REAP INFORMATION

NOTE:

If your Certificate of Eligibility is dated on or after July 1, 2000, and you relocated to a "Revitalization Zone", do not use this schedule. A revised schedule will be available on the New York City Department of Finance website at <http://nyc.gov/finance>

The first calendar year for which REAP credits are available against the Utility Tax is 1999.

REAP benefits are available only to taxpayers that have previously applied to the New York City Department of Finance and received a Certificate of Eligibility.

In order for a vendor of Utility Services to take a REAP credit against the Utility Tax, it must elect to do so at the time of submission of its REAP application to the Department of Finance. Any Vendor of Utility Services that has qualified for REAP but has not so elected, must take its credit against the General Corporation Tax, the Unincorporated Busi-

ness Tax or the Bank Tax, whichever is applicable. Attach annual certificate of eligible aggregate employment shares (ACEAES) received from the New York City Department of Finance.

The amount of credit allowable for any taxable period is limited to the tax imposed for such period. The REAP credit must be taken *before* all other credits.

A REAP credit that is earned in a given calendar year may be taken in that year only on the return for the last tax period of the year against the tax due for that period.

A carryover credit from a preceding year may be taken on the return for any tax period in a calendar year including the last period.

A separate Form NYC-9.5UTX must be filled out and attached to the appropriate Utility Tax return for any tax period for which a REAP Credit is claimed. For the last tax period of a calendar year, complete only section I. For any other tax period, complete only Section II.

Instructions for Section I, REAP CARRYOVER SCHEDULE

If you have carryover credits from preceding years, complete the carryover schedule regardless of whether you will carry over credits to the current period. Enter in column B (the applied column) the amount applied to the current period from each carryover year starting with the 5th preceding carryover year until the total agrees with the amount on line 6.
