Oral Care Provider Directory
A resource directory for use by New York City Department for the Aging partner agencies to help older adults access dental care providers

A project of the New York City Department for the Aging and Columbia University College of Dental Medicine
Introduction
Poor oral health may result in pain, difficulty eating, chewing, speaking, kissing and poor facial esthetics. While the impact of oral disease and dysfunction on activities of daily living, quality of life and social interactions is undeniable, oral diseases are increasingly recognized as being associated with medical problems like cardiovascular diseases, cerebrovascular diseases, respiratory infections, and diabetes, all of which are prevalent in older adults. Recognizing that a healthy mouth is vital to successful aging, the NYC Department for the Aging (DFTA), in partnership with Columbia University’s College of Dental Medicine and Citymeals-on-Wheels, is engaged in several projects to address oral health and healthcare amongst the older adult population in New York City. One such project is the creation of an Oral Care Provider Directory that is intended for use by DFTA partner agency staff members to link older adults to local dental care providers.

DFTA surveyed over 500 providers in New York City to seek information on individual/group practices, including insurance accepted, wheelchair accessibility, language(s) spoken and proximity to public transportation (see Appendix A). Survey responses were used to create this directory. Respondents whose completed surveys were illegible, who indicated that they do not treat older adults, and/or indicated that they were not accepting new patients were excluded from the directory.

As indicated by the survey responses, every provider/practice included in this directory:

- Accepts at least 4 Medicaid plans
- Accepts new patients
- Cares for elderly/geriatric clients
- Responds to emergencies
- Provides and/or fixes dentures

Format of the Oral Care Provider Directory
The directory is stratified by borough (Manhattan, Brooklyn, Bronx, Queens and Staten Island) and each borough has three sections: Provider Directory by Community District; Languages Spoken; and Home Visits. For reference purposes, a copy of the survey used to collect this information has been included (Appendix A). DFTA maintains and will provide each partner agency an electronic version of this directory and excel files of the directory for ease in finding a specific provider.

Section 1: Provider Directory by Community District
This section lists oral providers alphabetically by community district and provides information (if provided/applicable) on the following items:

Name of the dental provider(s) and practice name
Address, phone, email
Receptionist
Languages spoken (in addition to English)
Wheelchair accessibility
Information related to those who are uninsured
Ability to make home visits

If a listing does not include information on any of the above items (e.g., wheelchair accessibility), it was not indicated in the survey response.
Section 2: Languages Spoken
Survey respondents by language (other than English)

Section 3: Home Visits
Survey respondents who indicated they make home visits
