ADDENDUM #2 to PIN 072201501MIS

Jail Management System (JMS) Implementation Project

Dear Prospective Proposer:

Pursuant to 3-03 (f)(2) of the Procurement Policy Board (PPB) Rules, the Department of Correction (Department) is issuing **Addendum #2** to the Request for Proposal for the design, development, testing and implementation of a new Jail Management System (JMS).

BID DUE DATE

Please be advised that the Bid Opening Date for the above referenced procurement remains **Thursday**, **September 4**, **2014 at 3:00PM**

DEADLINE FOR CLARIFICATIONS

The deadline for questions is Wednesday, August 27, 2014 at close of business. The Department will endeavor to answer any questions received after this date, but there may not be sufficient time for replies to be received before the bid due date.

DOCUMENTS PROVIDED BY DOC

Kindly see attached a document with sample artifacts for paper processing of inmates for your reference in preparing your proposal.

ADDITIONAL QUESTIONS AND RESPONSES

Question No. 1:

What interfaces are exposed by current web based application?

Response No. 1:

The database which feeds web-based applications receives a 2-minute feed/interface from the legacy source system. Data is extracted from the database tables behind the web applications to feed the reporting repository.

Question No. 2:

Can you please specify total number of concurrent users?

Response No. 2:

There are currently 2500 IIS users; it is anticipated that the future application will support double that number, but many will be query/read-only access. Currently there is a maximum level of 380 IIS users logged in at any one time. Obviously, these are not concurrent users. Estimate a future state of 500 concurrent users.

Question No. 3:

How is data captured from NYPD, NYS DOCCS?

Response No. 3:

Data is currently received via FTP transfer.

Question No. 4:

How many NYC DOCS staff will be available during the project duration and their percentage of allocation?

Response No. 4:

This will be decided during project planning. DOC will make subject matter experts available as needed.

Question No. 5:

Are you suggesting to implement project using waterfall methodology? Can vendor suggest alternate methodology? If alternate methodology is accepted by NYS DOCS, is NYS DOCS will be flexible in terms of payment plan?

Response No. 5:

DOC is open to alternative methodologies and payment plans.

Question No. 6:

Does NYC DOCS have document repository e.g. FileNet, Documentum etc.?

Response No. 6:

DOC does not currently have a document management system.

Question No. 7:

Are you expecting vendor to validate requirements by going through existing IIS source code?

Response No. 7:

No, we do not want to replicate the IIS – all requirements related to its current functionality have been documented, and JMS requirements include changes and additions.

Additional responses to questions received to date will be addressed in subsequent Addenda and posted on the Department's website.
