**Job Description**

Under direction, with great latitude for the exercise of independent judgment or action, the selected candidate will perform highly difficult and technically complex work as an engineering specialist in mechanical engineering. The candidate will serve as a consultant on major engineering matters; responsible for overseeing the technical inspection of the construction, alteration, maintenance and repair of projects to insure that completed work is in compliance with the approved plans and specifications, including monitoring the installation of, plumbing and electrical systems, witnessing testing, and acceptance of materials and equipment; and serve as a team leader on a project of great technical complexity or with potential impact on agency engineering operations and/or City infrastructure.

**Qualification Requirements**

1. A valid New York State Professional Engineer's License and four years of full-time experience in mechanical engineering. A masters degree in mechanical engineering from an accredited college will be accepted as equivalent to one year full-time experience in mechanical engineering.
2. In addition to the above requirements, individuals must have at least one year within the last three years of experience as a major contributor or a project leader on a complex project requiring additional and specific expertise in the disciplines needed to design or construct the project.
