## Char Broiler - Registration Instructions

Field Name	Description
Business Owner's Name	Owner of the Business
Business Owner's Address (House & Street Number)	Owner's address
Owner's Email Address	Business owner's email address
Facility Name	Registered business name
Facility Address	Address of equipment location
Agent's Name	Filing agent's name
Agent's Address (House & Street Number)	Agent's address
Agent's Email Address	Agent's email address
Char Broiler Type	Select either <u>Chain Driven</u> or <u>Under Fired</u>
Existing or New	Select "existing" if this unit is installed and operating or "new" if the unit has not been installed
Usage	Provide the average pounds of meat cooked/week (or purchased)
Manufacturer	Brand of char broiler in use
Model Number	Model of char broiler in use
Serial Number	Provide serial number (s) for all identical unit(s)
Emission Control (Type)	Type of equipment used to filter and remove contaminants from the char broiler. Controls include: Catalytic oxidizer, Electrostatic Precipitator (ESP), filter
Emission Control Manufacturer/ Model	Brand and model and the control equipment
Is this unit listed as a DEP Certified Control Device?	Refer to the SCAQMD link on the next page.

**THE CITY OF NEW YORK**  
**DEPARTMENT OF ENVIRONMENTAL PROTECTION**

Bureau of Environmental Compliance  
59-17 Junction Boulevard, 9<sup>th</sup> Floor, Flushing, New York 11373  
Records Control (718) 595-3855

**Additional information:**

1. The business must record the amount of meat purchased and processed per month, maintain the emission control and note any control equipment malfunctions. Records are to be furnished to DEP on request.
2. Chain Driven Char Broiler Emission Control: DEP has determined that the emission control devices for chain driven broilers that meet the requirements set forth in 15 RCNY 37-06(a) include the South Coast Air Quality Management District (SCAQMD) certified Char Broilers with integrated catalysts. If the applicant chooses to install a non-certified control device, applicants must submit test data as set forth in 15 RCNY 37-06(a). Link to SCAQMD list: [www.aqmd.gov/docs/default-source/permitting/product-certification/charbroilerscatalysts.pdf?sfvrsn=0](http://www.aqmd.gov/docs/default-source/permitting/product-certification/charbroilerscatalysts.pdf?sfvrsn=0)
3. Underfired control: Applicant must provide test data as set forth in 15 RCNY 15 RCNY 37-06 (b). Any emissions control device installed and/or operated under this rule must comply with Section FC 609.4.1 of the New York City Fire Code. Systems must be cleaned by a person holding a FDNY Certificate of Fitness P-64 Commercial Kitchen Exhaust & Precipitator Cleaning Technician.
4. If your primary cooking fuel is coal or wood, then this registration requirement does not apply.
5. Fee per application is \$110.

Mail the completed application and check to:
