

HEAT BEAT

HYDRANT EDUCATION ACTION TEAM

The HEAT Team Shares Their Message with the Preschoolers of Inwood

During week four of programming, the Manhattan 12A HEAT Team visited the Friends of Crown Heights Early Childhood Center. Director Vilma P. Torres and her young students welcomed the HEAT Team with open arms. Devante Jeffries, HEAT team member led a presentation for the bright and curious preschoolers, telling them about the importance of water conservation and safety. The youngsters were engaged and curious to learn about the many things fire hydrants can be used for.

“The kids loved listening to the HEAT team and participating in the coloring and drawing activities. I’d love to be able to work with the HEAT program again next year especially getting the parents involved at an event.”

-Vilma P. Torres, Director, Friends of Crown Heights Early Childhood Center

“Look What I Did!”

We as Bronx residents can stay cool in other ways
Take a lesson from the HEAT Team on hot days
We can go to the pool to stay cool
If you need a spay cap, call 311
You can also go the beach to have fun
So remember guys safety comes first
Save the water it helps our thirst

Promise Charter School

The Hydrant Education Action Team (HEAT) is jointly sponsored by:

The purpose of HEAT is to educate community residents and stakeholders about the problems surrounding the illegal use of fire hydrants.
