Job Description

Supervises the operation and maintenance of oil-fired boilers, steam turbine generators and diesel engine generators including the supervision of staff who performs periodic inspections. Supervises the preparation of requisitions for materials and spare parts; carries out administrative duties regarding plant personnel; liaison with outside contractors and agencies; monitors the progress of ongoing projects within the Powerhouse Plant; ensures that contractors are carrying out their assignments effectively and within contractual guidelines; supervises Stationary Engineers outside the confines of the Powerhouse; conducts research and development into cost saving measures and fuel saving initiatives; assists in interview process for prospective employees for the position of Stationary Engineer, High Pressure Plant Tender, and Oiler and evaluates the job performance of Stationary Engineers. Performs related work.

Minimum Qualification Requirements

1. One year of full-time experience as Stationary Engineer in charge of a high pressure plant supervising at least three stationary engineers in the operation, maintenance and adjustment of high-pressure boilers; and
2. A valid License for High Pressure Boiler Operating Engineer issued by the New York City Department of Buildings.

Preferred Skills

Candidate is required to have both a valid NYC Stationary Engineers license issued by the NYC Department of Buildings and a valid RMO (Refrigeration Machine Operators License) from the NYC Fire Department - unlimited capacity.

Residency Requirement

New York City Residency is not required for this position.
