

Presents Arm-of-the-Sea Theater's

New! City that Drinks the Mountain Sky

Trace the path of life's quintessential liquid from mountain-top to New York City tap.

Learn about the New York City water supply system as told through mask and puppet theater.

Two School Performances

Tuesday, April 30, 2019

**10:00 am to 11:00 am
&
11:30 am to 12:30 pm**

LaGuardia Performing Arts Center

31-10 Thomson Avenue
Long Island City, NY 11101

For reservations, please call (718) 482-5150

Tickets are \$5.00 each (one free seat given with every ten seats purchased).

Through a 55-minute shimmering tapestry of poetry, puppetry, and music, *New! City that Drinks the Mountain Sky* brings alive the landscape of the Catskill Mountains to portray the ongoing partnership to protect our flowing treasure, water.

This dazzling show, recommended for children and adults will take you into the heart of a watershed, see how forests act like kidneys, filtering water as it moves towards streams and reservoirs.

This performance has been made possible by the

New York City Department of Environmental Protection and BMCC Tribeca Performing Arts Center.

You will meet laborers who built the reservoirs and aqueducts and the scientists and engineers who are working on the system today. You will discover how this enormous water project brought profound changes to the Catskill Mountain communities and New York City. You will also explore challenges facing the water supply – infrastructure repair, land-use practices, and the impacts of climate change.

The New York City water supply is one of the engineering wonders of the world. From the Catskill Mountain watersheds, gravity helps to deliver over 1 billion gallons of drinking water to the faucets of more than 9.5 million people in a journey that spans more than 125 miles.
