New York City Department of Design and Construction
30-30 Thomson Avenue, Long Island City, NY 11101

Mayor Michael Bloomberg
Commissioner David J. Burney, FAIA

Borough: Queens
Project ID: QED996
Project Description: Water Main Work in Various Locations - Borough of Queens
Project Start: Fall 2010
Project Completion: Fall, 2012
Project Status: Construction
Project Cost: $9,473,277.96

A Capital Construction Project administered by the New York City Department of Design and Construction will begin soon in your community. We are committed to maintaining a work site that is safe and orderly. Dust, noise and heavy equipment are intrusive but common elements of construction. We are working to minimize the inconvenience, and appreciate your patience.

Work to be performed

1. Installation of Water Mains
2. Hydrants

Location
This project will take place at the following locations:

1. 12” w/m – in Austin Street between 82nd Avenue & 127th Street
2. 12” w/m – in Grenfell Street between Union Turnpike & Lefferts Blvd
3. 12” w/m – in Lefferts Blvd between Austin Street & Metropolitan Ave
4. 12” w/m – Metropolitan avenue between 75th Road & 127th Street
5. 12” w/m – in 127th Street between Kew Gardens Rd & Metropolitan Ave
6. 12” w/m – in Kew Gardens Road between 84th Road & 127th Street
7. 12” w/m – Onslow Place between Grenfell Street & Beverly Road
8. 8” w/m – in Park Lane South between Metropolitan Ave & Curzon Rd
9. 8” w/m – in Grosvenor Lane between Park Lane South & Metropolitan Ave
10. 8” w/m – in Mayfair Road between Forest Park Lane & 116th Street
11. 8” w/m – in 116th Street between 84th Avenue & Metropolitan Avenue
12. 8” w/m – in 118th Street between 84th Avenue & Metropolitan Avenue
13. 8” w/m – in Lefferts Blvd between 84th Avenue & Metropolitan Avenue
14. 8” w/m – in 84th Avenue between 115th Street & Brevoort Street
15. 8” w/m – in Brevoort Street between Cuthbert Road & 84th Avenue
16. 8” w/m – in 125th Street north of Metropolitan Avenue
17. 8” w/m – in 124th Place between Metropolitan Avenue & Cuthbert Road
18. 8” w/m – in Cuthbert Road between Lefferts Blvd & 124th Place
19. 8” w/m – in Beverly Road between Onslow Place & Brevoort Street
20. 8” w/m – in Abingdon Road between Park Lane South & 124th Place
21. 8” w/m – in Both Road between Park Lane & Grenfell Street
22. 8” w/m – in Audley Street between Grenfell Street & Metropolitan Ave
23. 8” w/m – in 83rd Avenue between Grenfell Street & Metropolitan Ave
24. 8” w/m – in Lefferts Blvd between Austin Street & Kew Gardens Road
25. 8” w/m – in 124th Street between Metropolitan Avenue & 85th Avenue
26. 8” w/m – in Talbot Street between Lefferts Blvd & 84th Road
27. 8” w/m – in Lefferts Blvd between Austin Street & Talbot Street
28. 8” w/m – in 125th Street between Lefferts Blvd & 84th Road
29. 8” w/m – in 126th Street between Kew Gardens Road & Austin Street
30. 8” w/m – 84th Road between Kew Gardens Road & Austin Street

Work Hours
Typical working hours are 7:00 a.m. to 4:00 p.m. weekdays.

What to Expect
We have planned this construction to occur in stages to minimize disruption and inconvenience to residents, pedestrians, and drivers. Some restrictions will be necessary, however, to complete the work.

Please take note of the following
- **Street Access** Pedestrian access will be maintained at all times.
- **Vehicular** access may need to be temporarily restricted, generally during work hours.

Note: Information provided on DDC Community Brochures is subject to change, as new information will become available. Please visit DDC Community Brochure site for updates.
QED996-Various Location Water Main Project Notice

New York City Department of Design and Construction
30-30 Thomson Avenue, Long Island City, NY 11101

Mayor Michael Bloomberg
Commissioner David J. Burney, FAIA

- Signs will be posted informing residents of necessary street closures and/or limited access.
- Parking may be temporarily restricted where necessary to allow construction to proceed. Signs will be posted indicating the temporary restrictions.
- Driveway access may be temporarily restricted in order to perform certain work.
- Public Transportation Some bus stops and/or bus routes may be moved or changed during the course of this construction. Signs and directions will be posted showing the new stops and/or routes.

You will receive notification of the above restrictions from the project staff.

Special Needs
Individuals with special needs who may be uniquely impacted by this project should contact the project’s Resident Engineer, Community/Business Liaison, or Engineer-In-Charge as soon as possible, to make them aware of your situation. We will work with you to attempt to minimize the inconvenience as much as possible.

Sidewalk Violation Notices
You will not be assessed for any sidewalk construction work resulting from this project.

Property Damage Concerns
Under the terms of the contract, the Contractor is responsible for the repair of any proven property damage and restoration of the construction area, including sidewalks and curbs, to at least the condition that existed prior to the start of construction.

As a protection for the City of New York and the property owners along the route of the construction, pre-construction pictures are taken. The contract requires the Contractor to maintain property damage and liability insurance coverage until the completion of all work.

You are advised to inform the Contractor and the Resident Engineer in the first instance of any property damage you may have, and if the Contractor fails to respond within 10 days, you should inform the DDC Borough Director in writing.

Important
If you believe the city is responsible or if you wish to file a claim with the city you must do so within 90 days of the occurrence with the New York City Comptroller’s Office. For information please contact the Construction Community Liaison or Resident Engineer.

Some Water Intermittents
During the course of this project, you may experience water service disruptions. Water may be discolored by sediment that has built up in the older pipes, including the service connection to the internal pipes in your own building. Even if no construction is performed in front of your building the process of shutting down the old pipes can result in discoloration. If this occurs, run ONLY COLD WATER until it appears clear. If it will be necessary for us to turn off your water service, you will receive written notice informing you by the afternoon of the day before service interruption. We suggest you store drinking water to have available in your home or business for the period that water service is suspended. Water service is always restored at the end of the workday. Be sure to turn off any open valves or faucets to prevent flooding when water service is restored.

Note
If your water service is NOT restored by 6:00 pm, unless the shutoff notice gives special information regarding non-standard hours (e.g. overnight work), please call the 311 Service Center available 24 hours a day.
