

## Enjoy Clean Water!

Water is the gift that God gave us  
We should savor every drop.  
It quenches our thirst and nourishes our crops  
Let us cherish every cup  
Every tiny little drop.  
Let us conserve it  
Please let us try  
Don't let us drip our city dry.

**Activity:** Count the number of things in this picture that need water to live. Put that number here \_\_\_\_\_ and draw or list 5 more.
