Re: Order on Consent ("CSO Order"), DEC Case #CO2-20110512-25 modification to DEC Case #CO2-20000107-8, Appendix A
V. Flushing Bay CSO, M. Drainage Basin Specific LTCPs, 1. Submit Approvable Drainage Basin Specific LTCP for Flushing Creek

Dear Mr. Beckmann:

The New York State Department of Environmental Conservation (Department) acknowledges receipt of the Supplemental Documentation for the Flushing Creek Long-Term Control Plan (LTCP) received from the New York City Department of Environmental Protection (City) on May 22, 2015. The Department reviewed the Supplemental Documentation and provides the following additional comments:

1. Evaluate the installation of an underflow baffle at Diversion Chamber 5 for floatables control.
2. Clarify if permanent flow metering at existing retention tank will be completed as part of the LTCP alternative.
3. Provide corrections to the comment no. 16 response for insertion into Supplemental Document
4. Evaluate floatables control at TI-011 and confirm that feasibility for including floatables control as part of the selected alternative.

Please respond to these comments within 60 days of the date of this letter. If the City would like to discuss the comments contained herein prior to submitting its formal response, the City must contact the Department to do so in a timely manner to ensure the 60 day deadline will be met. If you have any questions regarding this letter, please contact Mr. Gary E. Kline, P.E., Section Chief at 518-402-9655 or gekline@gw.dec.state.ny.us.

Sincerely,

 Joseph DiMura, P.E.
Director, Bureau of Water Compliance
Division of Water
