Bob Considine (609) 984-1795

**Subject:** Hudson River Advisory

**The New Jersey Department of Environmental Protection is advising the public to temporarily avoid direct contact with and refrain from fishing in the Lower Hudson River, Upper New York Bay and the Kill Van Kull due to a Jersey City Municipal Utilities Authority sewer main break.**

**To facilitate repairs, the JCMUA must discharge untreated sewage into the Upper Bay near the Liberty State Park Marina and from several other discharge points in the Lower Hudson River. The advisory remains in effect until further notice.**
