

2013 Green Infrastructure Grant Program Combined Sewer Area Reference Map

There are combined sewer areas in all five boroughs. If your property is served by a combined sewer within the City of New York, your property is eligible for the Green Infrastructure Grant Program. This map should be used for reference purposes only. All applicants must confirm with DEP's Borough Water and Sewer Office to confirm that the property is in fact served by combined sewers. The best most effective way to get this information is to go to the local sewer office in person with the address and Borough, Block and Lot (BBL) of the property and ask the staff to pull the records for the property. Be sure to make a copy of the Site or House Connection Proposal to submit with your application. Visit www.nyc.gov/dep for local sewer office information

- Priority Combined Sewer Watersheds
- Other Eligible Combined Sewer Watersheds
- Not Eligible Areas

This map is for planning and guidance purposes only. DEP, as the administrative manager of the Green Infrastructure Grant Program, has the sole discretion to determine eligibility, award or retain funds, and make payments to grantees.
