GENERAL INFORMATION

Local Law 15 of 2002 amends Title 11 of the Administrative Code of the City of New York by adding a new chapter 23-B, known as the "wireless communications surcharge act". The law imposes a surcharge of 30 cents per month on every wireless communication device whose place of primary use is within the City of New York.

Local Law 16 of 2002 amends Subdivision (a) and (c) of section 11-2323 of the Administrative Code of the City of New York, as added by Local Law 94 for the year 1991, by establishing a surcharge of \$1.00 (one dollar) per telephone access line per month on the customers of every telephone service supplier within the City of New York.

The surcharges shall be used to pay for the costs associated with the design, construction, operation, maintenance and administration of public safety communications networks serving the City of New York. The surcharge is to be separately stated and added to every customer's bill. Each wireless communications service supplier and each telephone service supplier that provides local access service within the 911 service area in the City of New York is entitled to retain, as an administrative fee, an amount equal to two percent of its collections of the surcharge.

DEFINITIONS:

"Wireless communications device" means any equipment used to access a wireless communications service.

"Wireless communications service" means all commercial mobile services, as that term is defined in section 332(d) of title 47, United States Code, as amended from time to time, including, but not limited to, all broadband personal communications services, wireless radio telephone services, geographic area specialized and enhanced specialized mobile radio services, and incumbent-wide area specialized mobile radio licensees, that offer real time, two-way voice or data service that is interconnected with the public switched telephone network or otherwise provides access to emergency communications services.

"Wireless communications service supplier" means any commercial entity that operates a wireless communications service.

Examples of devices on which the surcharge is not imposed include one-way beepers, walkie-talkies, and medical lifeline services.

"Place of primary use" means the street address that is representative of where the customer's use of the wireless communications service primarily occurs, which address must be either the residential street address or the primary business street address of the customer, and within the licensed service area of the wireless communications service provider. Wireless service providers may treat the customer address used under a service contract or agreement in effect on July 28, 2002 as that wireless customer's place of primary

use for the remaining term of such service contract or agreement.

EFFECTIVE DATE OF SURCHARGE

All service providers must begin reflecting the surcharges on customers' bills no later than October 7, 2002. However surcharge monies collected prior to the effective date must be remitted to the Department of Finance.
