## Easier Demolition Permit Renewals

---

We've streamlined our demolition permit renewal process to make it easier to do business with us. Effective immediately, Borough Managers and Service Managers are able to assist you in renewing demolition permits.

In the event the Managers must refer the renewal to the Borough and Deputy Borough Commissioner, the applicant must provide:

- A detailed PW-1 or AI-1
- New notice to the community board (good for 90 days)
- New 5 day notices to adjoining property owners
- New letter from Health Department certifying a licensed exterminator has treated the building for rodent control (good for 90 days)
- Updated photos of the site

Visit our website [www.nyc.gov/buildings](http://www.nyc.gov/buildings) for more information.
