (i) relates harmoniously to all structures and #open space# in its vicinity in terms of scale, location and access to light and air in the area; and
- (ii) serves to enhance or reinforce the general purposes of the Theater Subdistrict.

Any application pursuant to paragraphs (a) and/or (b) of this Section shall be referred to the affected Community Board, the local Council Member and the Borough President of Manhattan. The Commission shall not grant any such certification or authorization prior to sixty days after such referral and sixty days after the date any reports required to be submitted to the Landmarks Preservation Commission pursuant to Section 81-743, paragraph (b), or the Theater Subdistrict Council pursuant to Section 81-71 (General Provisions) have been so submitted.

(c) Requirements for Application

An application filed with the Chairperson of the City Planning Commission for the transfer of development rights by certification pursuant to paragraph (a) of this Section, or with the City Planning Commission for the transfer of development rights by authorization pursuant to paragraph (b) of this Section, shall be made jointly by the owners of the "granting site" and the "receiving site" and shall include:

- (1) a site plan and #floor area# zoning calculations for the "granting site" and the "receiving site" and, for authorizations and/or special permit applications, any

such other information as may be required by the City Planning Commission;

- (2) a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with a notice of the restrictions limiting further #development# or #enlargement# of the "granting site" and the "receiving site." The notice of restrictions shall be filed by the owners of the respective lots in the Borough Office of the Register of the City of New York, indexed against the "granting site" and the "receiving site," a certified copy of which shall be submitted to the Chairperson of the City Planning Commission. Receipt of the certified copy shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the "receiving site."

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the lots from which and the lots to which such transfer is made.

- (3) demonstrations of compliance with the requirements of Section 81-743 and paragraph (a)(5) of this Section, including all necessary legal documents. Issuance of any building permit, including any foundation or alteration permit, shall be conditioned upon the filing of such legal documents in the Borough Office of the Register of the City of New York and receipt by the City Planning Commission of certified copies of same as required pursuant to Section 81-743.

A separate application shall be filed for each transfer of development rights to an independent "receiving site."

- * The contribution of ten dollars per square foot of transferred #floor area# was adjusted by rule on November 15, 2006, to \$14.91 per square foot and on December 10, 2011, to \$17.60 per square foot

(2/2/11)

Floor area bonus for rehabilitation of existing listed theaters

The City Planning Commission by special permit may authorize bonus #floor area# for substantial rehabilitation or restoration of any theater listed as a "listed theater" in Section 81-742 (Listed theaters), in accordance with the provisions of this Section.

(a) Conditions for rehabilitation bonus

As a condition for the issuance of a special permit under the provisions of this Section, the following requirements shall be satisfied:

(1) Location of #development#

The #development# or #enlargement# for which a theater rehabilitation bonus is granted is located on the same #zoning lot# as the "listed theater."

(2) Qualification of substantial rehabilitation

Substantial rehabilitation work qualifying for a #floor area# bonus shall consist of major interior structural changes for the purpose of improving a theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater designated as an interior landmark.

Substantial rehabilitation may include, without limitations, such work as expanding stage wings, re-raking the orchestra, increasing rehearsal, dressing room or lobby space, or historic restoration. It may also include reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#. Substantial rehabilitation does not mean normal theater maintenance, painting or improvements to mechanical systems alone.

(3) Timing and commitment

(i) there shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(ii) the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be satisfied; and

(iii) a rehabilitation bonus shall not be granted for a

substantial rehabilitation completed before May 13, 1982.

(b) Amount of rehabilitation bonus

The amount of bonus #floor area# granted for a qualifying theater rehabilitation shall be at the discretion of the City Planning Commission after consideration of the following findings:

- (1) how and to what extent the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater;
- (2) how the proposed rehabilitation will contribute toward satisfying the needs of the Theater Subdistrict;
- (3) whether the bonus #floor area# will unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and
- (4) whether the distribution and location of such #floor area# bonus will adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future development of the surrounding area.

Such bonus #floor area# shall not exceed 20 percent of the basic maximum #floor area# permitted on the #zoning lot# containing the #development# or #enlargement# by the regulations of the underlying district, except that in the case of an underlying C6-4, C6-5 or M1-6 District, the bonus #floor area# shall not exceed 44 percent of the basic maximum #floor area# permitted in such underlying district.

For purposes of applying the provisions of Section 11-42 (Lapse of Authorization or Special Permit by the City Planning Commission Pursuant to the 1961 Zoning Resolution) to a special permit granted pursuant to this Section, "substantial construction" shall mean substantial rehabilitation, as described in paragraph (b) of this Section, of the subject theater for which a #floor area# bonus has been granted to a related #development# or #enlargement#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

(2/2/11)

81-746

Additional provisions for zoning lots divided by district or subdistrict core boundaries

- (a) For any #zoning lot# which includes a "listed theater" as set forth in Section 81-742 (Listed theaters) or is, or contains, a "receiving site" pursuant to Section 81-744 (Transfer of development rights from listed theaters), and which is divided by a boundary between districts with different basic maximum #floor area ratios# as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings), the Chairperson of the City Planning Commission, by certification, shall allow modifications of the provisions of Sections 77-02 (Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions), 77-22 (Floor Area Ratio) and 77-25 (Density Requirements), as follows.

For any #zoning lot#, #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations on either side of the district boundary may be located on the other side of the district boundary, provided:

- (1) the amount of such #floor area# to be located on either side of the district boundary shall not exceed 20 percent of the basic maximum #floor area ratio# of the district in which it is to be located;
- (2) the number of such #dwelling units# or #rooming units#, if any, to be located on either side of the district boundary shall not exceed the number permitted by the applicable district regulations; and
- (3) the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met for any "listed theater" on such #zoning lot#.

The Chairperson's certification approving modification of the provisions for such #zoning lots# divided by district boundaries shall state the total amount of #floor area#, including #floor area# of any existing theater, to be provided on the #zoning lot# as a whole and the portion thereof to be located in each district, and the amount authorized herein to be located across the district boundary from the district in which the theater is located.

Notice of the restrictions upon further development of each portion of the #zoning lot# shall be recorded by the owner against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and a certified copy shall be submitted to the Commission.

- (b) Notwithstanding any other provisions of this Resolution, for any #zoning lot# which is divided by a boundary of the Theater Subdistrict Core as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 is the same for both the portion within and the portion outside of the Theater Subdistrict Core, the applicable underlying #bulk# regulations shall be modified, as follows:
 - (1) #floor area#, including bonus #floor area#, #dwelling units# or #rooming units#, permitted by the applicable district regulations on that portion of the #zoning lot# within the Theater Subdistrict Core may be located on the portion of the #zoning lot# outside the Core, provided that the number of such #rooms#, if any, to be located outside of the Core shall not exceed the number permitted by the applicable district regulations; and
 - (2) #floor area#, including bonus #floor area#, #dwelling units# or #rooming units#, permitted by the applicable district regulations on that portion of the #zoning lot# outside of the Theater Subdistrict Core shall not be located on the portion of the #zoning lot# within the Core.
- (c) Notwithstanding any other provisions of this Resolution, for any #zoning lot# located wholly within the Theater Subdistrict and outside of the Theater Subdistrict Core that is divided by a boundary of the Eighth Avenue Corridor as defined in Section 81-71 and for which the basic maximum #floor area ratio# as set forth in Section 81-211 is the same for both the portion within and the portion outside of the Eighth Avenue Corridor, #floor area#, including bonus #floor area#, #dwelling units# or #rooming units#, permitted by the applicable district regulations may be located on either side of the Eighth Avenue Corridor boundary.

(2/2/11)

81-747

Transfer of development rights from landmark theaters

The City Planning Commission by special permit may authorize development rights to be transferred from #zoning lots# occupied by landmark #buildings# to other #zoning lots# proposed for #developments# or #enlargements# in accordance with the provisions of Section 74-79 (Transfer of Development Rights from Landmark Sites), as modified by this Section and by Section 81-212 (Special provisions for transfer of development rights from landmark sites).

The limitations on development rights transferred to #development# sites from landmark sites, including sites of landmark theaters, are set forth in Section 81-212.

In the case of landmarks which are theaters and which are located in the Theater Subdistrict, in addition to the modifications set forth in Section 81-212, the provisions of Section 74-79 are modified as follows:

- (a) "Landmark buildings" shall include #buildings# which contain interior landmarks as well as #buildings# which are themselves landmarks.
- (b) In all underlying districts throughout the Theater Subdistrict, "adjacent lots" to which landmark theaters' development rights may be transferred shall be construed to include a contiguous lot or one which is across a #street# and opposite to another lot or lots which, except for the intervention of #streets# or #street# intersections, form a series extending to the lot occupied by the landmark #building#, all such lots being in the same ownership, fee ownership or ownership as defined under #zoning lot# in Section 12-10 (DEFINITIONS).
- (c) The provisions of paragraph (c) of Section 74-792 are further modified to provide that in any underlying district within the Theater Subdistrict, the "adjacent lot" may be #developed# or #enlarged# with either a #commercial# or a #mixed building#.

Where development rights are proposed to be transferred and exercised in accordance with the provisions of Section 74-79, as modified by this Section, the Commission, in addition to the findings required in paragraph (e) of Section 74-792, shall find that:

- (1) the series of intervening lots in common ownership leading to the "adjacent lot" include lots, identified by the Commission, which are occupied by "listed theaters" or by #uses# which directly support neighborhood theater business,

such as, but not limited to, rehearsal space, recording facilities or theater costume rental facilities and that such #uses# will be continued or replaced by other legitimate theaters or theater supportive #uses# as evidenced by covenants binding the owners of such lots, their successors and assigns to provide for such continuation or replacement; or

- (2) useful circulation improvements or other public facilities will be provided and maintained on one or more of the lots comprising the series of intervening lots to accommodate pedestrian or vehicular traffic generated by legitimate theaters.

The Commission shall require the owner of any intervening lot on which special #use# restrictions are applicable or on which circulation improvements or other public facilities are to be provided and maintained to sign a written declaration of restrictions setting forth the obligations of the owner, his successors and assigns and providing a performance bond for the completion of any required improvements. The declaration of restrictions shall be recorded in the Office of the Register of the City of New York (County of New York) and the Commission shall be provided with a certified copy.

The provision of Section 74-79 empowering the Commission to grant variations in the front height and setback regulations is modified by the provisions of Sections 81-266 or 81-277 (Special permit for height and setback modifications).

Compliance with the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be a condition for issuance of a special permit under the provisions of this Section.

(2/2/11)

81-75

Special Street Wall and Setback Requirements

#Buildings# located on #zoning lots#, or portions of #zoning lots# within the Theater Subdistrict Core or the Eighth Avenue Corridor, shall comply with the regulations of this Section. The height of all #buildings or other structures# shall be measured from #curb level#.

(2/2/11)

81-751

Special street wall and setback regulations within the Theater Subdistrict Core

#Buildings# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, or located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor shall comply with the requirements of this Section and, in all other respects related to height and setback, with the provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), and either Section 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation). The #street wall# location rules of Section 81-43 shall also apply, except as modified in this Section.

With the exception of #signs# and parapets not exceeding four feet in height, no obstructions are permitted to penetrate the mandatory #street wall# height limits or setback requirements for #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway set forth in this Section.

For the purposes of this Section, #signs# are permitted as exceptions to the special #street wall# and setback requirements contained herein, except that above the top of a #street wall# before setback required under this Section, no #sign# may be located closer than six feet to the Seventh Avenue or Broadway #street wall# before setback. #Signs# located below the top of a required #street wall# before setback, as defined in this Section, may project across a #street line# up to ten feet. Marquees are not subject to the requirements of this Section.

(a) With the exception of #buildings# located on #zoning lots# between Seventh Avenue and Broadway, #buildings# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue or Broadway shall meet the following requirements:

(1) The #street walls# of any #building# shall have a minimum #street wall# height before setback of 50 feet above #curb level# and a maximum #street wall# height before setback of 60 feet above #curb level# on all #street# frontages, except that:

(i) if the #zoning lot# contains a complete #wide street block# frontage, #wide street street walls#

within 25 feet of the #street line# of a #narrow street# and #narrow street street walls# shall have a minimum #street wall# height before setback of 30 feet above #curb level#; and/or

- (ii) if the #zoning lot# contains a theater listed in the table in Section 81-742 (Restrictions on demolition of theaters) and the theater is retained as part of a #development# or #enlargement#, the maximum #street wall# height above #curb level# before setback of a #narrow street street wall# which is a reconstruction or replacement of an existing #narrow street street wall# of the theater shall be equal to the height above #curb level# of that existing theater #street wall# and the same maximum #street wall# height above #curb level# shall apply only for the width of that existing theater #street wall#.
- (2) Above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 15 feet along all #narrow street# frontages of the #zoning lot#.
- (3) For #zoning lots# greater than 15,000 square feet in area:
 - (i) Above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 50 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#.
 - (ii) Alternatively, above the required #street wall# height before setback, the #street wall# shall be set back at least 60 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#, except that a portion of the #building# at least 50 feet from the #street line# of any #narrow street# and with aggregate area per floor not exceeding 10 square feet for each linear foot of #zoning lot street# frontage on Seventh Avenue or Broadway may extend forward of the 60 foot #setback line#, provided that no portion is closer than 35 feet to the Seventh Avenue or Broadway #street line#.
 - (iii) Alternatively, if the #zoning lot# contains a theater listed in the table in Section 81-742 and if any portion of the theater is within 100

feet of the #street line# of Seventh Avenue or Broadway, above the required #street wall# height before setback the #street wall# shall be set back at least 60 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#, except that a portion of the #building# with aggregate area per floor not exceeding the lesser of 4,500 square feet or 30 square feet for each linear foot of #zoning lot street# frontage on Seventh Avenue or Broadway, may extend forward of the 60 foot #setback line#, provided that no portion is closer than 20 feet to the Seventh Avenue or Broadway #street line#, 15 feet to the #street line# of the #narrow street# on which the theater has frontage and 50 feet to any other #narrow street street line#.

- (4) For #zoning lots# 15,000 square feet in area or less, above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 35 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#.
- (5) Above the required #street wall# height before setback, a portion of any such #building# up to a height of 120 feet above #curb level# may occupy area forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section but not closer than 20 feet to the Seventh Avenue or Broadway #street line#, provided that:
 - (i) 90 percent of any #narrow street street wall#, higher than 60 feet above #curb level# and forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section is covered with #illuminated signs#.
 - (ii) In addition, 90 percent or 6,000 square feet, whichever is less, of any Seventh Avenue or Broadway #street wall# higher than 60 feet above #curb level# and forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section is covered with #illuminated signs#.

For the purposes of this Section, a portion of a #street wall# shall be deemed to be covered with an #illuminated sign# if such #sign# obscures that portion of the #street wall# from view at #street# level at a point perpendicular in plan to the #sign# and 60 feet from the #street line# of the #narrow street# for

paragraph (a)(5)(i) of this Section, and of Seventh Avenue or Broadway for paragraph (a)(5)(ii).

Neither temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising, in aggregate, more than 50 percent of the total #floor area# of the #development# or #enlargement#, nor a first permanent certificate of occupancy for the #development# or #enlargement#, shall be issued by the Department of Buildings until all of the requirements as set forth in this Section at the time of issuance of such certificates of occupancy have been met and all #illuminated signs# required under this Section have been installed and put in operation.

- (b) The #street wall# of any #building# on a #zoning lot# between 43rd and 50th Streets and between Seventh Avenue and Broadway shall have a minimum #street wall# height of 50 feet on all #street# frontages.
- (c) For #zoning lots# located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor, the #street wall# of any #building# or portion of a #building# within the Theater Subdistrict Core shall have a minimum #street wall# height of 50 feet or the height of the #building#, whichever is less, and a maximum #street wall# height of 60 feet within 15 feet of the #narrow street line#.

(2/2/11)

81-752

Special street wall and setback regulations within the Eighth Avenue Corridor

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and east of Eighth Avenue, shall comply with the requirements of this Section, and except as superseded by this Section, with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either Section 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and west of Eighth Avenue shall comply with the requirements of this Section. The provisions of Sections 81-25, 81-26 and 81-27 shall

not apply.

The provisions of paragraphs (a) and (b) of this Section shall apply to #developments#, #enlargements# and alterations, where such alterations change the height, width or location of a #street wall#.

(a) #Street wall# location and minimum and maximum heights before setbacks

- (1) On Eighth Avenue and 42nd Street, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, and shall rise to a minimum height of 50 feet or the height of the #building#, whichever is less. At least 70 percent of the width of such #street walls# shall be located on the #street line#, and the remaining 30 percent may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings# and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 10 feet of the #wide street line# shall be 150 feet beyond 15 feet of a #narrow street line# and 85 feet within 15 feet of a #narrow street line#.
- (2) On a #narrow street# east of Eighth Avenue, and on a #narrow street# west of and within 100 feet of Eighth Avenue, #street walls# shall extend along the entire width of such #narrow street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, and shall rise to a minimum height of 50 feet or the height of the #building#, whichever is less. At least 70 percent of the width of such #street walls# along such #narrow street# frontage shall be located on the #street line#, and the remaining 30 percent may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings# and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 15 feet of the #narrow street line# shall be 85 feet.

On a #narrow street# west of and beyond 100 feet of Eighth Avenue, the maximum height of #street walls# within 15 feet of the #narrow street line# shall be 66 feet, except in accordance with paragraphs (b) or (c)(3) of this Section. However, no #street wall# need be provided where at least 70 percent of the entire frontage of the #zoning lot# along such #narrow street# is occupied by #street walls# located on the #street line#.

- (3) Within 30 feet of the intersection of two #street lines#, the #street wall# shall be located on the #street line# or anywhere within an area bounded by the two #street lines# and lines parallel to and 15 feet from such #street lines#.
 - (4) Where a continuous sidewalk widening is provided along the entire #block# frontage of a #wide street#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.
- (b) Special #street wall# regulations for #buildings# adjacent to listed theaters

For #buildings# that are adjacent to a theater listed pursuant to Section 81-742 (Listed theaters), the maximum height of the #street wall# of the #building# facing the same #street# as the "listed theater" shall be 60 feet within 15 feet of the #street line#.

- (c) Additional regulations applying west of Eighth Avenue
- (1) West of Eighth Avenue, at any level above a height of 85 feet, any #building# or #buildings# or portions thereof shall, in the aggregate, occupy not more than 40 percent of the #lot area# of the #zoning lot#, except that for #zoning lots# of less than 20,000 square feet of #lot area#, this percentage may be increased as set forth in Section 23-65 (Towers Regulations). At any level above a height of 85 feet, any #building# or #buildings# or portions thereof shall, in the aggregate, occupy not less than 33 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall not apply to the highest four #stories# of the #building#.
 - (2) Beyond 125 feet of the western #street line# of Eighth Avenue, and beyond 100 feet of the northern #street

line# of 42nd Street, no #building or other structure# shall exceed a height of 66 feet, except in accordance with paragraph (c)(3) of this Section.

- (3) Where the new or #enlarged building abuts# an existing #building# located entirely beyond 125 feet of the western #street line# of Eighth Avenue and the northern #street line# of 42nd Street, and such existing #building# exceeds a height of 66 feet, the new or #enlarged building# may exceed any height limits specified in this Section up to the height of the existing #building#, provided that, within 15 feet of the #narrow street line#, such portion of the new or #enlarged building# does not exceed either the height of the existing #building# or 85 feet, whichever is less. For the purposes of this paragraph, the height of the existing #building# shall be the height of its #street wall#, before setback, if applicable, of that portion of the existing #building abutting# the new or #enlarged building#, fronting on the same #street line#, and located on the same or adjoining #zoning lot#.

(5/13/82)

81-80

SPECIAL REGULATIONS FOR FIFTH AVENUE SUBDISTRICT

(10/17/07)

81-81

General Provisions

The regulations of Sections 81-82 to 81-85, inclusive, relating to Special Regulations for the Fifth Avenue Subdistrict are applicable only in the Fifth Avenue Subdistrict, whose boundaries are shown on Map 2 in Appendix A of this Chapter. They supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

(2/2/11)

81-82

Special Regulations on Permitted and Required Uses

In order to preserve, protect and enhance the character of the Fifth Avenue Subdistrict as the showcase of New York and national retail shopping, and to allow for #uses# that are consistent with the character of the Fifth Avenue Subdistrict as a major shopping and tourist destination, the following special limitations are imposed on the location and kinds of #uses# and #signs# permitted within the Fifth Avenue Subdistrict. These requirements and limitations shall apply to #developments#, #enlargements#, #extensions# or changes of #use#.

(a) Restriction on ground floor #uses#

#Uses# within #stories# located on the ground floor level or on a floor within five feet of #curb level#, except for lobby space, shall be limited to #uses# listed in Use Group F.

(b) Minimum retail space requirement

Any #zoning lot#, or portion thereof, located within the Fifth Avenue Subdistrict shall contain #uses# listed in Use Group F with a #floor area ratio# of not less than 1.0. When existing #uses# listed in Use Group F are retained, their #floor area# may be counted toward such requirement. In order to count toward the requirement, retail or service establishments shall be located on levels up to but not exceeding a height of six #stories# or 85 feet, whichever is less, or not more than five feet below #curb level#.

(c) Use Group F

Use Group F comprises a group of establishments selected to promote and strengthen retail business in the Fifth Avenue Subdistrict.

Antique stores

Art galleries, commercial

Artists' supply stores

*Banks

Beauty parlors

Book or card stores

Candy stores

Clothing or clothing accessory stores, with no limitation on
#floor area# per establishment

Department stores

Eating or drinking establishments including those which
provide outdoor table service or have music for which there
is no cover charge and no specified showtime

Eating or drinking establishments with musical entertainment
but not dancing, with a capacity of 200 persons or less

Florist shops

Food stores, including supermarkets, grocery stores, meat
markets or delicatessen stores

Furrier shops, custom

Gift shops

Jewelry shops

Leather goods or luggage stores

Millinery shops

Music shops

Newsstands, open or enclosed

Optician or optometrist establishments

Package liquor stores

Photographic equipment or supply stores

Record shops

Shoe stores

Sporting or athletic stores

Stamp or coin stores

Stationery stores

**Studios, television or radio

Tailor or dressmaking shops, custom

Television, radio, phonograph or household appliance stores

Toy stores

*Travel bureaus

Variety stores

Watch or clock stores or repair shops

Any #use# or #uses# marked with an asterisk (*) shall occupy, in the aggregate at the ground floor level, no more than 15 percent of the linear #street# frontage of the #zoning lot# on or within 50 feet of Fifth Avenue and no more than 10 percent of the total #lot area# of the #zoning lot# within 50 feet of Fifth Avenue.

Any #use# or #uses# marked with two asterisks (**) shall be permitted on the ground floor level only if:

- (1) the #building# has frontage on Fifth Avenue; and
 - (2) all portions of the #street wall# of the #building# are set back from the #street line# of Fifth Avenue by a minimum of 40 feet.
- (d) Modification of #use# regulations on a #zoning lot# with no frontage on Fifth Avenue

For a #zoning lot# which has no frontage on Fifth Avenue, the mandatory retail #use# regulations of this Section may be modified for that portion of the #zoning lot# located more than 100 feet from the #street line# of Fifth Avenue, provided that the City Planning Commission certifies that the ground floor space is occupied by a #community facility use# which maintains front wall transparency up to a height of one #story# above the abutting sidewalk level generating pedestrian interest and activity, and is compatible with the character and objectives of the Fifth Avenue Subdistrict. In no event shall the #street line# frontage occupied by such #use# exceed 30 feet.

- (e) The following special #sign# regulations apply to existing as well as new establishments or #uses#:
- (1) The aggregate area of all #signs# in ground floor store windows are restricted to not more than one-third of the window area. Below a level of 10 feet above #curb

level, signs# shall not be permitted on the exterior of any #building#.

- (2) The display of banners or pennants from the exteriors of #buildings# is prohibited.

For the purposes of this Section, any #signs#, including banners and pennants, which do not comply with the above regulations may be continued for one year after April 28, 1983, provided that after the expiration of that period, such #non-conforming sign# shall terminate. A #sign# which the Chairperson of the City Planning Commission certified as an integral part of the #building# shall not be required to terminate.

(2/2/11)

81-83

Special Street Wall Requirements

The #street wall# of any #building# with frontage on Fifth Avenue shall extend without setback from the Fifth Avenue #street line# for at least 90 percent of the entire length of the #front lot line#. The #street wall# shall reach a minimum required height of 85 feet and shall not exceed a height of 125 feet at or within 10 feet of the #street line#.

Where a #building# occupies less than an entire #block# front of Fifth Avenue frontage, the height of the #street wall# at the #street line# shall be not more than 10 feet above or below the height of an adjacent existing #building# at the #street line#. If the #building# is on an #interior lot# between two adjacent existing #buildings# of different heights, the height of such #building's street wall# at the #street line# shall be not more than 10 feet above or below the #street wall# height of one of the adjacent existing #buildings# at the #street line#. However, this shall not be construed to permit a #street wall# height of less than 85 feet or more than 125 feet at the #street line#. At the required height of the #building's street wall# at the #street line#, the #street wall# must extend continuously without setback for at least 75 percent of its required width and no portion of its required width shall be set back more than 10 feet from the #street line#.

For the purpose of calculating the maximum #street wall# height on the #narrow street# frontage of a #corner lot# by the weighted average method, as set forth in paragraph (b) of Section 81-262 (Maximum height of front wall at the street line), the maximum #street wall# height generally applicable along the #narrow

street# shall be averaged with a height of 150 feet for the first 100 feet from the #street line# intersection, provided that no actual #street wall# either on the Fifth Avenue or on the #narrow street# frontage shall exceed a height of 125 feet at the #street line#.

Below the minimum required #street wall# height, recesses whose depth shall be measured in all cases from the #street line#, shall be permitted only as follows: no recesses greater than 10 feet deep shall be permitted; recesses up to 10 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the #street wall# below the minimum required #street wall# height; in addition, recesses up to two feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height; and recesses up to one foot deep shall not be limited in their aggregate area. For the area above the minimum required #street wall# height, recesses are not restricted.

Above a height of 125 feet, a #street wall# shall be set back not less than 10 feet from the #street line#.

(2/2/11)

81-84

Mandatory Regulations and Prohibitions

The following requirements listed in this Section shall apply to all #developments#, #enlargements#, #extensions# or changes of #use# within the Subdistrict:

(a) Pedestrian access to #uses#

No access from the Fifth Avenue #street line# or within 50 feet of the Fifth Avenue #street line# shall be permitted to lobbies for office, #residential# or hotel #uses# or to any new #use# not listed in Use Group F, except when the #zoning lot# is inaccessible from any other #street#, in which case the total amount of frontage occupied by lobby space or entrance space for such #uses# shall not exceed 40 feet or 25 percent of the #building's# total #street# frontage, whichever is less.

No #public plaza#, or any part thereof, shall be permitted on or within 50 feet of the Fifth Avenue #street line#.

(b) Off-street parking regulations

No off-street parking facilities are permitted within the Fifth Avenue Subdistrict.

(c) Off-street loading regulations

In no event shall access to #accessory# off-street loading berths be permitted on or within 50 feet of the Fifth Avenue #street line#. Beyond 50 feet from the Fifth Avenue #street line#, where three or more #accessory# loading berths are required, such berths shall be located below #street# grade. Access to such berths, however, shall be permitted at #street# grade.

#Interior lots# with a frontage only on Fifth Avenue or only on a #wide street# shall not contain loading berths.

(2/2/11)

81-85

Transfer of Development Rights from Landmark Sites

For #developments# or #enlargements#, in addition to the provisions of Sections 74-79 (Transfer of Development Rights from Landmark Sites) and 81-212 (Special provisions for transfer of development rights from landmark sites), the City Planning Commission may modify or waive the requirements of Section 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), inclusive, and the requirements of Section 81-84 (Mandatory Regulations and Prohibitions).

In granting such special permit, the Commission shall find that the permitted transfer of #floor area# and modification or waiver of mandatory plan elements will result in a distribution of #bulk# and arrangement of #uses# on the #zoning lot# that relate more harmoniously with surrounding landmark #buildings or other structures#.

(2/2/11)

81-90

SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT

In order to conform with the existing scale and character of the Preservation Subdistrict, any #zoning lot# located in the underlying C5-P District shall be limited to a maximum #floor area ratio# of 8.0.

For all purposes other than as set forth in this Section, the R10 District regulations shall apply to any portion of a #building# containing #residential uses#.

Mandatory #street walls# are required as follows:

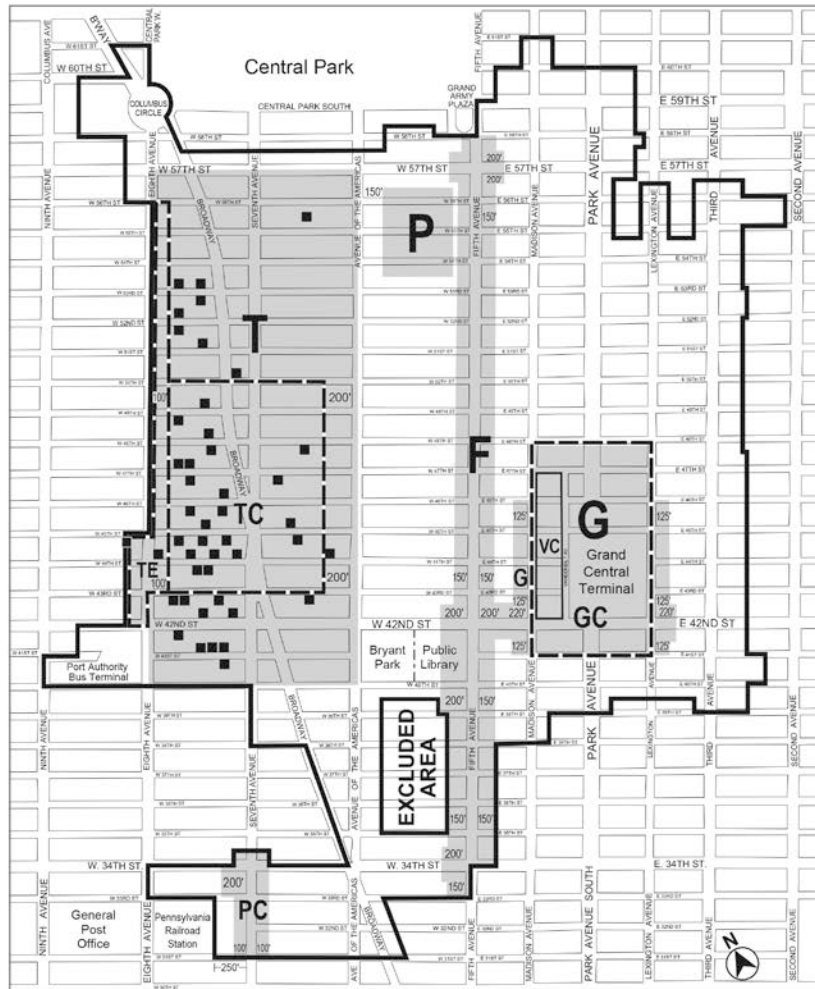

The #street wall# of any #building# shall be located on the #street line# and shall extend along the full length of the #front lot line# to a minimum height of 72 feet above the #curb level#, or the full height of 72 feet above the #curb level#, or the full height of the #building#, whichever is less. Above a height of 85 feet, the #street wall# shall be set back at least 15 feet from the #street line# and shall be subject to the #sky exposure plane# regulations of Section 33-432 (In other Commercial Districts) applicable in C5 Districts. The provisions of Sections 33-44 (Alternate Front Setbacks) and 33-45 (Tower Regulations) are not applicable in the Preservation Subdistrict.

On application, the City Planning Commission may grant special authorization for minor modifications of the mandatory #street wall# provisions of this Section as applied to an #enlargement#, upon the applicant's showing of compelling necessity. Such authorization, however, may in no event include modification of permitted #floor area# regulations.

Article VIII - Special Purpose Districts

Chapter 2

Special Lincoln Square District

(4/24/69)

82-00

GENERAL PURPOSES

The "Special Lincoln Square District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) to preserve, protect and promote the character of the #Special Lincoln Square District# area as the location of a unique cultural and architectural complex - an attraction which helps the City of New York to achieve preeminent status as a center for the performing arts, and thus conserve its status as an office headquarters center and a cosmopolitan residential community;
- (b) to improve circulation patterns in the area in order to avoid congestion arising from the movements of large numbers of people; improvement of subway stations and public access thereto; including convenient transportation to, from and within the district; and provision of arcades, open spaces, and subsurface concourses;
- (c) to help attract a useful cluster of shops, restaurants and related amusement activities which will complement and enhance the area as presently existing;
- (d) to provide an incentive for possible development of the area in a manner consistent with the foregoing objectives which are an integral element of the Comprehensive Plan of the City of New York;
- (e) to encourage a desirable urban design relationship of each building to its neighbors and to Broadway as the principal street; and
- (f) to promote the most desirable use of land in this area and thus to conserve the value of land and buildings, and

thereby protect the City's tax revenues.

(2/2/11)

82-01 Definitions

Development

For purposes of this Chapter, a "development" includes both #development# and #enlargement#, as defined in Section 12-10 (DEFINITIONS).

(2/9/94)

82-02 General Provisions

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Lincoln Square District# and in accordance with the provisions of this Chapter, certain specified regulations of the districts on which the #Special Lincoln Square District# is superimposed are made inapplicable, and special regulations are substituted in this Chapter. Each #development# within the Special District shall conform to and comply with all of the applicable district regulations of this Resolution, except as otherwise specifically provided in this Chapter.

(2/9/94)

82-03 Requirements for Applications

An application to the City Planning Commission for the grant of a special permit or an authorization respecting any #development# under the provisions of this Chapter shall include a site plan showing the location and the proposed #use# of all #buildings or other structures# on the site; the location of all vehicular entrances and exits and proposed off-street parking spaces, and such other information as may be required by the City Planning Commission for its determination as to whether or not a special permit or an authorization is warranted. Such information shall include, but not be limited to, justification of the proposed

#development# in relation to the general purposes of the #Special Lincoln Square District#.

(2/9/94)

82-04 District Plan

The District Plan for the #Special Lincoln Square District#, included as Appendix A, identifies specific subdistricts in which special zoning regulations carry out the general purposes of the #Special Lincoln Square District#. These areas are: Subdistrict A, Subdistrict B and Subdistrict C.

The District Plan also identifies #blocks# with mandatory #front lot line street walls#. The District Plan is hereby incorporated as an integral part of the #Special Lincoln Square District#.

(2/9/94)

82-10 MANDATORY DISTRICT IMPROVEMENTS

The provisions of this Section specify mandatory or optional physical improvements to be provided in connection with #developments# on certain #zoning lots# located within the Special District.

(2/9/94)

82-11 Special Provisions for Optional Arcades

Any #development# located on a #zoning lot# with a #lot line# which coincides with either of the following #street lines# - the east side of Broadway between West 61st and West 65th Streets or the east side of Columbus Avenue between West 65th and West 66th Streets - may contain an #arcade# as defined in Section 12-10, except that:

- (a) the #arcade# shall extend the full length of the #zoning lot# along the #street lines# described above; however, the required #arcade# along the east side of Columbus Avenue may

be terminated at a point 40 feet south of West 66th Street;

- (b) the exterior face of #building# columns shall lie along the #street lines# described above;
- (c) the minimum depth of the #arcade# shall be 15 feet (measured perpendicular to the exterior face of the #building# columns located on the #street line#) and the minimum height of the #arcade# along the center line of its longitudinal axis shall not be less than 20 feet;
- (d) the #arcade# shall contain no permanent obstruction within the area delineated by the minimum width and height requirements of this Section except for the following:
 - (1) unenclosed cafes, provided that there is at least a six foot wide unobstructed pedestrian way adjacent to the #street wall#. In no event may such cafes be enclosed at any time; and
 - (2) structural columns not exceeding two feet by three feet provided that the longer dimension of such columns is parallel to the #street line#, that such columns are spaced at a minimum of 17 feet on center, and that the space between such columns and the face of the #street wall# is at least 13 feet wide. No other columns shall project beyond the face of the #street wall#;
- (e) no #signs# may be affixed to any part of the #arcade# or #building# columns except on a parallel to the #street wall# projecting no more than 18 inches therefrom parallel to the #street line# along which the #arcade# lies; and
- (f) the #arcade# shall be illuminated only by incandescent lighting to a standard of average eight foot-candle intensity with a minimum five foot-candle intensity at any point within the #arcade#.

(10/17/07)

82-12

Mandatory Off-Street Relocation of a Subway Stair

Where a #development# is constructed on a #zoning lot# that fronts on a sidewalk containing a stairway entrance into the West 59th Street (Columbus Circle) or the West 66th Street subway station and such #zoning lot# contains 5,000 square feet or more of #lot area#, the existing entrance shall be relocated from the

#street# onto the #zoning lot# in accordance with the provisions of Sections 37-42 (Standards for Relocation, Design and Hours of Public Accessibility) and 37-43 (Administrative Procedure for a Subway Stair Relocation).

(2/9/94)

82-13

Special Provisions for a Transit Easement

Any #development# located on the east side of Broadway between West 66th Street and West 67th Street shall provide an easement on the #zoning lot# for public access to the subway mezzanine or station when required by the New York City Transit Authority (TA) in accordance with the procedure set forth in Section 95-04 (Certification of Transit Easement Volume) and hereby made applicable.

(2/9/94)

82-20

SPECIAL USE AND SIGN REGULATIONS

In order to provide for the special cultural needs, convenience, enjoyment, education and recreation of the residents of the area and of the many visitors who are attracted to the Lincoln Center for the Performing Arts, a limitation is imposed on the ground floor #uses# within the Special District.

The provisions of this Section shall apply to a #development# or change of #use# within the Special District.

(2/2/11)

82-21

Restrictions on Street Level Uses

Within 30 feet of Broadway, Columbus Avenue or Amsterdam Avenue #street lines#, #uses# within #stories# on the ground floor or with a floor level within five feet of #curb level#, shall be limited to those listed in Use Groups 3A, 3B, 6A, 6C, 8A, 10A and eating or drinking establishments listed in 12A or 12B. Within Use Groups 3A or 3B, #uses# shall be limited to colleges, universities including professional schools, museums, libraries

or non-commercial art galleries. Within such area, lobby space, required accessory loading berths, or access to subway stations are permitted.

(2/2/11)

82-22

Location of Floors Occupied by Commercial Uses

The provisions of Section 32-422 (Location of floors occupied by commercial uses) shall not apply to any #commercial use# located in a portion of a #mixed building# that has separate direct access to the #street# and has no access within the #building# to the #residential# portion of the #building# at any #story#. In no event shall such #commercial use# be located directly over any #dwelling units#.

(2/2/11)

82-23

Street Wall Transparency

When the front #building# wall or #street wall# of any #building developed# after February 9, 1994, is located on Broadway, Columbus Avenue or Amsterdam Avenue, at least 50 percent of the total surface area of the #street wall# between #curb level# and 12 feet above #curb level#, or to the ceiling of the first #story#, whichever is higher, shall be transparent. Such transparency shall begin not higher than 2 feet, 6 inches above #curb level#.

(6/23/05)

82-24

Supplementary Sign Regulations

No permitted #sign# shall extend above #curb level# at a height greater than 20 feet or obstruct an #arcade#.

Within Subdistrict B, permitted #signs# facing upon West 65th Street shall not exceed a height of 40 feet above #curb level#, and permitted #signs# facing upon Broadway between West 65th Street and West 66th Street shall not exceed a height of 60 feet

above #curb level#. However, #signs# facing in an easterly or southerly direction upon that portion of the public place designated on the City Map that is located within an area bounded by West 65th Street and the prolongation of the south side of West 64th Street shall not exceed a height of 40 feet above the level of such public place.

(2/9/94)

82-30

SPECIAL BULK REGULATIONS

(2/2/11)

82-31

Floor Area Ratio Regulations for Commercial Uses

Within Subdistrict A, for any #building# in a C4-7 District, the maximum permitted #commercial floor area# shall be 100,000 square feet.

(2/2/11)

82-311

Floor area increase by special permit

The City Planning Commission may by special permit allow the #commercial floor area ratio# permitted on a #zoning lot# pursuant to Section 82-31 (Floor Area Ratio Regulations for Commercial Uses) within Subdistrict A to be increased to 10.0 for #commercial uses#. As a condition for such special permit, the Commission shall find that:

- (a) the #uses# are appropriate for the location and shall not unduly affect the #residential uses# in the nearby area or impair the future land use and development of the adjacent areas;
- (b) the #uses# shall not require any significant addition to the supporting services of the neighborhood or that provision for adequate supporting services has been made;
- (c) the additional #bulk# devoted to #commercial uses# shall not

create or contribute to serious traffic congestion and will not unduly inhibit vehicular and pedestrian flow; and

- (d) the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of any such #uses# on the character of the surrounding area.

(2/2/11)

82-32

Special Provisions for Increases in Floor Area

No #floor area# bonuses shall be permitted within the #Special Lincoln Square District# except as provided in this Section. The following #floor area# increases may be used separately or in combination, provided that the total #floor area ratio# permitted on a #zoning lot# does not exceed 12.0.

- (a) #Floor area# increase for Inclusionary Housing

For any #development# to which the provisions of Section 23-90 (INCLUSIONARY HOUSING) are applicable, the maximum permitted #residential floor area ratio# may be increased by a maximum of 20 percent under the terms and conditions set forth in Section 23-90.

- (b) #Floor area# bonus for public amenities

On a #zoning lot# that is adjacent to the West 59th Street (Columbus Circle) or the West 66th Street subway station mezzanine, platform, concourse or connecting passageway, where no tracks intervene to separate the #zoning lot# from these elements, and such #zoning lot# contains 5,000 square feet or more of #lot area#, the City Planning Commission may, by special permit pursuant to Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan), grant a maximum of 20 percent #floor area# bonus.

For a subway station improvement or for a subsurface concourse connection to a subway, the amount of #floor area# bonus that may be granted shall be at the discretion of the Commission. In determining the precise amount of #floor area# bonus, the Commission shall consider:

- (1) the direct construction cost of the public amenity;
- (2) the cost of maintaining the public amenity; and
- (3) the degree to which the station's general accessibility and security will be improved by the provision of new connections, additions to, or reconfigurations of, circulation space, including the provision of escalators or elevators.

(2/2/11)

82-33

Modification of Bulk Regulations

The City Planning Commission may, by special permit, modify the height and setback regulations, #yard# regulations, regulations governing minimum distance between #buildings# on a single #zoning lot#, and regulations governing #courts# and minimum distance between #legally required windows# and walls or #lot lines#, provided the Commission finds that such modifications are necessary to:

- (a) facilitate good design;
- (b) allow design flexibility for any #development# to which the mandatory provisions of Section 82-10 (MANDATORY DISTRICT IMPROVEMENTS) are applicable; or
- (c) incorporate a #floor area# allowance pursuant to Section 82-32 (Special Provisions for Increases in Floor Area) where inclusion of the proposed public amenity will significantly further the specific purposes for which the #Special Lincoln Square District# is established.

(2/9/94)

82-34

Bulk Distribution

Within the Special District, at least 60 percent of the total #floor area# permitted on a #zoning lot# shall be within #stories# located partially or entirely below a height of 150 feet from #curb level#.

For the purposes of determining allowable #floor area#, where a #zoning lot# has a mandatory 85 foot high #street wall# requirement along Broadway, the portion of the #zoning lot# located within 50 feet of Broadway shall not be included in #lot area# unless such portion contains or will contain a #building# with a wall at least 85 feet high coincident with the entire #street line# of Broadway.

(2/2/11)

82-35

Height and Setback Regulations

Within the Special District, all #buildings# shall be subject to the height and setback regulations of the underlying districts, except as set forth in:

- (a) paragraph (a) of Section 82-37 (Street Walls along Certain Street Lines) where the #street wall# of a #building# is required to be located at the #street line#; and
- (b) paragraphs (b), (c) and (d) of Section 82-37 where the #street wall# of a #building# is required to be located at the #street line# and to penetrate the #sky exposure plane# above a height of 85 feet from #curb level#.

(2/2/11)

82-36

Special Tower Coverage and Setback Regulations

The requirements set forth in Sections 33-45 (Tower Regulations) or 35-63 (Special Tower Regulations for Mixed Buildings) for any #building#, or portion thereof, that qualifies as a "tower" shall be modified as follows:

- (a) At any level at or above a height of 85 feet above #curb level#, a tower shall occupy in the aggregate:
 - (1) not more than 40 percent of the #lot area# of a #zoning lot# or, for a #zoning lot# of less than 20,000 square feet, the percent set forth in Section 23-65 (Tower Regulations); and
 - (2) not less than 30 percent of the #lot area# of a #zoning lot#.

However, the highest four #stories# of the tower or 40 feet, whichever is less, may cover less than 30 percent of the #lot area# of a #zoning lot# if the gross area of each #story# does not exceed 80 percent of the gross area of the #story# directly below it.

- (b) At all levels at or above a height of 85 feet from #curb level#, the minimum required setback of the #street wall# of a tower shall be at least 15 feet from the #street line# of Broadway or Columbus Avenue, and at least 20 feet on a #narrow street#.
- (c) In Subdistrict A, the provisions of paragraph (a) of Section 35-63, as modified by paragraphs (a) and (b) of this Section, shall apply to any #mixed building#.

For the purposes of determining the permitted tower coverage in Block 3, as indicated on the District Plan in Appendix A of this Chapter, that portion of a #zoning lot# located within 100 feet of the west #street line# of Central Park West shall be treated as if it were a separate #zoning lot# and the tower regulations shall not apply to such portion.

(2/2/11)

82-37

Street Walls along Certain Street Lines

- (a) On a #zoning lot# with a #front lot line# coincident with any of the following #street lines#, a #street wall# shall be located on such #street line# for the entire frontage of the #zoning lot# on that #street# and shall rise without setback to a height of 85 feet above #curb level#:
 - (1) the east side of Broadway between West 61st Street and West 65th Street;
 - (2) the east side of Columbus Avenue between West 65th Street and West 66th Street;
 - (3) the east side of Broadway between West 67th Street and West 68th Street;
 - (4) the west side of Broadway between West 66th Street and West 68th Street; and
 - (5) the west side of Broadway between West 60th Street and West 62nd Street.

Such #street wall# shall extend on a #narrow street# to a distance of not less than 50 feet from its intersection with the #street line# of Broadway or Columbus Avenue and shall include a 20 foot setback at a height of 85 feet above #curb level# as required in Section 33-432 (In other Commercial Districts).

- (b) On a #zoning lot# in Block 1, as indicated on the District Plan in Appendix A of this Chapter, with a #front lot line# coincident with any of the following #street lines#, a #street wall# shall be located on such #street lines# for the entire frontage of the #zoning lot# on that #street#:

- (1) the west side of Broadway between West 62nd Street and West 63rd Street;
- (2) the south side of West 63rd Street between Broadway and Columbus Avenue; and
- (3) the east side of Columbus Avenue between West 62nd Street and West 63rd Street.

The #street wall# located on the south side of West 63rd Street shall rise vertically without setback to the full height of the #building# except for the top four floors or 40 feet, whichever is less, and shall extend along Columbus Avenue and/or Broadway for no more than one-half of the length of the total #block# front. The #street wall# located on the remaining #block# front on Broadway shall rise to a height of 85 feet above #curb level# and then set back 20 feet as required in Section 33-432 (In other Commercial Districts).

- (c) On a #zoning lot# in Block 2, as indicated on the District Plan, with a #front lot line# coincident with any of the following #street lines#, a #street wall# shall be located on such #street line# for the entire frontage of the #zoning lot# on that #street#:

- (1) the east side of Broadway between West 67th Street and West 66th Street;
- (2) the north side of West 66th Street between Broadway and Columbus Avenue; and
- (3) the west side of Columbus Avenue between West 66th Street and West 67th Street.

The #street wall# located on the north side of West 66th

Street shall rise vertically without setback to the full height of the #building# except for the top four floors or 40 feet, whichever is less, and shall extend on Broadway and/or Columbus Avenue for no more than one-half of the length of the total #block# front. The #street wall# located on the remaining #block# front on Broadway shall rise to a height of 85 feet above #curb level# and then setback 20 feet as required in Section 33-432.

- (d) On a #zoning lot# in Block 3, as indicated on the District Plan, with a #front lot line# coincident with the #street line# of Central Park West, the #street wall# shall be located on such #street line# for the entire frontage of the #zoning lot# on that #street#.

The #street wall# fronting on Central Park West shall rise vertically without setback to a height of at least 125 feet but not greater than 150 feet and shall extend along the #street line# of West 61st Street and along the #street line# of West 62nd Street to a distance of not less than 50 feet but not more than 100 feet from their intersection with the west #street line# of Central Park West. Above that height, no #building or other structure# shall penetrate a #sky exposure plane# that starts at the #street line# and rises over the #zoning lot# at a ratio of 2.5 : 1.

(2/2/11)

82-38

Recesses in the Street Wall

Recessed fenestration and special architectural expression lines in the #street wall# are required as follows:

- (a) Except as set forth in paragraph (b) of this Section, the aggregate width of all recesses in the #street wall# fronting upon Broadway shall be between 15 percent and 30 percent of the entire width of such #street wall# at any #story# between the ground floor and 85 feet above #curb level#.
- (b) In Block 1, as indicated on the District Plan in Appendix A of this Chapter, for any #street wall# fronting upon the south side of West 63rd Street and extending along Broadway and/or Columbus Avenue to a distance of not less than 50 percent of the #block# front, the aggregate width of all recesses in the #street walls# along each such #street# shall be between 15 percent and 30 percent of the entire

width of each #street wall# at any #story# between the ground floor and 85 feet above #curb level# and shall be between 30 percent and 50 percent of the entire width of each #street wall# at any #story# above 85 feet above #curb level#.

- (c) In Block 2, as indicated on the District Plan, the requirement of #street wall# recesses in paragraph (b) of this Section shall also apply to a #street wall# fronting upon the north side of West 66th Street and extending along Broadway and/or Columbus Avenue to a distance of not less than 50 percent of the #block# front.

Such recesses shall be a minimum of one foot in depth and shall not exceed a depth of 10 feet. Below a height of 85 feet above #curb level#, no recesses deeper than one foot shall be permitted in a #street wall# within a distance of 10 feet from the intersection of any two #street lines#.

In addition, along the #street lines# of Broadway, West 63rd Street and West 66th Street within Blocks 1 and 2, the #street wall# shall provide, at a height of 20 feet above #curb level#, an architectural expression line consisting of a minimum six inch recess or projection, for a minimum height of one foot and maximum height of two feet.

(2/9/94)

82-39

Permitted Obstructions within Required Setback Areas

The #street wall# of a #building# may be vertically extended above a height of 85 feet above #curb level# without setback in accordance with either of the following provisions:

- (a) A dormer may be allowed as a permitted obstruction within the required #initial setback distance# above a height of 85 feet above #curb level#. The #street wall# of a dormer shall rise vertically as an extension of the #street wall# of the #building#. A dormer may be located anywhere on a #wide# or #narrow street# frontage.

On any #street# frontage the aggregate width of all dormers at the required initial setback level shall not exceed 60 percent of the width of the #street wall# of the #story# immediately below the initial setback level. For each foot of height above the required initial setback level, the aggregate width of all dormers at that height shall be

decreased by one percent of the width of the #street wall# of the #story# immediately below the initial setback level. Such dormers shall count as #floor area# but not as tower #lot coverage#.

- (b) On a #wide street# and on a #narrow street# within 50 feet of its intersection with a #wide street#, the #street wall# of a #building# may be vertically extended without setback within the required #initial setback distance# above a height of 85 feet above #curb level#, up to a maximum height of 125 feet, provided that the aggregate width of such #street walls# shall not exceed 50 percent of the width of the #street wall# of the #story# immediately below the initial setback level and provided the #street wall# of the #building# contains special architectural expression lines at a height of 85 feet above #curb level#.

(2/2/11)

82-40

SPECIAL HEIGHT LIMITATION

On Block 1 or 2, as indicated on the District Plan in Appendix A of this Chapter, the maximum height of a #building or other structure# shall not exceed 275 feet above #curb level#, except that a penthouse may be located above such height, provided that such penthouse:

- (1) contains not more than four #stories# or 40 feet, whichever is less; and
- (2) the gross area of each #story# does not exceed 80 percent of the gross area of that #story# directly below it.

(5/8/13)

82-50

OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

The regulations of Article I, Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core) and the applicable underlying district regulations of Article III, Chapter 6, relating to Off-Street Loading Regulations, shall apply in the #Special Lincoln Square District# except as otherwise provided in this Section. In addition, the entrances and exits to all off-street loading berths shall not be located

on a #wide street# except by authorization as set forth in this Section.

(a) #Accessory# off-street parking spaces

#Accessory# off-street parking spaces are permitted only by the applicable special permit of the City Planning Commission pursuant to Section 13-45 (Special Permits for Additional Parking Spaces), inclusive.

(b) Curb cuts

The City Planning Commission may authorize curb cuts within 50 feet of the intersection of any two #street lines#, or on #wide streets# where such curb cuts are needed for off-street loading berths, provided the location of such curb cuts meets the findings in Section 13-441.

(c) Waiver of loading berth requirements

The City Planning Commission may authorize a waiver of the required off-street loading berths where the location of the required curb cuts would:

- (1) be hazardous to traffic safety;
- (2) create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement; or
- (3) interfere with the efficient functioning of bus lanes, specially designated streets or public transit facilities.

The Commission shall refer these applications to the Department of Transportation for its comments.

(5/8/13)

82-60

EXISTING PUBLICLY ACCESSIBLE OPEN AREAS OR OTHER PUBLIC AMENITIES

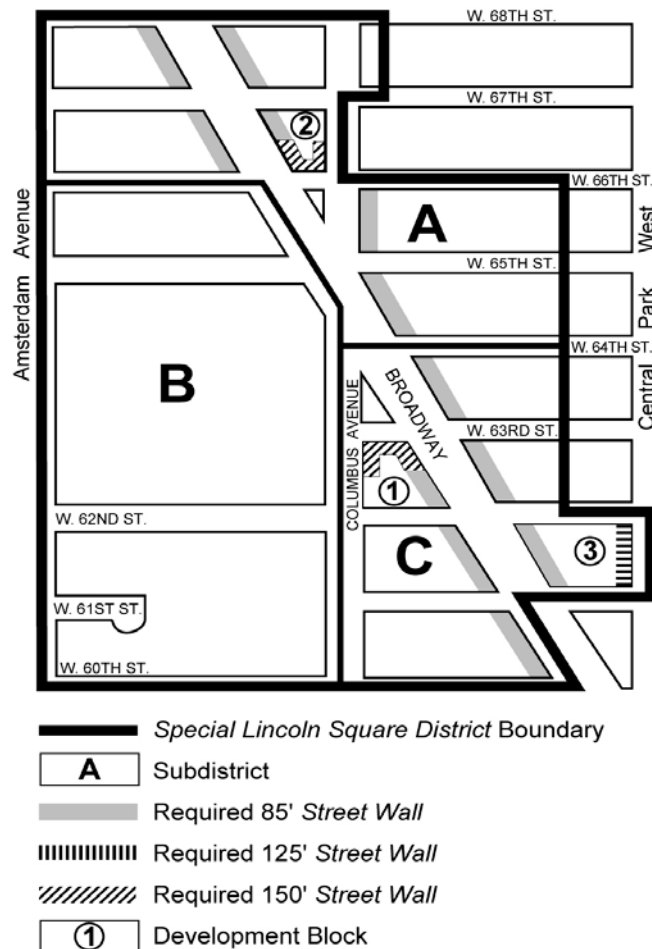

No existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized shall be eliminated or reduced in size, except by special permit of the City Planning Commission, pursuant to Section 74-763 (Elimination or reduction in size of existing bonused public amenities).

Any existing open area for which a #floor area# bonus has not been utilized that occupies the same #zoning lot# as an existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, may be reduced in size or eliminated only upon certification of the Chairperson of the City Planning Commission that all bonused amenities comply with the standards under which such #floor area# bonus was granted.

Article VIII - Special Purpose Districts

Chapter 3

Special Limited Commercial District

(10/9/69)

83-00

GENERAL PURPOSES

The "Special Limited Commercial District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) to preserve, protect, and enhance the character of Historic Districts as the location of many of the city's most valued cultural assets;
- (b) to improve circulation patterns in the areas in order to avoid congestion arising from the movements of large numbers of people;
- (c) to help attract a useful cluster of shops, restaurants, cultural attractions and related activities which will complement and enhance the areas as presently existing; and
- (d) to promote the most desirable use of land in these areas and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

(2/2/11)

83-01

Definitions

For purposes of this Chapter, matter in *italics* is defined in Section 12-10 (DEFINITIONS).

(2/2/11)

83-02

General Provisions

#Special Limited Commercial Districts# may only be mapped in #Commercial Districts# within areas, or portions of areas, designated by the Landmarks Preservation Commission as "Historic Districts" pursuant to Chapters 8A or 63 of the New York City Charter and Chapter 8A of the New York City Administrative Code.

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special Limited Commercial District# and in accordance with the provisions of this Chapter, certain specified #use#, #sign# and enclosure regulations of the districts on which #Special Limited Commercial Districts# are superimposed are made inapplicable, and are superseded by the #use#, #sign# and enclosure regulations of the #Special Limited Commercial District# as set forth in this Chapter.

In addition to meeting the #use#, #sign# and enclosure regulations as set forth in this Chapter, each #building# shall conform to and comply with all of the applicable district regulations of this Resolution, except as otherwise specifically provided in this Chapter.

(9/9/04)

83-03

Use Group "LC"

Use Group "LC" comprises #residential uses# listed in Use Groups 1 and 2, and a group of specially related #uses# selected from Use Groups 3, 4, 5, 6, 8 and 9 to provide for the special needs, comfort, convenience, enjoyment, education and recreation of the residents of the surrounding communities and of the many visitors who are attracted to its activities.

A. Amusements

Theaters, limited to a capacity of not more than 300 seats

B. Community Facilities

Ambulatory diagnostic or treatment health care facilities listed in Use Group 4

Clubs, except:

(a) clubs, the chief activity of which is a service

predominantly carried on as a business;

- (b) non-commercial outdoor swimming pool clubs; or
- (c) any other non-commercial clubs with outdoor swimming pools located less than 500 feet from any #lot line#

Colleges or universities, including professional schools

College or school student dormitories or fraternity or sorority student houses

Community centers or settlement houses

Houses of worship, rectories or parish houses

Libraries, museums, or non-commercial art galleries

Monasteries, convents, or novitiates used only for living purposes, provided that such #use# is to be part of a group of #buildings# accommodating house of worship activities, #schools# or other house of worship facilities that existed on December 15, 1961, or any applicable subsequent amendment thereto, and that such #use# is to be located on the same #zoning lot# with one or more #buildings# in such group of #buildings# or on a #zoning lot# which is contiguous thereto or directly across the #street# on which such #buildings# face

Non-commercial recreation centers

#Non-profit hospital staff dwellings# located on the same #zoning lot# as a non-profit or voluntary hospital and related facilities or on a separate #zoning lot# which is immediately contiguous thereto or would be contiguous but for its separation by a #street# or a #street# intersection

Non-profit or voluntary hospitals and related facilities, except animal hospitals

Philanthropic or non-profit institutions with or without sleeping accommodations, including nursing homes or sanitariums, provided that the number of persons employed in central office functions shall not exceed 50, and the amount of #floor area# used for central office purposes shall not exceed 25 percent of the total #floor area# or 25,000 square feet, whichever is greater

Proprietary hospitals and related facilities, except animal hospitals

Proprietary nursing homes or sanitariums

#Schools#

Seminaries

Welfare centers

C. Open #Uses#

#Public parks# or playgrounds or private parks

Outdoor ice skating rinks

D. Convenience Retail or Service Establishments

Bakeries, provided that #floor area# used for production shall be limited to 750 square feet per establishment

Barber shops

Beauty parlors

Drug stores

Dry cleaning or clothes pressing establishments or receiving stations dealing directly with ultimate consumers, limited to 2,000 square feet of #floor area# per establishment, and provided that only solvents with a flash point of not less than 138.2 degrees Fahrenheit shall be used, and total aggregate dry load capacity of machines shall not exceed 60 pounds

Eating and drinking establishments, including those which provide music for which there is no cover charge and no specified showtime

Eating or drinking establishments with musical entertainment, but not dancing, with a capacity of 200 persons or less

Food stores, including supermarkets, grocery stores, meat markets, or delicatessen stores, limited to 10,000 square feet per establishment

Hardware stores

Laundry establishments, hand or automatic self-service

Package liquor stores

Post offices

Shoe or hat repair shops

Stationery stores

Tailor or dressmaking shops, custom

Variety stores, limited to 10,000 square feet of #floor area# per establishment

E. Offices

Offices, business, professional or governmental

F. Public Service Establishments

Court houses

Electric or gas utility substations, limited in each case to a site of not more than 10,000 square feet

G. Retail or Service Establishments

Antique stores

Art galleries, commercial

Artists' supply stores

Automobile supply stores, with no installation or repair services

Banks, including drive-in banks

Bicycle sales

*Blueprinting or photostating establishments

Book stores

*Business schools or colleges

Candy or ice cream stores

Carpet, rug, linoleum, or other floor covering stores, limited to 10,000 square feet of #floor area# per establishment

*Catering establishments

Cigar or tobacco stores

Clothing or clothing accessory stores, limited to 10,000 square feet of #floor area# per establishment

*Clothing or costume rental establishments

Dry goods or fabrics stores, limited to 10,000 square feet of #floor area# per establishment

Electrolysis studios

Fishing tackle or equipment, rental or sales

Florist shops

Frozen food lockers

Furniture stores, limited to 10,000 square feet of #floor area# per establishment

Furrier shops, custom

Gift shops

* Gymnasiums, used exclusively for basketball, handball, squash and tennis

Interior decorating establishments, provided that #floor area# used for processing, servicing, or repairs shall be limited to 750 square feet per establishment

Jewelry or art metal craft shops

Leather goods or luggage stores

Loan offices

Locksmith shops

*Medical or dental laboratories for research or testing, or the custom manufacture or artificial teeth, dentures, or plates, not involving any danger of fire or explosion nor offensive noise, vibration, smoke or other particulate matter, odorous matter, heat, humidity, glare, or other objectionable effects

- Medical or orthopedic appliance stores
- Meeting halls
- Millinery shops
- Music stores
- * Musical instrument repair shops
- Newsstands, open or enclosed
- Optician or optometrist establishments
- Paint stores
- Pet shops
- Photographic equipment or supply stores
- Photographic studios
- ** #Physical culture or health establishments#, including
gymnasiums (not listed under Use Group 9), reducing salons,
massage establishments or steambaths, but other than #adult
physical culture establishments#
- Picture framing shops
- * Plumbing, heating, or ventilating equipment showrooms,
without repair facilities
- Record stores
- Seed or garden supply stores
- Sewing machine stores, selling household machines only
- Shoe stores
- Sporting or athletic stores
- Stamp or coin stores
- * Studios: art, music, dancing or theatrical
- Telegraph offices
- Television, radio, phonograph, or household appliance repair
shops

Television, radio, phonograph, or household appliance stores, limited to 10,000 square feet of #floor area# per establishment

Toy stores

- * Trade, or other schools for adults, not involving any danger of fire or explosion nor of offensive noise, vibration, smoke or particulate matter, dust, odorous matter, heat, humidity, glare, or other objectionable effects

Travel bureaus

- * Typewriter or other small business machine repair shops

Typewriter stores

- * Umbrella repair shops

Wallpaper stores

Watch or clock stores or repair shops

H. Transient Accommodations

#Hotels, transient#

I. Wholesale Establishments

Hair products for headwear, wholesaling including styling

Photographic developing or printing establishments, limited to 2,500 square feet of #floor area# per establishment

J. #Accessory Uses#.

- * In #Special Limited Commercial Districts#, a #use# marked with an asterisk (*) shall not be located on the ground floor of a #building# unless such #use# is at least 50 feet from the #street# wall of the #building# in which it is located
- ** In #Special Limited Commercial Districts#, a #use# marked with a double asterisk (**) shall be permitted only by special permit of the Board of Standard and Appeals, pursuant to Section 73-36 (Physical Culture or Health Establishments)

(10/9/69)

83-04

Signs

Non-#illuminated signs# with total #surface area# not exceeding three times the #street# frontage of the #zoning lot# (in feet), but in no event more than 150 feet for #interior# or #through lots# or 150 feet on each frontage for #corner lots#, are permitted. #Illuminated# non-#flashing signs# with total #surface area# not exceeding three times the #street# frontage of the #zoning lot# (in feet), but in no event more than 50 feet for #interior# or #through lots#, or 50 feet on each frontage for #corner lots#, are permitted. No permitted #sign# shall extend above #curb level# at a height greater than 25 feet.

(10/9/69)

83-05

Enclosure of Uses

All permitted #uses# shall be located within #completely enclosed buildings#.

(10/9/69)

83-06

Special Permits by the Board of Standards and Appeals in Special Limited Commercial Districts

For the purpose of determining the powers of the Board of Standards and Appeals in #Special Limited Commercial Districts#, such districts shall be considered equivalent to C1 Districts, and the powers of the Board, as set forth in Article VII, Chapter 3, shall be limited to those powers which the Board would have in C1 Districts.

(10/9/69)

83-07

Special Permits by the City Planning Commission in Special Limited Commercial Districts

For the purpose of determining the powers of the City Planning Commission in #Special Limited Commercial Districts#, such districts shall be considered equivalent to C1 Districts, and the powers of the Commission, as set forth in Article VII, Chapter 4, shall be limited to those powers which the Commission would have in C1 Districts.

Article VIII - Special Purpose Districts

Chapter 4

Special Battery Park City District

(1/8/97)

84-00

GENERAL PURPOSES

The "Special Battery Park City District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include among others, the following specific purposes:

- (a) to strengthen the business core of Lower Manhattan by improving the working environment;
- (b) to provide major additional space for expansion of office uses and their ancillary facilities;
- (c) to broaden the regional choice of residence by introducing new housing in the vicinity of the major employment center of Lower Manhattan;
- (d) to achieve a harmonious visual and functional relationship with adjacent areas;
- (e) to create an environment which will be lively and attractive and provide daily amenities and services for the use and enjoyment of the working population and the new residents;
- (f) to take maximum advantage of the beauty of the Hudson River waterfront, thereby best serving the downtown business community, the new residential population and providing regional recreation as well; and
- (g) to promote the most desirable use of land and direction of building development in the Lower Manhattan area.

(2/2/11)

84-01

Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS), in this Section or Section 84-021 (District Plan). Where matter in italics is defined both in Section 12-10 and in this Chapter, the definitions in this Chapter shall govern.

Esplanade

The "Esplanade" is a #public park# extending along all waterfront edges of the #Special Battery Park City District#. The #Esplanade# is shown in the District Plan in Appendix 1.

Mandatory front building wall lines

"Mandatory front building wall lines" are imaginary lines extending through Zone A and Zone C of the #Special Battery Park City District# which, except as shown in Appendices 2.1 and 3.1 of this Chapter, coincide with #street lines# and with which #building# walls must generally coincide, as provided in Sections 84-132 and 84-332 (Mandatory front building walls).

Special height locations

"Special height locations" are designated areas in Zone A and Zone C of the #Special Battery Park City District# subject to the regulations in Appendices 2.2 and 3.2 of this Chapter, in accordance with Sections 84-135 and 84-333 (Limited height of buildings).

(1/8/97)

84-02

General Provisions

In harmony with the general purpose and intent of this Resolution and in order to achieve the purpose of the #Special Battery Park City District#, a special set of regulations is established for the #Special Battery Park City District# controlling #use#, #bulk#, #accessory# off-street parking facilities and #accessory# off-street loading facilities. Such regulations are contained in this Chapter and in other provisions of this Resolution incorporated in this Chapter by cross-reference.

(1/8/97)

84-021

District Plan

The District Plan is set forth in Appendix 1. Each #block# shall be considered a single #zoning lot# for the purposes of the #Special Battery Park City District#.

(1/8/97)

84-022

Incorporation of Appendix 1, Appendix 2 and Appendix 3

Appendix 1 (District Plan), Appendix 2 (Zone A South Residential Neighborhood) and Appendix 3 (Zone A North Residential Neighborhood and Zone C) are hereby incorporated as integral parts of the provisions of this Chapter. In the event of an inconsistency or need for clarification between Appendix 1 or Appendix 2 or Appendix 3 and the written specifications in this Chapter, in each such case the written specifications in this Chapter shall govern.

(1/8/97)

84-023

Subdistricts

In order to carry out the purposes and provisions of this Chapter, the #Special Battery Park City District# is divided into three subdistricts: Zone A, Zone B and Zone C. The location and boundaries of the subdistricts are shown on the District Plan in Appendix 1.

(8/17/05)

84-03

Use Regulations (For Zone A and Zone C)

The #uses# permitted shall be constructed and located so that no exhaust vents or chimneys open onto any #street# or park or onto the #Esplanade#.

(5/8/13)

84-031

Special permit uses

The following #uses# are permitted only by special permit of the City Planning Commission:

Electrical or gas utility substations, open or enclosed, pursuant to Section 74-61

As a condition precedent to the granting of such special permit, the Commission shall make a finding that such #use# is located so as to minimize adverse effects on existing or future development in nearby areas or on the use or enjoyment of the #Esplanade# or other public facilities.

The following #uses# are permitted only by special permit of the Board of Standards and Appeals:

Electrical or gas utility substations, open or enclosed, pursuant to Section 73-14

Public utility stations for oil or gas metering or regulating, pursuant to Section 73-15

Telephone exchanges or other communications equipment structures, pursuant to Section 73-14

In Zone A, #physical culture or health establishments# in subzone A-4 only, pursuant to Section 73-36. However, #physical culture or health establishments# located below the level of the first #story# ceiling shall not be permitted to front on the #Esplanade#.

(1/8/97)

84-032

Uses not permitted

The following #uses# shall not be permitted:

A. Transient Accommodations

#Hotels, transient#, except as provided in Sections 84-12 and 84-32

#Motels#, #tourist cabins#, or #boatels#

B. Retail or Service Establishments

Electrical glazing, heating, painting, paper hanging, plumbing, roofing, or ventilating contractors' establishments

Exterminators

Funeral establishments

Lumber stores

Monument sales establishments

Moving or storage offices

Pawn shops

Printing establishments

Refreshment stands, drive-in

Sign painting shops

Taxidermist shops

Trade embalmers

Upholstering shops

Window cleaning contractors' establishments, including floor waxing and other similar building maintenance services

C. Wholesale Establishments

Wholesale establishments

D. Automobile Service Establishments

Automotive glass and mirror shops

Automotive seat cover or convertible top establishments

#Automotive service stations#

Tire sales establishments

E. Public Service Establishments

Prisons.

(1/8/97)

84-033

Interim uses

On application to and with the permission of the Battery Park City Authority, any open #use# listed in Use Groups 1 through 16, as set forth in Sections 32-11 through 32-25, is permitted if such #use# is an interim #use# which will not obstruct, interfere with, or be incompatible with the general purposes and overall development of the #Special Battery Park City District#, and if such #use# is not prohibited by the Settlement Agreement, dated June 6, 1980, between the City of New York, the State of New York, and various agencies and instrumentalities thereof. The Authority may prescribe appropriate conditions and safeguards in order to minimize adverse effects on surrounding land #uses#.

(2/2/11)

84-10

ZONE A GENERAL DISTRICT REGULATIONS

Zone A is designed generally to provide for residential development with ancillary retail and service #uses#, and #transient hotels# as permitted pursuant to Section 84-12. Zone A is divided into six subzones: A-1, A-2, A-3, A-4, A-5 and A-6. The location and boundaries of the subzones are shown in Appendices 2 and 3 of this Chapter.

(2/2/11)

84-11

General Provisions

Except as expressly modified by the provisions of this Chapter, the regulations applying to an R10 District shall apply in subzones A-1, A-2, A-3, A-5 and A-6 of the #Special Battery Park City District#.

Notwithstanding any other provision of this Resolution, #developments# and #enlargements# may only be constructed in subzone A-4 in accordance with certifications given by the City Planning Commission. #Residential open space# in subzone A-4 shall be subject to the provisions of Sections 12-10 and 23-12 (Permitted Obstructions in Open Space). For every #dwelling unit# there shall be a minimum of 55.0 square feet of #open space#, and for every #rooming unit# there shall be a minimum of 44.0 square feet of #open space#. All other provisions of this Chapter

with respect to Zone A shall not apply to #developments# or #enlargements# in subzone A-4 unless otherwise indicated.

(2/2/11)

84-12

Use Regulations

In the areas indicated as permitted #commercial# locations in Appendices 2.3 and 3.3, the #use# regulations applying in a C2 District shall apply, except as provided in Sections 84-031 (Special permit uses), 84-032 (Uses not permitted), 84-121 (Uses along Esplanade) and this Section.

In the case of a #mixed building# containing #residential# and non-#residential uses#, #residential uses# are permitted on the same #story# as a non-#residential use#, provided no access exists between such #uses# at any level containing #residences# and provided any non-#residential uses# are not located over any #residences#. However, such non-#residential uses# may be located over #residences# by authorization of the City Planning Commission upon finding that sufficient separation of #residences# from non-#residential uses# exists within the #building#.

Notwithstanding any other provisions of this Resolution, the permitted #uses# listed in Use Groups 6, 7, 8, 9 or 14 and the additional #uses# permitted hereunder shall be limited, per establishment, to 10,000 square feet of #floor area# of any #story# and shall not be located above the first #story# ceiling, except that:

- (a) in any #building# containing an #arcade# required in Section 84-134 (Mandatory arcades), any permitted #use# may be located above the first #story# ceiling and below the second #story# ceiling; and
- (b) supermarkets are permitted with no limitation on #floor area#.

Notwithstanding any other provisions of this Resolution, the #zoning lot# south of First Place and east of Battery Place may contain #residential uses#, #transient hotel uses#, or both #residential# and hotel #uses#.

In the case of hotel #uses# on this #zoning lot#:

- (1) a #physical culture or health establishment# may be permitted; and
- (2) an eating and drinking establishment, as permitted in Section 32-15 (Use Group 6), and a #physical culture and health establishment# or a non-#residential accessory use#, may be located above a #story#

containing #residential uses#.

(2/2/11)

84-121

Uses along Esplanade

Except as set forth in this Section and in Section 84-12 (Use Regulations), #uses# fronting on the #Esplanade# shall be limited to the #uses# listed in Use Groups 2, 3 and 4 as set forth in Section 22-10 (USES PERMITTED AS-OF-RIGHT), except that in the areas indicated as permitted #commercial# locations in Appendix 2.3, in the lowest #story# other than a #basement# in any #building#, the following additional #uses# shall be permitted:

Eating or drinking places, as listed in Use Group 6A in Section 32-15

(2/27/01)

84-122

Uses permitted within public open space areas

Public open space areas located between Murray Street and Warren Street, as indicated in Appendix 3.6, shall be improved at or above grade for use by the public as open areas for passive and/or active recreational #uses#.

(2/2/11)

84-13

Bulk Regulations

#Residential# and #community facility bulk# regulations otherwise applicable in R10 Districts are modified to the extent set forth in this Section and Sections 84-131 through 84-135, inclusive.

The regulations otherwise applicable in R10 Districts are superseded by the regulations set forth in Sections 84-131 (Floor area regulations), 84-132 (Mandatory front building walls), 84-134 (Mandatory arcades) and 84-135 (Limited height of buildings).

The provisions of Sections 23-533 (Required rear yard equivalents) and

24-11 (Maximum Floor Area Ratio and Percentage of Coverage), and Article VII, Chapter 8 (Special Regulations Applying to Large Scale Residential Developments) and Chapter 9 (Special Regulations Applying to Large Scale Community Facility Development), are not applicable.

The provisions of Section 23-70 (MINIMUM DISTANCE BETWEEN BUILDINGS) may be modified by the Battery Park City Authority. Prior to the granting of any such modification, the Authority shall make the following findings:

- (a) that such modification will aid in achieving the general purpose and intent of the #Special Battery Park City District#, as set forth in Section 84-01;
- (b) that such modification will not unduly increase the #bulk# of #buildings#, the density of population or the intensity of #use# on any #zoning lot# to the detriment of the occupants of #buildings# on such #zoning lot# or nearby #zoning lots#;
- (c) that such modification will not adversely affect the #buildings# on the #zoning lot# or nearby #zoning lots# by restricting access to light and air; and
- (d) that if an open area is provided, at any level, between two #buildings#, it shall have a width of not less than eight feet.

(2/2/11)

84-131

Floor area regulations

Notwithstanding any other provisions of this Resolution, the permitted #floor area ratio# for any #zoning lot# in subzones A-1 and A-5 shall not exceed 12.0, and in subzones A-2, A-3 and A-6 shall not exceed 8.0. However, within subzone A-6, the #floor area ratio# for the #zoning lot# on the southeast corner of Chambers Street and North End Avenue may be increased from 8.0 to a maximum of 12.0, provided that such additional #floor area# is occupied by a #school#.

The #floor area# bonus provisions with respect to R10 Districts shall not apply.

(2/2/11)

84-132

Mandatory front building walls

Except as set forth in paragraphs (g) and (i) of this Section, where Appendices 2.1 or 3.1 show a requirement for a #building# in Zone A to be built to a #mandatory front building wall line#, any such #building# shall have a mandatory front #building# wall coincident with and constructed along such #mandatory front building wall line#, which shall rise without setback for a height above #curb level#, as specified in this Section, except that, at #building# entrances, openings below the second #story# ceiling in the mandatory front #building# walls will be permitted to provide access to courtyards:

- (a) except as set forth in paragraph (d) of this Section, with respect to any 60-85 foot #mandatory front building wall line# shown in Appendix 2.1, a height of not less than 60 feet nor more than 85 feet;
- (b) with respect to any 110-135 foot #mandatory front building wall line# shown in Appendix 2.1, a height of not less than 110 feet nor more than 135 feet. However, a setback of not more than 10 feet may be provided at a height of 85 feet or more above #curb level#;
- (c) on the portion of any #zoning lot# designated as a #special height location# in Appendix 2.2, a height of not less than the applicable amount set forth in paragraphs (a) or (b) of this Section and not more than the maximum height indicated in Appendix 2.2 or in paragraph (d)(1) of Section 84-135 (Limited height of buildings);
- (d) with respect to any #zoning lot# south of West Thames Street, east of South End Avenue, north of Third Place and west of Battery Place, a height of not less than 18 feet nor more than 85 feet above #curb level#;
- (e) with respect to any 110-135 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 110 feet nor more than 135 feet;
- (f) with respect to any 110-230 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 110 feet nor more than 230 feet, except that:
 - (1) the width of the mandatory front #building# wall in excess of a height of 135 feet shall not exceed 120 feet along any frontage;
 - (2) where the width of the #mandatory front building wall line# along #street lines# intersecting North End Avenue exceeds 100 feet, the mandatory front #building# wall in excess of a height of 135 feet shall not exceed a width of 75 feet along North End Avenue. However, the width of the mandatory front #building# wall along #street lines# intersecting North End Avenue may be reduced to not less than 100 feet in order to

accommodate landscaping and other improvements within or adjacent to the public open space areas shown in Appendix 3.6;

- (3) a setback of ten feet at a height of 135 feet is required along all street frontages, except Park Place West; and
- (4) a setback of not less than five feet and not more than ten feet is required in other locations at a height of 135 feet, as shown in Appendix 3.1;
- (g) with respect to any 150-250 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 150 feet nor more than 250 feet, except that the height may not exceed either 150 feet for more than 120 feet or 75 percent of the length of the site's western property line, whichever is less, and a setback of not less than five feet and not more than ten feet is required at a height of 150 feet. Where Appendix 3.1 shows a requirement for a #building# to be built to a #mandatory front building wall line# along frontage on River Terrace, any such #building# may have a mandatory front #building# wall coincident with and constructed along a line set back one and one-half feet from the #street line# along River Terrace to accommodate landscaping treatment as required by the Battery Park City Authority;
- (h) on the portion of any #zoning lot# designated as a #special height location# in Appendix 3.2, a height of not less than the applicable amount set forth in paragraphs (e), (f) or (g) of this Section and not more than the height shown in Appendix 3.2; and
- (i) on the #zoning lot# south of First Place and west of Battery Place, the eastern mandatory front #building# wall may be located within 30 feet from the eastern #mandatory front building wall line#, and the southern mandatory front #building# wall may be reduced in width up to 30 feet along the southern #mandatory front building wall line# within 30 feet from the intersection with the eastern #mandatory building wall line#.

Subject to the provisions of Section 84-133 (Front wall recesses), the mandatory front #building# wall requirements set forth in this Section shall also apply to all #buildings# along all #street lines# within 50 feet of their intersection with any #mandatory front building wall line#. For the next 20 feet along the #street line#, the mandatory front #building# wall requirements are optional except that, for any #building# north of Vesey Street and Vesey Place, the mandatory front #building# wall requirements are optional for the next 25 feet. The height limit of 85 feet shall apply along #street lines# or to #buildings# not subject to the mandatory front #building# wall requirements.

(1/8/97)

84-133

Front wall recesses

Front wall recesses for architectural or decorative purposes are permitted, except in an #arcade# required in Section 84-134 (Mandatory arcades), provided that below the level of the second #story# ceiling the depth of such recess does not exceed 20 feet. At any #story# above the level of the second #story# ceiling, recesses to the amount of 25 percent of the aggregate area of the wall at each #story# are permitted, provided the depth of any such recess does not exceed 10 feet. All recesses shall be subject to the applicable provisions of Section 23-84 (Outer Court Regulations).

(2/2/11)

84-134

Mandatory arcades

Appendix 2.4 (Mandatory Arcades) specifies those #zoning lots# where an #arcade#, as defined in Section 12-10 (DEFINITIONS), shall be provided; and:

- (a) the #arcade# shall extend the full width of the #zoning lot# along the indicated #street lines# or other lines, except where otherwise indicated in Appendix 2.4; and
- (b) the minimum unobstructed depth of the #arcade# shall be 12 feet, and the minimum height of the #arcade# shall be 20 feet above #curb level#.

(4/30/12)

84-135

Limited height of buildings

For the purposes of this Section, the term "#buildings#" shall include #buildings or other structures#. No portion of any #building# may be built to a height greater than 85 feet above #curb level#, except that:

- (a) any portion of a #building# required to have an exterior wall coincident with a 110-135 foot #mandatory front building wall line#, as provided in Section 84-132 (Mandatory front building

walls), may be built to a height of up to 135 feet above #curb level#;

- (b) any portion of a #building# required to have an exterior wall coincident with a 110-230 foot #mandatory front building wall line#, as provided in Section 84-132 and subject to the requirements contained in paragraph (f) therein, may be built to a height of up to 230 feet above #curb level#;
- (c) portions of a #building# required to have an exterior wall coincident with a 150-250 foot #mandatory front building wall line#, as provided in Section 84-132, may be built to a height of up to 250 feet above #curb level#;
- (d) on the portion of any #zoning lot# designated as a #special height location# in Appendices 2.2 or 3.2, a #building# may be built to the height above #curb level# indicated in Appendices 2.2 or 3.2, subject to the following:
 - (1) on any #building# south of First Place and east of Battery Place, with a mandatory front #building# wall, the area of which, below the level of the second story ceiling, occupies 100 percent of the frontage along its #mandatory front building wall line#, a height of not more than 450 feet, provided, however, that a setback of not more than 10 feet may be provided at a height of 85 feet or more above #curb level#;
 - (2) on #zoning lots# located north of First Place, south of Third Place, and east of Battery Place, #special height locations# not to exceed heights of 135 feet or 360 feet above #curb level# are permitted as indicated in Appendix 2.2, provided that a setback of 10 feet is provided at a height of 85 feet above #curb level# along any #narrow street# frontage;
 - (3) on the #zoning lot# at the southeast corner of Chambers Street and North End Avenue, the #special height location# indicated in Appendix 3.2 shall apply only if such #zoning lot# is occupied by #school# and #residential uses# and the portion of the #building# above a height of 135 feet above #curb level# does not exceed a #lot coverage# of 40 percent; and
 - (4) on the #zoning lot# at the northeast corner of Murray Street and North End Avenue, a #special height location# of 320 feet above #curb level# is permitted as indicated in Appendix 3.2, subject to the requirements contained in Section 84-132, paragraph (f);
- (e) Sections 23-62 (Permitted Obstructions) and 33-42 (Permitted Obstructions) are hereby made inapplicable. Any portion of a #building# that exceeds an established height limit shall be

subject to the following provisions:

- (1) The following shall not be considered obstructions and may thus penetrate a maximum height limit:
 - (i) Chimneys or flues, with a total width not exceeding 10 percent of the #aggregate width of street walls# of a #building# at any level;
 - (ii) Elevator or stair bulkheads, roof water tanks, cooling towers and #accessory# mechanical equipment (including enclosure walls), pursuant to Section 33-42 (Permitted Obstructions);
 - (iii) Decks, and other surfaces for recreational activities, not more than 3 feet, 6 inches in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher;
 - (iv) External wall thickness, pursuant to Section 33-42 (Permitted Obstructions);
 - (v) Flagpoles and aerials;
 - (vi) Heliostats and wind energy systems;
 - (vii) Parapet walls, not more than four feet high in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. A guardrail with a surface at least 70 percent open or with an opacity of not more than 30 percent (as viewed in elevation), shall be permitted above a parapet wall or within two feet of a parapet wall, provided such guardrail is not more than four feet above the accessible level of a roof. Such restriction on guardrail height shall not apply when located beyond two feet from a parapet wall;
 - (viii) Roof thickness, up to eight inches, to accommodate the addition of insulation, for #buildings# or portions of #buildings# constructed prior to April 30, 2012. For a #building# that has added roof thickness pursuant to this paragraph, (e)(1)(viii), an #enlargement# may align with the finished roof surface of such #building#, provided the #enlarged# portion does not exceed the maximum height limit by more than eight inches;
 - (ix) Rooftop greenhouses, permitted pursuant to Section 75-01 (Certification for Rooftop Greenhouses);

(x) Skylights, clerestories or other daylighting devices, not more than four feet in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. Such devices shall be limited to a #lot coverage# not greater than 10 percent of the #lot coverage# of the roof and be located at least eight feet from the #street wall# edge. However, such devices shall not be permitted obstructions above a roof with a slope greater than 20 degrees;

(xi) Solar energy systems:

- (1) on the roof of a #building#, up to four feet in height, as measured from the maximum height limit, or the finished level of the roof, whichever is higher;
- (2) on the roof of a #building#, greater than four feet in height, as measured from the maximum height limit, or the finished level of the roof, whichever is higher, provided that all such portions above four feet are set back at least six feet from a #street wall#, limited to a #lot coverage# not greater than 25 percent of the #lot coverage# of the roof and do not exceed a height of 15 feet, or when located on a bulkhead or other obstruction pursuant to paragraph (f) of Section 33-42, do not exceed a height of six feet;
- (3) on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects.

However, any installation on a roof with a slope greater than 20 degrees shall be limited to 18 inches in height, as measured perpendicular to the roof surface;

(xii) Vegetated roofs, not more than 3 feet, 6 inches in height, excluding vegetation, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. On roofs with slopes greater than 20 degrees, vegetated roofs shall be limited to a height of 12 inches measured perpendicular to such roof surface;

(xiii) Weirs, check dams and other equipment for stormwater management, not more than 3 feet, 6 inches in height, as

measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher;

(xiv) Wire, chain link or other transparent fences.

(2) The maximum permitted size of enclosure walls surrounding elevator or stair bulkheads, roof water tanks, cooling towers and #accessory# mechanical equipment may be increased by authorization of the City Planning Commission, provided the Commission finds that:

(i) the width of such additional enclosure wall at each #building# face does not exceed 80 percent of the width of the enclosure wall as allowed in paragraph (e)(1) of this Section;

(ii) the additional area of the enclosure wall at each #building# face is not more than 50 percent of the area permitted as-of-right; and

(iii) the enclosure wall is compatible with the #building# and the urban design goals of the Special District and complements the design by providing a decorative top; and

(f) in #special height locations# in Appendices 2.2 and 3.2 of this Chapter, no portion of a #building#, including permitted obstructions, shall exceed a height of 450 feet above #curb level#.

(1/8/97)

84-14

Parking Regulations and Curb Cuts

(5/8/13)

84-141

Accessory off-street parking spaces

Except as provided in Section 84-142 (Accessory off-street parking spaces for buildings containing hotel uses), #accessory# off-street parking spaces may be provided only for #residential uses# subject to the provisions of this Section. The ownership requirement for #accessory# off-street parking is satisfied by an interest commensurate with the interest of the principal #use#. Such #accessory# parking

spaces shall be #completely enclosed#. No portion of any #accessory# parking facility may be constructed at a height of more than 23 feet above #curb level#. Except as otherwise provided in this Section, no #accessory# off-site parking shall be permitted.

#Accessory# parking facilities shall be constructed so that no exhaust vents open onto any #street# or park or onto the #Esplanade# and so that no portion of the facility, other than entrances and exits, is visible from adjoining #zoning lots#, #streets# or parks or the #Esplanade#.

The City Planning Commission may, upon application, authorize permitted #accessory# off-street parking spaces to be located anywhere within Zone A without regard for #zoning lot lines#, provided that the Commission shall find that:

- (a) the #accessory# off-street parking spaces and required curb cuts are located within subzones A-1, A-2 or A-3 for #zoning lots# within subzones A-1, A-2 or A-3, or within subzones A-5 or A-6 for #zoning lots# in subzones A-5 or A-6, as indicated in Appendices 2 and 3; parking setbacks in Appendices 2.5 and 3.4; and curb cut locations in Appendices 2.6 and 3.5;
- (b) such #accessory# off-street parking spaces will be conveniently located in relation to the #buildings# containing #residences# to which such off-street spaces are #accessory#, and provided that all such spaces shall not be further than 600 feet from the nearest boundary of the #zoning lot# occupied by the #residences# to which they are #accessory#;
- (c) such location of #accessory# off-street parking spaces will permit better site planning;
- (d) such #accessory# off-street parking facility shall contain parking spaces #accessory# to #residential uses# only; and
- (e) such parking facility complies with the findings in paragraphs (c)(1), (c)(2), (c)(3) and (c)(5) of Section 13-45 (Special Permits for Additional Parking Spaces).

Whenever off-street parking spaces are authorized to be located without regard to #zoning lot lines# in accordance with the provisions of this Section, the number of spaces generated by each #building# shall be recorded in that building's certificate of occupancy (temporary and permanent). In addition, any certificate of occupancy for the #accessory# off-street parking facility shall state the number of parking spaces authorized to be relocated from each #zoning lot#.

84-142**Accessory off-street parking spaces for buildings containing hotel uses**

For the #zoning lot# south of First Place and east of Battery Place, #accessory# off-street parking spaces for hotel #uses# may be provided at the rate established for #transient hotels# in Section 13-12 (Permitted Parking for Non-Residential Uses) or 13-13 (Permitted Parking for Zoning Lots with Multiple Uses), as applicable.

(5/8/13)

84-143**Off-street loading**

Enclosed #accessory# off-street loading berths shall be provided in conformity with the requirements set forth in the following table and under rules and regulations promulgated by the Commissioner of Buildings for the #uses# listed in the table.

REQUIRED OFF-STREET LOADING BERTHS

Type of #Use#	For #Floor Area# (in square feet)	Required Berths
Supermarkets	First 8,000	None
	Next 17,000	1
	Next 15,000	1
	Each additional 15,000 or fraction thereof	1
Hotels	First 100,000	None
	Next 200,000	1
	Each additional 300,000 or fraction thereof	1

(2/2/11)

84-144**Location of curb cuts**

Curb cuts are permitted only in the areas or locations indicated in

Appendices 2.6 and 3.5. The aggregate width of all curb cuts provided for any #zoning lot# shall not exceed 20 feet, except that:

- (a) for the #zoning lot# bounded to the north by a mapped public place, to the west by North Park, to the south by Chambers Street, and to the east by Marginal Street, the aggregate width of all curb cuts shall not exceed 40 feet;
- (b) for the #zoning lot# bounded by Warren Street to the north, River Terrace to the west, North End Avenue to the east and Park Place West to the south, the aggregate width of all curb cuts shall not exceed 30 feet, comprised of two 15 foot curb cuts;
- (c) for the #zoning lot# bounded by Murray Street to the north, River Terrace to the west, North End Avenue to the east and Vesey Place to the south, the aggregate width of all curb cuts shall not exceed 40 feet, including a 25 foot wide curb cut to the #accessory# off-street parking facility;
- (d) for the #zoning lot# south of First Place and east of Battery Place, the aggregate width of all curb cuts shall not exceed 50 feet;
- (e) for each #zoning lot# located on the east side of Battery Place:
 - (1) between First Place and Second Place, the aggregate width of all curb cuts shall not exceed 40 feet;
 - (2) between Second Place and Third Place, the aggregate width of all curb cuts shall not exceed 50 feet; and
- (f) for the #zoning lot# south of First Place and west of Battery Place, the aggregate width of all curb cuts shall not exceed 24 feet.

(2/2/11)

84-20

ZONE B

Zone B is designed to provide for commercial and mixed development with ancillary retail and service uses, in accordance with the Large Scale Commercial Development Plan which is attached as an exhibit to the Master Lease for Battery Park City dated June 6, 1980, as amended. Alignment of the pedestrian bridge at Liberty Street shall connect or allow for connection at the easterly line of West Street with a pedestrian connection to be provided on the southerly side of Liberty Street, as provided in this Section and Section 91-72 (Certification for

Development on the Block bounded by Liberty, Washington, Cedar and West Streets). In addition, the pedestrian bridge at the World Trade Center crossing shall connect or allow for connection with the World Trade Center at the easterly line of West Street. The pedestrian bridges are shown on the District Plan in Appendix 1.

(1/8/97)

84-30
ZONE C

(2/2/11)

84-31
General Provisions

Zone C is designed to provide for commercial and mixed use development, parking and ancillary retail and service uses, as permitted pursuant to this Chapter. Zone C is divided into two subzones: C-1 and C-2. The location and boundaries of the subzones are shown in Appendix 3 of this Chapter. Except as expressly modified by the provisions of this Chapter, the regulations applying to a C6-6 District shall apply in Zone C of the #Special Battery Park City District#.

(1/8/97)

84-32
Use Regulations

Use regulations applicable in C6-6 Districts shall apply subject to the provisions of Sections 84-031 (Special permit uses) and 84-032 (Uses not permitted). In addition, the following #uses# shall be permitted:

Indoor interactive entertainment facilities, with eating and drinking, consisting of mechanical, electronic or computer supported games provided that a minimum of four square feet of waiting area within the #zoning lot# shall be provided for each person permitted under the occupant capacity as determined by the New York City Building Code. The required waiting area shall be in an enclosed lobby and shall not include space occupied by stairs, corridors or restrooms.

Parking facilities, public, subject to Section 84-341

#Physical culture or health establishments#

Sporting goods or equipment, sale or rental, including instruction in skiing, sailing or skin diving, as permitted in Use Group 14

(1/8/97)

84-33

Bulk Regulations

#Bulk# regulations otherwise applicable in C6-6 Districts and equivalent #Residential Districts# are hereby modified to the extent set forth in this Section and Sections 84-331 through 84-333, inclusive.

The height and setback regulations otherwise applicable in C6-6 Districts, and equivalent #Residential Districts#, are superseded by the regulations set forth in Section 84-332 (Mandatory front building walls) and 84-333 (Limited height of buildings) and Appendices 3.1 and 3.2.

(2/2/11)

84-331

Floor area regulations

Notwithstanding any other provisions of this Resolution, the permitted #floor area ratio# for any #zoning lot# shall not exceed 15.0. The #floor area ratio# for #residential uses# shall not exceed 10.0. The #floor area# bonus provisions shall not apply.

(2/2/11)

84-332

Mandatory front building walls

Appendix 3.1 specifies locations where a #mandatory front building wall line# is required. #Buildings# shall have a mandatory front #building# wall coincident with and constructed along such #mandatory front building wall line# for a minimum of 80 percent of the length of the frontage required to have the mandatory front #building# wall, which shall rise without setback for a height above #curb level# not less than 110 feet nor more than 140 feet in subzone C-1, and not less than 60 feet nor more than 140 feet in subzone C-2, except that the mandatory

front #building# wall on Murray Street within subzone C-2 may rise without setback to the maximum height established pursuant to Section 84-333 (Limited height of buildings) and, provided further, that the mandatory front #building# wall requirement shall not apply to the #building# frontage along a pedestrian right-of-way in subzone C-2.

However, where Appendix 3.1 shows a mandatory front wall along Murray Street, such front #building# wall may be located either along the #street line# on Murray Street or at a right angle to North End Avenue within 30 feet from the intersection of Murray Street and North End Avenue.

At 140 feet above #curb level#, the #building# must set back at least 15 feet from the #street line# of Vesey Street, North End Avenue and Murray Street, except that there shall be no required setback along Murray Street in subzone C-2. Front wall recesses for architectural and decorative purposes are permitted in mandatory front walls, provided that:

- (a) the aggregate area of front wall recesses below the maximum height of the required front wall is less than 50 percent of the required mandatory front #building# wall;
- (b) the maximum depth of any recess shall be 20 feet;
- (c) recesses with a depth of less than two feet shall not be considered recesses for the purposes of this Section; and
- (d) recesses shall not be open to the sky.

(4/30/12)

84-333

Limited height of buildings

The maximum height of any #building or other structure#, or portion thereof, shall not exceed 400 feet on any portion of subzone C-1 shown as a #special height location# in Appendix 3.2 of this Chapter, except that permitted obstructions, pursuant to Section 33-42, shall be allowed to penetrate a maximum height limit.

The maximum height of any #building or other structure#, or any portion thereof, located within subzone C-2 shall not exceed 180 feet above #curb level#, except that:

- (a) the maximum height of any #building or other structure#, or portion thereof, shown as a #special height location#, shall not exceed the height set forth in Appendix 3.2; and

(b) Sections 23-62 and 33-42 (Permitted Obstructions) are hereby made inapplicable. Any portion of a #building or other structure# that exceeds an established height limit shall be subject to the following provisions:

(1) The following shall not be considered obstructions and may thus penetrate a maximum height limit:

- (i) Chimneys or flues, with a total width not exceeding 10 percent of the #aggregate width of street walls# or a #building# at any level;
- (ii) Decks, and other surfaces for recreational activities, not more than 3 feet, 6 inches in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher;
- (iii) Elevator or stair bulkheads, roof water tanks, cooling towers or other #accessory# mechanical equipment (including enclosure walls), pursuant to Section 33-42 (Permitted Obstructions);
- (iv) Fences, wire, chain link or other transparent type;
- (v) Flagpoles and aerals;
- (vi) Parapet walls, not more than four feet in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. A guardrail with a surface at least 70 percent open or with an opacity of not more than 30 percent (as viewed in elevation), shall be permitted above a parapet wall or within two feet of a parapet wall, provided such guardrail is not more than four feet above the accessible level of a roof. Such restriction on guardrail height shall not apply when located beyond two feet from a parapet wall;
- (vii) Roof thickness, up to eight inches, to accommodate the addition of insulation, for #buildings# or portions of #buildings# constructed prior to April 30, 2012. For a #building# that has added roof thickness pursuant to this paragraph, (b)(1)(vii), an #enlargement# may align with the finished roof surface of such #building#, provided the #enlarged# portion does not exceed the maximum height limit by more than eight inches;
- (viii) Rooftop greenhouses, permitted pursuant to Section 75-01

(Certification for Rooftop Greenhouses);

(ix) Skylights, clerestories or other daylighting devices, not more than four feet in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. Such devices shall be limited to a #lot coverage# not greater than 10 percent of the #lot coverage# of the roof and be located at least eight feet from the #street wall# edge. However, such devices shall not be permitted obstructions above a roof with a slope greater than 20 degrees;

(x) Solar energy systems:

- (a) on the roof of a #building#, up to four feet in height, as measured from the maximum height limit, or the finished level of the roof, whichever is higher;
- (b) on the roof of a #building#, greater than four feet in height, as measured from the maximum height limit, or the finished level of the roof, whichever is higher, provided that all such portions above four feet are set back at least six feet from a #street wall#, limited to a #lot coverage# not greater than 25 percent of the #lot coverage# of the roof and do not exceed a height of 15 feet, or when located on a bulkhead or other obstruction pursuant to paragraph (f) of Section 33-42, do not exceed a height of six feet;
- (c) on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects.

However, any installation on a roof with a slope greater than 20 degrees shall be limited to 18 inches in height, as measured perpendicular to the roof surface;

(xi) Vegetated roofs, not more than 3 feet, 6 inches in height, excluding vegetation, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher. On roofs with slopes greater than 20 degrees, vegetated roofs shall be limited to a height of 12 inches measured perpendicular to such roof surface;

(xii) Weirs, check dams and other equipment for stormwater

management, not more than 3 feet, 6 inches in height, as measured from the maximum height limit, or the finished level of the roof as it existed on April 30, 2012, whichever is higher.

- (2) The maximum permitted size of enclosure walls surrounding elevator or stair bulkheads, roof water tanks, cooling towers and #accessory# mechanical equipment may be increased by authorization of the City Planning Commission, provided the Commission finds that:
 - (i) the width of such additional enclosure wall at each #building# face does not exceed 80 percent of the width of the enclosure wall as allowed in paragraph (b)(1) of this Section;
 - (ii) the additional area of the enclosure wall at each #building# face is not more than 50 percent of the area permitted as-of-right; and
 - (iii) the enclosure wall is compatible with the #building# and the urban design goals of the Special District and complements the design by providing a decorative top.
- (c) In no event shall the height of any #building#, including permitted obstructions, exceed 800 feet above #curb level#.

(8/12/04)

84-34

Parking Regulations and Curb Cuts

Notwithstanding any other regulations of this Resolution, off-street parking spaces shall be permitted pursuant to this Section.

(8/12/04)

84-341

Off-street parking

#Accessory# off-street parking spaces are not required in Zone C. However, a maximum of 300 public parking spaces are permitted in subzones C-1 and C-2 combined, provided that:

- (a) such spaces shall be completely enclosed;

- (b) no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets#, parks or the #Esplanade#;
- (c) no exhaust vents shall open onto any #street# or park; and
- (d) the parking facility shall not be more than 23 feet above #curb level#.

(8/12/04)

84-342

Off-street loading

The number of required #accessory# loading berths in subzone C-2 may be reduced by up to 50 percent of the number required pursuant to Section 36-62 (Required Accessory Off-Street Loading Berths).

(8/12/04)

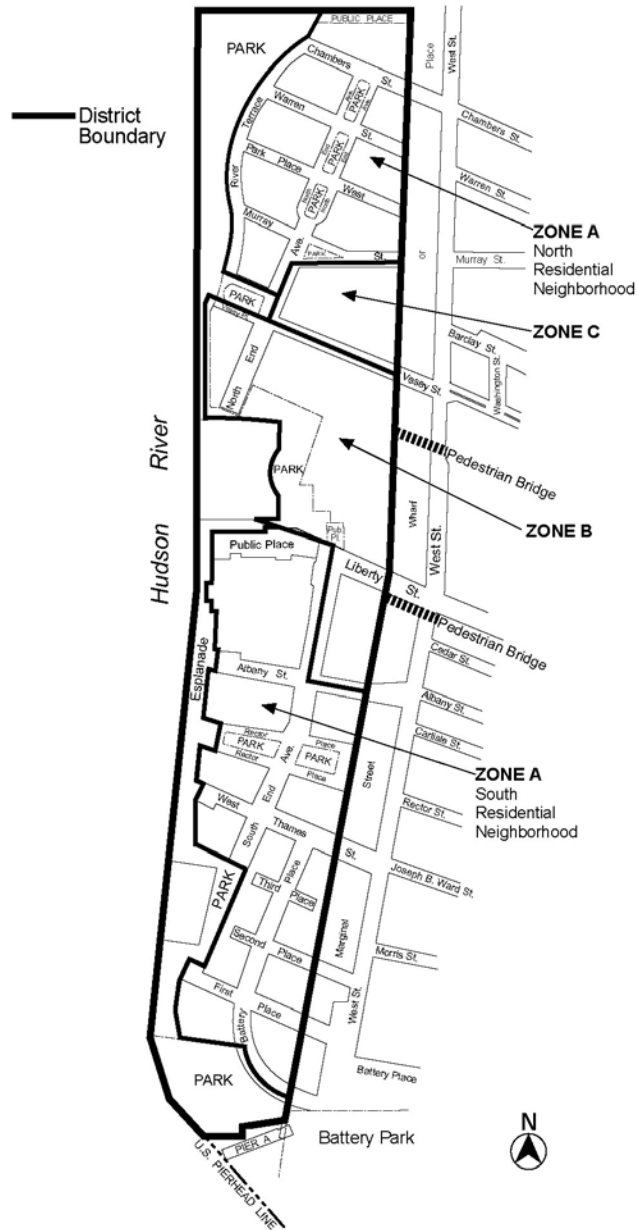

84-343

Curb cuts

Curb cuts are permitted only in locations indicated in Appendix 3.5 and along any #street# or right-of-way not shown on Appendix 3.5. The aggregate width of all curb cuts for subzone C-1 shall not exceed 50 feet. The aggregate width of all curb cuts for subzone C-2 shall not exceed 60 feet.

Article VIII - Special Purpose Districts

Chapter 5

Special United Nations Development District

(8/21/80)

85-00

GENERAL PURPOSES

The "Special United Nations Development District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) to preserve, protect and promote the character of the Special United Nations Development District adjacent to the headquarters of the United Nations, an attraction which helps the City of New York to maintain its preeminent status as a center for international organizations, as an office headquarters center and a cosmopolitan residential community;
- (b) to facilitate the continued growth of the programs and activities of the United Nations and to help assure the retention of the United Nations headquarters in the City of New York;
- (c) to encourage the provision of suitable office facilities for the United Nations, missions of member nations of the United Nations, and for non-governmental organizations related to the United Nations, in an attractive environment within a reasonable distance of the United Nations;
- (d) to encourage the provision of housing suitable for personnel of delegations and members of the United Nations staff within a reasonable distance of the United Nations;
- (e) to encourage the provision of hotel accommodations in the immediate vicinity of the United Nations suitable for visiting heads of state and other dignitaries attending the United Nations;
- (f) to encourage the provision of community facilities, meeting rooms, and other facilities suitable for United Nations related uses and purposes;

- (g) to alleviate vehicular and pedestrian traffic congestion in the vicinity of the United Nations;
- (h) to promote coordinated redevelopment of the area contiguous to the United Nations in a manner consistent with the foregoing objectives which are an integral element of the comprehensive plan of the City of New York;
- (i) to provide freedom of architectural design in accommodating facilities for the United Nations and supporting activities within multi-use structures which produce more attractive and economic development; and
- (j) to promote the most desirable use of land in this area in accordance with a well-considered plan to promote the special character of the district and its peculiar suitability for uses related to the United Nations and thus to conserve the value of land and buildings, and thereby protect the city's tax revenues.

(2/2/11)

85-01

Definitions

For purposes of this Chapter, matter in *italics* is defined in Section 12-10 (DEFINITIONS).

(8/21/80)

85-02

General Provisions

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special United Nations Development District# and in accordance with the provisions of this Chapter, the existing district regulations are superseded and replaced by the regulations applying to a C5-3 District, except as modified by the provisions of this Chapter, for construction of any #development# in the #Special United Nations Development District#, provided that the #development# is undertaken in accordance with a development plan approved by the City Planning Commission and the Board of Estimate, which plan comprises #zoning lots# having a total area of at least 1.5 acres to be #developed# at one time or in stages, and that such

#development# is undertaken by or with the consent of the party proposing such plan, and further provided that the Chairperson of the City Planning Commission certifies:

- (a) for #development# commencing before January 1, 1980, that the final plans generally comply with the design concept dated January 6, 1970, on file with the Commission; or
- (b) for #development# commencing after January 1, 1980, that the final plans generally comply with the amended design concept dated April 30, 1980, on file with the Commission.

(2/8/90)

85-03

Modifications of Use Regulations

In addition to the #uses# permitted in a C5-3 District, the #uses# and #accessory uses# set forth in this Section are hereby permitted in any #development# to be constructed in accordance with the general purposes and provisions of this Chapter, notwithstanding any other provision of this Resolution. All such #commercial uses# may be located in any #mixed building# and anywhere within such #building# without regard to Section 32-42 (Location within Buildings).

- (a) Auditoriums, with unlimited capacity
- (b) Automobile rental establishments
- (c) Eating or drinking establishments, with entertainment and a capacity of more than 200 persons or establishments of any capacity with dancing; or

Eating or drinking establishments, with musical entertainment but not dancing, with a capacity of 200 persons or fewer

- (d) #Parking facilities, accessory, group#, with a capacity of 380 parking spaces for automobiles solely for #residences#, hotels, foreign missions and United Nations related #uses#
- (e) Photographic developing or printing, without limitation on #floor area# per establishment
- (f) Printing or publishing, without limitation on #floor area# per establishment

- (g) #Public parking lots#, temporary, of no more than five years' duration or until such time as the #development# is completed, whichever is sooner
- (h) Recreational #uses#, other
- (i) Skating rinks, indoor
- (j) Swimming pools, commercial
- (k) Tennis courts, indoor
- (l) Theaters, with unlimited capacity.

(2/2/11)

85-04

Modifications of Bulk Regulations

Notwithstanding any other provisions of this Resolution the following modifications of #bulk# regulations are hereby granted for any #development# which the Chairperson of the City Planning Commission certifies will generally comply with the concept on file with the City Planning Commission dated January 6, 1970, for #development# commencing before January 1, 1980, or the amended design concept on file with the City Planning Commission dated April 30, 1980, for #development# commencing after January 1, 1980.

In no event shall the maximum #floor area ratio# for the #Special United Nations Development District#, taken as a whole, exceed 15.0. The #floor area ratio# of a #residential building# or the #residential# portion of a #mixed building# shall not exceed the maximum #floor area ratio# set forth in Sections 34-112, 23-15, 35-31 and 35-32.

The #development# may include land in more than one #block# and the total permitted #floor area# of all #zoning lots# within such #development# may be distributed without regard for #zoning lot lines# or any #streets# separating the #zoning lots# and the #buildings# comprising such #development# may be located without regard for the applicable height and setback regulations.

In no event shall any #development# on the south side of 44th Street within the #Special United Nations Development District# contain more than 200,000 square feet of #floor area#, and no more than 61,000 square feet of #floor area# may be transferred for any such #development#.

At the time of any transfer of #floor area# in the #Special United Nations Development District#, there shall be recorded in the land records, and indexed against each tax lot from which #floor area# is removed, an instrument removing such #floor area# and stating the maximum permissible #floor area# remaining on the tax lot after deducting the #floor area# transferred; and there shall be recorded in the land records, and indexed against each tax lot to which #floor area# is added, an instrument evidencing the transfer of the #floor area# to the tax lot benefitted and identifying by tax block and lot number and description the tax lot from which the #floor area# has been transferred. A certified copy of such instruments shall be filed with the Commission upon recordation thereof.

For the purpose of any transfer of #floor area# in the #Special United Nations Development District#, the total permitted #floor area# of any tax lot from which #floor area# is transferred shall be the maximum #floor area# permitted under this Chapter for a #commercial building#, less the total #floor area# of any #building# on the tax lot.

The minimum front setback of a #building# on any portion of 45th Street within the #Special United Nations Development District#, more than 100 feet from First Avenue, shall be not less than 10 feet from the #street line#, and required #yards# within the #Special United Nations Development District# shall not be less than 20 feet in depth.

For a #residential building# or the #residential# portions of any mixed-#use building# located on the north side of 44th Street within the #Special United Nations Development District#, the provisions of Section 23-533 (Required rear yard equivalents) and Section 23-711 (Standard minimum distance between buildings) shall not apply. Notwithstanding anything in this Resolution to the contrary, the minimum distance between a #residential# portion of a #building# and any other #building# on the same #zoning lot# within the #Special United Nations Development District# shall be not less than 28 feet.

For any #building# containing #residences# within the #Special United Nations Development District#, the applicable density requirements may be modified, but in no event shall there be less than 395 square feet of #residential floor area# per #dwelling unit# or 300 square feet of #residential floor area# per #rooming unit#.

As a condition for granting such authorizations, in each case the Commission shall make the following findings:

- (a) that the land use intensity and distribution of #bulk# of the total #development# permit better site planning and significantly achieve the specific purposes for which the #Special United Nations Development District# is established; and
- (b) that all new #buildings or other structures# erected within the #Special United Nations Development District# are in compliance with the special height requirements set forth in Section 85-05 of this Chapter.

(8/21/80)

85-05

Limited Height of Buildings

The maximum height of a #building or other structure#, including elevator or stair bulkheads, #accessory# water tanks or cooling towers, chimneys, parapets, arbors or trellises and flagpoles, located within the #Special United Nations Development District#, shall not exceed 550 feet above the established grade of the easterly side of Second Avenue midway between East 43rd and East 45th Streets. No portion of any #building# within the #Special United Nations Development District# may be built to a height greater than the present height of the United Nations Secretariat Building within 200 feet west of the westerly boundary of First Avenue. No portion of any #development# on the south side of 44th Street within the #Special United Nations Development District# may be built to a height greater than 183 feet above #curb level# or 15 #stories#, whichever is less.

Chapter 6

Special Forest Hills District

(3/24/09)

Chapter 6

Special Forest Hills District

(3/24/09)

86-00

GENERAL PURPOSES

The "Special Forest Hills District" established in this Resolution is designed to promote and protect the public health, safety, general welfare and amenity of Forest Hills. The general goals include, among others, the following specific purposes:

- (a) ensure that the form of new buildings is compatible with and relates to the built character of the Forest Hills neighborhood;
- (b) preserve, protect and promote the special character of Austin Street as a regional shopping destination;
- (c) create a graduated transition from the lower-scale character of Austin Street to the higher-scale character of Queens Boulevard;
- (d) support a broad and vibrant mix of commercial and residential uses throughout the Special District;
- (e) enhance the pedestrian setting of Austin Street through appropriate ground floor uses and structural requirements;
- (f) promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's revenue.

(2/2/11)

86-01

Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

(2/2/11)

86-02

General Provisions

In harmony with the general purposes of this Resolution and in accordance with the provisions of the #Special Forest Hills District#, the regulations of this Chapter shall apply within the Special District. Unless modified by the particular provisions of the Special District, the regulations of the underlying zoning districts shall remain in effect. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

Any special permit granted by the Board of Standards and Appeals before March 24, 2009, may be started or continued, in accordance with the terms thereof, or as such terms may be subsequently modified, pursuant to the regulations in effect at the time such special permit was granted, subject to the provisions of Sections 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution) and 11-43 (Renewal of Authorization or Special Permit).

(3/24/09)

86-03

District Plan and Maps

The regulations of this Chapter are designed to implement the District Plan for the #Special Forest Hills District#. The District Plan includes the map of the #Special Forest Hills

District#, which is set forth in the Appendix to this Chapter and is hereby incorporated as part of this Resolution for the purpose of specifying locations where the special regulations and requirements set forth in this Chapter apply.

(3/24/09)

86-10

SPECIAL USE REGULATIONS

(2/2/11)

86-11

Ground Floor Uses Along Designated Streets

Along the portions of Austin Street and 71st Avenue specified on the map in the Appendix to this Chapter as Retail Continuity Streets, #uses# within #stories# that have a floor level within five feet of #curb level#, and within 30 feet of the #street wall#, shall be limited to #commercial# or #community facility uses# permitted by the underlying district and the provisions of Section 86-12 (Modification of Uses on Austin Street).

The ground floor #street# frontage of a #development# or #enlargement# constructed after March 24, 2009, shall be allocated exclusively to such #uses#, except for lobby space, entryways or entrances to subway stations and #accessory# parking spaces. In no event shall the length of #street# frontage occupied by lobby space exceed, in total, 40 feet or 25 percent of the #building's# total #street# frontage, whichever is less.

(3/24/09)

86-12

Modification of Uses Along Austin Street

The #use# regulations in the #Special Forest Hills District# shall be modified to permit Use Groups 10A, 10C, 12A, 12B, 12D and 12E within C2 Districts fronting on Austin Street.

The provisions of Section 32-423 (Limitation on ground floor location) shall not apply to #uses# located along Austin Street.

(2/2/11)

86-13

Location of Uses in Mixed Buildings

The provisions of Section 32-422 (Location of floors occupied by commercial uses) are modified to permit #dwelling units# or #rooming units# on the same #story# as a non-#residential use# provided no access exists between such #uses# at any level containing #dwelling units# or #rooming units# and provided any non-#residential uses# are not located directly over any #dwelling units# or #rooming units#.

Such non-#residential uses#, however, may be located over #dwelling units# or #rooming units# by authorization of the City Planning Commission upon a finding that there is sufficient separation of #residential uses# from non-#residential uses# within the #building#.

(2/2/11)

86-14

Transparency Requirements

For #developments# or #enlargements# constructed after March 24, 2009, the ground floor #street wall# bounding any #commercial# or #community facility use#, other than a #school#, shall be glazed with transparent materials which may include #show windows#, glazed transoms or glazed portions of doors.

For such #community facility uses#, the glazed area shall occupy at least 50 percent of the area of each such ground floor #street wall# measured to a height of 10 feet above the level of the adjoining sidewalk or public access area.

For #commercial uses#, such glazed area shall occupy at least 70 percent of the area of each such ground floor #street wall# measured to a height of 10 feet above the level of the adjoining sidewalk or public access area. Not less than 50 percent of such area shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

(2/2/11)

86-15

Security Gates

For all #commercial# or #community facility uses# located on the ground floor, any security gates installed after March 24, 2009, that are swung, drawn or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street# or any publicly accessible area, except that this provision shall not apply to entrances or exits to parking garages.

(3/24/09)

86-20

SPECIAL BULK REGULATIONS

The applicable #bulk# regulations of the underlying districts shall apply within the #Special Forest Hills District#, except as modified by this Section, inclusive.

(3/24/09)

86-21

Special Floor Area Regulations in C4-5X Districts

In C4-5X Districts within the #Special District#, the underlying #floor area ratio# for #commercial uses# shall not apply. In lieu thereof, the provisions of Section 33-122 (Commercial buildings in all other Commercial Districts) shall be modified to permit a maximum #floor area ratio# of 5.0.

(3/24/09)

86-22

Waiver for Rear Yards

No #rear yards# shall be required for any #commercial# or #community facility use# permitted within a C2-3 District in the #Special Forest Hills District#.

(2/2/11)

86-23

Height and Setback Regulations

#Buildings or other structures# within the Special District shall comply with the height and setback regulations of Section 35-24 (Special Street Wall Location and Height and Setback Regulations in Certain Districts), except as modified by this Section.

(a) In C4-4A Districts

Within the C4-4A District, the maximum base height of the #street wall# shall be 60 feet.

The maximum height of a #building or other structure# within the C4-4A District shall be 70 feet.

(b) In C4-5X Districts

Within the C4-5X District west of 70th Road, the minimum base height of the #street wall# shall be 40 feet and the maximum base height of the #street wall# shall be 60 feet.

The maximum height of a #building or other structure# within the C4-5X District shall be 120 feet, except that within 60 feet of the northerly side of Austin Street between Yellowstone Boulevard and 70th Avenue, the maximum height for #buildings or other structures# shall be 80 feet.

All heights shall be measured from the #base plane#.

(2/2/11)

86-30

SPECIAL PERMIT TO MODIFY USE OR BULK REGULATIONS

For any #zoning lot# within the #Special Forest Hills District#, the City Planning Commission may permit modification of the #use# or #bulk# regulations, other than #floor area ratio# provisions, provided the Commission shall find that such:

- (a) #use# or #bulk# modification will aid in achieving the general purposes and intent of the Special District;
- (b) #use# modification will encourage a lively pedestrian environment along Austin Street;
- (c) modification is the only practicable way to achieve the programmatic requirements of the development;
- (d) modification will enhance the distribution of #bulk# on the #zoning lot#;
- (e) modification of #bulk# will permit adequate access of light and air to surrounding #streets# and properties; and
- (f) #use# or #bulk# modification will relate harmoniously to the character of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(3/24/09)

86-40

SPECIAL OFF-STREET PARKING AND LOADING REGULATIONS

The applicable parking and loading regulations of the underlying districts shall apply within the #Special Forest Hills District#, except as modified by this Section, inclusive.

(3/24/09)

86-41

Parking Regulations for Commercial Uses

For all #commercial uses# located within the #Special Forest Hills District# in parking requirement category (PRC) A, B, B1 or

C, the requirements of Section 36-21 (General Provisions) pertaining to the number of #accessory# off-street parking spaces required for each type of #use# shall be modified to provide one parking space per 400 square feet of #floor area# for all such #uses#.

In the Special District, hotels (PRC-H) shall be required to provide one parking space per 12 guest rooms or suites, or one parking space per 12 persons rated capacity, whichever is greater. Places of assembly (PRC-D) shall be required to provide one parking space per 12 persons rated capacity.

(2/2/11)

86-42

Location of Off-Site Accessory Parking Spaces for Residential Uses

The applicable regulations for the location of permitted or required off-site #accessory# parking spaces for #residential uses# in Sections 36-42 (Off-Site Spaces for Residences) and 36-421 (Maximum distance from zoning lot) shall not apply in the #Special Forest Hills District#. In lieu thereof, such off-site parking spaces, which are #accessory# to a #residential use#, may also be located on any #zoning lot# within the Special District other than the #zoning lot# to which they are #accessory#.

(2/2/11)

86-43

Modification of Parking Requirement Waivers

The waiver provisions of Article III, Chapter 6 (Accessory Off-Street Parking and Loading Regulations), inclusive, shall be modified within the #Special Forest Hills District#, as follows:

- (a) For any #development# or #enlargement# containing #residences#, the waiver modification provisions set forth in Section 36-362 (For developments or enlargements in other C1 or C2 Districts or in C4, C5 or C6 Districts), inclusive, shall not apply. In lieu thereof, the total number of #accessory# off-street parking spaces required in Section 36-30 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR

RESIDENCES WHEN PERMITTED IN COMMERCIAL DISTRICTS), inclusive, shall be waived if the number of spaces for all #uses# on the #zoning lot#, required by the applicable regulations of Section 36-30, inclusive, is five spaces or fewer.

For any #commercial# or #community facility use# permitted in the Special District, the modification waiver provisions for a C4-4 or C4-5 District set forth in Section 36-232 (In districts with very low parking requirements) shall not apply. In lieu thereof, the total number of #accessory# off-street parking spaces required in Section 36-21 (General Provisions) shall be waived if the number of spaces for all #uses# on the #zoning lot#, required by the regulations of Section 36-21, is fewer than 40 spaces.

- (b) The provisions of Sections 36-342 (Reduced requirements in other C1 or C2 Districts or in C4, C5 or C6 Districts) and 36-344 (Waiver of requirements in other C1 or C2 Districts or in C4, C5 or C6 Districts) shall not apply in the #Special Forest Hills District#.
- (c) Within the #Special Forest Hills District#, the provisions of paragraph (a) of this Section and Sections 36-23 (Waiver of Requirements for Spaces Below Minimum Number) and 36-36 (Waiver of Requirements for Small Number of Spaces) shall apply only to #zoning lots# existing both on March 24, 2009, and on the date of application for a building permit.

(3/24/09)

86-44

Location of Access to the Street

The waiver provisions of Article III, Chapter 6 (Accessory Off-Street Parking and Loading Regulations), pertaining to location of access shall be modified within the #Special Forest Hills District#, as follows:

- (a) curb cuts for permitted or required #accessory# off-street parking and loading spaces along Austin Street from 70th Avenue to Ascan Avenue and along 71st Avenue from Austin Street to Queens Boulevard, as shown on the map in the Appendix to this Chapter, shall not be allowed. The Chairperson of the City Planning Commission, however, may

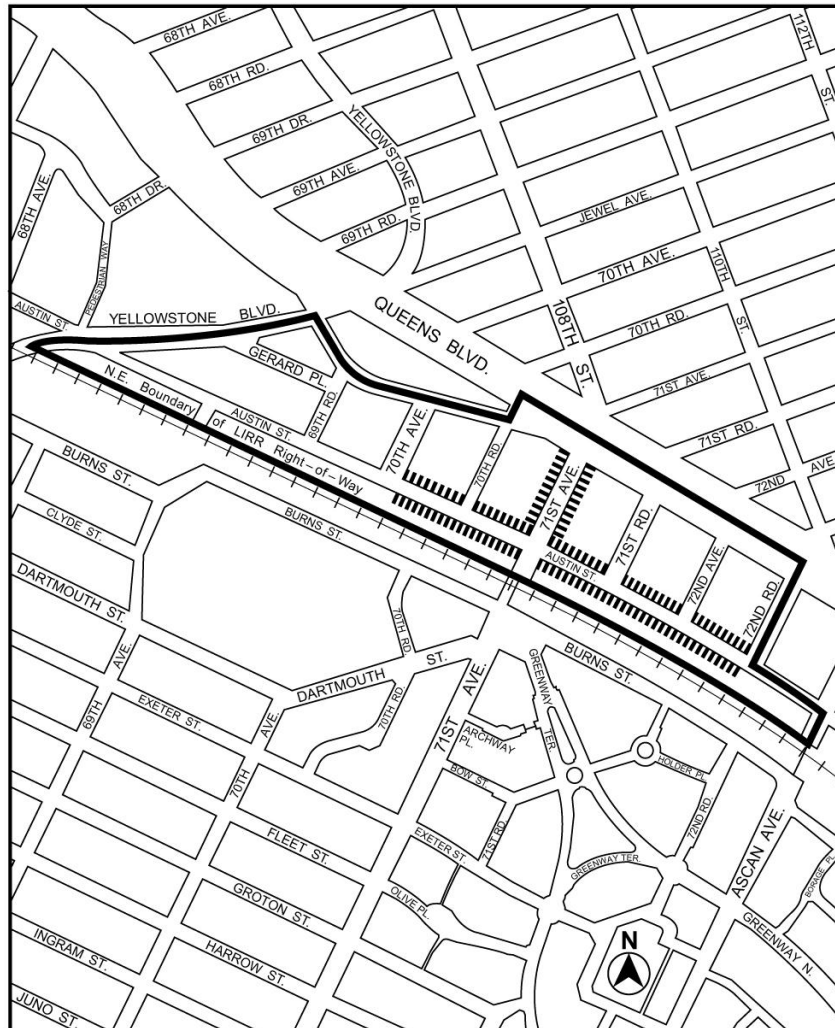

certify to the Commissioner of Buildings that such #zoning lot# has access only to such prohibited location and that a curb cut in that location would not be hazardous to traffic safety and would, if granted, be no wider than 20 feet; and

- (b) an application for certification respecting such curb cut shall be accompanied by a site plan drawn to a scale of at least one sixteenth inch to a foot, showing the size and location of the proposed curb cut.

The Commissioner may refer such matter to the Department of Transportation, or its successor, for a report and may base the determination on such report.

Article VIII - Special Purpose Districts

Chapter 7

Special Harlem River Waterfront District

(2/2/11)

87-00

GENERAL PURPOSES

The "Special Harlem River Waterfront District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) maintain and reestablish physical and visual public access to and along the waterfront;
- (b) create a lively and attractive built environment that will provide amenities and services for the use and enjoyment of area residents, workers and visitors;
- (c) promote the pedestrian orientation of ground floor uses in appropriate locations, and thus safeguard a traditional quality of higher density areas of the City;
- (d) encourage well-designed development that complements the built character of the neighborhood;
- (e) take advantage of the Harlem River waterfront and provide an open space network comprised of parks, public open space and public access areas;
- (f) provide flexibility of architectural design within limits established to assure adequate access of light and air to streets and public access areas, and thus encourage more attractive and economic building forms; and
- (g) promote the most desirable use of land and building development in accordance with the District Plan for the Harlem River waterfront.

(6/30/09)

87-01

Definitions

Parcel 1 building line

The "Parcel 1 building line" shall be:

- (a) in the event that the portion of the Major Deegan Expressway traversing Parcel 1, as shown on Map 1 in the Appendix of this Chapter, has been widened after June 30, 2009, a line 22 feet west of and parallel to the as-built western edge of such Expressway structure; or
- (b) in the event that the portion of the Major Deegan Expressway traversing Parcel 1, as shown on Map 1 in the Appendix to this Chapter, has not been widened after June 30, 2009, a line connecting:
 - (1) a point located on the southern #street line# of East 149th Street that is 47 feet west of its intersection with the western edge of such Expressway structure; and
 - (2) a point on the southern boundary of Parcel 1 that is 107 feet west of its intersection with the western edge of such Expressway structure.

Shore public walkway

A "shore public walkway" is a linear public access area running alongside the shore or water edges of a #platform#, as defined in Section 62-11, on a #waterfront zoning lot#.

Supplemental public access area

A "supplemental public access area" is a public access area provided on a #waterfront zoning lot#, in addition to other required public access areas, in order to fulfill the required #waterfront public access area# requirements.

A #supplemental public access area# shall not include a #shore public walkway# or an #upland connection#.

Upland connection

An "upland connection" is a pedestrian way which provides a public access route from a #shore public walkway# to a public sidewalk within an open and accessible #street#, public mapped parkland or other accessible public place.

Visual corridor

A "visual corridor" is a public #street# or tract of land within a #block# that provides a direct and unobstructed view to the water from a vantage point within a public #street#, public mapped parkland or other public place.

Waterfront block or waterfront zoning lot

A "waterfront block" or "waterfront zoning lot" is a #block# or #zoning lot# in the #waterfront area# having a boundary at grade coincident with or seaward of the #shoreline#. For the purposes of this Chapter:

- (a) a #block# within the #waterfront area# shall include the land within a #street# that is not improved or open to the public, and such #street# shall not form the boundary of a #block#;
- (b) a #block# within the #waterfront area# that abuts public mapped parkland along the waterfront shall be deemed to be part of a #waterfront block#; and
- (c) a #zoning lot# shall include the land within any #street# that is not improved or open to the public and which is in the same ownership as that of any contiguous land.

Any #zoning lot#, the boundaries of which were established prior to November 1, 1993, and which is not closer than 1,200 feet from the #shoreline# at any point and which does not abut public mapped parkland along the waterfront, shall be deemed outside of the #waterfront block#.

Waterfront public access area

A "waterfront public access area" is the portion of a #zoning lot# improved for public access. It may include any of the following: a #shore public walkway#, #upland connection#, #supplemental public access area# or, as defined in Section 62-11, a public access area on a #pier# or #floating structure#.

(10/9/13)

87-02

General Provisions

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Harlem River Waterfront District#, the regulations of the #Special Harlem River Waterfront District# shall apply. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

(6/30/09)

87-03

District Plan and Maps

The regulations of this Chapter are designed to implement the #Special Harlem River Waterfront District# Plan as set forth in the Appendix to this Chapter. The plan area has been divided into parcels consisting of tax blocks and lots as established on June 30, 2009, as follows:

Parcel 1: Block 2349, Lot 112

Parcel 2: Block 2349, Lot 100
(that portion not mapped as parkland*)

Parcel 3: Block 2349, Lots 46, 47, 146

Parcel 4: Block 2349, Lot 38

Parcel 5: Block 2349, Lots 15, 20

Parcel 6: Block 2349, Lots 3, 4

Parcel 7: Block 2323, Lot 43

Parcel 8: Block 2323, Lot 28

Parcel 9: Block 2323, Lots 5, 13, 18

The District Plan includes the following maps:

Map 1. (Special Harlem River Waterfront District and
Parcels)

Map 2. (Waterfront Access Plan: Public Access
Elements).

* in accordance with Alteration Map No. 13124, dated
January 29, 2009, in the Office of the Bronx Borough
President

(3/28/12)

87-04

Applicability of Article VI, Chapter 2

Parcels 1, 2, 3 and 4, as shown on Map 1 (Special Harlem
River District and Parcels) in the Appendix to this
Chapter, shall be considered #waterfront zoning lots#,
notwithstanding the mapping of any #streets# on such
parcels after June 30, 2009.

(3/28/12)

87-05

Modification of Use and Bulk Regulations for Parcels Containing Newly Mapped Streets

In the event that #streets# are mapped on Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, after June 30, 2009, the area within such #streets# may continue to be considered part of the #zoning lot# for the purposes of applying all #use# and #bulk# regulations of this Zoning Resolution.

(2/2/11)

87-10

SPECIAL USE REGULATIONS

The #use# regulations of the underlying districts are modified in Sections 87-11 through 87-24, inclusive.

As used in this Section, "ground floor level" shall mean the finished floor level of a #story# that is within five feet of an adjacent public sidewalk or any other #publicly accessible open area#.

(6/30/09)

87-11

Vehicle Storage Establishments

Commercial or public utility vehicle storage, open or enclosed, including #accessory# motor fuel pumps as listed in Use Group 16C shall be a permitted #use# on Parcel 5, as shown on Map 1 in the Appendix to this Chapter, provided that:

- (a) such #use# is the primary #use# on the parcel;
- (b) no more than 10,000 square feet of #floor area# shall be provided on Parcel 5; and
- (c) a #shore public walkway# is provided as set forth in paragraph (a) of Section 87-61 (Public Access Provisions by Parcel).

The streetscape provisions of Section 87-13, the maximum width of establishment provisions of Section 87-23 and the

special height and setback regulations of Section 87-30, inclusive, shall not apply to such #use#.

(2/2/11)

87-12

Location of Commercial Space

The provisions of Section 32-422 (Location of floors occupied by commercial uses) are modified to permit #residential uses# on the same #story# as a non-#residential use#, provided no access exists between such #uses# at any level containing #residences# and provided any non-#residential uses# are not located directly over any #residential use#. However, such non-#residential uses# may be located over a #residential use# by authorization of the City Planning Commission upon a finding that sufficient separation of #residential uses# from non-#residential uses# exists within the #building#.

(2/2/11)

87-13

Streetscape Regulations

(a) Ground floor #use#

All #uses# shall have a depth of at least 25 feet from #building# walls facing a #shore public walkway#, mapped parkland or an #upland connection#. Lobbies and entrances may not occupy more than 20 feet or 25 percent of such #building# wall width, whichever is less. The level of the finished ground floor shall be located not higher than two feet above nor lower than two feet below the as-built level of the adjacent public sidewalk or other publicly accessible area.

For #buildings# on Parcels 1 through 6, as shown on Map 1 in the Appendix to this Chapter, that face a #shore public walkway#, mapped parkland or #upland connection#, not less than 20 percent of the ground floor level #floor area# of such portions of #buildings#, to a depth of 25 feet, shall consist of

#uses# from Use Groups 6A, 6C, 6F, 8A, 8B and 10A, as set forth in Article III, Chapter 2.

(b) Transparency

Any #building# wall containing ground floor level #commercial# and #community facility uses# that faces a #shore public walkway#, mapped parkland or an #upland connection#, shall be glazed with transparent materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazing shall occupy at least 70 percent of the area of each such ground floor level #building# wall, measured to a height of ten feet above the level of the adjoining public sidewalk or other publicly accessible area or #base plane#, whichever is higher. Not less than 50 percent of the area of each such ground floor level #building# wall shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

(c) Security gates

All security gates that are swung, drawn or lowered to secure #commercial# or #community facility uses# shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street# or publicly accessible area, except that this provision shall not apply to entrances or exits to parking garages.

(6/30/09)

87-14

Location of Underground Uses

Notwithstanding the provisions of Section 62-332 (Rear yards and waterfront yards), underground #uses#, such as parking garages, shall not be allowed in #waterfront yards#.

(6/30/09)

87-20

SPECIAL FLOOR AREA REGULATIONS

The #Special Harlem River Waterfront District# shall be an #Inclusionary Housing designated area#, pursuant to Section 12-10 (DEFINITIONS), for the purpose of making the Inclusionary Housing Program regulations of Section 23-90 (INCLUSIONARY HOUSING), inclusive, applicable as modified within the Special District.

(10/9/13)

87-21

Special Residential Floor Area Regulations

The base #floor area ratio# for any #zoning lot# containing #residences# shall be 3.0. Such base #floor area ratio# may be increased to a maximum of 4.0 through the provision of #affordable housing# pursuant to the provisions for #Inclusionary Housing designated areas# in Section 23-90 (INCLUSIONARY HOUSING), except that the height and setback regulations of Section 23-954 (Height and setback for compensated developments in Inclusionary Housing designated areas) shall not apply. In lieu thereof, the height and setback regulations of this Chapter shall apply.

(2/2/11)

87-22

Special Retail Floor Area Requirement

- (a) For each square foot of #commercial floor area# in a #building# occupied by the #uses# listed in paragraph (a)(1) of this Section, an equal or greater amount of #residential#, #community facility# or #commercial floor area# shall be provided from #uses# listed in paragraph (a)(2) of this Section.

- (1) Use Groups 6A and 6C, except for:

Docks for ferries, other than #gambling vessels#, limited to an aggregate operational passenger

load, per #zoning lot#, of 150 passengers per half hour

Docks for water taxis with vessel capacity limited to 99 passengers

Docks or mooring facilities for non-commercial pleasure boats;

Use Group 10:

Carpet, rug, linoleum or other floor covering stores, with no limitation on #floor area# per establishment

Clothing or clothing accessory stores, with no limitation on #floor area# per establishment

Department stores

Dry goods or fabric stores, with no limitation on #floor area# per establishment;

Use Group 12:

Antique stores

Art gallery, commercial

Billiard parlor or pool halls

Book stores

Bowling alleys or table tennis halls, with no limitation on number of bowling lanes per establishment

Candy or ice cream stores

Cigar and tobacco stores

Delicatessen stores

Drug stores

Eating or drinking establishments with entertainment and a capacity of more than 200 persons, or establishments of any capacity with dancing

Gift shops

Jewelry or art metal craft shops

Music stores

Photographic equipment stores

Record stores

Stationery stores

Toy stores

(2) Use Groups 1 and 2

Use Groups 3, 4A, and 4B, except cemeteries

Use Groups 5A, 6B and 8A

(b) However, the City Planning Commission may authorize a modification or waiver of this provision upon finding that such #building# includes:

- (1) a superior site plan that enables safe and efficient pedestrian connectivity to and between establishments and publicly accessible areas;
- (2) a superior parking and circulation plan that reduces conflicts between pedestrian and vehicular traffic, minimizes open parking lots and limits conflicts between curb cuts;
- (3) a design that enhances and is integrated with publicly accessible areas including provision of a public entrance fronting on a #waterfront public access area#;
- (4) a variety of retail establishments; and

- (5) #uses# that do not unduly affect the #residential uses# in the nearby area or conflict with future land use and development of adjacent areas.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of any such #uses# on publicly accessible areas.

(2/2/11)

87-23

Maximum Width of Establishments

On Parcels 5 and 6, as shown on Map 1 in the Appendix to this Chapter, the width of any ground floor level #commercial# or #community facility# establishments facing a #shore public walkway# or #upland connection#, shall be limited to 60 feet for each #street wall# facing such #shore public walkway# or #upland connection#.

(6/30/09)

87-24

Location of Building Entrances

On Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, the main front entrance of at least one #building#, as the term "main front entrance" is used in the New York City Fire Code, Section 502.1 (FRONTAGE SPACE), or its successor, shall be located facing the #shore public walkway#. Such main front entrance of a #building# shall be:

- (a) on Parcel 1, located no less than 120 feet from 149th Street;
- (b) on Parcel 2, located no less than 95 feet from a mapped parkland; and
- (c) on Parcels 3 and 4, located no less than 45 feet from an #upland connection#.

(6/30/09)

87-30

SPECIAL HEIGHT AND SETBACK REGULATIONS

The underlying height and setback regulations shall not apply. In lieu thereof, the special height and setback regulations of this Section, inclusive, shall apply. For the purposes of applying such regulations:

- (a) a #shore public walkway#, mapped parkland, an #upland connection# or fire apparatus access road, as required by the New York City Fire Code, shall be considered a #street# and its boundary shall be considered a #street line#. However, the following shall not be considered #streets# for the purposes of applying the #street wall# location provisions of paragraph (a) of Section 87-32:
 - (1) Exterior Street; and
 - (2) that portion of any other #street#, mapped parkland, #upland connection# or fire apparatus access road that is located east of the #Parcel 1 building line#; and
- (b) the height of all #buildings or other structures# shall be measured from the #base plane#.

(4/30/12)

87-31

Permitted Obstructions

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings#. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c)(1) of Section 23-621 (Permitted obstructions in certain districts).

(2/2/11)

87-32

Street Wall Location and Building Base

(a) #Street wall# location

The #street wall# of a #building# shall be located within five feet of the #street line# and extend along the entire frontage of the #zoning lot#, except that:

- (1) ground floor level recesses up to three feet deep shall be permitted for access to #building# entrances;
- (2) to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#;
- (3) for #buildings# that are required to locate at least one main front entrance facing a #shore public walkway#, pursuant to Section 87-24 (Location of Building Entrances), no portion of the #street wall# containing such entrance shall be closer to the #shore public walkway# than the main front entrance; and
- (4) no portion of a #building# facing a #shore public walkway#, except on Parcel 1, as shown on Map 1 in the Appendix to this Chapter, shall exceed a width of 300 feet.

However, on Parcel 1, in order to accommodate a sewer easement located within an area bounded by the eastern boundary of the #shore public walkway#, East 149th Street, a line 120 feet south of and parallel to East 149th Street and a line 120 feet east of and parallel to the #shore public walkway#, no #street wall# shall be required along that portion of East 149th Street and any fire apparatus access road within such easement area. Such area not developed as a fire apparatus access road and open to the sky shall be at least 35 percent planted and shall not be used for parking or loading. Furthermore, in the event such area contains a driveway, it shall be screened from the #shore public walkway# and East 149th Street, except for curb cuts and pedestrian paths, with

densely planted evergreen shrubs maintained at a height of three feet.

(b) Minimum and maximum base heights

The #street wall# shall rise without setback to a minimum base height of six #stories# or 60 feet, or the height of the #building#, whichever is less, and a maximum base height of eight #stories# or 85 feet, whichever is less, before a setback is required. However, on Parcels 5 and 6, as shown on Map 1 in the Appendix to this Chapter, for #street walls# facing a #shore public walkway#, the minimum base height shall be 20 feet and the maximum base height shall be four #stories# or 40 feet, whichever is less, before a setback is required. Any portion of a #building or other structure# that does not exceed such maximum base heights shall hereinafter be referred to as a "building base."

All portions of #buildings or other structures# that exceed the maximum base heights set forth in this paragraph, (b), shall be set back from the #street wall# at least ten feet along a #shore public walkway#, mapped parkland and Exterior Street, and at least 15 feet along an #upland connection#.

For #buildings# that exceed a height of eight #stories# or 85 feet, except on Parcels 5, 6, 7 and 9, as shown on Map 1 in the Appendix to this Chapter, not more than 40 percent of the #aggregate width of street walls# facing a #shore public walkway# shall rise without setback to at least a height of six #stories# or 60 feet, whichever is less, and at least 40 percent of the #aggregate width of street walls# facing a #shore public walkway# shall rise without setback to at least a height of eight #stories# or 85 feet, whichever is less.

Above the level of the second #story#, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no recesses are located within 15 feet of an adjacent #building# or within 30 feet of the intersection of two #street lines#, except where corner articulation is provided as set forth in paragraph (a)(1) of this Section.

(c) Transition heights

All #street walls#, except on Parcels 5 and 6, may rise to a maximum transition height of 115 feet, provided that, except on Parcel 7, not more than 60 percent of the #aggregate width of street walls# facing a #shore public walkway# exceeds a height of 85 feet. On Parcels 5 and 6, a #street wall# may rise to a maximum transition height of 85 feet, without limitation.

All portions of #buildings# that exceed the transition heights set forth in this paragraph, (c), shall comply with the tower provisions of Section 87-33.

(2/2/11)

87-33

Towers

All #stories# of a #building# located partially or wholly above the applicable transition height set forth in paragraph (c) of Section 87-32 shall be considered a "tower" and shall comply with the provisions of this Section. For #zoning lots# with less than 130,000 square feet of #lot area#, only one tower shall be permitted. For #zoning lots# with 130,000 square feet of #lot area# or more, not more than two towers shall be permitted.

(a) Maximum tower height

For #zoning lots# with 100,000 square feet of #lot area# or less, the maximum height of a #building# shall be 300 feet. The maximum height of #buildings# on #zoning lots# with more than 100,000 square feet of #lot area# shall be 400 feet. For #zoning lots# with two towers, however, such maximum #building# height of 400 feet shall apply to not more than one tower and a maximum #building# height of 260 feet shall apply to the second tower. There shall be a height differential of at least 40 feet between towers.

(b) Location rules for #zoning lots# adjacent to mapped parkland

Where a tower is provided on a #zoning lot# adjacent to mapped parkland, such tower or portion thereof shall be located within 85 feet of such mapped parkland, and if two towers are provided on such #zoning lot#, the second tower or portion thereof shall be located either within 120 feet of East 149th Street or within 45 feet of an #upland connection#. Where two towers are provided on a #zoning lot# adjacent to mapped parkland, the shorter of the towers shall be located nearer the mapped parkland.

(c) Maximum tower size

The outermost walls of each #story# located entirely above the applicable transition height shall be inscribed within a rectangle. The maximum length of any side of such rectangle shall be 135 feet. Each #story# of a tower located entirely above the applicable transition height shall not exceed a gross area of 8,800 square feet.

(d) Tower top articulation

All #buildings# that exceed a height of 200 feet shall provide articulation in accordance with at least one of following provisions:

(1) Setbacks on each tower face

- (i) For #buildings# less than 260 feet in height, the highest three #stories#, or as many #stories# as are located entirely above a height of 200 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#;
- (ii) For #buildings# 260 feet or more in height, the highest four #stories#, or as many #stories# as are located entirely above a height of 260 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of

80 percent of the #story# immediately below such #stories#.

Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph, (d)(1), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(2) Three setbacks facing Harlem River

The upper #stories# of a tower shall provide setbacks with a minimum depth of 15 feet measured from the west-facing wall of the #story# immediately below. Such setbacks shall be provided at the level of three different #stories#, or as many #stories# as are located entirely above a height of 230 feet, whichever is less. The lowest level at which such setbacks may be provided is 230 feet, and the highest #story# shall be located entirely within the eastern half of the tower.

(6/30/09)

87-40

SPECIAL REQUIREMENTS FOR CERTAIN ROADS AND SIDEWALKS

(6/30/09)

87-41

Fire Apparatus Access Roads

Where a fire apparatus access road is provided as required by the New York City Fire Code, such road shall comply with the following requirements:

- (a) the width of a paved road bed shall be 34 feet, constructed to minimum Department of Transportation standards for public #streets#, including curbs and curb drops;
- (b) curbs shall be provided along each side of the entire length of such road;
- (c) a minimum 13 foot paved sidewalk shall be provided adjacent to and along the entire length of the required curb;
- (d) for the purposes of making the #street# tree requirements of Section 26-41 applicable to fire apparatus access roads, a fire apparatus access road shall be considered a #street#; and
- (e) all such roads shall be constructed with lighting, signage, materials and crosswalks to minimum Department of Transportation standards for public #streets#.

(2/2/11)

87-42

Sidewalks

In the event that Parcel 1, as shown on Map 1 in the Appendix to this Chapter, is #developed# with #mixed use buildings#, as defined in Section 123-11, sidewalks shall be provided on Parcel 1, as follows:

- (a) Sidewalks with a depth of at least 15 feet, measured perpendicular to the curb of a #street#, shall be provided along the entire Exterior Street and East 149th Street frontage of a #zoning lot#. In locations where the width of the sidewalk within the #street# is less than 15 feet, a sidewalk widening shall be provided on the #zoning lot# so that the combined width of the sidewalk within the #street# and the sidewalk widening equals 15 feet. However, existing

#buildings# to remain on the #zoning lot# need not be removed in order to comply with this requirement.

- (b) A 22 foot wide walkway shall extend east of and along the #Parcel 1 building line#, linking East 149th Street and mapped parkland, or a fire apparatus access road if such road is provided adjacent to mapped parkland. In the event that a parking lot is provided east of such walkway, the easternmost seven feet of such walkway shall be densely planted with evergreen shrubs maintained at a maximum height of three feet above the adjoining walkway. Such walkway and planting strip may be interrupted to allow vehicular or pedestrian access.
- (c) Any driveway located east of the #Parcel 1 building line# that extends along a sewer easement and intersects Exterior Street shall have curbs and sidewalks with a minimum width of 13 feet along each curb, which may be interrupted to allow for vehicular access to a parking lot.

All sidewalks and sidewalk widenings shall be constructed or improved to Department of Transportation standards, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

(2/2/11)

87-50

SPECIAL PARKING REGULATIONS

The following provisions shall apply to all parking facilities:

- (a) Use of parking facilities

All #accessory# off-street parking spaces may be made available for public use; any such space, however, shall be made available to the occupant of a #residence# to which it is #accessory# within 30 days after written request therefore is made to the landlord.

(b) Off-site parking

The off-site parking location provisions of Sections 36-42 and 36-43 shall not apply. In lieu thereof, all permitted or required off-street parking spaces may be provided on a #zoning lot# other than the same #zoning lot# to which such spaces are #accessory#, provided the lot to be used for parking is within the #Special Harlem River Waterfront District#.

(c) Location requirements for parking facilities

No parking facility, open or enclosed, shall front upon or be visible from:

- (1) a #shore public walkway#, except as provided for in paragraph (e) of this Section for Parcel 5;
- (2) any #upland connection# or mapped parkland, or portion thereof, that is located west of the #Parcel 1 building line#.

(d) Design requirements for enclosed off-street parking facilities

All enclosed off-street parking facilities shall be located either entirely below the level of any #street# or open area accessible to the public upon which such facility fronts or, when located above grade, in compliance with the following provisions:

- (1) The provisions of this paragraph, (d)(1), shall apply to facilities facing a #shore public walkway#, an #upland connection#, mapped parkland, or the northern #street line# of 138th Street.

Such facilities shall be located at every level above grade, behind #commercial#, #community facility# or #residential floor area# with a minimum depth of 25 feet as measured from any #building# wall facing a #shore public walkway#, or facing that portion of an #upland connection# or mapped parkland located west of the #Parcel 1 building line# so that no portion of such parking facility is visible from the #shore public walkway#, #upland connection# or mapped parkland.

All such parking facilities shall be exempt from the definition of #floor area#.

On Parcel 6, as shown on Map 1 in the Appendix to this Chapter, the ground floor of a #building# within 60 feet of the intersection of Exterior Street and East 138th Street shall be occupied to a depth of 25 feet with #commercial#, #community facility# or #residential floor area# so that no portion of a parking facility is visible from such portion of Exterior Street or East 138th Street.

- (2) The provisions of this paragraph, (d)(2), shall apply to facilities not facing a #shore public walkway#, or that portion of an #upland connection# or mapped parkland located west of the #Parcel 1 building line#, or the northern #street line# of East 138th Street.

Such facilities shall be designed so that:

- (i) any non-horizontal parking deck structures are not visible from the exterior of the #building# in elevation view;
- (ii) opaque materials are located on the exterior #building# wall between the bottom of the floor of each parking deck and no less than three feet above such deck; and
- (iii) a total of at least 50 percent of such exterior #building# wall with adjacent parking spaces consists of opaque materials which may include permitted #signs#, graphic or sculptural art, or living plant material.

(e) Open parking lots

The requirements of Section 37-90 (PARKING LOTS) and screening requirements for open parking lots of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), are modified as set forth in this paragraph, (e).

For the purposes of applying the requirements of Section 37-90, a fire apparatus access road shall be considered a #street#.

On Parcel 1, for parking lots or portions thereof located east of the #Parcel 1 building line#, no landscaping shall be required. Such parking lots shall be screened from #streets# and any other publicly accessible areas by ornamental fencing, excluding chain link fencing, with a surface area at least 50 percent open and not more than four feet in height. However, along that portion of Exterior Street located between East 149th Street and a sewer easement, a seven foot wide strip, densely planted with evergreen shrubs maintained at a height of three feet shall be provided.

On Parcel 5, as shown on Map 1 in the Appendix to this Chapter, if a commercial or public utility vehicle storage #use#, as listed in Use Group 16C, is #developed# or #enlarged# as the primary #use# on the parcel, the screening requirements applicable to open parking lots set forth in Article VI, Chapter 2, shall not apply. In lieu thereof, such open parking lot shall be screened from the adjacent #shore public walkway# and #upland connection# with a wall or fence, other than a chain link fence, not more than 50 percent opaque, and at least five feet in height, but not more than six feet in height.

(f) Roof parking

Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, that is larger than 400 square feet, shall be landscaped. Up to five percent of such roof area may be used for mechanical equipment, provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least three feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the #building# in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(6/30/09)

87-51

Curb Cut Restrictions

On Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, no curb cuts shall be provided facing a #shore public walkway#, and further, on Parcel 2, no curb cuts shall be provided facing mapped parkland.

(6/30/09)

87-60

HARLEM RIVER WATERFRONT ACCESS PLAN

Map 2 (Waterfront Access Plan: Public Access Elements) in the Appendix to this Chapter shows the boundaries of the area comprising the Harlem River Waterfront Access Plan and the location of certain features mandated or permitted by the Plan.

(2/2/11)

87-61

Special Public Access Provisions

The provisions of 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) shall apply to #developments#, #enlargements#, alterations or changes of #use#, as follows:

(a) #Shore public walkways#

(1) The #shore public walkway# shall be constructed at an elevation of two feet above the highest level of the Oak Point Rail Link, except that:

(i) on Parcels 6 and 7, no such elevation requirement shall apply;

- (ii) on Parcel 5, if commercial or public utility vehicle storage, as listed in Use Group 16C, is #developed# or #enlarged# as the primary #use# on the #zoning lots#, such elevation requirement shall not apply. However, for any other #use#, such elevation requirement shall only apply along the westernmost section of the #shore public walkway# to a depth of 40 feet; and
 - (iii) on all #zoning lots#, a #shore public walkway# shall be required to meet the grade of an existing adjacent #street#, which may include deviating from such elevation requirement where necessary.
- (2) A dead-end fire apparatus access road turnaround, as defined in the New York City Fire Code, Section 503.2.5 (Dead-ends), or its successor, may by certification extend into a designated #shore public walkway# as set forth in Section 87-73 (Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways).
- (3) In the event that a portion of a #waterfront zoning lot# is within 40 feet of the #shoreline# yet does not abut the #shoreline# because of an intervening #zoning lot#, a #shore public walkway# shall be provided on such upland portion. The width of the #shore public walkway# on such portion shall be 40 feet measured from the #shoreline# of the intervening #zoning lot# and shall include the width of the intervening #zoning lot#. The portion of such #shore public walkway# located upland of the intervening #zoning lot# shall be improved with a circulation path at least ten feet wide, and any required planted screening buffer shall have a width of at least four feet.
- (4) On Parcel 5, if a commercial or public utility vehicle storage #use# is #developed# or #enlarged# as the primary #use# on the parcel, the #shore public walkway# requirements set forth in Section 62-62 shall apply, except that:

- (i) the required width of the #shore public walkway# may be reduced to a minimum of 20 feet along the northern edge of the inlet and may be reduced to a minimum of 30 feet along the eastern edge of the inlet;
- (ii) the circulation path required in paragraph (a)(1) of Section 62-62 shall be modified to a minimum width of 10 feet along the northern and eastern edge of the inlet;
- (iii) the screening provisions of paragraph (c)(2) of Section 62-62 shall not apply. In lieu thereof, a planted screening buffer with a width of four feet shall be provided. Such planted buffer shall consist of densely planted shrubs or multi-stemmed screening plants, with at least 50 percent being evergreen species. Shrubs shall have a height of at least four feet at the time of planting; and
- (iv) in the event that the #upland connection# on Parcel 6 has not been provided, a ten foot wide pedestrian walkway between the #shore public walkway# and Exterior Street shall be provided on Parcel 5 adjacent to such #upland connection# location.

(b) #Upland connections#

#Upland connections# shall be located on Parcels 3, 4 and 6, as designated on Map 2 in the Appendix to this Chapter.

The provisions of Sections 62-50 are modified, as follows:

- (1) Parcel 3 may provide the #upland connection# at either of the two optional locations indicated on Map 2.
- (2) The required width for an #upland connection# on Parcel 6 is reduced to 12 feet. Such #upland connection# shall be subject only to the applicable pedestrian path provisions.

(c) #Supplemental public access areas#

#Supplemental public access areas#, pursuant to this Plan, shall be provided on Parcels 1 and 2, as indicated on Map 2 in the Appendix to this Chapter. However, the requirement may be waived by certification by the Chairperson of the City Planning Commission as set forth in Section 87-62 (Certification to Waive Supplemental Public Access Area Requirement).

(d) #Visual Corridors#

#Visual corridors# shall be located within Parcels 1 and 4, and mapped parkland, as indicated on Map 2 in the Appendix to this Chapter.

(2/2/11)

87-62

Certification to Waive Supplemental Public Access Area Requirement

For Parcels 1 and 2, the requirement to provide a designated #supplemental public access area#, as indicated on Map 2 in the Appendix to this Chapter, may be waived by the Chairperson of the City Planning Commission, provided that:

- (a) the site plan includes a vehicular connection through the #zoning lot# pursuant to the design guidelines set forth in Section 87-41 (Fire Apparatus Access Roads);
- (b) a declaration of restrictions has been provided, pursuant to Section 87-64;
- (c) the design meets all applicable connection requirements set forth in Section 87-66 (Connection with Adjacent Zoning Lots); and
- (d) such a vehicular connection, either:
 - (1) on Parcel 1, provides access between East 149th Street and Exterior Street, serving all

#buildings# along the #shore public walkway# and mapped parkland; or

- (2) on Parcel 2, provides a bi-directional connection between Exterior Street at its intersection with East 144th Street and the southernmost #lot line#.

(2/2/11)

87-63

Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways

On Parcels 2, 3 and 4, a dead-end fire apparatus access road turnaround, as defined in the New York City Fire Code, Section 503.2.5 (Dead-ends) may, by certification, extend into the designated #shore public walkway#, provided that:

- (a) a declaration of restrictions has been provided, pursuant to Section 87-64;
- (b) a fire apparatus access road abutting the shared #zoning lot line# between the #development#, #enlargement#, alteration or change of #use# seeking certification under this Section and Parcels 2, 3 or 4 does not exist; and
- (c) the fire apparatus access road serves as a segment of a bi-directional loop road along the #shore public walkway#, providing a connection to Exterior Street at the northeast corner of Parcel 2 and a connection to Exterior Street at the southeast corner of Parcel 4.

Such turnaround shall have a diameter of 70 feet and be located at the end of the fire apparatus access road, abutting the adjacent #lot line#. At no point may the turnaround extend into the #shore public walkway# for a distance greater than 23 feet. Sidewalks shall not be required adjacent to the turnaround. The portion of the turnaround that lies within a #shore public walkway# shall remain clear of obstacles, shall be composed of permeable materials, and shall meet all applicable requirements set forth in the New York City Fire Code Section 503.1.1 (Fire apparatus access roads), or its successor. In addition, the

roadbed material of a fire apparatus access road leading to a vehicular turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage. In addition, the level of the area within the turnaround shall be raised to be flush with the level of adjoining sidewalks.

(2/2/11)

87-64

Declaration of Restrictions

For any fire apparatus access road proposed for certification pursuant to Sections 87-62 or 87-63, a declaration of restrictions shall be provided to guarantee the construction, improvement, operation, maintenance and repair of such road, to guarantee that such road remains open, unobstructed and accessible to all members of the public, except as necessary to avoid public dedication, and to ensure compliance with all applicable provisions. Such declaration of restrictions shall be prepared in a form acceptable to the Department of City Planning, shall be filed and duly recorded in the Borough Office of the Register of the City of New York and indexed against the property. Filing and recording of the declaration of restrictions shall be a precondition for the Chairperson's certification under Sections 87-62 and 87-63, where applicable.

For certifications proposed pursuant to Section 87-63, at the time a declaration of restrictions has been provided by the adjacent #development#, #enlargement#, alteration or change of #use#, pursuant to this Section, permitting vehicular connection between #zoning lots#, the #zoning lot# containing a previously-constructed fire apparatus access turnaround shall be responsible for the following actions on the portion of the connection on such #zoning lot#:

- (a) deconstructing the fire apparatus access road turnaround;

- (b) re-landscaping the area that had extended into the #shore public walkway#, so as to create the conditions of the immediately surrounding #shore public walkway#, which may include any combination of tree planting, laying sod, removing pavers, or any other required landscaping action;
- (c) extending all required sidewalks that had remained short of the #lot line# to the shared #lot line# to connect to the required adjacent sidewalks and enable pedestrian movement across parcels; and
- (d) complying with all applicable waterfront rules, #street# regulations and the New York City Fire Code.

(6/30/09)

87-65

Applicability of Waterfront Regulations

In the event that #streets# are mapped on Parcels 1, 2, 3 and 4 after June 30, 2009, the area within such #streets# may continue to be considered part of the #zoning lot# for the purposes of applying all waterfront regulations of the Zoning Resolution.

(2/2/11)

87-66

Connection with Adjacent Zoning Lots

The following provisions apply to #developments#, #enlargements#, alterations or changes of #use#, pursuing certification, pursuant to either Section 87-62 (Certification to Waive Supplemental Public Access Area Requirement) or 87-63 (Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways).

On each of Parcels 2, 3 and 4, and only among Parcels 2, 3 and 4, a #development#, #enlargement#, alteration or change of #use#, shall provide a connection for bi-directional vehicular travel at an adjacent #zoning lot line# if such adjacent #zoning lot# has previously constructed a

connection that terminates at the shared #lot line#. Any connection of fire apparatus access roads across a shared #zoning lot line# must meet the grade of, and maintain the street width of, the existing adjacent private street. In addition to such physical shared #lot line# connection, a #private road# declaration shall be provided pursuant to the provisions of Section 87-64. A connection need not be opened unless and until such declaration of restrictions, in accordance with Section 87-64, has been recorded against the adjacent #zoning lot#.

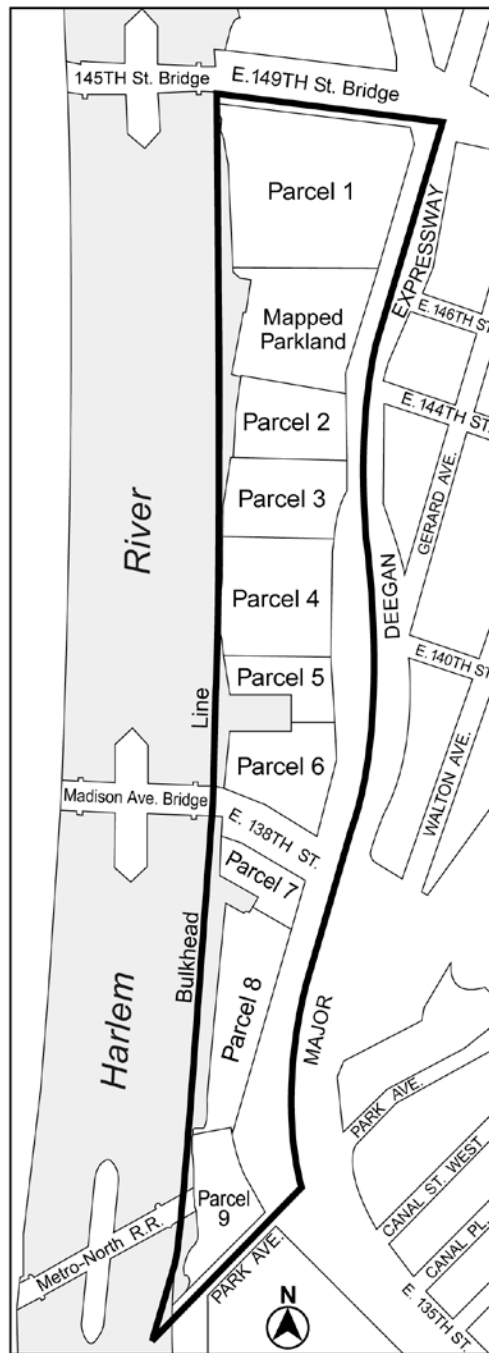

When no connection for vehicular travel terminating at the opposite side of a shared #lot line# exists, a dead-end fire apparatus access road turnaround may be constructed, pursuant to Section 87-63, which may extend into the designated #shore public walkway#. Such certification is also contingent upon providing a declaration of restrictions, in accordance with Section 87-64.

Article VIII - Special Purpose Districts

Chapter 8

Special Hudson Square District

(3/20/13)

88-00

GENERAL PURPOSES

The "Special Hudson Square District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) support the growth of a mixed residential, commercial and industrial neighborhood by permitting expansion and new development of residential, commercial and community facility uses while promoting the retention of commercial uses and light manufacturing uses;
- (b) recognize and enhance the vitality and character of the neighborhood for workers and residents;
- (c) encourage the development of buildings compatible with existing development;
- (d) regulate conversion of buildings while preserving continued manufacturing or commercial use;
- (e) encourage the development of affordable housing;
- (f) promote the opportunity for workers to live in the vicinity of their work;
- (g) retain jobs within New York City; and
- (h) promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect City tax revenues.

(3/20/13)

88-01

Definitions

Definitions specifically applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS).

Qualifying building

For the purposes of this Chapter, a "qualifying building" shall be any #building# that contained at least 70,000 square feet of #floor area# on March 20, 2013.

(10/9/13)

88-02

General Provisions

In harmony with the general purposes and intent of this Resolution and the general purposes of the #Special Hudson Square District#, the provisions of this Chapter shall apply within the #Special Hudson Square District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

(3/20/13)

88-03

District Plan and Maps

The regulations of this Chapter are designed to implement the #Special Hudson Square District# Plan. The District Plan includes the map, "Special Hudson Square District and Subdistrict," in the Appendix to this Chapter which is hereby incorporated and made part of this Resolution for the purpose of specifying locations

where the special regulations and requirements set forth in this Chapter apply.

(3/20/13)

88-04 Subdistricts

In order to carry out the purposes and provisions of this Chapter, Subdistrict A is established. The Subdistrict is specified on the map in the Appendix to this Chapter.

(3/20/13)

88-05 Applicability of District Regulations

(3/20/13)

88-051 Applicability of Article I, Chapter 5

The conversion to #dwelling units# of non-#residential buildings# erected prior to January 1, 1977, or portions thereof, shall be permitted subject to Sections 15-11 (Bulk Regulations), 15-12 (Open Space Equivalent) and 15-30 (MINOR MODIFICATIONS), paragraph (b), except as superseded or modified by the provisions of this Chapter.

(3/20/13)

88-052 Applicability of district bulk regulations to certain enlargements

Notwithstanding any of the provisions of Section 11-33 (Building Permits for Minor or Major Development or Other Construction Issued Before Effective Date of Amendment), for the #enlargement# of a #building# which is the subject of Department of Buildings application number 121326742 filed on December 3, 2012, to create

a single commercial development, such #enlarged building# shall not be subject to the height and setback regulations of Section 88-33, paragraph (b), and may continue, provided that a building permit has been issued for such commercial development within two years of March 20, 2013. In addition, should the #zoning lot# which is the subject of the above-referenced Department of Buildings application merge with an adjacent #zoning lot# containing #wide street# frontage on Sixth Avenue, such a #zoning lot# merger and the subsequent combining of adjacent #buildings# shall not be deemed to create a new #non-compliance#, nor an increase in the degree of #non-compliance# in regards to Section 88-33, paragraph (b)(4), (Maximum length of #street wall#).

(3/20/13)

88-10

SUPPLEMENTAL USE REGULATIONS

All permitted #uses# in the underlying districts, as set forth in Section 42-10 (USES PERMITTED AS-OF-RIGHT), shall comply with the provisions set forth in this Section, inclusive.

(3/20/13)

88-11

Residential Use

#Residential use# shall be permitted in accordance with the provisions of this Section.

(a) #Residential use# as-of-right

#Residential use# shall be permitted as-of-right on any #zoning lot# that, on March 20, 2013, was not occupied by a #qualifying building#. As a condition to receiving a building permit, such absence of a #qualifying building# on the #zoning lot# must be demonstrated to the satisfaction of the Department of Buildings.

(b) #Residential use# by certification

#Residential use# shall be permitted on a #zoning lot# that, on March 20, 2013, was occupied by one or more #qualifying

buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot#, as it existed on March 20, 2013, will contain at least the amount of non-#residential floor area# that existed within such #qualifying buildings# on the #zoning lot# on March 20, 2013, subject to the following:

- (1) non-#residential floor area# that is preserved within existing non-#qualifying buildings# on the #zoning lot# through restrictive declaration may count towards meeting the requirements of this certification; and
- (2) #floor area# from #community facility uses# with sleeping accommodations shall not count towards meeting the requirements of this certification.

However, non-#residential floor area# converted to #residential# vertical circulation space and lobby space need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such #qualifying buildings# on March 20, 2013, on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change of #use# from non-#residential# to #residential#, or for any #development# containing #residences#.

(3/20/13)

88-12

Community Facility Use

The #community facility use# regulations applicable in M1 Districts shall not apply in the #Special Hudson Square District#. In lieu thereof, all #community facility uses# listed in Use Groups 3 and 4 shall be permitted, except that #community facilities# with sleeping accommodations shall only be permitted in accordance with paragraphs (a) or (b) of this Section, as applicable.

- (a) #Community facilities# with sleeping accommodations shall be permitted as-of-right on any #zoning lot# that, on March 20, 2013, was not occupied by a #qualifying building#. As a condition to receiving a building permit, such absence of a #qualifying building# on the #zoning lot# shall be demonstrated to the satisfaction of the Department of Buildings.
- (b) #Community facilities# with sleeping accommodations shall be permitted on a #zoning lot# that, on March 20, 2013, was occupied by one or more #qualifying buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot# will contain at least the amount of non-#residential floor area# that existed within #qualifying buildings# on the #zoning lot# on March 20, 2013, subject to the following:
 - (1) non-#residential floor area# that is preserved within existing non-#qualifying buildings# on the #zoning lot# through restrictive declaration may count towards meeting the requirements of this certification; and
 - (2) #floor area# from #community facility uses# with sleeping accommodations shall not count towards meeting the requirements of this certification.

However, non-#residential floor area# converted to vertical circulation and lobby space associated with a #community facility# with sleeping accommodations need not be replaced as non-#residential floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of non-#residential floor area# that existed within such #qualifying buildings# on March 20, 2013, on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change of #use# from non-#residential# to #community facility uses# with sleeping accommodations, or for any #development# containing #community facility uses# with sleeping accommodations.

- (c) Ground floor #community facility uses# shall be subject to the streetscape provisions set forth in Section 88-131.

(3/20/13)

88-13

Commercial Use

The #commercial use# regulations applicable in M1 Districts shall apply in the #Special Hudson Square District#, except that:

- (a) food stores, including supermarkets, grocery stores or delicatessen stores, shall not be limited as to the size of the establishment;
- (b) #uses# listed in Use Group 6A, other than food stores, and Use Groups 6C, pursuant to Section 42-13, 6E, 10 and 12B, shall be limited to 10,000 square feet of #floor area# at the ground floor level, per establishment. Portions of such establishments located above or below ground floor level shall not be limited in size;
- (c) ground floor #commercial uses# shall be subject to special streetscape provisions set forth in Section 88-131;
- (d) #commercial uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive;
- (e) #transient hotels# shall be allowed, except that:
 - (1) #development# or #enlargement# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11, shall only be allowed upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the residential development goal has been met for the #Special Hudson Square District# as set forth in this paragraph, (e)(1), or, where such residential development goal has not been met, by special permit pursuant to Section 88-132 (Special permit for large transient hotels).

The residential development goal shall be met when at least 2,255 #dwelling units#, permitted pursuant to the provisions of Section 88-11, within the #Special Hudson Square District#, have received temporary or final

certificates of occupancy subsequent to March 20, 2013;
and

(2) a change of #use# within a #qualifying building# to a #transient hotel# with greater than 100 sleeping units shall only be allowed by special permit, pursuant to Section 88-132; and

(f) eating or drinking establishments with entertainment and a capacity of more than 200 persons, or establishments of any capacity with dancing, are permitted only by special permit of the Board of Standards and Appeals, pursuant to Section 73-244.

(3/20/13)

88-131

Streetscape provisions

For #zoning lots# with #street# frontage of 50 feet or more, the location of certain #uses# shall be subject to the following #use# requirements.

(a) For #uses# located on the ground floor or within five feet of #curb level#, limited to Use Groups 6A, 6C, 7B, 8A, 8B, 9A, 10A, 12A and 12B, shall have a depth of at least 30 feet from the #building# wall facing the #street# and shall extend along a minimum of 50 percent of the width of the #street# frontage of the #zoning lot#.

(b) The remainder of the #street# frontage of the #zoning lot# may be occupied by any permitted #uses#, lobbies or entrances to parking spaces, except that lobbies shall be limited to a total width of 40 feet per #street# frontage. The 30 foot minimum depth requirement shall not apply where a reduction in such depth is necessary in order to accommodate a #residential# lobby or vertical circulation core.

(c) In Subdistrict A of this Chapter, for portions of a #building# bounding a #public park#, the ground floor #use# requirements of paragraph (a) of this Section shall apply to 100 percent of the width of the #street# frontage of the #zoning lot#, and #residential# lobbies and #schools# shall be permitted #uses# on the ground floor for purposes of compliance with paragraph (a).

For #zoning lots# with #street# frontage of less than 50 feet, no special ground floor #use# requirements shall apply.

Enclosed parking spaces, or parking spaces covered by a #building#, including such spaces #accessory# to #residences#, shall be permitted to occupy the ground floor, provided they are located beyond 30 feet from the #building# wall facing the #street#.

Any ground floor #street wall# of a #development# or #enlargement# that contains #uses# listed in Use Groups 1 through 15, not including #dwelling units#, shall be glazed with transparent materials which may include #show windows#, transom windows or glazed portions of doors, provided such transparent materials have a minimum width of two feet. Such transparency shall occupy at least 50 percent of the surface area of each such ground floor #street wall# between a height of two feet, and 12 feet or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. The lowest level of any transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the #curb level#, with the exception of transom windows. In addition, the maximum width of a portion of the ground floor level #street wall# without transparency shall not exceed ten feet. However, where an entrance to a parking facility is provided, the requirements of this Section shall not apply to that portion of the ground floor #street wall# occupied by such an entrance.

(3/20/13)

88-132

Special permit for large transient hotels

(a) #Developments# or #enlargements#

In the #Special Hudson Square District#, prior to the residential development goal set forth in paragraph (e) of Section 88-13 (Commercial Use) having been achieved, the City Planning Commission may permit #developments# or #enlargements# of #transient hotels# with greater than 100 sleeping units on #zoning lots# where #residential use# is permitted as-of-right, in accordance with paragraph (a) of Section 88-11, provided the Commission finds that:

- (1) sufficient development sites are available in the area to meet the residential development goal; or
- (2) a harmonious mix of #residential# and non-#residential uses# has been established in the surrounding area, and such #transient hotel# resulting from a #development# or #enlargement# is consistent with the character of such surrounding area.

(b) Changes of #use#

In the #Special Hudson Square District#, the City Planning Commission may permit the change of #use# of #floor area# within #qualifying buildings# to a Use Group 5 #transient hotel# with greater than 100 sleeping units provided that, at minimum, the amount of #floor area# changed to such #transient hotel# is:

- (1) preserved for Use Group 6B office #use# within a #qualifying building# located within the #Special Hudson Square District#; or
- (2) created for Use Group 6B office #use# within a #building developed# after March 20, 2013, or within the #enlarged# portion of a #building#, where such #enlargement# was constructed within one year of the date an application pursuant to this Section is filed with the Department of City Planning (DCP). Such #developed# or #enlarged buildings# may be located anywhere within the #Special Hudson Square District#, and shall have either temporary or final certificates of occupancy for Use Group 6B office #use#.

In order to permit such change of #use#, the Commission shall find that the proposed #transient hotel# is so located as not to impair the essential character, or the future use or development, of the surrounding area.

A restrictive declaration acceptable to the DCP shall be executed and recorded, binding the owners, successors and assigns to preserve an amount of Use Group 6B office #use# within a #qualifying building#, or created within a #development# or #enlargement#, as applicable. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for

any building permit related to a change in #use# from Use Group 6B office #use# to any other #use#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(3/20/13)

88-14 **Manufacturing Use**

In the #Special Hudson Square District#, #manufacturing uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive.

(3/20/13)

88-20 **SIGN REGULATIONS**

In the #Special Hudson Square District#, #signs# are subject to the regulations applicable in C6-4 Districts, as set forth in Section 32-60, inclusive.

(3/20/13)

88-30 **SPECIAL BULK REGULATIONS**

Except as modified in this Chapter, the following bulk regulations shall apply:

- (a) For #developments#, #enlargements#, or changes of #use# containing #residences#, the #bulk# regulations of an R10 District, as set forth in Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residence Districts), shall apply;

(b) For #developments#, #enlargements#, or changes of #use# containing #manufacturing#, #commercial# or #community facility uses#, the #bulk# regulations set forth in Article IV, Chapter 3 (Bulk Regulations), shall apply.

For the purposes of applying the regulations of this Section, Greenwich Street shall be a #wide street#.

(3/20/13)

88-31

Floor Area Regulations

Except in Subdistrict A of this Chapter, the maximum #floor area# ratio for #zoning lots# that do not contain #residences# shall be 10.0; no #floor area# bonuses shall apply.

The maximum base #floor area ratio# for #zoning lots# that contain #residences# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0. Such #floor area ratio# may be increased to a maximum of 12.0 only as set forth in Section 88-32 (Inclusionary Housing).

(3/20/13)

88-311

Special floor area regulations in Subdistrict A

For #zoning lots# in Subdistrict A of this Chapter that do not contain #residences#, the maximum #floor area ratio# shall be 10.0; no #floor area# bonuses shall apply.

For #zoning lots# in Subdistrict A containing #residences#, the maximum #floor area ratio# shall be 9.0 plus an amount equal to 0.25 times the non-#residential floor area ratio# provided on the #zoning lot#, provided that such base #floor area ratio# does not exceed 10.0.

Any floor space designated for #use# as a #school# shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community

facility uses# and the total maximum #floor area ratio# of the #zoning lot#, provided that such school is either:

- (a) a public school, subject to the jurisdiction of the New York City Department of Education, pursuant to an agreement accepted by the School Construction Authority; or
- (b) a charter school, subject to the New York State Education Law, pursuant to an agreement with a charter school organization.

(3/20/13)

88-32

Inclusionary Housing

The #Special Hudson Square District#, except Subdistrict A, shall be an #Inclusionary Housing designated area#, and the provisions of Section 23-90 (INCLUSIONARY HOUSING) applicable to R10 Districts shall apply.

(3/20/13)

88-33

Height and Setback

In the #Special Hudson Square District#, the height and setback regulations of the underlying districts shall not apply. In lieu thereof, the provisions of this Section shall apply to all #buildings#.

- (a) Rooftop regulations

- (1) Permitted obstructions

The provisions of Section 33-42 shall apply to all #buildings#, except that elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a maximum height limit, provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a

figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or that the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet.

In addition, dormers may penetrate a maximum base height provided that on any #street# frontage, the aggregate width of all dormers at the maximum base height does not exceed 60 percent of the length of the #street wall# of the highest #story# entirely below the maximum base height. For each foot of height above the maximum base height, the aggregate width of all such dormers shall be decreased by one percent of the #street wall# width of the highest #story# entirely below the maximum base height.

(2) Screening requirements for mechanical equipment

For all #developments#, #enlargements# and #conversions# of non-#residential floor area# to #residences#, all mechanical equipment located on any roof of a #building or other structure# shall be fully screened on all sides. However, no such screening requirements shall apply to water tanks.

(b) Height and setback

(1) #Street wall# location

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to the minimum base height or the height of the #building#, whichever is less. On #narrow streets# beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line#. For the purposes of this paragraph, (b), portions of #street walls# located up to 18 inches from a #street line# shall be considered to be located on the #street line# where a vertical element of such #street wall# is located on the #street line# and rises without setback from ground level to the top of the second #story# at intervals of at least once every 15 feet in plan and, above the level of the second #story#, where a

vertical element rises without setback to the applicable minimum base height at an interval of at least once every 30 feet in plan.

On the ground floor, recesses shall be permitted where required to provide access to the #building#, provided such recesses do not exceed three feet in depth as measured from the #street line#.

Above the level of the ground floor, recesses shall be permitted beyond 20 feet of an adjacent #building# and beyond 30 feet of the intersection of two #street lines#, as follows:

(i) Along #wide streets#

Recesses shall be provided at the level of each #story# entirely above a height of 60 feet, up to the maximum base height of the #building#. Such recesses shall have a minimum depth of five feet and a width between 10 and 40 percent of the #aggregate width of street wall# of the #building# at the level of any #story#.

(ii) Along #narrow streets#

Above the level of the second #story#, recesses in #street walls# deeper than 18 inches shall be permitted. Such recesses may not exceed 30 percent of the #aggregate width of street wall# of the #building# at the level of any #story#.

(2) Base height

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 125 feet and a maximum base height of 150 feet.

On #narrow streets#, beyond 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 60 feet, or the height of the #building#, whichever is less, up to a maximum base height of 125 feet.

As an alternative, the minimum and maximum base heights applicable to a #wide street# may apply along a #narrow street# to a distance of 100 feet from its intersection with a #wide street#.

(3) Required setbacks and maximum #building# heights

(i) Along #wide streets#

The provisions of this paragraph, (b)(3)(i), shall apply to #buildings#, or portions thereof, located on #wide streets#, and on #narrow streets# within 100 feet from their intersection with a #wide street#. The portion of such #building# above a height of 150 feet shall be set back from the #street wall# of the #building# at least 10 feet along a #wide street# and at least 15 feet along a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#. The maximum height of such #buildings# shall be 290 feet. In addition, the gross area of each of either the highest two or three #stories# of such #building# located entirely above a height of 230 feet, shall not exceed 80 percent of the gross area of the #story# directly below such highest two or three #stories#.

(ii) Along #narrow streets#

The provisions of this paragraph, (b)(3)(ii), shall apply to #buildings#, or portions thereof, located on #narrow streets# beyond 100 feet from their intersection with a #wide street#.

The portion of such #building# above a height of 125 feet shall be set back from the #street wall# of the #building# at least 15 feet, except such dimensions may include the depth of any permitted recesses in the #street wall#.

The maximum height of such #buildings# shall be 185 feet. However, for #buildings# that include #floor area compensation# pursuant to Sections 88-32 and 23-90 (Inclusionary Housing) for the provision of an amount of #low income floor area# not less than 20 percent of the #residential floor area# on the #compensated zoning lot#, the maximum height of

such #building# shall be 210 feet where such #building# is on a #block# with a depth between #narrow streets# of more than 180 feet, and the maximum height of such #building# shall be 230 feet where such #building# is on a #block# where the depth between #narrow streets# is less than 180 feet.

For #buildings# containing #residences#, all portions of such #building# exceeding a height of 125 feet above the level of the #residential rear yard# shall be set back no less than ten feet from a #rear yard line#. No setback shall be required for #buildings# that include #floor area compensation# pursuant to Sections 88-32 and 23-90 for the provision of an amount of #low income floor area# not less than 20 percent of the #residential floor area# on the #compensated zoning lot#.

(4) Maximum length of #street wall#

The maximum length of any #street wall# located entirely above a height of 150 feet shall not exceed 150 feet. Such length shall be measured in plan view by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a level of 150 feet. As an alternative, for #street walls# facing #wide streets# that provide vertical articulation, such maximum length may be increased to 175 feet, provided that between 30 and 40 percent of the width of the #street wall# is recessed at least five feet from all adjacent #street walls# above a height of 150 feet.

(5) Vertical #enlargements#

- (i) Existing #buildings# may be vertically #enlarged# by up to one #story# or 15 feet without regard to the #street wall# location requirements of paragraphs (b)(1) and (b)(2) of this Section.
- (ii) Existing #buildings# with #street walls# that rise without setback to a height of at least 80 feet may be vertically #enlarged# in excess of one #story# or 15 feet without regard to the #street wall# location requirements of paragraphs (b)(1) and (b)(2) of this Section, provided such #enlarged# portion is located at least 10 feet from a #wide

street# and at least 15 feet from a #narrow street#.

(3/20/13)

88-331

Special height and setback regulations in Subdistrict A

For #zoning lots# in Subdistrict A of this Chapter, the regulations in paragraph (b) of Section 88-33 applicable to #wide streets# shall apply, except where modified or superseded by the regulations of this Section.

(a) Maximum #building# height

The maximum height of #buildings# shall be 430 feet.

(b) #Lot coverage#

Below a height of 290 feet, #buildings# shall have a minimum #floor area# coverage of at least 30 percent of the #lot area# of the #zoning lot#. Above a height of 290 feet, #buildings# shall have a minimum #floor area# coverage of at least 20 percent of the #lot area# of the #zoning lot#.

(c) Modification of #bulk# regulations for #zoning lots# bounding a #public park#

In the case of a #zoning lot line abutting# the boundary of a #public park#, such #zoning lot line# shall be considered to be a #wide street line# for the purposes of applying all #bulk# regulations of this Resolution, except for #street wall# regulations. For the purposes of applying #street wall# regulations in the case of a #zoning lot line abutting# the boundary of a #public park#, a line no more than 45 feet west of and parallel to the nearest boundary line of the #public park# shall be considered a #wide street line#.

(d) #Street wall# location

The #street wall# provisions of this Chapter shall apply, except that, for the portion of a #building# bounding a #public park#, the #street wall# shall be located at the #street line# for at least 50 percent of the frontage

bounding the #public park# and shall rise to the minimum base height, but not higher than the maximum base height.

(3/20/13)

88-332
Courts

Those portions of #buildings# that contain #residences# shall be subject to the court provisions applicable in R10 Districts as set forth in Section 23-80 (Court Regulations, Minimum Distance between Windows and Walls or Lot Lines and Open Area Requirements), inclusive.

(3/20/13)

88-40
YARD REGULATIONS

In the #Special Hudson Square District#, except as provided in Section 88-41 (Rear yard regulations for shallow through lots), the #yard# provisions applicable in R10 Districts shall apply to the #residential# portion of a #building#, and the #yard# provisions applicable in C6 Districts shall apply to non-#residential buildings#, or the non-#residential# portion of a #building#.

(3/20/13)

88-41
Rear Yard Regulations for Shallow Through Lots

For #through lot# portions of #zoning lots# located beyond 100 feet of a #wide street#, where the maximum depth of such #through lot# between #narrow streets# is 180 feet or less, any required #rear yard equivalent# shall be provided as an open area with a minimum depth of 60 feet, midway (or within ten feet of being midway) between the two #narrow street lines# upon which such #through lot# fronts.

(3/20/13)

88-50

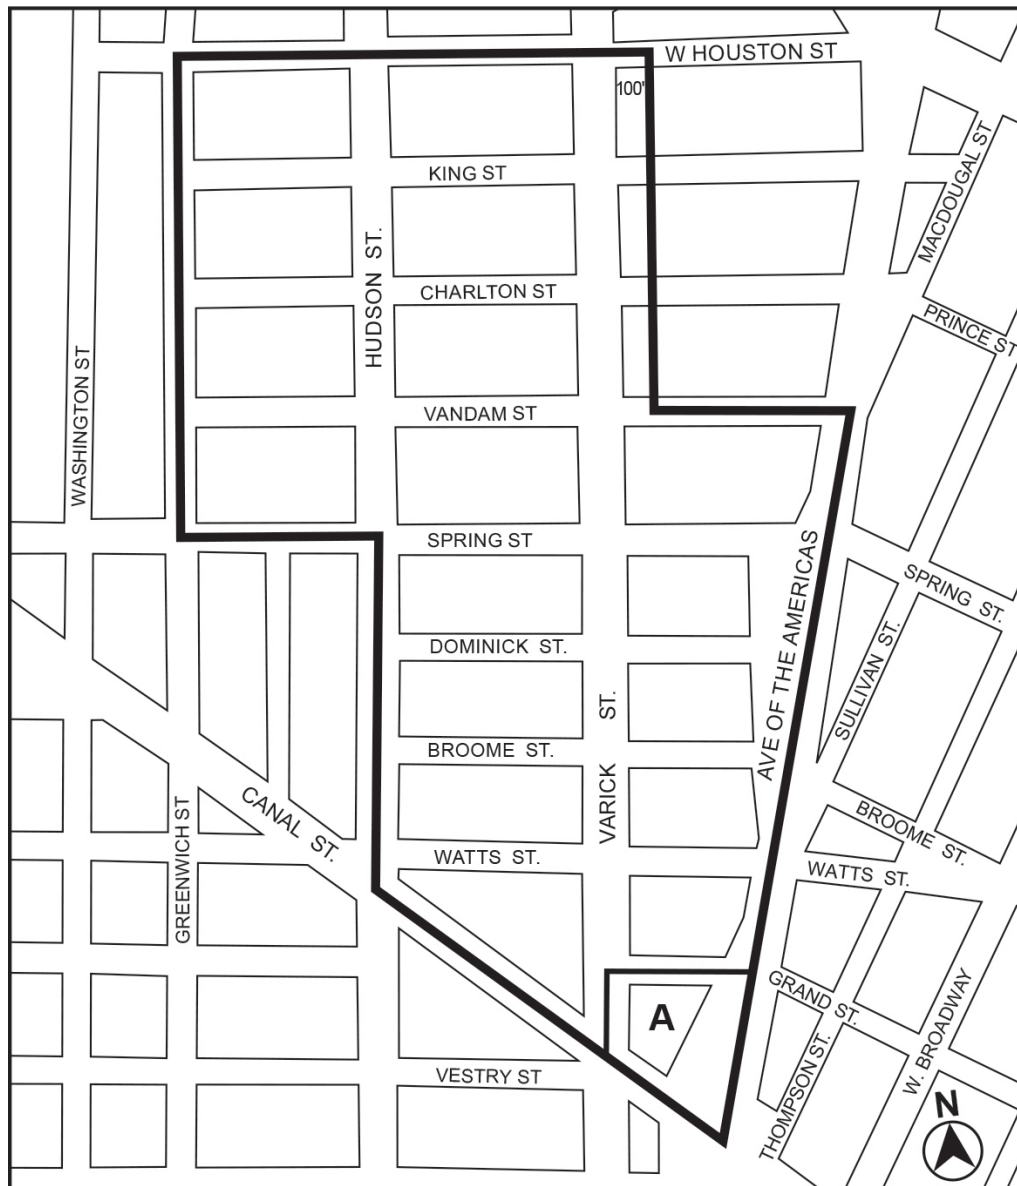

PARKING AND LOADING REGULATIONS AND CURB CUT LOCATIONS

In the #Special Hudson Square District#, the parking regulations applicable in C6-4 Districts, as set forth in Article III, Chapter 6, and as modified, pursuant to Article I, Chapter 3 (Comprehensive Off-Street Parking Regulations in Community Districts 1,2,3,4,5,6,7 and 8 in the Borough of Manhattan and a Portion of Community Districts 1 and 2 in the Borough of Queens) shall apply.

GENERAL PURPOSES

The "Special Lower Manhattan District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) encourage development of a 24-hour community through the conversion of older commercial buildings to residential use;
- (b) facilitate maximum design flexibility of buildings and enhance the distinctive skyline and streetscape of Lower Manhattan;
- (c) improve public use and enjoyment of the East River waterfront by creating a better physical and visual relationship between development along the East River and the waterfront area, public access areas and the adjoining upland community;
- (d) enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities;

- (e) restore, preserve and assure the use of the South Street Seaport Subdistrict as an area of small historic and restored buildings, open to the waterfront and having a high proportion of public spaces and amenities, including a South Street Seaport Environmental Museum, with associated cultural, recreational and retail activities;
- (f) establish the Historic and Commercial Core to protect the existing character of this landmarked area by promoting development that is harmonious with the existing scale and street configuration; and
- (g) promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

(10/9/13)

91-01

General Provisions

Except as modified by the express provisions of the #Special Lower Manhattan District#, the regulations of the underlying zoning districts shall remain in effect.

Requirements that apply generally throughout the District are set forth in the provisions for this Chapter. The provisions of Section 91-40 (MANDATORY DISTRICT PLAN ELEMENTS) specify planning and urban design features that are primarily oriented toward the accommodation and well-being of pedestrians.

For requirements that are not generally applicable but are tied to specific locations within the Special District, the locations where these requirements apply are shown on District Map 2 (Street Wall Continuity Types 1, 2A, 2B & 3), Map 3 (Street Wall Continuity Types 4 & 5), Map 4 (Designated Retail Streets) and Map 5 (Curb Cut Prohibitions) in Appendix A. Certain #sign# regulations that apply to landmark #buildings# with #street walls# fronting Broadway are set forth in Section 91-134.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to all areas of the #waterfront area# within the #Special Lower Manhattan District#, except as otherwise provided in Section 91-60 (REGULATIONS FOR THE SOUTH

STREET SEAPORT SUBDISTRICT) for Piers 9, 11, 13 and 14. Piers 9, 11, 13 and 14 are shown on Maps 1 and 6 in Appendix A.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

An existing public amenity, open or enclosed, that was a mandatory requirement or received a #floor area# bonus pursuant to the provisions of the former Special Greenwich Street Development District, eliminated on August 27, 1998, shall not be removed, reduced in size or in any way altered, other than pursuant to the provisions of Section 91-71 (Authorization for the Modification of Required Public Amenities).

Special regulations governing the development of three specific sites in the #Special Lower Manhattan District# are set forth in the following Sections:

Section 91-72 (Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel)

Section 91-73 (Special Provisions for Battery Park Underpass/South Street).

(2/2/11)

91-02

Definitions

For the purposes of this Chapter, matter in italics is defined in Sections 12-10 or 91-62 (Definitions).

(5/11/11)

91-03

District Maps

District maps are located in Appendix A of this Chapter and are hereby incorporated and made an integral part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements, as set forth in the

text of this Chapter, apply.

(2/2/11)

91-04

Subdistrict and Core Areas

In order to carry out the purposes and provisions of this Chapter, the South Street Seaport Subdistrict and the Historic and Commercial Core are established within the #Special Lower Manhattan District# and include specific regulations designed to advance the purpose of these areas:

(a) The South Street Seaport Subdistrict

The South Street Seaport Subdistrict contains certain provisions that do not apply to other areas of the Special District. Except as otherwise provided in the Subdistrict regulations, the Subdistrict is subject to all other regulations of the #Special Lower Manhattan District# and the underlying districts. The requirements for the South Street Seaport Subdistrict are set forth in Section 91-60 (SPECIAL REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT).

The Subdistrict is shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A.

(b) The Historic and Commercial Core

The Historic and Commercial Core has been established to promote development compatible with existing #buildings# that border the area whose street plan has been accorded landmark status by the New York City Landmarks Commission as the Streetplan of New Amsterdam and Colonial New York. Height and setback provisions for the Historic and Commercial Core are set forth in Sections 91-31 through 91-33.

The Core is bounded by Broadway and Wall, Whitehall and Water Streets, as shown on Map 1 (Special Lower Manhattan District) in Appendix A.

(2/2/11)

91-05

Applicability of the Quality Housing Program

Within the #Special Lower Manhattan District#, #buildings# containing #residences# may be #developed# or #enlarged# in accordance with the provisions of Article II, Chapter 8 (The Quality Housing Program), except that the #bulk# regulations of Section 28-11 shall be superseded by the #bulk# regulations of this Chapter. Recreation space required pursuant to Section 28-30 (RECREATION SPACE AND PLANTING AREAS) shall be in addition to any recreation space required pursuant to this Chapter.

(8/27/98)

91-06

Applicability of Article VII Provisions

(8/12/04)

91-061

Applicability of special permits by the Board of Standards and Appeals

Within the #Special Lower Manhattan District#, the following

Board of Standards and Appeals special permits shall not be applicable or shall be applicable only as modified.

The following special permit by the Board of Standards and Appeals shall not be applicable:

Section 73-68 (Modifications of Height, Setback and Rear Yard Regulations)

The following special permits by the Board of Standards and Appeals shall be applicable as modified:

Section 73-21 (Automotive Service Stations) shall not apply on #zoning lots# with frontage on any #street# listed on Map 2 or Map 4 in Appendix A

Section 73-244 (In C2, C3, C4*, C6-4**, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall also apply in C5 Districts to eating or drinking establishments with entertainment, including musical entertainment or dancing, and a capacity of more than 200 persons.

(8/27/98)

91-062

Applicability of special permits by the City Planning Commission

Within the #Special Lower Manhattan District#, the following special permits by the City Planning Commission shall not be applicable or shall be applicable within C5 Districts.

The following special permits by the City Planning Commission shall not be applicable:

Section 74-721 (Modification of Height, Setback and Yard Regulations)

Section 74-82 (Through Block Arcades)

The following special permits by the City Planning Commission shall be applicable also within C5 Districts:

Section 74-41 (Arenas, Auditoriums, Stadiums or Trade
Expositions)

Section 74-46 (Indoor Interactive Entertainment
Facilities).

(12/21/09)

91-07

**Modification of Use and Bulk Regulations for Zoning Lots Fronting
Upon DeLury Square Park**

Where the #lot line# of a #zoning lot# coincides with, or is
within 20 feet of, the boundary of DeLury Square Park, such #lot
line# shall be considered to be a #street line# for the purposes
of applying all #use# and #bulk# regulations of this Resolution.

(8/27/98)

91-10

SPECIAL USE REGULATIONS

(8/27/98)

91-11

Modification of Use Regulations in C5 Districts

(8/27/98)

91-111

Additional uses in C5 Districts

In addition to the special permit #uses# cited in Section 91-06,
the #use# regulations for C5 Districts within the #Special Lower
Manhattan District# are modified to permit the following #uses#:

From Use Group 7:

Use Groups 7B and 7E

From Use Group 8:

Use Groups 8A*, 8B and 8E

From Use Group 12:

Use Groups 12A**, 12B, 12C and 12E

* inclusive of the waiting area requirements for theaters as listed in Use Group 8A

** except for eating or drinking establishments as listed in Use Group 12A

(8/12/04)

91-112

Eating and drinking establishments with dancing in C5 Districts

In all C5 Districts within the #Special Lower Manhattan District#, in addition to eating and drinking establishments permitted pursuant to Section 32-15 (Use Group 6), the following types of eating and drinking establishments shall be permitted:

eating or drinking establishments with entertainment, including musical entertainment or dancing, with a total capacity of 200 persons or fewer, provided that the dance floor or area, if any, does not exceed 400 square feet. The locational and waiting area requirements for eating or drinking establishments of Section 73-244 (In C2, C3, C4*, C6-4**, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall apply;

eating or drinking establishments with entertainment, including musical entertainment or dancing, with a capacity of more than 200 persons, pursuant to the provisions of Section 73-244, as modified in Section 91-061 (Applicability of special permits by the Board of Standards and Appeals).

(8/27/98)

91-113

Location of certain commercial uses

In C5 Districts within the #Special Lower Manhattan District#, the provisions of Section 32-423 (Limitation on ground floor location) shall not apply.

(2/2/11)

91-12

Uses on Designated Retail Streets

On designated retail #streets#, as shown on Map 4 in Appendix A, for #buildings developed# or #enlarged# after August 27, 1998, where the ground floor level of such #development# or #enlarged# portion of the #building# fronts upon such #streets#, #uses# within #stories# on the ground floor or with a floor level within five feet of #curb level#, shall be limited to only those #uses# permitted by the underlying regulations and Section 91-111 (Additional uses in C5 Districts), other than automobile showrooms or plumbing, heating or ventilating equipment showrooms, or any of the #uses# listed in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 or 12D.

(8/27/98)

91-13

Sign Regulations

In the #Special Lower Manhattan District#, except as modified by the provisions of this Section, inclusive, the regulations of Section 32-60, et. seq., pertaining to #signs#, shall apply.

(8/27/98)

91-131

Illuminated signs in C5 Districts

In all C5 Districts within the #Special Lower Manhattan District#, not more than one #illuminated#, non-#flashing sign#, other than an #advertising sign#, with a total #surface area# not

exceeding eight square feet shall be permitted for each #street# frontage of the #zoning lot#. Such #sign# may be located only within a window of a #building#.

(8/27/98)

91-132

Banner regulations

In all C5 and C6 Districts within the #Special Lower Manhattan District#, in lieu of the provisions of Section 32-652 (Permitted projection in all other Commercial Districts), banners may project across a #street line# for a maximum distance of eight feet.

In C5-3 or C5-5 Districts within the Special District, in lieu of the provisions of Section 32-655 (Height of signs in all other Commercial Districts), banners may extend above #curb level# to a maximum height of 40 feet.

(5/9/01)

91-133

Height of signs in C6-9 Districts

In C6-9 Districts within the #Special Lower Manhattan District#, the regulations of Section 32-655 (Height of signs in all other Commercial Districts) may be modified to allow a maximum height of 50 feet above #curb level#, provided the City Planning Commission certifies that the design features of the existing #building#, as they appear on May 9, 2001, would unduly obstruct the visibility of the #sign# without such modification. An application for such certification shall be filed with detailed plans showing compliance with this Section.

(5/14/03)

91-134

Signs on landmark buildings fronting Broadway in C5-5 Districts

In addition to #signs# and banners otherwise permitted pursuant

to this Section, 91-13, et. seq., within 100 feet of Broadway in C5-5 Districts, on any #building# with a #street wall# fronting Broadway that is a landmark designated by the Landmarks Preservation Commission, the applicable #sign# regulations of Section 32-60 shall be modified according to the following provisions, provided such #signs# and any alterations to the #building# connected with such #signs# have received a certificate of appropriateness or other permit from the Landmarks Preservation Commission.

- (a) #Illuminated# non-#flashing signs# other than #advertising signs# are permitted with a total #surface area# (in square feet) not to exceed 50 square feet along any #street# frontage.
- (b) No permitted #sign# shall extend above #curb level# at a height greater than 30 feet.
- (c) No permitted #sign# shall project across a #street line# more than 60 inches.
- (d) Permitted #signs# displayed on awnings may also include commercial copy related to the type of business, profession, commodity, service or entertainment conducted, sold or offered within such #building#.

(8/27/98)

91-20

FLOOR AREA AND DENSITY REGULATIONS

(2/2/11)

91-21

Maximum Floor Area Ratio

The basic maximum #floor area ratio# on a #zoning lot# is specified in the table in Section 91-22 (Floor Area Increase Regulations) and may be increased only pursuant to the #floor area# increase and bonus provisions of this Chapter.

Notwithstanding the #floor area# increase and bonus provisions of this Chapter, the maximum permitted #floor area ratio# on a

#zoning lot# for #residential use# shall be 12.0.

(2/2/11)

91-22

Floor Area Increase Regulations

The basic maximum #floor area ratio# (FAR) of the underlying district may be increased by the inclusion of specific additional bonus #floor area# for a maximum #floor area ratio# as specified in the table in this Section.

The provisions of paragraph (c) of Section 74-792 (Conditions and limitations), pertaining to the transfer of development rights from landmark sites, shall be subject to the restrictions on the transfer of development rights (FAR) of a landmark "granting lot" as set forth in this table. Wherever there may be an inconsistency between any provision in Section 74-79 and the table, the provisions of the table shall apply.

(2/2/11)

91-23

Floor Area Increase for Provision of Recreation Space

In C5-3, C5-5 and C6-9 Districts, the #residential floor area ratio# of a #zoning lot# may be increased to 12.0, provided that recreation space, for the #residential# occupants of the #building# on such #zoning lot#, is provided in an amount not less than 13 square feet for each #rooming unit#, 16.25 square feet for each #dwelling unit# or a total area of at least 5,000 square feet, whichever is greater.

Such recreation space may be located at any level, including a roof, and shall:

- (a) be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;
- (b) be directly accessible from a lobby or other public area served by the #residential# elevators;
- (c) be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;
- (d) contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet; and
- (e) have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be enclosed. In no event may more than 25 percent of the required recreation space be fully enclosed. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreation facilities or seating areas.

A copy of requirements (a) through (e) shall be permanently posted in a conspicuous place within each recreation space.

(2/2/11)

91-24

Floor Area Bonus for Public Plazas

The maximum permitted #floor area# on a #zoning lot# may be increased, in accordance with the following regulations, where a #public plaza# is provided that meets the requirements of Section 37-70 (PUBLIC PLAZAS):

- (a) A #floor area# bonus for a #public plaza# shall not be permitted for any #development# or #enlargement# that is located within:
 - (1) the Historic and Commercial Core;
 - (2) the South Street Seaport Subdistrict; or
 - (3) 50 feet of a #street line# of a designated #street# on which:
 - (i) retail continuity is required, pursuant to Section 91-41 (Regulations for Designated Retail Streets); or
 - (ii) #street wall# continuity is required, pursuant to the regulations for Type 1 or Type 2A #street walls# pursuant to Section 91-31 (Street Wall Regulations).
- (b) For each square foot of a #public plaza#, the basic maximum #floor area# permitted by Section 91-22 (Floor Area Increase Regulations) may be increased, in C6-4 Districts, by six square feet, to a maximum #floor area# ratio of 12.0 and, in C5-3, C5-5 and C6-9 Districts, by ten square feet, to a maximum #floor area# ratio of 18.0.
- (c) When a #public plaza# that meets the requirements for a #floor area# bonus is located on a #zoning lot# divided by a district boundary, the bonusable #floor area# may be credited to either portion of the #zoning lot#, notwithstanding the location of the #public plaza# or the date of the creation of the #zoning lot#. The amount of bonusable #floor area# permitted on either portion of the #zoning lot# shall not exceed the maximum amount of #floor area# permitted on such portion if it were a separate #zoning lot# subject to all other provisions of Article VII, Chapter 7.

(2/2/11)

91-25

Special Permit Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, the City Planning Commission may grant the following special permits for increased #floor area# in accordance with the provisions of this Section.

(2/2/11)

91-251

Special permit for subway station improvements

Within the #Special Lower Manhattan District#, the City Planning Commission may grant, by special permit, a #floor area# bonus for #zoning lots# that provide subway station improvements, pursuant to the provisions of Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Maximum Floor Area Ratio) or 91-22 (Floor Area Increase Regulations).

For the purposes of the Special District, the #zoning lot# that will receive the #floor area# bonus shall be located within a #Commercial District# with a #floor area ratio# of 10.0 or above and shall be adjacent to a subway station where major improvements have been provided. Upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway.

The subway stations where such improvements are permitted are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

Station	Line
Bowling Green	Lexington Avenue

(2/2/11)

91-252

Special permit for covered pedestrian space

In C5-3, C5-5, C6-4 and C6-9 Districts within the #Special Lower Manhattan District#, except within the South Street Seaport Subdistrict, the City Planning Commission may grant, by special permit, a #floor area# bonus for a #commercial#, #community facility# or #mixed building# that provides #covered pedestrian space# on a #zoning lot#, in accordance with the provisions of Section 74-87 (Covered Pedestrian Space).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Maximum Floor Area Ratio) and 91-22 (Floor Area Increase Regulations).

(4/30/03)

91-30

HEIGHT AND SETBACK AND LOT COVERAGE REGULATIONS

For all #buildings or other structures# in the #Special Lower Manhattan District#, the height and setback regulations of the

underlying districts are superseded by the regulations of this Section.

The height of all #buildings or other structures# shall be measured from #curb level#.

(2/2/11)

91-31

Street Wall Regulations

For the purposes of applying the #street wall# regulations of this Section, #developments# shall include alterations and #enlargements# that change the height, width or location of a #street wall#.

All portions of #buildings or other structures# located above the maximum base heights specified in paragraph (a) of this Section shall provide a setback in accordance with the regulations of Section 91-32 (Setback Regulations).

- (a) Within the Special District, the maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater, except as provided for the following types of #street wall# regulations:

- (1) #Street wall# regulations: Type 1

For #developments# that front upon a #street# indicated as "Type 1" on Map 2 (Street Wall Continuity Types 1, 2A, 2B & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 150 feet or the height of the #building#, whichever is less. The maximum base height shall be 250 feet.

- (2) #Street wall# regulations: Type 2A

For #developments# that front upon a #street# indicated as "Type 2A" on Map 2 in Appendix A, #street walls# shall extend along such entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 85 feet or the

height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(3) #Street wall# regulations: Type 2B

For #developments# that front upon a #street# indicated as "Type 2B" on Map 2 in Appendix A, #street walls# shall extend along at least 60 percent of such #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(4) #Street wall# regulations: Type 3

For #developments# that front upon a #street# indicated as "Type 3" on Map 2 in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 60 feet, five stories, or the height of the #building#, whichever is less. The maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater.

(5) #Street wall# regulations: Type 4

For #developments# that front upon a #street# within the Historic and Commercial Core, indicated as "Type 4" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, the maximum base height shall be 100 feet.

(6) #Street wall# regulations: Type 5

For #developments# that front upon a #street# indicated as "Type 5" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, no setbacks are required for any portion of a #building#.

- (b) For #developments# that front upon a #street# indicated as "Type 1" or "Type 2A," at least 70 percent of the #aggregate width of street walls# shall be located on such #street line#. For #developments# that front upon a #street# indicated as "Type 2B," at least 60 percent of the #aggregate width of street walls# shall be located within 10 feet of such #street line#. For #developments# that front upon a #street# indicated as "Type 3," at least 70 percent of the #aggregate width of street walls# shall be located

within 10 feet of such #street line#. The remaining 30 percent of the #aggregate width of street walls# may be located beyond such #street lines# in compliance with:

- (1) the #outer court# regulations of Article II, Chapter 3, for #residential# portions of #buildings#;
 - (2) the #outer court# regulations of Article II, Chapter 4, for all other portions of #buildings#; or
 - (3) the requirements of Section 37-50 where such areas are pedestrian circulation spaces.
- (c) When a #building# fronts on two intersecting #streets# for which different maximum base heights are specified, the higher maximum base height may wrap around to the #street# with the lower maximum base height for a distance along the #street line# of 100 feet. However, "Type 5" #street walls# shall not be permitted to wrap around to the intersecting #street#.
- (d) Arcades and sidewalk widenings that meet the design standards of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) shall be permitted along any #street# indicated as "Type 1," "Type 2A" or "Type 3," pursuant to paragraphs (a), (b) or (c) of this Section, provided such arcade or sidewalk widening extends along the entire #block# frontage or abuts another arcade, existing on August 27, 1998, of equal width and height or another sidewalk widening of equal width. In such case, the #street wall# requirements for paragraph (b) of this Section shall be measured from the permitted arcade or sidewalk widening.

(2/2/11)

91-32

Setback Regulations

In accordance with the provisions of Section 91-31, setbacks are required for any portion of a #building or other structure# that exceeds the maximum base heights specified for the applicable #street# in Section 91-31 (Street Wall Regulations).

Required setbacks shall be provided at a height not lower than any minimum base height or 60 feet where none is specified and

not higher than any maximum base height specified for the applicable #street# in Section 91-31. The depth of the setback shall be determined by the #lot area# of the #zoning lot#, as shown in the following table:

REQUIRED DEPTH OF SETBACKS

#Lot area# of #zoning lot#	Minimum setback depth
Less than 15,000 square feet	10 feet
15,001 to 30,000 square feet	15 feet
Greater than 30,000 square feet	20 feet

For "Type 1" and "Type 2A and 2B" #street walls#, the required setbacks shall be measured from the #street line#.

For "Type 3" #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the #aggregate width of street walls# of the #building# at the minimum base height are within such line and the #street line#.

For all other #street walls#, the required setbacks shall be measured from a line drawn at, or parallel to, the #street line# so that at least 50 percent of the #aggregate width of street walls# of the #building# at the minimum base height are within such drawn line and the #street line#. However, setbacks are not required for #street walls# fronting upon the major portion of a bonused #public plaza#.

For #buildings# within the Historic and Commercial Core as shown on Map 1 in Appendix A, any #building# or portion of a #building# may be located within the required setback area beneath a #sky exposure plane# that rises from a height of 100 feet above the #street line# over the #zoning lot# at a vertical distance of six to a horizontal distance of one.

(2/2/11)

91-33

Lot Coverage Regulations

Above the maximum base height specified in Section 91-31 (Street Wall Regulations), up to a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 65 percent. Above a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 50 percent.

However, within the Historic and Commercial Core, above the maximum base height specified in Section 91-31, up to a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 75 percent. Above a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 60 percent.

For #buildings# fronting on more than one #street# where different maximum base heights are specified, the maximum #lot coverage# regulations specified in this Section shall apply at horizontal planes at heights corresponding to the different maximum base heights. The #lot coverage# at the level of the lowest plane shall apply to the portion of a #zoning lot# located beyond 100 feet from any #street# with a higher maximum base height. The #lot coverage# at the level of each subsequent higher plane shall apply to the portion of the #zoning lot# located beyond 100 feet from any #street# with a higher maximum base height, and shall also include those portions of the #zoning lot# where lower base heights apply. The highest horizontal plane shall be established over the entire #zoning lot#.

(2/2/11)

91-34

Maximum Horizontal Dimension for Tall Buildings

For any portion of a #building# above a height of 300 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 175 feet.

Diagram of Maximum Horizontal Dimension
(91-34)

(2/2/11)

91-35

Modification of Street Wall, Setback, Lot Coverage and Maximum Horizontal Dimension Regulations

The City Planning Commission, by special permit, may modify:

- (a) the #street wall# requirements and minimum base heights of Section 91-31 (Street Wall Regulations);
- (b) the setback requirements of Section 91-32; and
- (c) where such #zoning lots# contain #buildings# existing on December 15, 1961, that exceed a height of 300 feet, the #lot coverage# regulations of Section 91-33 and the maximum horizontal dimension set forth in Section 91-34 (Maximum Horizontal Dimension for Tall Buildings), provided such modifications are limited to that portion of the #development# or #enlargement# between 300 and 325 feet in height, and provided the #lot coverage# of such portion does not exceed 55 percent.

In order to grant such special permit, the Commission shall find that:

- (1) such modifications will result in a site plan consistent with existing scale and streetscape patterns;

- (2) such modifications will ensure a harmonious relationship between the #development# or #enlargement# and the surrounding area;
- (3) such #street wall# modifications will enhance pedestrian circulation by providing pedestrian amenities that relieve sidewalk congestion;
- (4) such setback, #lot coverage# or horizontal dimension modifications will not unduly obstruct access to light and air to surrounding #streets# and properties; and
- (5) such setback, #lot coverage# or horizontal dimension modifications will result in a built form that maintains an appropriate relationship between tower and base portions of the #development# or #enlargement#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(8/27/98)

91-40

MANDATORY DISTRICT PLAN ELEMENTS

(2/2/11)

91-41

Regulations for Designated Retail Streets

The #use# regulations of this Section, inclusive, shall apply to #buildings developed# after August 27, 1998, and to #buildings enlarged# on the ground floor level after August 27, 1998.

(2/2/11)

91-411

Location of required retail space

For any #development# or #enlargement# fronting on the ground

floor level of designated retail #streets#, as shown on Map 4 in Appendix A, the #street# frontage of the #building# shall be allocated exclusively to the #uses# set forth in Section 91-12 (Uses on Designated Retail Streets). However, #uses# located within lobby or entrance spaces, subway station improvements or pedestrian circulation spaces that do not front on the ground floor level of the #street# shall be in accordance with the provisions for permitted #uses# of the underlying district.

Where the #street# frontage occupied by all #building# entrances is 20 feet or more in width, the amount of #street# frontage occupied by lobby space, entrance space and #building# entrance recesses shall not exceed, in total, 40 linear feet or 25 percent of the #building's# total #street# frontage, whichever is less, exclusive of any frontage occupied by a relocated subway stair or the entrance area to a bonused subway station improvement.

Storefronts for permitted ground floor #uses# shall be no more than 10 feet from the #street line# or, where an #arcade# is provided with supporting columns at the #street line#, no more than 10 feet from the supporting columns.

(8/27/98)

91-412

Access and glazing of required retail space

Access to each permitted establishment or #use# shall be provided directly from the designated retail #street#, as shown on Map 4 in Appendix A. Where there is more than one entrance to the establishment or #use# from the designated retail #street#, direct access shall be provided via the entrance with the greatest aggregate clear opening width.

At least 50 percent of the #street wall# surface of each permitted establishment or #use# shall be glazed with clear untinted transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#.

For the purposes of this glazing requirement, the #street wall# surface of each permitted establishment shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

(2/2/11)

91-42

Pedestrian Circulation Space

Within the boundaries of the #Special Lower Manhattan District#, all #developments# or #enlargements# constructed after August 27, 1998, on #zoning lots# of at least 5,000 square feet that contain more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space on such #zoning lot# in accordance with the provisions of Section 37-50.

Pedestrian circulation space shall not be required if any of the following conditions exist:

- (a) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;
- (b) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;
- (c) the #zoning lot# is an #interior# or #through lot# fronting on a #street# or #streets# with Type 1, Type 2A, Type 2B, Type 3, Type 4 or Type 5 #street wall# regulations, as set forth in paragraph (a) of Section 91-31 (Street Wall Regulations);
- (d) the #zoning lot# is a #through lot# and both #street frontages# are less than 25 feet in length; or
- (e) the #zoning lot# is located in a C6-2A or C6-9 District within the South Street Seaport Subdistrict.

(2/2/11)

91-43

Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning

lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-40 (OFF-STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-50.

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

Station	Line
Bowling Green	Lexington Avenue
Broad St	Nassau Street
Broadway-Nassau Street	8th Avenue
Fulton Street	Nassau Street/Broadway- 7th Ave/Lexington Ave

Rector Street	Broadway-60th Street
Wall Street	Broadway-7th Avenue
Wall Street	Lexington Avenue
Whitehall Street-South Ferry	Broadway-7th Avenue/ Broadway-60th Street

(5/8/13)

91-50

OFF-STREET PARKING, LOADING AND CURB CUT REGULATIONS

The off-street parking regulations of Article 1, Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core) and the loading regulations of the underlying districts apply to the #Special Lower Manhattan District#, except as supplemented or modified by the provisions of this Section.

(2/2/2)

91-51

Accessory Off-Street Parking for Residential Uses in Converted Buildings

#Accessory# off-street parking spaces shall be permitted for #dwelling units# in #non-residential buildings# erected prior to January 1, 1977, or portions thereof, that are #converted# to #residential use#, provided:

- (a) no more than 200 spaces or a number of spaces equal to 20 percent of the number of #dwelling units# in the #converted building#, whichever is less, shall be permitted;
- (b) no curb cut shall be permitted on any #street# where the #converted building# has a #street# frontage of 40 feet or less;
- (c) no portion of any such parking facility shall be more than 23 feet above #curb level#;
- (d) no exhaust vents shall open onto any #street# or #public park# or publicly accessible #open space#, and no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets# or parks; and
- (e) all such parking facilities shall be provided on the same #zoning lot# as the #residential uses# to which they are #accessory#, except as otherwise provided in Section 91-511 (Authorization for off-site parking facilities for converted buildings).

(5/8/13)

91-511

Authorization for off-site parking facilities for converted buildings

The City Planning Commission may authorize #accessory# residential off-site parking spaces for #non-residential

buildings# erected prior to January 1, 1977, or portions thereof, that are #converted# to #residential use#, to be provided in a fully-enclosed #building# on a #zoning lot# within the #Special Lower Manhattan District# other than the #zoning lot# that contains the #residential use#, provided the Commission finds that:

- (a) such #accessory# off-site parking spaces are conveniently located in relation to the #residential use#, and in no case further than 600 feet from the #zoning lot# containing the #residential use#;
- (b) such location of the #accessory# off-site parking facility will permit better site planning for the #building converted# to #residential use#;
- (c) that such #accessory# off-site parking facility shall contain parking spaces #accessory# only to #residential uses#; and
- (d) such parking facility complies with findings in paragraphs (c)(1), (c)(2), (c)(3) and (c)(5) of Section 13-45 (Special Permits for Additional Parking Spaces).

The number of #accessory# off-site parking spaces authorized in accordance with the provisions of this Section shall be recorded on the certificates of occupancy, temporary and permanent, for both the #residential use# and the #accessory# off-site parking facility.

(5/8/13)

91-52

Curb Cut Regulations

All curb cuts shall be prohibited on #streets# indicated on Map 5 in Appendix A, except that:

- (a) The Commissioner of Buildings may approve a curb cut where there are no alternative means of access to required off-street loading berths from other #streets# bounding the #zoning lot#.
- (b) The City Planning Commission may authorize curb cuts for loading berths, provided:

- (1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;
- (2) such maneuvering area is at least equal in size to the area of the loading berth; and
- (3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

- (c) The City Planning Commission may authorize curb cuts for #accessory# parking for #residences#, provided such curb cuts:
- (1) will not create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement; and
 - (2) will not interfere with the efficient functioning of required pedestrian circulation spaces, or public transit facilities.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

No curb cuts may be approved or authorized on Battery Place, Broad Street, Broadway, Liberty Street west of Broadway, Park Row South or Wall Street.

In addition, for #zoning lots# with frontage on #streets# where curb cuts are prohibited, the Commissioner of Buildings may waive required off-street loading berths pursuant to the provisions set forth in Section 13-35 (Modification of Loading Berth Requirements).

Where a curb cut is approved or authorized pursuant to this Section, the maximum width of a curb cut, including splays, shall be 15 feet for a #street# with one-way traffic and 25 feet for a #street# with two-way traffic.

(9/8/11)

Waiver of Requirements for Accessory Off-Street Loading Berths

- (a) For #zoning lots# containing Use Group 10A department stores and Use Group 6B offices, where not more than 78,000 square feet of such office #use# is changed to department store #use#, the following modifications may be made provided that the Chairperson of the City Planning Commission certifies to the Department of Buildings that the conditions in paragraphs (b), (c), (d) and (e) of this Section have been met:
 - (1) waiver of #accessory# off-street loading berths required for such department store #use#;
 - (2) waiver of existing required #accessory# off-street loading berths when such waiver is necessary to provide an improved goods receiving and in-store transport system; and
 - (3) exemption of existing loading berth floor space from the definition of #floor area# as set forth in Section 12-10 when such floor space will be used for such improved goods receiving and in-store transport system.
- (b) A plan for curb side deliveries shall have been approved by the Department of Transportation, as part of the improved goods receiving and in-store transport system for the department store #use#. Such plan shall be based upon a traffic study prepared by a qualified professional and a scope of work, both of which have been approved by the Department of Transportation, establishing that the plan for curbside deliveries shall not create or contribute to serious traffic congestion or unduly inhibit vehicular or pedestrian movement and shall not interfere with the efficient functioning of nearby public transit facilities;
- (c) At least one additional freight elevator and an aggregate of at least 6,000 square feet of staging area for loading and deliveries, exclusive of the area occupied by elevators, shall be provided on the #zoning lot# to be used for the improved goods receiving and in-store transport system for such department store #use#, as depicted on a site plan;
- (d) In the event that any existing loading berth floor space is to be exempted from the definition of #floor area# as set forth in Section 12-10, such floor space shall be used for

the improved goods receiving and in-store transport system;
and

- (e) A Declaration of Restrictions shall have been executed, in a form acceptable to the Department of City Planning, binding upon the owners and its successors and assigns, and providing for maintenance and use of the staging areas and additional elevators for the improved goods receiving and in-store transport system, as well as continued compliance with the plan for curbside deliveries and the site plan. Such declaration shall be filed and recorded in the Office of the City Register of the City of New York against the lots comprising the #zoning lot#. Receipt of proof of recordation in a form acceptable to the Department shall be a precondition to the issuance of this certification, and the recording information shall be included on any temporary or final certificate of occupancy for any #building# or portion thereof, issued after the recording date.

(8/27/98)

91-60

REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT

(8/27/98)

91-61

General Provisions

The regulations of Sections 91-60, et. seq., relating to special regulations for the South Street Seaport Subdistrict are applicable only in the South Street Seaport Subdistrict. The boundaries of the South Street Seaport Subdistrict are shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A. The regulations of Section 91-60, et. seq., supplement or modify the regulations of this Chapter applying in general to the South Street Seaport Subdistrict area of the #Special Lower Manhattan District#.

In order to preserve and protect the character of the South Street Seaport Subdistrict and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended, special controls and incentives are provided.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to #waterfront zoning lots# within the South Street Seaport Subdistrict. The provisions of paragraph (c) of Section 74-792 (Conditions and limitations) concerning the transfer of development rights from landmark sites in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts shall not apply in the South Street Seaport Subdistrict.

(2/2/11)

91-62

Definitions

For purposes of this Section, matter in *italics* is defined in Section 12-10 (DEFINITIONS) or within this Section.

Development rights

Within the South Street Seaport Subdistrict, the basic maximum permitted #floor area# for a #granting lot# shall be that which is allowed by the applicable district regulations as if such granting lot were undeveloped, and shall not include any additional #floor area# bonuses for #public plazas#, #arcades# or any other form of #floor area# increase, whether as-of-right or by special permit. #Streets# located within the Subdistrict that have been closed or discontinued in whole, part or whose air space has been closed or discontinued pursuant to Section E15-3.0 of the Administrative Code, or its successor, shall have attributed to such closed area or closed air space the basic maximum permitted #floor area# allowed within the underlying zoning district within which such #streets# are situated. The #lot area# of a closed or discontinued volume of air space shall be measured by the area of the bed of the #street# lying below and within such closed or discontinued volume.

Granting lot

Within the South Street Seaport Subdistrict, a "granting lot" is a #zoning lot# or a closed or discontinued portion of a #street# or air space over a #street# which is identified as a #granting lot#, as identified on Map 6 (South Street Seaport Subdistrict) in Appendix A, upon which development is regulated by contract, lease, covenant, declaration or otherwise to assure compliance with the purposes of this Subdistrict and from which #development

rights# may be transferred. Such #zoning lots# and closed portions of #streets# or air space over #streets# are identified on the map of the transfer areas (Map 6) as Parcels 6, 7 and 9 and the adjacent hatched #street# areas.

Person

Within the South Street Seaport Subdistrict, a "person" is an individual, corporation (whether incorporated for business, public benefit or not-for-profit purposes or otherwise), partnership, trust firm, organization, other association or any combination thereof.

Receiving lot

Within the South Street Seaport Subdistrict, a "receiving lot" is a #zoning lot# identified on the map of transfer areas (Map 6 in Appendix A) to which #development rights# may be added. Such "receiving lots" are identified on the map as Parcels 1, 8, 15, 16, 20, 21 and 22.

Street

- (a) A #street#, as defined in Section 12-10; or
- (b) a way, designed or intended for general public circulation and #use#, that:
 - (1) performs the pedestrian circulation functions usually associated with a way shown on the City Map;
 - (2) remains open and unobstructed from the at-grade circulation level to the sky, except for public facilities customarily located on a #street# shown on the City Map, or those facilities permitted to be located on a #street# shown on the City Map, including without limitation, transitory fixtures or objects unattached to the real property encompassed by such way; and
 - (3) is a designated pedestrian way, pursuant to Section 91-68.

A #street#, as defined in paragraph (b) of this Section, shall satisfy and apply to all references to #streets# provided elsewhere in the Zoning Resolution.

(8/27/98)

91-63

Transfer Areas Map

The South Street Seaport Subdistrict transfer areas map, shown hereto as Map 6 in Appendix A, sets forth each #granting lot# and #receiving lot# within the Subdistrict.

(2/2/11)

91-64

Transfer of Development Rights from Granting Lots

Within the South Street Seaport Subdistrict, #development rights# from each of the #granting lots# may be conveyed or otherwise disposed of:

- (a) directly to a #receiving lot#; or
- (b) to a #person# for subsequent disposition to a #receiving lot#, all in accordance with the provisions of this Subdistrict, except that with respect to #zoning lots# located on Parcels 6, 7 and 9, as identified on Map 6 (South Street Seaport Subdistrict) in Appendix A, only those #development rights# in excess of the larger of the following conditions may be so conveyed or otherwise disposed of:
 - (1) an amount equal to the product of the #lot area# of each of such #zoning lots# multiplied by 5.0; or
 - (2) the total #floor area# of all existing #buildings# on any such #zoning lots#.

The City Planning Commission shall certify such initial transfer from the #granting lots#. Any #person# may convey its interest in all or a portion of such #development rights# to another #person# but such #development rights# may only be used on a #receiving lot#.

(2/2/11)

91-65

Addition of Development Rights to Receiving Lots

Within the South Street Seaport Subdistrict, all or any portion of the #development rights# transferred from a #granting lot# may be added to the #floor area# of all or any one of the #receiving lots# in an amount not to exceed the ratio of 10 square feet of #development rights# to each square foot of #lot area# of such #receiving lot#, except that with respect to a #receiving lot# having a #lot area# of less than 30,000 square feet, the total #floor area ratio# shall not exceed 21.6. However, if a #receiving lot# is located in a C4-6 District, the total #floor area ratio# shall not exceed 3.4 and if a #receiving lot# is located in a C6-2A District, the total #floor area ratio# shall not exceed 8.02. #Development rights# transferred to a #receiving lot# may be applied to a #mixed building# to increase the #floor area# of the #residential#, #commercial# and/or #community facility# portions of such #building# so that the maximum #floor area# for such #building# may be increased by the aggregate of #development rights# so transferred. In no event shall the #residential floor area ratio# exceed 12.0.

The City Planning Commission shall certify that any #zoning lot# that utilizes such transferred #development rights# conforms to this Section and, for those #receiving lots# within the Urban Renewal Area, to the regulations and controls of the Urban Renewal Plan.

(3/20/03)

91-66

Modification of Use and Bulk Regulations

(2/2/11)

91-661

Bulk modifications in C6-2A Districts

Within the South Street Seaport Subdistrict, for any #zoning lot# located in a C6-2A District, the underlying height and setback regulations shall apply, except the maximum #building# height shall be 120 feet. No minimum base height shall apply, and the

depth of a required setback along a #narrow street# shall be at least 10 feet. No #lot coverage# regulations shall apply to #corner lots#. Furthermore, the provisions of Article II, Chapter 8 (The Quality Housing Program), shall not apply.

(2/2/11)

91-662

Authorization for modification of bulk provisions and public space in C6-9 Districts

In the South Street Seaport Subdistrict, the City Planning Commission may authorize:

- (a) the alteration of any public amenity, open or enclosed, for which a #floor area# bonus has been granted, provided that the Commission finds that such modifications improve the intended public purpose of the amenity; or
- (b) the elimination or reduction of an existing public amenity, open or enclosed, for which a #floor area# bonus has been granted, provided that a new or improved public amenity, open or enclosed, is supplied elsewhere on, or within proximity to, the #zoning lot#, and the Commission finds that:
 - (1) the public amenity to be eliminated no longer serves its original purpose; and
 - (2) the proposed new or improved public amenity will provide a greater public benefit than the amenity to be eliminated or reduced and will better serve the purposes of the #Special Lower Manhattan District#; and
- (c) the modification of the applicable height, setback, lot coverage and distance between #buildings# requirements for any #development# or #enlargement# on a designated #receiving lot# that will incorporate transferred #development rights#, provided the Commission finds that the modifications:
 - (1) provide an appropriate distribution of #bulk# on the #zoning lot#;
 - (2) permit adequate light and air to the #development# or

#enlargement# and adjoining properties as well as the surrounding #streets#; and

- (3) will not impair the use and desirability of any public amenity that may be created or improved under the provisions of paragraph (b) of this Section.

If a #receiving lot# contains an existing #building#, such authorization shall incorporate any previous height and setback or other bulk modifications, granted prior to December 11, 2001, by the Board of Standards and Appeals, for such existing #building#.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

(2/2/11)

91-663

Special permit for bulk modifications

Within the South Street Seaport Subdistrict, the City Planning Commission may modify, by special permit, the height and setback and #lot coverage# regulations of Section 91-30, provided that:

- (a) either of the following conditions have been met:
 - (1) that the developer has obtained negative easements limiting the height of future #development# or #enlargement# to 85 feet or less on any adjoining #zoning lots# which are contiguous or would be contiguous to said #zoning lot# but for their separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air in determining the maximum permitted coverage. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# or #enlargement# will be located; or
 - (2) that the #lot coverage# for that portion of a #development# or #enlargement# below 300 feet may be

increased to a maximum of 80 percent when additional #development rights# have been purchased and converted to increased #lot coverage#. The maximum percentage of #lot coverage# on such #receiving lot# shall be the sum of 65 percent plus one-half of one percent for every .10 by which the total #floor area ratio# on such #receiving lot# would exceed a #floor area ratio# of 21.6, provided that the #development# or #enlargement# on such #receiving lot# has achieved a minimum #floor area ratio# of 18.0;

(b) In order to grant such special permit, the Commission shall make the following findings:

- (1) the location of the #development# or #enlargement# and the distribution of #bulk# will permit adequate light and air to surrounding #streets# and properties;
- (2) any modification of height and setback will provide for better distribution of #bulk# on the #zoning lot#; and
- (3) such special permit will aid in achieving the general purposes and intent of the Subdistrict.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(3/20/13)

91-664

Modification of hours of operation for waterfront public access areas

For any #zoning lot# which was the subject of application N130058 ZCM, the hours of operation set forth in paragraph (a) of Section 62-71 (Operational Requirements) may be extended to allow public access up to 24 hours per day, and the provisions of paragraph (a)(3) of Section 62-654 (Signage) shall be modified to require any such extended hours of public access, as may change over time, to be included on the required signage. The provisions of paragraph (a)(4) of Section 62-654 shall not apply where 24 hour access is allowed. The provisions of paragraph (b) of Section 62-71 requiring rules of conduct for the #waterfront public access area# to be established with the Department of Parks and Recreation, and other provisions of this Chapter requiring a

maintenance and operation agreement pursuant to Section 62-74 (Requirements for Recordation), shall not apply so long as a legal instrument acceptable to the Chairperson, in all other respects consistent with the provisions of Section 62-74, has been executed and recorded, setting forth rules of conduct and maintenance and operations requirements.

(8/27/98)

91-67

Recordation

Within the South Street Seaport Subdistrict, at the time of transfer of #development rights# from a #granting lot#, there shall be recorded in the Office of the Register of the City of New York, and indexed against such #granting lot# from which #floor area# is removed, an instrument removing such #floor area# and prohibiting construction on such #zoning lot# of any #building or other structure# which would contain #floor area# in excess of that still available to the #zoning lot# after deducting the #floor area# removed, such prohibition to be non-cancelable for 99 years; and at the time of the addition of #development rights# to a #receiving lot# as provided in Section 91-65, there shall be recorded in the Office of the Register of the City of New York, and indexed against such #receiving lot# to which #floor area# is added, an instrument transferring the #floor area# to the #receiving lot# benefited and identifying the #granting lot# (by tax block and lot number and description) from which the #floor area# has been removed. A certified copy of such instruments shall be submitted to the City Planning Commission upon recordation.

(8/27/98)

91-68

Designated Pedestrian Ways

Within the South Street Seaport Subdistrict, the volume situated above the subsurface #streets# shown on the City Map, and listed in this Section are designated pedestrian ways and are governed by paragraph (b) of the definition of #street# as set forth in Section 91-62 (Definitions):

- (a) Fulton Street, between Water and South Streets
- (b) Water Street, between Fulton and Beekman Streets
- (c) Front Street, between Fulton and Beekman Streets, and between John and Fulton Streets
- (d) South Street (the 18-foot-wide strip located on the northwesterly side), between Beekman and John Streets.

(2/2/11)

91-69

Special Permit for Development of Piers 9, 11, 13 and 14

Within the area bounded by South Street, the southerly edge of Pier 9, the U. S. Pierhead Line and the northerly edge of Pier 14, which, for the requirements of this Section, shall be deemed to be a single #zoning lot#, the City Planning Commission may, by special permit, permit modification of the bulk regulations, other than #floor area ratio# applicable to the #zoning lot#, and may modify or waive the requirements of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), in accordance with the provisions of this Section.

The special permit shall be subject to the condition that the property owner, principal lessee or licensee of property owner has entered into an agreement with the Department of Parks and Recreation to operate and maintain the publicly accessible areas in accordance with Section 62-70 (MAINTENANCE AND OPERATION REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS). For purposes of this Section, such publicly accessible areas shall be deemed "waterfront public access areas."

In granting any such modifications, the Commission shall find that:

- (a) any modification of height and setback regulations results in an appropriate distribution of permitted bulk on the piers;
- (b) no #buildings or other structures# shall unduly obstruct the visual corridor bounded by the prolongation of the northern and southern #street lines# of Wall Street seaward to the U. S. Pierhead Line;

- (c) any modification will not unduly impede surface traffic and will minimize possible vehicular/pedestrian conflicts in the surrounding area;
- (d) that the seaward end of all such piers is unobstructed to the greatest extent feasible so as to maximize views northward and southward;
- (e) the development plan for such area includes an appropriate amount of publicly-accessible open space which shall incorporate appropriate design features that serve the needs of the local area, including but not limited to landscaping, lighting and seating; and
- (f) the development plan is integrated with existing and proposed nearby development.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area.

(2/2/11)

91-70

SPECIAL REGULATIONS FOR CERTAIN AREAS

#Developments# or #enlargements# in the former Special Greenwich Street Development District built prior to August 27, 1998, will continue to be governed by the regulations in effect at the time of issuance of the building permit and can only be modified or altered by Sections 91-71 through 91-73, inclusive.

(2/2/11)

91-71

Authorization for the Modification of Required Public Amenities

The City Planning Commission may authorize modifications of certain provisions of the former Special Greenwich Street Development District, eliminated on August 27, 1998, that mandated public amenities, as follows:

- (a) For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that resulted in an increase in the basic maximum #floor area ratio# or an increase in the adjusted basic maximum #floor area ratio#, the Commission may authorize:
 - (1) the alteration of the amenity or improvement, provided that the Commission finds that such modifications improve the intended public purpose of the amenity;
 - (2) the elimination of the amenity or improvement, provided that the Commission finds that the intended public purpose is no longer useful or desirable and a new public amenity or improvement is supplied, as permitted pursuant to this Chapter, that generates the same or higher amount of bonusable #floor area#; or
 - (3) in the case of an amenity or improvement built in excess of the requirements necessary to generate the bonus #floor area# at the time of #development# or #enlargement#, the elimination of such portion of the amenity not tied to the bonus #floor area#, provided that the Commission finds that such portion is no longer useful or desirable.
- (b) For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that did not result in an increase in the basic maximum #floor area ratio#, the Commission may authorize the elimination or alteration of the amenity or improvement if it finds that the intended public purpose is no longer useful or desirable.
- (c) No mandatory or elective public amenity or improvement built pursuant to the regulations of the former Special District shall be eliminated or reduced in size, without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying area for such amenity elsewhere on the #zoning lot#, in accordance with the provisions of paragraph (a)(2) of this Section, except by special permit of the City Planning Commission, subject to a finding that the proposed change will provide a greater public benefit in light of the public amenity's purpose and the purposes of the #Special Lower Manhattan District#.

However, the open pedestrian bridge spanning Greenwich Street

between Liberty and Cedar Streets may be eliminated, without recourse to the City Planning Commission, where the pedestrian access provided between the required elevated public pedestrian circulation systems is no longer useful or desired.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

(2/2/11)

91-72

Special Permit for Development Over or Adjacent to the Approaches to the Brooklyn Battery Tunnel

The City Planning Commission, by special permit, may allow:

- (a) the unmapped air space above the approaches to the Brooklyn Battery Tunnel to be considered a single #zoning lot# and may allow the #development# or #enlargement# of a #building# on such unmapped air space, where the #zoning lot# for such #development# or #enlargement# shall include only that portion of the area above the approaches to the Brooklyn Battery Tunnel and contiguous areas of land or property that are covered by a permanent platform and not designated as approaches to the Brooklyn Battery Tunnel.
- (b) the unmapped air space above the approaches to the Brooklyn Battery Tunnel, the unmapped air space above Joseph P. Ward Street and the at-grade parcels bounding the northern #street line# of Joseph P. Ward Street to be deemed a single #zoning lot#, and in connection therewith:
 - (1) such #zoning lot# shall generate #floor area# only from such at-grade parcels and only those portions of the unmapped air space above the approaches to the Brooklyn Battery Tunnel covered by a permanent platform or #building# existing on November 15, 2007;
 - (2) no #floor area# shall be generated from the unmapped air space above Joseph P. Ward Street; and
 - (3) unused #floor area# generated from those portions of the unmapped air space above the approaches to the Brooklyn Battery Tunnel covered by a permanent platform

or #building# existing on November 15, 2007, shall only be located on the at-grade parcels bounding the northern #street line# of Joseph P. Ward Street and shall only be used for #residential floor area#.

Notwithstanding any of the foregoing, the use and occupancy of the unmapped air space above the approaches to the Brooklyn Battery Tunnel and of the at-grade parcel bounding the northern #street line# of Joseph P. Ward Street and shown on the City Map, as amended October 3, 1946, as an approach to the Brooklyn Battery Tunnel by the New York State Triborough Bridge and Tunnel Authority, may be continued and in effect as set forth in Resolutions of the former New York City Board of Estimate and as otherwise permitted by law.

The at-grade parcels of the #zoning lot# bounding the northern #street line# of Joseph P. Ward Street shall be considered a #through lot# bounded by Washington Street and West Street from its lowest level to the sky, and only such at-grade parcels shall be used to determine compliance with applicable #bulk# regulations other than #floor area# and #lot area# regulations.

For purposes of this paragraph, (b), the at-grade parcels bounding the northern #street line# of Joseph P. Ward Street shall mean:

the at-grade parcel bounding the northern #street line# of Joseph P. Ward Street and shown on the City Map, as amended October 3, 1946, as an approach to the Brooklyn Battery Tunnel; and

the at-grade parcel bounding the northern line of said parcel.

In order to grant such special permit, the Commission shall find that adequate access and #street# frontage to one or more #streets# is provided; and the streetscape, site design and location of #building# entrances of the proposed #development# or #enlargement# will contribute to the overall improvement of pedestrian circulation within the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding area.

(2/2/11)

91-73

Special Provisions for Battery Park Underpass/South Street

A #zoning lot# containing a #development#, or portion thereof, on a #waterfront zoning lot#, may be located within the volume above the upper limiting plane of the Battery Park Underpass/South Street, when such volume is eliminated, discontinued and closed. That portion of the #zoning lot# that lies above the Battery Park Underpass/South Street shall not be considered #lot area# for the purpose of computing maximum #floor area#; however, such portion shall be considered #lot area# for all other purposes of this Resolution.

(5/11/11)

91-80

PUBLIC ACCESS AREAS

(5/11/11)

91-81

Certification to Modify Existing Arcades in Certain Areas

For the purposes of this Section, "arcade" shall refer to an #arcade# or #through block arcade# provided in accordance with the provisions of Sections 12-10 (DEFINITIONS) and 37-80 (ARCADES); or an arcade provided in accordance with paragraph (a) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces); or an open space provided on a #zoning lot# between the #building street wall# and the #street line# where tables and chairs would otherwise not be allowed as permitted obstructions.

The provisions of this Section shall apply to existing #buildings# providing an arcade within the boundary designated by Map 8 in Appendix A of this Chapter.

Any underlying provisions restricting the placement of tables and chairs within such arcades may be modified where the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that such modifications are consistent with the

provisions of this Section, as follows:

(a) Tables and chairs

Publicly accessible tables and chairs and outdoor cafes, as well as shade umbrellas and other furnishings, shall be permitted obstructions within an arcade, provided that such obstructions comply with the provisions listed in paragraphs (a) and (b) of this Section, as applicable.

Tables or chairs provided within an arcade shall be moveable and shall not contain any plastic material.

Where an outdoor cafe is provided, it shall be a permanently unenclosed establishment and may have waiter or table service.

(1) Number and size of tables and chairs

A minimum of four tables and sixteen chairs shall be provided within an arcade.

(i) Publicly accessible tables and chairs

Publicly accessible tables, and related chairs, shall constitute a minimum of 40 percent of the total number of tables provided within an arcade. Fractions equal to or greater than one-half resulting from such calculation shall result in one additional table. Every publicly accessible table required by such calculation shall be required to have four chairs.

All tables shall have a minimum diameter of two feet. All publicly accessible chairs shall have seat backs, and the seats shall have a minimum depth of 12 inches and a maximum depth of 20 inches.

(ii) Outdoor cafe

Outdoor cafe tables, and related chairs, shall constitute a maximum of 60 percent of the total number of tables provided within an arcade. Fractions equal to or greater than one-half resulting from such calculation shall result in one additional table.

(2) Location restrictions and other prohibitions

Tables or chairs shall not be permitted within five feet of any #building# entrance. For arcades with a depth of ten feet or less, as measured from the column face furthest from the #street line# to the #street wall#, a clear pedestrian circulation pathway not less than three feet shall be provided. For arcades with a depth greater than ten feet, such required clear pedestrian pathway shall be increased to at least six feet. In addition, for #through block arcades#, a continuous clear path of ten feet shall be provided, connecting each #street# on which the public access area fronts.

(i) Publicly accessible tables and chairs

For arcades located on a #zoning lot# with frontage along Water Street, at least half of all publicly accessible tables and chairs shall be located within 25 feet of the Water Street #street line#.

(ii) Outdoor cafe

Outdoor cafes shall be located at the same elevation as the adjoining sidewalk area or #publicly accessible open area#, except that platforms that do not exceed a height of six inches may be provided.

Fences, planters, walls, fabric dividers or other barriers that separate outdoor cafe areas from other portions of the arcade or adjacent sidewalks or #publicly accessible open areas# shall be prohibited. No kitchen equipment shall be installed within an outdoor cafe.

(3) Hours of operation

(i) Publicly accessible tables and chairs

Tables and chairs shall not be chained, fixed or otherwise secured during the hours of 7:00 am to 9:00 pm. However, during the hours of 9:00 pm to 7:00 am, such tables and chairs may be removed or secured within the arcade.

Where publicly accessible tables and chairs and outdoor cafes are provided within an arcade, such publicly accessible tables and chairs shall be subject to the hours of operation of an outdoor cafe, as set forth in paragraph (a)(3)(ii) of this Section.

(ii) Outdoor cafe

Outdoor cafes must be in operation and provide service a minimum of 225 days per year.

All furnishings of an outdoor cafe, including tables, chairs, bussing stations and heating lamps, shall be completely removed from the arcade when the outdoor cafe is not in active use, except that tables and chairs may remain in such arcade if they are unsecured and may be used by the public without restriction.

(4) Locating publicly accessible tables and chairs within an adjacent #publicly accessible open area#

Where tables and chairs are provided in an arcade located on the same #zoning lot# as an existing #publicly accessible open area# that fronts upon Water Street, the Chairperson of the City Planning Commission may certify that publicly accessible tables and chairs, provided pursuant to paragraph (a)(2)(i) of this Section, may be located within such a #publicly accessible open area#.

The area within such #publicly accessible open area# occupied by publicly accessible tables and chairs provided pursuant to this paragraph, (a)(4), shall not be included in calculating the maximum #lot coverage# which permitted obstructions may occupy within such #publicly accessible open area#, where applicable.

Such publicly accessible tables and chairs shall not constitute a design change pursuant to the provisions of Section 37-62 (Changes to Existing Publicly Accessible Open Areas), provided the Chairperson finds that:

- (i) no more than 50 percent of the publicly accessible tables and chairs required to be within 25 feet of the Water Street #street line#, pursuant to

paragraph (a)(2)(i), shall be located within such #publicly accessible open area#. However, where the entirety of an arcade is located beyond 25 feet of the Water Street #street line#, the entirety of the publicly accessible tables and chairs required to be within 25 feet of such #street line#, pursuant to paragraph (a)(2)(i), may be located within such #publicly accessible open area#;

- (ii) such publicly accessible tables and chairs shall in no event constitute required seating for such existing #publicly accessible open area#; and
- (iii) such publicly accessible tables and chairs comply with the hours of operation provisions of paragraph (a)(3) of this Section.

Any proposed design change to an existing #publicly accessible open area# beyond the findings permitted in this Section shall be subject to the requirements of Section 37-62.

(b) Litter receptacles

Litter receptacles shall be permitted obstructions within an arcade pursuant to the provisions set forth in Section 37-744.

In order to certify that the proposed modification to an existing arcade is consistent with the provisions of this Section, the applicant shall submit, to the Chairperson, a site plan demonstrating the proposed obstructions within the existing arcade and, where applicable, the adjacent #publicly accessible open area#, and a detailed seating plan illustrating compliance with paragraph (a) of this Section.

All plans for arcades or other #publicly accessible open areas# that are the subject of a certification pursuant to this Section shall be filed and duly recorded in the Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument, in a form satisfactory to the Chairperson, providing notice of the certification of the arcade, pursuant to this Section. Such filing and recording of such instrument shall be a precondition to certification. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

(6/12/13)

91-82

Existing Publicly Accessible Open Areas

The purpose of this Section is to facilitate temporary programmatic changes to existing public spaces to:

- (a) help address the short-term challenges facing the Water Street corridor as a result of Hurricane Sandy by encouraging increased economic activity, reinforcing community connections, creating a lively and engaging experience and improving the corridor's pedestrian environment; and
- (b) explore new types of #uses# and amenities within public spaces intended to draw residents, workers and visitors, thereby increasing the utilization and activation of the existing public spaces.

This Section, inclusive, shall be effective until January 1, 2014, at which time the provisions of this Section shall automatically expire and all #publicly accessible open areas#, as defined in Section 91-821, shall be returned to their compliant state and all temporary obstructions shall be removed.

(6/12/13)

91-821

Special provisions for publicly accessible open areas

For the purposes of this Section, the definition of #publicly accessible open area# shall also include any #arcade#, #through block arcade#, or other public amenity, open or enclosed, for which a #floor area# bonus has been granted.

The provisions of this Section shall apply to all #publicly accessible open areas# existing on June 12, 2013, within the area designated as a public space activation area on Map 8 (Public Access Modification Areas) in Appendix A of this Chapter.

Any underlying provisions, including Section 91-81 of this Chapter, restricting the placement of obstructions within

#publicly accessible open areas# or restricting their use for events may be modified, as follows:

(a) Temporary permitted obstructions

Amenities that shall be considered temporary permitted obstructions for cultural, entertainment and #commercial uses# including, but not limited to, tables, chairs, moveable planters, stages, kiosks, food trucks, artwork, and shade structures are allowed, provided that they:

- (1) are not permanently affixed to the ground and do not cause damage to any surface of the #publicly accessible open area#;
- (2) are not located within five feet of any #building# entrance; and
- (3) do not, in combination, occupy more than 60 percent of the #publicly accessible open area#.

(b) Events

Events including, but not limited to, farmers markets, holiday markets, concerts and performances, art and cultural exhibitions, and festivals are permitted. Such events may be sponsored by non-profit or for-profit entities, without limitation, and may include the sale of food, refreshments and other event-related items, for the benefit or enjoyment of event participants. The use of a #publicly accessible open area# for the promotion of products or services shall not itself qualify as an event permitted under this Section. Such events shall:

- (1) be open to the public; and
- (2) only be permitted to use amplified sound between the hours of 9:00 am and 10:00 pm.

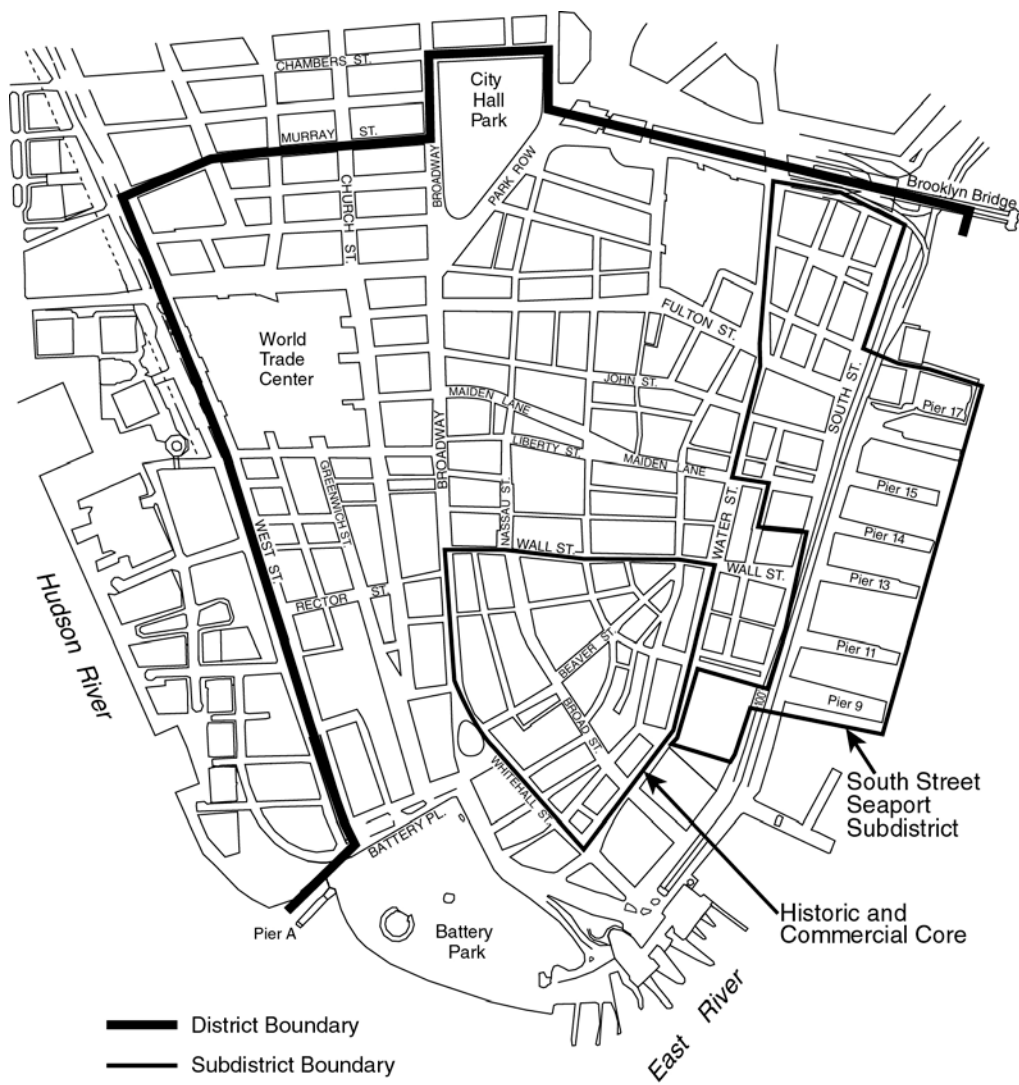

Nothing herein shall authorize the use of city #streets# or sidewalks in connection with an event permitted under this Section, and any such use shall be subject to all applicable provisions of law and regulation governing the use of city #streets# or sidewalks including, where applicable, the requirement to obtain a street activity permit from the Street Activity Permit Office of the Office of Citywide Events Coordination and Management. No event shall be permitted pursuant to this Section unless, no later than fourteen (14) days prior to

the scheduled date, the sponsor notifies the Street Activity Permit Office of the nature, size and location of the event upon a form prescribed by the Street Activity Permit Office for such purpose.

Article IX - Special Purpose Districts

Chapter 2

Special Park Improvement District

(4/23/73)

92-00

GENERAL PURPOSES

The "Special Park Improvement District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) to preserve and protect the unique character and architectural quality of the residential part of Fifth Avenue and Park Avenue which includes many landmarks and other cultural buildings;
- (b) to provide alternatives to plaza and arcade development along Fifth Avenue and Park Avenue which are redundant in view of the existence of Central Park and the Park Avenue malls;
- (c) to channel private expenditures which would otherwise be spent on redundant facilities into development, beautification and maintenance of proximate public parks and other public areas;
- (d) to encourage the development of buildings compatible with the height of present development; and
- (e) to promote the most desirable use of land in this area and thus to conserve the value of land and buildings and thereby protect the City's tax revenues.

(2/2/11)

92-01

Definitions

Development

For purposes of this Chapter a "development" includes the construction of a new #building or other structure# on a #zoning lot#, the relocation of an existing #building# on another #zoning lot#, and an #enlargement# involving an increase in #lot coverage#.

(12/11/01)

92-02

General Provisions

Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect.

For the purposes of this Chapter, Duke Ellington Circle, located at the intersection of Fifth Avenue and East 110th Street, shall be considered a separate #street#.

(12/11/01)

92-03

Special Use Regulations

For any #zoning lot# located between Fifth Avenue, Duke Ellington Circle, East 109th Street and East 110th Streets:

- (a) #commercial uses# shall only be permitted beyond 100 feet of Fifth Avenue and shall be restricted to office #uses# listed in Use Group 6B;
- (b) the underlying district #sign# regulations shall not apply. In lieu thereof, #signs accessory# to a #commercial use# shall conform with all the #sign# regulations applicable in C1 Districts, except that #illuminated signs# shall not be permitted and, within 100 feet of Fifth Avenue, signs shall conform with the #sign# regulations for #Residence Districts# set forth in Section 22-30.

(12/11/01)

92-04

Special Bulk Provisions

(2/2/11)

92-041

Maximum Floor Area Ratio

The maximum #floor area ratio# for any #zoning lot# shall not exceed 10.0. No #floor area# bonuses shall be permitted.

(2/2/11)

92-042

Mandatory front building walls along certain street lines

- (a) Except as provided in paragraph (b) of this Section, the front #building# wall for all #developments# on #zoning lots# having frontage on Fifth Avenue or Park Avenue and for all #developments# along #street lines# within 50 feet of their intersection with the #street lines# of Fifth Avenue or Park Avenue, shall extend along the full length of its #street line# fronting on such #street# without setback for a height of 125 feet above #curb level# or the full height of the #building#, whichever is less. Above the height of 150 feet above #curb level#, the front #building# wall shall be set back 10 feet from the #street line#. The mandatory front #building# wall requirements are optional for the next 20 feet along the #street line# of a #narrow street# or for the next 75 feet along the #street line# of a #wide street#. However, where the front wall of a #building# with a height less than 125 feet above #curb level# was constructed with a setback from the #street lines#, #enlargement# of such #building# may be permitted by vertical extension of its existing #building# wall.
- (b) For any #zoning lot# having frontage on Fifth Avenue, Duke Ellington Circle, East 109th Street and East 110th Street, the provisions of this paragraph, (b), shall apply. The front #building# wall of any #development# shall extend along the full length of the Fifth Avenue and Duke Ellington Circle #street lines#, and along the full length of the East 109th Street and East 110th Street #street lines# within 50 feet of their intersection with Fifth Avenue and Duke Ellington Circle, and rise without setback to a minimum height of 85 feet above #curb level# or the full height of

the #building#, whichever is less. Above a height of 150 feet, the front #building# wall shall be set back at least 10 feet from such #street lines#. Such mandatory front #building# wall requirements are optional for the next 50 feet along the East 109th Street and East 110th Street #street lines#.

- (c) Front wall recesses are permitted within mandatory front #building# walls for architectural or decorative purposes, provided that the aggregate length at the level of any #story# does not exceed 50 percent of the length of the front wall where such recesses are permitted. The depth of such recesses shall not exceed six feet. No front wall recesses are permitted within 20 feet of the intersection of two #street lines#.

Where the aggregate width of balconies located along the front #building# wall, at the level of any #story#, exceeds 20 percent of the length of such front #building# wall, the front #building# wall may be set back not more than three feet from the #street line#.

The underlying district height and setback regulations apply along #street lines#, or portions thereof, not subject to the front #building# wall requirement.

(12/11/01)

92-043

Special height limitation

The maximum height of a #building or other structure#, or portion thereof, shall not exceed 19 #stories# or 210 feet above #curb level#, whichever is less.

(5/8/13)

92-05

Maximum Number of Accessory Off-Street Parking Spaces

Within the portion of the #Special Park Improvement District# located within the #Manhattan Core#, the provisions of Article I, Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core), inclusive, shall apply. For all other portions of the #Special Park Improvement District#, the provisions of this Section shall apply.

In no case shall the number of #accessory# off-street parking spaces for a #residential use# exceed 40 percent of the number of #dwelling units#. In no case shall curb cuts for vehicular access be located on Fifth Avenue or Park Avenue or on a #street# within 50 feet of its intersection with the #street line# of Fifth Avenue or Park Avenue. No off-site #accessory# off-street parking facilities for any #use# shall be permitted within the Special District. All parking spaces #accessory# to #residences# shall be designed and operated exclusively for the long term storage of the private passenger motor vehicles used by the occupants of such #residences#.

The parking requirements set forth in Sections 25-21, 25-31, 36-21 or 36-31 shall not apply to any #development# for which the Commissioner of Buildings has certified that there is no way to provide the required parking spaces with access to a #street# in conformity with the provisions of this Section.

Article IX - Special Purpose Districts

Chapter 3

Special Hudson Yards District

(4/14/10)

93-00

GENERAL PURPOSES

The "Special Hudson Yards District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to facilitate and guide the development of an environmentally beneficial, transit-oriented business and residence district by coordinating high density development with expanded mass transit facilities, extended and improved subway lines, improved pedestrian access to mass transit facilities, improved pedestrian circulation and avoidance of conflicts with vehicular traffic;
- (b) to control the impact of buildings on the access of light and air to the streets and avenues of the Hudson Yards area and the surrounding neighborhoods;
- (c) to provide an open space network comprised of public parks, public open space and public access areas through the establishment of a large-scale plan and other controls and incentives;
- (d) to preserve the pedestrian orientation of ground floor uses, and thus safeguard a traditional quality of the City;
- (e) to preserve the low- and medium scale residential character of the Hell's Kitchen area;
- (f) to provide a transition between the Hudson Yards District and the Clinton community to the north;
- (g) to provide a transition between the Hudson Yards District and the Garment Center to the east;

- (h) to provide a transition between the Hudson Yards District and the West Chelsea area to the south;
- (i) to promote the use of the Jacob K. Javits Convention Center to the west by creating an active and attractive business district that facilitates pedestrian access to the Center;
- (j) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms;
- (k) to provide a transition between the Hudson Yards District and the Hudson River to the west;
- (l) to facilitate the restoration and reuse of the High Line elevated rail line as an accessible, public open space through special height and setback regulations;
- (m) to promote the most desirable use of land and building development in accordance with the District Plan for the Hudson Yards and thus conserve the value of land and buildings and thereby protect the City's tax revenues; and
- (n) to limit the amount of off-street parking based on regulations that address the anticipated needs of residents, workers and visitors to the Hudson Yards Area, consistent with the objective of creating an area with a transit- and pedestrian-oriented neighborhood character.

(5/31/12)

93-01

Definitions

ERY Culture, Festival and Exhibit Facility

An "ERY Culture, Festival and Exhibit Facility" is a #use#, operated by a not-for-profit entity, that comprises changing, non-permanent exhibits, events, expositions, presentations, festivals and fairs related to any or all of the following: visual arts, performing arts, culinary arts, literature, journalism, crafts, fashion and design, or any similar artistic activity. No trade shows shall be permitted unless they are related to one of such activities. Any #building# in

which an #ERY Culture, Festival and Exhibit Facility# is located may include a moveable portion that may be extended and retracted to cover all or a portion of the Culture Facility Plaza described in Section 93-71, paragraph (j).

ERY High Line

For the purpose of this Chapter, the #ERY High Line# shall refer to the portion of the #High Line# between the western #street line# of Tenth Avenue and the western #street line# of Eleventh Avenue north of West 30th Street.

High Line

For the purposes of this Chapter, the "High Line" shall refer to the elevated rail line structure located between Gansevoort Street and West 34th Street in the north-south direction, and between Washington Street and Twelfth Avenue in the east-west direction.

High Line bed

The "High Line bed" is the highest level of the horizontal surface (platform) of the elevated rail line structure of the #High Line#.

High Line Landscape Improvement Deposit

For the purpose of this Chapter, the #High Line Landscape Improvement Deposit# shall be in the amount of \$18,214,507 for the #ERY High Line# and, if the #Tenth Avenue Spur# is provided as a public access area pursuant to Section 93-71, in the amount of \$23,200,228, as adjusted by changes in the construction cost index published by the Engineering News-Record (ENR) for New York City, commencing as of January 2012. Payment of the #High Line Landscape Improvement Deposit# shall be in the form of cash or other form of immediately available funds. The #High Line Landscape Improvement Deposit# shall be held by the City, or an instrumentality of the City, as the Chairperson of the City Planning Commission shall designate, and shall be applied exclusively to the improvement for public use of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.

High Line Maintenance Funding

For the purpose of this Chapter, #High Line Maintenance Funding# shall mean funding sufficient for the maintenance and ordinary repair of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, in an amount acceptable to the City, as adjusted on an annual basis.

High Line Rehabilitation Deposit

For the purpose of this Chapter, the #High Line Rehabilitation Deposit# shall be in the amount of \$9,580,763 for the #ERY High Line# and, if the #Tenth Avenue Spur# is provided as a public access area pursuant to Section 93-71, in the amount of \$12,203,234, as adjusted by changes in the construction cost index published by the ENR for New York City commencing as of January, 2012. Payment of the #High Line Rehabilitation Deposit# shall be in the form of cash or other form of immediately available funds if plans and specifications for rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been substantially completed as of the time the #High Line Rehabilitation Deposit# is required, and if such plans and specifications have not been substantially completed at the time the #High Line Rehabilitation Deposit# is required, in the form of cash or a cash equivalent, such as a letter of credit, in a form acceptable to the City. The #High Line Rehabilitation Deposit# shall be held by the City, or an instrumentality of the City, as the Chairperson of the City Planning Commission shall designate, and shall be applied exclusively to the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.

Hudson Yards District Improvement Fund

The "Hudson Yards District Improvement Fund" (the "Fund") shall be an account of the Hudson Yards Infrastructure Corporation (the "Corporation"). The Fund shall be owned for all purposes by the Corporation and may be used for any corporate purpose of the Corporation, including its pledge, assignment or sale in furtherance of any financing by the Corporation in support of district improvements in the #Hudson Yards Redevelopment Area#. The Corporation, as owner for all purposes of the Fund, will manage the Fund in furtherance of the purposes of the Corporation.

Hudson Yards Redevelopment Area

The "Hudson Yards Redevelopment Area" shall be the areas within the #Special Hudson Yards District#, Area P-2 of the #Special Garment Center District#, the 42nd Street Perimeter Area of the #Special

Clinton District#, and the area bounded by the center line of Eleventh Avenue, the northern #street line# of West 43rd Street, the westerly prolongation of the northern #street line# of West 43rd Street to the U.S. Pierhead Line, the U.S. Pierhead Line, the westerly prolongation of the southern #street line# of West 29th Street to the U.S. Pierhead Line, and the southern #street line# of West 29th Street. However, the area bounded by the westerly side of Eleventh Avenue, the southerly side of West 43rd Street, the westerly side of Twelfth Avenue and the northerly side of West 33rd Street shall not be included in the #Hudson Yards Redevelopment Area#, except for any portion of such #blocks# containing a transit easement for subway-related use. Furthermore, the #Hudson Yards Redevelopment Area# shall not include any underground connections from a subway station to any #use# located on such excluded #blocks# or between any such #uses#.

Phase 2 Hudson Boulevard and Park

The "Phase 2 Hudson Boulevard and Park" is the area within the #Special Hudson Yards District# bounded on the north by the center line of West 39th Street, on the east by the eastern boundary of the park located between West 38th and West 39th Streets and the eastern #street line# of Hudson Boulevard East, on the south by the center line of West 36th Street, and on the west by the western #street line# of Hudson Boulevard West and the western boundary of the park located between West 38th and West 39th Streets, as shown on Map 1 (Special Hudson Yards District, Subdistricts and Subareas) in Appendix A of this Chapter.

Tenth Avenue Spur

For the purpose of this Chapter, the #Tenth Avenue Spur# shall refer to the portion of the #High Line# above the intersection of Tenth Avenue and West 30th Street.

(10/9/13)

93-02

General Provisions

The provisions of this Chapter shall apply within the #Special Hudson Yards District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or

modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

(4/29/14)

93-03

District Plan and Maps

The regulations of this Chapter are designed to implement the #Special Hudson Yards District# Plan.

The District Plan includes the following six maps in Appendix A of this Chapter:

- Map 1 - Special Hudson Yards District, Subdistricts and Subareas
- Map 2 - Mandatory Ground Floor Retail
- Map 3 - Mandatory Street Wall Requirements
- Map 4 - Mandatory Sidewalk Widening
- Map 5 - Transit Facilities
- Map 6 - Sites Where Special Parking Regulations Apply

Subdistrict Plans include the following five maps in Appendix B of this Chapter:

- Map 1 - Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan
- Map 2 - Subdistrict F: Site Plan
- Map 3 - Subdistrict F: Public Access Area Plan
- Map 4 - Subdistrict F: Mandatory Ground Floor Requirements
- Map 5 - Subdistrict F: Mandatory Street Wall Requirements

The Maps are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter apply.

(4/29/14)

93-04

Subdistricts and Subareas

In order to carry out the provisions of this Chapter, six subdistricts are established, as follows:

The Large-Scale Plan Subdistrict A

Farley Corridor Subdistrict B

34th Street Corridor Subdistrict C

Hell's Kitchen Subdistrict D

South of Port Authority Subdistrict E

Western Rail Yard Subdistrict F.

In each of these subdistricts, certain special regulations apply which do not apply within the remainder of the #Special Hudson Yards District#. Within certain subdistricts, subareas are established, as follows:

Within the Large-Scale Plan Subdistrict A:

Eastern Rail Yard Subarea A1

Four Corners Subarea A2

Subarea A3

Subarea A4

Subarea A5

Within Farley Corridor Subdistrict B:

Western Blocks Subarea B1

Central Blocks Subarea B2

Farley Post Office Subarea B3

Pennsylvania Station Subarea B4

Within Hell's Kitchen Subdistrict D:

Subarea D1

Subarea D2

Subarea D3

Subarea D4

Subarea D5

Within these subareas, certain special regulations apply which do not apply within the remainder of the subdistrict.

The subdistricts and subareas are outlined on Map 1 (Special Hudson Yards District, Subdistricts and Subareas) in Appendix A of this Chapter. Additional requirements for specific subdistricts, or portions thereof, are outlined in Appendix B of this Chapter.

(1/19/05)

93-05

Applicability of District Regulations

(3/28/12)

93-051

Applicability of Article I, Chapter 1

Within the #Hudson Yards Redevelopment Area#, Section 11-332 (Extension of period to complete construction) shall apply, except that notwithstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced

but not completed on January 19, 2005, such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than January 19, 2006.

(5/8/13)

93-052

Applicability of Article I, Chapter 3

#Public parking lots# authorized prior to January 19, 2005, and #accessory# off-street parking facilities for which a special permit has been granted prior to January 19, 2005, may be renewed subject to the terms of such authorization or special permit.

The provisions of Article I, Chapter 3, in their entirety shall be applied to Subdistrict F. The following provisions of Article I, Chapter 3, governing #automated parking facilities#, as defined in Section 13-02, automobile rental establishments, commercial vehicle parking, and off-street loading berths shall apply to Subdistricts A, B, C, D and E, as applicable:

- (a) for #automated parking facilities#, the provisions of Section 13-101 (Calculating parking spaces in automated parking facilities), paragraph (b) of Section 13-25 (Reservoir Spaces), and paragraph (b) of Section 13-27 (Minimum and Maximum Size of Parking Facilities);
- (b) for automobile rental establishments, the provisions of Section 13-15 (Permitted Parking for Automobile Rental Establishments), paragraph (b) of Section 13-221 (Enclosure and screening requirements), Section 13-241 (Location of curb cuts), paragraph (b) of Section 13-242 (Maximum width of curb cuts), paragraph (c) of Section 13-25, and paragraph (c) of Section 13-27;
- (c) for commercial vehicle parking, the provisions of Section 13-16 (Permitted Parking for Car Sharing Vehicles and Commercial Vehicles); and
- (d) for off-street loading berths, the provisions of Section 13-30, inclusive.

Additional provisions of Article I, Chapter 3, shall be applicable as specified in Section 93-80, inclusive.

(1/19/05)

93-053

Applicability of Chapter 3 of Article VII

The following special permits by the Board of Standards and Appeals shall not be applicable:

Section 73-16 (Public Transit, Railroad or Electric Utility Substations) shall not apply to electrical utility substations. In lieu thereof, such #uses# shall be allowed within the #Special Hudson Yards District# upon authorization of the City Planning Commission pursuant to Section 93-19 (Authorization for Electrical Utility Substations)

Section 73-62 (Modification of Bulk Regulations for Residential Buildings)

Section 73-63 (Enlargement of Non-Residential Buildings)

Section 73-64 (Modifications for Community Facility Uses).

(4/14/10)

93-054

Applicability of Article VII, Chapter 4

(a) The following special permits by the City Planning Commission shall not be applicable:

Section 74-61 (Public Transit, Railroad or Electric Utility Substations) shall not apply to electrical utility substations. In lieu thereof, such #uses# shall be allowed within the #Special Hudson Yards District# upon authorization of the City Planning Commission pursuant to Section 93-19 (Authorization for Electrical Utility Substations)

Section 74-68 (Development Within or Over a Right-of-Way or Yards)

Section 74-72 (Bulk Modification)

Section 74-74 (General Large-Scale Development) shall be inapplicable in the Large-Scale Plan Subdistrict A

Section 74-83 (Court Houses)

Section 74-841 (Developments in certain Commercial Districts)

Section 74-852 (Height and setback regulations for developments on lots divided by district boundaries)

Section 74-87 (Covered Pedestrian Space)

Section 74-91 (Modification of Public Plazas)

Section 74-95 (Modifications of Housing Quality Special Permits).

(b) The following provisions regarding special permits by the City Planning Commission shall be applicable as modified:

Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas) shall be applicable to the renewal of City Planning Commission special permits for #public parking lots# and #public parking garages# granted prior to April 14, 2010.

Section 74-79 (Transfer of Development Rights from Landmark Sites) shall apply, except that within the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B, such section shall be applicable only for a #development# or #enlargement# that has increased its permitted #floor area ratio# to 15.0 pursuant to Section 93-35 (Special Permit for Transit Bonus in Pennsylvania Station Subarea B4). Furthermore, the maximum amount of #floor area# that may be transferred from the #zoning lot# occupied by a landmark #building# may increase the maximum allowable #floor area ratio# within the Pennsylvania Station Subarea B4 to 19.5.

Section 74-82 (Through Block Arcades) shall apply to any #development# or #enlargement# for which a #through block arcade# would not otherwise be permitted pursuant to this Chapter, except that

no #floor area# bonus shall be permitted.

(9/4/08)

93-055

Modification of use and bulk regulations for zoning lots bounding Hudson Boulevard Park

Where the #lot line# of a #zoning lot# coincides with the boundary of the #public parks# located between West 35th Street, Hudson Boulevard East, West 33rd Street and Eleventh Avenue, such #lot line# shall be considered to be the #street line# of Hudson Boulevard West for the purposes of applying all #use# and #bulk# regulations of this Resolution.

Where the #lot line# of a #zoning lot# coincides with the boundary of the #public park# located between West 39th Street, Tenth Avenue, West 38th Street and Eleventh Avenue, such #lot line# shall be considered to be the #street line# of Hudson Boulevard East and West, as applicable, for the purposes of applying all #use# and #bulk# regulations of this Resolution.

(12/21/09)

93-06

Declaration of Restrictions in Subdistrict F

No building permit shall be issued for any #development# or #enlargement# within Subdistrict F unless a declaration of restrictions, in substantially the form reviewed by the City Planning Commission pursuant to CEQR No. 09DCP007M and referenced in and made an exhibit to the findings of the Commission pursuant to 6 NYCRR Section 617.11 in connection with its adoption of the regulations of this Chapter and as modified by the City Council, applicable to Subdistrict F (as such declaration may be revised prior to filing and recordation in accordance with the provisions thereof applicable to amendments made subsequent to filing and recordation), shall have been filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against all property interests in Subdistrict F proposed for #development# or #enlargement# pursuant to this Chapter.

(5/31/12)

93-10

USE REGULATIONS

The #use# regulations of the underlying districts are modified as set forth in this Section, inclusive.

The only permitted change of #use# for the #High Line# shall be to provide publicly accessible open space in accordance with the provisions of Sections 93-71 (Public Access Areas in the Eastern Rail Yard Subarea A1) and 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

(7/24/13)

93-101

ERY Culture, Festival and Exhibit Facility

For purposes of this Chapter, all references to #community facility#, #community facility use# or #uses# in Use Groups 3 or 4 in connection with Eastern Rail Yard Subarea A1 shall be deemed to include an #ERY Culture, Festival and Exhibit Facility#.

(1/19/05)

93-11

Air Space over a Railroad or Transit Right-of-way or Yard

The provisions for the use of air space over railroad or transit right-of-ways or yards set forth in Sections 22-41, 32-44 and 42-462 shall not apply. In lieu thereof, all #developments# or #enlargements# within such air space shall comply with the provisions of this Chapter.

(1/19/05)

93-12

Special Residential Use Regulations

(1/19/05)

93-121

Restrictions on residential use

No #residential use# shall be permitted within the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B.

(2/2/11)

93-122

Certification for residential use in Subdistricts A, B and E

Within the Large-Scale Plan Subdistrict A, Subareas B1 and B2 of the Farley Corridor Subdistrict B, and the South of Port Authority Subdistrict E, #residential use# shall be permitted only upon certification of the Chairperson of the City Planning Commission that the #zoning lot# on which such #residential use# is located contains the minimum amount of #commercial floor area# required before #residential use# is allowed, as specified in Section 93-21 or 93-22, as applicable, and that for #zoning lots# in Subareas A2 through A5 of the Large-Scale Plan Subdistrict A, a certification pursuant to Section 93-34 (Distribution of Floor Area in the Large-Scale Plan Subdistrict A) has been made.

However, special regulations shall apply to #zoning lots# with phased development, as follows:

- (a) For #zoning lots# with less than 69,000 square feet of #lot area#, the Chairperson shall allow for phased development, upon certification that a plan has been submitted whereby the ratio of #commercial floor area# to #residential floor area#, in #buildings# in each phase, is no smaller than the ratio of the minimum amount of #commercial floor area# required on the #zoning lot# before #residential use# is allowed, to the maximum #residential floor area# permitted on the #zoning lot# as specified in Section 93-21 or 93-22, as applicable, and
- (b) For #zoning lots# with at least 69,000 square feet of #lot area#, the Chairperson shall allow for one or more #buildings# containing #residences# to be #developed# or #enlarged# without the minimum amount of #commercial floor area# required before #residential use# is allowed, as specified in Section 93-21 or

93-22, as applicable, upon certification that a plan has been submitted whereby one or more regularly-shaped portions of the #zoning lot# with a minimum area of 50,000 square feet are reserved for future development of not more than two million square feet of #commercial floor area# on each such portion, and that, upon full development of such #zoning lot#, the ratio of #commercial floor area# to #residential floor area# shall be no smaller than the ratio of the minimum amount of #commercial floor area# required on the #zoning lot# before #residential use# is allowed, to the maximum #residential floor area# permitted on the #zoning lot#, as specified in Section 93-21 or 93-22, as applicable.

All #developments# or #enlargements# so certified shall be permitted only in accordance with the provisions of this Chapter.

(2/2/11)

93-123

Location of residential use within buildings

The provisions of Section 32-422 (Location of floors occupied by commercial uses) are modified to permit #residential uses# on the same #story# as a non-#residential use# provided no access exists between such #uses# at any level containing #dwelling units# and provided any non-#residential uses# are not located directly over any #story# occupied in whole or in part by #dwelling units#. However, such non-#residential uses# may be located over such a #story# occupied by #dwelling units# by authorization of the City Planning Commission upon a finding that sufficient separation of #residential uses# from non-#residential uses# exists within the #building#.

(2/2/11)

93-124

Restrictions on conversions of residential use

In #Commercial Districts# mapped within R8A Districts, a #residential use# existing on December 21, 2005, within a #story# that has a floor level within five feet of #curb level#, may not be #converted# to a #commercial use#.

(1/19/05)

93-13

Special Office Use Regulations

(2/2/11)

93-131

Certification for office use

The provisions of this Section shall apply to all #developments# or #enlargements# in the #Hudson Yards Redevelopment Area#, with the exception of Subdistrict F.

- (a) No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# in the #Hudson Yards Redevelopment Area# that includes Use Group 6B offices #developed# or #enlarged# after January 19, 2005, until the Chairperson of the Department of City Planning certifies to the Commissioner of Buildings that:
 - (1) such #development# or #enlargement# does not utilize any #floor area# increases pursuant to Sections 23-90 (INCLUSIONARY HOUSING), 93-30 (SPECIAL FLOOR AREA REGULATIONS), inclusive, or 96-25 (Floor Area Bonus for New Legitimate Theater Use); or
 - (2) such #development# or #enlargement# utilizes #floor area# increases pursuant to Sections 23-90, 93-30, inclusive, or 96-25, and will not result in a total amount of Use Group 6B office #floor area# #developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 20 million square feet.

All #developments# or #enlargements# so certified shall be permitted in accordance with the provisions of this Chapter, or the provisions of the #Special Clinton District# or the #Special Garment Center District#, as applicable.

- (b) Where the Chairperson of the Department of City Planning determines that the amount of office #floor area# in any #development# or #enlargement# will result in a total amount of Use Group 6B office #floor area developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area#

of over 20 million square feet, no building permit from the Department of Buildings shall be issued for any #development# or #enlargement# that includes Use Group 6B offices constructed after January 19, 2005, until the Chairperson certifies to the Commissioner of Buildings that:

- (1) such #development# or #enlargement# does not utilize any #floor area# increases pursuant to Sections 23-90, 93-30, inclusive, or 96-25; or
- (2) such #development# or #enlargement# utilizes #floor area# increases pursuant to Sections 23-90, 93-30, inclusive, or 96-25, and will not result in a total amount of Use Group 6B office #floor area# #developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 25 million square feet.

All #developments# or #enlargements# so certified shall be permitted in accordance with the provisions of this Chapter, or the provisions of the #Special Clinton District# or the #Special Garment Center District#, as applicable.

However, if such #developments# or #enlargements# fail to comply with the provisions of Section 11-331 with respect to completion of foundations within one year of the date of certification pursuant to this Section, such building permit shall lapse, and any new building permit will require a new Chairperson's certification pursuant to this Section.

- (c) Where the Chairperson of the Department of City Planning determines that the amount of office #floor area# in any #development# or #enlargement# will result in a total amount of Use Group 6B office #floor area# developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 25 million square feet, and where such #development# or #enlargement# utilizes #floor area# increases pursuant to Sections 23-90, 93-30, inclusive, or 96-25, such #development# or #enlargement# shall be permitted only upon authorization of the City Planning Commission pursuant to Section 93-132.

However, no such authorization shall be required for #developments# or #enlargements# utilizing the Inclusionary Housing Program within the area bounded by West 35th Street, Eighth Avenue, West 33rd Street, and a line 100 feet east of and parallel to Ninth Avenue, or in the 42nd Street Perimeter Area of the #Special Clinton District#, where the total #floor area

ratio# for such #developments# or #enlargements# does not exceed 12.0.

(12/21/09)

93-132

Authorization for office use

The provisions of this Section shall apply to all #developments# or #enlargements# in the #Hudson Yards Redevelopment Area#, with the exception of Subdistrict F.

Where the amount of Use Group 6B office #floor area# in a #development# or #enlargement# will result in over 25 million square feet of such #use developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area#, and such #development# or #enlargement# utilizes increased #floor area# pursuant to Sections 23-90 (INCLUSIONARY HOUSING), 93-30 (SPECIAL FLOOR AREA REGULATIONS), inclusive, or 96-25 (Floor Area Bonus for New Legitimate Theater Use), such #development# or #enlargement# shall be permitted only upon authorization of the City Planning Commission that:

- (a) such #development# or #enlargement# will not require any significant additions to the supporting services of the neighborhood or that provisions for adequate supporting services have been made;
- (b) the #streets# providing access to the #development# or #enlargement# are adequate to handle the traffic generated thereby or provisions have been made to handle such traffic; and
- (c) such #development# or #enlargement# is consistent with the goals of the applicable special district.

(4/29/14)

93-14

Ground Floor Level Requirements

The following provisions relating to retail continuity and transparency requirements shall apply to all subdistricts in the #Special Hudson Yards District#, except that the provisions of this Section shall not apply along the northern #street# frontage of West

35th through West 39th Streets within 100 feet of Eleventh Avenue, as shown on Map 2 (Mandatory Ground Floor Retail) in Appendix A of this Chapter. However, any #zoning lot# fronting on such #streets# and partially within 100 feet of Eleventh Avenue may, as an alternative, apply the provisions of this Section to the entire West 35th, West 36th, West 37th, West 38th or West 39th Street frontage of the #zoning lot#.

- (a) Retail continuity along designated streets in Subdistricts A, B, C, D and E

Map 2 in Appendix A of this Chapter specifies locations where the special ground floor #use# and transparency requirements of this Section apply. Such regulations shall apply along either 100 percent or 50 percent of the #building's street# frontage, as indicated on Map 2.

#Uses# within #stories# that have a floor level within five feet of #curb level#, and within 50 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district, but not including #uses# listed in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 or 12D. Where a sidewalk widening is required, such #uses# shall be within 50 feet of the sidewalk widening line.

A #building's street# frontage shall be allocated exclusively to such #uses#, except for lobby space, entryways, entrances to subway stations, other subway-related #uses# as described in Section 93-65 (Transit Facilities), or within the Eastern Rail Yard Subarea A1 where such retail continuity requirements are applicable to #building# walls facing certain public access areas, pursuant to Section 93-71, as follows:

- (1) for #building# walls facing the outdoor plaza described in Section 93-71, paragraph (b): the through block connection described in Section 93-71, paragraph (d), and the connection to the public plaza described in Section 93-71, paragraph (e);
- (2) for #building# walls facing the through block connection described in Section 93-71, paragraph (d): the outdoor plaza described in Section 93-71, paragraph (b);
- (3) for #building# walls facing the connection to the #public plaza# described in Section 93-71, paragraph (e): the outdoor plaza described in Section 93-71, paragraph (b) and

the public plaza described in Section 93-71, paragraph (c);
or

- (4) a combination of retail #uses# and public access areas so as to satisfy the 50 foot depth requirement for retail continuity.

In no event shall the length of #street# frontage (exclusive of any portion of such #street# frontage allocated to entrances to subway stations and other subway-related #uses#) occupied by lobby space or entryways exceed, in total, 40 feet or 25 percent of the #building's# total #street# frontage, whichever is less, except that the width of a lobby need not be less than 20 feet; and within the Eastern Rail Yard Subarea A1, the width of a lobby located on a #building# wall facing the eastern boundary of the outdoor plaza may occupy 120 feet or 25 percent of such #building# wall, whichever is less.

- (b) Retail continuity along designated streets in Subdistrict F

Map 4 (Subdistrict F: Mandatory Ground Floor Requirements) in Appendix B specifies locations where the special ground floor #use# and transparency requirements of this Section apply. Such regulations shall apply along either 100 percent or 70 percent of the #building's# street# frontage, as indicated for each location on Map 4.

- (1) Along Eleventh Avenue

The ground floor retail provisions established in paragraph (a) of this Section shall apply to the ground floor #street# frontage of #buildings# along Eleventh Avenue. In addition, if a #street# frontage is occupied by a bank, as listed in Use Group 6, such a #street# frontage shall not exceed a #street wall# width, in total, of 25 feet.

- (2) Along designated streets other than Eleventh Avenue

In addition to the #uses# listed in paragraph (a) of this Section, the following #community facility uses# from Use Groups 3 and 4 as well as the following #commercial use# from Use Group 6B shall be permitted within a #story# that has a floor level within five feet of #curb level# for frontages along designated #streets#, as shown on Map 4, other than Eleventh Avenue.

From Use Group 3:

Art galleries, non-commercial

Libraries

Museums

Nursery, kindergarten, elementary or secondary #schools#
(with no living or sleeping accommodations)

From Use Group 4:

Ambulatory diagnostic and treatment health care
facilities

Community centers

Houses of worship

Recreation centers, non-commercial

From Use Group 6B:

Veterinary medicine, limited to small animals.

A minimum of 70 percent of the #aggregate width of street wall# shall be occupied by #uses# permitted in this Section. A minimum of 50 percent of the #street# frontage of a #building# shall be allocated exclusively to #uses# listed in paragraph (a) and Use Group 3 #uses# listed in this paragraph, (b)(2). In addition, a maximum of 20 percent of the #street# frontage of a #building# shall be permitted to provide the Use Group 4 and 6B #uses# listed in this paragraph, (b)(2). However, if a #street# frontage is occupied by a bank, as listed in Use Group 6, such #street# frontage shall not exceed a #street wall# width, in total, of 25 feet.

The remaining portion of the #street wall# may be occupied by #uses# listed in this Section, or by lobby space, mechanical space or entrances to #accessory# parking garages, provided that:

- (i) the maximum width of a single lobby frontage shall be 40 feet, or 25 percent of the #street wall#, whichever is less. A maximum of two such lobbies shall be permitted along a single #street wall# frontage, provided that the

minimum distance between such lobbies shall not be less than 120 feet; and

(ii) the maximum width of a #street wall# occupied by an entrance to #accessory# parking spaces shall not exceed 35 feet.

(c) Transparency requirements along designated streets in Subdistricts A, B, C, D, E and F

For any #development# or ground floor #enlargement# fronting on #streets# designated on Map 2 in Appendix A of this Chapter, glazing shall be provided in accordance with the provisions set forth in paragraph (c) of this Section.

Each ground floor level #street wall# of a #commercial# or #community facility use#, as set forth in this Section, shall be glazed with materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazing shall occupy at least 70 percent of the area of each such ground floor level #street wall#, measured to a height of 10 feet above the level of the adjoining sidewalk, or public access area, whichever is higher. Not less than 50 percent of the area of each such ground floor level #street wall# shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

For #developments# or #enlargements# fronting upon Hudson Boulevard that are adjacent to existing #buildings# located within the Hudson Boulevard #street# bed or #public park#, the Hudson Boulevard #street wall# of such #development# or #enlargement# shall be designed in a manner that will enable the glazing requirements of this Section to be met upon demolition of the #buildings# within such #street# bed or #public park# and, within six months of such demolition, such glazing requirements shall be complied with.

(d) Non-transparent walls within Subdistrict F

Within Subdistrict F, any non-transparent area of a new or existing wall with a width in excess of 40 feet and a height in excess of five feet fronting upon a public sidewalk or publicly accessible open space shall be treated with a decorative element or material or shall be screened with planting so as to provide visual relief. Such screening or decorative treatment shall be required to a height of 15 feet above the level of the public

sidewalk or publicly accessible open space, or the height of the wall, whichever is less.

(12/21/09)

93-141

Certification to modify ground floor level requirements in Subdistrict F

Within Subdistrict F, the Chairperson of the City Planning Commission may modify the ground floor level requirements of paragraphs (b), (c) and (d) of Section 93-14 (Ground Floor Level Requirements), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is the minimum necessary to accommodate the ventilation requirements of the below-grade rail operations. Any application for such change shall include a mechanical plan that conveys the extent of the needs and required modifications, as well as a letter from the Metropolitan Transportation Authority describing the needs for such modifications.

(2/2/11)

93-15

Security Gates

All security gates installed after January 19, 2005, that are swung, drawn or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking garages.

(4/14/10)

93-16

Public Parking Facilities

In C2-5, C2-8 and C6 Districts, the provisions of Sections 32-17 (Use Group 8) and 32-21 (Use Group 12) with respect to #public parking garages# and #public parking lots# are inapplicable and are

superseded by the provisions of Section 93-80 (OFF-STREET PARKING REGULATIONS).

(4/29/14)

93-17

Modification of Sign Regulations

(a) Subdistricts A, B, C, D and E

Within Subdistricts A, B, C, D and E, the underlying #sign# regulations shall apply, except that #flashing signs# shall not be allowed within 100 feet of Hudson Boulevard, its northerly prolongation to West 39th Street and its southerly prolongation to West 33rd Street. Within the Pennsylvania Station Subarea B4, the provisions of Section 93-171 (Special permit for signs within the Pennsylvania Station Subarea) shall apply. The following modifications to the underlying #sign# regulations shall apply in the Eastern Rail Yard Subarea A1:

- (1) #Flashing signs# shall not be allowed on any portion of a #building# fronting upon the outdoor plaza required pursuant to Section 93-71.
- (2) For #signs# facing Tenth Avenue, or on a portion of a #building# within 100 feet of Tenth Avenue, in addition to #signs# permitted under the underlying #sign# regulations:
 - (i) up to four #signs# may exceed the maximum height limitations of the underlying #sign# regulations, provided that no such #sign# exceeds 95 feet in height; and
 - (ii) up to five #signs# may be located without regard to the maximum #surface area# limitations of the underlying #sign# regulations, provided that:
 - (a) the aggregate #surface area# of such #signs# does not exceed 4,400 square feet; and
 - (b) each such #sign# shall have a maximum #surface area# of 650 square feet, except for one #sign# that may have a maximum #surface area# of 1,800 square feet.

Any #sign# which exceeds the maximum height permitted by the underlying sign regulations shall direct attention to no more than one business conducted on the #zoning lot# and no such #signs# shall be #flashing signs#. Additionally, no more than two of the additional #signs# permitted under this paragraph, (a)(2), if located below the maximum height permitted by the underlying #sign# regulations, shall be #flashing signs#.

Erection of one or both of the additional #flashing signs# permitted under this paragraph, (a)(2), shall be conditioned upon and subject to additional limitations upon flashing effects for all #flashing signs# located on a #building# wall facing Tenth Avenue or on a #building# wall within 100 feet of Tenth Avenue, as prescribed by the Commission pursuant to a restrictive declaration. Recordation of such restrictive declaration in the Office of the Register and compliance with the terms thereof with respect to any previously erected #flashing signs# permitted under the underlying #sign# regulations shall be a precondition to the issuance of permits by the Commissioner of Buildings for an additional #flashing sign# permitted under this paragraph.

- (3) Along the #ERY High Line#, the #sign# regulations as set forth in Section 93-17, paragraph (b)(1), shall apply. In addition, no #flashing signs# above the level of the #High Line bed# shall be located within 150 feet of and facing the #ERY High Line#.
- (4) For an #ERY Culture, Festival and Exhibit Facility#, the total #surface area# of all permitted #signs# and banners shall be as set forth in this paragraph, (a)(4). The maximum aggregate #surface area# of all #signs# shall not exceed 2,700 square feet. #Signs#, other than banners, facing the outdoor plaza, as described in Section 93-71, paragraph (b), shall not exceed a maximum aggregate #surface area# of 200 square feet; #signs# facing the connection to the High Line, as described in Section 93-71, paragraph (f), shall not exceed a maximum aggregate #surface area# of 200 square feet; and #signs# facing West 30th Street shall not exceed a maximum aggregate #surface area# of 1,700 square feet. A maximum of 600 square feet of #signs# in the form of banners are permitted facing or within the outdoor plaza. No #sign# shall exceed a height of 30 feet above the level of the Culture Facility Plaza, as described in Section 93-71, paragraph (j) and no #signs#

facing West 30th Street shall be located at a height above the #High Line#. Banners located within the outdoor plaza may be installed on one or two poles located not less than 13 feet from an #ERY Culture, Festival and Exhibit Facility#. The bottom of any such banner shall be located at least 10 feet above the bottom of the pole. Any #sign# that exceeds 300 square feet of #surface area# shall be non-#illuminated# or a #sign with indirect illumination#.

(b) Subdistrict F

For the purposes of calculating the permitted #surface area# of a #sign#, each site set forth on Map 2 (Subdistrict F: Site Plan) in Appendix B shall be considered a separate #zoning lot#.

(1) Along the #High Line#

The #sign# regulations of the underlying districts shall not apply to #signs# located within 50 feet of the #High Line#, except for #signs# located entirely below the level of the #High Line bed#. In lieu thereof, the #sign# regulations of a C1 District shall apply, except that #accessory signs# located within the #High Line# frontage may have a maximum height of 20 feet above the level of the #High Line bed#.

No #signs# affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

- (i) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
- (ii) provide, at a minimum, directional, informational and interpretive signage consistent with the use of the #High Line# as a public open space;
- (iii) be integrated with the design of the #High Line# open space; and
- (iv) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood.

(2) Other locations

Within Subdistrict F, the underlying #sign# regulations shall apply for #signs# located beyond 50 feet of the #High Line#, and for portions of #signs# located entirely below the level of the #High Line bed# along West 30th Street. However, #flashing signs# shall not be permitted in Subdistrict F, except along frontages within 200 feet of the intersection of the West 33rd Street and 11th Avenue #street lines#.

(7/24/13)

93-171

Special permit for signs within the Pennsylvania Station Subarea

For an arena permitted pursuant to Section 74-41 within Pennsylvania Station Subarea B4, the City Planning Commission may, by special permit, modify the applicable provisions of Sections 32-63 (Permitted Advertising Signs) to allow advertising #signs#, 32-64 (Surface Area and Illumination Provisions) to allow increased #surface area# along specified #streets# and 32-65 (Permitted Projection or Height of Signs), provided such #signs# comply with the conditions of paragraph (a) and the findings of paragraph (b) of this Section, as follows:

(a) Conditions

- (1) no #sign# shall extend to a height greater than 85 feet above #curb level#;
- (2) all #signs# located below a height of 12 feet above #curb level# shall be limited in location and aggregate #surface area# to 550 square feet on the West 31st Street frontage of Subarea B4, 250 square feet on the West 33rd Street frontage of Subarea B4 and 850 square feet on the Eighth Avenue frontage of Subarea B4; and
- (3) all #signs# located above a height of 12 feet above #curb level# shall be limited in location and aggregate #surface area# to 5,500 square feet within the #through lot# fronting on Eighth Avenue, 3,000 square feet within each #corner lot# fronting on Eighth Avenue, 3,000 square feet within the #through lot# portion of the West 31st Street frontage of Subarea B4 and 3,000 square feet within the #through lot# portion of the West 33rd Street frontage of Subarea B4.

- (b) The Commission shall find that the location and placement of such #signs# is appropriate in the relationship to #buildings# and #uses# on the #zoning lot# and to adjacent open areas, and would be compatible with the character of the arena site, including its use as an entryway to Pennsylvania Station, and of the surrounding area.

For purposes of calculating the height of any #sign# permitted pursuant to this Section, #curb level# shall be defined as 30.755 feet above Manhattan datum.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on the number, size and location of arena #signs# permitted pursuant to the district regulations.

(1/19/05)

93-18

Non-Conforming Uses in Large-Scale Plan Subdistrict A

In the Large-Scale Plan Subdistrict A, for a period of not more than ten years after January 19, 2005, existing automobile repair establishments listed in Use Group 16 of Section 32-25 that were conforming prior to January 19, 2005, may be #enlarged#, provided that the #floor area ratio# of any such establishment, including any #enlargement# pursuant to this Section, does not exceed 5.0.

(1/19/05)

93-19

Authorization for Electrical Utility Substations

Electrical utility substations shall be allowed in the #Special Hudson Yards District# in order to serve the needs of the Special District, and the regulations thereof shall be modified as necessary to accommodate the operational needs of the substation, upon authorization of the City Planning Commission which shall be issued upon finding, with respect to a proposed site, that:

- (a) to the extent reasonably permitted by the operational needs of the substation, the architectural and landscaping treatment of such #use# will blend harmoniously with the abutting area; and

- (b) if the site proposed for such #use# is Subareas D4 or D5 of the Hell's Kitchen Subdistrict D of the #Special Hudson Yards District#, that there are difficulties in locating such #use# in other Subdistricts of the #Special Hudson Yards District#.

The City Planning Commission may, consistent with cost-effective operations and capital planning, and the operational needs of the substation, prescribe appropriate conditions and safeguards on matters necessary to effectuate the provisions of paragraph (a) of this Section which are not regulated by other applicable codes, laws, rules or regulations. The applicant shall provide the Department of City Planning with a general description of such codes, laws, rules or regulations and a certification that the proposed substations shall comply therewith.

(2/2/11)

93-20

FLOOR AREA REGULATIONS

The #floor area# regulations of this Section, inclusive, shall apply to #zoning lots#.

(7/24/13)

93-21

Floor Area Regulations in the Large-Scale Plan Subdistrict A

In the Large-Scale Plan Subdistrict A, the #floor area# provisions of this Section shall apply.

- (a) Subareas A2 through A5

In Subareas A2 through A5, the basic maximum permitted #floor area ratio# shall be as specified in Row A in the table in this Section. Such #floor area ratio# may be increased to the maximum amount specified in Row B in the table, pursuant to Section 93-31 (District Improvement Fund Bonus) or the transfer of #floor area# or increase in the amount of #floor area# from the #Phase 2 Hudson Boulevard and Park# pursuant to Sections 93-32 or 93-33. For #zoning lots# that have maximized their permitted #floor area# through such #floor area# bonus or transfer provisions,

the permitted #floor area# may be further increased to the maximum amount specified in Row C in the table through the distribution of #floor area# from the Eastern Rail Yard Subarea A1, pursuant to Section 93-34. #Residential use# shall only be permitted on a #zoning lot# with a non-#residential floor area ratio#, as follows, or as provided for phased developments pursuant to Section 93-122 (Certification for residential use in Subdistricts A, B and E):

- (1) 18.0 or more in Subareas A2 and A3
- (2) 15.6 or more in Subarea A4
- (3) 14.0 or more in Subarea A5.

R = Residential FAR

(b) Eastern Rail Yard Subarea A1

The Eastern Rail Yard Subarea A1 shall generate a maximum #floor area ratio# of 19.0. The maximum #floor area ratio# for

#commercial use# shall be 19.0, the maximum #floor area ratio# for #residential use# shall be 3.0, and the maximum #floor area ratio# for #community facility use# shall be 2.0. In order to promote a superior site plan, the amount of #floor area# permitted in the subarea shall be limited, and unused #floor area# may be distributed as follows:

- (1) The maximum #floor area ratio# for any #zoning lot# in the subarea shall be 11.0. The maximum #floor area ratio# for #commercial use# shall be 9.0, the maximum #floor area ratio# for #community facility use# shall be 2.0, and the maximum #floor area ratio# for #residential use# shall be 3.0. #Residential use# shall only be permitted on a #zoning lot# with a non-#residential floor area ratio# of 8.0 or more, or as provided for phased developments pursuant to Section 93-122 (Certification for residential use in Subdistricts A, B and E).

Any floor space occupied by an #ERY Culture, Festival and Exhibit Facility#, including any floor space #accessory# thereto, that is located below the elevation of the Culture Shed Plaza described in Section 93-71, paragraph (j), within the moveable portion that may be extended and retracted to cover and enclose all or any portion of the Culture Facility Plaza, or within a portion of a #building# that contains #residential use# and is not designed to house such moveable portion, shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#. In addition, in a #building# containing both #residential use# and an #ERY Culture, Festival and Exhibit Facility#, any floor space occupied by elevator shafts, structural systems or stairwells serving the #residential use# that is either located on any #story# occupied entirely by the #ERY Culture, Festival and Exhibit Facility#, except for such elevator shafts, structural systems, and stairwells, or is located on a #story# occupied in part by the #ERY Culture, Festival and Exhibit Facility# where such elevator shaft or stairwell is not accessible for #residential use# on such #story# except for emergency egress, shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #residential uses# and the total maximum #floor area ratio# of the #zoning lot#.

For a #building#, or portion of a #building#, containing #residential use# that is located adjacent to the #ERY High Line#, any floor space used for storage, restrooms, maintenance facilities or other support space for the #ERY High Line# shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #residential# or #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#.

- (2) Unused #floor area# may be distributed to #zoning lots# in Subareas A2 through A5 pursuant to Section 93-34, provided the total amount of distributed #floor area# does not exceed an amount equal to the #lot area# of the Eastern Rail Yard Subarea A1 multiplied by 10.0. Furthermore, the total #floor area# distributed to Subarea A2 shall not exceed 3,238,000 square feet.

(c) #Phase 2 Hudson Boulevard and Park#

For #zoning lots# or portions of #zoning lots# in the #Phase 2 Hudson Boulevard and Park#, the provisions of Section 93-32 (Floor Area Regulations in the Phase 2 Hudson Boulevard and Park) and 93-33 (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park) shall apply.

Notwithstanding the provisions of this Section, the basic maximum permitted #floor area ratio# may be increased on an "adjacent lot" pursuant to Section 74-79 (Transfer of Development Rights from Landmark Sites), provided that the maximum #floor area# transferred from the landmark lot does not exceed the basic maximum permitted #floor area ratio# less the total #floor area# of all #buildings# on the landmark lot.

(2/2/11)

93-22

Floor Area Regulations in Subdistricts B, C, D, E and F

(a) Subdistricts B, C, D and E

In Subdistricts B, C, D and E, the basic maximum #floor area ratio# is determined by the subdistrict and, where applicable, subarea, as specified in the table in this Section. The basic

maximum #floor area ratios# for #non-residential buildings# are set forth in Row A, and the basic maximum #floor area ratios# for #buildings# containing #residences# are set forth in Row B. Such basic maximum #floor area ratios# may be increased to the amount specified in Row C only pursuant to Section 93-31 (District Improvement Fund Bonus) or as otherwise specified in Sections 93-221 through 93-224.

For a #zoning lot# with more than one #building#, the basic maximum #floor area ratios# set forth in Row A shall apply, provided that any #building# that is #developed# or #enlarged# after January 19, 2005, is wholly #non-residential#. If a #building# containing #residences# is #developed# or #enlarged# on such a #zoning lot# after January 19, 2005, the basic maximum #floor area ratios# set forth in Row B shall apply.

Notwithstanding the provisions of this Section, the basic maximum permitted #floor area ratio# may be increased on an "adjacent lot" pursuant to Section 74-79 (Transfer of Development Rights from Landmark Sites), provided that the maximum #floor area# transferred from the landmark lot does not exceed the basic maximum permitted #floor area ratio# less the total #floor area# of all #buildings# on the landmark lot.

(b) Subdistrict F

In Subdistrict F, the #floor area ratio# provisions of Section 93-225 (Floor area regulations in Subdistrict F) shall apply.

(4/29/14)

93-221

Maximum floor area ratio in the Farley Corridor Subdistrict B

(a) Western Blocks Subarea B1

In the Western Blocks Subarea B1 of the Farley Corridor Subdistrict B, #residential use# shall only be permitted on a #zoning lot# with a #commercial floor area ratio# of 12.0 or more, or as provided for phased developments in Section 93-122 (Certification for residential use in Subdistricts A, B and E).

(b) Central Blocks Subarea B2

In the Central Blocks Subarea B2 of Farley Corridor Subdistrict B, #residential use# shall only be permitted on a #zoning lot# with a #commercial floor area ratio# of 15.0 or more, or as provided for phased developments in Section 93-122.

(c) Farley Post Office Subarea B3

In the Farley Post Office Subarea B3 of Farley Corridor Subdistrict B, no #floor area# increases shall be permitted.

(d) Pennsylvania Station Subarea B4

In the Pennsylvania Station Subarea B4 of Farley Corridor Subdistrict B, any increase in the #floor area ratio# specified in Row A in the table in Section 93-22 shall be permitted only pursuant to Section 93-35 (Special Permit for Transit Bonus in Pennsylvania Station Subarea) and Section 74-79 (Transfer of Development Rights from Landmark Sites), as modified by paragraph (b) of Section 93-054 (Applicability of Chapter 4 of Article VII).

(e) Transfer of #floor area#

Notwithstanding any other provision of this Resolution, #floor area# may not be transferred between a #zoning lot# located north of West 31st Street in the Western Blocks Subarea B1 and a #zoning lot# located north of West 31st Street in the Central Blocks Subarea B2.

(2/2/11)

93-222

Maximum floor area ratio in the 34th Street Corridor Subdistrict C

In the 34th Street Corridor Subdistrict C, the basic maximum #floor area ratios# of #non-residential buildings# are set forth in Row A in the table in Section 93-22 and may be increased to the amount specified in Row C pursuant to Section 93-31 (District Improvement Fund Bonus). The basic maximum #floor area ratios# of any #building# containing #residences# are set forth in Row B.

The #floor area ratio# of any #building# containing #residences# may be increased from 6.5, pursuant to Sections 93-31 (District Improvement Fund Bonus) and 23-90 (INCLUSIONARY HOUSING), as modified by Section 93-23 (Modifications of Inclusionary Housing Program), as follows:

- (a) the #residential floor area ratio# may be increased from 6.5 to a maximum of 12.0 only if for every five square feet of #floor area# increase, pursuant to Section 93-31, there is a #floor area# increase of six square feet, pursuant to Section 23-90, as modified by Section 93-23; and
- (b) any #floor area# increase above a #floor area ratio# of 12.0 shall be only pursuant to Section 93-31.

(2/2/11)

93-223

Maximum floor area ratio in Hell's Kitchen Subdistrict D

- (a) Subareas D1 and D2

In Subareas D1 and D2 of Hell's Kitchen Subdistrict D, the basic maximum #floor area ratios# of #non-residential buildings# are set forth in Row A in the table in Section 93-22 and may be increased to the amount specified in Row C pursuant to Section 93-31 (District Improvement Fund Bonus) or through the transfer of #floor area# from the #Phase 2 Hudson Boulevard and Park# as set forth in Section 93-32. The basic maximum #floor area ratios# of any #building# containing #residences# are set forth in Row B.

The #floor area ratio# of any #building# containing #residences# may be increased from 6.5 pursuant to Section 93-31 (District

Improvement Fund Bonus) or through the transfer of #floor area# from the #Phase 2 Hudson Boulevard and Park# as set forth in Section 93-32, and pursuant to Section 23-90 (INCLUSIONARY HOUSING), as modified by Section 93-23, as follows:

- (1) The #residential floor area ratio# may be increased from 6.5 to a maximum of 12.0 only if for every five square feet of #floor area# increase pursuant to Sections 93-31 or 93-32 there is a #floor area# increase of six square feet, pursuant to Section 23-90, as modified by Section 93-23.
- (2) Any #floor area# increase above a #floor area ratio# of 12.0 shall be only pursuant to Section 93-31 or 93-32.

Furthermore, in Subarea D1, the #floor area ratio# on a #zoning lot# may exceed 13.0 only where the #community facility floor area ratio# is not less than the excess of such #floor area ratio# above 13.0.

(b) Subarea D3

In Subarea D3, the basic maximum #floor area ratio# may be increased only pursuant to Section 93-31 (District Improvement Fund Bonus).

(c) Subareas D4 and D5

In Subareas D4 and D5, the underlying #floor area ratio# regulations shall apply.

(d) Authorization for transfer of #floor area# for public facilities

For any #zoning lot# located partially in Subarea D2 and partially in Subarea D4, where such #zoning lot# is occupied by a #development# or #enlargement# that includes a public facility, the City Planning Commission may authorize modifications to the #street wall# requirements of Subarea D4 and authorize modifications to the provisions of Section 77-22 (Floor Area Ratio) in order to allow the transfer of #floor area# from that portion of the #zoning lot# located in Subarea D4 to that portion located in Subarea D2, provided the #floor area ratio# for the #zoning lot# does not exceed the adjusted maximum #floor area ratio# for the #zoning lot# as specified in Section 77-22. In order to authorize such modifications, the Commission shall find that:

- (1) such public facility provides a necessary service to the surrounding area;
- (2) such transfer of #floor area# is necessary in order for the #development# or #enlargement# to achieve an adequate separation of #uses# on the #zoning lot#; and
- (3) such transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of #use# to the detriment of occupants of #buildings# on the #block# or surrounding #blocks#, and that any disadvantages to the surrounding area caused by reduced access of light and air will be more than offset by the advantages of the public facility to the local community and the City as a whole.

(e) Authorization for transfer of floor area for public open areas

For #developments# or #enlargements# on #zoning lots# divided by district boundaries that are wholly or partially within Hell's Kitchen Subdistrict D and provide publicly accessible open areas contiguous to or over the Lincoln Tunnel Approaches or Dyer Avenue, the Commission may authorize the distribution of #floor area# across such district boundaries pursuant to Section 93-543 (Authorization for the provision of public open areas).

(2/2/11)

93-224

Maximum floor area ratio in the South of Port Authority Subdistrict E

In the South of Port Authority Subdistrict E, #residential use# shall only be permitted as part of a #development# or #enlargement# on a #zoning lot# with a #commercial floor area ratio# of 15.0 or more, or as provided for phased developments in Section 93-122 (Certification for residential use in Subdistricts A, B and E).

(2/2/11)

93-225

Floor area regulations in Subdistrict F

In Subdistrict F, the maximum #floor area ratio# for #residential#, #community facility# and #commercial uses# on a #zoning lot# shall be as follows:

- (a) the maximum #floor area ratio# for #residential uses# shall be 8.0;
- (b) the maximum #floor area ratio# for #community facility uses# shall be 2.0. However, any floor space occupied by a public #school#, constructed in whole or in part pursuant to agreement with the New York City School Construction Authority and subject to the jurisdiction of the New York City Department of Education, shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#;
- (c) the maximum #floor area ratio# for #commercial uses# shall be 8.0; and
- (d) the total maximum #floor area ratio# in the subdistrict shall be 10.0, except as modified pursuant to Section 93-23 (Modifications of Inclusionary Housing Program).

(12/21/09)

93-23

Modifications of Inclusionary Housing Program

Subdistrict C (34th Street Corridor) and Subareas D1 and D2 of Subdistrict D (Hell's Kitchen) of the #Special Hudson Yards District# and Area P2 of the #Special Garment Center District#, shall be #Inclusionary Housing designated areas#, pursuant to Section 12-10 (DEFINITIONS) for the purpose of making the Inclusionary Housing Program regulations of Section 23-90 (INCLUSIONARY HOUSING), inclusive, applicable as modified within the Special Districts. The underlying provisions of Section 23-90 shall only be applicable in Subdistrict F as modified by Section 93-233 (Floor area increase for affordable housing in Subdistrict F).

(7/29/09)

93-231

Definitions

For the purposes of this Chapter, matter in italics is defined in Section 12-10 or 23-911 (General definitions), inclusive.

(2/2/11)

93-232

Floor area increase in Subdistricts B, C, D and E, and Preservation Area P2

Within Subdistricts B, C, D and E, and Preservation Area P2, the provisions of Section 23-952 (Floor area compensation in Inclusionary Housing designated areas) shall not apply. In lieu thereof, the #floor area# compensation provisions of this Section shall apply. In accordance with the provisions set forth in Section 93-22 (Floor Area Regulations in Subdistricts B, C, D, E and F) or 121-31 (Maximum Permitted Floor Area), the maximum permitted #residential floor area ratio# on a #zoning lot# with #developments# or #enlargements# that provide #affordable housing# pursuant to the Inclusionary Housing Program may be increased, as follows:

- (a) The permitted #floor area ratio# may be increased from 6.5, or as otherwise specified in Section 93-22, to a maximum of 9.0, provided that:
 - (1) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot#; or
 - (2) the amount of #low income floor area# is equal to at least five percent of the total #residential floor area# on the #zoning lot#, and the amount of #moderate income floor area# is equal to at least 7.5 percent of the total #residential floor area# on the #zoning lot#; or
 - (3) the amount of #low income floor area# is equal to at least five percent of the total #residential floor area# on the #zoning lot# and the amount of #middle income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot#.
- (b) The permitted #floor area ratio# may be increased from 9.0 to a maximum of 12.0, provided that:

- (1) the amount of #low income floor area# is equal to at least 20 percent of the total #residential floor area# on the #zoning lot#; or
- (2) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot#, and the amount of #moderate income floor area# is equal to at least 15 percent of the total #residential floor area# on the #zoning lot#; or
- (3) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot# and the amount of #middle income floor area# is equal to at least 20 percent of the total #residential floor area# on the #zoning lot#.

For the purposes of this Section, #low income floor area# may be considered #moderate income floor area# or #middle income floor area#, and #moderate income floor area# may be considered #middle income floor area#.

(12/21/09)

93-233

Floor area increase for affordable housing in Subdistrict F

The #floor area# of any #building# containing #residences# in Subdistrict F may be increased by up to five percent, and such increase may be in excess of the maximum #floor area ratio# of 8.0 for #residential use#, and the total maximum #floor area ratio# of 10.0, provided that:

- (a) at least 20 percent of the #residential# units in such #building#, inclusive of any #floor area# increase permitted by this Section, shall be occupied by #lower income households#, as defined in Section 23-911 (General definitions);
- (b) such #building# shall comply with the provisions of:
 - (1) Section 23-954 (Additional requirements for compensated developments), paragraphs (b) and (c);
 - (2) Section 23-96 (Requirements for Generating Sites), paragraphs (b) through (i); and;

(3) Section 23-961 (Additional requirements for rental affordable housing), paragraphs (a) through (d); and

(c) the sum of all #floor area# increases permitted pursuant to this Section does not exceed 0.4 times the total #lot area# of Subdistrict F.

(1/19/05)

93-30

SPECIAL FLOOR AREA REGULATIONS

(2/2/11)

93-31

District Improvement Fund Bonus

In Area P-2 of the #Special Garment Center District# and in the #Special Hudson Yards District#, except in Subdistrict F, the Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# to be increased up to the maximum amount specified in Sections 93-21, 93-22 or 121-31, as applicable, provided that instruments in a form acceptable to the City are executed and recorded and that, thereafter, a contribution has been deposited in the #Hudson Yards District Improvement Fund#. The execution and recording of such instruments and the payment of such non-refundable contribution shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area# for such #development# or #enlargement#.

The Commissioner of Buildings shall not authorize the construction of any #development# or #enlargement# utilizing #floor area# bonused pursuant to this Section, including foundations with respect thereto, nor shall the construction of any bonused portion thereof be authorized, until the Chairperson has certified that the requirements of this Section have been met. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a #development# or #enlargement# which does not utilize such bonused #floor area#, provided that, prior to issuance of such permit, the Chairperson has notified the Commissioner of Buildings in writing of the receipt by the Department of City Planning of either:

- (a) a letter from the applicant for such permit dated no earlier than 30 days prior to issuance thereof, stating whether as of such date the applicant anticipates filing an application to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or Section 23-90, as modified by Section 93-23; or
- (b) an application for a bonus from such applicant to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or Section 23-90, as modified by Section 93-23.

Copies of letters received from applicants pursuant to paragraph (a) of this Section shall be forwarded by the Department of City Planning to the Community Board and local City Council member, and maintained on file and be available for public inspection at such Department.

The contribution amount shall be \$100 per square foot of #floor area# as of January 19, 2005, and shall be adjusted by the Chairperson annually. Such adjustment shall occur on August 1 of each calendar year, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics for the twelve months ended on June 30 of that year. The contribution amount shall be determined based upon the rate which is in effect at the time the contribution is received, and contributions may be made only on days when the Hudson Yards Infrastructure Corporation (the "Corporation") is open for business and during business hours as specified by the Corporation.

The Commission may promulgate rules regarding the administration of this Section, and the Commission may also, by rule, adjust the contribution amount specified in the preceding paragraph to reflect changes in market conditions within the #Hudson Yards Redevelopment Area# if, in its judgment, the adjusted amount will facilitate the district-wide improvements that are consistent with the purposes of this Chapter and the purposes of the #Special Garment Center District#. The Commission may make such an adjustment by rule, not more than once a year.

For any such adjustment by rule decreasing the contribution amount, or increasing the contribution amount by more than the percentage change in the Consumer Price Index for all urban consumers, the following shall apply:

- (1) Such rule shall be effective for not more than two years; and

- (2) The Commission shall not publish the proposed rule pursuant to the City Administrative Procedure Act unless the City Council Land Use Committee and the Department of City Planning have jointly filed an application for a zoning text amendment under Section 201 of the New York City Charter, which would make such adjustment of the contribution amount permanently effective. The contribution amount established under such rule as finally adopted shall continue in effect with further adjustments based upon the Consumer Price Index for all urban consumers, until the next adjustment of the contribution amount pursuant to this Section.

For the #conversion# to #dwelling units# of non-#residential floor area#, where the total #floor area# on the #zoning lot# to be #converted# to #residential use# exceeds a #floor area ratio# of 12.0, such excess #floor area# shall be permitted only pursuant to the provisions of this Section.

(2/2/11)

93-32

Floor Area Regulations in the Phase 2 Hudson Boulevard and Park

In the #Phase 2 Hudson Boulevard and Park#, no #development# shall be permitted and, except as provided in Section 93-051 (Applicability of Chapter 1 of Article I), no #building# shall be #enlarged#. However, #floor area# from a granting site within the #Phase 2 Hudson Boulevard and Park# may be transferred to a receiving site in accordance with the provisions of paragraph (a) of this Section.

For the purposes of this Section, a "granting site" shall mean a #zoning lot#, or portion thereof, within the #Phase 2 Hudson Boulevard and Park# and the #lot area# of such granting site shall include any area on such site designated on the City Map as Hudson Boulevard or #public park#, and a "receiving site" shall mean a #zoning lot#, or portion thereof, within Subareas A2 through A5 of the Large-Scale Plan Subdistrict A or Subareas D1 or D2 of Hell's Kitchen Subdistrict D, to which #floor area# from a granting site has been transferred.

Special regulations for certain #zoning lots# partially within the #Phase 2 Hudson Boulevard and Park# are set forth in Section 93-33.

- (a) Transfer of floor area by certification

The Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# of a receiving site to be increased up to the maximum amount specified in Section 93-21 or 93-22, as applicable, through the transfer of #floor area# from a granting site, provided that:

- (1) the maximum amount of #floor area# transferred from a granting site shall not exceed the #floor area ratio# permitted on the granting site, as listed below, less any existing #floor area# to remain on the granting site:

District	Maximum #floor area ratio#
C2-8	7.5
C6-2	6.02
C6-4	10.0
M1-5	5.0

- (2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred;
- (3) the maximum amount of #floor area# transferred to a receiving site shall be based on an amount not to exceed the #floor area ratio# permitted on a #zoning lot# through such transfer pursuant to Section 93-21 or 93-22, as applicable. In the event a granting site generates more #floor area# than is permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# transfers pursuant to this Section; and
- (4) where all #floor area# shall be transferred from a granting site pursuant to one or more such certifications, all certificates of occupancy have been surrendered for such granting site, all structures on such granting site have been demolished, and such granting site has been conveyed to the City for improvement, where applicable, as a #public park# or #street#, as provided for on the City Map.

Where, as a result of the transfer of #floor area# pursuant to this paragraph, (a), the amount of #floor area# on a receiving site is less than the maximum allowable as specified for the applicable subarea in Row B in the table in Section 93-21 and Row C in the table in Section 93-22, any additional #floor area#, up to the maximum #floor area ratio# permitted on the receiving site as specified in such rows, may be achieved only

through contributions to the #Hudson Yards District Improvement Fund# pursuant to Section 93-31 (District Improvement Fund Bonus), an increase in #floor area# pursuant to paragraph (b) of this Section or Section 93-33 (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park), or the Inclusionary Housing Program pursuant to Section 23-90, as modified by Section 93-23.

(b) Authorization for contribution-in-kind

The City Planning Commission may authorize a contribution-in-kind to the #Hudson Yards District Improvement Fund# for a receiving site, provided that:

- (1) the conditions for transferring #floor area# set forth in paragraph (a) of this Section have been met;
- (2) the granting site will be improved, at the applicant's expense, as a #public park# or #street#, as provided for on the City Map, prior to conveyance to the City; and
- (3) the applicant has entered into an agreement or provided instruments in a form satisfactory to the City, providing for the improvement of the granting site as a #public park# or #street# pursuant to an agreed upon construction schedule.

In order to grant such authorization, the Commission shall find that the #public park# or #street# has been designed in accordance with the approved plan for the Hudson Boulevard and Park, or as an appropriate interim design, in consultation with the Department of Parks and Recreation or Department of Transportation.

The amount of increased #floor area# generated by the contribution-in-kind shall be as determined by the Commission, which shall determine the reasonable cost of such improvement, including any acquisition and site preparation costs, and shall permit a #floor area# bonus in relation thereto. In making such determination, the Commission may consult with an engineer at the applicant's expense. In the event the contribution-in-kind results in an amount of #floor area# in excess of what is permitted on the receiving site, the Commission shall authorize that such excess #floor area# be credited towards future #floor area# increases pursuant to Section 93-31.

The owner shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement#

identified as utilizing the increased #floor area# permitted pursuant to this paragraph, (b), and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion until the Chairperson has certified that the improvements are substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement# nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the improvements have been finally completed in accordance with the approved plans and such final completion has been certified by the Chairperson.

An application filed with the Chairperson of the Commission for the transfer of #floor area# pursuant to this Section shall be made jointly by the owners of the granting site and receiving site and shall include a site plan and #floor area# zoning calculations for the granting site and the receiving site, and a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with notice of the restrictions upon further development of the granting site and the receiving site.

Notice of restrictions shall be filed by the owners of the respective sites in the Borough Office of the Register of the City of New York, indexed against the granting site and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site.

(2/2/11)

93-33

Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park

Where all of the #lot area# within the following parcels, as they existed on January 19, 2005, that is also within the #Phase 2 Hudson Boulevard and Park#, has been conveyed to the City pursuant to the provisions of Section 93-32, the owner of the residual portion of one of these parcels may convey to the City such residual portion, with all development rights appurtenant thereto, provided that all certificates of occupancy have been surrendered and all structures on such parcel have been demolished:

Block 708, Lots 20 and 46

Block 709, Lot 17

Block 710, Lot 20.

When such conveyance is made, the Chairperson of the City Planning Commission may certify that such owner is entitled to an increase in #floor area# on any receiving site as specified in Section 93-32, in lieu of a permitted #floor area# increase in exchange for contributions to the #Hudson Yards District Improvement Fund#. The amount of increase certified shall not exceed the #lot area# of the residual portion times the #floor area ratio# of the applicable zoning district, as specified in Section 93-32, paragraph (a)(1).

The maximum amount of #floor area# increase on a receiving site shall be based on an amount not to exceed the #floor area ratio# increase permitted on a #zoning lot# through such contribution pursuant to Sections 93-21 or 93-22, as applicable. In the event the certified permissible #floor area# increase is greater than that permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# increases on receiving sites pursuant to this Section.

Once certified by the Chairperson, the entitlement to an increase in #floor area# pursuant to this Section shall be the property of the former owner of the residual property conveyed to the City, and such owner may assign, sell or otherwise transfer such entitlement without restriction.

Where certification is made pursuant to this Section, the site plan and #floor area# calculations for the receiving site, together with the notice of restrictions upon further development of the receiving site, included in the application submitted pursuant to Section 93-32, shall set forth the increase in #floor area# for such receiving site certified hereunder.

(2/2/11)

93-34

Distribution of Floor Area in the Large-Scale Plan Subdistrict A

In order to promote a superior site plan in the Eastern Rail Yard Subarea A1 of the Large-Scale Plan Subdistrict A, the Chairperson of the City Planning Commission shall allow, by certification, the

distribution of #floor area# from the Eastern Rail Yard Subarea A1 to #zoning lots# in Subareas A2 through A5 of the Large-Scale Plan Subdistrict A. Such distribution shall only be permitted for receiving sites that have maximized their permitted #floor area# through contributions to the #Hudson Yards District Improvement Fund#, pursuant to Section 93-31, or the transfer of #floor area# or increase in the amount of #floor area# from the #Phase 2 Hudson Boulevard and Park#, pursuant to Sections 93-32 or 93-33. For the purposes of this Section, a "receiving site" shall mean a #zoning lot# within Subareas A2 through A5 to which #floor area# from the Eastern Rail Yard Subarea A1 has been distributed.

(a) Distribution of #floor area# by certification

The Chairperson of the Commission shall allow, by certification, a distribution of #floor area# from the Eastern Rail Yard Subarea A1 to a receiving site provided that:

- (1) The amount of #floor area# distributed does not result in distributions in excess of the maximum amount specified for the applicable #use# that may be distributed from the Eastern Rail Yard Subarea A1, as set forth in paragraph (b)(2) of Section 93-21;
- (2) Each distribution, once completed, irrevocably reduces the amount of #floor area# that may be distributed from the Eastern Rail Yard Subarea A1 by the amount of #floor area# distributed; and
- (3) The amount of #floor area# on the receiving site which results from such distribution does not exceed the maximum #floor area ratio# permitted on a #zoning lot# through distribution of #floor area# from the Eastern Rail Yard Subarea A1, as specified in Row C of the table in Section 93-21.

(b) Requirements for application

An application filed with the Chairperson of the Commission for the distribution of #floor area# by certification pursuant to paragraph (a) of this Section shall be made jointly by the owner of the development rights of the Eastern Rail Yard Subarea A1 and the receiving site and shall include:

- (1) a site plan and #floor area# zoning calculations for the receiving site; and

- (2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, together with a notice of the restrictions limiting further development of the Eastern Rail Yard Subarea A1.

Such notice of restrictions shall be filed by the owners of the respective sites in the Borough Office of the Register of the City of New York, indexed against the Eastern Rail Yard Subarea A1 and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit for any #development# or #enlargement# utilizing #floor area# distributed pursuant to this Section, including foundations with respect thereto, on the receiving site. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a #development# or #enlargement# which does not utilize such distributed #floor area#.

(1/19/05)

93-35

Special Permit for Transit Bonus in Pennsylvania Station Subarea B4

In the Pennsylvania Station Subarea B4, for #developments# or #enlargements# that significantly enhance the pedestrian environment and provide improvements to access to public transit facilities, the City Planning Commission may permit a commensurate #floor area# increase for #commercial use# above a #floor area ratio# of 10.0 to a maximum #floor area ratio# of 19.5.

- (a) The following conditions shall apply:
 - (1) the applicant shall submit a plan acceptable to the Commission identifying that portion of the #development# or #enlargement# utilizing such increased #floor area#;
 - (2) all transit facility improvements shall comply with applicable design standards or the current guidelines of the Metropolitan Transit Authority, New Jersey Transit, or Amtrak, as applicable;
 - (3) the applicant shall submit schematic or concept plans for all proposed improvements to the applicable transportation

agency and the Commission, and any further documentation deemed necessary by the reviewing agencies;

- (4) the Commission shall receive a letter from the applicable transportation agency stating the drawings and other documents submitted by the applicant have been determined to be of sufficient scope and detail to fix and describe the size and character of the transit improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and other such elements as may be appropriate; and
- (5) the owner shall sign a legally-enforceable instrument in a form acceptable to the reviewing agencies containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain all parts of the improvement, whether on-site or off, pursuant to an agreed-upon construction schedule. Such instrument shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for New York County and a certified copy of the instrument shall be submitted to the Chairperson of the Commission and the applicable transportation agencies.

The owner shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this Section, and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion, until the applicable transportation agencies have certified that the transit facility improvement is substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement#, nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the transit improvement has been finally completed in accordance with the approved plans and such final completion has been certified by the applicable transportation agencies.

- (b) In order to grant such special permit, the Commission shall find that:

- (1) the transit improvements significantly enhance the surface and subsurface pedestrian circulation network into and around the #development# or #enlargement# and to and from public transit facilities;
- (2) the streetscape, the site design and the location of #building# entrances for the #development# or #enlargement# contribute to the overall improvement of pedestrian circulation within the #Special Hudson Yards District# and minimize congestion on surrounding streets; and
- (3) the increased #floor area# will not unduly increase the #bulk# of the #development# or #enlargement# , density of population or intensity of #use# to the detriment of the occupants of #buildings# in the surrounding area.

In determining the amount of #floor area# bonus, the Commission shall consider the extent to which the transit improvements address each of the above findings.

The City Planning Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# or #enlargement# and to minimize adverse effects on the character of the surrounding area.

(1/19/05)

93-40

HEIGHT AND SETBACK REGULATIONS

In the #Special Hudson Yards District#, height and setback regulations shall be as set forth in this Section, inclusive.

(4/30/12)

93-41

Rooftop Regulations

- (a) Subdistricts A, B, C, D and E

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings# within Subdistricts A through E, except that dormers may penetrate a maximum base height in accordance

with the provisions of paragraph (c)(1) of Section 23-621
(Permitted obstructions in certain districts).

(b) Subdistrict F

In Subdistrict F, the provisions of paragraph (f) of Section 33-42 shall apply, except that for towers above a height of 350 feet, rooftop mechanical structures shall comply with the tower top articulation provisions set forth in Section 93-569.

(2/2/11)

93-42

Height and Setback in Subdistricts A, B, C, D, E and F

In Subareas D4 and D5 of the Hell's Kitchen Subdistrict D, the underlying height and setback regulations shall apply as set forth in Section 93-542, as modified by Section 93-41 (Rooftop Regulations).

In Subdistricts A, B and C, Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the underlying height and setback regulations shall not apply. In lieu thereof, the provisions of Section 93-41 and paragraphs (a) through (d) of this Section shall apply. These regulations are further modified in certain locations as set forth in Section 93-50 (SPECIAL HEIGHT AND SETBACK REGULATIONS). The height of all #buildings or other structures# shall be measured from #curb level#.

In Subdistrict F, the underlying height and setback regulations shall not apply. In lieu thereof, the provisions of Section 93-41 and Section 93-56 (Special Height and Setback Regulations in Subdistrict F) shall apply.

(a) Maximum base heights

The maximum height of a #building or other structure# before setback shall be 150 feet along a #wide street# and along a #narrow# street within 100 feet of its intersection with a #wide street#, and 90 feet along a #narrow street# beyond 100 feet of its intersection with a #wide street#. For #corner lots# with #wide street# frontage and more than 100 feet of #narrow street# frontage, the maximum #building# height before setback along the #narrow street# may, as an alternative, be the weighted average of 150 feet for the first 100 feet from the corner, and 90 feet for the remainder of the #narrow street# frontage. Such

allowable maximum heights before required setbacks are hereinafter referred to as "maximum base heights."

(b) Required setbacks

For #buildings# that contain only #residential use# above the applicable maximum base height, the required minimum setback for portions of such #buildings# that exceed such maximum base height shall be 10 feet from a #wide street# and 15 feet from a #narrow street#.

For #buildings or other structures# that contain #commercial# or #community facility use# above the applicable maximum base height, the required minimum setback for portions of #buildings or other structures# that exceed such maximum base height shall be 15 feet from a #wide street# and 20 feet from a #narrow street#.

(c) Tower #lot coverage#

The portion of any #building# or #buildings# located above a height of 150 feet are hereinafter referred to as "towers."

- (1) Towers containing #residences# shall occupy, in the aggregate, a minimum of 30 percent of the #lot area# of the #zoning lot#, except that this requirement shall not apply to the highest 40 feet of such tower or towers. Furthermore, towers containing #residences# shall occupy not more than 40 percent of the #lot area# of the #zoning lot# or, for #zoning lots# less than 20,000 square feet, the percentage set forth in the following table:

LOT COVERAGE OF TOWERS
ON SMALL ZONING LOTS

Area of #Zoning Lot# (in square feet)	Maximum Percentage of #Lot Coverage#
10,500 or less	50
10,501 to 11,500	49
11,501 to 12,500	48
12,501 to 13,500	47
13,501 to 14,500	46
14,501 to 15,500	45
15,501 to 16,500	44
16,501 to 17,500	43
17,501 to 18,500	42
18,501 to 19,999	41

- (2) Towers that contain only #commercial# or #community facility use#, or a combination thereof, shall occupy not more than 60 percent of the #lot area# of the #zoning lot# or, for #zoning lots# less than 30,000 square feet, the percentage set forth in the following table:

LOT COVERAGE OF TOWERS
ON SMALL ZONING LOTS

Area of #Zoning Lot# (in square feet)	Maximum Percentage of #Lot Coverage#
20,500 or less	70
20,501 to 21,500	69
21,501 to 22,500	68
22,501 to 23,500	67
23,501 to 24,500	66
24,501 to 25,500	65
25,501 to 26,500	64
26,501 to 27,500	63
27,501 to 28,500	62
28,501 to 29,999	61

- (d) Length of #building# wall

The maximum length of any #story# located above a height of 500 feet shall not exceed 250 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 500 feet. No side of such rectangle shall exceed a width of 250 feet.

(6/29/10)

93-50

SPECIAL HEIGHT AND SETBACK REGULATIONS

In Subdistricts A, B and C, and Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the height and setback regulations set forth in paragraphs (a) through (d) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E and F) shall apply, except that such regulations are modified in certain locations as set forth in this Section. Such modifications include the establishment of #street wall# location regulations, and minimum and maximum base heights, as shown on Map 3 (Mandatory Street Wall Requirements) of

Appendix A of this Chapter. Such modifications also include depths of required setbacks, maximum length of #building# walls for towers, and tower #lot coverage#. Special provisions for recesses and sidewalk widenings are as follows:

(a) Recesses

Where #street walls# are required to be located on #street lines# or sidewalk widening lines, ground floor recesses up to three feet deep shall be permitted for access to #building# entrances, and deeper recesses shall be permitted only where necessary to comply with the pedestrian circulation space provisions of Section 93-63. Above a height of 60 feet for #buildings# fronting upon 34th Street in Subdistrict C or above a height of 50 feet for #buildings# fronting upon Tenth Avenue in Subdistricts C and D, and up to any specified minimum base height, recesses are permitted provided that the aggregate length of such recesses does not exceed 30 percent of the length of the required #street wall# at any level, and the depth of such recesses does not exceed five feet. No limitations on recesses shall apply above any specified minimum base height or to any portion of a #zoning lot# where #street walls# are not required.

Where #street walls# are required to extend along the entire #street# frontage of a #zoning lot#, no recesses shall be permitted within 20 feet of an adjacent #building#, or within 30 feet of the intersection of two #street lines#, except where corner articulation rules apply.

(b) Sidewalk Widenings

Where a #street wall# is required to extend along the entire #street# frontage of a #zoning lot#, and such #street# is intersected by a #street# with a mandatory sidewalk widening, no #street wall# shall be required within such sidewalk widening. Where corner articulation rules apply, the inner boundary of any required sidewalk widening may be considered to be the #street line#. The mandatory #street wall# requirements are illustrated on Map 3 in Appendix A of this Chapter. Where sidewalk widening lines are specified, such lines shall be parallel to and five or ten feet from the #street line#, as required pursuant to Section 93-61 and illustrated on Map 4 (Mandatory Sidewalk Widenings) in Appendix A.

In Subdistrict F, the provisions of Section 93-41 (Rooftop Regulations) and Section 93-56 (Special Height and Setback Regulations in Subdistrict F) shall apply.

(1/19/05)

93-51

Special Height and Setback Regulations in the Large-Scale Plan Subdistrict A

(2/2/11)

93-511

Tower lot coverage

The tower #lot coverage# requirements of paragraph (c) of Section 93-42 shall not apply within the Large-Scale Plan Subdistrict A.

(2/2/11)

93-512

Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A

(a) Hudson Boulevard

For the purposes of this paragraph, (a), Hudson Boulevard shall be considered to be a #wide street#. The #street wall# of #buildings# shall be located on the Hudson Boulevard sidewalk widening line and extend along at least 70 percent of the length of the Hudson Boulevard frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 120 feet. On #corner lots#, the maximum base height may apply along intersecting #narrow street lines# for a distance of 100 feet from its intersection with Hudson Boulevard. Above a height of 120 feet, a setback at least 25 feet in depth is required from the Hudson Boulevard #street line#, and setbacks from intersecting #narrow streets# shall comply with the provisions of paragraph (b) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E and F).

Alternatively, for #zoning lots# that occupy the entire Hudson Boulevard #block# front, the Hudson Boulevard #street wall# may rise above a height of 120 feet without setback at the Hudson Boulevard sidewalk widening line, provided that:

- (1) the aggregate width of such #street wall# facing Hudson Boulevard does not exceed 100 feet;
- (2) all other portions of the #building# that exceed a height of 120 feet are set back at least 25 feet from the Hudson Boulevard #street line# at a height not lower than 90 feet; and
- (3) all portions of the #building# that exceed a height of 120 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42.

(b) Tenth Avenue

The #street wall# of #buildings# shall be located within 10 feet of the Tenth Avenue #street line# and extend along at least 70 percent of the Tenth Avenue frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. On #corner lots#, the maximum base height may apply along intersecting #narrow street lines# for a distance of 100 feet from its intersection with Tenth Avenue. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

Alternatively, for #zoning lots# that occupy the entire Tenth Avenue #block# front and where no portion of the #building# is within 10 feet of the Tenth Avenue #street line#, the Tenth Avenue #street wall# may rise above a height of 150 feet without setback, provided:

- (1) the aggregate width of such #street wall# does not exceed 100 feet;
- (2) all other portions of the #building# that exceed a height of 150 feet are set back at least 10 feet from the Tenth Avenue #street wall# of the #building# at a height not lower than 90 feet; and
- (3) all portions of the #building# that exceed a height of 150 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42.

(c) Midblocks

For all #zoning lots# with frontage along the northerly #street lines# of West 35th through West 40th Streets, the #street wall# of any #building# shall be located on and extend along at least 50 percent of the length of the sidewalk widening line of the #zoning lot# and shall rise without setback to a minimum base height of 60 feet and a maximum base height of 120 feet. Above a height of 120 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. Alternatively, the #street wall# of a #building# may rise without setback at the sidewalk widening line provided the aggregate width of such #street wall# does not exceed 100 feet or 50 percent of the width of such northerly #street line# frontage of the #zoning lot#, whichever is less, and provided all other portions of the #building# that exceed a height of 120 feet comply with the setback provisions of Section 93-42. The provisions of this paragraph shall not apply within 100 feet of Eleventh Avenue. However, any #zoning lot# partially within 100 feet of Eleventh Avenue may, as an alternative, apply the provisions of this paragraph, (c), to the entire West 35th, West 36th, West 37th, West 38th, West 39th or West 40th Street #street# frontage of the #zoning lot#.

For all #zoning lots# with frontage along the southerly #street lines# of West 36th through West 41st Streets, the #street wall# of any #building# shall not exceed a maximum base height of 120 feet. Above a height of 120 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

(d) Rear setback

No #yard# requirements shall apply to any #commercial building# or commercial portion of a #building#. However, above a height of 120 feet, no portion of such #building# shall be nearer to a #rear lot line# than 20 feet.

(2/2/11)

93-513

Four Corners Subarea A2

(a) Hudson Boulevard

The provisions of paragraph (a) of Section 93-512 (Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A) shall apply, except that the maximum base height shall be 150 feet.

(b) West 34th Street

The #street wall# of any #building# shall be located on the West 34th Street sidewalk widening line and extend along at least 70 percent of the West 34th Street frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. For portions of #buildings# exceeding a height of 150 feet, a setback of 20 feet from the #street line# of West 34th Street shall be required. However, a #street wall# may rise without setback along the sidewalk widening line provided the aggregate width of such #street wall# does not exceed 50 percent of the width of the West 34th Street frontage of the #zoning lot# and provided all other portions of the #building# that exceed a height of 150 feet are set back at least 20 feet from the #street line# of West 34th Street.

(c) Tenth Avenue

The regulations set forth in paragraph (b) of Section 93-512 shall apply.

(d) Rear setback

The provisions of paragraph (d) of Section 93-512 shall apply.

(7/24/13)

93-514

Eastern Rail Yard Subarea A1

(a) Location of #buildings#

#Buildings# shall be located only in the following areas:

- (1) east of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East;

- (2) west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 220 feet of West 33rd Street;
- (3) west of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East and within 220 feet of West 30th Street, provided that either:
 - (i) such area contains only #uses# in Use Groups 3 and 4; or
 - (ii) where such area includes #residential use#, such #residential use# shall be located only in a #building#, or portion of a #building#, located west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West, and such #building# may also include #uses# in Use Groups 3, 4, 6A and 6C. In addition, #uses# in Use Group 3 or 4 may be located in a #building# separate from any #building# containing #residential use#, provided that any such separate #building# may not be located closer than 50 feet east of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West.
- (4) for any #building# located at or above the elevation of the #High Line bed# which faces the #ERY High Line#, the #street wall# shall not be located closer than five feet to the edge of the #ERY High Line# and such five foot separation shall remain unobstructed, from the level of the #High Line bed# adjacent to such #building# to the sky. Notwithstanding the foregoing, for any #building# located partly within 335 feet of the Tenth Avenue #street line#, any portion thereof of up to 280 feet in width, as measured parallel to West 30th Street, may be located above the #High Line bed# at a height of 60 feet or more measured from the #High Line bed#, provided such portion has a maximum width of 200 feet along the West 30th Street #street line# and a maximum average width of 240 feet. Structural columns and related architectural features placed within the maximum width of 200 feet along the West 30th Street #street line# supporting such portion of the #building# may be located within five feet of the southern edge of the #ERY High Line#, and such columns and related architectural features shall, when viewed in elevation along West 30th Street, occupy no more than 50 percent of the measured area of such elevation located within the

maximum width of 200 feet along the West 30th Street #street line#, from the mean level of the adjoining public sidewalk to a height of 60 feet above the level of the #High Line bed#. A maximum of thirty percent of such measured area may be constructed of opaque materials. Additionally, such columns and related architectural features shall, when viewed in elevation along West 30th Street, occupy no more than 45 percent of the measured area of such elevation located within the maximum width of 200 feet along the West 30th Street #street line#, from the level of the #High Line bed# to a height of 25 feet above the level of the #High Line bed#.

(b) Height and setback

No setbacks shall be required for any #building# wall facing Eleventh Avenue, West 30th Street or West 33rd Street. Along Tenth Avenue, a #street wall# with a minimum height of 60 feet is required to extend along at least 70 percent of the Tenth Avenue frontage of the #zoning lot# not occupied by the public plaza required pursuant to Section 93-71. Such #street wall# shall align with any existing #street wall# facing Tenth Avenue. Existing #street walls# shall be treated in a manner that provides for visual articulation.

(c) Length of #building# walls

The provisions of paragraph (d) of Section 93-42 limiting the length of #building# walls above a height of 500 feet shall not apply.

(2/2/11)

93-52

**Special Height and Setback Regulations in the Farley Corridor
Subdistrict B**

The tower #lot coverage# requirements of paragraph (c) of Section 93-42 shall not apply within the Farley Corridor Subdistrict B.

(2/2/11)

93-521

450 West 33rd Street

The provisions of this Section shall apply within an area bounded by Tenth Ave, West 31st Street, the Lincoln Tunnel Approach and West 33rd Street.

No #building# shall exceed a height of 150 feet within 10 feet of West 33rd Street, 15 feet of Tenth Avenue and 20 feet of West 31st Street, except as provided below:

- (a) along West 31st Street, a #building# may rise without setback provided no part of such #building# is within 15 feet of West 31st Street; and
- (b) along West 33rd Street, a #building# may rise without setback, provided that the #aggregate width of street walls# above a height of 150 feet and within 10 feet of the West 33rd Street #street line# does not exceed 50 percent of the length of the West 33rd Street frontage of the #zoning lot#.

However, if more than 75 percent of the total #floor area# existing on the #zoning lot# on January 19, 2005, is demolished, the reconstructed #buildings# shall not exceed a height of 150 feet within 15 feet of a #wide street line# and 20 feet of a #narrow street line#.

(4/29/14)

93-522

Ninth Avenue Rail Yard

The provisions of this Section shall apply within the area bounded by Ninth Ave, West 31st Street, the Lincoln Tunnel Approach and West 33rd Street.

No #building or other structure# shall exceed a height of 150 feet within 15 feet of a #wide street line# and 20 feet of a #narrow street line#. However, on a #narrow street#, a #building# may rise without setback provided no part of such #building# is within 15 feet of the #narrow street line#.

No #rear yard# or #rear yard equivalent# regulations shall apply to any #building developed# or #enlarged# pursuant to this Section. Furthermore, the provisions of this Section may be waived or modified in conjunction with the granting of a special permit pursuant to

Section 74-41 (Arenas, Auditoriums, Stadiums or Trade Expositions)
for the #development# of an arena in the area bounded by Ninth
Avenue, West 31st Street, Dyer Avenue and West 33rd Street.

(2/2/11)

93-523

Pennsylvania Station Subarea B4

Along Eighth Avenue, #street walls# shall be provided as follows:

- (a) A #street wall# shall be provided for the mandatory public space required pursuant to paragraph (a) of Section 93-74. Such #street wall# shall extend for at least 100 feet along the Eighth Avenue sidewalk widening line and rise without setback to a minimum height of 60 feet. No portion of such #street wall# shall exceed a height of 150 feet within 15 feet of the Eighth Avenue #street line#. However, such #street wall# may encroach upon the mandatory sidewalk widening provided the height of such #street wall# within the sidewalk widening does not exceed 90 feet.
- (b) In addition to the #street wall# required pursuant to paragraph (a) of this Section, #street walls# shall be provided along at least 35 percent of the Eighth Avenue frontage of the #zoning lot#. Such #street walls# shall be located within 10 feet of the Eighth Avenue #street line# and rise without setback to a minimum height of 90 feet and a maximum height of 150 feet, except that no setbacks shall be required where such #street walls# are located 10 feet from the Eighth Avenue #street line#.
- (c) No #street walls# shall be located further than 10 feet from the Eighth Avenue #street line# unless they front upon a public plaza provided pursuant to paragraph (c) of Section 93-74. Along West 31st and West 33rd Streets, any portion of a #street wall# that exceeds a height of 150 feet shall be set back at least 15 feet from the West 31st and West 33rd Street #street lines#, as applicable. As an alternative, if the entire #building# is set back at least 10 feet from the West 31st or West 33rd Street #street line#, such #building# may rise without setback along such #street#.

(2/2/11)

93-53

**Special Height and Setback Regulations in the 34th Street Corridor
Subdistrict C**

(a) 34th Street

For #zoning lots# with frontage on 34th Street, the #street wall# of a #building# shall be located on and extend along the entire West 34th Street #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#. Such #street walls# shall rise without setback to a minimum base height of 120 feet and a maximum base height of 150 feet. For #corner lots#, these provisions shall also apply along any intersecting #street line# for a minimum distance of 50 feet and a maximum distance of 100 feet from its intersection with West 34th Street. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

(b) Tenth Avenue

For #zoning lots# with frontage on Tenth Avenue, the provisions of paragraph (a) of Section 93-541 shall apply.

(c) Midblocks between Eighth Avenue and Ninth Avenue

For #zoning lots# with frontage on West 33rd Street or West 35th Street beyond 100 feet of Eighth Avenue and Ninth Avenue, the #street wall# of any #building# shall be located on and extend along the entire West 33rd Street or West 35th Street frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street wall# shall rise without setback to a minimum base height of 80 feet and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. The #street wall# of any #building# may rise to a height less than 80 feet, except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed, enlarged# or altered after February 2, 2011, to a height exceeding 80 feet.

(1/19/05)

93-54

Special Height and Setback Regulations in Hell's Kitchen Subdistrict D

(2/2/11)

93-541

Height and setback in Subareas D1 and D2

(a) Tenth Avenue

- (1) For #zoning lots# that do not occupy the entire Tenth Avenue #block# front, and for #zoning lots# that occupy the entire Tenth Avenue #block# front where existing #buildings# containing #residences# will remain, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire Tenth Avenue #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such lines. Such #street wall# shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet, except that such minimum base height requirement shall not apply to any existing #buildings# containing #residences# to remain. Where such #zoning lots# also front upon a #narrow street#, these provisions shall apply along such #narrow street# frontage for a minimum distance of 50 feet and a maximum distance of 100 feet from the intersection of Tenth Avenue. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.
- (2) For #zoning lots# that occupy the entire Tenth Avenue #block# front, and where no existing #buildings# fronting upon Tenth Avenue will remain, the #street wall# shall be located within 10 feet of the Tenth Avenue #street line# and extend along the entire Tenth Avenue frontage of the #zoning lot# and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. These provisions shall apply for a minimum distance

of 50 feet and a maximum distance of 100 feet from the intersection of Tenth Avenue.

Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. Alternatively, the Tenth Avenue #street wall# may rise above 150 feet without setback, provided that:

- (i) the aggregate width of such #street wall# does not exceed 100 feet;
- (ii) all other portions of the #building# that exceed a height of 150 feet are set back at least 10 feet from the Tenth Avenue #street wall# of the #building# at a height not lower than 90 feet;
- (iii) all portions of the #building# that exceed a height of 150 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42; and
- (iv) all portions of the Tenth Avenue #street wall# that do not exceed a height of 90 feet are located 10 feet from the Tenth Avenue #street line#, except that recesses may be provided in accordance with the recess provisions of paragraph (a) of Section 93-50. Above a height of 90 feet, up to a height of 150 feet, any #street wall# facing Tenth Avenue shall be located no closer to Tenth Avenue than 10 feet.

(b) Hudson Boulevard

The regulations set forth in paragraph (a) of Section 93-512 (Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A) shall apply, except that wherever a setback from the Hudson Boulevard #street line# is required to be at least 25 feet deep, such setback depth may be reduced to 15 feet.

(c) Midblocks between Tenth Avenue and Hudson Boulevard

The regulations set forth in paragraph (c) of Section 93-512 shall apply.

(d) Length of #building# wall

The maximum length of any #story# located above a height of 150 feet that faces north or south shall not exceed 100 feet. Such

length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 150 feet. Any side of such rectangle from which perpendicular lines may be drawn to the nearest #narrow street line# shall not exceed 100 feet.

(e) Tower #lot coverage#

Where more than one tower on a #zoning lot# contains #residences#, the minimum #lot area# requirement of paragraph (c)(1) of Section 93-42 shall not apply to the highest 80 feet of at least half of the number of such towers.

(2/26/15)

93-542

Height and setback in Subareas D4 and D5

In Subareas D4 and D5 of Hell's Kitchen Subdistrict D, the underlying height and setback regulations shall apply, except that:

- (a) the rooftop regulations set forth in Section 93-41 shall apply;
- (b) within the C2-5 District of Subarea D4, #commercial uses# shall be limited to two #stories# or a height of 30 feet, whichever is less;
- (c) within the C1-7A District of Subarea D5, recesses in the #street wall# of any #building# facing Ninth Avenue shall not be permitted within 20 feet of an adjacent #building# or within 30 feet of the intersection of two #street lines#, except as provided for permitted corner articulation; and
- (d) the regulations set forth in paragraph (d) of Section 23-692 (Height limitations for narrow buildings or enlargements) shall be modified to allow portions of #buildings# with #street walls# less than 45 feet in width to reach the height of the tallest #abutting building# without regard to the width of the #street# onto which such #building# fronts.

(2/2/11)

93-543

Authorization for the provision of public open areas

For #zoning lots# that are wholly or partially within Hell's Kitchen Subdistrict D and provide publicly accessible open areas adjacent to or over the Lincoln Tunnel Approaches or Dyer Avenue, the City Planning Commission may authorize height and setback modifications within C2-5 Districts mapped within R8A Districts and the distribution of #floor area# without regard to district boundaries, provided the Commission finds that:

- (a) such publicly accessible open area provides an appropriate amenity to the surrounding area;
- (b) such publicly accessible open area has appropriate access, circulation, landscaping, seating, paving and lighting;
- (c) modifications to the height and setback regulations of C2-5 Districts mapped within R8A Districts result in a #building# that does not exceed a height of 180 feet and is compatible with the scale and character of the surrounding area; and
- (d) all necessary approvals have been granted by the Port Authority, or adequate provision has been made for the receipt of such approvals prior to the issuance of any building permit.

In granting such authorization, the Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Publicly accessible open areas authorized by this Section shall be accessible to the public at all times, except where the Commission has authorized a nighttime closing pursuant to Section 37-727. Furthermore, such open areas shall comply with the requirements for #public plazas# set forth in Sections 37-744 (Litter receptacles), 37-75 (Signs), 37-77 (Maintenance) and paragraph (a) of Section 37-78 (Compliance).

All plans for publicly accessible open areas, once authorized, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the publicly accessible open areas and setting further such provisions as necessary to ensure compliance with the requirements of this Section. Such filing and recording of the instrument, together with the grant of all necessary approvals by the Port Authority, shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The

recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# subject to the provisions of this Section until the Chairperson of the Commission certifies to the Department of Buildings that the public access area is substantially complete and that the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# until the Chairperson of the Commission certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access area.

(4/30/12)

93-55

Special Height and Setback Regulations in the South of Port Authority Subdistrict E

(a) #Zoning lots# with Eighth Avenue frontage

For #zoning lots# with frontage on Eighth Avenue, the #street wall# of a #building# shall be located on the Eighth Avenue sidewalk widening line and, where applicable, on the West 39th Street and West 40th Street #street lines#, and extend along the entire #street# frontage of the #zoning lot#. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. The #street wall# of any #building# may rise to a height less than 90 feet, provided that no #building# on the #zoning lot# exceeds such height except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding 90 feet.

Above a height of 120 feet, no portion of a #building or other structure# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 39th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance for each foot of horizontal distance, except as provided below:

- (1) any portion of the #building or other structure developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-63, as applicable, may penetrate the #sky exposure plane#;
- (2) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane#. In addition, a dormer, as listed in paragraph (c)(1) of Section 23-621, may penetrate the #sky exposure plane#.

(b) #Zoning lots# without Eighth Avenue frontage

For #zoning lots# without frontage on Eighth Avenue, the #street wall# of a #building# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street walls# shall rise without setback to a minimum base height of 80 feet and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. The #street wall# of any #building# may rise to a height less than 80 feet, provided that no #building# on the #zoning lot# exceeds such height except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed, enlarged# or altered after February 2, 2011, to a height exceeding 80 feet.

(4/29/14)

93-56

Special Height and Setback Regulations in Subdistrict F

The height and setback regulations set forth in this Section, inclusive, shall apply to specific development sites identified as Sites 1 through 6 on Map 2 (Subdistrict F: Site Plan) in Appendix B. All #buildings or other structures developed# or #enlarged# within Subdistrict F, with the exception of those approved as part of a public access area pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F), shall occur within

these designated site locations. However, portions of a #building# located entirely below grade, and exempt from the definition of #floor area#, shall be permitted to extend beyond such designated site locations. Furthermore, the boundary of Site 6 may be extended in a westerly direction, by up to 40 feet, to accommodate a public #school# in accordance with the provisions of paragraph (b) of Section 93-568 (Site 6).

Map 4 (Mandatory Sidewalk Widening) in Appendix A identifies the location of a sidewalk widening required along Eleventh Avenue that is referenced in this Section, inclusive. Regulations governing the design of this sidewalk widening are set forth in Section 93-61.

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways. Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B, identifies the location of publicly accessible open spaces, private streets, and pedestrian ways that are referenced in this Section.

Publicly accessible open spaces are comprised of the Western Open Space, the Central Open Space, the Southwest Open Space, the Northeast Plaza, the Midblock Connection and the #High Line#. General rules governing such publicly accessible open spaces are set forth in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

Publicly accessible private streets are comprised of the West 32nd Street Extension (including the Allee, as defined in paragraph (c)(2) of Section 93-761 and shown on Map 3 in Appendix B) and the West 31st Street Extension. Publicly accessible pedestrian ways are comprised of the West 30th Street Corridor, and the Connector. General rules governing such private streets and pedestrian ways are set forth in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F).

For the purposes of applying height and setback regulations, the term "#buildings#" shall include #buildings or other structures#.

(4/29/14)

93-561

General rules for Subdistrict F

The following regulations shall apply to all #buildings# within Sites 1 through 6:

(a) #Street wall# location

For the purposes of applying the height and setback regulations of this Section, inclusive, wherever a #building# fronts upon any publicly accessible open space, private street or pedestrian way, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B, the boundary of such publicly accessible open spaces, private streets or pedestrian ways shall be considered to be a #street line#. Furthermore, for the purposes of applying such height and setback regulations, the sidewalk widening line required along Eleventh Avenue shall be considered the Eleventh Avenue #street line#.

Wherever a #building# on Sites 1, 5 or 6 faces the #High Line#, the #street wall# shall not be located closer than five feet to the edge of the #High Line#, as shown on Map 3. Such five foot separation shall remain unobstructed, from the level of finished grade adjacent a #building#, to the sky, except as permitted:

- (1) for that portion of a #building# on Site 5 located above a height of 50 feet as measured from the #High Line bed#, pursuant to Section 93-567 (Site 5);
- (2) for that portion of a #building# on Site 6 located below the #High Line#, pursuant to Section 93-568 (Site 6); and
- (3) pursuant to paragraph (d) of Section 93-756 (General requirements for the #High Line#).

(b) Measurement of #building# heights

- (1) Measurement of #building# base and transition heights

For portions of a #building# that front upon a publicly accessible sidewalk, the maximum #building# base height and, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the public sidewalk that such #street wall# fronts upon. For portions of a #building# that front upon publicly accessible open spaces in which no sidewalks are provided adjacent to a #street wall#, the maximum #building# base height or, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the final grade of the open space that such #street wall# fronts upon. However, the following #street wall# heights shall be measured from the #High Line bed#:

(i) on Site 6, the portion of a #street wall# above the #High Line bed# facing the #High Line# beyond 60 feet of Eleventh Avenue; and

(ii) on Site 6, along the Southwest Open Space within 60 feet of the #High Line#.

(2) Measurement of tower heights

The height of a tower shall be measured from the highest level of the public sidewalk or finished grade located nearest such tower, to the ceiling of the highest #story# of the tower where #floor area# occupies more than 75 percent of the gross area of such #story#. However, on Site 5, the height of the tower shall be measured from the #High Line bed#.

Where minimum height differences are required between towers, such heights, for each tower, shall be measured from the Manhattan Datum, which is 2.75 feet above sea level.

(c) Towers

Criteria for towers on Sites 1 through 6 are set forth in this Section, inclusive. The minimum distance between all such towers shall be 60 feet.

(4/29/14)

93-562

Street wall regulations for certain streets

The locations of all #street walls# identified in this Section are shown on Map 5 (Subdistrict F: Mandatory Street Wall Requirements) in Appendix B.

(a) Applicability

The provisions of this Section shall apply to:

(1) All #street walls# of #buildings# on Site 1 that front along:

(i) the West 32nd Street Extension;

- (ii) the Western Open Space within 60 feet of the West 32nd Street Extension; and
 - (iii) the Midblock Connection within 60 feet of the West 32nd Street Extension.
- (2) All #street walls# of #buildings# on Site 2 that front along:
 - (i) Eleventh Avenue south of the Northeast Plaza;
 - (ii) the West 32nd Street Extension; and
 - (iii) the Midblock Connection within 60 feet of the West 32nd Street Extension.
- (3) All #street walls# of a #building# on Site 4 that front along:
 - (i) Eleventh Avenue;
 - (ii) the West 32nd Street Extension within 50 feet of Eleventh Avenue; and
 - (iii) the West 31st Street Extension within 50 feet of Eleventh Avenue.
- (4) All #street walls# of a #building# on Site 6 that front along:
 - (i) Eleventh Avenue five feet north of the #High Line#;
 - (ii) the West 31st Street Extension;
 - (iii) the #High Line#, completely above the #High Line bed#;
 - (iv) the Southwest Open Space within 60 feet of the #High Line#; and
 - (v) the Southwest Open Space within 60 feet of the West 31st Street Extension.
- (b) #Street wall# location

All #street walls# identified in paragraph (a) of this Section shall be located on the #street line#.

All such #street walls# shall extend along the entire #street# frontage of the site or the required portion identified in paragraph (a). However, such #street wall# location rules may be modified in accordance with the recess provisions of paragraph (c) of this Section.

(c) Recesses

- (1) Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances;
- (2) To allow for corner articulation, the required #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such lines;
- (3) To ensure variation in the required #street wall#, a #building# shall provide recesses or ground floor level setbacks in accordance with the following provisions:
 - (i) A minimum of 20 percent of the #aggregate width of street walls# shall provide a minimum recess of three feet from the #street wall# above the level of the second #story#. However, for the portion of Site 6 that fronts along the #High Line#, such recess shall be provided above the level of the first #story#. However, no portion of such recess shall be located within 30 feet of the intersection of two #street lines#, except where corner articulation is provided in accordance with paragraph (c)(2) of this Section.
 - (ii) A maximum of 30 percent, or 50 percent for Site 4, of the #aggregate width of street walls# may provide a recess of up to 15 feet at any level, which may extend to the height of the #building# base and may allow for portions of towers to rise without setback from the ground floor level. However, no such setbacks shall be permitted within 30 feet of the intersection of two #street lines#, except where corner articulation is provided in accordance with paragraph (c)(2) of this Section.

93-563

Site 1

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 1.

(a) #Building# base

(1) Facing West 33rd Street

The #street wall# of the #building# facing West 33rd Street may rise without setback to a maximum base height of 120 feet before a setback is required. However, no setbacks shall be required within 150 feet of Twelfth Avenue.

(2) Facing the West 32nd Street Extension

The provisions of this paragraph, (a)(2), shall apply to #street walls# facing the West 32nd Street Extension, the Western Open Space and the Midblock Connection within 60 feet of the West 32nd Street Extension. Such #street walls# shall rise without setback to a minimum base height of 60 feet and a maximum base height of 90 feet.

(3) Facing the Western Open Space

The provisions of this paragraph, (a)(3), shall apply to #street walls# facing the Western Open Space beyond 60 feet of its intersection with the West 32nd Street Extension. The #street wall# of the #building# may rise without setback to a maximum base height of 90 feet before a setback is required. However, no setbacks shall be required within 150 feet of Twelfth Avenue.

(b) Transition height

All portions of a #building# that exceed the applicable maximum base height specified in paragraph (a) of this Section shall be set back in accordance within the provisions of this paragraph, (b), except that where towers are provided directly above a portion of the transition height, such a portion of transition height located directly below a tower shall provide setbacks in accordance with the tower provisions of paragraph (c) of this Section.

Portions of a transition height facing West 33rd Street shall be set back from the West 33rd Street #street line# a minimum of 20 feet. Portions of a transition height facing the Western Open Space that exceed the maximum base height shall be set back from the #street wall# of a #building# facing the Western Open Space a minimum of 30 feet. However, in both cases, no such setback shall be required within 150 feet of Twelfth Avenue.

Above the maximum base height, a #street wall# may rise to a maximum transition height equal to one-half the height of the #street wall# of the #building# base facing the Western Open Space. Such a transition height shall not exceed a maximum height of 135 feet.

All portions of a #building# that exceed the maximum transition height shall comply with the tower provisions of paragraph (c) of this Section.

(c) Towers

All #stories# of a #building# located partially or wholly above the maximum transition height shall be considered a "tower" and shall comply with the provisions of this paragraph, (c).

(1) Required setbacks

All towers, or portions of a transition height located beneath a tower, shall be set back at least 15 feet from the #street line# of West 33rd Street and from the #street walls# of the #building# facing the West 32nd Street Extension, except that the depth of such setback distance may include the depth of any permitted recesses. However, no setbacks shall be required within 150 feet of Twelfth Avenue, along the Western Open Space or along the Midblock Connection to allow portions of towers that comply with the provisions of paragraphs (c)(2) and (c)(3) of this Section to rise without setback.

(2) Maximum floor plate

If more than one tower is provided on Site 1, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 25,000 square feet.

(3) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 110 feet and the north-south dimension shall not exceed a length of 160 feet. Where more than one tower is located on Site 1, each tower shall comply independently with such maximum dimensions.

If more than one tower is located on Site 1, the height of the easternmost tower shall be a minimum of 100 feet greater than the height of the westernmost tower.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(2/2/11)

93-564
Site 2

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 2.

(a) #Building# base

(1) Facing Eleventh Avenue

The provisions of this paragraph, (a)(1), shall apply to #street walls# facing Eleventh Avenue (exclusive of #street walls# facing the Northeast Plaza, which need not set back), and the West 32nd Street Extension within 60 feet of Eleventh Avenue. Such #street walls# shall rise without setback to a minimum height of 120 feet and a maximum height of 150 feet. Above a height of 150 feet, all portions of such #building# shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. These #building# base provisions may apply along the West 32nd Street Extension #street line# beyond 60 feet of Eleventh Avenue, up to a maximum distance of 100 feet from Eleventh Avenue.

(2) Facing the West 32nd Street Extension

The provisions of this paragraph, (a)(2), shall apply to #street walls# facing the West 32nd Street Extension beyond 60 feet of Eleventh Avenue (or beyond 100 feet if the optional #building# base provisions of paragraph (a)(1) of this Section are applied along the West 32nd Street Extension), and the Midblock Connection within 60 feet of the West 32nd Street Extension. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, all portions of such #buildings# facing the West 32nd Street Extension shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Midblock Connection within 60 feet of the West 32nd Street Extension need not set back above the maximum base height to allow tower portions that comply with the provisions of paragraph (b) of this Section to rise without setback.

(3) Facing West 33rd Street

#Street walls# facing West 33rd Street (exclusive of the Northeast Plaza) may rise without setback to a maximum base height of 150 feet. Above a height of 150 feet, setbacks shall be required as follows:

- (i) portions of a #building# facing West 33rd Street within 150 feet of the Eleventh Avenue #street line# shall provide a 15 foot setback from the #street line# of West 33rd Street;
- (ii) portions of a #building# beyond 150 feet of Eleventh Avenue that do not exceed an #aggregate width of street wall# of 150 feet, as measured along the West 33rd Street #street line#, shall be permitted to rise without setback; and
- (iii) portions of a #building# located beyond 150 feet of Eleventh Avenue that exceed the #aggregate width of street wall# of 150 feet, as measured along the West 33rd Street #street line#, shall be set back a minimum of 15 feet from the #street line# of West 33rd Street.

All portions of a #building# that exceed a height of 150 feet shall comply with the tower provisions of paragraph (b) of this Section.

(b) Towers

All #stories# of a #building# located partially or wholly above a height of 150 feet shall be considered a tower and shall comply with the provisions of this paragraph, (b). Not more than one tower shall be allowed on Site 2.

(1) Maximum floor plate

The gross area of any tower #story# shall not exceed 40,000 square feet.

(2) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 250 feet.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(4/29/14)

93-565

Site 3

The regulations of this Section shall apply to all #buildings# within Site 3.

All #stories# of a #building# located wholly or partially above the highest level of the adjoining public sidewalk or finished grade on Site 3 shall be considered a tower and shall comply with the provisions of this Section. Not more than one tower shall be permitted on Site 3.

(a) Ground floor

A maximum of 6,000 square feet of the ground floor shall be permitted to provide #residential uses#. The remaining portion of the ground floor shall provide an area that is accessible to the surrounding publicly accessible open spaces listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict

F). Such space may provide ground floor #uses# pursuant to Section 93-14 (Ground Floor Level Requirements), or may be considered part of the Central Open Space and comply with the regulations set forth in Section 93-75.

If such remaining ground floor level space provides ground floor #uses# pursuant to the requirements of paragraph (b)(2) of Section 93-14, such #uses# shall adjoin a minimum of 70 percent of the perimeter of the outermost walls of the ground floor of the #building# to a minimum depth of 30 feet. In addition, such outermost wall shall be at least 70 percent glazed with transparent material to a height of 40 feet.

If such remaining ground floor level space is considered part of the Central Open Space, such space may be open or enclosed. An open space provided pursuant to this paragraph, (a), shall have a clear height of at least 40 feet measured from the level of an adjoining finished grade or sidewalk. An enclosed publicly accessible space provided pursuant to this paragraph, (a), shall adjoin a minimum of 70 percent of the perimeter of the outermost walls of the ground floor of the #building# to a minimum depth of 30 feet. In addition, such outermost wall shall be at least 70 percent glazed with transparent material to a height of 40 feet.

(b) Maximum floor plate

The gross area of any #story# of a tower on Site 3 shall not exceed 12,000 square feet.

(c) Maximum length and height

The maximum horizontal dimension of a tower, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 3 rectangle in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased dimension does not exceed a length of 120 feet.

The maximum height of a tower within Site 3 shall be a minimum of 100 feet taller than the tower height of Site 5.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(4/29/14)

93-566

Site 4

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 4.

(a) Street wall location along West 31st and West 32nd Street Extensions

Any portion of a #street wall# facing the West 32nd Street Extension within 100 feet of Eleventh Avenue shall be set back at least 15 feet from the West 32nd Street Extension #street line#, which shall coincide with the northern edge of the Site 4 boundary. Any portion of a #street wall# facing the West 32nd Street Extension that extends beyond 100 feet of Eleventh Avenue, as measured along the West 32nd Street Extension #street line#, shall be set back at least 30 feet from the West 32nd Street Extension #street line#. Any portion of a #street wall# facing the West 31st Street Extension that extends beyond 100 feet of Eleventh Avenue, as measured along the West 31st Street Extension #street line#, shall be set back at least 15 feet from the West 31st Street Extension #street line#.

(b) #Building# base facing Eleventh Avenue

The provisions of this paragraph, (b), shall apply to #street walls# below a height of 120 feet facing Eleventh Avenue and the West 31st and West 32nd Street Extensions within 50 feet of Eleventh Avenue. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, all portions of a #building# facing Eleventh Avenue shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the West 31st and West 32nd Street Extensions within 50 of Eleventh Avenue need not set back above the maximum base height to allow tower portions that comply with the

provisions of paragraph (c) of this Section to rise without setback.

All portions of a #building# that exceed the maximum base height of 120 feet shall comply with the tower provisions of paragraph (c) of this Section.

(c) Towers

All #stories# of a #building# located partially or wholly above the maximum base height of 120 feet shall be considered a tower and shall comply with the provisions of this paragraph, (c). Not more than one tower shall be permitted on Site 4.

(1) Maximum floor plate

The gross area of any such #story# shall not exceed 12,000 square feet.

(2) Maximum length and height

For any portion of a tower above 120 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 4 rectangle, in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased dimension does not exceed a length of 120 feet.

The maximum height of a tower on Site 4 shall be a minimum of 100 feet taller than any tower located on Site 3.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(4/29/14)

All #stories# of a #building# located wholly or partially above finished grade on Site 5 shall be considered a tower and shall comply with the provisions of this Section.

On Site 5, a #building# may be located adjacent to and above the #High Line#, provided no portion of such #building# or an associated structural column is located within five feet of the edge of the #High Line# from the level of finished grade to a level of 50 feet above the level of the #High Line bed#, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

(a) Maximum floor plate

The gross area of any #story# within that portion of a #building or other structure# located east of the #High Line# and wholly or partially above the finished grade to a height of 50 feet above the #High Line bed# shall not exceed 5,000 square feet.

The aggregate gross area of any portion of a #building or other structure# located west of the #High Line# and wholly or partially above the finished grade to a height of 50 feet above the #High Line bed# shall not exceed 700 square feet, and the maximum aggregate horizontal dimension of such portions, individually measured in their longest dimension, shall not exceed 30 feet.

The gross area of any #story# within that portion of a tower located above a height of 50 feet above the #High Line bed# shall not exceed 12,000 square feet.

(b) Maximum length and height

At or below a height of 50 feet above the #High Line bed#, if a #building# is located so that it has portions on both sides of the #High Line#, the minimum horizontal dimension, measured in any direction between such portions shall be 60 feet.

For that portion of a tower located above a height of 50 feet above the #High Line bed#, the maximum horizontal dimension, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 5 rectangle, in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased

dimension does not exceed a length of 120 feet. Furthermore, the maximum horizontal dimension for that portion of a tower that spans the #High Line#, measured in any direction, shall not exceed 120 feet.

The maximum height of a tower on Site 5 shall be 350 feet.

(4/29/14)

93-568
Site 6

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 6.

(a) Height and setback regulations

(1) #Street wall# beneath the #High Line#

The provisions of this paragraph, (a), shall apply to #street walls# on Site 6 beneath the #High Line# that face West 30th Street, Eleventh Avenue and the Southwest Open Space.

All such #street walls# shall extend along the entire #street# frontage of the site, except that along West 30th Street, the #street wall# shall be no closer to the northerly #street line# of West 30th Street than the northerly edge of the southern row of structural columns of the #High Line#, and along the Southwest Open Space and Eleventh Avenue, the #street wall# shall extend to a point five feet north of the #High Line#. Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances.

All such #street walls# shall rise without setback to a maximum height of the underside of the #High Line bed#.

(2) #Building# base

- (i) Facing Eleventh Avenue and the West 31st Street Extension, north of the #High Line#

The provisions of this paragraph, (a)(2)(i), shall apply north of the #High Line# to #street walls# facing Eleventh Avenue, the West 31st Street Extension, portions of #street walls# facing the #High Line# within 60 feet of Eleventh Avenue, and portions of #street walls# facing the Southwest Open Space within 60 feet of the West 31st Street Extension. Such #street walls# shall rise without setback to a minimum height of 60 feet and a maximum height of 90 feet. Above a height of 90 feet, all portions of a tower, or portions of a transition height located beneath a tower facing Eleventh Avenue, the #High Line# and the West 31st Street Extension, shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Southwest Open Space within 60 feet of the West 31st Street Extension need not set back above the maximum base height to allow portions of towers, or portions of a transition height located beneath a tower that comply with the provisions of paragraphs (a)(3) and (a)(4) of this Section, respectively, to rise without setback. These #building# base provisions may apply along the #High Line# beyond 60 feet of Eleventh Avenue, up to a maximum distance of 100 feet from Eleventh Avenue.

(ii) Facing West 30th Street, north of the #High Line#

The provisions of this paragraph, (a)(2)(ii), shall apply to #street walls# above the #High Line bed#, facing the #High Line# beyond 60 feet of Eleventh Avenue, and to those portions of #street walls# facing the Southwest Open Space that are within 60 feet of the #High Line#. Such #street walls# shall rise without setback to a minimum height of 50 feet as measured above the level of the #High Line bed#, and a maximum height of 60 feet as measured above the level of the #High Line bed#. Above a height of 60 feet, all portions of a tower, or portions of a transition height located beneath a tower facing the #High Line#, shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Southwest Open Space within 60 feet of the #High Line#

need not set back above the maximum base height to allow portions of a tower, or portions of a transition height located beneath a tower that comply with the provisions of paragraphs (a)(3) and (a)(4), respectively, to rise without setback.

All portions of a #building# that exceed the maximum base height of 90 feet shall comply with the tower provisions of paragraph (a)(4), with the exception of a #building# which provides a transition height in accordance with the provisions of paragraph (a)(3).

(3) Transition height

If the outermost walls of all #stories# of any tower provided in accordance with the tower provisions of paragraph (a)(4) are individually inscribed within a rectangle where the east-west dimension does not exceed a length of 110 feet, a transition height may be provided above the #building# base in accordance with the provisions of this paragraph, (a)(3).

Above the maximum base height, a #street wall# may rise to a maximum transition height equal to two-thirds of the height of the #street wall# of the #building# base facing the West 31st Street Extension. Such a transition height shall not exceed a maximum height of 150 feet, as measured above the West 31st Street Extension #street line#.

All portions of a transition height shall be set back 30 feet from the #street wall# of the #building# base along the West 31st Street Extension and the #High Line#, except that where towers are provided directly above a portion of the transition height, such a portion of transition height located directly below a tower shall provide setbacks in accordance with the #building# base provisions of paragraph (a)(2) of this Section.

All portions of a #building# that exceed the maximum transition height shall comply with the tower provisions of paragraph (a)(4).

(4) Towers

All #stories# of a #building# located partially or wholly above a height of 90 feet, or 150 feet if a transition height is provided in accordance with the provisions of

paragraph (a)(3), shall be considered a tower and shall comply with the provisions of this paragraph, (a)(4).

(i) Maximum floorplate

If more than one tower is provided on Site 6, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 25,000 square feet.

(ii) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 160 feet and the north-south dimension shall not exceed a length of 110 feet. Where more than one tower is located on Site 6, each tower shall comply independently with such maximum dimensions.

The #aggregate width of street walls# of all #stories# of a tower facing the West 31st Street Extension or the #High Line# shall not exceed 220 feet within 40 feet of the #street wall# of the #building# base.

If more than one tower is provided on Site 6, such towers shall either be equal in height, or the easternmost tower shall have a height greater than the height of the westernmost tower.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(b) Certification to expand Site 6

The area of Site 6, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, may be extended westward by up to 40 feet in order to accommodate a public #school# upon certification of the Chairperson of the City Planning Commission, that:

- (1) the Chairperson of the City Planning Commission is in receipt of a letter from the School Construction Authority that describes the need for the additional area;

- (2) the site and landscape plans for the Southwest Open Space have been approved by the Chairperson of the City Planning Commission, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F);
- (3) no portion of a tower located on Site 6 extends beyond 395 feet west of the Eleventh Avenue #street line#; and
- (4) any portion of a #building# located beyond 395 feet from the Eleventh Avenue #street line# shall affect southwesterly view corridors from the Central Open Space towards the Hudson River to the minimum extent necessary to accommodate a public #school#.

(12/21/09)

93-569

Tower top articulation

All towers that exceed a height of 350 feet shall provide articulation in accordance with this Section.

For the purposes of this Section, a minimum of the uppermost 15 percent of the height of a #building or other structure#, including all rooftop mechanical structures and their required enclosures pursuant to the regulations of paragraph (b) of Section 93-41 (Rooftop Regulations), shall henceforth be referred to as the 'Tower Top Zone.' However, chimneys, antennae or decorative spires shall not be considered part of the Tower Top Zone, provided no such structures contain #floor area#.

The height of such #building or other structure# shall be measured from the highest level of the public sidewalk or finished grade located nearest such #building or other structure#.

The Tower Top Zone shall contain an "Upper Zone" and a "Lower Zone". The Lower Zone shall be a minimum of 50 percent of the height of the Tower Top Zone and shall contain tower #stories#. The Upper Zone shall contain the highest tower #story# where #floor area# occupies more than 75 percent of the gross area of such #story#, and any enclosed rooftop mechanical equipment.

For the purposes of this Section, each tower of a #building or other structure# shall be comprised of four separate tower top elevation views that shall be used to measure compliance with the regulations

of this Section. Each elevation view shall have an angle of 90 degrees from another such view.

Each tower top shall provide the following forms of articulation:

(a) Change in the #building or other structure# profile

(1) Constructing the profile change boundary

To comply with the provisions of this paragraph, (a)(1), a rectilinear boundary within the Tower Top Zone shall be created in each elevation view to determine the required amount of profile change. In order to construct such boundary, two datum lines shall first be drawn in each elevation view. Such datum lines shall begin at the average outermost edges of those portions of tower floor plates above a height of 350 feet containing #floor area# below the Tower Top Zone, and shall extend upward for the entirety of the height of the #building or other structure#. The rectilinear profile change boundary shall include the portion of these two datum lines within the Tower Top Zone, as well as their intersection with two datum lines indicating the uppermost elevation and the lowermost elevation of the Tower Top Zone. In addition, a datum line shall indicate the boundary between the Upper and Lower Zone, creating a boundary for both the Upper Zone and Lower Zone.

(2) Required profile change

A minimum of 10 percent of the area of the profile change boundary within the Lower Zone shall remain open to the sky in each required elevation view. Such profile change shall begin upward at the lowermost datum line of the Tower Top Zone. In addition, a minimum of 20 percent of the area of the profile change boundary within the Upper Zone shall remain open to the sky in each required elevation view.

However, for portions of a #building or other structure# providing enclosed rooftop mechanical equipment within the Upper Zone, the width (as viewed in elevation) of the lowermost portion of enclosed rooftop mechanical space at that point in elevation which coincides with the uppermost portion of the highest tower #story# shall in no event be reduced beyond 50 percent of the width of such highest tower #story#. Upwards of such a point in elevation, no

restriction on maximum width reduction for enclosed rooftop mechanical spaces shall apply.

(b) Change in the #building or other structure lot coverage#

For portions of a #building or other structure# within the Lower Zone, the average #lot coverage # for all tower #stories# within such zone shall not exceed 80 percent of the #lot coverage# of the tower #story# with the largest #lot coverage# below the Tower Top Zone and above a height of 350 feet.

(c) Material continuity

A minimum of ten percent of the surface area of the exterior portion of the facade of the #building or other structure# within the Tower Top Zone, as viewed in elevation, shall be composed of a single material. Such material shall be continuously visible (in each elevation view) from the lowermost datum line of the Tower Top Zone to the uppermost datum line of the Tower Top Zone. However, within each #story# of the Lower Zone, a break in the vertical continuity of the material shall be permitted, provided that the vertical break does not exceed twelve inches.

(2/2/11)

93-57

Special Permit for Modification of Height and Setback Regulations

Within the #Special Hudson Yards District#, except within C1-7A Districts or C2-5 Districts mapped within R8A Districts, for #developments# or #enlargements# on #zoning lots# with at least 20,000 square feet of #lot area# or #developments# or #enlargements# on any size #zoning lot# that occupy the entire #block# front along a #wide street#, the City Planning Commission may modify the regulations set forth in Sections 93-40 (HEIGHT AND SETBACK REGULATIONS), inclusive, and 93-50 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, provided the Commission finds that:

- (a) such modifications will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public access areas, #streets# and properties;

- (b) where the #development# or #enlargement# is subject to the requirements of Sections 93-60 (MANDATORY IMPROVEMENTS), inclusive, or 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES), inclusive, such modifications will not impair the quality of such public access areas on the #zoning lot#;
- (c) such modifications are consistent with the goal of the special district to provide flexibility of architectural design and encourage more attractive building forms; and
- (d) such modifications will result in a #development# or #enlargement# that enhances the streetscape and will be compatible with development in the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects of the #development# or #enlargement# on the character of the surrounding area.

(1/19/05)

93-60

MANDATORY IMPROVEMENTS

(1/19/05)

93-61

Sidewalk Widenings

Map 4 (Mandatory Sidewalk Widenings) in Appendix A of this Chapter specifies locations of mandatory sidewalk widenings. The depth of such sidewalk widenings shall be as indicated on Map 4 in Appendix A and shall be measured perpendicular to the #street line#. All sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

(1/19/05)

93-62

Street Tree Planting

In addition to the applicable underlying #street# tree planting requirements, in the Four Corners Subarea A2 of the Large-Scale Plan Subdistrict A, trees shall also be provided along the #street# edge of the mandatory sidewalk widening. All such trees shall be provided for the entire length of the #street# frontage of the #zoning lot#, at maximum intervals of 25 feet. Trees shall be planted in gratings flush to grade in at least 200 cubic feet of soil per tree with a depth of soil at least three feet, six inches. Species shall be selected and installed in accordance with specifications established by the Department of Parks and Recreation. The provisions of this Section shall not apply where the Department of Parks and Recreation determines that such tree planting would be infeasible.

(2/2/11)

93-63

Pedestrian Circulation Space

In C2-8 and C6-4 Districts, all #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-50. In addition, for #developments# or #enlargements# that provide subway entranceways constructed after December 21, 2005, one and one-half times the area of such entranceway accessible to the public at #street# level may qualify as pedestrian circulation space, up to a maximum amount of 3,000 square feet.

Pedestrian circulation space shall not be required if any of the following conditions exist:

- (a) The #zoning lot# is entirely occupied by a #building# of no more than one #story# in height.
- (b) The #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage.
- (c) The #zoning lot# is a #through lot# and both #street# frontages are less than 25 feet in length.
- (d) The #zoning lot# is required to provide public access pursuant to Section 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES).

(2/2/11)

93-64

Major Building Entrances

Any #development# or #enlargement# with a #commercial floor area ratio# of 5.0 or greater and located on a #zoning lot# with frontage upon Hudson Boulevard shall provide a major entranceway to the #commercial# portion of the #building# on Hudson Boulevard.

Any #development# or #enlargement# containing #residences# located on #zoning lots# with frontage upon Tenth Avenue north of West 33rd Street shall provide a major entrance to the #residential# portion of the #building# on or within 100 feet of Tenth Avenue.

The #street wall# of any #building# facing east towards Ninth Avenue south of West 33rd Street shall contain either a major #building# entrance or have at least 70 percent of its ground floor frontage occupied by retail #uses#.

(10/27/10)

93-65

Transit Facilities

- (a) Any #development# or #enlargement# on a #zoning lot# that includes the southwest corner of West 40th Street and Eighth Avenue shall provide an easement for public access to the subway mezzanine or station as illustrated on Map 5 (Transit Facilities) in Appendix A of this Chapter. The easement shall accommodate a relocated subway entrance from the adjoining sidewalk to a location within the #development# or #enlargement#.

The Chairperson of the City Planning Commission shall certify that a plan has been submitted indicating the volume of the easement necessary for future construction of a subway entrance. Such plan shall be developed in consultation with and the approval of the Transit Authority. The Chairperson may alternately certify that a plan has been submitted whereby the applicant agrees to provide the required easement, at the applicant's expense, within two years of request by the Transit Authority or by its designee.

An instrument establishing such transit easement, or agreement to provide one within two years of request by the Transit Authority, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of such certification. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

Floor space within any required transit easement shall be excluded from the definition of #floor area#, and may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Transit Authority or by its designee for subway purposes. Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public #use# of the easement area is required. A minimum notice of six months in writing shall be given by the Transit Authority to the owner of the #zoning lot# in order to vacate the tenants of such temporary #uses#.

- (b) For the locations listed in this paragraph, (b), floor space devoted to subway-related #uses# consisting of ventilation facilities and other facilities or services used or required in connection with the operation of a subway line or station, which are established pursuant to an easement or other agreement, shall be excluded from the definition of #floor area# in Section 12-10:
- (1) The volume bounded by Eleventh Avenue, a line 52 feet north of and parallel to West 33rd Street, the western boundary of the #public park#, and West 33rd Street, up to a height of 82 feet, as illustrated on Map 5.
 - (2) The volume bounded by Eleventh Avenue, West 36th Street, a line 95 feet east of and parallel to Eleventh Avenue, and a line 95 feet south of and parallel to West 36th Street, up to a height of 129 feet, as illustrated on Map 5.
 - (3) The tax lot located at Block 1051, Lot 2, existing on October 27, 2010, up to a height of 73 feet, as illustrated

on the District Map in Appendix A of the #Special Clinton District#.

- (4) The volume bounded by a line 37 feet east of and parallel to Eleventh Avenue, West 26th Street, a line 100 feet east of and parallel to Eleventh Avenue, and a line 95 feet south of and parallel to West 26th Street, up to a height of 60 feet, as illustrated on the District Map in Appendix A of the #Special West Chelsea District#.

Any transit easement or other agreement for such subway-related #use# shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, and indexed against the property.

(10/17/07)

93-66

Open Area Requirements in the Large-Scale Plan Subdistrict A

In Subareas A2 through A5 of the Large-Scale Plan Subdistrict A, the provisions of this Section shall apply to all open areas between the #street wall# of any #development# or #enlargement# and the #street line#.

- (a) Where such open areas are sidewalk widenings required pursuant to Section 93-61, or where a sidewalk widening is not required but an open area extends along the entire #street line# of the #zoning lot#, no obstructions shall be permitted within such open areas within five feet of the #street line#. Beyond five feet of the #street line#, up to a distance of ten feet from the #street line#, obstructions shall be limited to seating, tables, and trees planted flush to grade. Any open area provided beyond ten feet of the #street line# shall comply with the provisions of paragraphs (b) through (d) of this Section, as applicable.
- (b) All open areas less than 1,200 square feet in area, or open areas of any size but with a width or depth of less than 30 feet, shall be paved or contain landscaping. Paved areas shall be at the same elevation as the adjoining sidewalk or any adjoining public access area required pursuant to this Chapter.
- (c) All open areas at least 1,200 square feet in area, and with a width and depth of at least 30 feet, shall be paved and contain landscaping. Paved areas shall not be more than 2 feet, 6 inches

above or below the level of the adjoining sidewalk or any adjoining public access area required pursuant to this Chapter.

- (d) Open areas described in paragraphs (b) and (c) of this Section may be occupied by features, equipment and appurtenances normally found in #public parks# and playgrounds, as listed in Section 37-726 (Permitted obstructions). In addition, gates or fences shall be permitted for open areas described in paragraph (c) of this Section, provided such gates are fully open during business hours, such gates or fences are not higher than five feet, and are a minimum of 65 percent open to permit visibility of the open area. No parking areas shall be permitted in any open area. Driveways in any open area shall lead directly to an enclosed parking or loading facility, except that porte-cocheres are allowed in any open area on #zoning lots# with at least 80,000 square feet of #lot area#. #Building# trash storage facilities and mechanical equipment shall be screened by a wall or planted area sufficient to visually conceal these facilities from the #street# or any public access area. All paved areas shall be accessible to the public during business hours and have lighting with a minimum level of two foot candles. Edges of planters in all landscaped areas shall not be higher than 2 feet, 6 inches above the level of any adjacent paved area.

(4/29/14)

93-70

PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES

Public access shall be provided for special sites as specified in this Section, inclusive. In the event of a conflict between the provisions of this Section, inclusive, and any underlying regulation, the provisions of this Section shall govern.

No building permit shall be issued for any #development# or #enlargement# on such sites other than for an #ERY Culture, Festival and Exhibit Facility# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the provisions of this Section have been met.

An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of all required public access areas and the location of all proposed #buildings#, and a detailed plan or plans demonstrating compliance with the provisions of this

Section. For certifications relating to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, the requirements set forth in paragraph (h) of Section 93-71, shall apply. For certifications relating to 450 West 33rd Street, the requirements set forth in Section 93-722 shall apply. For certifications relating to the Ninth Avenue Rail Yard, the requirements set forth in Section 93-732 shall apply.

Plans for public access areas shall be set forth in an instrument in a form acceptable to the City, and setting forth such provisions as necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The Chairperson shall allow for the phased development of public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for the completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase. The completion of the Cultural Facility Plaza shall be deemed integral only to an #ERY Culture, Festival and Exhibit Facility# and to no other #use# or #development# in the Eastern Rail Yard Subarea A1. Where the public use and enjoyment of a public access area is contingent upon #development# on an adjacent #zoning lot# that has not yet occurred, the Chairperson may allow for the future development of such public access area at the time that the adjacent #zoning lot# is #developed#. For the Eastern Rail Yard Subarea A1, such phased development plan may provide for the outdoor plaza described in paragraph (b) of Section 93-71 to be constructed in phases. For 450 West 33rd Street and the Ninth Avenue Rail Yard, such phased development plan shall comply with additional provisions set forth in Sections 93-722 and 93-732, respectively.

For any portion of any #development# or #enlargement# other than an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is substantially complete, and the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such

#development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access areas. Notwithstanding the foregoing, for #zoning lots# with multiple #buildings# for which the Chairperson has certified that a plan has been submitted that provides for the phased development of public access areas through completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase, such certifications shall be made with respect to substantial completion or completion of the public access areas integral to each such phase, except as provided in paragraph (h) of Section 93-71, and Section 93-732. Issuance of a temporary or permanent certificate of occupancy for any #building#, or portion of a #building#, not occupied by an #ERY Culture, Festival and Exhibit facility# shall not be conditioned upon the completion, substantial completion or improvement of the Culture Facility Plaza.

For an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for such #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza described in paragraph (j) of Section 93-71 is substantially complete and open to and useable by the public and no permanent certificate of occupancy from the Department of Buildings may be issued for the #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza is complete. If a moveable portion of the #ERY Culture, Festival and Exhibit Facility# is not initially constructed as part of the #ERY Culture, Festival and Exhibit Facility# but is constructed at a later date, any closure of the Culture Facility Plaza necessary for such construction shall not affect the validity of any certificate of occupancy previously issued for the #ERY Culture, Festival and Exhibit Facility#. No temporary certificate of occupancy for the moveable portion that is thereafter constructed, or an amended temporary certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is substantially complete and open to and useable by the public and no permanent certificate of occupancy for the moveable portion that is thereafter constructed, or an amended permanent certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson

certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is complete.

(7/24/13)

93-71

Public Access Areas in the Eastern Rail Yard Subarea A1

Any #development# in the Eastern Rail Yard Subarea A1 shall provide public access areas in accordance with the following requirements:

(a) Amount of public access areas

Public access areas shall be provided in an amount not less than 55 percent of the #lot area# of the #zoning lot#. At least 40 percent of the #lot area# of the #zoning lot# shall be publicly accessible and open to the sky. At least an additional 15 percent of the #lot area# of the #zoning lot# shall be publicly accessible and may be either open or enclosed. Such open or enclosed areas shall be comprised of the types of public access areas listed in paragraphs (b) through (f), and paragraphs (h) and (j), of this Section. For purposes of determining compliance with such 55 percent and 40 percent requirements, the Culture Facility Plaza, any portion of the connection to the High Line allowed to be covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility# pursuant to paragraph (f), and any portion of the connection to the High Line that is not required to have a clear height of 60 feet pursuant to paragraph (f) shall be deemed publicly accessible and open to the sky at all times, including any time when a moveable portion of an #ERY Culture, Festival and Exhibit Facility# extends over the Culture Facility Plaza or the connection to the High Line. Open areas may also include the area of the sidewalk widening along Eleventh Avenue required pursuant to Section 93-61 and, at the option of the owner, the #Tenth Avenue Spur#. If the Cultural Facility Plaza is closed during the construction of the moveable portion of the #ERY Culture, Festival and Exhibit Facility#, the amount of publicly accessible open space shall not be considered reduced during such period.

All public access areas listed in this Section, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall be accessible to the public, as follows:

- (1) unenclosed public access areas shall be accessible between the hours of 6:00 am and 1:00 am, except that any portions of the outdoor plaza, as described in paragraph (b) of this Section, designed and constructed for purposes of vehicular use, shall be accessible at all times, except as necessary to perform maintenance and repairs or address hazardous or emergency conditions;
- (2) enclosed portions of the through block connection and connection to the public plaza, described in paragraphs (d) and (e) of this Section, shall be accessible to the public between the hours of 8:00 am and 10:00 pm; and
- (3) upon completion of the Tenth Avenue bridge, described in paragraph (g) of this Section, access between the bridge and the outdoor plaza shall be provided by means of the through block connection between the hours of 6:00 am and 1:00 am.

All public access areas, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall include public space signage erected at conspicuous locations. Such signs shall include the statement "Open to the Public," followed by the hours of operation specified in this paragraph, (a). The public space signage for the Culture Facility Plaza may include additional information, consistent with the provisions of paragraph (j) of this Section.

(b) Outdoor plaza

A publicly accessible space, open to the sky (hereinafter referred to as the "outdoor plaza"), shall be located within the area bounded by West 33rd Street, the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East, a line 250 feet north of and parallel to West 30th Street, Eleventh Avenue, a line 220 feet south of and parallel to West 33rd Street, and the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West. Such open area may extend beyond such boundaries and have necessary grade changes, and up to ten percent of the area of such outdoor plaza may be covered by a #building or other structure#.

In addition, a #building# containing eating or drinking places and #uses# listed in Use Groups 6A and 6C may be located within the outdoor plaza (but shall not be included as public access area pursuant to paragraph (a) of Section 93-71), provided that any such #building#:

- (1) is located within the area west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 400 feet of West 30th Street;
- (2) covers no more than 3,600 square feet of the #zoning lot# at the level of the outdoor plaza and above;
- (3) contains no more than 7,200 square feet of #floor area# at the level of the outdoor plaza and above, and no more than 3,600 square feet of #floor area# below the level of the outdoor plaza;
- (4) has a maximum north-south dimension of 85 feet at the level of the outdoor plaza and above;
- (5) is located such that the maximum east-west dimension measured along a line 355 feet from West 30th Street is 40 feet at the level of the outdoor plaza and above. For portions of the #building# located north or south of such line, the maximum east-west dimension shall increase at a rate of one foot in the east-west dimension for every four feet in the north-south dimension from such line, up to a maximum east-west dimension of 60 feet; and
- (6) has a maximum perimeter wall height of 24 feet, and a maximum #building# height of 30 feet. Above a height of 24 feet, no portion of a #building# may penetrate a #sky exposure plane# that begins at a height of 24 feet above the perimeter walls and rises over the #building# at a slope of 2.5 feet of horizontal distance for each foot of vertical distance. Such heights shall be measured from the highest level of the adjoining portions of the outdoor plaza.

No #building# location or setback requirements shall apply to any #building# walls facing the northern, eastern or southern boundaries of the outdoor plaza.

#Building# walls fronting upon the western boundary of the outdoor plaza shall extend along at least 70 percent of the length of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and shall rise to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, a setback at least 20 feet in depth is required from such prolongation line. However, such #building# wall may rise without setback at such prolongation

line, provided the aggregate width of such #building# wall does not exceed 50 percent of the width of such line and provided all other portions of the #building# that exceed a height of 120 feet are set back at least 20 feet from such prolongation line at a height not lower than 90 feet.

The retail and glazing requirements of Section 93-14 (Ground Floor Level Requirements) shall apply to at least 70 percent of the length of all #building# walls facing each side of the outdoor plaza, except that such retail requirements shall not apply to any #building#, or portion of a #building#, located west of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East and within 220 feet of West 30th Street containing #uses# in Use Group 3 or 4 or an #ERY Culture, Festival and Exhibit Facility#.

(c) Public plaza

A publicly accessible space, (hereinafter referred to as a "public plaza"), shall be provided at the intersection of Tenth Avenue and West 30th Street. Such public plaza shall have a minimum area of 12,000 square feet with a minimum frontage of 180 feet along Tenth Avenue and a minimum frontage of 60 feet along West 30th Street. Such public plaza shall be open to the sky except that such space may be covered by the #ERY High Line# structure, including any connections to the #ERY High Line# or other design features, as well as a #building# or portion of a #building# as allowed pursuant to Section 93-514, paragraph (a)(4), except that no #building# or portion of a #building# may encroach within the area that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street. In addition, no more than 50 percent of the public plaza shall be covered by the permitted obstructions described in Section 37-726, paragraph (a), as well as any vents or shafts that are placed by the Department of Environmental Protection within the portion of the public plaza that is subject to an access easement.

Such public plaza shall contain the following amenities:

- (1) no less than 120 linear feet of fixed seating;
- (2) no less than 12 moveable tables and 48 moveable chairs; and
- (3) no less than four trees or multi-stemmed equivalents measuring at least four inches in caliper at the time of planting, which trees or multi-stemmed equivalents may be planted in a planting bed. In addition, such public plaza

shall contain at least two of the following additional amenities:

- (i) artwork;
- (ii) water features; or
- (iii) food service located in a retail space directly accessible from the public plaza.

The glazing requirements of Section 93-14, paragraph (c), shall apply to at least 70 percent of the length of all #building# walls, other than the #building# walls of any facility operated by the Long Island Rail Road, or its successor, facing each side of the public plaza. In addition, at least 25 percent of the frontage of all #building# walls facing the portion of the public plaza that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street shall be occupied by #uses# listed in Use Groups 6A and 6C or the connection to the public plaza described in paragraph (e) of this Section.

(d) Through block connection

A publicly accessible through block connection shall be provided connecting the outdoor plaza with the Tenth Avenue sidewalk within 50 feet or anywhere north of the center line of West 32nd Street. Public access shall also be provided between such through block connection and the Tenth Avenue bridge at the time such bridge is constructed pursuant to paragraph (g) of this Section, and may connect to other public access areas or sidewalks. Such through block connection may be open to the sky or enclosed, need not be linear and may have necessary grade changes.

Such through block connection shall have a minimum width of 30 feet and any enclosed portion shall have a minimum height of 30 feet. As an alternative, if an enclosed atrium space adjacent to the outdoor plaza is provided as part of the through block connection that meets all the following dimensional requirements: (1) comprises no less than 4,000 square feet with a minimum height of 60 feet and a minimum depth of 50 feet as measured by a line parallel from the #building# wall facing the outdoor plaza; (2) is free of #building# structural obstructions other than vertical circulation and other elements occupying no more than 500 square feet in the aggregate; and (3) contains interior walls facing such area that comply with the ground floor retail #use# requirements of Section 93-14, paragraph (a),

then such through block connection may: (i) have a minimum width of 24 feet; and (ii) have a minimum height of 34 feet for at least 70 percent of the aggregate enclosed area of the through block connection (including the atrium), provided that no portion of the through block connection shall have a minimum height less than 17 feet.

The retail and glazing requirements of Section 93-14 shall apply to at least 50 percent of the length of all #building# walls facing each side of the through block connection (or, if enclosed, the interior walls facing the through block connection). The through block connection may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the through block connection, and a single path of travel no less than 24 feet in width is maintained. Vertical circulation elements traversing the grade changes of the through block connection shall be considered a part of the through block connection and not an obstruction.

(e) Connection to public plaza

A public way, open or enclosed, shall be provided connecting the outdoor plaza or the through block connection with the public plaza. Such connection need not be linear and may have necessary grade changes. The retail and glazing requirements of Section 93-14 shall apply to at least 50 percent of the length of all #building# walls facing each side of such connection (or, if enclosed, the interior walls facing the connection). The minimum clear width of such public way shall be 20 feet. For any portions that are enclosed, the minimum clear height shall be 34 feet within at least 50 percent of the enclosed area of the connection to the public plaza, provided that no portion of the connection to the public plaza shall have a minimum height less than 17 feet. The connection to the public plaza may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the connection to the public plaza and a single path of travel no less than 20 feet in width is maintained. Vertical circulation elements traversing the grade changes of the connection to the public plaza shall be considered a part of the connection to the public plaza and not an obstruction.

(f) Connection to High Line

A publicly accessible connection between the High Line and the outdoor plaza (hereinafter referred to as the "connection") shall be provided that has a minimum width, measured parallel to the High Line, of 60 feet and is located east of the Culture Facility Plaza. For a width of 60 feet measured parallel to the High Line, the clear height of the connection shall be at least 60 feet. Above such height, overhangs of the 60 foot width dimension of the connection shall be permitted by the movable portion of the #ERY Culture, Festival and Exhibit Facility#, provided that the angle of such overhang is a maximum of 14 degrees east of the vertical extension of the western edge of such 60 foot width, as measured from the intersection of such vertical extension with the 60 foot clear height of the connection. Additionally, such overhang shall project over no more than 16 feet of the 60 foot width dimension. Any portion of the connection east of the minimum 60 foot width shall, if covered, have a minimum clear height of 60 feet. The movable portion of the #ERY Culture, Festival and Exhibit Facility# shall be permitted to overhang any portion of the connection west of such minimum 60 foot width, provided that the angle of such overhanging portion is a maximum of 14 degrees measured at the western edge of the connection at its ground level. The glazing requirements of Section 93-14, paragraph (c), shall apply to at least 50 percent of the length of all #building# walls facing the connection.

(g) Tenth Avenue bridge

A publicly-accessible pedestrian bridge shall be provided over Tenth Avenue linking the through block connections required pursuant to paragraph (d) of this Section and paragraph (a) of Section 93-72 (Public Access Areas at 450 West 33rd Street). Such bridge need not be constructed until the 450 West 33rd Street through block connection has been completed. Such bridge may be open or enclosed, have a minimum clear width of 30 feet and, if enclosed, have a minimum clear height of 15 feet. Such bridge shall be located within 10 feet of the center line of West 32nd Street and be at the same elevation as the through block connection required pursuant to paragraph (a) of Section 93-72.

(h) #ERY High Line# and #Tenth Avenue Spur#

The #ERY High Line# shall be provided as a publicly accessible open area. The #Tenth Avenue Spur# may, at the option of the owner, also be provided as a publicly accessible open area.

- (1) In order to meet the public access area requirements of Section 93-71, paragraph (a), and this paragraph, (h), the following shall be provided for the #ERY High Line#, and shall, if the owner has elected to include the #Tenth Avenue Spur# as a public access area, be further provided for the #Tenth Avenue Spur#:
- (i) Payment of the #High Line Rehabilitation Deposit#; or subject to entry into construction-related agreements with the City or its designee, completion of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, not later than March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms thereof. If the owner has elected to perform the rehabilitation work, then all such work shall be completed in accordance with plans and specifications prepared by or on behalf of the City;
 - (ii) Payment of the #High Line Landscape Improvement Deposit#;
 - (iii) Provision of #High Line Maintenance Funding#;
 - (iv) An easement agreement allowing use of the #ERY High Line# for public space in accordance with the requirements of this paragraph, (h), as well as for use and access for rehabilitation, improvement, maintenance and repair purposes, acceptable to the City.

Such requirements shall be set forth in agreements or instruments in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. The execution of such agreements by the owner, and mortgagees and parties in interest of the owner, and, where appropriate, the filing and recordation of such instruments in the Borough Office of the City Register of the City of New York, indexed against the property, shall be a precondition to the Chairperson's certification to the Department of Buildings for a building permit under Section 93-70. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

- (2) No certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 shall be permitted unless the #ERY High Line# is included as a public access area for the initial phase in accordance with the provisions of this paragraph, (h).
- (3) No crane permit shall be granted for construction of a #development# or #enlargement# in such initial phase until the Chairperson certifies to the Department of Buildings that: (i) either the #High Line Rehabilitation Deposit# has been made or all construction documents and instruments necessary for accomplishment of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, in accordance with paragraph (h)(1)(i) of this Section, have been executed and delivered; and (ii) the #High Line Landscape Improvement Deposit# has been made.
- (4) No temporary or permanent certificate of occupancy for a #development# or #enlargement# in such initial phase shall be granted unless the Chairperson certifies to the Department of Buildings that (i) either the #High Line Rehabilitation Deposit# has been previously furnished or the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been completed in accordance with the construction documents and instruments; (ii) the initial installment of #High Line Maintenance Funding# has been delivered, provided and to the extent that the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been substantially completed and are open for use by the public; and (iii) the easement agreement described in paragraph (h)(1)(iv) of this Section, is in effect for the #ERY High Line#. The requirement for a certification of substantial completion of public access areas before the granting of a temporary certificate of occupancy for the #development# or #enlargement# within such phase pursuant to Section 93-70 shall not apply with respect to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.
- (5) Nothing herein shall be construed to affect any obligation of the owner to make the #High Line Rehabilitation Deposit# at an earlier date, in accordance with the terms of agreements or instruments entered into by the parties, or to complete rehabilitation work for the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, by March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms of such agreements.

(6) Use by the City of the #High Line Landscape Improvement Deposit# for improvement of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, shall be subject to approval by the Chairperson, based upon a determination that the design and location of access points to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been arranged such that public use thereof will not result in any significant adverse impacts with respect to transit or pedestrians.

(i) Certifications for phased development pursuant to Section 93-70 granted before May 31, 2012

If a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, such certification shall expire 45 days following such date and shall thereupon no longer be in force and effect. Within said 45 day period, a new application for certification pursuant to Section 93-70 and Section 93-71, paragraph (h), shall be filed by the owner which shall include the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, as public access areas associated with the initial phase, in addition to any other public access areas previously so certified. The expiration of any certification under Section 93-70 granted before May 31, 2012, shall not affect the validity of any permit issued by the Department of Buildings prior to the expiration of such 45 day period, provided the new application under Section 93-70 and Section 93-71, paragraph (h), is made within such 45 day period.

In the event that a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, and a crane permit for the construction of a #development# or #enlargement# within such initial phase was granted prior to 45 days after May 31, 2012, the preconditions to issuance of a crane permit set forth in Section 93-71, paragraph (h), shall be prerequisites for the grant of any new certification for phased development made under this paragraph, (i).

(j) Culture Facility Plaza

A publicly accessible space located east of and #abutting# the non-moveable portion of an #ERY Culture, Festival and Exhibit Facility#, and bounded to the north by the outdoor plaza and to the south by the #ERY High Line# shall be provided. During times

when the Culture Facility Plaza is not covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza may be used for purposes of outdoor events related to an #ERY Culture, Festival and Exhibit Facility#. Outdoor installations for such events, including seating, shall be restricted to the Culture Facility Plaza. All such events shall be open and accessible to the general public free of admission charge, provided that ticketed events with tickets available on a first come, first served, or timed basis, shall be permitted. During all times when the Culture Facility Plaza is not used for an #ERY Culture, Festival and Exhibit Facility# event or covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza shall be open and accessible to the public between the hours of 6:00 am and 1:00 am. Notwithstanding any other provision, the Culture Facility Plaza may be closed to the public not more than 12 days each calendar year for an event related to the #ERY Culture, Festival and Exhibit Facility#, provided that not less than five days prior to any such closing, notice is given to the applicable community board and is posted at conspicuous locations at such plaza. No #building# or portion of a #building# that is not used for an #ERY Culture, Festival and Exhibit Facility# shall have any obligation to comply with the requirements of paragraph (a), or this paragraph, (j), of this Section related to the Culture Facility Plaza.

(4/29/14)

93-72

Public Access Areas at 450 West 33rd Street

For the purposes of this Section 93-72, inclusive, 450 West 33rd Street shall be considered the area bounded by the eastern #street line# of Tenth Avenue, the northern #street line# of West 31st Street, a line 302 feet east of the eastern #street line# of Tenth Avenue and the southern #street line# of West 33rd Street. Such area shall include the tax lots located at Block 729, Lots 1 and 15, existing on April 29, 2014. Any #development# or #enlargement# in such area shall provide public access areas in accordance with the provisions of this Section. However, if a special permit has been granted for the #development# of an arena pursuant to Section 74-41 in the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line 498 feet west of the western #street line# of Ninth Avenue and the southern #street line# of West 33rd Street, the provisions of this Section may be

waived or modified in conjunction with such special permit. All public access areas listed in this Section shall be accessible to the public between the hours of 6:00 am and 1:00 am.

(a) Through block connection

A publicly-accessible through block connection shall be provided within 10 feet of the prolonged center line of West 32nd Street, at an elevation that connects the Tenth Avenue pedestrian bridge required pursuant to paragraph (g) in Section 93-71 with the Dyer Avenue platform required pursuant to paragraph (b) of this Section and paragraph (e) of Section 93-73 (Public Access Areas on Ninth Avenue Rail Yard). Public access shall also be provided between such through block connection and the Tenth Avenue sidewalk.

For #developments# or #enlargements# where 75 percent or less of the total #floor area# existing on the #zoning lot# on January 19, 2005, has been demolished, such through block connection shall be open or enclosed and have a minimum clear width of 30 feet. If enclosed, at least 75 percent of such through block connection shall have a minimum clear height of 30 feet, and the remainder shall have a minimum clear height of 20 feet.

For #developments# or #enlargements# where more than 75 percent of the total #floor area# existing on the #zoning lot# on January 19, 2005, is demolished, such through block connection shall have a minimum width of 60 feet and a minimum clear path of 20 feet, and have retail uses fronting upon at least 50 percent of its northern and southern boundaries. At least 60 percent of such through block connection shall be enclosed, with an average clear height of 60 feet and a roof of transparent material that allows for natural daylight to enter. Direct access shall be provided to any #building# adjacent to such through block connection. The maximum height of a #building# wall along the southern boundary of the through block connection shall not exceed the average height of the enclosed portion, or the height at which an arched or angled ceiling of the enclosed through block connection begins, whichever is less. Any portion of a #building# that exceeds such height shall be set back at least 20 feet in depth from the southern boundary of the through block connection. Any portion of such through block connection that is open to the sky shall comply with the provisions for #public plazas# set forth in Sections 37-718, 37-726, 37-728, 37-741, 37-742, 37-743, 37-744, 37-75, 37-76 and 36-77.

An #enlargement# that does not increase the total #floor area# on the #zoning lot# to more than 1,373,700 square feet, shall not be considered an #enlargement# for purposes of this paragraph (a).

(b) Dyer Avenue platform

A permanent easement shall be provided along the eastern edge of 450 West 33rd Street, as shown on Map 1 (Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan) in Appendix B of this Chapter, for the purposes of constructing the Dyer Avenue platform required pursuant to paragraph (d) of Section 93-73 (Public Access Areas on Ninth Avenue Rail Yard). Such easement shall have a minimum width of 33 feet. Any amenities required by paragraph (d) of Section 93-73 may be located within such easement.

(c) West 31st Street Passageway

A publicly accessible passageway space, (hereinafter referred to as the "West 31st Street passageway") shall be provided connecting the Tenth Avenue podium required pursuant to paragraph (d) of this Section to the Dyer Avenue platform required pursuant to paragraph (d) of Section 93-73, as shown on Map 1 in Appendix B. The West 31st Street passageway shall be located at the same elevation as the Dyer Avenue platform. Such space shall be located within 35 feet of West 31st Street, have a minimum clear path of ten feet and be visually open to West 31st Street except for structural elements of the #building# at 450 West 33rd Street.

(d) Tenth Avenue podium

(1) Location and minimum dimensions

A publicly accessible area (hereinafter referred to as the "Tenth Avenue podium") shall be provided at the corner of Tenth Avenue and West 31st Street, as shown on Map 1 in Appendix B. The Tenth Avenue podium shall have a minimum area of 1,800 square feet, be located at the same elevation as the Dyer Avenue platform required pursuant to paragraph (d) of Section 93-73, and shall connect to the West 31st Street passageway required pursuant to paragraph (c) of this Section.

(2) Required amenities

The Tenth Avenue podium shall contain a minimum of four trees and be directly accessible from West 31st Street by a staircase and elevator. The stair and the adjoining area shall be open to West 31st Street except for columns and structural elements of the 450 West 33rd Street #building#.

(4/29/14)

93-721

Design and maintenance requirements for public access areas at 450 West 33rd Street

Public access areas at 450 West 33rd Street provided pursuant to the requirements of Section 93-72 shall comply with the applicable design reference standards set forth in paragraph (a), and the maintenance provisions of paragraph (b) of this Section.

(a) Design reference standards

The public access areas required by paragraphs (c) and (d) of Section 93-72 shall comply with the following applicable design standards:

- (1) at least two litter receptacles in such public access areas shall be provided;
- (2) all open spaces within the public access areas shall provide open space signage pursuant to the standards set forth in Section 37-751 (Public space signage systems). In addition, a minimum of two wayfinding #signs# shall be provided;
- (3) the minimum level of illumination shall be 1.5 horizontal foot candles (lumens per foot);
- (4) no gates, fences or other barriers shall be permitted within such public access areas; and
- (5) for the purposes of applying the #sign# regulations to #building# walls facing public access areas, such public access areas shall be considered #streets#.

(b) Maintenance

The owner(s) shall be responsible for the maintenance of all public access areas, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation.

(4/29/14)

93-722

Certification for public access areas at 450 West 33rd Street

For #enlargements# that do not increase the total #floor area# on the #zoning lot# to more than 1,373,700 square feet, in accordance with the provisions of Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard), no temporary or permanent certificate of occupancy shall be issued by the Department of Buildings for more than 3,204,000 square feet of #floor area developed# or #enlarged# on the Ninth Avenue Rail Yard until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that a phasing plan has been submitted requiring the West 31st Street Passageway and the Tenth Avenue Podium, required pursuant to paragraphs (c) and (d) of Section 93-72 (Public Access Areas at 450 West 33rd Street), respectively, to be substantially complete and open to and useable by the public.

(4/29/14)

93-73

Public Access Areas on the Ninth Avenue Rail Yard

For the purposes of this Section 93-73, inclusive, the Ninth Avenue Rail Yard shall be considered the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line located 498 feet west of the western #street line# of Ninth Avenue and the southern #street line# of West 33rd Street. Such area shall include the tax lots located at Block 729, Lots 50 and 60, existing on April 29, 2014. Any #development# in such area shall provide public access areas in accordance with the provisions of this Section 93-73, inclusive.

Public access areas on the Ninth Avenue Rail Yard shall be comprised of the types of public access areas listed in this Section. Public

access areas shall also include the area of the sidewalk widenings along Ninth Avenue and West 33rd Street required pursuant to Section 93-61 (Pedestrian Circulation Space). The entry plaza and the art plaza, as set forth in paragraphs (a) and (c) of this Section, respectively, shall be subject to the hours of access provisions set forth in Section 37-727. All other public access areas listed in this Section shall be accessible to the public between the hours of 6:00 am and 1:00 am.

(a) Entry Plaza

(1) Location and minimum dimensions

A publicly accessible space, open to the sky (hereinafter referred to as the "entry plaza"), shall be located within the area bounded by the western #street line# of Ninth Avenue, the southern #street line# of West 33rd Street, a line 168 feet south of and parallel to the southern #street line# of West 33rd Street and a line 60 feet west of and parallel to the western #street line# of Ninth Avenue, as shown on Map 1 (Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan) in Appendix B of this Chapter. The entry plaza shall have a minimum area of 10,080 square feet, shall have a minimum frontage along Ninth Avenue of 168 feet and shall provide a direct connection to the central plaza required pursuant to paragraph (b) of this Section. No more than 50 percent of the entry plaza area shall be covered by the permitted obstructions described in paragraph (a) of Section 37-726.

(2) Required amenities

The entry plaza shall have the following amenities:

- (i) a minimum of eight trees (or other amounts equivalent to a minimum of 32 caliper inches);
- (ii) at least 336 linear feet of seating including a minimum of 48 moveable chairs and 12 moveable tables. At least 50 percent of the seating, including movable seats, shall have backs and no more than 50 percent of the seating with backs shall be movable seating;
- (iii) two or more planting beds which, in the aggregate, occupy an area of at least 800 square feet. No more than 35 percent of the linear feet of the planting

beds shall have bounding walls exceeding 18 inches in height above an adjacent walking surface;

- (iv) ground floor transparency, in accordance with the provisions of paragraph (c) of Section 93-14 (Ground Floor Level Requirements), shall apply to at least 70 percent of the length of all #building# walls facing the entry plaza; and
- (v) one clear pedestrian circulation path with a minimum width of 12 feet shall be provided adjacent to the #building# facing the entry plaza and shall extend for the full length of the #building# frontage.

(b) Central Plaza

(1) Location and minimum dimensions

A publicly accessible space (hereinafter referred to as the "central plaza"), shall be located within an area bounded by the western #street line# of Ninth Avenue, a line 168 feet south of and parallel to the southern #street line# of West 33rd Street, a line 187 feet north of and parallel to the northern #street line# of West 31st Street and a line 478 west of and parallel to the western #street line# of Ninth Avenue, as shown on Map 1 in Appendix B. Except as provided in paragraph (b)(3) of this Section, the central plaza shall have a minimum area of 47,800 square feet, and shall have a minimum north-south dimension as measured from the #building# walls of the #buildings# facing onto the central plaza of 100 feet. The central plaza shall be open to the sky, except for the area occupied by the pavilion permitted by paragraph (b)(2)(vii) of this Section.

(2) Required amenities

The central plaza shall contain the following features and amenities:

(i) Landscaped area

A landscaped area shall be provided and shall contain a minimum of 44 trees (or other amounts equivalent to a minimum of 176 caliper inches), and planting beds which, in the aggregate, occupy an area of at least 7,500 square feet.

Within the area bounded by the western #street line# of Ninth Avenue and a line drawn 45 feet west of the western #street line# of Ninth Avenue, a minimum of 1,000 square feet of such total requirement shall be occupied by planting beds.

(ii) Seating

A minimum of 725 linear feet of seating shall be provided, with 120 moveable chairs and 30 moveable tables. At least 50 percent of the required seating shall have backs.

Within the area bounded by the western #street line# of Ninth Avenue and a line drawn 45 feet west of the western #street line# of Ninth Avenue, a minimum of 50 linear feet of seating of such total requirement shall be provided of which 50 percent shall have backs.

(iii) Event space

The portion of the central plaza located beyond a line drawn 295 feet west and parallel to the western #street line# of Ninth Avenue may be used for events (hereinafter referred to as the "event space"). Such event space shall have a maximum area of 4,500 square feet and may contain a temporary stage or platform and temporary seating associated with events. When such event space is not being used for an event, it shall contain a minimum of 192 linear feet of seating, with 96 moveable chairs and 24 moveable tables, and during the period April 1 to November 15, two moveable food carts within the event space or on the periphery thereof. Such tables and chairs shall be in addition to the amount required for the landscaped area in paragraph (b)(2)(ii) of this Section.

(iv) Circulation paths

Circulation paths in the central plaza shall meet the following minimum requirements:

- (aa) pedestrian circulation paths extending the full length of the central plaza with an aggregate width of not less than 30 feet shall be provided;

- (bb) at least two of the required circulation paths with a minimum clear width of twelve feet shall be located within 20 feet of the facade of each #building# facing the central plaza;
- (cc) in addition to the circulation paths required by paragraph (b)(2)(iv)(aa) of this Section, at least two circulation paths shall be provided through the landscaped area required by paragraph (b)(2)(i) of this Section, which connect with the circulation paths required by paragraph (b)(2)(iv)(bb) of this Section;
- (dd) all circulation paths shall be unobstructed during events held in the event space permitted by paragraph (b)(2)(iii) of this Section; and
- (ee) a clear path with a minimum aggregate width of at least 20 feet shall be maintained where the entry plaza required pursuant to paragraph (a) of this Section and the central plaza required by paragraph (b) of this Section intersect and where the art plaza required pursuant to paragraph (c) of this Section and the central plaza required by paragraph (a) of this Section intersect, provided that up to eight feet of such required clear path may be located within the entry plaza and within the art plaza respectively.

(v) Transparency

The transparency requirements of paragraph (c) of Section 93-14 (Ground Floor Level Requirements) shall apply to the ground floor level of at least 70 percent of the length of all #building# walls facing each side of the central plaza.

(vi) Retail continuity

At least 40 percent of the frontage of any #building# fronting on the central plaza shall comply with the retail continuity requirements of paragraph (a) of Section 93-14 (Ground Floor Level Requirements) and at least 50 percent of the aggregate frontage of all #buildings# fronting on the central plaza shall comply with the retail continuity requirements of paragraph (a) of Section 93-14 (Ground Floor Level

Requirements). Such retail space shall have a minimum depth of 30 feet measured perpendicular to the wall adjoining the central plaza.

(vii) Pavilion

A #building# (hereinafter referred to as a "pavilion") containing #uses# listed in Use Groups 6A and 6C may be located within the central plaza, provided that such pavilion, and any seating associated with a use in the pavilion, shall be located at least ten feet west of the prolongation of the east face of the #building# fronting on the north side of the central plaza. The pavilion shall have a minimum #lot coverage# of 1,000 square feet and a maximum #lot coverage# of 3,000 square feet, with a maximum width of 40 feet parallel to Ninth Avenue. Such pavilion shall be no more than one #story# in height, except such one #story# limitation may be exceeded by portions of the pavilion allocated to mechanical equipment as well as restrooms and a food preparation kitchen occupying, in the aggregate, no more than 200 square feet area. Such pavilion shall not exceed a height limit of 25 feet, except that the permitted obstructions set forth in Section 33-42, as well as restrooms and a food preparation kitchen located above the level of the first #story# may be permitted to exceed such height limit provided that the height of such restroom and food preparation kitchen do not exceed ten feet. Seating may be provided for the #uses# in the pavilion provided that the total area occupied by the pavilion and such associated seating does not exceed a maximum #lot coverage# of 3,600 square feet and that such seating shall not count towards meeting the seating requirements set forth in paragraphs (b)(2)(ii) and (iii) of this Section. Floor space within the pavilion shall not be considered #floor area#. At least 60 percent of the exterior walls of the pavilion shall be transparent except for structural supports, provided that 100 percent of the east facing wall of the pavilion shall be transparent except for structural supports.

(3) Alternative design option

Notwithstanding the provisions of paragraph (b)(1) of this Section, the minimum north-south width of the central plaza

may be reduced to no less than 80 feet for at least 50 percent of the aggregate frontage of the #buildings# fronting on the central plaza, provided that such narrowed portion begins no further than 150 feet from the western #street line# of Ninth Avenue, and further provided that the minimum size of the central plaza is not less than 41,382 square feet. The minimum height of a #building# wall fronting upon such narrowed portion shall be 45 feet, and the maximum height of such #building# wall shall not exceed 85 feet. Above a height of 85 feet, the minimum setback distance shall be 10 feet and the minimum distance between #buildings# fronting on the central plaza shall be 100 feet.

(4) Closing of event space

The City Planning Commission may allow the closing of the event space for up to 12 events per year pursuant to a restrictive declaration acceptable to the City and recorded in the office of the City Register for New York County and indexed against the property.

(c) Art Plaza

(1) Location and minimum dimensions

A publicly accessible space open to the sky (hereinafter referred to as the "art plaza") shall be located in the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line 40 feet west of and parallel to the western #street line# of Ninth Avenue and a line 187 feet north of and parallel to the northern #street line# of West 31st Street, as shown on Map 1 in Appendix B. The art plaza shall have a minimum area of 7,480 square feet, a minimum east-west dimension of 40 feet and shall provide a direct connection to the central plaza required pursuant to paragraph (b) of this Section.

(2) Required amenities

The art plaza shall contain the following features and amenities:

- (i) a minimum of four trees (or other amounts equivalent to a minimum of 16 caliper inches);

- (ii) planting beds which, in the aggregate, occupy an area of at least 410 square feet;
- (iii) a minimum of 45 linear feet of seating;
- (iv) one or more pieces of artwork. Such artwork may not incorporate addresses, text or logos related to the adjacent #building# or tenants of such #building#; and
- (v) the transparency requirements of paragraph (c) of Section 93-14 shall apply to the ground floor level of at least 70 percent of the length of all #building# walls facing the art plaza.

(d) Dyer Avenue Platform

(1) Location and minimum dimensions

A publicly accessible platform shall be constructed over Dyer Avenue connecting West 33rd Street and West 31st Street (hereinafter referred to as the "Dyer Avenue Platform"), as shown on Map 1 in Appendix B. The Dyer Avenue platform shall include the easement area described in paragraph (b) of Section 93-72 and shall directly connect with the central plaza and the West 31st Street connector required by paragraphs (b) and (e) of this Section, respectively. The Dyer Avenue platform shall have a minimum east-west dimension of 53 feet and a minimum north-south dimension of 455 feet. However, such minimum east-west dimension may be reduced to accommodate an extension of such existing egress stair in order to adjoin the level of the platform, or to accommodate up to 15 inches of additional exterior wall thickness added to the eastern face of the existing #building# at 450 West 33rd Street. Except for any portion of the Dyer Avenue platform which on April 29, 2014, was covered by the #building# located at 450 West 33rd Street and the existing egress stairs on the eastern face on such #building#, or the permitted additions thereto, respectively, the Dyer Avenue platform shall be open to the sky.

(2) Required amenities

The Dyer Avenue platform shall contain the following features and amenities which may be located on the portion of the Dyer Avenue platform located within the easement

provided pursuant to paragraph (b) of Section 93-72 (Public Access Areas at 450 West 33rd Street):

- (i) a minimum of sixteen trees (or other amounts equivalent to a minimum of 64 caliper inches), of which a minimum of twelve trees (or other amounts equivalent to a minimum of 48 caliper inches) shall be located south of the center line of the prolongation of West 32nd Street;
- (ii) planting beds, which in the aggregate, occupy an area of at least 1500 square feet, of which a minimum of 450 square feet of planting beds shall be located south of the center line of the prolongation of West 32nd Street and a minimum of 250 square feet of planting beds shall be located within 30 feet of the southern street line of 33rd Street. No more than 25 percent of the linear feet of the planting beds shall have bounding walls exceeding 18 inches in height above an adjacent walking surface;
- (iii) a minimum of 350 linear feet of seating shall be provided, of which 50 percent shall consist of seats with backs and with at least 210 linear feet of seating located south of the center line of the prolongation of West 32nd Street and a minimum of 50 linear feet of seating located within 30 feet of the southern street line of West 33rd Street;
- (iv) the glazing requirements of paragraph (c) of Section 93-14 shall apply to the ground floor level of at least 70 percent of the length of all #building# walls fronting on the eastern edge of the Dyer Avenue platform; and
- (v) at least two pedestrian circulation paths with a minimum clear path of 8 feet or one circulation path with a minimum clear path of 12 feet shall be provided along the full length of the Dyer Avenue platform, from West 31st Street to West 33rd Street.

Vertical circulation elements, including stairs and ramps traversing the grade changes of the Dyer Avenue platform shall be considered a part of the Dyer Avenue platform and not an obstruction.

(e) West 31st Street Connector

(1) Location and minimum dimensions

A publicly accessible connection (hereinafter referred to as the "West 31st Street connector") shall be provided between the Dyer Avenue platform required pursuant to paragraph (e) of this Section and West 31st Street, as shown on Map 1 in Appendix B. The West 31st Street connector shall be located on West 31st Street adjoining the eastern boundary of the Dyer Avenue platform and shall have a minimum area of 450 square feet.

(2) Required amenities

The West 31st connector shall be directly accessible from West 31st Street by a staircase with a minimum width of 8 feet and by an elevator.

(f) Connection to below-grade passage

Where a pedestrian passage extending from the Eighth Avenue Subway beneath West 33rd Street to the west side of Ninth Avenue has been constructed, an entrance within the #development# shall be constructed that connects with such passage.

(4/29/14)

93-731

Design and maintenance requirements for public access areas on the Ninth Avenue Rail Yard

Public access areas on the Ninth Avenue Rail Yard provided pursuant to the requirements of Section 93-73, shall comply with the applicable design reference standards set forth in paragraph (a), and the maintenance provisions of paragraph (b) of this Section.

(a) Design reference standards

- (1) seating shall meet the minimum and maximum dimensional standards set forth in paragraphs (1) through (7) of Section 37-741 (Seating), inclusive;
- (2) where planting areas are provided, they shall meet the soil depth, continuous area, permeable surface and irrigation

requirements of Section 37-742 (Planting and trees). Where trees are provided, they shall meet the planting standards, soil requirements and irrigation standards set forth in Section 37-742;

- (3) steps shall meet the minimum dimensional standards set forth in Section 37-725 (Steps);
- (4) kiosks or open air cafes shall meet the operational and service requirements listed in paragraphs (a) and (b) of Section 37-73 (Kiosks and Open Air Cafes) and shall not occupy in the aggregate more than 20 percent of the public access areas required by Section 93-73. Seating provided as part of an open air cafe shall not count towards meeting the seating requirements of a public access area listed in Section 93-73;
- (5) all open spaces within the public access areas shall provide open space signage pursuant to the standards set forth in Section 37-751 (Public space signage system). In addition, a minimum of two wayfinding #signs# shall be provided;
- (6) where #buildings# front on to public access areas, canopies, awnings, marquees and sun control devices shall be permitted pursuant to the standards set forth in paragraph (c) of Section 37-726 (Permitted obstructions);
- (7) the aggregate number of litter receptacles in such public access areas shall be 21;
- (8) no gates, fences or other barriers shall be permitted within such public access areas; and
- (9) for the purposes of applying the #sign# regulations to #building# walls facing public access areas, such public access areas shall be considered #streets#.

(b) Maintenance

The owner or owners shall be responsible for the maintenance of all public access areas, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation.

(4/29/14)

93-732

Certification for public access areas on the Ninth Avenue Rail Yard

No certification for the phased development of public access areas on the Ninth Avenue Rail Yard shall be permitted until a plan has been submitted that provides for the completion of public access areas in accordance with the provisions of this Section. Such plan shall provide, at a minimum, that the entry plaza, required pursuant to paragraph (a) of Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard) will be provided in connection with the construction of a #building# located on the northeast corner of the Ninth Avenue Rail Yard, that the art plaza, required pursuant to paragraph (c) of Section 93-73, will be provided in connection with the construction of a #building# located on the southeast corner of the Ninth Avenue Rail Yard and that in connection with the construction of a #building# on the southwest corner of the Ninth Avenue Rail Yard, the West 31st Street connector required by paragraph (e) of Section 93-73, and a 20-foot wide paved area along the eastern edge of Dyer Avenue and extending for the north-south dimension of such #building# will be provided.

An application for certification under this Section shall be filed with the Chairperson of the City Planning Commission and such application shall include a site plan indicating the area and dimensions of the public access area, or portions thereof, and a detailed plan or plans demonstrating compliance with the requirements of Section 93-73.

Plans for the public access areas shall be set forth in an instrument in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Office of the City Register of the City of New York for New York County and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification to the Department of Buildings under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# within a phase until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the public access area, or

portions thereof associated with such phase, is substantially complete and that such public access area, or portions thereof, are open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# until the Chairperson certifies to the Department of Buildings that the public access areas, or portions thereof, are fully complete, and that all requirements of this Section have been met in accordance with the plans for public access area, or portions thereof associated with such phase.

No temporary certificate of occupancy from the Department of Buildings may be issued for a #building#, or portion thereof, where the total amount of #floor area# that has been #developed# or #enlarged# on the Ninth Avenue Rail Yard exceeds 3,204,000 square feet until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that the public access areas at 450 West 33rd Street required by paragraphs (c) and (d) of Section 93-72 and that all public access areas on the Ninth Avenue Rail Yard required by Section 93-73 have been substantially completed and are open and usable by the public. Notwithstanding the foregoing, the Chairperson may, with respect to the public access area required by paragraph (c) and the elevator required by paragraph (d) of Section 93-72 at 450 West 33rd Street, certify to the Commissioner of Buildings that such temporary certificate of occupancy may be issued absent their substantial completion provided that:

- (a) the owner of 450 West 33rd Street has submitted proof that all or portions of the area of the West 31st Street passageway required by paragraph (c) of Section 93-72 was at any time subject to a lease with an expiration date of December 31, 2019 and was not able to obtain control of the areas subject to such lease on or before December 31, 2017;
- (b) a letter of credit has been posted in accordance with City requirements, and such letter of credit:
 - (1) is in an amount equal to 200 percent of the estimated cost to construct the public access area and the elevator at 450 West 33rd Street, required by paragraphs (c) and (d) of Section 93-72, respectively, as set forth in a cost estimate prepared by a professional engineer. Such cost estimate shall be based upon construction documents prepared by a registered architect and submitted with the application for certification pursuant to this Section, and shall be subject to review and acceptance by the City; and

- (2) authorizes the City to draw upon the letter of credit if such public access area and elevator have not been substantially completed and are not open and usable by the public by December 31, 2022;
- (c) that an easement agreement has been recorded granting the City access to 450 West 33rd Street and the Ninth Avenue Rail Yard, as may be necessary for purposes of constructing the public access area and elevator required by paragraphs (c) and (d) of Section 93-72, respectively, if they are not completed by the owner by December 31, 2022; and
- (d) in addition to the foregoing, such letter of credit shall be maintained from the date of certification for temporary certificates of occupancy, pursuant to this Section, until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that the public access area required by paragraph (c) and the elevator required by paragraph (d) of Section 93-72 have been substantially completed and are open and usable by the public, or until same have been substantially completed by the City. The Chairperson may, no more frequently than annually, require the submission of an updated or new letter of credit in an amount that reflects changes in costs over time, and such updated or new letter of credit shall be subject to the requirements and procedures of paragraph (b) of this Section, until such letter of credit is released based upon substantial completion.

Notwithstanding the foregoing, in the event that a temporary public access area plan is approved pursuant to Section 93-734

(Certification to temporarily modify public access areas for construction staging), no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with a phase of #development#, is substantially complete and in accordance with such temporary public access area plan, and the public access area, or portions thereof, are open and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, has been fully completed in accordance with the plan therefor, and that such public access area, or portions thereof, are open and useable by the public.

(4/29/14)

93-733

Certification to modify general requirements of public access areas for ventilation demands

The Chairperson of the City Planning Commission may modify the general requirements of the public access areas listed in Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is necessary to accommodate unforeseen ventilation demands within the Ninth Avenue Rail Yard. In addition to the site plan required pursuant to Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard), a mechanical plan shall be provided demonstrating the need to modify such general requirements.

(4/29/14)

93-734

Certification to temporarily modify public access areas for construction staging

In the event that the applicant demonstrates to the satisfaction of the Chairperson of the City Planning Commission that the area designated for public access will be required for construction staging or similar activities in a future phase of #development#, the application for the site plan approval may be accompanied by a request for approval of a temporary public area which may include fewer amenities and other features required pursuant to Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard), as necessary to accommodate such future construction staging or similar activities.

Such temporary public access area plan shall be subject to review and approval in the same manner as site plan approval pursuant to Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard) and, if approved pursuant thereto, shall be implemented and remain in effect only for the period necessary to accommodate the need for use of the public access area for construction staging or similar activities in a future phase of development. Following the expiration of such period, the site plan shall be implemented.

(2/2/11)

93-74

Public Access Areas in Pennsylvania Station Subarea B4

The provisions of this Section shall apply to any #development# in the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B.

(a) Public space

A publicly accessible enclosed space with a minimum area of 32,500 square feet shall be provided. Such space shall have at least 100 feet of frontage along the Eighth Avenue #street line#, and have a minimum clear height of 60 feet. The length of such space shall not exceed four times its narrowest width. Up to one-half of such space may be below-grade but shall be visually connected to the at-grade space. Furthermore, such below-grade space shall be connected to the at-grade space by escalators on at least two sides. The retail and glazing requirements of Section 93-14 shall apply to least 70 percent of the length of all #building# walls facing each side of such space. Such space shall provide direct access to the through block connection required pursuant to paragraph (b) of this Section, adjacent #building# lobbies and transit facilities.

(b) Through block connection

A through block connection shall be provided linking West 31st Street and West 33rd Street, at least 300 feet from Eighth Avenue and with direct access to the public space required pursuant to paragraph (a) of this Section. Such through block connection shall have a minimum clear width of 20 feet and may be open or enclosed. If enclosed, such through block connection shall have a minimum clear height of 30 feet.

(c) Plaza

A publicly-accessible plaza, open to the sky, may be provided at the intersection of Eighth Avenue and West 31st Street. Such plaza shall have a minimum area of 12,000 square feet with a minimum frontage of 60 feet along West 31st Street, and be provided in accordance with the standards for #public plazas# set forth in Section 37-70, inclusive.

(d) Corner circulation space

Corner circulation spaces shall be provided at the corners of Eighth Avenue and West 31st Street and Eighth Avenue and West

33rd Street. Such spaces shall comply with the requirements for corner circulation spaces of paragraph (d) of Section 37-53. Such spaces shall count towards meeting the pedestrian circulation space requirements of Section 93-63. However, no corner circulation space shall be required at the corner of Eighth Avenue and West 31st Street if a plaza is provided at such corner in accordance with paragraph (c) of this Section.

(4/29/14)

93-75

Publicly Accessible Open Spaces in Subdistrict F

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

Publicly accessible open spaces are listed in this Section, inclusive. Such publicly accessible open spaces shall be comprised of the Western Open Space, the Central Open Space, the Southwest Open Space, the Northeast Plaza, the Midblock Connection, and the #High Line# as described within this Section, inclusive. Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B identifies the location of publicly accessible open spaces.

General requirements for each publicly accessible open space are set forth within this Section. Design requirements for each publicly accessible open space are set forth in Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F). The phasing and approval process for each publicly accessible open space is set forth in Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

All publicly accessible open spaces listed in this Section shall be accessible to the public from the hours of 6:00 am to 1:00 am with the exception of the #High Line# and the Northeast Plaza. The Northeast Plaza shall provide hours of access pursuant to Section 37-727.

(4/29/14)

93-751

General requirements for the Western Open Space

A publicly accessible open space, (henceforth referred to as the "Western Open Space"), shall be provided in Subdistrict F. Such a space shall be open to the sky, except that amenities that are provided in accordance with this Section and Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F) shall be permitted to cover a portion of the Western Open Space.

(a) General purpose

The Western Open Space is intended to serve the following purposes:

- (1) to provide a major open space that joins the northern portion of the #High Line# open space network on its west to the open space networks leading to the Hudson Park and Boulevard on its east;
- (2) to provide a large open lawn area overlooking the Hudson River for public use and enjoyment; and
- (3) to provide transition areas that offer shade, supplemental space between the open lawn and surrounding #buildings#, and connections between surrounding publicly accessible open spaces.

(b) Location and minimum dimensions

The Western Open Space shall be located east of the #High Line#, and encompass the area between Sites 1 and 5 as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B. The Western Open Space shall have a minimum easterly boundary of 225 feet, as measured from the easterly #street line# of Twelfth Avenue.

(c) Core elements

The Western Open Space shall provide the following core elements:

(1) Lawn area

An accessible lawn area shall be provided with a minimum area of one acre. Any lawn area located within 40 feet of a #building# wall on Sites 1 or 5 shall not contribute towards this one acre requirement. The required lawn area shall be comprised of the following amenities:

- (i) a continuous lawn area shall be provided over a minimum of 75 percent of the required one acre. Such area shall have a maximum slope of three degrees and unobstructed visual access toward the Hudson River; and
- (ii) a transitional lawn area may be provided for a maximum of 25 percent of the required one acre of lawn area. Such area need not be continuous, and shall have a maximum slope of 15 degrees. Trees and other plantings shall be permitted in such area.

(2) #High Line# connection

Access to the #High Line# shall be provided along a minimum of 75 feet and a maximum of 150 feet of #High Line# frontage length. Such frontage need not be continuous, however, in order to qualify as unobstructed access that contributes to the minimum 75 foot requirement set forth in this paragraph, (c)(2), a minimum frontage width of five feet is required. Such access need not be opened to the public until the #High Line# is reconstructed as public open space in accordance with the provisions of Section 93-756 (General requirements for the High Line).

(3) Supplemental area

Any space provided in the Western Open Space which does not meet the criteria for lawn area set forth in paragraph (c)(1) of this Section or the criteria for the #High Line# connection set forth in paragraph (c)(2) shall be designated as supplemental area and shall comply with the requirements set forth in this paragraph, (c)(3).

A minimum of 50 percent of the supplemental area shall be landscaped with soft ground cover, and the remaining 50 percent may be paved. At least one tree shall be provided for every 2,000 square feet of supplemental area. Such trees may be distributed anywhere within the supplemental area.

A minimum of two unimpeded paved pedestrian accesses, each with a minimum width of 12 feet, shall be provided in the supplemental area. One such pedestrian access shall link the West 32nd Street Extension's Allee, as defined in paragraph (c)(2) of Section 93-761 and shown on Map 3 in Appendix B, to the #High Line#, and the second such

pedestrian access shall link the West 31st Street Extension to the #High Line#.

A minimum of one linear foot of seating shall be provided for every 75 square feet of supplemental area. At least 50 percent of such required seating shall provide seatbacks. Such seating may be distributed anywhere within the supplemental area.

Permanent structures such as food or information kiosks, pavilions or public restrooms may be placed within the supplemental area, provided the height of such structures does not exceed 20 feet. The maximum #lot coverage# that all such permanent structures may occupy shall be 400 square feet, and such structures shall be exempt from the definition of #floor area#.

(d) Transparency

For portions of #buildings# on Site 1 and Site 5 fronting upon the Western Open Space, a minimum of 50 percent of the surface area of the ground floor #street wall# fronting upon the open space shall be treated with clear, untinted transparent material.

(e) Permitted encroachments from private streets and pedestrian ways

The Connector and the terminus of the West 32nd Street Extension shall be permitted to encroach upon the supplemental area of the Western Open Space, provided that the site and landscape plans incorporating the private street or pedestrian way are approved in conjunction with the Western Open Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

(4/29/14)

93-752

General requirements for the Central Open Space

A publicly accessible open space, (henceforth referred to as the "Central Open Space"), shall be provided in Subdistrict F. Such a space shall be open to the sky, except that portions of a #building# on Site 3 and amenities that are provided in accordance with Sections

93-75 and 93-77 (Design Criteria for Public Access Areas in Subdistrict F) shall be permitted to cover a portion of the Central Open Space.

(a) General purpose

The Central Open Space is intended to serve the following purposes:

- (1) to serve as a neighborhood open space;
- (2) to provide amenities for area residents, workers, and the general public; and
- (3) to provide areas that offer varied programs, supplemental spaces between amenities and surrounding #buildings# and connections between surrounding publicly accessible open spaces.

(b) Location and dimensions

The Central Open Space shall be located within the area bounded by the West 32nd Street Extension, the West 31st Street Extension, the Connector and Eleventh Avenue, and shall also be comprised of any portion of Sites 3 and 4 that are not covered by #buildings# at the ground level as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

The Central Open Space shall have a minimum dimension in the north-south direction as measured from the southerly #street line# of the West 32nd Street Extension to the northerly #street line# of the West 31st Street Extension of 175 feet. In addition, the minimum dimension of the Central Open Space in the north-south direction between the northern boundary of Site 3 and the southerly #street line# of the West 32nd Street Extension shall be 55 feet.

The Central Open Space shall have a minimum dimension in the east-west direction as measured from the easterly #street line# of the Connector to the westerly #street line# of Eleventh Avenue of 545 feet. In addition, the minimum dimension of the open space in the east-west direction between the eastern boundary of Site 3 and the western boundary of Site 4 shall be 265 feet.

Within 350 feet of the Eleventh Avenue #street line#, the maximum height of the finished grade of the Central Open Space

shall be 45 feet above the Manhattan Datum, which is 2.75 feet above sea level. Beyond 350 feet of Eleventh Avenue, the maximum height of the finished grade shall be 47 feet above the Manhattan Datum.

(c) Core elements

The Central Open Space shall provide the following core elements:

(1) Lawn area

An accessible lawn area shall be provided with a minimum aggregate area of 10,000 square feet and a maximum slope of three degrees. Such area need not be continuous. Any lawn area located within 12 feet of a #building# wall on Sites 3 or 4 shall not contribute towards such minimum gross area.

(2) Playground

A playground shall be provided with a minimum area of 10,000 square feet.

(3) Supplemental area

Any space in the Central Open Space other than the required lawn area set forth in paragraph (c)(1) of this Section or the required playground space set forth in paragraph (c)(2) of this Section, shall be designated as supplemental area and shall comply with the requirements set forth in this Section.

A minimum of 50 percent of the supplemental area shall be landscaped with soft ground cover, and the remaining 50 percent may be paved. At least one tree shall be provided for every 1,500 square feet of the supplemental area. Such trees may be distributed anywhere within the supplemental area.

A minimum of two unimpeded paved pedestrian accesses, each with a minimum width of 12 feet, shall be provided in the supplemental area. Such pedestrian access shall link the West 31st and West 32nd Street Extensions and be no closer than 150 feet to one another at any point.

A minimum of one linear foot of seating shall be provided for every 75 square feet of supplemental area. At least 50

percent of such required seating shall provide seatbacks. Such seating may be distributed anywhere within the supplemental area.

Within 15 feet of a required sidewalk or pedestrian access, the slope of the supplemental area shall not exceed 7.5 degrees, or a maximum height of two feet. Beyond 15 feet of a required sidewalk or pedestrian access, the slope of the supplemental area shall not exceed 15 degrees.

(d) Permanent structures

Permanent structures, such as food or information kiosks, pavilions or public restrooms may be placed within the Central Open Space, provided the height of such structures does not exceed 20 feet. The maximum #lot coverage# that all such permanent structures may occupy shall be 400 square feet and such structures shall be exempt from the definition of #floor area#.

(e) Transparency

For portions of #buildings# in Site 4 fronting upon the Central Open Space, a minimum of 50 percent of the surface area of the ground floor #street wall# fronting upon the open space shall be treated with clear, untinted transparent material.

(f) Permitted encroachments from private streets and pedestrian ways

The Connector and the terminus of the West 31st Street Extension shall be permitted to encroach upon the supplemental area of the Central Open Space, provided that the site and landscape plans incorporating the private street or pedestrian way are approved in conjunction with the Central Open Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

(4/29/14)

93-753

General requirements for the Southwest Open Space

A publicly accessible open space, (henceforth referred to as the "Southwest Open Space"), shall be provided in Subdistrict F. Such accessible open space shall be open to the sky, except that portions

of a #building or other structure# on Site 5, the #High Line# and amenities that are provided in accordance with Sections 93-75 and 93-77 (Design Criteria for Public Access Areas in Subdistrict F) shall be permitted to cover a portion of the Southwest Open Space.

(a) General purpose

The Southwest Open Space is intended to serve the following purposes:

- (1) to serve as an inviting pedestrian gateway to the Western Rail Yard from open space networks along the Hudson River;
- (2) to provide pedestrian amenities and connections between surrounding public spaces both on and adjacent to the Western Rail Yard; and
- (3) to offer a unique open space experience for pedestrians through the negotiation of the area's grade changes.

(b) Location and minimum dimensions

The Southwest Open Space shall be located within the area bounded by Twelfth Avenue, the Western Open Space, the West 31st Street Extension, Site 6 and West 30th Street, and shall also be comprised of any portion of Site 5 which is not covered by a #building or other structure# at the ground level as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

The Southwest Open Space shall have a minimum dimension in the east-west direction as measured from the easterly #street line# of Twelfth Avenue to the western boundary of Site 6 of 400 feet. However, if the length of Site 6 is extended to accommodate a public #school# in accordance with the provisions of paragraph (b) of Section 93-568 (Site 6), the minimum dimension of the Southwest Open Space shall be 360 feet.

The Southwest Open Space shall have a minimum dimension in the north-south direction as measured from the northerly #street line# of West 30th Street to the southern boundary of the Western Open Space of 180 feet and a maximum dimension of 200 feet.

(c) Core elements

The Southwest Open Space shall have the following core elements. For the purpose of determining the amount of an amenity to

provide in relation to the area of the Southwest Open Space, the area of the Southwest Open Space shall exclude the area occupied by a #building or other structure# on Site 5 and the #High Line#.

A minimum of 50 percent of the area of the Southwest Open Space shall be landscaped with soft ground cover, and the remaining 50 percent of the Southwest Open Space may be paved. At least one tree shall be provided for every 1,500 square feet of Southwest Open Space.

An unimpeded paved pedestrian access with a minimum width of 12 feet shall link either Twelfth Avenue or West 30th Street and the West 31st Street Extension. If such pedestrian access contains 'switchbacks,' comprised of a series of ascending pedestrian ways, the minimum distance between midpoints of each way, as measured, in plan, from the northerly edge of one way to the southerly edge of the next ascending way shall be 15 feet.

A second unimpeded paved pedestrian access with a minimum width of 12 feet shall link either Twelfth Avenue or West 30th Street and the #High Line bed# or with an elevator located adjacent to the #High Line# that provides public access to the #High Line bed#. Such access need not be opened to the public until the #High Line# is reconstructed as public open space in accordance with the provisions of Section 93-756.

A minimum of one linear foot of seating shall be provided for every 75 square feet of soft ground cover provided within the Southwest Open Space. At least 50 percent of such required seating shall provide seatbacks.

Permanent structures, such as food or information kiosks, pavilions or public restrooms shall be permitted within the Southwest Open Space, provided the height of such structures does not exceed 20 feet. The maximum area #lot coverage# that all such permanent structures may occupy shall be 1,000 square feet, provided that such structures are located entirely west of the #High Line#. Such permanent structures shall be exempt from the definition of #floor area#.

(d) Permitted encroachments from private streets

The terminus of the West 31st Street Extension shall be permitted to encroach upon the Southwest Open Space, provided that the site and landscape plans for the West 31st Street Extension are approved in conjunction with the Southwest Open

Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

(4/29/14)

93-754

General requirements for the Northeast Plaza

A publicly accessible open space, (henceforth referred to as the "Northeast Plaza"), shall be provided at the intersection of West 33rd Street and Eleventh Avenue, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B. The area of such space shall be at least 2,600 square feet, and shall have a minimum #street# frontage of 40 feet along each #street#. The Northeast Plaza shall be provided in accordance with the standards for #public plazas#, as set forth in Section 37-70 (PUBLIC PLAZAS), exclusive of the area dimensions set forth in Section 37-712.

(4/29/14)

93-755

General requirements for the Midblock Connection

A pedestrian way, (henceforth referred to as the "Midblock Connection"), shall be provided between West 33rd Street and the West 32nd Street Extension, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

(a) General purpose

The Midblock Connection is intended to serve the following purposes:

- (1) to provide pedestrian access between West 33rd Street and the Western Rail Yard Subdistrict F; and
- (2) to provide amenities similar to a through block public plaza.

(b) Location and dimensions

The entirety of the Midblock Connection shall be located between 335 feet and 455 feet west of the westerly Eleventh Avenue #street line#.

The minimum width of the Midblock Connection, measured in the east-west direction, shall be 60 feet.

(c) Core elements

The Midblock Connection shall provide the following core elements:

- (1) A minimum of one unimpeded pedestrian access, with a minimum width of 12 feet, shall be provided to connect the West 32nd Street Extension with West 33rd Street;
- (2) A minimum of one linear foot of seating shall be provided for every 75 square feet of the Midblock Connection. A minimum of 50 percent of the required seating shall provide seatbacks; and
- (3) A minimum of 20 percent of the gross area of the Midblock Connection shall be landscaped with soft ground cover, and shall provide a minimum of one tree per every 1,500 square feet.

(2/2/11)

93-756

General requirements for the High Line

For the portion of the #High Line# that is located within the boundary of Subdistrict F, the following provisions shall apply.

(a) General purpose

The #High Line# is intended to serve the following purposes:

- (1) to serve as a continuation of the #High Line# public open space to the east and to the south of West 30th Street;
- (2) to offer a pedestrian and passive open space experience similar to the #High Line# open space south of West 30th Street, through planting, materials and amenities, while

taking into account the nature and character of the Western Rail Yard Subdistrict F; and

- (3) to allow for connections to other public areas on the Western Rail Yard Subdistrict F.

(b) Permitted #uses#

Any permitted change of #use# for the #High Line# shall be made pursuant to the provisions of Section 93-10 (USE REGULATIONS).

(c) Core elements

The #High Line# open space shall provide amenities including, but not limited to, planting, seating and lighting designed so as to complement and be integrated with portions of the #High Line# south of West 30th Street in a manner that provides both visual and pedestrian continuity along the #High Line# open space network. The #High Line# open space shall not be subject to the design criteria for public access areas in Subdistrict F set forth in Section 93-77.

The site and landscape plans for the #High Line# approved pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F) shall make provision for access points to and from the High Line Open Space, including the public access provided in the Southwest Open Space pursuant to Section 93-753 (General requirements for the Southwest Open Space) and, subject to agreement, shall include support facilities necessary for the operation, maintenance and public enjoyment of the #High Line# open space located in Subdistrict F, or at other locations north of West 30th Street.

(d) Certification to modify requirements adjacent to the #High Line#

The Chairperson of the City Planning Commission may modify certain regulations on adjacent development sites 1 through 6, provided that the Chairperson certifies to the Commissioner of Buildings that such a change is necessary in order to provide access to the #High Line# open space or to accommodate facilities for the #High Line# open space, and that such change is compatible with the character of developed portions of the #High Line# south of West 30th Street.

The following regulations may be modified:

- (1) The ground floor level requirements set forth in Section 93-14 (Ground Floor Level Requirements), where applicable;
- (2) The unobstructed five foot separation between the #High Line# and a #street wall# on Sites 1, 5 and 6 required pursuant to paragraph (a) of Section 93-561 (General rules for Subdistrict F) in order to accommodate a pedestrian access way, open to the sky, between the #High Line# and such development sites. However, the required five foot #street wall# separation from the edge of the #High Line# shall not be modified;
- (3) The #street wall# requirements for Site 6 set forth in Section 93-562 (Street wall regulations for certain streets), only as necessary to accommodate pedestrian access onto the #High Line#;
- (4) The general requirements for the Western Open Space and the Southwest Open Space set forth in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F); and
- (5) The general requirements for the 30th Street Corridor set forth in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F).

Any application for such change shall be included in the application for the site and landscape plans submitted pursuant to the provisions of Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F) for the #High Line# open space.

(4/29/14)

93-76

Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

Publicly accessible private streets and pedestrian ways shall be provided in Subdistrict F in addition to the publicly accessible open spaces required in Section 93-75. Such private streets and pedestrian ways shall be comprised of the West 31st and West 32nd Street Extensions, the West 30th Street Corridor and the Connector. Map 3

(Subdistrict F: Public Access Area Plan) in Appendix B of this Chapter identifies the location of these publicly accessible private streets and pedestrian ways.

General requirements for each publicly accessible private street and pedestrian way are set forth within this Section. Design requirements for each publicly accessible private street and pedestrian way are set forth in Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F). The phasing and approval process for each publicly accessible private street and pedestrian way are set forth in Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

Publicly accessible private streets and pedestrian ways listed in this Section shall be accessible to the public at all times.

(4/29/14)

93-761

General requirements for the West 32nd Street Extension

A private street, (henceforth referred to as the "West 32nd Street Extension"), shall be provided south of and parallel to West 33rd Street.

(a) General purpose

The West 32nd Street Extension is intended to serve the following purposes:

- (1) to serve as the primary publicly accessible pedestrian and vehicular connection to the Western Rail Yard from Eleventh Avenue;
- (2) to provide an experience substantially similar to active public #streets# in other high-density, mixed use districts;
- (3) to provide a unique urban park-like experience for an active public #street# by connecting the Western Open Space and the Eastern Rail Yard plaza with a pedestrian Allee, as defined in paragraph (c)(2) of this Section and shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B; and

- (4) to provide a private street with core elements that are substantially similar to the surrounding public #streets#.

(b) Location and dimensions

The West 32nd Street Extension shall have its northerly edge located a minimum of 180 feet and a maximum of 200 feet south of the West 33rd Street #street line#, as shown on Map 3 in Appendix B, except that a terminus to the West 32nd Street Extension, located west of the Connector shall be permitted to expand beyond the maximum dimensions, provided that such terminus extends to provide a #building# entrance drive along Site 1, and complies with the provisions set forth in paragraph (e) of Section 93-751 (General requirements for the Western Open Space).

(c) Core elements

The West 32nd Street Extension shall provide the following core elements:

(1) Streets and sidewalk requirements

The West 32nd Street Extension shall be a private street constructed to minimum Department of Transportation and Fire Department standards for public #streets#.

Such private street shall consist of:

- (i) a road bed, paved with asphalt, with a minimum width pursuant to the requirements set forth by the Fire Department;
 - (ii) a 20 foot minimum sidewalk along its entire northern curb; and
 - (iii) a 25 foot minimum sidewalk along its entire southern curb.
- (2) Planting and seating requirements for the southern sidewalk and the Allee

Two trees shall be planted for every 20 feet of southern curb length of the West 32nd Street Extension between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted

at approximately equal intervals along the entire curb length of the West 32nd Street Extension.

Along the southern sidewalk, trees shall be planted within five feet of the curb and the southern edge of the sidewalk. One row of trees shall be planted within five feet of the curb and a second row of trees shall be planted within five feet of the southern edge of the sidewalk. This double row of tree planting along the southern sidewalk of the West 32nd Street Extension between Eleventh Avenue and the Connector shall henceforth be referred to as the Allee, as shown on Map 3 in Appendix B. No building or other structure shall be permitted within 15 feet of the southern edge of the Allee.

The Allee shall provide a minimum of one linear foot of seating for every 75 square feet of the Allee. A minimum of 50 percent of the required seating shall provide seatbacks.

(3) Planting requirements for the northern sidewalk

One tree shall be planted for every 25 feet of curb length of the West 32nd Street Extension along its northern curb between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire curb length of the West 32nd Street Extension between Eleventh Avenue and the Connector. Along the northern sidewalk, trees shall be planted within five feet of the curb.

(4) Curb cuts

No curb cuts shall be permitted along the West 32nd Street Extension, except for access to the Connector if required by the Fire Department.

(4/29/14)

93-762

General requirements for the West 31st Street Extension

A private street, (henceforth referred to as the "West 31st Street Extension"), shall be provided north of and parallel to West 30th Street.

(a) General purpose

The West 31st Street Extension is intended to serve the following purposes:

- (1) to serve as a publicly accessible pedestrian and vehicular connection to the Western Rail Yard from Eleventh Avenue;
- (2) to provide an experience substantially similar to active public #streets# in other high-density, mixed use districts; and
- (3) to provide a private street with core elements that are substantially similar to the surrounding public #streets#.

(b) Location and dimensions

The West 31st Street Extension shall have its southerly edge located a minimum of 180 feet and a maximum of 200 feet north of the West 30th Street #street line#, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B, except that a terminus to the West 31st Street Extension, located west of the Connector, shall be permitted to expand beyond the maximum dimensions, provided that such terminus extends to provide a #building# entrance drive along Site 5, and complies with the provisions set forth in paragraph (d) of Section 93-753 (General requirements for the Southwest Open Space), and/or paragraph (f) of Section 93-752 (General requirements for the Central Open Space), as applicable.

(c) Core Elements

The West 31st Street Extension shall provide the following core elements:

(1) Street and sidewalk requirements

The West 31st Street Extension shall be a private street constructed to minimum Department of Transportation and Fire Department standards for public #streets#.

Such private street shall consist of:

- (i) a road bed, paved with asphalt, with a minimum width pursuant to requirements set forth by the Fire Department;
 - (ii) a 15 foot minimum sidewalk along its entire northern curb; and
 - (iii) a 20 foot minimum sidewalk along its entire southern curb.
- (2) Planting requirements for sidewalks

One tree shall be planted for every 25 feet of curb length of the West 31st Street Extension between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire length of the curb of the private street between Eleventh Avenue and the Connector.
- (3) Curb cuts

One curb cut shall be permitted along each side of the West 31st Street Extension. The maximum width of such curb cut shall be 30 feet. A third curb cut accessing the Connector shall be permitted if required by the Fire Department.

(4/29/14)

93-763

General requirements for the West 30th Street Corridor

A pedestrian way (henceforth referred to as the "West 30th Street Corridor"), shall be provided along the northerly sidewalk of West 30th Street adjacent to the area below the #High Line#.

(a) General purpose

The West 30th Street Corridor is intended to serve the following purposes:

- (1) to serve as a transition space between the #High Line# and the West 30th Street sidewalk;

- (2) to allow for active frontages with publicly accessible spaces for establishments below the #High Line#; and
- (3) to provide an overall streetscape design that compliments and provides views of the #High Line# along West 30th Street.

(b) Location and dimensions

The West 30th Street Corridor shall be located in the area bounded by the #High Line#, Eleventh Avenue, West 30th Street and the eastern edge of the Southwest Open Space, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

In the north-south direction, the West 30th Street Corridor shall extend from the #street wall# of #buildings# beneath the #High Line# facing West 30th Street (which shall coincide with the northerly edge of the southern row of structural columns of the #High Line#) to the northerly #street line# of West 30th Street.

(c) Core elements

The West 30th Street Corridor shall have the following provisions for its core elements:

- (1) a pedestrian access area at least 10 feet in width shall be provided along the entire length of the West 30th Street Corridor, linking Eleventh Avenue with the sidewalk adjacent to the Southwest Open Space. Such area shall be located a minimum of five feet beyond the northerly curb line of West 30th Street, and shall be free of obstructions;
- (2) portions between the required pedestrian access area and the #High Line# may be paved or landscaped; and
- (3) street trees shall be planted within five feet of the northern curb of West 30th Street. One tree shall be planted for every 25 feet of curb length. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire curb length of West 30th Street.

(4/29/14)

93-764

General requirements for the Connector

A publicly accessible connection (henceforth referred to as the "Connector"), shall be provided between the West 32nd Street Extension and the West 31st Street Extension.

(a) General purpose

The Connector is intended to serve the following purposes:

- (1) to serve as a connection between the West 32nd Street Extension and the West 31st Street Extension;
- (2) to provide a space that compliments the surrounding publicly accessible open spaces; and
- (3) to provide an emergency egress connector pursuant to Fire Department standards.

(b) Location and dimensions

The western #street line# of the Connector shall be located a minimum of 225 feet east of the easterly #street line# of Twelfth Avenue, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

(c) Core elements

The Connector shall provide the following core elements:

- (1) the Connector shall be constructed to minimum Fire Department standards for an emergency egress connection between the West 32nd Street Extension and the West 31st Street Extension, including, but not limited to, the width and materials of paved area, and permitted obstructions within such area; and
- (2) the Connector shall not be located within 15 feet of a #building#.

(4/30/12)

93-77

Design Criteria for Public Access Areas in Subdistrict F

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

(a) Design criteria

Where private streets, pedestrian ways and publicly accessible open spaces, with the exception of the #High Line#, provide elements listed in this Section, such elements shall comply with the applicable minimum design standards, set forth in paragraph (a) of this Section, as a minimum design standard.

(1) Seating

Seating shall meet the minimum and maximum dimensional standards set forth in paragraphs (1) through (7) of Section 37-741, inclusive.

(2) Planting and trees

Where planting areas are provided, they shall meet the planting bed requirements and irrigation requirements of Section 37-742 (Planting and trees).

Where trees are provided, they shall meet the applicable minimum tree caliper standards, soil requirements and irrigation standards set forth in Section 37-742, except that within the Western Open Space, the Central Open Space and the Southwest Open Space, the soil requirements for tree planting shall not apply. In lieu thereof, all trees in the Central and Western Open Spaces shall be planted in areas with soil depth of at least five feet. In the Southwest Open Space, all trees shall be planted in continuous planted areas that have a minimum depth of five feet and a minimum area of 500 square feet of soil.

(3) Paving

Paving, exclusive of the required asphalt paving of the West 31st and West 32nd Street Extension roadbeds, shall meet the minimum standards set forth in Section 37-718.

(4) Steps

Steps shall meet the minimum dimensional standards set forth in Section 37-725.

(5) Kiosks and open air cafes

Kiosks or open air cafes shall meet the operational and service requirements listed in paragraphs (a) and (b) of Section 37-73 (Kiosks and Open Air Cafes). Seating provided as part of an open air cafe shall not count towards meeting the seating requirements of a public access area listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

(6) Standards of accessibility for persons with disabilities

All publicly accessible open spaces, private streets and pedestrian ways shall be designed pursuant to the standards of accessibility for persons with disabilities set forth in Section 37-728.

(7) Lighting and electrical power

All publicly accessible open spaces, private streets and pedestrian ways shall provide lighting and electrical power pursuant to the standards set forth in Section 37-743.

(8) Litter receptacles

All publicly accessible open spaces, private streets and pedestrian ways shall provide litter receptacles pursuant to the standards set forth in Section 37-744.

(9) Bicycle parking

Bicycle racks sufficient to accommodate at least 25 bicycle parking spaces shall be provided in the Southwest Open Space, bicycle racks sufficient to accommodate at least 30 bicycle parking spaces shall be provided in the Central Open Space and bicycle racks sufficient to accommodate at least 33 bicycle parking spaces shall be provided in the Western Open Space. Such racks shall be located adjacent to a paved circulation path within the open space or in public sidewalks adjacent to the open space.

(10) Playgrounds and additional amenities

Where playgrounds and additional amenities are provided in publicly accessible open spaces, such amenities shall be designed pursuant to the standards set forth in Section 37-748.

(11) Signs

All open spaces within the publicly accessible open spaces shall provide open space signage pursuant to the standards set forth in Section 37-751.

(12) Canopies, awnings, marquees and sun control devices

Where #buildings# front onto publicly accessible open spaces, private streets and pedestrian ways, canopies, awnings, marquees and sun control devices shall be permitted pursuant to the standards set forth in paragraph (c) of Section 37-726 (Permitted obstructions).

(13) Gates and fences

Gates, fences or other barriers shall be permitted at the perimeter of any playgrounds, tot lots or dog runs provided as part of a publicly accessible open space or pedestrian way. Additional gates, fences or other barriers shall be permitted in the Midblock Connection, the Southwest Open Space and the #High Line# only as approved as part of the site and landscape plans submitted pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

Such gates, fences or other barriers shall have a maximum height of 48 inches, as measured from the adjoining grade level, and shall be at least 70 percent open. However, where gates, fences or other barriers are mounted on a solid curb, such minimum transparency shall not include the surface area of the curb, provided that the height of such curb does not exceed six inches.

Chain link fencing or barbed or razor wire shall not be permitted.

(14) Public restrooms

At least one public restroom shall be provided to serve either the Central Open Space or the Western Open Space, whichever is developed first pursuant to the provisions of

Section 93-78. Such public restroom shall provide separate restroom spaces for each gender, and may be located in either the publicly accessible open space or within the ground floor of any adjacent #building#.

(b) Maintenance

The owner of each of Sites 1 through 6 in Subdistrict F shall be responsible for the maintenance of all publicly accessible open spaces, private streets and pedestrian ways, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation within the portion of the Subdistrict associated with such site in the phased development provided in the site and landscape plans required pursuant to Section 93-78. Notwithstanding the foregoing, maintenance of the #High Line# shall be governed by such agreements as are entered into with respect thereto.

(c) Interim #use#

Open #uses# listed in Use Group 4B, with the exception of cemeteries and golf courses, shall be permitted as interim #uses# within the designated boundary of any public access area described in Sections 93-75 or 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F) with the exception of the #High Line# open space, or within the designated boundary of any development site described in Section 93-56 (Special Height and Setback Regulations for Subdistrict F). Such interim #uses# may be #developed# prior to the approval of the site and landscape plans for the public access area in which it is located, and may continue until such time as development commences on such public access area pursuant to the approved site and landscape plans. Any such interim #uses# shall be open to and usable by the public, and may include temporary structures, provided that all associated #floor area# is appurtenant to the interim #use#.

(4/29/14)

93-78

Site and Landscape Plans for Public Access Areas in Subdistrict F

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

All publicly accessible open spaces, or portions thereof, listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F), and private streets and pedestrian ways, or portions thereof, listed in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F), shall comply with the following provisions:

- (a) No building permit shall be issued for any #development# or #enlargement# within Subdistrict F unless the Chairperson of the City Planning Commission has certified to the Commissioner of Buildings that the site and landscape plans for the Subdistrict F public access area have been approved by the Chairperson pursuant to the provisions of this Section. Notwithstanding the foregoing, the Chairperson shall allow for the phased development of public access areas, or portions thereof, upon certification to the Commissioner of Buildings that site and landscape plans have been submitted that provide for the completion of public access areas in association with the #development# or #enlargement# of a #building# or #buildings# within each phase.
- (b) An application under this Section shall be filed with the Chairperson of the City Planning Commission and such application shall include:
 - (1) a site plan indicating the area and dimensions of the public access area, or portions thereof, and the location of all proposed #buildings# in the phase subject to the application;
 - (2) a landscape plan, prepared by a registered landscape architect, for the public access area, or portions thereof, in the phase subject to the application; and
 - (3) a report to the Chairperson demonstrating:
 - (i) that the site and landscape plans have been presented by the applicant to the affected Community Board, City Council Member and Borough President and the Community Board, City Council Member and Borough President have had at least 60 days to review; and
 - (ii) that any comments and recommendations of the affected Community Board, City Council Member and Borough President have been considered by the applicant, as set forth in a written response to such comments or recommendations. Where design modifications have been

made in response to such recommendations, the report shall identify how the design has been modified.

- (c) The Chairperson of the City Planning Commission shall approve the site and landscape plans within 45 days following filing, provided that the following provisions are met:
- (1) the site and landscape plans provide for the improvement of the public access area, or portions thereof, which, taking into account relevant considerations relating to platform construction and engineering, are:
 - (i) of sufficient size to provide a valuable public amenity and promote site access for the benefit of residents and workers in the #buildings# in the phase to which they relate, as well as for the general public; and
 - (ii) appropriately sited and located in suitable proximity to the #building# locations in the phase to which they relate.
 - (2) the site and landscape plans are consistent with the general purposes and contain the core elements listed in Sections 93-75 and 93-76, inclusive;
 - (3) all elements in the site and landscape plans comply with the design criteria as set forth in Section 93-77 (Design Criteria for Open Spaces in Subdistrict F), or, in the case of the #High Line#, that the elements in the landscape plan comply with the criteria set forth in paragraph (c) of Section 93-756 (General requirements for the #High Line#);
 - (4) the site and landscape plans are consistent and appropriate in relation to any previously approved landscape plan for other phases and in relation to conceptual plans for future phases, as applicable;
 - (5) the level of public amenity provided in the landscape plan is equal to or better than the level of public amenity required in #public plazas# that are provided in accordance with the standards of Section 37-70 or, in the case of the #High Line#, than the level of public amenity provided on developed portions of the #High Line# south of West 30th Street. All public amenities that are provided in the landscape plan shall take into account the nature and character of the Subdistrict F public access areas; and

- (6) a maintenance plan, including any necessary maintenance facilities for the public access area, or portions thereof, in the phase, has been established that will ensure compliance with the provisions of paragraph (b) of Section 93-77.

Approved site and landscape plans shall be set forth in an instrument in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification to the Department of Buildings under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

- (d) No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# within a phase until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, is substantially complete and in accordance with the site and landscape plans, and that such public access area, or portions thereof, are open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# until the Chairperson certifies to the Department of Buildings that the public access areas, or portions thereof, are fully complete, and that all requirements of this Section have been met in accordance with the site and landscape plans for the public access area, or portions thereof associated with such phase. Notwithstanding the foregoing, in the event that a temporary public access area plan is approved pursuant to Section 93-782 (Certification to temporarily modify public access areas for construction staging), no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# within the phase until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, is substantially complete and in accordance with such temporary public access area plan, and the public access area, or portions thereof, are open and useable by the public. No permanent certificate of occupancy from the Department of

Buildings may be issued for any portion of such #development# or #enlargement# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with the phase previously improved pursuant to the temporary public access area plan, has been fully completed in accordance with the site and landscape plans therefor, and that the public access area, or portions thereof, are open to and useable by the public.

- (e) Where a phase of development results in all development sites in Subdistrict F, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, having been #developed# in whole or in part pursuant to the provisions of Section 93-56 (Special Height and Setback Regulations in Subdistrict F), the Department of Buildings shall not issue a certificate of occupancy for the last #building# of such phase unless and until the Chairperson certifies to the Commissioner of Buildings that all public access areas within Subdistrict F are substantially complete, and are open to and useable by the public. However, in the event that the site and landscape plans for the #High Line# open space have not been approved, pursuant to paragraph (c) of this Section, at the time such last #building# is eligible for a certificate of occupancy, the Department of Buildings shall issue such certificate of occupancy upon certification of the Chairperson that all public access areas other than the #High Line# open space are substantially complete.

(12/21/09)

93-781

Certification to modify general requirements of public access areas for ventilation demands

The Chairperson of the City Planning Commission may modify the general requirements of the publicly accessible open spaces listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F), and private streets and pedestrian ways listed in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is necessary to accommodate unforeseen ventilation demands within the Western Rail Yard. In addition to the site and landscape plans required pursuant to Section 93-78, a mechanical plan shall be provided demonstrating the need to modify such general requirements.

(2/2/11)

93-782

Certification to temporarily modify public access areas for construction staging

In the event that the applicant demonstrates to the satisfaction of the Chairperson of the City Planning Commission that a public access area will be required for construction staging or similar activities in a future phase of #development# or #enlargement#, the application for the site and landscape plans may be accompanied by a request for approval of a temporary public access area plan for the public access area which may include fewer than all core elements required as part of a phase of #development# or #enlargement# of such public access area pursuant to paragraph (c)(2) of Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F), as necessary to accommodate such future construction staging or similar activities. Such temporary public access area plan shall be subject to review and approval in the same manner as the site and landscape plans, pursuant to Section 93-78 and, if approved pursuant thereto, shall be implemented and remain in effect only for the period necessary to accommodate the need for use of the public access area for construction staging or similar activities in a future phase of development. Following the expiration of such period, the site and landscape plans, including all core elements for such public access area, shall be implemented.

(5/8/13)

93-80

OFF-STREET PARKING REGULATIONS

In Subdistricts A, B, C, D and E, the regulations governing permitted #accessory# off-street parking spaces of Article I, Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core), and Article II, Chapter 5; Article III, Chapter 6; and Article IV, Chapter 4 (Accessory Off-Street Parking and Loading Regulations) shall not apply, except as set forth in this Section. In lieu thereof, the provisions of this Section, inclusive, shall apply.

In Subdistrict F, the regulations of Article I, Chapter 3, shall apply.

(4/14/10)

93-81

Definitions

Hudson Yards parking regulations applicability area

The "Hudson Yards parking regulations applicability area" is comprised of Subdistricts A, B, C, D and E of the #Special Hudson Yards District#, the 42nd Street Perimeter Area of the #Special Clinton District# and Area P2 of the #Special Garment Center District#.

Hudson Yards development parking supply

The "Hudson Yards development parking supply" shall be the aggregate number of off-street parking spaces in #accessory# individual or #group parking facilities#, #public parking lots# and #public parking garages# in the #Hudson Yards parking regulations applicability area#:

- (a) that have been constructed, pursuant to the as-of-right regulations in effect subsequent to January 19, 2005, and before April 14, 2010, to the extent that such spaces satisfy the ratios of Section 93-821;
- (b) that have been constructed, pursuant to a City Planning Commission special permit approved subsequent to January 19, 2005, and before April 14, 2010;
- (c) for which the Chairperson has issued a certification, pursuant to Section 93-821, paragraph (e); and
- (d) that have been approved by Board of Standards and Appeals variance, pursuant to Section 72-21 , to the extent that such spaces satisfy the ratios of Section 93-821.

However, all off-street parking on Site 1, as shown on the map of the Special 42nd Street Perimeter Area in Appendix A of the #Special Clinton District# (Article IX, Chapter 6), shall be counted towards the #Hudson Yards development parking supply#.

For purposes of this definition, "constructed" shall include any off-street parking spaces in #accessory# or #group parking facilities#,

#public parking garages# or #public parking lots#, where such #accessory# or #group parking facilities#, #public parking garages# or #public parking lots# were completed on April 14, 2010, under construction on such date with the right to continue construction pursuant to Section 11-331 or granted a City Planning Commission special permit after January 19, 2005, where such permit had not lapsed as of April 14, 2010.

Public parking

"Public parking" shall be off-street parking that is open to the public during the business day for hourly, daily or other time-defined rental of parking spaces, for which a fee is charged.

Reservoir deficit

The "reservoir deficit" shall be the amount by which the #reservoir surplus# is less than zero.

Reservoir parking supply

The "reservoir parking supply" shall be the sum of:

- (a) all off-street parking spaces lawfully operating as of May 27, 2009, in the #Hudson Yards parking regulations applicability area# as #public parking#; and
- (b) any off-street parking spaces for which a valid building permit had been issued, as of May 27, 2009, and which have been constructed before April 14, 2010.

However, any off-street parking space that satisfies the definition of the #Hudson Yards development parking supply# in this Section shall not be counted as part of the #reservoir parking supply#.

For purposes of this definition, "constructed" shall include any off-street parking spaces in #accessory# individual or #group parking facilities#, #public parking garages# or #public parking lots#, where such #accessory# or #group parking facilities#, #public parking garages# or #public parking lots# were either completed on April 14, 2010, or under construction on such date with the right to continue construction pursuant to Section 11-331.

Reservoir surplus

The initial #reservoir surplus# shall be 3,600 off-street parking spaces. The "reservoir surplus" shall be increased by:

- (a) the aggregate number of off-street parking spaces in the #reservoir parking supply# for which a building permit has been issued, pursuant to the as-of-right regulations in effect subsequent to January 19, 2005, and before April 14, 2010;
- (b) the number of off-street parking spaces in the #Hudson Yards parking regulations applicability area# above the ratios permitted in Section 93-821, either certified by the Chairperson pursuant to Sections 93-822, paragraph (c), or by City Planning Commission special permit, pursuant to Section 93-823; and
- (c) the number of off-street parking spaces lawfully added in the #Hudson Yards parking regulations applicability area#, other than those permitted pursuant to Section 93-80, inclusive, except for any increase by Board of Standards and Appeals variance that is counted as part of the #Hudson Yards development parking supply#;

The #reservoir surplus# shall be decreased by:

- (a) the aggregate number of parking spaces counted at any time in the #reservoir parking supply#, that subsequently are:
 - (1) reduced through modification or discontinuance of the applicable Department of Consumer Affairs license or certificate of occupancy or otherwise cease operation permanently; or
 - (2) not constructed in accordance with the applicable building permit, as reflected in a modification of such building permit or the issuance of a certificate of occupancy for a reduced number of spaces; or
- (b) the issuance of a certificate of occupancy for a #development# or #enlargement# providing a smaller number of spaces than allowed, pursuant to Section 93-821, to the extent of the difference between the number of #accessory# off-street parking spaces allowed, and the number provided. However, this paragraph shall not apply to Sites 2, 3, 4 and 5, as shown on Map 6 of Appendix A, and shall apply to no more than 200 #accessory# off-street parking spaces on Site 6 as shown on Map 6.

Substantial construction

"Substantial construction" shall mean the substantial enclosing and glazing of a new #building# or of the #enlarged# portion of an existing #building#.

(4/14/10)

93-82

Permitted Parking

#Developments# or #enlargements# in the #Hudson Yards parking regulations applicability area# may provide #accessory# parking spaces in accordance with the provisions of this Section. The provisions of Sections 36-52 (Size and Location of Spaces) and 36-53 (Width of Curb Cuts and Location of Access to the Street) shall apply to all permitted #accessory# off-street parking spaces.

(4/29/14)

93-821

Permitted parking when the reservoir surplus is greater than or equal to zero

When the #reservoir surplus# is greater than or equal to zero, off-street parking spaces may be provided only in accordance with the provisions of this Section.

- (a) For #residences#, #accessory# off-street parking spaces may be provided for not more than 30 percent of the total number of #dwelling units#, except that where such #dwelling units# are comprised of #low income floor area#, #moderate income floor area# or #middle income floor area#, as defined in Section 23-911, #accessory# off-street parking spaces may be provided for not more than eight percent of the total number of such #dwelling units#.
- (b) For Use Group 5 #transient hotels#, the applicable provisions of Section 13-12 (Permitted Parking for Non-Residential Uses) shall apply with respect to the number of permitted #accessory# off-street parking spaces, provided that the number of such spaces

does not exceed 0.16 for every 1,000 square feet of #floor area#.

- (c) For Use Group 6B offices, not more than 0.16 #accessory# off-street parking spaces may be provided for every 1,000 square feet of #floor area#.
- (d) In the Eastern Rail Yard Subarea A1, paragraphs (a) through (c) of this Section shall not apply, and any #accessory# off-street parking shall comply with the provisions of this paragraph, (d):
 - (1) for #residences#, #accessory# off-street parking spaces may be provided for not more than 40 percent of the total number of #dwelling units#;
 - (2) for #commercial# and #community facility uses#, not more than 0.325 #accessory# off-street parking spaces may be provided for every 1,000 square feet of #floor area#, provided that in no event shall the number of off-street parking spaces #accessory# to #commercial# or #community facility uses# exceed 350 spaces; and
 - (3) in no event shall the total number of #accessory #off-street parking spaces for all #uses# exceed 1,000.
- (e) The Department of Buildings shall not issue a building permit for any #accessory# off-street parking pursuant to paragraphs (a) through (c) of this Section, unless the Chairperson has certified that:
 - (1) the sum of the permitted parking spaces set forth in the following paragraphs, (e)(1)(i), (e)(1)(ii) and (e)(1)(iii), is less than or equal to 5,084 spaces:
 - (i) the #reservoir surplus# or zero;
 - (ii) the #Hudson Yards development parking supply#; and
 - (iii) the number of spaces proposed to be added by the #development# or #enlargement# for which certification is sought; and
 - (2) the sum of the permitted parking spaces set forth in the following paragraphs, (e)(2)(i), (e)(2)(ii), (e)(2)(iii) and (e)(2)(iv), is less than or equal to 5,905 spaces:

- (i) all off-street parking spaces in the #Hudson Yards parking applicability area# that have been categorized, in accordance with the definition in Section 93-81, as part of the #reservoir parking supply#, less any such off-street parking spaces that have been categorized as decreasing the #reservoir surplus# in accordance with paragraph (a) of the second part of the definition of #reservoir surplus# in Section 93-81;
 - (ii) all off-street parking spaces in the #Hudson Yards parking applicability area# that have been categorized as increasing the #reservoir surplus# in accordance with paragraphs (b) and (c) of the first part of the definition of #reservoir surplus# in Section 93-81;
 - (iii) the #Hudson Yards development parking supply#; and
 - (iv) the number of spaces proposed to be added by the #development# or #enlargement# for which certification is sought.
- (3) Notwithstanding paragraphs (e)(1) and (2) of this Section, if the Chairperson determines that final certificates of occupancy have been issued by the Department of Buildings for all #buildings# shown in the site plan for the Eastern Rail Yard Subarea A1 as required by the provisions of Section 93-70, and that upon the completion of all such #buildings#, fewer than 1,000 #accessory# off-street parking spaces have been provided in such subarea, any difference between the number of #accessory# off-street parking spaces provided in the Eastern Rail Yard Subarea A1, and 1,000, may be added to the limits of 5,084 and 5,905 spaces set forth in paragraphs (e)(1) and (e)(2), respectively.
- (4) Any certification granted by the Chairperson, pursuant to this Section, shall lapse after two years if #substantial construction# of the #development# or of the #enlarged# portion of an existing #building#, which includes the subject #accessory# off-street parking spaces, has not occurred. In making a certification pursuant to this Section, the Chairperson shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution. However, for Site 6, as shown on Map 6 in Appendix A of this Chapter, any such certification shall lapse after six years

if #substantial construction# of the new #building# that includes the subject #accessory# off-street parking spaces, has not occurred.

(4/29/14)

93-822

Permitted parking when a reservoir deficit exists

When a #reservoir deficit# exists, additional off-street parking spaces may be provided in accordance with the provisions of this Section. However, this Section shall not apply in the Eastern Rail Yard Subarea A1.

- (a) The number of permitted #accessory# off-street parking spaces for Use Group 5 hotels may exceed 0.16 for every 1,000 square feet of #floor area#, up to the number permitted by the applicable provisions of Section 13-12 (Permitted Parking for Non-Residential Uses).
- (b) The number of permitted #accessory# off-street parking spaces for Use Group 6B offices may be increased by up to 33 percent of the number permitted pursuant to Section 93-821, paragraph (b).
- (c) The Department of Buildings shall not issue a building permit for any additional #accessory# off-street parking spaces permitted pursuant to this Section unless the Chairperson has certified that:
 - (1) a #reservoir deficit# exists;
 - (2) the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# for which certification is sought, does not exceed such #reservoir deficit#; and
 - (3) such additional #accessory# off-street parking spaces, when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 does not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821.

- (d) Any certification granted by the Chairperson pursuant to this Section shall lapse after two years if #substantial construction# of the new #building# or of the #enlarged# portion of an existing #building#, which includes the subject #accessory# off-street parking spaces, has not occurred. In making a certification pursuant to this Section, the Chairperson shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution. However, for Site 6, as shown on Map 6 in Appendix A of this Chapter, any such certification shall lapse after six years if #substantial construction# of the new #building# that includes the subject #accessory# off-street parking spaces, has not occurred.

(5/8/13)

93-823

Parking permitted by special permit

When a #reservoir deficit# exists, the City Planning Commission may allow, by special permit, Use Group 6B offices to exceed the number of #accessory# off-street parking spaces permitted by Section 93-822, provided that:

- (a) within the vicinity of the site, there are insufficient parking spaces available;
- (b) the facility will not create or contribute to serious traffic congestion nor unduly inhibit vehicular and pedestrian movement;
- (c) the facility is so located as to draw a minimum of vehicular traffic to and through local #residential streets#; and
- (d) adequate reservoir space is provided at the vehicular entrance to accommodate vehicles equivalent in number to 20 percent of the total number of parking spaces, up to 50 parking spaces, and five percent of any spaces in excess of 200 parking spaces, but in no event shall such reservoir spaces be required for more than 50 vehicles. However, in the case of a facility with a capacity of 10 vehicles or less, the Commission may waive this condition.

In addition, the Commission shall find that the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# that is the subject of the application under review,

does not exceed the #reservoir deficit#; and that such additional #accessory# off-street parking spaces, when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 does not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821. In making such finding, the Commission shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution.

(4/14/10)

93-824

Publication of data

The Department of City Planning shall make available, in a form easily accessed by the public, regularly updated calculations of the current #Hudson Yards development parking supply#, #reservoir parking supply#, spaces described in paragraphs (e)(2)(i) and (e)(2)(ii) of Section 93-821, and #reservoir surplus# or #reservoir deficit#, as applicable.

(5/8/13)

93-83

Use and Location of Parking Facilities

The provisions of this Section shall apply to all off-street parking spaces within the #Special Hudson Yards District#.

- (a) All off-street parking spaces #accessory# to #residences# shall be used exclusively by the occupants of such #residences#. Except in the Eastern Rail Yard Subarea A1, all off-street parking spaces #accessory# to Use Group 5 #transient hotels# and Use Group 6B offices may be made available for public use. No #accessory# off-street parking spaces shall be located on a #zoning lot# other than the same #zoning lot# as the #use# to which they are #accessory#.
- (b) All off-street parking spaces shall be located within facilities that, except for entrances and exits, are:

- (1) entirely below the level of any #street# or publicly accessible open area upon which such facility, or portion thereof, fronts; or
- (2) located, at every level above-grade, behind #commercial#, #community facility# or #residential floor area#, so that no portion of such parking facility is visible from adjoining #streets# or publicly accessible open areas.

(2/2/11)

93-831

Authorization for above-grade parking

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (b) of Section 93-83 (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

- (a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;
- (b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;
- (c) the materials and articulation of the #street wall# of the parking facility is compatible with #buildings# in the surrounding area;
- (d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining #streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;

- (e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area#, so as to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and
- (g) the location of vehicular entrances and exits will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(4/14/10)

93-84

Curb Cut Restrictions

Along all avenues in the #Special Hudson Yards District#, and along Hudson Boulevard and West 34th Street, and along the north side of West 35th, West 36th, West 37th and West 38th Streets between Tenth and Eleventh Avenues, no driveway curb cuts for parking facilities or loading berths shall be permitted, except:

- (a) for entrances or exits to a public parking garage located beneath Hudson Boulevard and the adjacent #public parks#; or
- (b) where the Commissioner of Buildings determines there is no alternative means of access to required off-street parking spaces or required loading berths from other #streets# bounding the #zoning lot#. However, in no event shall curb cuts be permitted on or within 40 feet of Hudson Boulevard.

(4/14/10)

93-841

Curb cut restrictions in the Large-Scale Plan Subdistrict A

In Subarea A2 of the Large-Scale Plan Subdistrict A, curb cuts for parking and loading facilities shall be prohibited on West 34th Street, Tenth Avenue, Hudson Boulevard and Eleventh Avenue except where the City Planning Commission certifies there is no frontage available on West 33rd Street or West 35th Street to access a required parking or loading facility.

(4/14/10)

93-842

Curb cut restrictions in the Farley Corridor Subdistrict B

No curb cuts shall be permitted on Eighth or Ninth Avenues between West 31st and West 33rd Streets. In the Pennsylvania Station Subarea B4, the maximum aggregate width of curb cuts on West 33rd Street shall be 90 feet. On the south side of West 33rd Street between the Lincoln Tunnel Approach and Ninth Avenue, the maximum aggregate width of curb cuts shall be 90 feet.

(4/14/10)

93-85

Authorization for Additional Curb Cuts

Along the north side of West 35th, West 36th, West 37th and West 38th Streets between Tenth and Eleventh Avenues, for #zoning lots# greater than 20,000 square feet, the City Planning Commission may authorize curb cuts, provided the Commission finds that such curb cuts are needed for required loading berths, do not unduly inhibit surface traffic or pedestrian flow and do not impair the essential character of the surrounding area. Loading berths shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot# and thereby permit a more efficient loading operation.

(2/2/11)

93-90

HARASSMENT

(a) Definitions

(1) Anti-harassment area

"Anti-harassment area" shall mean the #Special Hudson Yards District# and Preservation Area P-2 of the #Special Garment Center District#.

(2) Application date

"Application date" shall mean the date that the Department of Housing Preservation and Development accepts a completed application for a #certification of no harassment# for processing.

(3) Certification of no harassment

"Certification of no harassment" shall mean a certification by the Department of Housing Preservation and Development pursuant to this Section that there has not been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#.

(4) Cure compliance lot

"Cure compliance lot" shall mean a #zoning lot# on which #low income housing# is provided pursuant to a #restrictive declaration# in accordance with the cure provisions of paragraph (d) of this Section. A #cure compliance lot# may be a #cure requirement lot#.

(5) Cure requirement

Except as otherwise provided in paragraph (e) of this Section with respect to Subareas 4 and 5 of the #Hell's Kitchen Subdistrict# of the #Special Hudson Yards District#, "cure requirement" shall mean #floor area# in an amount not less than the greater of:

- (i) 28 percent of the total #residential# and #hotel floor area# of any #multiple dwelling# to be altered or demolished in which #harassment# has occurred; or
- (ii) 20 percent of the total #floor area# of any new or altered #building# on the #cure requirement lot#.

(6) Cure requirement lot

"Cure requirement lot" shall mean:

- (i) a #zoning lot# containing a #multiple dwelling# with respect to which the Department of Housing Preservation and Development has denied a #certification of no harassment#; or
- (ii) a #zoning lot# with respect to which an applicant, in lieu of seeking a #certification of no harassment# which would otherwise be required for the full or partial demolition or #material alteration# of a #multiple dwelling# located in the #anti-harassment area#, elects to seek a certification of compliance with the cure provisions of paragraph (d) of this Section and enters into a #restrictive declaration#.

(7) Dwelling unit

"Dwelling unit" shall have the meaning set forth in the Multiple Dwelling Law.

(8) Exempt hotel

"Exempt hotel" shall mean any #multiple dwelling#:

- (i) which is a #transient hotel# and was a #transient hotel# on the #referral date#;
- (ii) in which no #residential# occupant is, or was on the #referral date#, entitled to a renewal lease or otherwise entitled to continued occupancy pursuant to the Local Housing Emergency Rent Control Act, as amended, the City Rent and Rehabilitation Law, as amended, the Rent Stabilization Law of 1969, as amended, or the Emergency Tenant Protection Act of 1974, as amended; and
- (iii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(9) Exempt institutional residence

"Exempt institutional residence" shall mean any #multiple dwelling#:

- (i) the occupancy of which is restricted to non-profit institutional use and was restricted to non-profit institutional use on the #referral date#, and
- (ii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(10) Harassment

"Harassment" shall mean any conduct by or on behalf of an owner of a #multiple dwelling# that includes:

- (i) the use or threatened use of force which causes or is intended to cause any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive any rights in relation to such occupancy;
- (ii) the interruption or discontinuance of essential services which
 - (a) interferes with or disturbs or is intended to interfere with or disturb the comfort, repose, peace or quiet of any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in the use or occupancy of such #dwelling unit# or #rooming unit# and
 - (b) causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to surrender or waive any rights in relation to such occupancy;
- (iii) a failure to comply with the provisions of subdivision (c) of section 27-2140 of article seven of subchapter five of the Housing Maintenance Code which causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such unit or to waive any rights in relation to such occupancy; or
- (iv) any other conduct which prevents or is intended to prevent any person from the lawful occupancy of such

#dwelling unit# or #rooming unit# or causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to surrender or waive any rights in relation to such occupancy, including but not limited to removing the possessions of any occupant from the #dwelling unit# or #rooming unit#; removing the door at the entrance to the #dwelling unit# or #rooming unit#; removing, plugging or otherwise rendering the lock on such entrance door inoperable; or changing the lock on such entrance door without supplying the occupant with a key.

(11) Inquiry period

"Inquiry period" shall mean a period which:

- (i) commences upon the later of the #referral date# or a date which is fifteen years prior to the #application date#, and
- (ii) terminates upon the #application date#;

provided, however, that the Department of Housing Preservation and Development may:

- (a) set such commencement date upon any date which is on or after the #referral date# and is more than fifteen years prior to the #application date# where it determines that such extension of the duration of the inquiry period would further the purposes of this Section, and
- (b) extend such termination date up to and including the date upon which the Department of Housing Preservation and Development determines to grant or deny a #certification of no harassment#.

(12) Low income housing

"Low income housing" shall mean #dwelling units# or #rooming units# occupied or to be occupied by persons or families having an annual household income at the time of initial occupancy equal to or less than eighty percent of the median income for the primary metropolitan statistical area, as determined by the United States Department of

Housing and Urban Development or its successors from time to time for a family of four, as adjusted for family size.

(13) Material alteration

"Material alteration" shall mean any alteration to a #multiple dwelling# or other #building#, including, but not limited to, an alteration which reduces or increases the #floor area# of the #multiple dwelling# or other #building#, #converts floor area# from #residential# to non-#residential use#, changes the number or layout of #dwelling units# or #rooming units#, or adds or removes kitchens or bathrooms; provided, however, that #material alteration# shall not include:

- (i) an #incidental alteration# which does not change the layout of #dwelling units# or #rooming units#, or
- (ii) a repair or replacement of existing elements of such #multiple dwelling# or other #building# without materially modifying such elements.

(14) Multiple dwelling

"Multiple dwelling" shall have the meaning set forth in the Multiple Dwelling Law.

(15) Referral date

"Referral date" shall mean June 21, 2004.

(16) Restrictive declaration

"Restrictive declaration" shall mean a legal instrument which:

- (i) provides that #low income housing# in an amount not less than the #cure requirement# shall be provided in a new or altered #multiple dwelling# located in the #anti-harassment area#,
- (ii) provides that the #low income housing# must comply with the requirements of Section 23-90 for rental #affordable housing# provided without #public funding#, as amended by this Chapter, unless any such requirement is waived by the Department of Housing Preservation and Development,

- (iii) contains such other terms as the Department of Housing Preservation and Development shall determine,
- (iv) has been approved by the Department of Housing Preservation and Development,
- (v) runs with the land and binds all parties in interest to the #cure requirement lot# and their successors,
- (vi) runs with the land and binds all parties in interest to the #cure compliance lot# and their successors, and
- (vii) is perpetual in duration.

(17) Rooming unit

"Rooming unit" shall have the meaning set forth in the Housing Maintenance Code.

(b) Permit Process

- (1) Unless the Department of Housing Preservation and Development has issued a #certification of no harassment# pursuant to paragraph (c) of this Section or has certified compliance with the cure provisions of paragraph (d) of this Section, the Department of Buildings shall not issue a permit for:
 - (i) the full or partial demolition of a #multiple dwelling# located in the #anti-harassment area#; or
 - (ii) the #material alteration# of a #multiple dwelling# located in the #anti-harassment area#.
- (2) Any permit for alterations may be exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development that such alterations are to be performed solely for the purpose of either:
 - (i) making the public areas of a #multiple dwelling# accessible to persons with disabilities without altering the configuration of any #dwelling unit# or #rooming unit#; or

(ii) making a #dwelling unit# or a #rooming unit# accessible to persons with disabilities.

(3) The following structures shall be exempt from the provisions of this Section:

(i) any city-owned #multiple dwelling#;

(ii) any #multiple dwelling# which is the subject of a program approved by Department of Housing Preservation and Development for the provision of housing for persons of low or moderate income and has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development;

(iii) any #multiple dwelling# initially occupied for residential purposes after January 1, 1974, except for #buildings# which are or have been interim #multiple dwellings# pursuant to Article 7C of the Multiple Dwelling Law;

(iv) any #exempt hotel#;

(v) any #multiple dwelling# in which occupancy is restricted to clubhouse or school dormitory use and occupancy was restricted to clubhouse or school dormitory use on the #referral date#; and

(vi) any #exempt institutional residence#.

(4) Where the Department of Housing Preservation and Development has denied a #certification of no harassment# with respect to a #multiple dwelling#, the Department of Buildings shall not issue any permit with respect to any #multiple dwelling# or other #building# located on, or to be located on, the #cure requirement lot# except in accordance with paragraph (d) of this Section.

(c) Certification of No Harassment

(1) The Department of Housing Preservation and Development shall determine and certify whether there has been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#.

- (2) There shall be a rebuttable presumption that any of the acts or omissions described in paragraph (a)(10) of this Section occurring within the #inquiry period# were committed by or on behalf of the owner of such #multiple dwelling# and that such acts or omissions:
 - (i) were committed with the intent to cause a person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive a right in relation to such occupancy, and
 - (ii) materially advanced the demolition or alteration in furtherance of which the permit and #certification of no harassment# are sought.
- (3) The Department of Housing Preservation and Development may promulgate rules regarding the implementation of this Section. Such rules may include, but shall not be limited to, provisions which:
 - (i) establish the information to be required in an application for #certification of no harassment#, the form of such application, and the manner of filing of such application,
 - (ii) establish reasonable fees and charges to be collected from applicants for the administrative expenses incurred by the Department of Housing Preservation and Development, including, but not limited to, costs for publication of any notices, and
 - (iii) establish the duration for which a #certification of no harassment# will remain effective, and
 - (iv) authorize the rescission of a #certification of no harassment# if the Department of Housing Preservation and Development finds either that #harassment# has occurred after the #inquiry period# or that the application for such #certification of no harassment# contained a material misstatement of fact. Following such rescission, the Department of Buildings may revoke any permit for which such #certification of no harassment# was required.
- (4) The Department of Housing Preservation and Development may refuse to accept, or to act upon, an application for a

#certification of no harassment# where the Department of Housing Preservation and Development finds that:

- (i) taxes, water and sewer charges, emergency repair program charges, or other municipal charges remain unpaid with respect to such #multiple dwelling#,
 - (ii) such #multiple dwelling# has been altered either without proper permits from the Department of Buildings or in a way that conflicts with the certificate of occupancy for such #multiple dwelling# (or, where there is no certificate of occupancy, any record of the Department of Housing Preservation and Development indicating the lawful configuration of such #multiple dwelling#) and such unlawful alteration remains uncorrected; or
 - (iii) the Department of Housing Preservation and Development has previously denied an application for a #certification of no harassment# pursuant to this Section.
- (5) If the Department of Housing Preservation and Development determines that an application for a #certification of no harassment# contains a material misstatement of fact, the Department of Housing Preservation and Development may reject such application and bar the submission of a new application with respect to such #multiple dwelling# for a period not to exceed three years.
- (6) Before determining whether there is reasonable cause to believe that #harassment# has occurred with respect to any #multiple dwelling#, the Department of Housing Preservation and Development shall publish a notice in such form and manner as shall be specified in the rules promulgated pursuant to paragraph (c)(3) of this Section. Such notice shall seek public comment regarding whether there has been #harassment# of the lawful occupants of such #multiple dwelling# from the #referral date# to the date of submission of comments. If the Department of Housing Preservation and Development receives comments containing material evidence that #harassment# occurred on or after the #referral date# and more than fifteen years prior to the #application date#, the Department of Housing Preservation and Development shall, in accordance with paragraph (a)(11) of this Section, set the commencement of

the #inquiry period# on a date prior to the date of such alleged harassment.

- (7) The Department of Housing Preservation and Development shall determine whether there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#.
 - (i) If there is no reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall issue a #certification of no harassment#.
 - (ii) If there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall cause a hearing to be held in such manner and upon such notice as shall be determined by the Department of Housing Preservation and Development, unless the applicant waives the right to a hearing. Following receipt of the report and recommendation of the hearing officer, or receipt of a waiver of the right to such a hearing from the applicant, the Department of Housing Preservation and Development shall either grant or deny a #certification of no harassment#.
- (8) The Department of Housing Preservation and Development may deny a #certification of no harassment# without a prior hearing if there has been a finding by the Division of Housing and Community Renewal or any court having jurisdiction that there has been harassment, unlawful eviction or arson at the #multiple dwelling# during the #inquiry period#.

(d) Certification of Cure for Harassment

- (1) The Department of Housing Preservation and Development shall not certify compliance with the cure provisions of this paragraph to the Department of Buildings unless all parties in interest to the #cure requirement lot# and all parties in interest to the #cure compliance lot# have entered into a #restrictive declaration#.
- (2) Any permit or certificate of occupancy issued by the Department of Buildings with respect to any structure

located on a #cure requirement lot# or a #cure compliance lot# shall be subject to the following conditions:

- (i) The Department of Buildings shall not issue any permit, except a permit for an alteration which is not a #material alteration#, with respect to any structure located on the #cure requirement lot# unless the #restrictive declaration# has been recorded in the Office of the City Register and indexed against each tax lot within the #cure requirement lot# and each tax lot within the #cure compliance lot#.
- (ii) The Department of Buildings shall not issue any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, other than any #low income housing# located on the #cure requirement lot#, until:
 - (a) the Department of Housing Preservation and Development certifies that the #low income housing# required by the #restrictive declaration# has been completed in compliance with the #restrictive declaration#; and
 - (b) the Department of Buildings has issued a temporary or permanent certificate of occupancy for each unit of such #low income housing#.
- (iii) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure compliance lot#. Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.
- (iv) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, except where:
 - (a) the #cure requirement lot# is not the #cure compliance lot#; and

- (b) the management and operation of the #cure compliance lot# is wholly controlled by, and the #restrictive declaration# requires that management and operation of the #cure compliance lot# remain wholly controlled by, an independent not-for-profit administering agent that is not affiliated with the owner of the #cure requirement lot#.

Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.

- (3) No portion of the #low income housing# required under this Section shall qualify to:

- (i) increase the #floor area ratio# pursuant to the provisions of Section 23-90, as modified by the provisions of the #Special Hudson Yards District# and the #Special Garment Center District#; or

- (ii) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

- (e) Demolition in Subareas 4 and 5 of the #Hell's Kitchen Subdistrict#

Notwithstanding any provision of paragraph (a)(5) of this Section or paragraph (d) of this Section to the contrary, with regard to any #multiple dwelling# to be demolished in Subareas 4 and 5 of the #Hell's Kitchen Subdistrict# of the #Special Hudson Yards District#, #cure requirement# shall mean #floor area# in an amount not less than the greater of:

- (i) 40 percent of the total #residential# or #hotel floor area# of any #multiple dwelling# to be demolished in which #harassment# has occurred; or
- (ii) 30 percent of the total #floor area# of any new #building# on the same #zoning lot# as the #multiple dwelling# to be demolished.

(10/27/10)

93-91

Demolition

The Department of Buildings shall not issue a permit for the demolition of a #multiple dwelling#, as defined in Section 93-90 (HARASSMENT), paragraph (a)(14), located within Subareas D4 or D5 in the Hell's Kitchen Subdistrict D or within Preservation Area P-2 of the #Special Garment Center District#, or an alteration permit for the partial demolition of a #multiple dwelling# located within Subareas D4 and D5 or within Preservation Area P-2 of the #Special Garment Center District#, where such partial demolition would decrease the amount of #residential floor area# in such #multiple dwelling# by 20 percent or more, unless:

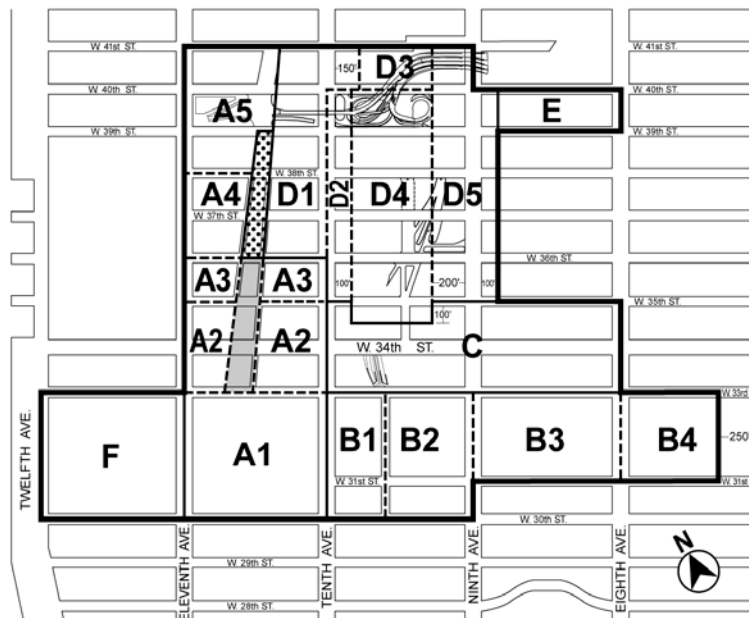

- (a) such #multiple dwelling# is an unsafe #building# or an emergency exists such that demolition is required pursuant to the provisions of Title 28, Chapter 2, Articles 215 or 216 of the New York City Administrative Code; or
- (b) the Commissioner of the Department of Housing Preservation and Development, after providing sixty days notice and opportunity to comment to the local Community Board, has certified:
 - (1) if such #multiple dwelling# is to be substantially preserved, that an alteration permit is required to allow the removal and replacement of 20 percent or more of the #floor area#;
 - (2) if such #multiple dwelling# is not to be substantially preserved, that the Department of Housing Preservation and Development has determined that the rehabilitation of such #multiple dwelling# is not feasible under any active governmentally-funded program; and
 - (3) that the Department of Housing Preservation and Development has issued a #certification of no harassment# pursuant to Section 93-90, paragraph (c), or has certified compliance with the cure provisions of Section 93-90, paragraph (d).
- (c) the following structures shall be exempt from the provisions of this Section:
 - (1) any city-owned #multiple dwellings#;

- (2) any #multiple dwelling# which is the subject of a program approved by the Department of Housing Preservation and Development for the provision of housing for persons of low- or moderate-income and has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development;
- (3) any #multiple dwelling# initially occupied for #residential# purposes after January 1, 1974, except for #buildings# which are or have been interim #multiple dwellings#, pursuant to Article 7C of the Multiple Dwelling Law;
- (4) any #exempt hotel#, as defined in Section 93-90;
- (5) any #multiple dwelling# in which occupancy is restricted to clubhouse or school dormitory #use# and occupancy was restricted to clubhouse or school dormitory #use# on June 21, 2004; or
- (6) any #exempt institutional residence#, as defined in Section 93-90.

Article IX - Special Purpose Districts

Chapter 4

Special Sheepshead Bay District

(10/4/73)

94-00

GENERAL PURPOSES

The "Special Sheepshead Bay District," established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others the following specific purposes:

- (a) to promote and strengthen the unique character of the "Special Sheepshead Bay District" area as a prime location for waterfront-related commercial and recreational development and to help attract a useful cluster of shops, restaurants and related activities, which will complement and enhance the area as presently existing;
- (b) to encourage the provision of housing with appropriate amenities in areas suitable for residential development;
- (c) to improve vehicular and pedestrian circulation patterns by requiring limited curb cuts and uniform sidewalk widening, and encouraging the provision of public open space and other amenities as a related part of new development;
- (d) to provide an incentive for redevelopment of the area in a manner consistent with the foregoing objectives which are integral elements of the Comprehensive Plan of the City of New York; and
- (e) to promote the most desirable use of land in this area and thus to conserve the value of land and thereby protect the City's tax revenues.

(2/2/11)

94-01

Definitions

Development

For the purposes of this Chapter, a "development" includes #development#, as defined in Section 12-10, or an #enlargement#.

Development rights

For the purposes of this Chapter, the "development rights" of a #granting lot# shall consist of the unused bonus #floor area# allowed by Section 94-08 (Special Floor Area Bonus Provisions). Any unused bonus #floor area# transferred from a #granting lot# may be used on a #receiving lot# either for #residential# or #commercial uses# as set forth in Section 94-094 (Authorization provisions for transfer of development rights to receiving lots).

Granting lot

For the purposes of this Chapter, a "granting lot" is a #zoning lot#, with a minimum area of 20,000 square feet, which is located in Areas A, C, D or E, as indicated in Appendix A (District Map), and is #developed# pursuant to Sections 94-07 (Mandatory Provisions) and 94-08 (Special Floor Area Bonus Provisions).

Person

For the purposes of this Chapter, a "person" is an individual, corporation (whether incorporated for business, public benefit, or non-profit purposes or otherwise), partnership, trust, firm, organization, other association or any combination thereof.

Receiving lot

For the purposes of this Chapter, a "receiving lot" is a #zoning lot#, with a minimum area of 20,000 square feet, which is located in Areas A, C, E or F, as indicated in Appendix A (District Map), and on which #development rights# are transferred from a #granting lot# pursuant to Section 94-094.

(10/9/13)

94-02

General Provisions

In harmony with the general purposes of the #Special Sheepshead Bay District# and in accordance with the provisions of this Chapter, certain specified regulations of the districts on which the #Special Sheepshead Bay District# is superimposed are made inapplicable and special regulations are substituted therefor. The City Planning Commission, by special permit, may grant certain #uses# and may authorize #bulk# modifications within the Special District as set forth in this Chapter. Except as modified by the express provisions of this Special District, the regulations of the underlying zoning districts remain in effect.

In the #waterfront area#, the provisions of the #Special Sheepshead Bay District# are modified in accordance with the provisions of Section 62-13 (Applicability of District Regulations).

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

(10/4/73)

94-04

Requirements for Applications

An application to the City Planning Commission for the grant of a special permit or authorization respecting any #development# under the provisions of this Chapter shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on both the #granting# and #receiving lots#; the location of all special amenities that are to be provided under the mandatory and bonus provisions; the location of all vehicular entrances and exits and off-street parking and loading spaces; and such other information as may be required by the City Planning Commission for its determination as to whether or not a special permit or authorization is warranted.

(10/4/73)

94-05

Relationship to Public Improvement Projects

In all cases, the City Planning Commission shall deny a special permit or authorization application whenever the #development# will interfere with a public improvement project (including

housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, City Planning Commission or Site Selection Board, as determined from the calendar of each agency issued prior to the date of the public hearing on the application for a special permit or authorization.

(10/4/73)

94-06

Special Use Regulations

In order to preserve the character of the area and to encourage waterfront and related #uses#, special limitations are imposed on the location, size and kinds of #uses# permitted within the Special District as set forth in this Section.

(5/27/15)

94-061

Permitted residential, community facility and commercial uses

A. #Residential# and #community facility uses#

#Uses# listed in Use Groups 1, 2, 3 and 4 shall be allowed anywhere within the Special District, except as set forth in Section 94-065 (Restriction on ground floor use).

B. #Commercial uses#

In Areas A, B, C, D and E, as indicated in Appendix A (Special Sheepshead Bay District Map) of this Chapter, only those #commercial uses# listed in Section 94-062 (Use Group SB), those #uses# listed in Section 62-211 (Water-Dependent (WD) uses) from Use Groups 6, 7, 9 and 14, and those #uses# permitted pursuant to Section 94-063 (Uses permitted by special permit), shall be allowed. In addition, in Area B, a food store, as listed in Section 32-15 (Use Group 6), shall also be allowed on a #zoning lot# existing on May 27, 2015, for a period of ten years from such date. Such food store shall be limited to one such establishment per #zoning lot# and shall be limited to 15,000 square feet of #floor area# utilized for the sale of food and non-food grocery products, and further such establishment shall be limited to an additional 6,500 square feet of #floor area# for #accessory#

office and storage space. There shall be no limitation on the amount of #floor area# utilized for eating or drinking places as listed in Use Group SB, pursuant to Section 94-062.

In Area F, only #commercial uses# listed in Use Group 6 and those listed in Section 62-211 from Use Groups 6, 7, 9 and 14 shall be allowed within the underlying #Commercial Districts#.

In Area G, only #commercial uses# listed in Use Groups 6, 7, 8 and 9 and those listed in Section 62-211 from Use Groups 6, 7, 9 and 14 shall be allowed within the underlying #Commercial Districts#.

In Area H, except for #uses# permitted pursuant to Section 94-063, #commercial uses# shall be limited to those listed in Section 62-211 from Use Groups 6, 7, 9 and 14 and the following #uses#:

- Antique stores

- Art galleries, commercial

- Artists' supply stores

- Bicycle sales, rental or repair shops

- Boat fuel sales, open or enclosed, restricted to location within 10 feet of a dock berth

- Boat rentals, open or enclosed

- Boat showrooms or sales

- Boat storage, repair or painting, including the incidental sale of boats, boat parts or accessories, restricted to boats less than 100 feet in length, provided that such #use# or portion thereof may be conducted outside a #completely enclosed building# only if located at a distance greater than 100 feet from a #Residence District# boundary

- Book stores

- Candy or ice cream stores

- Cigar or tobacco stores

- Coin-operated ice vending machines, including those

machines that are self-contained dealing directly with the ultimate consumer. Such self-contained machines shall be limited to 1,600 pounds capacity solely for the use of such self-contained machines

Docks for pleasure boats less than 100 feet in length

Eating or drinking places, including those which provide outdoor table service or incidental musical entertainment

Fish stores, retail

Fishing tackle or equipment, rental or sales

Florist shops

Gift shops

Gymnasiums, used exclusively for basketball, handball, squash and tennis

Hardware stores, limited to marine supplies

#Hotels, transient#

Jewelry or art metal craft shops

#Motels# or #boatels#

Newsstands, open or enclosed

Non-commercial clubs, without restrictions on activities or facilities

Pet shops

Photographic equipment or supply stores

Picture framing shops

Sailmaking establishments

Sale or rental of sporting goods or equipment, including instructions in skiing, sailing or skin diving

Stamp or coin stores

Studios, art, music, dance or theatrical

Taxidermist shops

C. #Accessory uses#

(2/2/11)

94-062

Use Group SB

In Areas A, B, C, D and E, except as stated in this Section, all #commercial uses# permitted by Use Group SB shall be limited to a maximum #floor area# of 3,500 square feet per establishment and to a maximum frontage per establishment at ground floor level of 35 feet when facing any plaza, Emmons Avenue, Sheepshead Bay Road, Ocean Avenue and Bedford Avenue. Any #use# marked with a single asterisk (*) shall not be located on the ground floor of a #building#.

A. Convenience retail or service establishments

Bakeries, limited to 750 square feet of #floor area# for production

Eating or drinking places, with no restriction on #floor area# or frontage per establishment, including those which provide outdoor table service or incidental musical entertainment

Hardware stores, limited to marine supplies

Stationery stores

Tailor or dressmaking shops, custom

B. Offices

* Offices, business, professional or governmental

C. Retail or service establishments

Antique stores

Art galleries

Artists' supply stores

- Bicycle, rental or sales
- Boat showrooms, with no repair or preparation or boats for delivery, #floor area# limited to 5,000 square feet
- Book stores
- Candy or ice cream stores
- Cigar or tobacco stores
- Clothing stores or clothing accessory stores
- Dry goods stores (fabrics)
- Fishing tackle and equipment
- Florists
- Gift shop
- * Gymnasiums, used exclusively for basketball, handball, squash and tennis
- Jewelry or art metal shops
- Leather goods stores
- * Meeting halls, having a rated capacity of not more than 75 people
- Millinery shops
- Music stores or repair shops
- Newsstands, open or enclosed
- Off-track betting establishments
- Pet shops
- Photographic equipment or supply stores
- ** #Physical culture or health establishments#, other than #adult physical culture establishments#, including gymnasiums, having a rated capacity of not more than 50 people
- Picture framing shops

Record stores

Shoe stores

Sporting or athletic goods stores

Stamp or coin stores

- * Studios, music, dance or theatrical, with no restriction on #floor area#

Taxidermist shops

Toy stores

Travel bureaus

Watch or clock stores or repair shops

D. Clubs

- * Clubs, non-commercial, without restrictions on activities or facilities

E. #Accessory uses#

- ** #Uses# listed in Use Group SB, marked with a double asterisk, are permitted only by special permit of the Board of Standards and Appeals, pursuant to the provisions of Section 73-36

(2/2/11)

94-063

Uses permitted by special permit

The City Planning Commission, by special permit, may allow the #uses# listed in Tables 1 and 2 in Areas A, B, C, D and E and the #uses# listed in Table 2 only in Area H, provided that the following findings are made:

- (a) the #use# is so located as not to impair the character of the surrounding area or its future development or cause any environmental hazards;
- (b) the principal vehicular access for such #use# is not located on Emmons Avenue, Sheepshead Bay Road, Ocean Avenue or

Bedford Avenue, except where no access is available from another #street#, and that such #use# will not cause undue congestion in local #streets#;

- (c) the #uses# listed under #manufacturing# establishments in Table 1 are #accessory# to the retail sales on the same #zoning lot# and such #uses# occupy not more than 50 percent of the #floor area# of the establishment and that such #uses# do not create objectionable noise, vibration, smoke, dust or odor; and
- (d) any public parking facilities provide adequate reservoir space at vehicular entrances, and that sufficient vehicular entrances and exits are provided to prevent traffic congestion.

The Commission may prescribe appropriate conditions or safeguards to minimize the adverse effect of any #use# permitted under this Section on the character of the surrounding area.

Table 1

A. #Manufacturing# Establishments

Art needlework, hand weaving, tapestries

Books, hand binding, tooling

Ceramics, custom

Jewelry manufacture, custom

Musical instruments (except pianos)

Printing, custom

Watchmaking

B. Amusements

Billiard parlors or pool halls, limited to 10 tables

Golf recreation centers, indoor, limited to 5,000 square feet

Skating rinks or ice skating rinks, outdoor or indoor, limited to one rink

Theaters, having a rated capacity of 500 people or less

Table 2

A. Automotive Service Establishments

#Parking garages#, #public#, or #parking lots#, #public#, with any capacity

B. Amusements

Historical exhibits, provided such #use# is contained mainly within a structure

Skating rinks or ice skating rinks, outdoor, may be enclosed in winter, limited to one rink

Tennis courts, outdoor, may be enclosed in winter, limited to four courts in Areas A, B, C, D and E and to eight courts in Area H

Swimming pools, commercial, limited to Area H

C. Service Establishments

Eating or drinking places, without restrictions on entertainment or dancing

(2/2/11)

94-064

Supplementary use regulations

The provisions of Article VII, Chapter 3 (Special Permits by the Board of Standards and Appeals), Sections 73-10 through 73-52, shall not apply in the Special District, except that Section 73-36 (Physical Culture or Health Establishments) shall be applicable.

(10/4/73)

94-065

Restriction on ground-floor use

In Areas A, B, C and D, the ground floor of a #building# shall not be used for #residences# except for #single#- or #two-family residences# or #accessory# lobbies.

(4/8/98)

94-066

Additional sign regulations

Where #illuminated signs# are permitted by the underlying district regulations, such #signs# shall have only indirect illumination. Where #signs#, other than #advertising signs#, are permitted by the underlying district regulations, such #signs# shall not extend above the roof level of any #building or other structure# in the Special District.

(10/4/73)

94-07

Mandatory Provisions

All #developments# within the Special District shall comply with the mandatory provisions made applicable by this Section and such mandatory improvements, when developed for a #floor area# bonus pursuant to Section 94-08 (Special floor area bonus provisions), shall require certification by the City Planning Commission, pursuant to Section 94-13.

(2/2/11)

94-071

Sidewalk extension area

All #developments# which are located on a #zoning lot# with frontage along Emmons Avenue, Sheepshead Bay Road, Ocean Avenue, Bedford Avenue or Nostrand Avenue shall contain a sidewalk extension area, which complies with the following requirements:

- (a) has a minimum depth of five feet, measured perpendicular to such #street lines#;
- (b) extends the full length of the #zoning lot# along such #street lines#, except for existing #buildings# within five feet of the #street line#;
- (c) is open and unobstructed from its lowest level to the sky;

- (d) maintains continuity with the established sidewalk, to which it shall be immediately adjacent throughout its entire length;
- (e) is available for public use at all times; and
- (f) has a paved surface which complies with standards as established by the New York City Department of Transportation.

(4/30/12)

94-072

Special plaza provisions

In Areas A, C and E, all #developments# that are located on a #zoning lot# with frontage along Emmons Avenue, except for a #zoning lot# of less than 8,000 square feet that was in existence as of November 1, 1972, shall provide and maintain a plaza for public use which complies with the following requirements:

- (a) The plaza shall #abut# the Emmons Avenue #street line# along the full length of such #lot line# or for a distance of at least 50 feet, whichever is less.
- (b) The plaza shall be directly accessible to the public at all times from Emmons Avenue or an #arcade# or a plaza.
- (c) The size of the plaza shall be at least 4,000 square feet in one location and shall not at any point be more than two feet below or five feet above #street# level, with a minimum dimension of 35 feet. At least 15 percent of the plaza area shall be landscaped and planted with trees, except, when a #zoning lot abutting# both Dooley Street and Emmons Avenue is #developed#, such landscaping shall be at least 75 percent of the total plaza area provided with such #development#.
- (d) The plaza shall contain lighting, pedestrian walks and sitting areas.
- (e) No portion of a plaza area shall be used for parking or driveways.
- (f) A plaza may include as permitted obstructions, sculptures, kiosks, or open cafes occupying in the aggregate not more than 30 percent of the total plaza area. Ice skating rinks are also allowed as permitted obstructions within such

plazas only for the months from October through March, provided the minimum area of such plaza is 7,500 square feet. Exterior wall thickness, awnings and other sun control devices, pursuant to Section 37-726, shall also be allowed as permitted obstructions.

(2/2/11)

94-08

Special Floor Area Bonus Provisions

In Areas A, C, D, E and F, any #development# on a #zoning lot# with an area of at least 20,000 square feet within the Special District shall be eligible for a #floor area# bonus as set forth in this Section.

In areas A and E, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used either for #residential use# on the same #zoning lot# or may be transferred to a #receiving lot# within the Special District, pursuant to Section 94-093 (Transfer of development rights from granting lots).

In Area C, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used either for #commercial use# on the same #zoning lot# or may be transferred to a #receiving lot# within the Special District, pursuant to Section 94-093.

In Area D, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used only for the purposes of transfer to a #receiving lot# within the Special District, pursuant to Section 94-093.

In Area F, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used only for #residential use# on the same #zoning lot#.

In no event shall the aggregate bonus #floor area#, permitted under the provisions of this Section, exceed the basic #floor area ratio# permitted for #residential use# by Section 94-09 (Special Bulk Regulations), by more than 60 percent in Areas A, C, D or E, or by more than 20 percent in Area F.

Any #floor area# bonus received according to the provisions of this Section shall require certification by the City Planning Commission, pursuant to Section 94-13.

(10/4/73)

94-081

Plaza bonus

In Areas A, C, D or E, any #development# on a #zoning lot# with a minimum area of 20,000 square feet which complies with the mandatory provisions of Section 94-07 (Mandatory Provisions) shall be eligible for a #floor area# bonus at the rate of 3.5 square feet of #floor area# for every square foot of plaza area.

(10/4/73)

94-082

Arcade bonus

In Areas A, C, D or E, any #development# located on a #zoning lot# with a #lot line# which coincides with any of the following #street lines#: Sheepshead Bay Road, Ocean Avenue or Emmons Avenue, shall be eligible for a #floor area# bonus at the rate of three square feet of #floor area# for every square foot of #arcade# space, as defined in Section 12-10, except that:

- (a) #arcades# shall be allowed only along the #street lines# described above and plazas;
- (b) the #arcade# may project or set back from the facade of a #building#;
- (c) the #arcade# shall not be less than 10 feet or more than 15 feet in depth;
- (d) the #arcade# shall be suitably heated for the months from October through March; and
- (e) no #signs# may be affixed to any part of the #arcade# or #building# columns, except on a parallel to the #building# wall projecting no more than 12 inches therefrom.

(2/2/11)

94-083

Special parking bonus

In Areas C, D or E, any #development# on a #zoning lot# with a minimum area of 20,000 square feet shall be eligible for a #floor area# bonus at the rate of one square foot of #floor area# for every square foot of #accessory commercial# parking space above the minimum amount required by the underlying district regulations and made available for daily long-term parking.

To be eligible for a #floor area# bonus under the provisions of this Section, there shall be at least five additional parking spaces provided and the size of each parking space shall be at least 300 square feet. In no event shall the dimension of any parking stall be less than 18 feet long and 8 feet, 6 inches wide.

(10/4/73)

94-084

Usable open space bonus

In Area F, any #development# on a #zoning lot# with a minimum area of 20,000 square feet shall be eligible for a #floor area# bonus at the rate of one square foot of #floor area# for every two square feet of usable open space. The minimum size of such usable open space on a #zoning lot# shall be 5,000 square feet with a minimum dimension of 50 feet. The usable open space shall be suitably maintained and shall contain landscaping, planting, lighting, sitting areas and, where appropriate, play areas for children. Such usable space shall be located no more than two feet below or five feet above the #curb level#. No portion of the usable open space shall be provided within 30 feet of the Leif Ericson Drive service road, and no portion of the usable open space shall be used for parking or driveways.

(10/4/73)

94-09

Special Bulk Regulations

(2/2/11)

94-091

Basic floor area ratio

For the purposes of this Chapter, the #floor area ratio# of a

#zoning lot# within the Special District shall not exceed the #floor area ratio# permitted by the underlying district regulations, except as set forth in Section 94-092 (Maximum floor area ratio).

(2/2/11)

94-092

Maximum floor area ratio

The permitted basic #floor area ratio# for #residential# or #community facility use# is 1.25 and for #commercial use# is 1.00. The permitted basic #floor area ratio# may be increased on any #zoning lot# by the amount set forth in Section 94-08 (Special Floor Area Bonus Provisions) or through transfer provisions pursuant to Section 94-094 (Authorization provisions for transfer of development rights to receiving lots).

In Areas A, E and F, the maximum #floor area ratio# for any #residential# or #community facility use# on a #zoning lot# shall in no event be more than 2.00 and for #commercial use# be no more than 1.00.

In Area C, the maximum #floor area ratio# for any #residential# or #community facility use# on a #zoning lot# shall in no event be more than 1.25 and for #commercial use# be more than 1.50. The maximum #floor area# in a #mixed building# within the Special District shall be the maximum #floor area# permitted for either the #residential# portion, the #community facility# portion or the #commercial# portion of such a #building#, whichever permits the greatest amount of #floor area#.

(10/4/73)

94-093

Transfer of development rights from granting lots

#Development rights# from a #granting lot# may be conveyed, or otherwise disposed of:

- (a) directly to a #receiving lot#; or
- (b) to a #person# for subsequent disposition to a #receiving lot# all in accordance with the provisions of this Special District. Any #person# may convey interest in all or any portion of such #development rights# to another #person#,

but such #development rights# may only be used for a #development# on a #receiving lot#.

In transferring #development rights# from #granting lots#, such bonus #floor area# shall not exceed 40 percent of the basic #floor area ratio# in Areas A, C and E, and shall not exceed 60 percent of the basic #floor area ratio# in Area D, as permitted on such #granting lots# by Section 94-09 (Special Bulk Regulations), inclusive.

(2/2/11)

94-094

Authorization provisions for transfer of development rights to receiving lots

The City Planning Commission, on application after public notice and hearing, may authorize the addition of all or any portion of the #development rights# from a #granting lot# to the permitted #floor area# of a #receiving lot#, provided that:

- (a) the maximum #floor area# for any #development# on a #receiving lot# does not exceed the maximum #floor area# permitted by Section 94-092 (Maximum floor area ratio);
- (b) the #development# shall aid in achieving the general purposes and intent of this Chapter as set forth in Section 94-00 (General Purposes);
- (c) the design of the #development# shall not impair the character of the surrounding area or its future development;
- (d) the distribution of the #bulk# on the #receiving lot# permits adequate access of light and air to surrounding #streets# and properties;
- (e) the traffic created by the #development# will not create or contribute to serious traffic congestion and will make adequate provisions for unconstrained pedestrian circulation; and
- (f) the requirements set forth in Sections 94-093 (Transfer of development rights from granting lots), 94-12 (Recordation) and 94-13 (Certification) are satisfied.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(10/4/73)

94-095

Open space ratio

For the purposes of this Section, the minimum required #open space ratio# for a #building# on a #zoning lot# shall be 40.0. However, if a #zoning lot# is #developed# pursuant to Sections 94-08 (Special Floor Area Bonus Provisions) or 94-094 (Authorization provisions for transfer of development rights to receiving lots), then the minimum #open space ratio# may be modified as set forth in this Section. For every 0.10 increase in permitted #floor area ratio# on a #zoning lot#, the corresponding required #open space ratio# may be decreased by not more than 2.0. In no event shall the required #open space ratio# on a #zoning lot# be less than 25.0.

(2/2/11)

94-10

SPECIAL REQUIREMENTS FOR BUILDING HEIGHT AND SETBACKS

The height and setback regulations set forth in Sections 23-631 (Height and setback in R1, R2, R3, R4 and R5 Districts), 34-24 (Modification of Height and Setback Regulations) and 35-61 (Height and Setback Regulations), shall not apply to #buildings# in the #Special Sheepshead Bay District#. In lieu thereof, height and setback regulations set forth in this Section shall apply. For #buildings# in #Residence Districts#, #building# height is measured from the #base plane#. For #buildings# in #Commercial Districts#, #building# height is measured from #curb level#.

In Areas A, B, C, D, E and F, the #street wall# or any other portion of a #residential building# or the #residential# portion of a #mixed building#, except for a structure which encloses only #accessory# parking fronting on the Leif Ericson Drive service road #street line#, shall be set back a minimum distance of 10 feet from all #street lines#. Beyond the #initial setback distance#, the #building# shall not exceed the maximum height as set forth in this Section.

In Area A, the maximum height of a #street wall# or other portion of a #building# within 25 feet of the Emmons Avenue or 15 feet of the Sheepshead Bay Road #street lines# shall not exceed two #stories# or 30 feet, whichever is fewer. Beyond the #initial

setback distances# in Area A, the #building# shall not exceed seven #stories# or 85 feet, whichever is fewer.

In Area C, the maximum height of a #street wall# or other portion of a #building# within 25 feet of the Emmons Avenue or Ocean Avenue #street lines# shall not exceed two #stories# or 30 feet, whichever is fewer. Beyond the #initial setback distance# of 25 feet in Area C, the #building# shall not exceed four #stories# or 50 feet, whichever is fewer.

In Areas B and D, a #building# shall not exceed four #stories# or 50 feet, whichever is fewer.

In Areas E and F, within 75 feet of the Emmons Avenue #street line#, the maximum height of any portion of a #building# shall not be more than three #stories# or 35 feet, whichever is fewer. Beyond the #initial setback distance# of 75 feet in Areas E and F, the #building# shall not exceed six #stories# or 75 feet, whichever is fewer.

In Areas G and H, a #building# shall not exceed three #stories# or 35 feet, whichever is fewer. However, the City Planning Commission may, by a special permit, modify such height restrictions, provided that:

- (a) the distribution of the #bulk# permits adequate access of light and air to surrounding #streets# and properties, and does not impair the view of the Bay; and
- (b) the height of such #building# does not exceed five #stories# or 50 feet, whichever is fewer.

The Commission may prescribe appropriate conditions and safeguards to protect the view of the Bay and to minimize the adverse effects on the character of the surrounding areas.

(10/4/73)

94-11

Special Parking Provisions

(2/2/11)

94-111

Curb cuts

No curb cuts shall be permitted on Emmons Avenue, Sheepshead Bay Road, Ocean Avenue, Bedford Avenue or Nostrand Avenue except that where no access is available on a #zoning lot# from another #street#, one curb cut shall be permitted.

(10/4/73)

94-112

Restricted location

In Areas A, B, C, D, E and F, no open off-street parking shall be located within 30 feet of the #street lines# of Emmons Avenue, Sheepshead Bay Road, Ocean Avenue, Bedford Avenue or Nostrand Avenue.

(10/4/73)

94-113

Treatment of parking areas

Any parking facilities in the Special District that are not completely enclosed shall be screened by shrubbery at least three feet high at the time of planting and expected to form a year-round dense screen at least five feet high within three years. When roof parking is provided, it shall be screened where it is visible from a #street#, plaza or public usable open space.

(2/2/11)

94-114

Exception to application of waiver provisions

In areas A, B, C, D, E and F, the provisions of Section 36-23 (Waiver of Requirements for Spaces below Minimum Number) do not apply.

(10/4/73)

94-115

Location of commercial parking spaces

In Area F, #accessory# off-street parking spaces for #commercial uses# may be located outside the commercially zoned area but within 600 feet of the #building# to which it is #accessory#, only if an area equal to the #lot area# occupied by the parking in the #residential# area is provided as a #public plaza# in the commercially zoned area to which the parking is #accessory#.

(10/4/73)

94-12

Recordation

At the time of transfer of #development rights# from a #zoning lot#, there shall be recorded in the land records and indexed against such #granting lot# from which #floor area# is removed, an instrument removing such #floor area# and prohibiting construction on such lot from which the #floor area# is taken, of any #building or other structure# which would contain a #floor area# in excess of that still available to the #zoning lot# after deducting the #floor area# removed. Such prohibition shall be non-cancelable for 99 years and, at the time of the addition of #development rights# to a #receiving lot# as provided in Section 94-094 (Authorization provisions for transfer of development rights to receiving lots), there shall be recorded in the land records and indexed against such #zoning lot# to which #floor area# is added, an instrument transferring the #floor area# to the #receiving lot# benefited. A certified copy of such instruments shall be submitted to the City Planning Commission upon recordation thereof.

(10/4/73)

94-13

Certification

An application for certification pursuant to Sections 94-07 (Mandatory Provisions) or 94-08 (Special Floor Area Bonus Provisions), by the City Planning Commission shall include:

- (a) written notice of intention to #develop# a #zoning lot# within the Special District;
- (b) plans for lot improvements, which shall be constructed on both #granting# and #receiving lots#; and
- (c) consents, agreements, restrictive declarations or legal

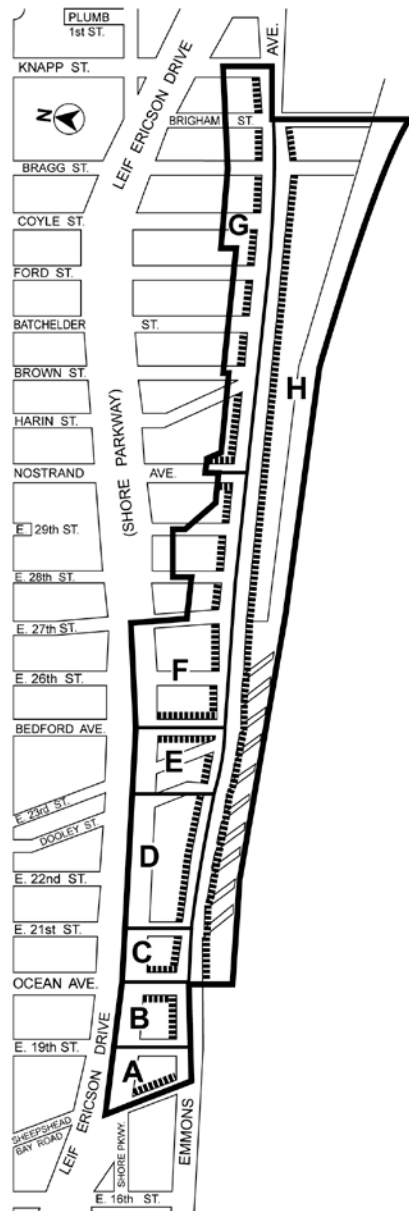

documents obligating the owner of the #zoning lot# or its designee to #develop# its property in accordance with the provisions of this Chapter.

The City Planning Commission may prescribe appropriate conditions and safeguards in connection with the issuance of such certification.

Article IX - Special Purpose Districts

Chapter 5

Special Transit Land Use District

(11/7/74)

95-00

GENERAL PURPOSES

The "Special Transit Land Use District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include the following specific purposes:

- (a) to minimize the conflict between normal pedestrian movements on public sidewalks and access to underground transit systems, by requiring developments within the Special District to provide access to underground transit or other subway amenities;
- (b) to reduce congestion on city streets in the vicinity of transportation nodes, by encouraging the provision of adequate underground pedestrian circulation systems;
- (c) to require adequate access of light and air to the subway mezzanines or station areas of the underground transit system and other related facilities in order to provide greater visibility and safety to below ground spaces;
- (d) to encourage development that reinforces and preserves the character of the existing communities within the area, by promoting needed pedestrian amenities;
- (e) to coordinate the present and future relationship of land uses within the Special District including weather protected public access to the underground transit system; and
- (f) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

(2/2/11)

95-01

Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

(2/2/11)

95-02

General Provisions

#Special Transit Land Use Districts# are mapped in the vicinity of existing or proposed subway stations. Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect.

Whenever this Special District overlaps another Special District and imposes contradictory regulations, the provisions of the #Special Transit Land Use District# shall apply. Nothing contained in this regulation shall be understood to supersede Landmark or Historic District designations of the New York City Landmarks Preservation Commission.

(2/2/11)

95-03

Transit Easement

Any #development# or #enlargement# involving ground level construction within the #Special Transit Land Use District# shall provide an easement on the #zoning lot# for subway-related use and public access to the subway mezzanine or station when required pursuant to the provisions of Section 95-04.

The issuance by the Department of Buildings of an excavation permit for any #zoning lot# located within the Special District shall be dependent upon prior compliance with the provisions of this Chapter.

The transit easement required on a #zoning lot# shall permit the realization of one or more of the following planning objectives:

- (a) the integration and relating of subway station design to surrounding development;

- (b) the introduction of light and air to stations and mezzanines;
- (c) the reduction of conflict between pedestrian movements and station facilities on the #street# level;
- (d) the provision of weather protection for subway entrances;
- (e) the relation of subway entrances to #commercial# and other transit facilities;
- (f) the provision of maximum visual exposure of subway entrances from public areas; and
- (g) the elimination or reduction of adverse environmental impact accompanying subway development.

In no event, however, may the easement area be used temporarily or permanently for any other purpose not immediately related to pedestrian amenity, except as hereinafter provided.

(2/2/11)

95-031

Selection of transit easement

The transit easement required on a #zoning lot# shall constitute a volume whose dimensions above and below #curb level# shall comply with the requirements as set forth in Table A or Table B of this Section, depending on the depth of the proposed subway mezzanine below #curb level#, as established by the Metropolitan Transportation Authority.

Six possible types of transit easements are listed in Table A and in Table B. The applicant for a #development# or an #enlargement# involving ground level construction shall, in consultation with the Metropolitan Transportation Authority and the City Planning Commission, select the easement type that is most appropriate for the location.

TABLE A
MINIMUM DIMENSIONS FOR TRANSIT EASEMENT VOLUME
(in feet)

Stations: Houston St., Kips Bay, Lenox Hill and E. 96th St.

Easement Type	Height above #Curb Level#(h)	Depth below #Curb Level#* (D)	Length (L)	Width (W)	#Zoning Lots# less than 10,000 sf	#Zoning Lots# 10,000 sf or more
1	15	20	80	20	x	
2	15	30	80	20	x	x
3	15	30	85	32		x
4	15	25	80	10	x	
5	15	30	80	10	x	
6	15	25	60	20	x	

* See Section 95-054

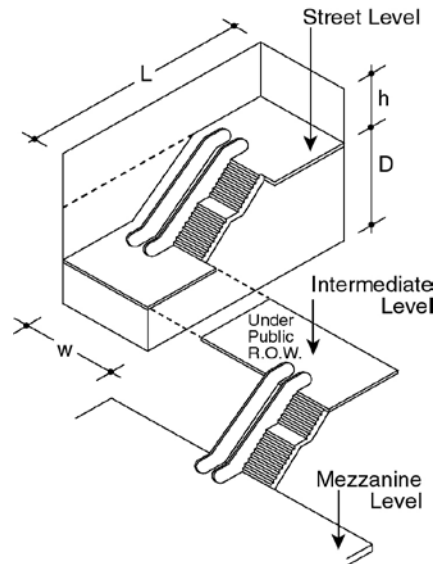

TABLE B
 MINIMUM DIMENSIONS FOR TRANSIT EASEMENT VOLUME
 (in feet)

Stations: Chatham Square, Grand St., 14th St., 23rd St., UN Plaza, East Midtown, Yorkville, Franklin Plaza, and Triboro Plaza

Easement Type	Height above #Curb Level#(h)	Depth below #Curb Level#* (D)	Length (L)	Width (W)	#Zoning Lots# less than 10,000 sf	#Zoning Lots# 10,000 sf or more
1	15	20	80	20	x	
2	15	40	100	20	x	x
3	15	40	85	32		x
4	15	35	100	10	x	
5	15	40	100	10	x	
6	15	35	65	20	x	

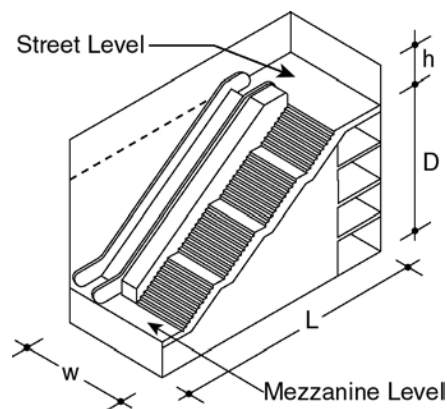

* See Section 95-054

Type 1 is appropriate on #zoning lots# of less than 10,000 square feet with adequate lot frontage and where the Metropolitan Transportation Authority provides final access to the subway mezzanine level under a public right-of-way.

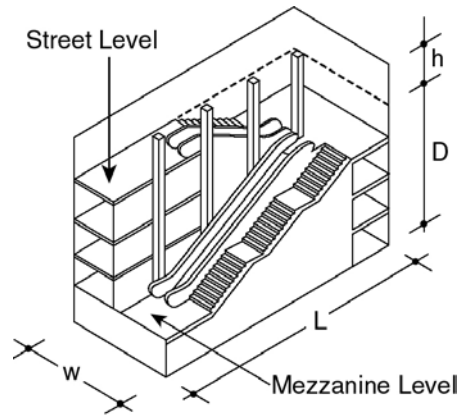

(95-031.1)

Type 2 is appropriate on any size #zoning lot# for providing direct access to the subway mezzanine level by a "straight run" stairway and/or escalator.

(95-031.2)

Type 3 is applicable to #zoning lots# of 10,000 square feet or more for providing a "turn around" arrangement of stairs.

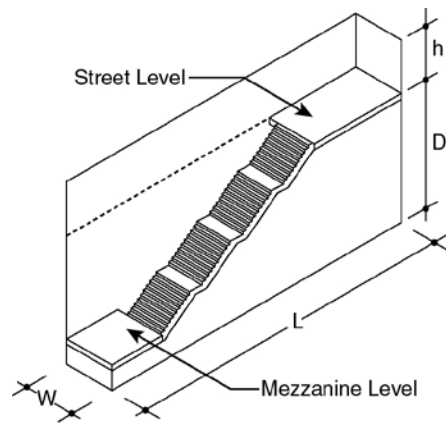

(95-031.3)

Types 4 and 5 are limited to #zoning lots# of less than 10,000 square feet with a narrow lot frontage for a single "straight-run" transit access facility, such as an escalator or stairway.

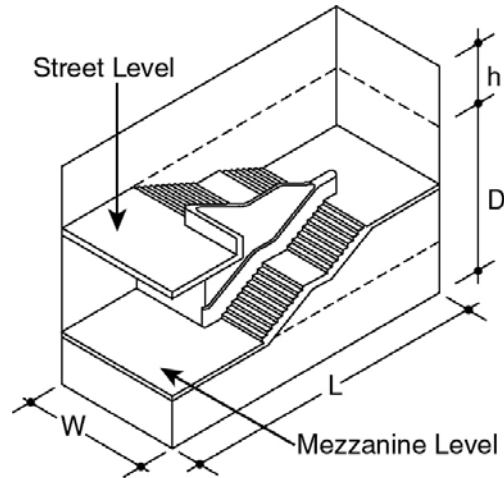

(95-031.4)

(95-031.5)

Type 6 is appropriate on #zoning lots# of less than 10,000 square feet for providing a "turn around" arrangement of stairs.

(95-031.6)

Where appropriate, any of these easement types may be used exclusively for light wells.

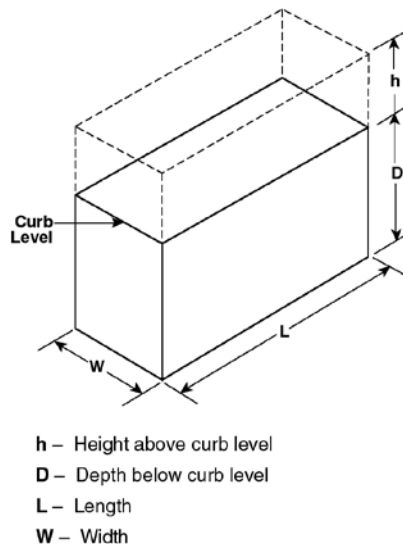

The Metropolitan Transportation Authority and the Commission, in consultation with the applicant, may make minor modifications of the dimensions of the easement volume type required on the applicant's site and the spacing of #building# columns permitted within the easement volume to facilitate the design and construction of circulation facilities appropriate for the area.

(10/17/07)

95-032

Location of transit easements

The transit easement volume may be located within a #building#, in open areas, including #public plazas#, or in areas covered by projected overhangs of a #building#. At least one vertical face of the easement volume shall be at a #front lot line#. The easement volume shall be located on the #zoning lot# as close as possible to the #street# containing the transit line.

TRANSIT EASEMENT VOLUME
(95-032)

(12/20/79)

95-04

Certification of Transit Easement Volume

(2/2/11)

95-041

For developments or enlargements

Prior to filing any applications with the Department of Buildings for an excavation permit or building permit for a #development# or #enlargement# within the #Special Transit Land Use District#,

the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority and the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Upon receipt of the completed application, the Commission shall furnish a copy to the affected Community Board.

Within 60 days after receipt of such application, the Metropolitan Transportation Authority and the Commission shall jointly certify whether or not an easement is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the Metropolitan Transportation Authority and the Commission indicate that such easement is required, the owner shall submit a site plan indicating the location and type of easement volume that would be most compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the Metropolitan Transportation Authority and the Commission. Copies of such certification shall be forwarded by the City Planning Commission to the Department of Buildings.

Use Group T #uses# shall not be permitted in #Residence Districts# prior to the improvement of a transit easement in accordance with approval and certified plans.

(2/2/11)

95-042

For substantially vacant existing zoning lots

When a #zoning lot# located within the #Special Transit Land Use District# is substantially vacant and appropriate for a transit easement, the Metropolitan Transportation Authority may request the City Planning Commission to certify that a portion of such #zoning lot# is necessary for a transit easement.

As a condition for securing a transit easement on such #zoning lot#, the Commission shall make the following findings:

- (a) that such transit easement is required by the Metropolitan Transportation Authority to provide public access to a subway mezzanine or to a public passageway leading to a subway mezzanine or platform;
- (b) that such transit easement is located on a vacant portion of

a #zoning lot#;

- (c) that the use of the transit easement will not reduce development potential on the #zoning lot# under the applicable district regulations; and
- (d) that the Metropolitan Transportation Authority and the owner agree that the construction within the easement volume will be integrated with the total development.

At such time as an existing vacant #zoning lot# on which a transit easement volume provided pursuant to the provisions of this Section, is #developed#, it shall be subject to all regulations of this Chapter.

(10/17/07)

95-05

Terms and Conditions for Permitted Uses and Construction within Transit Easement Volume

The transit easement volume shall be used as an entrance/exit for public access to the subway and/or to provide better access of light and air to the subway station mezzanine, and for related uses. Illustrative of such purposes are light wells, stairs, ramps, escalators or elevators.

No #floor area# bonus shall be allowed for any transit easement provided on a #zoning lot#. When a transit easement volume required on a #zoning lot# is located within a #building#, any floor spaces occupied by such transit easement volume shall not count as #floor area#. Any portion of the #lot area# of a #zoning lot# occupied by a transit easement and weather protected by an overhang or roofed area, shall be considered as a #public plaza# in the districts that allow such #public plaza# bonuses.

The transit easement volume, any construction allowed therein or any weather protection provided thereon by an overhang or roofed area pursuant to Section 95-053, shall be considered permitted obstructions within required #yards#, #open space# or in a #public plaza# area.

(2/2/11)

95-051

Development of transit access facilities

All access facilities, including any light wells or sky lights required within a transit easement volume, shall be constructed and maintained by the Metropolitan Transportation Authority except for any #building# columns, footings or any other permitted obstructions allowed therein.

The subway entrance within the transit easement volume and any adjoining #public plaza# shall be at the same elevation as the adjoining sidewalk and shall be directly accessible to the public at all times. When such entrance is not located at the #street line#, it shall be visually prominent and directly accessible from a #street# by a paved pedestrian walk at least 20 feet in width and at the same elevation as the adjoining sidewalk. Such privately-owned pedestrian walk shall be maintained by the owner. In order to provide natural light to the subway mezzanine level, at least 10 percent of the transit easement area at #curb level# shall be provided with light wells and skylights.

(2/2/11)

95-052

Special access facilities for persons with disabilities

Special elevators for persons with disabilities may locate within a transit easement volume, provided stair and/or escalator access to the subway mezzanine are located within the same easement and in no event located within the public sidewalk adjacent to the #zoning lot#.

Such special elevators shall be designed by the Metropolitan Transportation Authority in consultation with the owner of the #zoning lot# and shall be integrated architecturally, including color and material, with the #buildings# on the #zoning lot# and with adjoining #public plaza# area. Design concept for such elevators shall be submitted to the City Planning Commission for certification.

(2/2/11)

95-053

Weather protection

The stairs or escalators providing pedestrian access to the

subway mezzanine, which are not covered at the entrance level, shall be weather protected by the #building# or portion thereof including an overhang, or by a roofed area provided by the owner of the #zoning lot# in accordance with the Metropolitan Transportation Authority requirements. Such overhang or roofed area shall cover either or both the stairway and the escalator which are uncovered at the ground level. Any overhang or roofed area shall be sufficient to cover the access facilities within the easement volume and may not otherwise obstruct the #public plaza#.

When the subway entrance is within an open #public plaza# area, a roof area shall be provided with either a glazed or translucent material for at least 50 percent of its surface area. The roofed area shall be no more than 15 feet above #curb level# and shall blend harmoniously with the #buildings# on the #zoning lot# and any adjoining #public plaza# or open area.

(2/2/11)

95-054

Permitted uses and other constructions

Areas within the easement volume not used for circulation purposes may be developed only with newsstands, cigar stands, flower stands or similar stands, in accordance with the Metropolitan Transportation Authority specifications, provided they do not interfere with pedestrian circulation and are made of removable structures. In no event shall such permitted #uses# be located within 10 feet of a pedestrian entrance to the subway at #curb level#.

In addition, any portion of the transit easement volume at #curb level# not to be covered for weather protection, may contain trees, benches or any obstructions permitted in a #public plaza# area. However, such elements shall not interfere with the pedestrian movement.

The Metropolitan Transportation Authority and the City Planning Commission may permit penetration of the transit easement volume above #curb level# by a #building# lobby, including #building# columns, where such lobby space serves as a part of the pedestrian circulation system and provides from it direct public access to the subway entrance within the easement volume.

Where construction within a transit easement volume is more than five feet in height above #curb level#, such construction proposal shall be submitted to the Commission for a review and

certification to ensure that such construction relates harmoniously to the total development. When a transit easement volume is located within a #building#, it shall be open to the general public for the same hours of operation as the subway station.

#Building# columns or footings are permitted inside the transit easement volume, provided that the minimum clear distance between any columns is 12 feet and between the columns and any bounding walls of the transit easement volume is 10 feet. Where the width of an easement is greater than 20 feet, location of columns within the easement volume shall be established in consultation with the Metropolitan Transportation Authority. In all cases, the depth of columns or footings within the easement area or adjoining area shall be established in consultation with the Metropolitan Transportation Authority. Furthermore, vertical space between such columns shall be open and unobstructed from its base except for any construction permitted under the provisions of this Chapter.

(2/2/11)

95-055

Knockout panel

Any underground walls constructed along the #front lot line# of a #zoning lot# in which transit easement volume is required by the Metropolitan Transportation Authority shall contain a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be indicated by the Metropolitan Transportation Authority.

(2/2/11)

95-06

Temporary Use of the Easement Area

Any easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Metropolitan Transportation Authority or by its designee for subway purposes.

Temporary #use# of the transit easement volume above #curb level# in a #public plaza# or #open space# area shall be limited to

#use# as a landscaped open area that may contain obstructions permitted in a #public plaza#. Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public #use# of the easement area is required. A minimum notice of six months in writing shall be given by the Metropolitan Transportation Authority to the owner of the #zoning lot# in order to vacate the tenants of such temporary #uses#.

(2/2/11)

95-07

Special Provisions for an Increase in Zoning Tower Coverage on Zoning Lots Containing Transit Easements

For any #zoning lot# on which a transit easement volume is required pursuant to Section 95-04, the #lot coverage# of a tower permitted by the underlying district regulations may be increased by an amount equal to 10 percent of the #lot area# of the #zoning lot#.

In no event shall the permitted increase in tower coverage on a #zoning lot# affect the maximum allowable #floor area ratio# under the applicable district regulations.

(2/2/11)

95-08

Special Use Regulations

In order to promote the continued development of retail and related #uses# which are most appropriate for pedestrians using transit facilities, the only #commercial uses# permitted in the subway mezzanine level, along with the bounding walls of the transit easement volume and at the ground #story# of any #development# or #enlargement# within the Special District, shall be those #uses# listed in Use Group T in Section 95-081.

Use Group T #uses# shall not be permitted in #Residence Districts# prior to the improvement of a transit easement in accordance with approved and certified plans.

In all underlying districts within the Special District, below the lowest #story# occupied by #residential uses#, Use Group T #uses# are permitted to occupy no more than two #stories# above

#curb level#. However, #uses# listed in paragraphs A, C or E of Section 95-081 are permitted within the Special District only where allowed by the underlying district regulations. Location of #commercial uses# within a #building# shall be governed by the provisions of Section 32-42.

In the subway mezzanine, at ground #story# and along the bounding walls of the transit easement volume, the frontage occupied by any #uses# shall not exceed 25 linear feet per establishment within a distance of 75 feet from the edge of the easement volume at any level.

(2/8/90)

95-081

Use Group T

Use Group T comprises a group of retail establishments selected to promote and strengthen retail business in the Special District. #Uses# marked with an asterisk (*) shall not be located at the subway mezzanine level or along the bounding walls of a transit easement volume.

A. Amusements

Billiard parlors or pool halls

Model car hobby centers, including racing

Theaters

B. Convenience Retail or Service Establishments

Bakeries, provided that no floor space is used for production

Barber shops

Beauty parlors

Drug stores

*Dry cleaning or clothes pressing establishments or receiving stations dealing directly with ultimate consumers, limited to 2,000 square feet of #floor area# per establishment, and provided that only solvents with a flash point of not less than 138.2 degrees Fahrenheit shall be used, and total aggregate dry load capacity of machines

shall not exceed 60 pounds

Eating or drinking establishments, including those which provide outdoor table service or have music for which there is no cover charge and no specified showtime

Eating or drinking establishments, with musical entertainment, but not dancing, with a capacity of 200 persons or fewer

*Food stores, including grocery stores or delicatessen stores

*Fruit stands, including supermarkets or meat markets

Hardware stores

*Laundry establishments, hand or automatic self-service

*Package liquor stores

Post offices

Shoe or hat repair shops

Stationery stores

Tailor or dressmaking shops, custom

Variety stores, limited to 10,000 square feet of #floor area# per establishment

C. Offices

*Offices, business, professional or governmental

D. Retail or Service Establishments

Antique stores

Art galleries, commercial

Artists' supply stores

Banks

Bicycle sales

*Blueprinting or photostatting establishments

Book stores

*Business schools or colleges

Candy stores or nut stores

*Carpet, rug, linoleum or other floor covering stores

Cigar or tobacco stores

Clothing or accessory stores

Clothing or costume rental establishments

Dry goods or fabric stores

Electrolysis studios

Fishing tackle or equipment, rental or sales

Florist shops

Furniture stores

Furrier shops, custom

Gift shops

**Gymnasiums, used exclusively for basketball, handball, squash and tennis

*Ice cream stores

Interior decorating establishments, provided that #floor area# used for processing, servicing or repairs shall be limited to 750 square feet per establishment

Jewelry or art metal craft shops

Leather goods or luggage stores

Loan offices

Locksmith shops

*Medical or orthopedic appliance stores

*Meeting halls

Millinery shops

Music stores
Musical instrument repair shops

Newsstands, open or enclosed

Optician or optometrist establishments

*Paint stores

*Pet shops

Photographic equipment or supply stores

Photographic studios

** #Physical culture or health establishments#, including
gymnasiums (not listed under Use Group 9), reducing salons,
massage establishments or steambaths, but other than #adult
physical culture establishments#

Picture framing shops

Record stores

Seed or garden supply stores

Sewing machine stores, selling household machines only

Shoe stores

Sporting or athletic stores

Stamp or coin stores

Studios, art, music, dancing or theatrical

Telegraph offices

* Television, radio, phonograph or household appliance repair
stores

Television, radio, phonograph or household appliance shops

Toy stores

Travel bureaus

Typewriter or other small business machine repair shops

Typewriter stores

Umbrella repair shops

Wallpaper stores

Watch or clock stores or repair shops

E. Other Retail or Wholesale Establishments

Department stores

*Hair products for headwear, wholesaling, including styling

*Medical or dental laboratories for research or testing, or the custom manufacture of artificial teeth, dentures or plates, not involving any danger of fire or explosion nor offensive noise, vibration, smoke or other particulate matter, odorous matter, heat, humidity, glare or other objectionable effects

*Photographic developing or printing establishments, limited to 2,500 square feet of #floor area# per establishment

Plumbing, heating or ventilating equipment showrooms, without repair facilities

F. Clubs

All types of clubs, without restrictions on activities or facilities

G. #Accessory uses#

**#Uses# in Use Group T marked with a double asterisk are permitted only by special permit of the Board of Standards and Appeals, pursuant to the provisions of Section 73-36

(5/8/13)

95-09

Special Regulations for Accessory Off-Street Parking and Curb Cuts

Within the portion of the #Special Transit Land Use District# located within the #Manhattan Core#, the provisions of Article I,

Chapter 3 (Comprehensive Off-Street Parking and Loading Regulations in the Manhattan Core), inclusive, shall apply. For all other portions of the #Special Transit Land Use District#, the provisions of this Section shall apply.

On any #zoning lot# on which a transit easement volume is provided, the required #accessory# off-street parking requirements for #residential uses# of the applicable underlying districts shall be reduced to a maximum of 20 percent.

In no case within the Special District shall curb cuts for vehicular access be located on a #street# containing transit lines or on a #street# within 50 feet of its intersection with the #street lines# of such a #street#.

The #accessory# parking requirements shall not apply to any #development# or #enlargement# for which the Commissioner of Buildings has certified that there is no way to provide the required parking spaces with access to a #street# in conformity with the provisions of this Section.

(4/30/08)

95-10

MISCELLANEOUS PROVISIONS

The pavement on a public sidewalk fronting a #development# within the #Special Transit Land Use District# shall be consistent in color and material with all pavements located within the transit easement volume and in any adjoining #public plaza#.

(4/30/08)

95-11

Recordation

The instrument creating a transit easement volume shall be recorded in the place and county designated by law for the filing of deeds and restrictions on real property, a certified copy of which shall be submitted to the City Planning Commission.

(2/2/11)

95-12

Termination of Transit Easement Volume

In the event that the Metropolitan Transportation Authority and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not required on a #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Chapter shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the Metropolitan Transportation Authority to the extinguishment of the easement volume. On any #zoning lot# which has been #developed# or upon which a #building# is #enlarged# in accordance with the provisions of Section 95-07 and on which termination of transit easement has been certified, pursuant to this Section, any open, enclosed or arcaded area reserved for transit easement at #curb level# shall be provided for public use with lighting, landscaping, trees, substantial artwork and sitting facilities.

(2/2/11)

95-13

Previous Transit Easement Agreements

Whenever, under prior zoning regulations, the owner of a #development# or #enlargement# has agreed to provide a transit easement volume on a #zoning lot#, the existence of such agreement shall be certified by the Chairperson of the City Planning Commission to the Department of Buildings. Such agreement shall be deemed to satisfy the provisions of this Chapter.

Article IX - Special Purpose Districts

Chapter 6

Special Clinton District

(1/19/05)

96-00

GENERAL PURPOSES

The "Special Clinton District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. Because of the unique geographical location of the Clinton community, situated between the waterfront on the west and a growing central business district on the east, it is necessary to provide specific programs and regulations which will assure realization of community and city-wide goals.

These goals include, among others, the following:

- (a) to preserve and strengthen the residential character of the community;
- (b) to permit rehabilitation and new construction within the area in character with the existing scale of the community and at rental levels which will not substantially alter the mixture of income groups presently residing in the area;
- (c) to preserve the small-scale character and variety of existing stores and activities and to control new commercial uses in conformity with the existing character of the area;
- (d) to recognize the unique character of the eastern edge of the District as an integral part of the Theater Subdistrict within the Special Midtown District as well as the Special Clinton District;
- (e) to provide an appropriate transition from the mixed-use character along Eighth Avenue to the lower-scale residential character of the Clinton community on the narrow streets;
- (f) to relate the unique character of the 42nd Street Perimeter Area to the adjacent #Special Hudson Yards District#;

- (g) to provide amenities, such as street trees, to improve the physical environment;
- (h) to restrict demolition of buildings that are suitable for rehabilitation and continued residential use; and
- (i) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

(2/2/11)

96-01

Definitions

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

Certification of no harassment

"Certification of no harassment" shall mean a certification by the Department of Housing Preservation and Development pursuant to Section 96-110 that there has not been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#, as defined in Section 96-110.

Harassment

"Harassment" shall mean any conduct by or on behalf of an owner of a #multiple dwelling# that includes:

- (a) the use or threatened use of force which causes or is intended to cause any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive any rights in relation to such occupancy;
- (b) the interruption or discontinuance of essential services which:
 - (1) interferes with or disturbs or is intended to interfere with or disturb the comfort, repose, peace or quiet of any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in the use or

occupancy of such #dwelling unit# or #rooming unit#;
and

- (2) causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to surrender or waive any rights in relation to such occupancy;
- (c) a failure to comply with the provisions of subdivision (c) of section 27-2140 of article seven of subchapter five of the Housing Maintenance Code which causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such unit or to waive any rights in relation to such occupancy; or
- (d) any other conduct which prevents or is intended to prevent any person from the lawful occupancy of such #dwelling unit# or #rooming unit# or causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to surrender or waive any rights in relation to such occupancy, including but not limited to removing the possessions of any occupant from the #dwelling unit# or #rooming unit#; removing the door at the entrance to the #dwelling unit# or #rooming unit#; removing, plugging or otherwise rendering the lock on such entrance door inoperable; or changing the lock on such entrance door without supplying the occupant with a key.

For purposes of this definition, #dwelling unit#, #referral date# and #rooming unit# shall be defined as in Section 96-110.

Material alteration

"Material alteration" shall mean any alteration to a #multiple dwelling# including, but not limited to, an alteration which reduces or increases the #floor area# of the #multiple dwelling#, #converts floor area# from #residential# to non-#residential use#, changes the number or layout of #dwelling units# or #rooming units#, or adds or removes kitchens or bathrooms; provided, however, that #material alteration# shall not include:

- (a) an #incidental alteration# which does not change the layout of #dwelling units# or #rooming units#; or
- (b) a repair or replacement of existing elements of such #multiple dwelling# without materially modifying such elements.

For purposes of this definition, #dwelling unit# and #rooming unit# shall be defined as in Section 96-110.

Mixed building

For the purposes of this Chapter, a "mixed building" is a #building# in a #Commercial District# used partly for #residential use# and partly for #community facility# or #commercial use#, or a #building# in a #Residence District# used partly for #residential use# and partly for #community facility use#.

Multiple dwelling

"Multiple dwelling" shall have the meaning set forth in the Multiple Dwelling Law.

(10/9/13)

96-02

General Provisions

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts, or as modified by the #Special Midtown District#, remain in effect.

The #Special Midtown District# and its regulations, where applicable in the #Special Clinton District#, shall also apply and shall supplement or supersede regulations as set forth in this Chapter pursuant to Section 96-22 (Special Regulations for Eighth Avenue Perimeter Area). In the event of any conflict or discrepancy between the regulations, the more restrictive regulations shall apply in accordance with Section 11-22 (Application of Overlapping Regulations). This portion of the Special Purpose District is designated on the #zoning map# by the letters "CL-MiD."

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

(8/17/90)

96-03

District Map

The District Map for the #Special Clinton District# (Appendix A) identifies specific areas comprising the Special District in which special zoning regulations carry out the general purposes of the #Special Clinton District#. These areas and the sections of this Chapter which contain regulations pertaining thereto are as follows:

Area A - PRESERVATION AREA, Section 96-10

Area B - PERIMETER AREA, Section 96-20

Area C - OTHER AREAS, Section 96-30

(2/2/11)

96-10

PRESERVATION AREA

The provision of this Section shall apply to all #developments#, #enlargements#, #extensions# or alterations. All existing #buildings# within the Preservation Area shall be considered complying #buildings# for all purposes including, but not limited to, alterations, #enlargements#, #extensions# or #conversions# to #residential uses#. Any existing #building# which is damaged or destroyed by any means may be reconstructed to its #bulk# prior to such damage or destruction. All existing legal #uses# in enclosed #buildings# shall be considered conforming #uses#. Except as otherwise provided in this Chapter, any existing #commercial# or #manufacturing uses# may be changed, subject to the applicable underlying district regulations, pursuant to the change of #non-conforming use# provisions of Sections 52-31, 52-33, 52-34, 52-35 and 52-36.

(2/2/11)

96-101

Floor area regulations

For any #zoning lot# within the Preservation Area, the #floor area ratio# for a #residential#, #commercial# or #community facility building#, or portions of a #mixed building# containing such #uses#, shall not exceed the following:

#Uses#	#Floor Area Ratio#
#Residential buildings# or #community facility buildings# or portions of #mixed buildings# containing #residential# or #community facility uses# in the following Districts:	
R8 C1-5 C2-5 C6-2	4.2
#Commercial buildings# or #commercial# portion of #mixed buildings# in the following Districts:	
C1-5 C2-5	2.0
C6-2*	4.2

-
- * In C6-2 Districts, for #zoning lots#, or portions thereof, comprised of listed theaters designated in Section 81-742 of the #Special Midtown District#, the City Planning Commission shall allow a transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). The basic maximum #floor area ratio# for transfer purposes for such #zoning lots#, or portions thereof, shall be 6.02.

The maximum #floor area# in a #mixed building# shall be the maximum #floor area# permitted for either the #commercial# portion of such #building# or the #community facility# portion of such #building# or the #residential# portion of such #building#, as set forth in this Section, whichever permits the greatest amount of #floor area#.

(2/2/11)

96-102

Lot coverage regulations

Within the Preservation Area, the #open space# requirement of Article II, Chapter 3, and the #lot coverage# provisions of Section 24-11, are not applicable. The #lot coverage# provisions of this Section apply in lieu thereof. In C6-2 Districts, for the purposes of determining #lot coverage#, any part of a #building# that is listed as a permitted obstruction in #open space# or in a #rear yard# shall not be included in #lot coverage#. For #zoning lots#, or portions thereof, located within 100 feet of the

#street line# of a #wide street#, the maximum #lot coverage# shall not exceed 70 percent. For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 60 percent.

Any #development# containing #residential uses# shall provide a minimum of 20 percent of the #lot area# of a #zoning lot# as usable, landscaped open area for occupants of #dwelling units# or #rooming units# in the #development#.

(4/30/08)

96-103

Yard regulations

The #yard# regulations of this Section apply to any #development# or #enlargement#.

For #zoning lots#, or portions thereof, located within 100 feet of the #street line# of a #wide street#, no #rear yard# shall be required.

For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, a #rear yard# having a minimum depth of 30 feet shall be required.

On a #through lot#, or portion thereof, more than 100 feet from the #street line# of a #wide street#, the #rear yard equivalent# provisions of Section 23-532, paragraph (a), shall apply.

(6/14/11)

96-104

Height and setback regulations

The underlying height and setback regulations shall not apply, except as set forth in Sections 23-62 or 33-42 (Permitted Obstructions), as applicable. In lieu thereof, the height and setback provisions of this Section shall apply. All height shall be measured from #curb level#.

(a) #Street wall# location

For #zoning lots# with #wide street# frontage, #street walls# shall be located on the #wide street line# and extend

along the entire #wide street# frontage of the #zoning lot#. For #corner lots# with #narrow street# frontage, #street walls# shall be located on and extend along the #narrow street line# within 50 feet of the #wide street#.

For #zoning lots# with #narrow street# frontage, #street walls# shall be located on the #street line# and extend along the entire #narrow street# frontage of the #zoning lot# beyond 50 feet of a #wide street#. However, where the #street wall# of an adjacent #building# fronting on the same #narrow street line# is located within 10 feet of the #street line#, the #street wall# of the #building# may be aligned with the #street wall# of the adjacent #building# for a distance of not less than 20 feet measured horizontally from the side wall of such #building#. The portion of a #zoning lot# that is located between a #street wall# and the #street line#, pursuant to the optional #street wall# location provisions of this paragraph, (a), shall be maintained at the same elevation as the adjoining sidewalk. In addition, such portion of a #zoning lot# shall be planted, except at the entrances to and exits from the #building#, or adjacent to #commercial uses# fronting on the #street#.

(b) Permitted recesses

Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances. Above a height of 12 feet, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no such recesses are within 30 feet of the intersection of two #street lines#.

(c) #Building# height

Within 100 feet of a #wide street#, the #street wall# of a #building or other structure# shall rise without setback to a minimum height of 50 feet or the height of the #building#, whichever is less, and a maximum height of 66 feet. A setback shall be provided for all portions of #buildings# that exceed a height of 66 feet. Such setbacks shall be provided at a height not lower than 50 feet and not higher than 66 feet, and shall have a minimum depth of 10 feet, measured from any #street wall# facing a #wide street#, and a minimum depth of 15 feet, measured from any #street wall# facing a #narrow street#. No #building or other structure# shall exceed a height of 85 feet. Beyond 100 feet of a #wide street#, no #building or other structure# shall exceed a height of seven #stories# or 66 feet, whichever is less.

However, the City Planning Commission, by special permit, may modify the special height and setback regulations set forth in this Section. In order to grant such special permit, the Commission shall find that the distribution of #bulk# permits adequate access of light and air to surrounding #streets# and properties and that the maximum height does not exceed 99 feet beyond 100 feet of a #wide street#, and 115 feet within 100 feet of a #wide street#.

The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding area.

(2/2/11)

96-105

Dwelling unit regulations

(a) #Dwelling unit# distribution

For #developments#, #enlargements#, #extensions# or #conversions# of an existing #building# to a #residential use#, the density requirements of the underlying districts shall be inapplicable. In lieu thereof, the required #lot area per dwelling unit# of a #development#, #enlargement#, #extension# or #conversion# of an existing #building# to a #residential use# shall not be less than 168 square feet and the number of two-bedroom units on a #zoning lot# shall not be less than 20 percent.

In addition, the minimum density requirement and the 20 percent, two-bedroom unit requirement set forth in this Section shall apply to any alteration that creates additional #dwelling units# or additional zero-bedroom units. Alterations that reduce the percentage of apartments that contain two bedrooms are not permitted unless the resulting #building# meets the 20 percent, two-bedroom requirement.

However, notwithstanding any provision to the contrary contained in this Section, the minimum density requirement and the 20 percent, two-bedroom unit requirement shall not apply to alterations which add a code-complying bathroom, pursuant to Section 27-2063 of the Housing Maintenance Code of the City of New York, to a #dwelling unit# which is publicly assisted (exclusive of any tax abatement or tax exemption program), and which is administered by a not-for-profit agent.

The City Planning Commission, by special permit, may modify the two-bedroom unit distribution requirement and the density requirement of this Section for a #non-profit residence for the elderly# or for a #residence# substantially for elderly persons with disabilities, under jurisdiction of a State or City agency, provided that the following findings are made:

- (1) that such #residences# are sponsored by a voluntary non-profit organization;
- (2) that the location and size of such facility does not create an undue concentration of #dwelling units# of

this type and #community facilities# with sleeping accommodations within the immediate area;

- (3) that there are social service, health and related programs for the residents including a maintenance and security plan;
- (4) that on-site recreation areas for the use of the residents are provided; and
- (5) that the proposed #residences# will not overburden existing public services in the neighborhood.

The Commission may prescribe appropriate conditions or safeguards to minimize the adverse effect of any #use# permitted under this Section on the residential character of the surrounding area.

- (b) Special provisions for owner-occupied #buildings# containing #residences#

For alterations of #buildings# containing #residences#, which #buildings# are owner-occupied and which contain four or fewer #dwelling units#, the #dwelling unit# distribution provisions of Section 96-105 (Dwelling unit regulations) shall not apply.

(11/21/74)

96-106

Special regulations for existing storefronts

Any vacant ground floor store in an underlying #Residence District# may change to a conforming #use# or to a #use# listed in Use Group 6 regardless of the two-year discontinuance provisions of Section 52-61.

(2/2/11)

96-107

Special regulations for community facility uses

#Developments#, #enlargements# or #extensions# of #community facility uses# or #conversions# of an existing #building# to a #community facility use#, are permitted on #zoning lots# containing existing #buildings# with #residential uses# only pursuant to the provisions of this Section. The City Planning Commission, by special permit, may permit #developments#, #enlargements# or #extensions# of #community facility uses#, provided that the Commission makes the following findings:

- (a) that the existing #building# is not eligible for rehabilitation under any active publicly-aided program under which funds are available;
- (b) that, prior to evicting or otherwise terminating the occupancy of any tenant preparatory to demolition, the developer shall have notified the Department of Housing Preservation and Development of his or her intention to demolish the #building#; and

- (c) that the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with Section 96-110, paragraph (d) (Certification of Cure for Harassment).

This special permit shall be in addition to any special permits required for nursing homes, health related-facilities and domiciliary care facilities for adults, pursuant to the provisions of Section 74-90.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

96-108

Demolition of buildings

No demolition permit or alteration permit for partial demolition involving a decrease of more than 20 percent in the amount of #residential floor area# in a #building# shall be issued by the Department of Buildings for any #building# containing #dwelling units# within the Preservation Area, unless it is an unsafe #building# and demolition is required pursuant to the provisions of Title 28, Chapter 2, Article 216 of the New York City Administrative Code.

However, the City Planning Commission, by a special permit, may allow demolition of #buildings# containing #dwelling units# or #rooming units# other than unsafe #buildings# within the Preservation Area, provided that the Commission makes the following findings:

- (a) that the existing #building#:
 - (1) is not eligible for rehabilitation under any active publicly-aided program under which funds are available; or
 - (2) is to be substantially preserved and requires an alteration permit to allow the removal and replacement of 20 percent or more of the #floor area#.
- (b) that prior to evicting or otherwise terminating the occupancy of any tenant preparatory to demolition, the owner shall have notified the applicable governmental agency of its intention to demolish the #building#.
- (c) that the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with Section 96-110, paragraph (d), (Certification of Cure for Harassment); and
- (d) that an acceptable program for #development# of the #zoning lot# is submitted to the Commission which indicates that to the extent permitted by the provisions of Section 96-10 (PRESERVATION AREA), the number of new #dwelling units# to be constructed is at least equal to the number of #dwelling units# to be demolished and that the #floor area# of the #development# containing #residences# is at least equal to

the #floor area# of the #dwelling units# to be demolished and that site development will commence within a period of twelve months from completion of relocation.

The Commission may prescribe appropriate conditions and safeguards to ensure that any interim #use# proposed on the site prior to any construction is in conformance with the purposes of this Special District.

(12/21/05)

96-109

Alterations of buildings

Prior to the issuance of an alteration permit by the Department of Buildings for a #material alteration# of a #multiple dwelling# within the Preservation Area, the Department of Housing Preservation and Development shall certify to the Department of Buildings that:

- (a) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration, the owner shall have notified the Commissioner of his or her intention to alter the #building#; and
- (b) the Department of Housing Preservation and Development has issued a #certification of no harassment# or that the owner has complied with Section 96-110, paragraph (d), (Certification of Cure for Harassment).

However, a permit for alterations may be exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development that such alterations are to be performed solely for the purpose of either:

- (1) making the public areas of a #multiple dwelling# accessible to persons with disabilities without altering the configuration of any #dwelling unit# or #rooming unit#; or
- (2) making a #dwelling unit# or a #rooming unit# accessible to persons with disabilities.

For the purposes of this Section, #dwelling unit# and #rooming unit# shall be defined as in Section 96-110.

(2/2/11)

96-110

Harassment and cure

- (a) Definitions

- (1) Application date

“Application date” shall mean the date that the Department of Housing Preservation and Development accepts a completed application for a #certification of no harassment# for processing.

- (2) Cure compliance lot

"Cure compliance lot" shall mean a #zoning lot# on which #low income housing# is provided pursuant to a #restrictive declaration# in accordance with the cure provisions of paragraph (d) of this Section. Each #cure compliance lot# shall be located entirely within the corresponding #cure requirement lot#.

(3) Cure requirement

"Cure requirement" shall mean #floor area# in an amount not less than the greater of:

- (i) 28 percent of the total #residential# and #hotel floor area# of any #multiple dwelling# to be altered or demolished in which #harassment# has occurred; or
- (ii) 20 percent of the total #floor area# of any new or altered #building# on the #cure requirement lot#.

#Cure requirement# shall also mean any cure for harassment that was approved by the City Planning Commission or the Department of Housing Preservation and Development and was permitted by the provisions of this Section prior to December 21, 2005.

(4) Cure requirement lot

"Cure requirement lot" shall mean:

- (i) a #zoning lot# containing a #multiple dwelling# with respect to which the Department of Housing Preservation and Development has denied a #certification of no harassment#; or
- ii) a #zoning lot# with respect to which an applicant, in lieu of seeking a #certification of no harassment# which would otherwise be required, elects to seek a certification of compliance with the cure provisions of paragraph (d) of this Section and enters into a #restrictive declaration#.

(5) Dwelling unit

"Dwelling unit" shall have the meaning set forth in the Multiple Dwelling Law.

(6) Exempt hotel

"Exempt hotel" shall mean any #multiple dwelling#:

- (i) which is a #transient hotel# and was a #transient hotel# on the #referral date#; and
- (ii) in which no #residential# occupant is, or was on the #referral date#, entitled to a renewal lease or otherwise entitled to continued occupancy pursuant to the Local Housing Emergency Rent Control Act, as amended, the City Rent and Rehabilitation Law, as amended, the Rent Stabilization Law of 1969, as amended, or the Emergency Tenant Protection Act of 1974, as

amended; and

- (iii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(7) Exempt institutional residence

"Exempt institutional residence" shall mean any #multiple dwelling#:

- (i) the occupancy of which is restricted to non-profit institutional use and was restricted to non-profit institutional use on the #referral date#; and
- (ii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(8) Inquiry period

"Inquiry period" shall mean a period which:

- (i) commences fifteen years prior to the #application date#; and
- (ii) terminates upon the #application date#;

provided, however, that the Department of Housing Preservation and Development may:

- (a) set such commencement date upon any date which is on or after the #referral date#, and is more than fifteen years prior to the #application date# where it determines that such extension of the duration of the inquiry period would further the purposes of this Section; and
- (b) extend such termination date up to and including the date upon which the Department of Housing Preservation and Development determines to grant or deny a #certification of no harassment#.

(9) Low income housing

"Low income housing" shall mean #dwelling units# or #rooming units# occupied or to be occupied by persons or families having an annual household income at the time of initial occupancy equal to or less than eighty percent of the median income for the primary metropolitan statistical area, as determined by the United States Department of Housing and Urban Development or its successors from time to time for a family of four, as adjusted for family size.

(10) Referral date

"Referral date" shall mean September 5, 1973.

(11) Restrictive declaration

"Restrictive declaration" shall mean a legal instrument

which:

- (i) provides that #low income housing# in an amount not less than the #cure requirement# shall be provided in a new or altered #multiple dwelling# on the #cure compliance lot#;
- (ii) provides that the #low income housing# must comply with the requirements of Section 23-90 for rental #affordable housing# provided without #public funding#, as amended by this Chapter, unless any such requirement is waived by the Department of Housing Preservation and Development. However, in the Preservation Area, paragraph (c) of Section 23-96 (Requirements for Generating Sites), shall be inapplicable and in its place and stead, paragraph (a) of Section 96-105 (Dwelling unit regulations) shall be applicable;
- (iii) contains such other terms as the Department of Housing Preservation and Development shall determine;
- (iv) has been approved by the Department of Housing Preservation and Development;
- (v) runs with the land and binds all parties in interest to the #cure requirement lot# and their successors;
- (vi) runs with the land and binds all parties in interest to the #cure compliance lot# and their successors; and
- (vii) is perpetual in duration.

(12) Rooming unit

#Rooming unit# shall have the meaning set forth in the Housing Maintenance Code.

(b) Permit Process

- (1) Unless the Department of Housing Preservation and Development has issued a #certification of no harassment# pursuant to paragraph (c) of this Section or has certified compliance with the cure provisions of paragraph (d) of this Section, no permit may be issued by the Department of Buildings pursuant to Sections 96-109 or 96-24, and no special permit may be granted by the City Planning Commission pursuant to Sections 96-107 or 96-108.
- (2) The following structures shall be exempt from the provisions of this Section:
 - (i) any city-owned #multiple dwelling#;
 - (ii) any #multiple dwelling# which is the subject of a program approved by Department of Housing Preservation and Development for the provision of housing for persons of low or moderate income and has been exempted from the provisions of

this Section by written determination of the Department of Housing Preservation and Development;

- (iii) any #multiple dwelling# initially occupied for residential purposes after January 1, 1974, except for #buildings# which are or have been interim #multiple dwellings# pursuant to Article 7C of the Multiple Dwelling Law;
 - (iv) any #exempt hotel#;
 - (v) any #multiple dwelling# in which occupancy is restricted to clubhouse or school dormitory use and occupancy was restricted to clubhouse or school dormitory use on the #referral date#; and
 - (vi) any #exempt institutional residence#.
- (3) Where the Department of Housing Preservation and Development has denied a #certification of no harassment# with respect to a #multiple dwelling#, the Department of Buildings shall not issue any permit with respect to any #multiple dwelling# or other #building# located on, or to be located on, the #cure requirement lot# except in accordance with paragraph (d) of this Section.

(c) Certification of No Harassment

- (1) The Department of Housing Preservation and Development shall determine and certify whether there has been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#.
- (2) There shall be a rebuttable presumption that #harassment# occurring within the #inquiry period# was committed by or on behalf of the owner of such #multiple dwelling# and that such #harassment#:
 - (i) was committed with the intent to cause a person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive a right in relation to such occupancy; and
 - (ii) materially advanced the demolition or alteration in furtherance of which the permit and #certification of no harassment# are sought.
- (3) The Department of Housing Preservation and Development may promulgate rules regarding the implementation of this Section. Such rules may include, but shall not be limited to, provisions which:
 - (i) establish the information to be required in an application for #certification of no harassment#, the form of such application, and the manner of filing of such application;
 - (ii) establish reasonable fees and charges to be collected from applicants for the administrative expenses incurred by the Department of Housing Preservation and Development, including, but not

limited to, costs for publication of any notices;

- (iii) establish the duration for which a #certification of no harassment# will remain effective; and
 - (iv) authorize the rescission of a #certification of no harassment# if the Department of Housing Preservation and Development finds either that #harassment# has occurred after the #inquiry period# or that the application for such #certification of no harassment# contained a material misstatement of fact. Following such rescission, the Department of Buildings may revoke any permit for which such #certification of no harassment# was required.
- (4) The Department of Housing Preservation and Development may refuse to accept, or to act upon, an application for a #certification of no harassment# where the Department of Housing Preservation and Development finds that:
- (i) taxes, water and sewer charges, emergency repair program charges, or other municipal charges remain unpaid with respect to such #multiple dwelling#;
 - (ii) such #multiple dwelling# has been altered either without proper permits from the Department of Buildings or in a way that conflicts with the certificate of occupancy for such #multiple dwelling# (or, where there is no certificate of occupancy, any record of the Department of Housing Preservation and Development indicating the lawful configuration of such #multiple dwelling#) and such unlawful alteration remains uncorrected; or
 - (iii) the Department of Housing Preservation and Development has previously denied an application for a #certification of no harassment# pursuant to this Section.
- (5) If the Department of Housing Preservation and Development determines that an application for a #certification of no harassment# contains a material misstatement of fact, the Department of Housing Preservation and Development may reject such application and bar the submission of a new application with respect to such #multiple dwelling# for a period not to exceed three years.
- (6) Before determining whether there is reasonable cause to believe that #harassment# has occurred with respect to any #multiple dwelling#, the Department of Housing Preservation and Development shall publish a notice in such form and manner as shall be specified in the rules promulgated pursuant to paragraph (c)(3) of this Section. Such notice shall seek public comment regarding whether there has been #harassment# of the lawful occupants of such #multiple dwelling# from the #referral date# to the date of submission of comments. If the Department of Housing Preservation and Development receives comments containing material

evidence that #harassment# occurred on or after the #referral date# and more than fifteen years prior to the #application date#, the Department of Housing Preservation and Development shall, in accordance with paragraph (a)(8) of this Section, set the commencement of the #inquiry period# on a date prior to the date of such alleged harassment.

(7) The Department of Housing Preservation and Development shall determine whether there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#.

(i) If there is no reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall issue a #certification of no harassment#.

(ii) If there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall cause a hearing to be held in such manner and upon such notice as shall be determined by the Department of Housing Preservation and Development, unless the applicant waives the right to a hearing. Following receipt of the report and recommendation of the hearing officer, or receipt of a waiver of the right to such a hearing from the applicant, the Department of Housing Preservation and Development shall either grant or deny a #certification of no harassment#.

(8) The Department of Housing Preservation and Development may deny a #certification of no harassment# without a prior hearing if there has been a finding by the Division of Housing and Community Renewal or any court having jurisdiction that there has been harassment, unlawful eviction or arson at the #multiple dwelling# during the #inquiry period#.

(d) Certification of Cure for Harassment

(1) The Department of Housing Preservation and Development shall not certify compliance with the cure provisions of this paragraph to the Department of Buildings unless all parties in interest to the #cure requirement lot# and all parties in interest to the #cure compliance lot# have entered into a #restrictive declaration#.

(2) Any permit or certificate of occupancy issued by the Department of Buildings with respect to any structure located on a #cure requirement lot# or a #cure compliance lot# shall be subject to the following conditions:

(i) The Department of Buildings shall not issue any permit, except a permit for an alteration which is not a #material alteration#, with respect to any structure located on the #cure requirement lot# unless the #restrictive declaration# has been recorded in the Office of the City Register and indexed against each tax lot within the #cure

requirement lot# and each tax lot within the #cure compliance lot#.

- (ii) The Department of Buildings shall not issue any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, other than any #low income housing# located on the #cure requirement lot#, until:
 - (a) the Department of Housing Preservation and Development certifies that the #low income housing# required by the #restrictive declaration# has been completed in compliance with the #restrictive declaration#; and
 - (b) the Department of Buildings has issued a temporary or permanent certificate of occupancy for each unit of such #low income housing#.
 - (iii) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure compliance lot#. Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.
 - (iv) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, except where the management and operation of the #cure compliance lot# is wholly controlled by, and the #restrictive declaration# requires that management and operation of the #cure compliance lot# remain wholly controlled by, an independent not-for-profit administering agent that is not affiliated with the owner of the #cure requirement lot#. Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.
- (3) No portion of the #low income housing# required under this Section shall qualify to:
- (i) increase the #floor area ratio# pursuant to Section 96-21 (Special Regulations for 42nd Street Perimeter Area); Section 96-22 (Special Regulations for Eighth Avenue Perimeter Area); any #floor area ratio# increase provision of the #Special Garment Center District#, #Special Hudson Yards District#, #Special West Chelsea District#; or Section 23-90; or

- (ii) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

(5/8/13)

96-111

Off-street parking regulations

#Accessory# off-street parking spaces, #public parking lots# or #public parking garages# are not permitted within the Preservation Area except by the applicable special permit in Section 13-45 (Special Permits for Additional Parking Spaces), inclusive.

In addition, the Commission shall find that:

- (a) the property has been or will be vacated pursuant to the provisions of Section 96-108; and
- (b) the applicant has followed the relocation procedures set forth in Section 96-23.

(2/2/11)

96-20

PERIMETER AREA

#Developments# or #enlargements# within the Perimeter Area shall be eligible for increased #floor area# only pursuant to Sections 96-21 (Special Regulations for 42nd Street Perimeter Area) or 96-22 (Special Regulations for Eighth Avenue Perimeter Area). Because of increased pressures for #development#, the relocation and demolition provisions of Section 96-24 (Relocation and Demolition of Buildings in the Perimeter Area) shall apply therein for all demolition, #development#, #enlargement# or #extensions# on lots containing #residential uses#. All existing legal #uses# in enclosed #buildings# shall be considered conforming #uses#. Except as otherwise provided in this Chapter, any existing #commercial# or #manufacturing uses# may be changed to another #non-conforming use# only in accordance with the provisions of Sections 52-31 (General Provisions), 52-33 (Manufacturing or Related Uses in Residence Districts), 52-34 (Commercial Uses in Residence Districts), 52-35 (Manufacturing or Related Uses in Commercial Districts) and 52-36 (Non-Conforming Commercial Uses in Commercial Districts).

(11/25/14)

96-21

Special Regulations for 42nd Street Perimeter Area

The provisions of this Section shall apply in all #Commercial Districts# within the area bounded by the following:

Starting 150 feet west of Eighth Avenue, south to the

southern boundary of West 41st Street, west to the east side of Twelfth Avenue, north along the eastern border of Twelfth Avenue to 43rd Street, east on West 43rd Street to the eastern side of Tenth Avenue, south along Tenth Avenue to the southern boundary of West 42nd Street, east on West 42nd Street to Ninth Avenue, north along the western boundary of Ninth Avenue to the midblock of 42nd/43rd Street, east to a point 150 feet west of Eighth Avenue, south to the southerly boundary of 41st Street.

(a) Special #use# regulations

In the 42nd Street Perimeter Area, as shown in Appendix A of this Chapter, the following special #use# regulations shall apply:

(1) Offices

Any #development# or #enlargement# that includes Use Group 6B offices #developed# or #enlarged# after January 19, 2005, shall be permitted only pursuant to Section 93-13 (Special Office Use Regulations).

(2) Automobile showrooms and repairs

In Subarea 1, on the #block# bounded by Twelfth Avenue, West 43rd Street, Eleventh Avenue and West 42nd Street, automobile showrooms or sales, with vehicle storage, preparation of automobiles for delivery, and automobile repairs may be permitted within a #completely enclosed building#, below the level of any floor occupied by #dwelling units#, provided that:

- (i) access for automobiles to the portions of the #building# to be used for vehicle storage, preparation of automobiles for delivery, and automobile repairs shall be located on West 43rd Street;
- (ii) areas within the #building# used for vehicle storage, preparation of automobiles for delivery, or automobile repairs shall not be used for #accessory parking# for other uses on the #zoning lot#; except that such areas may be accessed from a curb cut, vehicular ramp, or vehicle elevator that also serves an #accessory group parking facility#; and
- (iii) the portions of the #building# used for the preparation of automobiles for delivery and automobile repairs shall be located entirely in a #cellar# level.

(b) #Floor area# regulations

(1) #Floor area# regulations in Subarea 1

In Subarea 1 of the 42nd Street Perimeter Area as shown in Appendix A, the basic #floor area ratio# on a #zoning lot# shall be 10.0, and may be increased to a maximum of 12.0 only in accordance with the provisions of Section 23-90 (INCLUSIONARY HOUSING), except that any units for which a #floor area# increase has been earned, pursuant to Section 23-90 shall be within the

#Special Clinton District#.

(2) #Floor area# regulations in Subarea 2

In Subarea 2 of the 42nd Street Perimeter Area, as shown in Appendix A, the basic #floor area ratio# on a #zoning lot# shall be 10.0. However, the #floor area ratio# on a #zoning lot# containing #residential use# may exceed 10.0 to a maximum of 12.0 only in accordance with the provisions of Section 23-90, except that any units for which a #floor area# increase has been earned pursuant to Section 23-90 shall be within the #Special Clinton District#. For #zoning lots# containing #developments# or #enlargements# that have fully utilized the Inclusionary Housing Program, the maximum permitted #floor area ratio# may be increased from 12.0 to 15.0 for new legitimate theater use in accordance with the provisions of Section 96-25 (Floor Area Bonus for New Theater Use).

Any #development# or #enlargement# on a #zoning lot# that includes the area bounded by a line 129 feet east of and parallel to Tenth Avenue, West 42nd Street, a line 184 feet east of and parallel to Tenth Avenue, and a line 50 feet south of and parallel to West 42nd Street shall provide an easement or other agreement for public access to the subway mezzanine or station, as illustrated on the District Map in Appendix A of this Chapter.

An instrument establishing such transit easement or other agreement shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, and indexed against the property.

Floor space within the volume governed by such transit easement or other agreement shall be excluded from the definition of #floor area#, and may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Metropolitan Transportation Authority or by its designee for subway purposes. Improvements or construction of a temporary nature within the volume governed by such transit easement or other agreement for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public #use# of the volume area is required. A minimum notice of six months in writing shall be given by the Metropolitan Transportation Authority to the owner of the #zoning lot# in order to vacate the tenants of such temporary #uses#.

The provisions of paragraph (b) of Section 93-65 (Transit Facilities) shall apply to any subway-related #uses# consisting of ventilation facilities and other facilities or services used or required in connection with the operation of a subway line or station on the tax lot located at Block 1051, Lot 2, existing on October 27, 2010, up to a height of 73 feet, as illustrated on the District Map in Appendix A of this Chapter.

(c) Retail continuity requirements

For #buildings developed# or portions of #buildings enlarged# after August 17, 1990, where the ground floor level of such #development# or the #enlarged# portion of the #building# fronts upon West 42nd Street, between 9th and 12th Avenues:

- (1) at least 50 percent of the #street# frontage of #stories# that have a floor level within five feet of #curb level# shall be limited to Use Groups 4A, 6A, 6C, 10A, 11, 12A and 12B; and
- (2) at least 50 percent of the length of the facade of such #street wall# fronting on West 42nd Street shall be glazed with transparent material to a height of not less than 16 feet above #curb level#. The lowest point of such glazed area shall not be higher than four feet above #curb level#.

(d) #Street wall# continuity requirements

- (1) At least 80 percent of the #aggregate width of street walls# of a #building# fronting on West 42nd Street, up to a height of 45 feet, shall be located within 10 feet of the #street line# of such #street#.
- (2) The minimum height of the #street wall# of a #building# above #curb level# shall be no less than 45 feet, or the height of the #building#, whichever is less, and no more than 85 feet. Above this required height, the #street wall# of a #building# shall set back at least five feet. The requirements of this paragraph shall also apply to any #building# on a #wide street# frontage within a distance of 50 feet from its intersection with West 42nd Street.

(e) Pedestrian circulation space

Within Subarea 2 of the 42nd Street Perimeter Area, as shown in Appendix A, pedestrian circulation space shall be provided in accordance with the provisions of Section 37-50. In addition, for #developments# or #enlargements# that provide subway entranceways constructed after December 21, 2005, one and one-half times the area of such entranceway accessible to the public at #street# level may qualify as pedestrian circulation space, up to a maximum amount of 3,000 square feet.

(f) Special curb cut and parking provisions

No curb cuts shall be permitted on 42nd Street. The parking provisions of the #Special Hudson Yards District# shall apply within the 42nd Street Perimeter Area, as set forth in Section 93-80 (OFF-STREET PARKING REGULATIONS), except that such parking provisions shall not apply to any #development# or #enlargement# for which a special permit was granted prior to January 19, 2005.

Any #development# or #enlargement# for which a building permit has been lawfully issued prior to December 31, 2004 shall comply with either the parking regulations in effect at the time the permit was issued, or the provisions of this paragraph, (f).

(2/2/11)

96-22

Special Regulations for Eighth Avenue Perimeter Area

For #zoning lots#, or portions thereof, located in an area bounded by a line 150 feet west of Eighth Avenue, West 56th Street, Eighth Avenue and West 45th Street, excluding such area between West 49th and West 50th Streets, the #floor area ratio# permitted by the underlying district may be increased from 10.0 to 12.0 only pursuant to Section 23-90 (INCLUSIONARY HOUSING), except that any units for which a #floor area# increase has been earned pursuant to Section 23-90 shall be within the #Special Clinton District#.

All #developments# or #enlargements# located in an area bounded by a line 150 feet west of Eighth Avenue, West 45th Street, Eighth Avenue and West 42nd Street shall comply with special regulations set forth in Article VIII, Chapter 1 (Special Midtown District), including Sections 81-21 (Floor Area Regulations) and 81-70 (SPECIAL REGULATIONS FOR THEATER SUBDISTRICT). For #developments# or #enlargements# that utilize a #floor area# increase pursuant to the Inclusionary Housing Program of Section 23-90, any units for which a #floor area# increase has been earned shall be within the #Special Clinton District#.

(2/2/11)

96-23

Special Permit for Modification of Height and Setback Regulations

Except within the Eighth Avenue Perimeter Area set forth in Section 96-22, the City Planning Commission, by special permit, may permit modification of height and setback regulations for #developments# or #enlargements# which have generated an increase in the #floor area ratio# of not more than 2.0 under the provisions of Section 96-21 (Special Regulations for 42nd Street Perimeter Area), provided that such modification is necessary to achieve better site planning.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(12/21/05)

96-24

Relocation and Demolition of Buildings in the Perimeter Area

Prior to the issuance by the Department of Buildings of a demolition permit or a permit for any #development#, #enlargement# or #extension# on any #zoning lot# containing #residential uses# within the Perimeter Area, the Department of Housing Preservation and Development shall certify to the Department of Buildings:

- (a) that prior to evicting or otherwise terminating the occupancy of any tenant in connection with vacating any #building#, the developer shall have notified the Department

of Housing Preservation and Development of plans for the relocation of tenants which shall:

- (1) to the extent possible provide for the relocation of tenants within the Clinton District; and
 - (2) provide for the satisfaction of all the requirements for the issuance of a certificate of eviction under applicable rent control and rent stabilization regulations of the State of New York; and
- (b) that the developer has complied with the relocation plan submitted pursuant to paragraph (a) of this Section and that the Department of Housing Preservation and Development has issued a #certification of no harassment#, or that the owner has complied with Section 96-110, paragraph (d) (Certification of Cure for Harassment).

(2/2/11)

96-25

Floor Area Bonus for New Theater Use

Within Subarea 2 of the 42nd Street Perimeter Area as shown in Appendix A of this Chapter, for #developments# or #enlargements# located within the area bounded by West 42nd Street, Dyer Avenue, West 41st Street and Eleventh Avenue that have fully utilized a #floor area# increase pursuant to Section 23-90 (INCLUSIONARY HOUSING), the #floor area ratio# may be increased from 12.0 to a maximum of 15.0, provided that for every three square feet of bonused #floor area#, one square foot of such bonused #floor area# shall be used for new "performance space," which, for the purposes of this Section, shall mean space to be used as a legitimate theater or for non-profit performing arts use. Such bonused #floor area# shall be permitted only upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, after referral for review and receipt of recommendations from the applicable Community Board, that the following conditions have been met:

- (a) all #floor area# for any performance space for which a bonus is received pursuant to this Section, shall be limited to floor space exclusively associated with legitimate theater or non-profit performing arts #use#, including auditorium, orchestra, balconies, stage and theater equipment space, wings, dressing rooms, rehearsal space, lobbies, ticket offices, restrooms and circulation space. Any other use of the bonused performance space shall not comprise more than 25 percent of the total #floor area# of such performance space;
- (b) such performance space shall be designed, arranged and used for live performances and rehearsals of drama, music or dance and shall have at least 100 and no more than 299 seats. If there is more than one performance space, each shall have at least 100 seats, and adjacent performance spaces may be designed in a manner that allows for their combination into a single performance space provided such combined space has no more than 299 seats. Performance space for which a bonus is received pursuant to this Section, shall only be used for non-profit performing arts use provided the #development# or #enlargement# contains at

least two performance spaces used exclusively for performances of legitimate theater;

(c) a letter from the Department of Cultural Affairs shall be submitted, certifying that:

- (1) a signed lease has been provided from the prospective operator of the performance space, or a written commitment from the owner of the performance space if such owner is also the operator, for occupancy of the performance space and its operation as a legitimate theater or non-profit performing arts space for a period of not less than five years, pursuant to an operating plan and program therefor;
- (2) the proposed operator of the performance space has the fiscal and managerial capacity to successfully operate such space;
- (3) preliminary design plans have been provided to the Department of Cultural Affairs for the performance space, which include sufficient detail regarding core, shell, structural and mechanical systems, as necessary to ensure that such performance space will operate efficiently for its intended use;
- (4) a written commitment has been provided ensuring that there are financial resources available for the timely completion of the identified scope of work; and
- (5) the proposed operator of the performance space will have a program of regularly scheduled presentations that are open to the public.

(d) a legal commitment has been provided for inspection and ongoing maintenance of the performance space to ensure its continued availability for use as a legitimate theater or non-profit performing arts space. Such inspection shall be conducted every five years by a licensed engineer or architect, and a report issued to the Chairperson of the City Planning Commission, the Commissioner of the Department of Cultural Affairs and the applicable Community Board. Such report shall describe the condition of the performance space and identify any maintenance or repair work necessary to ensure the physical and operational soundness of the performance space and establish a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work; and

(e) a legal commitment has been provided for continuance of the use of all floor area in the bonused performance space as legitimate theater or non-profit performing arts space and providing that in the event of a change of operator, as defined by the Commissioner of the Department of Cultural Affairs, the owner or operator shall obtain a new letter certifying that the provisions of paragraphs (c)(1), (c)(2) and (c)(3) of this Section have been met as to the proposed operator and, where substantial renovation of the performance space, as defined by the Commissioner of the Department of Cultural Affairs, is being proposed in conjunction with the change of operator, that the provisions of paragraphs (c)(3) and (c)(4) of this Section have been met as to such substantial renovation. Any application or

submission with respect to a change in operator made pursuant to the provisions of such legal commitment, shall be referred to the affected Community Board. The Commissioner of the Department of Cultural Affairs shall not issue a letter with respect to such application prior to forty-five days after such referral. Such legal commitment shall also prohibit #use# as an #adult establishment# for the life of the related #development# or #enlargement#.

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner and any lessee of the performance space and their successors and assigns, a certified copy of which shall be submitted to the Chairperson of the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the Chairperson of the City Planning Commission under the terms of such declaration, and receipt of a certified copy of such declaration, shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement#.

The owner shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified under the terms of the declaration of restrictions as utilizing the increased #floor area# permitted pursuant to this Section, and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion of the #development# or #enlargement#, until the Commissioner of the Department of Cultural Affairs has certified that the performance space is substantially complete, which shall, for this purpose, mean that such performance space is usable by the public.

The owner shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue a permanent certificate of occupancy for the #development# or #enlargement#, until the performance space has been finally completed in accordance with the approved plans and such final completion has been certified by the Commissioner of the Department of Cultural Affairs. The declaration of restrictions shall be noted on any temporary or final certificate of occupancy for the #building#.

Notwithstanding the foregoing, the Chairperson of the City Planning Commission may accept a declaration of restrictions or in the case of a certification issued by the Chairperson of the City Planning Commission prior to January 28, 2009, a modified declaration of restrictions, which shall allow the owner to apply for and accept, and the Department of Buildings to issue, temporary and permanent certificates of occupancy for the portion of the #development# or #enlargement# which utilizes the increased #floor area# permitted pursuant to this Section prior to substantial or final completion of the performance space, as the case may be, provided that, under the terms of such declaration of restrictions or modified declaration of restrictions, the owner shall not apply for or accept temporary certificates of occupancy for any such portion of the #development# or #enlargement# unless and until the Commissioner of the Department of Cultural Affairs has certified that the core and shell of the performance space has been completed in accordance with a core and shell agreement accepted by the Commissioner, and that ownership of the performance space has been transferred to the prospective operator.

In the event of a transfer of ownership of the performance space, certification pursuant to paragraph (c)(1) of this Section, shall not require the provision of the signed lease or written commitment described therein, and the operating plan and program for the performance space shall be provided by the prospective owner.

Any application for certification of a #floor area# bonus for theater #use#, pursuant to this Section, shall be referred to the affected Community Board, the local Council Member and the Borough President of Manhattan. The Chairperson of the City Planning Commission shall not grant any such certification prior to forty-five days after such referral.

(5/14/14)

96-30

OTHER AREAS

In Area C, the regulations of the underlying districts shall apply, except as otherwise set forth in this Section, inclusive. The boundaries of Northern Subarea C1 and Western Subarea C2 are shown on the District Map in Appendix A of this Chapter.

(6/26/14)

96-31

Special Regulations in R8 Districts

(a) In R8 Districts, other than R8A Districts, in Western Subarea C2, including #Commercial Districts# mapped within such R8 Districts, the following special regulations shall apply:

- (1) the provisions of Sections 96-101 (Floor area regulations) and 96-104 (Height and setback regulations); and
- (2) the provisions of Section 96-102 (Lot coverage regulations), except that for all portions of a #zoning lot# located in Other Areas and more than 100 feet from the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 70 percent of the portion of the #zoning lot# in Other Areas.

(b) In R8A Districts in Western Subarea C2, including #Commercial Districts# mapped within such R8A Districts, the following special regulations shall apply:

- (1) Inclusionary Housing Program
 - (i) R8A Districts in Other Areas, west of Tenth Avenue, shall be #Inclusionary Housing designated areas#, pursuant to Section 12-10 (DEFINITIONS), for the purpose of making the Inclusionary Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

Within such #Inclusionary Housing designated

areas#, the maximum #floor area ratio# for any #zoning lot# containing a #residential use# shall not exceed a base #floor area ratio# of 5.4, except that such base #floor area ratio# may be increased to a maximum #floor area ratio# of 7.2 through the provision of #affordable housing#, pursuant to the provisions relating to #Inclusionary Housing designated areas# in Section 23-90. However, any units for which a #floor area# increase has been earned, pursuant to Section 23-90 shall be located within the #Special Clinton District#.

(ii) Optional provisions for #affordable housing#

For #developments# or #enlargements# located within the #blocks# bounded by West 51st Street, 11th Avenue, West 53rd Street and 10th Avenue, the special optional regulations as set forth in paragraph (b)(1)(ii) of this Section, may modify the provisions of Section 23-952 (Floor area compensation in Inclusionary Housing designated areas).

The #residential floor area# of a #development# or #enlargement# may be increased by 0.833 square feet for each one square foot of #moderate income floor area#, or by 0.625 square feet for each one square foot of #middle income floor area#, provided that for each square foot of such #floor area compensation#, there is one square foot of #floor area compensation#, pursuant to Section 23-952. However, the amount of #affordable housing# required to receive such #floor area compensation# need not exceed the amounts specified as follows. If #affordable housing# is provided for both #low income# and #moderate income households#, the amount of #moderate income floor area# need not exceed 15 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#, provided that the amount of #low income floor area# is at least 10 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#. If #affordable housing# is provided for both #low income# and #middle income households#, the amount of #middle income floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#, provided that the amount of #low income floor area# is at least 10 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#.

For the purposes of this paragraph, (b)(1)(ii), #low income floor area# may be considered #moderate income floor area# or #middle income floor area#, and #moderate income floor area# may be considered #middle income floor area#.

(2) Special #use# and #bulk# regulations for existing electrical utility substations

Electrical utility substations, operated for public utility purposes, existing on June 14, 2011, and located wholly or partially within the portion of Western Subarea C2 east of 11th Avenue, shall be considered conforming #uses# that are subject to the #bulk# regulations of the underlying district and the #use# regulations of an M1-5 District. Any change of #use# on a #zoning lot# occupied by any such electrical utility substation shall be permitted only pursuant to the regulations of the underlying district. In the event any such electrical utility substation is damaged or destroyed, in whole or in part, by any means, including demolition, the provisions of Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS) shall not apply and such electrical utility substation may be reconstructed, provided that such reconstruction shall not create a new #non-compliance# nor increase the degree of #non-compliance# with the applicable #bulk# regulations. However, in the event there is a complete cessation of #use# of the #zoning lot# as an electrical utility substation for a continuous period of five years, such electrical utility substation shall no longer be considered a conforming #use# on such #zoning lot#.

(4/28/15)

96-32

Special Regulations in R9 Districts

In R9 Districts in Western Subarea C2, the provisions of Section 23-633 (Street wall location and height and setback regulations in certain districts) for R9A Districts shall apply to all #buildings or other structures#. In #Commercial Districts# mapped within R9 Districts in Western Subarea C2, the provisions of Section 35-24 (Special Street Wall Location and Height and Setback Regulations in Certain Districts) for C2-7A Districts shall apply to all #buildings or other structures#. Notwithstanding the provisions of paragraph (c) of Section 23-011 (Quality Housing Program), in all such R9 Districts and #Commercial Districts# mapped within such R9 Districts, the provisions of paragraph (b) of Section 23-011 shall apply.

(a) Inclusionary Housing Program

- (1) R9 Districts in Other Areas, west of Tenth Avenue, shall be #Inclusionary Housing designated areas# pursuant to Section 12-10 (DEFINITIONS) for the purpose of making the Inclusionary Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

Within such #Inclusionary Housing designated area#, the maximum #floor area ratio# for any #zoning lot# containing a #residential use# shall not exceed a base #floor area ratio# of 6.0, except that such base #floor area ratio# may be increased to a maximum #floor area ratio# of 8.0 through the provision of #affordable housing#, pursuant to the provisions relating to #Inclusionary Housing designated areas# in Section 23-90. However, any units for which a #floor area# increase has been earned pursuant to Section 23-90

shall be located within the #Special Clinton District#.

- (2) Optional provisions for #large-scale general developments# within Western Subarea C2

For #developments# or #enlargements# located within the #blocks# bounded by West 51st Street, 11th Avenue, West 53rd Street and 10th Avenue, the special optional regulations as set forth in paragraph (a)(2) of this Section, may modify the provisions of Section 23-952 (Floor area compensation in Inclusionary Housing designated areas).

The #residential floor area# of a #development# or #enlargement# may be increased by 0.833 square feet for each one square foot of #moderate income floor area#, or by 0.625 square feet for each one square foot of #middle income floor area#, provided that for each square foot of such #floor area compensation#, there is one square foot of #floor area compensation#, pursuant to Section 23-952. However, the amount of #affordable housing# required to receive such #floor area compensation# need not exceed the amounts specified as follows. If #affordable housing# is provided for both #low income# and #moderate income households#, the amount of #moderate income floor area# need not exceed 15 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#, provided that the amount of #low income floor area# is at least 10 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#. If #affordable housing# is provided for both #low income households# and #middle income households#, the amount of #middle income floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#, provided that the amount of #low income floor area# is at least 10 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, on the #zoning lot#.

For the purposes of this paragraph (a)(2), #low income floor area# may be considered #moderate income floor area# or #middle income floor area#, and #moderate income floor area# may be considered #middle income floor area#.

- (b) #Uses# in Western Subarea C2 located within a #large-scale general development#

- (1) In a C2-5 District mapped within an R9 District within Western Subarea C2, the following #uses#, when located wholly within a #large-scale general development#, shall be considered permitted #uses#:

From Use Group 8:

Lumber stores, with no limitation on #floor area#

From Use Group 10:

Photographic or motion picture production

studios

From Use Group 12:

Art galleries, commercial

From Use Group 13:

Theaters

From Use Group 16:

Automotive service establishments

From Use Group 17:

Scenery construction.

- (2) #Uses# permitted pursuant to paragraph (b)(1) shall be subject to the #commercial bulk# regulations of Article III, that are applicable to a C2-5 District mapped within an R9 District.
- (3) The supplemental #use# provisions of Section 32-421 shall not apply to #commercial uses# located in a #building# with frontage on West 52nd Street.

(c) Height and setback modification

For any #development# or #enlargement# subject to the provisions of Section 74-681 (Development within or over a railroad or transit right-of-way or yard), the City Planning Commission may permit the modification of the applicable height and setback regulations, the open area planting requirements of Section 23-892 (In R6 through R10 Districts), and the permitted obstructions in #rear yard# or #rear yard equivalent# regulations of Section 23-44, provided that:

- (1) such modification of height and setback regulations will:
 - (i) result in a #building# that has a maximum #building# height of 155 feet;
 - (ii) result in a better distribution of #bulk# on the #zoning lot#; and
 - (iii) permit adequate access of light and air to surrounding #streets# and adjacent properties;
- (2) such modification of planting requirements will facilitate access to Department of Transportation bridge structures, and the area between the #street wall# and #street line# of the #buildings# shall be improved with moveable planters; and
- (3) any obstruction permitted in a #rear yard# or #rear yard equivalent# pursuant to this Section is necessary to accommodate the ventilation needs of a railroad or transit facility. In addition, such obstruction shall be fully screened by a landscaped strip at least four feet wide, densely

planted with evergreen shrubs at least four feet high at time of planting, and of a type that is expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

The Commission may prescribe appropriate conditions and safeguards to minimize any adverse effects on the character of the surrounding area.

(6/14/11)

96-33

Special Regulations in M2-4 Districts

(6/14/11)

96-331

Adult establishments

The provisions of Section 52-77 (Termination of Adult Use Establishments) shall not apply to any #adult establishment# that located within the #Special Clinton District# after October 25, 1995, and prior to May 11, 2011, and which, as of May 11, 2011, and June 14, 2011, was an existing #use# and conformed to all provisions of Section 42-01 (Special Provisions for Adult Establishments) applicable to M2-4 Districts.

(6/14/11)

96-332

Height and setback

In M2-4 Districts in Western Subarea C2, the underlying height and setback regulations shall apply as modified by the following special #bulk# regulations.

For all #buildings or other structures#, the #street wall# of a #building# shall rise without setback to a minimum base height of 50 feet, or the height of the #building#, whichever is less, and a maximum base height of 95 feet. No portion of a #building# shall exceed a height of 135 feet and no #sky exposure plane# shall apply.

On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height.

On #narrow streets# beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height.

Where #street walls# are required to be located on the #street

line#, recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of 12 feet, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

(5/14/14)

96-34

Special Regulations in Northern Subarea C1

In Area C1-1, within Northern Subarea C1, as shown on the map in Appendix A, the following special Inclusionary Housing regulations, #use# and special permit regulations shall apply:

(a) Inclusionary Housing Program

The boundaries of the #Inclusionary Housing designated area# within the #Special Clinton District# are shown on Map 2 in Manhattan Community District 4, in APPENDIX F of this Resolution. Such area shall be an #Inclusionary Housing designated area#, pursuant to Section 12-10 (DEFINITIONS), for the purpose of making the Inclusionary Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

Within such #Inclusionary Housing designated area# the following special regulations shall apply. The #residential floor area# of the #zoning lot# may be increased by 1.25 square feet for each square foot of #low income floor area# provided, or by 0.625 square feet for each one square foot of #middle income floor area# provided, up to the maximum #floor area# set forth in Section 23-952 (Floor area compensation in Inclusionary Housing designated areas). However, the amount of #low income floor area# plus half the amount of #middle income floor area# required to receive such #floor area compensation# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area# on the #compensated zoning lot#, provided that no more than 8,000 square feet of #middle income floor area# may be included within this calculation.

(b) Special #use# regulations

- (1) The following #uses# shall be permitted below the level of the lowest floor occupied by #dwelling units#:
 - (i) automobile showrooms or sales with preparation of automobiles for delivery; and
 - (ii) automobile repairs.
- (2) #Transient hotels# shall not be permitted within the portion of Area C1-1 that is located between Eleventh

Avenue and a line 250 feet west of Eleventh Avenue, and in the portion located between West 57th Street and a line 100 feet south of West 57th Street, except by special permit of the City Planning Commission, pursuant to the provisions of this paragraph (b)(2).

The City Planning Commission may permit #transient hotels#, resulting from a #development#, #enlargement#, #extension# or change of #use#, provided that the Commission shall find that such #transient hotel# is so located as to not impair the essential character of, or the future use or development of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(2/2/11)

96-40

MODIFICATION OF GENERAL LARGE-SCALE DEVELOPMENT PROVISIONS

For parcels within the #blocks# bounded by West 50th Street, Tenth Avenue, West 56th Street and Eleventh Avenue, within a #general large-scale development# that occupies #zoning lots# on more than one #block#, the City Planning Commission may permit the modification of #open space# required pursuant to Section 23-14 (Minimum Required Open Space, Open Space Ratio, Maximum Lot Coverage and Maximum Floor Area Ratio) as part of a special permit, pursuant to Section 74-743 (Special provisions for bulk modifications), provided the Commission finds that:

- (a) the amount of #open space# provided is sufficient to meet the needs of the residents of the #general large-scale development#; and
- (b) such modification results in improved site planning.

(2/2/11)

96-50

REGULATIONS APPLICABLE TO ALL AREAS

The provisions of Sections 96-51 (Mandatory Tree Planting Provisions), 96-52 (Bulk Modifications for Public Parking Garages) and 96-53 (Conversions to Residential Use) shall apply to all areas within the Special District.

(4/30/08)

96-51

Mandatory Tree Planting Provisions

In addition to the applicable underlying #street# tree planting requirements, tree planting provisions shall also apply to #extensions# or alterations, other than #incidental alterations#, involving 30 percent or more of the existing #floor area# of a #building#. Notwithstanding the provisions of Section 43-02

(Street Tree Planting in Manufacturing Districts), all #developments# or #enlargements# within the #Special Clinton District# that include #uses# listed in Use Group 17 or 18 shall provide #street# trees in accordance with Section 26-41 (Street Tree Planting).

(1/19/05)

96-52

Bulk Modifications for Public Parking Garages

Except within the Eighth Avenue Perimeter Area set forth in Section 96-22 (Special Regulations for Eighth Avenue Perimeter Area), in all other C6 Districts, the City Planning Commission, by special permit, may permit, for #public parking garages#, modification of the applicable #lot coverage#, #yard# and height and setback regulations. As a condition of permitting such modifications, the Commission shall make the following findings:

- (a) that, because of site limitations, such modifications are necessary for the proper design and operation of the #public parking garage#; and
- (b) that, such modifications will not unduly obstruct access to light and air in the #street# or on adjacent #zoning lots#.

The Commission shall consider the characteristics of surrounding development and may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of adjacent areas.

(2/2/11)

96-53

Conversions to Residential Use

For #conversions# to #residential use# of a #building#, predominantly occupied by #uses# listed in Use Groups 3, 4 or 5, that exceeds the #residential floor area# permitted by the applicable district regulations, the City Planning Commission by special permit, may permit such #building# to be #converted# to #residential use# in its entirety, provided that such #building# includes social or recreational space primarily for the use of occupants of #dwelling units# or #rooming units# in the #development# and which may also be made available to the community.

There shall be at least 30 square feet of social or recreational space for each #dwelling unit# or a total area of at least 5,000 square feet, whichever is greater. Such space may be located outdoors at grade level or at any floor level including roof areas. The maximum number of #dwelling units# shall be determined in accordance with the provisions of Section 15-111 (Number of permitted dwelling units). The Commission may prescribe conditions and safeguards to minimize possible adverse effects on adjoining properties.

As a condition of approval, the Commission shall find:

- (a) that because of site and building limitations, such

modifications are necessary for the proper design and functioning of the #converted building#;

- (b) that such modifications will result in adequate access of light and air to the newly created #dwelling units# and to surrounding development;
- (c) that the social or recreational space contains adequate facilities to serve the needs of the residents and wherever possible the surrounding community;
- (d) that there is suitable separation between #dwelling units# and floor space occupied by non-#residential# or #accessory uses#; and
- (e) that such #conversion# will not unduly increase the density of population or intensity of #use# to the detriment of the occupants of #buildings# in the #block# or nearby #blocks#.

The Commission may prescribe conditions and safeguards to minimize possible adverse effects on adjoining properties and may require a program for operation and maintenance of recreational spaces.

(11/21/74)

96-60

SPECIAL PERMIT PROCEDURE

(8/6/98)

96-601

Requirements for applications

An application to the City Planning Commission for the grant of a special permit under the provisions of this Chapter, shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on the site, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the City Planning Commission.

Notwithstanding the foregoing, in the Eighth Avenue Perimeter Area, all applications made pursuant to the Special Midtown District shall be subject to the guidelines and provisions of Article VIII, Chapter 1 (Special Midtown District), instead.

All applications relating to Section 96-111 (Off-street parking regulations) shall be referred by the Commission to the Department of Transportation for its report with respect to the anticipated traffic congestion resulting from such special permit #use# in the proposed location.

If such agency shall report thereon within one month from the date of referral, the Commission shall, in its determination, give due consideration to such report and, further, shall have the power to substantiate the appropriate findings solely on the basis of the report by such agency with respect to the issues referred. If such agency does not report within one month, the Commission may make a final determination without reference

thereto.

(2/2/11)

96-602

Relationship to public improvement projects

In all cases, the Commission shall deny a special permit application whenever the #development# or #enlargement# will interfere with a public improvement project, including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit, or other public facilities, which is approved by, or pending before, the Board of Estimate or City Planning Commission, as determined from the Calendar of each such agency issued prior to the date of the public hearing on the application for a special permit.

(11/21/74)

96-70

SPECIAL PERMITS PREVIOUSLY AUTHORIZED

Whenever, under the provisions of the Special Clinton Interim District or any prior zoning regulation, the City Planning Commission has authorized any special permit, the status of such special permit shall not be altered by the provisions of this Chapter.

(11/27/12)

96-80

EXCLUDED AREAS

Except as provided in this Section, the regulations set forth in this Chapter shall not apply to the following areas:

- (a) parcels within the blocks bounded by West 50th Street, Tenth Avenue, West 56th Street and Eleventh Avenue, provided that in this area the provisions of Sections 96-40 (MODIFICATION OF GENERAL LARGE-SCALE DEVELOPMENT PROVISIONS), 96-51 (Mandatory Tree Planting Provisions) and 96-82 (C6-3X Districts) shall apply.

In addition, for parcels in C6-3X Districts, bounded by West 53rd Street, Tenth Avenue, West 54th Street and Eleventh Avenue, the following shall be permitted #uses# below the level of any floor occupied by #dwelling units#:

- (1) automobile showrooms with automobile sales and preparation of automobiles for delivery;
- (2) automobile repairs; and
- (3) New York City Police Department stables for horses, with #accessory# automobile parking.

For a #building# that, at the time of approval by the Department of Buildings, included space designed for stable

use for New York City Police Department horses, and the ceiling height of such stable space, as measured from the #base plane#, exceeds 23 feet, then any floor space occupied by #accessory# parking located on the floor immediately above such stable space and immediately below the level of any floor occupied by #dwelling units# shall be exempted from the definition of #floor area#.

- (b) the block bounded by West 49th Street, Eighth Avenue, West 50th Street and Ninth Avenue which was the site of the former Madison Square Garden;
- (c) property bounded by West 45th Street, the easterly right-of-way of the Amtrak Empire Line, West 44th Street and Eleventh Avenue, provided that in this area the provisions of Section 96-81 (R10 Districts) shall apply;
- (d) the block bounded by West 42nd Street, Ninth Avenue, West 43rd Street and Tenth Avenue;
- (e) property bounded by West 56th Street, Ninth Avenue, West 57th Street and a line 200 feet west of Eighth Avenue.

(5/14/14)

96-81

R10 Districts

R10 Districts in Excluded Areas shall be #Inclusionary Housing designated areas# pursuant to Section 12-10 (DEFINITIONS) for the purpose of making the Inclusionary Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

(6/14/11)

96-82

C6-3X Districts

- (a) Inclusionary Housing Program

C6-3X Districts in Excluded Areas shall be #Inclusionary Housing designated areas# pursuant to Section 12-10 (DEFINITIONS) for the purpose of making the Inclusionary Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

- (b) Maximum #floor area ratio#

Within such #Inclusionary Housing designated areas#, the maximum #floor area ratio# for any #zoning lot# containing a #residential use# shall not exceed the base #floor area ratio# of 6.75, except that such base #floor area ratio# may be increased to the maximum #floor area ratio# of 9.0, through the provision of #affordable housing#, pursuant to the provisions relating to #Inclusionary Housing designated areas# in Section 23-90.

Article IX - Special Purpose Districts

Chapter 7

Special 125th Street District

(4/30/08)

97-00

GENERAL PURPOSES

The "Special 125th Street District" established in this Resolution is designed to promote and protect the public health, safety, general welfare and amenity. The general goals include, among others, the following specific purposes:

- (a) to preserve, protect and promote the special character of 125th Street as Harlem's "Main Street" and the role of 125th Street as Upper Manhattan's premier mixed use corridor;
- (b) to guide development on the 125th Street corridor;
- (c) to expand the retail and commercial character of 125th Street;
- (d) to provide incentives for the creation of visual and performing arts space and enhance the area's role as a major arts, entertainment and cultural destination in the City;
- (e) to support mixed use development throughout the 125th Street corridor, including residential uses, and to provide incentives for the production of affordable housing;
- (f) to ensure that the form of new buildings is compatible and relates to the built character of the 125th Street corridor;
- (g) to enhance the pedestrian environment through appropriate ground floor uses and regulations;

- (h) to promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's revenue.

(2/2/11)

97-01 Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

(2/2/11)

97-02 General Provisions

In harmony with the general purposes of the #Special 125th Street District# and in accordance with the provisions of this Chapter, the express requirements of the Special District shall apply within the Special District.

Except as modified by the particular provisions of the Special District, the regulations of the underlying zoning districts shall remain in effect. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

(6/29/11)

97-03 District Plan and Maps

The regulations of this Chapter are designed to implement the #Special 125th Street District# Plan. The District Plan, including Map 1 (Special 125th Street District and Core Subdistrict) and Map 2 (Permitted Small Sidewalk Cafe Locations), is set forth in Appendix A of this Chapter and is hereby incorporated as part of this Resolution for the purpose of specifying locations where the special

regulations and requirements set forth in this Chapter apply.

(6/29/11)

97-04

Establishment of Core Subdistrict

In order to carry out the purposes and provisions of this Chapter, the Core Subdistrict is established within the #Special 125th Street District# and includes specific regulations designed to support an arts and entertainment environment along 125th Street. The boundaries of the Core Subdistrict are shown on Map 1 in Appendix A of this Chapter.

(4/30/08)

97-05

Establishment of Bonused Space Local Arts Advisory Council

A Bonused Space Local Arts Advisory Council shall be created for the purpose of reviewing and making recommendations concerning the Community Engagement Plans of proposed operators of visual or performing arts #uses# pursuant to paragraph (c)(7) of Section 97-423 (Certification for floor area bonus for visual or performing arts uses). The Bonused Space Local Arts Advisory Council shall consist of 11 members: two (2) members appointed by the Commissioner of the Department of Cultural Affairs, one of whom shall be designated by such Commissioner to serve as Chair, and three (3) members appointed by each of the Council Members for the Councilmanic Districts in which the Special District is located, who will rotate depending upon where the proposed visual or performing arts #use# is located, pursuant to Sections 97-422 and 97-423. Members of the Bonused Space Local Arts Advisory Council shall be members of the Harlem performing or visual arts, non-profit, or business communities and shall serve at the pleasure of the appointing official. The Department of Cultural Affairs shall provide staff assistance to the Bonused Space Local

Arts Advisory Council and shall establish guidelines and procedures for the performance of its functions.

In making a recommendation concerning a Community Engagement Plan pursuant to paragraph (c)(7) of Section 97-423, the Bonused Space Local Arts Advisory Council shall consider the prior history and/or proposed scope of outreach and educational activities in Community Boards 9, 10 or 11 by the proposed operator; and the organizational capacity and commitment of the proposed operator to implement local partnerships under the Community Engagement Plan. The Department of Cultural Affairs shall not submit a letter to the Chairperson of the City Planning Commission pursuant to paragraph (c)(7) of Section 97-423 without having first received and considered the written recommendation of the Bonused Space Local Arts Advisory Council, provided that the Bonused Space Local Arts Advisory Council shall have provided the Department of Cultural Affairs with such written recommendation no later than 45 days following receipt of a request for review from the Department of Cultural Affairs.

(4/30/08)

97-06

Applicability of Special Transit Land Use District Regulations

Wherever the #Special 125th Street District# includes an area which also lies within the #Special Transit Land Use District#, the requirements of the #Special Transit Land Use District#, as set forth in Article IX, Chapter 5, shall apply, subject to the modifications described in paragraphs (e) and (f) of Section 97-433 (Street wall location).

The #Special Transit Land Use District# includes the area within the #Special 125th Street District# bounded by a line 50 feet west of Second Avenue from 124th Street midway to 125th Street where such area widens to a line 100 feet west of Second Avenue.

(4/30/08)

97-10

SPECIAL USE AND LOCATION REGULATIONS

(4/30/08)

97-11

Special Arts and Entertainment Uses

In order to sustain the arts and entertainment character of the 125th Street corridor, the provisions of this Section shall apply.

- (a) The following #uses# shall be designated as entertainment #uses#:

Auditoriums

Bookstores

Clubs, including music, dance or comedy clubs

Eating or drinking establishments, with table service only

Music stores

Studios, art, music, dancing or theatrical

Studios, radio, television or motion picture.

- (b) The following #uses# shall be designated as visual or performing arts #uses#:

Art galleries

Historical exhibits

Literary arts spaces

Museums

Performance spaces

Primary rehearsal spaces

Theaters

Visual/Media arts spaces.

(6/29/11)

97-12

Arts and Entertainment Use Requirement

Within the Core Subdistrict, as shown on Map 1 in Appendix A of this Chapter, or for that portion of a #zoning lot# located within the Core Subdistrict, for #buildings# or portions of #buildings developed# or #enlarged# after April 30, 2008, that contain at least 60,000 square feet of #floor area# and are located on #zoning lots# with frontage on 125th Street, an amount of space equivalent to a minimum of five percent of the #floor area# of the #development# or #enlargement# shall be occupied by one or more of the #uses# designated in Section 97-11 (Special Arts and Entertainment Uses).

(6/29/11)

97-13

Permitted Small Sidewalk Cafe Locations

#Small sidewalk cafes# shall be permitted in the #Special 125th Street District# as indicated on Map 2 (Permitted Small Sidewalk Cafe Locations) in Appendix A of this Chapter, subject to all applicable regulations of Article I, Chapter 4 (Sidewalk Cafe Regulations).

(2/2/11)

97-20

LOCATION AND ACCESS REGULATIONS

For any #zoning lot# that fronts upon 125th Street, the #use# regulations of the underlying districts shall be modified by the locational and access requirements of this Section, inclusive. On #through lots# or #corner lots# with

frontage along 125th Street, such requirements shall apply within the first 100 feet of the 125th Street #street line#.

(2/2/11)

97-21

Location of and Access to Arts and Entertainment Uses

Any arts and entertainment #uses# listed in Section 97-11 that are provided in order to comply with the requirements of Section 97-12 (Arts and Entertainment Use Requirement) or Section 97-422 (Floor area bonus for visual or performing arts uses) shall be subject to the following location and access requirements:

The designated #uses# listed in Section 97-11 may be located anywhere throughout a #building# that fronts on 125th Street, subject to the following conditions:

- (a) any such designated #uses# within the Core Subdistrict required pursuant to Section 97-12 shall be accessed from 125th Street; and
- (b) any #residential use# shall be located on a floor wholly above any non-#residential use#; or
- (c) any non-#residential use# may be permitted on the same #story# as a #residential use#, provided that:
 - (1) no access exists between non-#residential uses# and #residential uses# at any level; and
 - (2) non-#residential uses# are not located directly over any #residential uses#.

Such non-#residential use#, however, may be located over a #residential use# by authorization of the City Planning Commission upon a finding that sufficient separation of #residential uses# from non-#residential uses# exists within the #building#.

(2/2/11)

97-22

Uses Not Permitted on the Ground Floor of Buildings

The following #uses# are not permitted within #stories# that have a floor level within five feet of #curb level# in #buildings developed# after April 30, 2008, or within #stories# that have a floor level within five feet of #curb level# within portions of #buildings enlarged# after April 30, 2008, where such #building# or portion of a #building# fronts upon 125th Street, or is within 100 feet from 125th Street. Entranceways and lobby space for access to such #uses# shall be permitted at the ground floor level, pursuant to the provisions of Section 97-221 (Access to non-ground floor uses).

From Use Group 2:

All #uses#.

From Use Groups 3A and 3B:

All #uses#, except for libraries, museums or non-commercial art galleries.

From Use Groups 4A and 4B:

All #uses#, except for houses of worship or playgrounds.

From Use Group 5A:

All #uses#.

From Use Groups 6A, 6B, 6C and 6E:

Banks (except for automated teller machines, provided the width of #street# frontage allocated for automated teller machines shall be no more than 25 feet or 40 percent of the frontage of the #zoning lot#, whichever is less, measured to a depth of 30 feet from 125th Street, except that such frontage need not be less than 20 feet), electrolysis studios, frozen food lockers, laundry establishments, loan offices, offices or veterinary medicine offices.

From Use Group 6D:

All #uses#.

From Use Group 7:

All #uses#, except for bicycle rental or repair shops.

From Use Groups 8A and 8B:

Automobile driving schools, ice vending machines, lumber stores or pawn shops.

From Use Groups 8C, 8D and 8E:

All #uses#.

From Use Groups 9A, 9B and 9C:

All #uses#, except for gymnasiums, public auction rooms, photographic developing or printing establishments for the consumer, or art, music, dancing or theatrical studios.

From Use Groups 10A, 10B and 10C:

Depositories for storage, and wholesale offices or showrooms.

Use Group 11:

All #uses#.

Use Groups 12A and 12B:

Trade expositions.

Use Groups 12C and 12D:

All #uses#.

Use Group 14A and 14B:

All #uses#, except for bicycle sales, rental or repair shops.

Within the Special District, for such #developments# and #enlargements# that are no more than one #story#, a #use#

permitted by the regulations of the underlying district shall be allowed.

(2/2/11)

97-221

Access to non-ground floor uses

For non-ground floor #uses# listed in Section 97-22 with access from 125th Street, the following requirements shall apply:

- (a) Within the Core Subdistrict the #residential# portion of a #development# or #enlargement# may be accessed from an entrance on 125th Street only if such #development# or #enlargement# does not front upon a #street# other than 125th Street.
- (b) The width of the ground floor #street# frontage on 125th Street allocated to an entranceway or lobby space shall be no more than 25 linear feet or 40 percent of such #street# frontage, whichever is less, except that an entranceway or lobby space need not be less than 20 feet.
- (c) For a #development# or #enlargement# with more than one entranceway or lobby on 125th Street for non-ground floor #uses#, each entranceway or lobby for #uses# listed in Section 97-22 shall be no more than 25 linear feet and, in the aggregate, shall not exceed 40 percent of such ground floor frontage.
- (d) For #developments# or #enlargements# with at least 200 linear feet fronting on 125th Street, the width of #street# frontage on 125th Street allocated to entranceways or lobby space for such #uses# shall be no more than 40 linear feet.

(4/30/08)

97-23

Transparency Requirements

For all #uses#, other than houses of worship, libraries and primary rehearsal spaces, located on the ground floor of #developments# and #enlargements# that front upon that portion of 125th Street located within the #Special 125th Street District#, the ground floor #street wall# shall be glazed with materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of the area of each such ground floor #street wall#, measured to a height of 12 feet above the level of the adjoining sidewalk or public access area. Not less than 50 percent of such area shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

(2/2/11)

97-24

Security Gates

Within the #Special 125th Street District#, all security gates installed after April 30, 2008, that are swung, drawn or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking garages.

(4/30/08)

97-30

SPECIAL SIGN REGULATIONS

#Signs# for all #uses# within the #Special 125th Street District# shall be subject to the applicable #sign# requirements in Section 32-60, inclusive, subject to the modifications of Sections 97-31 through 97-34, inclusive.

#Marquee signs# for an arts #use# may be combined, subject to the requirements of Section 32-641 (Total surface area of signs).

In the event of a conflict between the provisions of this Section, 97-30, inclusive, and other regulations of the

Administrative Code, the provisions of this Chapter shall apply.

(4/30/08)

97-31 Definitions

Marquee

A "marquee" is a permanent structure or canopy located above the primary entrance to an arts #use# fronting on 125th Street, that projects over the sidewalk and is attached to, and entirely supported from, the #street wall# of the #building#. The location and dimensions of the #marquee# shall be determined by the requirements of Sections 97-32.

All #marquees# shall comply with the construction and maintenance requirements of Title 27, Subchapter 4, Article 9, of the New York City Building Code pertaining to projecting #signs#, or its successor.

Marquee sign

A "marquee sign" is a #sign#, other than an #advertising sign#, mounted on a #marquee# that identifies the arts #use# and provides informational displays about such #use#.

(4/30/08)

97-32 Location, Height and Width of Marquees and Marquee Signs

For the purposes of this Chapter, #marquees# shall be permitted only above the primary entrance to one of the following #uses# fronting upon 125th Street:

Museums

Performance spaces

Theaters.

#Marquees# shall project over the sidewalk no more than 15 feet from the #lot line# and shall be no nearer to the curb than two feet.

(a) Height of #marquees#

The minimum height of a #marquee# or a #marquee sign# shall be three feet; the maximum height for such structure and #sign# shall be five feet. No part of a #marquee# or a #marquee sign# shall be located at a height higher than three feet below any floor containing a #residential use#.

(b) Width of #marquees#

The width of a #marquee# or a #marquee sign# shall be no greater than 50 percent of the width of the #building# frontage to which it is attached or 40 feet, whichever is less.

(4/30/08)

97-33

Vertical Distance above Sidewalk of Marquees and Marquee Signs

The minimum vertical distance from the sidewalk for a #marquee# shall be 12 feet; the maximum vertical distance above the sidewalk for such #marquee# shall be 20 feet.

Notwithstanding the provisions of paragraph (b) of Section 32-653 (Additional regulations for projecting signs), additional #signs# may be displayed on a #marquee#, provided such #sign# is no more than two feet above the #marquee#.

No #marquee# or #marquee sign# shall be located at a height higher than three feet below any floor containing a #residential use#.

(4/30/08)

97-34

Accessory Signs for Visual or Performing Arts Uses

Notwithstanding the regulations of paragraph (b) of Section 32-653 (Additional regulations for projecting signs) and the relevant provisions of the Administrative Code, only the following visual or performing arts #uses# fronting on 125th Street within the #Special 125th Street District# shall be permitted to erect a #marquee sign# on or above a #marquee#:

Museums

Performance spaces

Theaters.

#Flashing signs# shall not be permitted as #accessory signs# for arts #uses#.

(2/2/11)

97-40

SPECIAL BULK REGULATIONS

Within the #Special 125th Street District#, all #developments# or #enlargements# containing #residences# shall comply with the requirements of Article II, Chapter 8 (Quality Housing), and the applicable #bulk# regulations of the underlying districts, except as modified in this Section, inclusive.

(4/30/08)

97-41

Floor Area Regulations

The maximum #floor area ratio#, #open space ratio# and #lot coverage# requirements of the applicable underlying district shall apply within the #Special 125th Street District#, unless modified by the following regulations.

(2/2/11)

97-411

Maximum floor area ratio in C4-4D, C4-7 and C6-3 Districts

In C4-4D, C4-7 or C6-3 Districts, the maximum permitted #floor area ratios# shall be as listed in the following table for #residential#, #commercial# and #community facility uses#, and may only be increased pursuant to Section 97-42 (Floor Area Bonuses).

MAXIMUM PERMITTED FLOOR AREA RATIO (FAR)
FOR RESIDENTIAL, COMMERCIAL AND COMMUNITY FACILITY USES

District	Outside the Core Subdistrict			Within the Core Subdistrict		
	#Residential Floor Area Ratio#	#Commercial Floor Area Ratio#	#Community Facility Floor Area Ratio#	#Residential Floor Area Ratio#	#Commercial Floor Area Ratio#	#Community Facility Floor Area Ratio#
C4-4D	5.4	4.0	6.0	5.4	4.0	6.0
C4-7	9.0	10.0	10.0	5.4	7.2	7.2
C6-3	6.0	6.0	6.0	5.4	6.0	6.0

(2/2/11)

97-42

Floor Area Bonuses

The maximum #floor area ratio# may be increased by a #floor area# bonus, pursuant to Sections 23-90 (INCLUSIONARY HOUSING), inclusive, or 97-422 (Floor area bonus for visual or performing arts uses), which may be used concurrently.

(4/30/08)

97-421

Inclusionary Housing

Within the #Special 125th Street District#, C4-4D, C4-7 and C6-3 Districts shall be #Inclusionary Housing designated areas#, pursuant to Section 12-10 (DEFINITIONS), for the purpose of making the Inclusionary Housing Program regulations of Section 23-90(INCLUSIONARY HOUSING), inclusive, and this Section, applicable within the Special District. Within such #Inclusionary Housing designated areas#, the #residential floor area ratio# may be increased by an Inclusionary Housing bonus, pursuant to the provisions of Sections 23-90, inclusive.

(2/2/11)

97-422

Floor area bonus for visual or performing arts uses

In C4-4D, C4-7 or C6-3 Districts within the #Special 125th Street District#, for a #development# or #enlargement# with frontage on 125th Street, the maximum #floor area ratio# otherwise permitted for #residential# or #commercial uses# listed in Section 97-411 may be increased up to the maximum #floor area ratio# specified in the table in this Section, provided that for every four square feet of bonused #floor area#, an amount of space equivalent to one square foot of such bonused #floor area# shall be used for those visual or performing arts #uses# designated in paragraph (b) of Section 97-11 (Special Arts and Entertainment Uses). Such bonused #floor area# shall be permitted only upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the conditions set forth in Section 97-423 have been met.

MAXIMUM PERMITTED FLOOR AREA RATIO (FAR)
FOR RESIDENTIAL AND COMMERCIAL USES WITH
FLOOR AREA BONUS FOR VISUAL OR PERFORMING ARTS USES

	Outside the Core District				Within the Core Subdistrict			
	#Residential Floor Area Ratio#		#Commercial Floor Area Ratio#		#Residential Floor Area Ratio#		#Commercial Floor Area Ratio#	
	Base	Maximum	Base	Maximum	Base	Maximum	Base	Maximum
C4-4D	5.4	7.2	4.0	5.4	5.4	7.2	4.0	5.40
C4-7	9.0	12.0	10.0	12.0	5.4	7.2	7.2	8.65
C6-3	6.0	8.0	6.0	8.0	5.4	7.2	6.0	8.00

(2/2/11)

97-423

Certification for floor area bonus for visual or performing arts uses

The #floor area# bonus provisions of Section 97-422 shall apply only upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the following conditions have been met:

- (a) Drawings have been provided that clearly designate all #floor area# that will result from the permitted increase in #floor area ratio# pursuant to Section 97-422, including the location of such #floor area#.
- (b) Drawings also have been provided that clearly designate all #floor area# and/or below grade floor space for any new visual or performing arts #uses# for which a bonus is to be received pursuant to Section 97-422.

Such drawings shall be of sufficient detail to show that such designated space shall be designed, arranged and used for the new visual arts or performing arts #uses#, and shall also show that:

- (1) all such visual or performing arts #uses# are located at or above the ground floor level of the #building#, except that performance space meeting the requirements of paragraph (b)(4) of this Section may be located below grade, and #accessory uses# may be located below grade, subject to the requirements of paragraph (b)(5) of this Section;
- (2) all bonused #floor area# or below grade space occupied by visual or performing arts #uses# is primarily accessed from 125th Street;
- (3) in the case of primary rehearsal space, where such space does not consist of #accessory uses# subject to the requirements of paragraph (b)(4), such space:
 - (i) can be adapted for rehearsals or performances open to the public;
 - (ii) is located on the first #story# of the #building# or on any higher #story# with a

ceiling height not greater than 60 feet above grade;

- (iii) has a #street wall# with at least 50 feet of frontage along 125th Street, and has a minimum area of 2,000 square feet, with a floor-to-ceiling height of not less than nine feet six inches; and
 - (iv) complies with the following glazing requirements: At least 70 percent of the total surface area of the #street wall# abutting the primary rehearsal space, measured from finished floor to ceiling shall be glazed. Furthermore, at least 90 percent of such area shall be transparent from within one foot of the finished floor level to at least eight feet above such level. For primary rehearsal spaces located at the corner of 125th Street and an intersecting #street#, the glazing requirements of this Section shall be applied separately for each #street wall#, and up to 100 feet along such intersecting #street#;
- (4) for performance space which is exclusively designed and arranged for the presentation of live drama, music, dance and interactive or multidisciplinary performances open to the public, such space may be below grade provided it has a minimum area of 2,000 square feet of column-free space with a floor-to-ceiling height of not less than 16 feet;
- (5) #Accessory# space
- (i) For primary rehearsal spaces, no more than 25 percent of the bonused #floor area# or below grade floor space shall be occupied by #uses accessory# to such primary rehearsal spaces. #Accessory uses# shall include but are not limited to educational and classroom space, administrative offices, circulation space, restrooms and equipment space;

(ii) For visual or performing arts #uses# other than a primary rehearsal space, no more than 40 percent of such bonused #floor area# or below grade floor space shall be occupied by #uses accessory# to such visual or performing arts #uses#, provided no single #accessory use# occupies more than 25 percent of the total bonused #floor area# or below grade floor space. #Accessory uses# shall include but are not limited to educational and classroom space, non-primary rehearsal space, administrative offices, lobbies, circulation space, ticket offices, restrooms, dressing rooms, other backstage areas and equipment space; and

(6) Signage

(i) Signage that identifies the visual or performing arts facility shall be provided at the 125th Street entrance of the visual or performing arts facility, subject to the requirements of Section 97-30, inclusive; and

(ii) For below grade performance space subject to the requirements of paragraph (b)(4) of this Section, such #sign#, not including any frame or surrounding element, shall be utilized for the additional purpose of informing the public regarding the program of scheduled performances in such facility, and shall be no less than two feet in width and four feet in height, and shall be installed a minimum of 2 feet, 6 inches above grade;

(c) A letter from the Department of Cultural Affairs has been submitted to the Chairperson of the City Planning Commission, certifying that:

(1) a signed lease has been provided from the prospective operator of the visual or performing arts space, or a written commitment from the owner of such space in a form acceptable to the City, if such owner is also the operator, for occupancy of such space, and its operation as a

visual or performing arts space for a period of not less than fifteen years, with two five-year renewal options, pursuant to an operating plan and program therefor;

- (2) the proposed operator of the visual or performing arts space is a non-profit organization;
- (3) the proposed operator of the visual or performing arts space has the fiscal and managerial capacity to successfully operate such space;
- (4) the proposed operator of the visual or performing arts space will have a program of regularly scheduled presentations or performances that are open to the public, provided that, in the case of a visual or performing arts space that is a primary rehearsal space, a program of regularly scheduled rehearsals or performances open to the public shall be required only where the proposed operator is the principal user of the primary rehearsal space. In the event that the proposed operator is not the principal user of the primary rehearsal space and such space is made available to multiple organizations or individuals on an hourly, weekly, monthly or similar basis, the proposed operator shall allow open rehearsals or performances open to the public to be sponsored by such organizations or individuals, upon request;
- (5) preliminary design plans have been provided to the Department of Cultural Affairs for the visual or performing arts space, which shall include sufficient detail regarding core, shell, structural, mechanical, electrical, plumbing and HVAC systems necessary to ensure that such visual or performing arts space will operate efficiently for its intended use;
- (6) a written commitment has been provided ensuring that there are financial resources available for the timely completion of the identified scope of work; and
- (7) the proposed operator of the visual or performing arts space has a Community Engagement Plan that

will effectively encourage public access and use of the visual or performing arts space, provide educational opportunities to the local community, and address new, undeveloped and/or underserved audience or participant groups. The Department of Cultural Affairs shall make its determination concerning the sufficiency of the Community Engagement Plan based upon consideration of the written recommendation of the Bonused Space Local Arts Advisory Council with respect thereto.

- (d) A legal commitment by the owner has been provided:
 - (1) for the operator of the visual or performing arts space to submit an annual program report, describing the use of the space during the previous year, to the Chairperson of the City Planning Commission, the Commissioner of the Department of Cultural Affairs, the Manhattan Borough President, the applicable Community Board and the local Council Member; and
 - (2) for inspection and ongoing maintenance of the visual or performing arts space to ensure its continued availability for #use# as a visual or performing arts space. Such inspection shall be conducted every five years by a licensed engineer or architect, and a report identifying the operator utilizing the space, describing the condition of the space and identifying any maintenance or repair work necessary to ensure the physical and operational soundness of such space, and establishing a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work, shall be submitted to the Chairperson of the City Planning Commission and the Commissioner of the Department of Cultural Affairs;
- (e) A legal commitment by the owner has been provided for continued occupancy of all #floor area# for which a bonus has been received, pursuant to this Section, as a visual or performing arts space only in accordance with the drawings and design plans provided pursuant to paragraphs (b) and (c)(5) of this Section, and providing further that in the event of a change of

operator, the owner or operator shall obtain a new certification pursuant to this Section. An #adult establishment use# shall be prohibited for the life of the #development# or #enlargement#.

- (1) notwithstanding the provisions of this paragraph, (e), an owner shall not be in violation of such legal commitment during a grace period consisting of:
 - (i) six (6) months from the date the visual or performing arts space is vacated by the operator, provided owner timely notifies the Departments of City Planning and Cultural Affairs of such vacancy in accordance with the requirements of the legal commitment;
 - (ii) the period of review by the Chairperson of the City Planning Commission and the Commissioner of the Department of Cultural Affairs with respect to a new operator and any associated change of design or #use# requirements pursuant to this Section, provided that application for certification pursuant to this Section is made no later than the expiration of the six month period set forth in paragraph (e)(1)(i) of this Section;
 - (iii) any period set forth in such certification as necessary to allow for the modification of design to accommodate a new operator; and
 - (iv) any event of force majeure;
 - (2) in the event that the Chairperson of the City Planning Commission determines that the requirements for certification pursuant to this Section with respect to a change of operator and associated change of design or #use# requirements are not satisfied, the grace period set forth in paragraph (e)(1) of this Section shall thereupon apply from the date of such determination;
- (f) A legal commitment by the owner has been provided that all visual arts exhibitions or presentations of live drama, music, dance, interactive or multidisciplinary

performances shall be open to the public in accordance with the terms of the letter issued by the Commissioner of Cultural Affairs, pursuant to paragraph (c) of this Section;

- (g) A legal commitment by the owner has been provided that, in the event of an adjudicated violation of the provisions of paragraph (e) of this Section, requiring the continued occupancy of all #floor area# for which a bonus has been received, pursuant to Section 97-422, as a visual and performing arts space only, the owner shall not permit the occupancy of any #floor area# in the #development# or #enlargement# which is vacant as of the date of such adjudication or thereafter, up to the amount of the increased #floor area# permitted under Section 97-422, until such time as the Chairperson of the City Planning Commission has determined that the visual or performing arts space is occupied in accordance with the provisions of this Section.

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner of the visual or performing arts space and their successors and assigns, a certified copy of which shall be submitted to the Chairperson of the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the Chairperson of the City Planning Commission under the terms of such declaration, and receipt of a certified copy of such declaration shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement#.

The owner shall not apply for or accept a temporary certificate of occupancy for such portion of the #development# or #enlargement# identified under the terms of the declaration of restrictions as utilizing the increased #floor area# permitted pursuant to Section 97-422, and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion of the #development# or #enlargement#, until the Commissioner of the Department of Cultural Affairs has certified that the visual or performing

arts space is substantially complete. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement#, nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion of the #development# or #enlargement#, until the visual or performing arts space has been finally completed in accordance with the approved plans and such final completion has been certified by the Commissioner of the Department of Cultural Affairs. The declaration of restrictions shall be noted on any temporary or final certificate of occupancy for the #building#. The temporary or final certificate of occupancy for any portion of the #development# or #enlargement# identified under the terms of the declaration of restrictions as utilizing the increased #floor area# permitted pursuant to Section 97-422 shall include the provisions of paragraph (e) of this Section, requiring the continued occupancy of all #floor area# for which a bonus has been received as a visual or performing arts space only, as a condition of occupancy of such portion of the #development# or #enlargement#.

In granting the original certification, the Chairperson of the City Planning Commission may specify such changes in design or #use# that would not warrant further certification pursuant to this Section.

(4/30/08)

97-43

Special Lot Coverage Regulations

The maximum #lot coverage# for #residential use# in C6-3 Districts within the #Special 125th Street District# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#.

Within the Special District, there shall be no maximum #lot coverage# applied to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

(4/30/08)

97-44

Special Height and Setback Regulations

Within the #Special 125th Street District#, the underlying height and setback regulations shall be modified in accordance with the provisions of this Section, inclusive.

The provisions of paragraph (b) of Section 23-663 (Required rear setbacks for tall buildings in other districts) shall not be applicable within the Special District.

(4/30/12)

97-441

Permitted obstructions

The provisions of Section 33-42 (Permitted Obstructions) shall apply, except that dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c)(1) of Section 23-621 (Permitted obstructions in certain districts).

(2/2/11)

97-442

Height and setback regulations for C4-7 and C6-3 Districts

The following modifications of the underlying district regulations shall apply for C4-7 and C6-3 Districts within the Special District:

- (a) The minimum and maximum base height of the #street wall# and the maximum height of a #building or other structure# shall be as set forth in the following table:

MINIMUM BASE HEIGHT, MAXIMUM BASE HEIGHT AND
MAXIMUM BUILDING HEIGHT

District	#Street Wall# Height (in feet)	Maximum Height of
----------	-----------------------------------	----------------------

	Minimum Base Height	Maximum Base Height	#Building or Other Structure# (in feet)
C4-7	60	85	195
C6-3	60	85	160

All portions of #buildings or other structures# that exceed a height of 85 feet in C4-7 and C6-3 Districts shall be set back at least 15 feet from the #street line#, except that such setback depth may include the depth of any permitted recess in the #street wall#, according to the provisions of 97-433 (Street wall location).

(b) Special regulations for certain C4-7 Districts

- (1) For the area located within 50 feet of the 126th Street frontage and between 200 feet east of Adam Clayton Powell Boulevard and 150 feet west of Lenox Avenue/Malcolm X Boulevard, the height of any portion of a #building or other structure# shall be limited to 80 feet.
- (2) For #zoning lots# bounded by 125th Street, Park Avenue and 124th Street, the maximum height of a #building or other structure# shall be 330 feet.
- (3) For Lots 1 and 7501 on Block 1910, the requirements of City Environmental Quality Review (CEQR) Environmental Designation Number (E-102) have been modified, as set forth in the Technical Memorandum to the Final Environmental Impact Statement for CEQR Number 07DCP030M, dated July 18, 2008.

(c) In C6-3 Districts, the maximum length of any #story# located above a height of 85 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 85 feet. No side of such rectangle shall exceed a width of 150 feet.

(2/2/11)

97-443

Street wall location

In all #Commercial Districts#, the #street wall# shall be located on the #street line# of 125th Street and extend along the entire #street# frontage of the #zoning lot# up to at least the applicable minimum base height of the underlying district, or the height of the #building#, whichever is less.

The #street wall# location provisions of such #Commercial Districts# shall be modified, as follows:

- (a) On Park Avenue, within 10 feet of its intersection with any #street#, the #street wall# may be located anywhere within 10 feet of the Park Avenue #street line#. However, to allow articulation of the #street walls# pursuant to the provisions of paragraph (b) of this Section, the #street walls# may be located anywhere within an area bounded by a #street line#, the #street wall# on Park Avenue and a line connecting these two lines 15 feet from their intersection.
- (b) To allow articulation of #street walls# at the intersection of any two #streets# within the Special District, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
- (c) Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of the second #story# and up to the applicable maximum base height, recesses are permitted for #outer courts# or balconies, provided that the aggregate width of such recesses does not exceed 30 percent of the width of the #street wall# at any level, and the depth of such recesses does not exceed five feet. No recesses shall be permitted within 20 feet of an adjacent #building# or within 30 feet of

the intersection of two #street lines#, except in compliance with corner articulation rules.

- (d) The #street wall# location and minimum #street wall# height provisions of this Section shall not apply to any existing #buildings# that are to remain on the #zoning lot#.
- (e) For any #development# or #enlargement# within the #Special 125th Street District# that is partially within the #Special Transit Land Use District# and located directly over the planned Second Avenue subway line tunnel, the #residential# portion of such #development# or #enlargement# may be constructed pursuant to the R8A #street wall# requirements and the #commercial# portion of such #development# or #enlargement# may be constructed pursuant to the C4-4D #street wall# requirements in lieu of the requirements of this Section.
- (f) The requirements of this Section shall apply within the #Special Transit Land Use District# except that, for the area of the #Special Transit Land Use District# that is also within the #Special 125th Street District#, a #street wall# of a #development# or #enlargement# located on the #street line# of a #zoning lot# need not exceed 15 feet if that portion of the #development# or #enlargement# is located directly over the planned Second Avenue subway line tunnel.

(4/30/08)

97-45

Special Provisions for Zoning Lots Divided by District Boundaries

The regulations of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries) shall apply within the #Special 125th Street District#, except that for any #zoning lot# that is completely within the Core Subdistrict, #floor area# may be located anywhere on such #zoning lot# without regard to the requirements of Section 77-22 (Floor Area Ratio), subject to the applicable height and setback regulations.

(4/30/08)

97-50

**SPECIAL OFF-STREET PARKING AND OFF-STREET LOADING
REGULATIONS**

The underlying provisions of Article II, Chapter 5, Article III, Chapter 6 and Article IV, Chapter 4 (Accessory Off-Street Parking and Off-Street Loading Regulations) shall apply within the #Special 125th Street District#, subject to modification by the regulations of this Section, inclusive.

Enclosed parking spaces, or parking spaces covered by a #building#, including such spaces #accessory# to #residences# shall be permitted to occupy the ground floor provided they are located beyond 30 feet of the #street wall# of the #building#.

The applicable district regulations for the location of #accessory# off-street parking spaces along 125th Street within the Special District may be modified, so that such facilities may be provided off-site, within a #Commercial District#, but at a distance no greater than 1,200 feet from the #zoning lot#.

(4/30/08)

97-51

Required Accessory Off-Street Residential Parking

#Accessory# off-street parking spaces, open or enclosed, shall be provided for all #developments# or #enlargements# within the #Special 125th Street District# that contain #residences#, according to the provisions of the underlying district, as modified by the provisions of Section 97-50 (SPECIAL OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS), inclusive.

(4/30/08)

97-52**Required Accessory Off-Street Commercial Parking**

In #Commercial Districts# within the #Special 125th Street District#, #accessory# off-street parking spaces shall be provided if required by Section 36-21, as modified by the provisions of Section 97-50 (SPECIAL OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS), inclusive, except that no #accessory# parking spaces shall be required for #commercial uses# in C4-4D Districts.

(4/30/08)

97-53**Location of Access to the Street**

Curb cuts for entrances and exits to #accessory# off-street parking facilities or for loading berths shall not be located on 125th Street or any other #wide street# that intersects with 125th Street, other than under the specific conditions of Sections 97-55 (Certification for Access to Required Uses) and 97-56 (Authorization for Access to Permitted Uses).

Such certification or authorization shall not be required if parking and loading requirements can be met through the provisions of 97-54 (Parking Access through Residential Zoning Lots).

(2/2/11)

97-54**Parking Access through Zoning Lots in Residence Districts**

For a #zoning lot# within a #Residence District#, which #zoning lot# fronts upon either 124th or 126th Street and the #rear lot line abuts# a #zoning lot# that fronts only on 125th Street, and such #zoning lot# has been vacant since April 30, 2008, access for parking and loading purposes may be provided through such #zoning lot#.

(4/30/08)

97-55

Certification for Access to Required Uses

If access to a required #accessory residential# parking facility or loading berth is not possible because of the requirements of Section 97-53, a curb cut may be allowed if the City Planning Commission certifies to the Commissioner of Buildings that such location is:

- (a) the only possible location for the facility or loading berth;
- (b) not hazardous to traffic safety;
- (c) located not less than 50 feet from the intersection of any two #street lines#; and
- (d) constructed and maintained so as to have a minimal effect on the streetscape.

Such curb cut, if granted, shall be no greater than 20 feet in width.

The Commissioner may refer such matter to the Department of Transportation, or its successor, for a report and may base the determination on such report.

(4/30/08)

97-56

Authorization for Access to Permitted Parking Facilities or Loading Berths

The City Planning Commission may authorize curb cuts for the following parking facility or loading berths:

- (a) If access to a permitted #accessory residential# or public parking facility is not possible due to the requirements of Section 97-53, the City Planning Commission may authorize curb cuts for such #uses#, provided such curb cuts:

- (1) will not create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement; and
 - (2) will not interfere with the efficient functioning of public transit facilities.
- (b) If access to a permitted loading berth is not possible due to the requirements of Section 97-53, the City Planning Commission may authorize curb cuts for such #use#, provided:
- (1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;
 - (2) such maneuvering area is at least equal in size to the area of the loading berth; and
 - (3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

Such curb cut, if granted, shall be no greater than 20 feet in width.

The Commissioner may refer such matter to the Department of Transportation, or its successor, for a report and may base the determination on such report.

Applications for authorizations shall be referred to the affected Community Board for a period of at least 30 days for comment. The City Planning Commission shall grant in whole or in part or deny the application within 60 days of the completion of the Community Board review period.

(4/30/08)

97-57

Public Parking Facilities

Notwithstanding the special permit regulations of Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas), #public parking garages# with 150 spaces or less shall be permitted as-of-right in C4-7 and C6 Districts, subject to the requirements of Section 36-50,

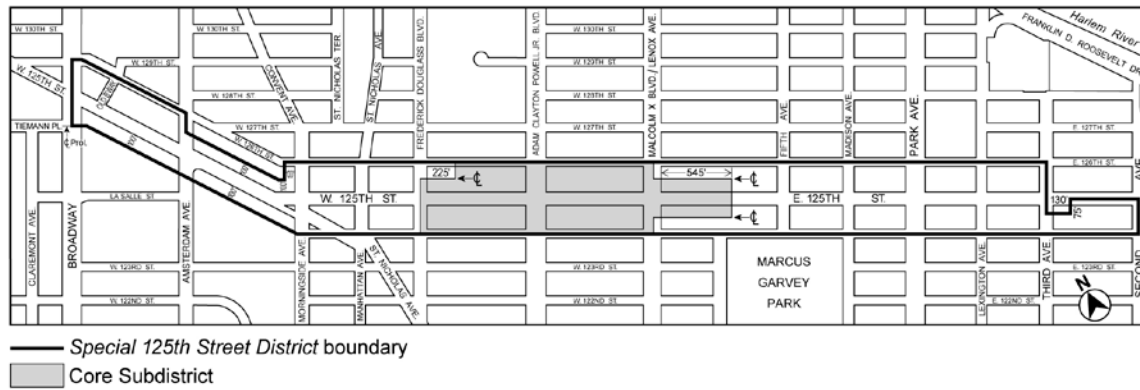

inclusive, pertaining to surfacing and screening, and Section 97-53 (Location of Access to the Street). #Public parking garages# with more than 150 spaces shall be subject to the requirements of Sections 74-512 and 74-52.

#Public parking lots# are not permitted on zoning lots with 125th Street frontage within the Special District.

98-00

GENERAL PURPOSES

The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

- (a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
- (b) to encourage the development of residential uses along appropriate avenues and streets;
- (c) to encourage and support the growth of arts-related uses in West Chelsea;
- (d) to facilitate the restoration and reuse of the High Line elevated rail line as an accessible, public open space through special height and setback regulations, High Line improvement bonuses and the transfer of development rights from the High Line Transfer Corridor;
- (e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the High Line open space;
- (f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
- (g) to create and provide a transition to the Hudson Yards area to the north; and
- (h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

(6/23/05)

98-01

Definitions

Definitions specifically applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line

The "High Line" shall, for the purposes of this Resolution, refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed

The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of June 23, 2005, as shown in Diagram 7 in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage

"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor

The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

(10/9/13)

98-02

General Provisions

The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Sections 98-11 (Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line) and 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), the provisions of Article VI, Chapter 4, shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, F, G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, with respect to the #High Line#, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism that protects the interests of the city.

Upon transfer of the #High Line# to the City, pursuant to ULURP application C 050163 PCM, and in accordance with such CITU and trail use agreement, the following shall apply:

- (a) the provisions regarding the issuance of building permits set forth in Section 98-11 shall be effective;
- (b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of June 23, 2005, which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
- (c) underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on

the #High Line# specifically in connection with its use as a public open space.

(11/13/12)

98-03

District Plan and Maps

The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.

The District Plan includes the following maps and illustrative diagrams in Appendices A, B and C and the special regulations in Appendices D, E and F:

Appendix A - Special West Chelsea District and Subareas

Appendix B - High Line Transfer Corridor Location

Appendix C - Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line

Diagram 1 - Street Wall and High Line Frontage Regulations in Subareas C, F and G

Diagram 2 - Street Wall and High Line Frontage Regulations in Subarea A

Diagram 3 - Subarea H Requirements

Diagram 4 - High Line Improvement Area Boundaries for Zoning Lots Divided by District Boundaries in Subareas D, E and G

Diagram 5 - Subarea I Requirements between West 16th and West 17th Streets

Diagram 6 - High Line Access Easement Volume Parameters

Diagram 7 - High Line Bed and Frontages

Appendix D - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H

Appendix E - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and G, or within Subarea I

Appendix F - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus Within Subarea J.

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in this Chapter shall apply.

(11/13/12)

98-04

Subareas and High Line Transfer Corridor

In order to carry out the provisions of this Chapter, ten Subareas (A through J), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#. The locations of the ten Subareas are shown in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is shown in Appendix B of this Chapter.

The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations, except as otherwise specified in this Chapter.

(6/23/05)

98-05

Applicability of District Regulations

(3/28/12)

98-051

Applicability of Article I, Chapter 1

Within the #Special West Chelsea District#, Section 11-332 (Extension of period to complete construction) shall apply, except that notwithstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on June 23, 2005, such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than June 23, 2006.

(6/23/05)

98-10

SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

(3/22/06)

98-11

Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

(6/23/05)

98-12

Modification of Use Regulations in C6 Districts

(6/23/05)

98-121

In Subarea H

In Subarea H, the provisions of Section 32-25 (Use Group 16), paragraph D (Heavy Service, Wholesale or Storage Establishments) are modified to permit, in C6 Districts, warehouse #uses# only in #cellars# located wholly below #curb level#.

(2/2/11)

98-122

Location within buildings

In any C6 District in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by commercial uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a #story# higher than that occupied by #residential uses#, provided that the non-#residential uses#:

- (a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and
- (b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:
 - (1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
 - (2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

(6/23/05)

98-123

Adult establishments

The provisions of Section 52-77 (Termination of Adult Use Establishments) shall not apply to any #adult establishment# that located within the #Special West Chelsea District# after October 25, 1995 and prior to May 25, 2005, and which, as of May 25, 2005 and June 22, 2005, was an existing #use# and conformed to all provisions of Section 42-01 (Special Provisions for Adult Establishments) applicable to M1-5 Districts.

(6/23/05)

98-13

Modification of Use Regulations in M1 Districts

In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

(11/13/12)

98-14

Ground Floor Use and Transparency Requirements on Tenth Avenue

Except in Subarea J, the special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#. Ground floor #uses# in Subarea J shall be governed by the underlying #use# regulations as modified by Section 98-13 (Modification of Use Regulations in M1 Districts).

#Uses# within #stories# that have a floor level within five feet of #curb level#, and within 25 feet of the #street line#, shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A #building's street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the #building's# total #street# frontage, whichever is less.

For any #building# or portion of a #building developed# or #enlarged# after June 23, 2005, each ground floor #street wall# shall be glazed with materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not

less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of such ground floor #street wall# may be glazed with translucent materials.

(2/2/11)

98-141

Transparency requirements within Subareas H and I

The transparency requirements of this Section shall apply to all portions of #buildings developed# or #enlarged# after June 23, 2005, within the #High Line frontage# of Subareas H and I, except for such portions that contain #dwelling units#. At least 70 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

(11/13/12)

98-142

High Line level wall requirements within Subarea J

Any additions to the windows or other glazing located on the #building# wall separating the #High Line# from any #building# located on a #zoning lot# within Subarea J at the #High Line# level shall be designed to provide for a minimum of 30 dBA noise attenuation, and any general illumination fixtures in the adjoining interior portion of the #building# shall not exceed 50 foot-candles of illumination within four feet of such window or glazing and shall not be pointed directly at the #High Line#.

(2/2/11)

98-15

Security Gates

All security gates installed after June 23, 2005, that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at

least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

(2/2/11)

98-16

Signs

The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for #signs# located entirely below the level of the #High Line bed#. In lieu thereof, the #sign# regulations of a C1 District shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.

No #signs# affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

- (a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
- (b) provide, at a minimum, directional, informational and interpretive signage consistent with the use of the #High Line# as a public open space;
- (c) be integrated with the design of the #High Line# open space; and
- (d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood.

(6/23/05)

98-17

Air Space Over a Railroad or Transit Right-of-way or Yard

For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air space over a railroad or transit right-of-way or yard) shall not apply.

(10/17/07)

98-18

Parking Regulations in Subarea H

#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

- (a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;
- (b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A of this Chapter is sufficiently below #curb level# so that trees may be planted at #curb level# within such public plaza but is in no case less than four feet below #curb level#; and
- (c) no more than 377 spaces are provided within such facility.

For purposes of this Section, the governmental offices on #Block# 688, Lots 1001-1002, as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

(6/23/05)

98-19

Lighting

All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

(6/23/05)

98-20

FLOOR AREA AND LOT COVERAGE REGULATIONS

The #floor area# provisions of this Section, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

(11/13/12)

98-21

Maximum Floor Area Ratio outside of Subareas

For all #zoning lots#, or portions thereof, located outside of Subareas A through J, the maximum #floor area ratios# of the applicable underlying district shall apply.

(11/13/12)

98-22

Maximum Floor Area Ratio and Lot Coverage in Subareas

For all #zoning lots#, or portions thereof, located in Subareas A through J, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility# and #residential uses#, separately or in combination, shall be as specified in the table in this Section. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less. For the #conversion# to #dwelling units# of non-#residential floor area# where the total #residential floor area# on the #zoning lot# will exceed the applicable basic maximum #floor area ratio# specified in the table in this Section, such excess #residential floor area# shall only be permitted pursuant to Section 98-26 (Modifications of Inclusionary Housing Program).

Maximum Floor Area Ratio by Subarea

Sub-area	Basic #floor area ratio# (max)	Increase in FAR from #High Line Transfer Corridor# (98-30)	Increase in FAR with #High Line# Improvement Bonuses (98-25)	Inclusionary Housing		Permitted #floor area ratio# (maximum)
				FAR required to be transferred ¹ (minimum)	Increase in FAR for Inclusionary Housing Program (98-26)	
A	6.5	2.65	— ²	2.65	2.85	12.0
B	5.0	2.5	— ²	1.25	1.25	7.5
C	5.0	2.5	NA	1.25	1.25	7.5
D ⁵	5.0	2.5 ³	2.5 ³	1.25	1.25	7.5
E	5.0	1.0 ³	1.0 ^{2,3}	NA	NA	6.0
F	5.0	NA	NA	NA	NA	5.0
G	5.0	1.0 ³	1.0 ³	NA	NA	6.0
H	7.5	NA	2.5	NA	NA	10.0
I	5.0	2.5	NA	1.25	1.25	7.5
I ⁴	5.0	NA	2.5	NA	NA	7.5
J ⁶	5.0	NA	2.5	NA	NA	7.5

¹ Minimum #floor area ratios# required to be transferred pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, before Inclusionary Housing #floor area# bonus can be utilized

² In Subareas A, B, and E, the applicable maximum basic #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the

Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus)

- ³ For certain zoning lots located in Subareas D, E and G, the provisions of Section 98-25 (High Line Improvement Bonus) may apply in lieu of the provisions of Section 98-30, subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G)
- ⁴ For #zoning lots# over which the #High Line# passes
- ⁵ For #zoning lots# between West 22nd Street and West 24th Street, the #floor area ratios# shall be 7.5, and no #floor area# increases shall be permitted
- ⁶ Bonus contribution subject to provisions of Section 98-25 governing first contribution to Affordable Housing Fund

(11/13/12)

98-23

Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes

That portion of the #zoning lot# that lies directly beneath the #High Line# shall be exempt from #lot coverage# requirements below the level of the #High Line bed#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area ratio# of a #zoning lot# pursuant to Section 98-25 (High Line Improvement Bonus), shall not be considered #floor area# or #lot coverage#.

However, at or above the level of the #High Line bed#, #lot coverage# requirements shall apply to the entire #zoning lot#.

Within Subarea J, any easement volumes and improvements located within such volumes dedicated or granted to the City in accordance with the provisions of Appendix F of this Chapter in

connection with an increase in the basic maximum #floor area ratio# of a #zoning lot#, pursuant to Section 98-25 (High Line Improvement Bonus), shall not be considered #floor area#.

(6/23/05)

98-24

Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G

For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea G, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Sections 98-25 (High Line Improvement Bonus) or 98-30 (HIGH LINE TRANSFER CORRIDOR) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

(11/13/12)

98-25

High Line Improvement Bonus

For #zoning lots# located between West 15th and West 19th Streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), provided that:

- (a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, or within Subarea J would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that:
 - (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line# Improvement Fund), or such contribution is

secured by a letter of credit or other cash equivalent instrument in a form acceptable to the City. For subareas other than Subarea J, such contribution shall be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#, with such contribution being first used for improvements within that portion of the #High Line# improvement area on such #zoning lot#. For #developments# or #enlargements# within Subarea J, such contribution shall be used for any use with respect to the improvement, maintenance and operation of the #High Line# or the #High Line# Support Easement Volumes provided for under Appendix F of this Chapter, at the Chairperson's direction, provided that, in lieu of a deposit to the #High Line# Improvement Fund, the contribution for the first 80,000 square feet of #floor area# shall be deposited to the Affordable Housing Fund established under Section 98-262 (Floor area increase), paragraph (c), for use in accordance with the provisions of that Section. Such contribution shall be made in accordance with the provisions of Appendix D, E or F of this Chapter, as applicable;

- (2) a declaration of restrictions executed by all "parties in interest" to the #zoning lot#, as defined in paragraph (f)(4) of the definition of #zoning lot# in Section 12-10 (DEFINITIONS), including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and
 - (3) all additional requirements of Appendix D, E or F, as applicable with respect to issuance of a building permit, have been met.
- (b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot# located between West 17th and West 18th Streets over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings

shall be furnished a certification by the Chairperson of the City Planning Commission that:

- (1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area, as shown in Appendix C of this Chapter, for such #zoning lot#, have been performed in accordance with such agreement;
- (2) if elected by the owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
- (3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C of this Chapter, except as otherwise provided in agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work, in accordance with Appendix D;
- (4) Stairway and Elevator Access Work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, except as otherwise provided in agreements and other instruments that provide for City construction of some or all of the Stairway and Elevator Access Work in the At-Grade Plaza, in accordance with Appendix D; and
- (5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work required of owner shall be of substantial completion of the work as determined by the Chairperson. For permanent certificates of occupancy, certification with respect to performance of work required of owner shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this paragraph, (b), no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the

provisions of Appendix D. In the event that the owner has executed agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work and for some or all of the Stairway and Elevator Access Work, in accordance with Appendix D, certificates of occupancy shall be issued if owner has substantially or finally completed any aspects of the work required of owner pursuant to such agreements and other instruments, as the case may be, and is otherwise in full compliance with such agreements and instruments, including with respect to payment of all funds required pursuant to the terms thereof and Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot# located between West 16th and 17th Streets or between West 18th and 19th Streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished a certification by the Chairperson, that:

- (1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area, as shown in Appendix C of this Chapter, for such #zoning lot#, have been performed in accordance with such agreement;
- (2) if elected by the owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;
- (3) stairway and elevator access work has been performed on such #zoning lot#, in accordance with Appendix E;
- (4) for #zoning lots# located between West 16th and 17th Streets over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and
- (5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial

completion of the work as determined by the Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this paragraph, (c), no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

- (d) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot# located within Subarea J over which the #High Line# passes that incorporates #floor area# that would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, the Department of Buildings shall be furnished a certification by the Chairperson, that:
 - (1) #High Line# Support Work has been performed on such #zoning lot#, in accordance with and to the extent required by Appendix F; and
 - (2) all other applicable requirements of Appendix F have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by the Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be final completion of the work, as determined by the Chairperson.

(7/29/09)

98-26

Modifications of Inclusionary Housing Program

Within the #Special West Chelsea District#, C6-3 and C6-4 Districts within Subareas A through D, and I, shall be #Inclusionary Housing designated areas#, pursuant to Section 12-10 (DEFINITIONS), for the purpose of making the Inclusionary

Housing Program regulations of Section 23-90, inclusive, applicable as modified within the Special District.

(7/29/09)

98-261

Definitions

For the purposes of this Chapter, matter in italics is defined in Sections 12-10 or in Section 23-90 (INCLUSIONARY HOUSING), inclusive.

98-262

Floor area increase

For #developments# or #enlargements# that have increased their permitted #floor area# through the transfer of development rights from the #High Line Transfer Corridor# by the minimum amount specified in the table in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), and for #conversions# of non-#residential floor area# to #dwelling units# where the total #residential floor area# on the #zoning lot# will exceed the applicable basic maximum #floor area ratio# specified in the table in Section 98-22, such maximum permitted #floor area# may be increased through the provision of #affordable housing# pursuant to the Inclusionary Housing Program as modified in Section 98-26, inclusive, to the maximum amount specified in the table in Section 98-22, provided that:

(a) In C6-4 Districts:

- (1) the amount of #low income floor area# is equal to at least 20 percent of the total #residential floor area# on the #zoning lot#;
- (2) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot# and the amount of #moderate income floor area# is equal to at least 15 percent of the total #residential floor area# on the #zoning lot#; or

- (3) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot# and the amount of #middle income floor area# is equal to at least 20 percent of the total #residential floor area# on the #zoning lot#.

(b) In C6-3 Districts:

- (1) the amount of #low income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot#;
- (2) the amount of #low income floor area# is equal to at least five percent of the total #residential floor area# on the #zoning lot# and the amount of #moderate income floor area# is equal to at least 7.5 percent of the total #residential floor area# on the #zoning lot#; or
- (3) the amount of #low income floor area# is equal to at least five percent of the total #residential floor area# on the #zoning lot# and the amount of #middle income floor area# is equal to at least 10 percent of the total #residential floor area# on the #zoning lot#.

For the purposes of this Section, #low income floor area# may be considered #moderate income floor area# or #middle income floor area#, and #moderate income floor area# may be considered #middle income floor area#.

However, in those subareas, or portions thereof, where the Inclusionary Housing Program is applicable, and where the Chairperson of the Department of City Planning has certified that at least 90 percent of the total development rights within the #High Line Transfer Corridor# have been transferred pursuant to Section 98-30, no transfer of #floor area# pursuant to Section 98-30 shall be required, and the basic maximum #floor area ratio# of a #zoning lot# containing the #development# or #enlargement# may be increased by up to 2.5 in Subareas B, C and D and on any #zoning lot# located in Subarea I over which the #High Line# does not pass, and up to 5.5 in Subarea A, in accordance with the provisions of paragraph (c) of this Section.

(c) #Affordable Housing# Fund

Where the Chairperson of the City Planning Commission determines that more than 90 percent of the #floor area# eligible for transfer through the provisions of Section 98-30 have been transferred in accordance with such provisions, the Chairperson shall allow, by certification, an increase in #floor area# on any receiving site as specified in Section 98-33 (Transfer of Development Rights From the High Line Transfer Corridor), up to the amount that otherwise would have been permitted for such receiving site pursuant to Section 98-30, provided that instruments in a form acceptable to the City are executed ensuring that a contribution be deposited in the West Chelsea Affordable Housing Fund. Such fund shall be administered by the Department of Housing Preservation and Development and all contributions to such fund shall be used for the development, acquisition or rehabilitation of #low#, #moderate# or #middle income housing# located in Community District 4 in the Borough of Manhattan. The execution of such instruments shall be a precondition to the filing for or issuing of any building permit for any #development# or #enlargement# utilizing such #floor area# increase. Such contribution amount, by square foot of #floor area# increase, shall be determined, at the time of such Chairperson's certification, by the Commission by rule, and may be adjusted by rule not more than once a year.

(10/14/09)

98-27

Zoning Lots Located Partly Within Subarea C and Partly Within M1-5 Districts

For #zoning lots# existing prior to June 23, 2005, and located partly within an M1-5 District and partly within a C6-3 District in Subarea C, the permitted #floor area ratio# for the C6-3 District portion of the #zoning lot# may be increased to the #floor area ratio# existing in the C6-3 District portion on June 23, 2005, up to a maximum #floor area ratio# of 7.5, provided that the Chairperson of the City Planning Commission has certified that a payment has been made to the #High Line# Improvement Fund, established under Section 98-25, to be used at the discretion of the Chairperson to assure that the #High Line# is restored and reused as a public accessible open space. The

amount of such contribution shall be determined in the manner prescribed in Section 98-35 (High Line Transfer Corridor Bonus).

No building permit for any #development# or #enlargement# may be issued for any #building or other structure# on the #zoning lot# that will contain #floor area# made available to the #zoning lot# as a result of the application of this Section unless and until such certification has been made.

(6/23/05)

98-30

HIGH LINE TRANSFER CORRIDOR

(6/23/05)

98-31

Purposes

The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line bed#.

(6/23/05)

98-32

General Provisions

The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.

In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through 98-35, inclusive.

(6/10/15)

98-33

Transfer of Development Rights from the High Line Transfer Corridor

In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in any subarea other than Subareas F, H and J. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification

Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

- (1) #floor area# zoning calculations for the granting and receiving site;
- (2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution; and
- (3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#

The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial# or #residential use# on such granting site as of June 10, 2015, whichever is greater, less any existing #floor area# to remain on such granting site.

The maximum amount of #floor area# transferred from a granting site located in a subarea shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the table in Section 98-22 (Maximum Floor Area Ratio and Lot Area in Subareas), less any existing #floor area# to remain on such granting site.

Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.

The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the table in Section 98-22.

(c) #Use#

#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement

As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Sections 98-60 (SPECIAL REGULATIONS FOR CERTAIN ZONING LOTS) and 98-63 (Recording of the High Line Access Easement Volume).

(e) Restrictive declaration

As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed

by all "parties in interest" of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to paragraph (a) of this Section.

(6/23/05)

98-34

Screening and Landscaping Requirements for Vacant Sites

Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the High Line Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section, except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.

Such open or vacant areas on #zoning lots# shall be screened from the #street# by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line#, planting strips shall be prohibited.

(2/2/11)

98-35

High Line Transfer Corridor Bonus

For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that:

- (a) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33;
- (b) that such granting site is vacant; and
- (c) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a publicly accessible open space.

No building permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made.

Such contribution amount shall be \$50.00 per square foot of #floor area# as of June 23, 2005, and shall be adjusted August 1 of each subsequent year, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics.

Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.

(6/23/05)

98-40

SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

(1/22/15)

98-41

Special Rear Yard Regulations

The #yard# regulations of the underlying district shall apply, except as modified in this Section. In all districts, no #rear yard# regulations shall apply to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of the #street#. Where a #rear yard equivalent# is required by either Section 23-532 (Required rear yard equivalents) or Section 43-28 (Special Provisions for Through Lots), it shall be provided only as set forth in paragraph (a) of either Section, as applicable. However, in M1-5 Districts, a #building# existing prior to January 22, 2015, may be #enlarged# pursuant to Section 43-28, paragraph (b), provided that such #building# is on a #zoning lot# located entirely within 150 feet of the west side of the #High Line#.

(6/23/05)

98-42

Special Height and Setback Regulations

The height and setback regulations of the underlying district shall not apply, except as set forth in this Section, inclusive. Furthermore, for any #zoning lot# located adjacent to the #High Line#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

(11/13/12)

98-421**Obstruction over the High Line**

Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space, and except where the #High Line# passes through and is covered by a #building# existing on November 13, 2012.

(4/30/12)

98-422**Special rooftop regulations**

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District#, except that dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c)(1) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas C, F and G where the maximum base height and maximum #building# height are the same.

All mechanical equipment located within 15 feet of the level of the #High Line bed# that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

(1/22/15)

98-423**Street wall location, minimum and maximum base heights and maximum building heights**

The provisions set forth in paragraph (a) of this Section shall apply to all #buildings or other structures#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (g) of this Section.

- (a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section. On #narrow street# frontages, beyond 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

Where #street walls# are required to be located on the #street line#, recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of 12 feet, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

The #street wall# location provisions of this Section shall not apply along that portion of any #street# frontage:

- (1) over which the #High Line# passes;
- (2) occupied by existing #buildings# to remain, unless such #buildings# are vertically #enlarged#; or
- (3) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in the table in this Section shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in the table in this Section.

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance

on a #narrow street#, and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section, is hereinafter referred to as a "tower." Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

- (i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).
- (ii) Any #story# within the highest 40 feet of such tower (the "penthouse portion"), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion.
