**DIVISION OF MENTAL HYGIENE
PREFACE**

This document will provide a listing of mental hygiene programs and services in contract with the New York City Department of Health and Mental Hygiene (DOHMH) during Fiscal Year 2002 (FY '02). The DOHMH funds, contracts for and monitors the delivery of a wide range of mental hygiene services provided by not-for-profit organizations and voluntary hospitals in three disability areas: Mental Health, Mental Retardation & Developmental Disabilities, and Chemical Dependence. The scope of services available to the public extends beyond those listed here to include those provided by City and private hospitals, clinics and facilities funded and/or operated by New York State.

How this document is organized:

Each of the three disability areas will be presented in its own section with the following information:

- o An overview of service categories.
- o A listing of program types and definitions with corresponding program code numbers as assigned by New York State.
- o A listing of the DOHMH FY '02 contracted programs for the disability area organized by borough and community district.

Following the three disability sections is a listing of the agencies that operated the DOHMH contracted programs in FY '02. These listings include addresses, phone numbers and agency code numbers as assigned by DOHMH.

Each program entry contains the following information:

Agency Name
Program Type ¹
Program Name (if available)

¹ As defined in the New York State Consolidated Budget Reporting and Claiming Manual, Issued April 2001.

Main Program Address ²
Program Phone Number

Clients: The number of unduplicated individuals the program is contracted to serve in FY '02. Individuals who use more than one program during the year are counted as clients in each program.

Visits: The program's level of service commitment for F Y '02.

Budget: The program's gross budget for FY '02. ³

Progid: The program's identification number as defined by DOHMH.

Pcode: The program's code number. ⁴

Location: (cd) = Community District; (cc) = City Council District; (sd) = School District; (ad) = State Assembly District; (ss) = State Senate District; (cg) = U.S. Congress District; (mk) = Map Key.

Questions regarding the District Resource Statement may be directed to the Division of Mental Hygiene, Bureau of Planning, Evaluation and Quality Improvement at 212 219-5470.

² Satellite sites are not always listed.

³ The "gross budget" figure represents all dollars budgeted to meet a program's level of service commitment. The revenue sources for these programs include public subsidy, collectible fees, and agency contributions.

⁴ Program descriptions for program code numbers can be found within each disability section following that section's overview.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

**THE MENTAL HYGIENE SYSTEM
AN OVERVIEW**

New York City's formal mental hygiene system officially dates to 1954, when New York State enacted the Community Mental Health Services Act, often referred to as the Mental Hygiene Law. This law authorized local communities to establish community mental health boards and authorized funding for local contracts with community-based mental health providers. In the same year the New York City Charter was amended to establish the Community Mental Health Board.

In 1969, the Department of Mental Health and Mental Retardation was established as the City agency responsible for planning, funding and monitoring the provision of mental health and mental retardation services. In 1971, alcoholism services were added to the Department's portfolio, and in 1994 the Department was designated by the Mayor as the lead City agency for planning and coordinating chemical dependence services. In 2002 the NYC Department of Mental Health, Mental Retardation and Alcoholism Services merged with the New York City Department of Health to form the New York City Department of Health and Mental Hygiene (DOHMH).

New York State Offices

DOHMH's Division of Mental Hygiene plans and implements its mental hygiene system in partnership with three New York State agencies: the Office of Mental Health (OMH), the Office of Mental Retardation and Developmental Disabilities (OMRDD) and the Office of Alcoholism and Substance Abuse Services (OASAS). These State offices provide funding to New York City and other localities and serve as conduits for Federal mental hygiene dollars. They are responsible for ensuring that localities comply with the Mental Hygiene Law which mandates that the State and its localities share joint responsibility for planning the care, treatment and rehabilitation of individuals diagnosed with mental hygiene diagnoses. Each State office provides oversight for the services provided in its disability area:

OMH is responsible for overseeing, regulating and certifying mental health services in New York State for more than 2500 mental health programs operated by local governments and nonprofit agencies. These include inpatient, outpatient, emergency, community support and residential programs. OMH

directly operates 17 adult psychiatric centers and six children's facilities.

OMRDD has responsibility for the State's care, treatment and habilitation of individuals with mental retardation and developmental disabilities through certifying, regulating, and contracting for a variety of programs. Services are provided primarily by voluntary, community-based organizations and include residential care and support; adult day training, vocational and employment programs; and a wide range of family and individual support services. In addition, OMRDD operates 14 Developmental Disabilities Services Offices which provide specially designed person-centered assistance to individuals with developmental disabilities to improve their quality of life.

OASAS administers the State's system of chemical dependence services including the funding, licensing, certification and regulation of programs. Services are delivered through a network of more than 1,200 community-based programs; more than half are outpatient programs, with the next largest category consisting of residential services followed by crisis service programs and inpatient rehabilitation programs. OASAS directly operates 13 Addiction Treatment Centers (ATCs) located throughout New York State. OASAS also coordinates the work of more than 400 prevention groups in schools and communities.

DOHMH Division of Mental Hygiene

The Division of Mental Hygiene's main responsibility is to plan for, monitor and evaluate contracts with voluntary agencies and hospitals to ensure that New York City residents have access to a wide network of mental hygiene treatment programs and support services. The programmatic structure of the Division of Mental Hygiene for the DOHMH follows that of the State offices:

The Bureau of Mental Health and Program Services is responsible for the overall direction of the mental health service system. Within this Bureau are Regional Offices for the boroughs of Manhattan, Bronx, Queens and Brooklyn/Staten Island. The Bureau includes the Office of Child and Adolescent Services and the Office of Forensic Services.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

The Bureau of Early Intervention, Mental Retardation and Developmental Disabilities is responsible for the overall direction of programs for individuals with mental retardation and developmental disabilities as well as for administering the Early Intervention Program, a federally mandated entitlement program that provides a broad spectrum of rehabilitative services to eligible infants and toddlers with developmental disabilities.

The Bureau of Alcoholism and Substance Abuse Services is responsible for the overall direction of the chemical dependence system as well as promoting the prevention of and awareness about all mental hygiene disabilities. It is also responsible for raising public awareness about the negative consequences of alcohol and drug use.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

**MENTAL HEALTH SERVICES
OVERVIEW OF SERVICE CATEGORIES**

The Bureau of Mental Health and Program Services has primary responsibility for planning, developing, funding and monitoring services provided to people with mental illness. In New York City, mental health services are provided in a variety of settings: in homes, clinics, community-based organizations, community residences, hospitals and psychiatric centers. Services range from highly structured programs in hospitals and clinic settings to programs in the community that assist individuals in obtaining housing, employment and other necessary supports.

MENTAL HEALTH SERVICES FOR ADULTS

Emergency and Crisis Programs

Emergency and crisis programs are designed to achieve rapid psychiatric and/or medical stabilization and to assure the safety of individuals who present a risk to themselves or others. The primary objective of emergency programs is to provide rapid screening, assessment and psychiatric stabilization so that the acute symptoms of mental illness are reduced. In addition, these programs are designed to stabilize the individual's bio-psycho-social functioning and develop plans for their treatment in the community. Emergency programs include but are not limited to Comprehensive Psychiatric Emergency Programs, Crisis Outreach Programs and Crisis Intervention Programs.

The Assisted Outpatient Treatment (AOT) program was developed by New York State to implement "Kendra's Law," which allows the court to order into outpatient treatment certain individuals who have a history of violence or non-compliance with treatment. In the event an individual under an AOT court order is noncompliant with treatment and services, a physician may recommend the person be transported to a hospital and retained for up to 72 hours to determine if inpatient care and treatment are necessary. DOHMH has established an information line for AOT: 1-800-527-7474.

DOHMH funds a confidential hotline, 1-800-LIFENET, which is available 24 hours/seven days a week. LIFENET provides callers with information and referrals for mental health and other social service resources throughout New

York City. 1-800-LIFENET's services are available in Spanish at 1-877-AYUDESE and in Chinese at 1-877-990-8585. People who use a TTY or TDD can call the New York Relay Service at 1-800-421-1220 to call 1-800-LIFENET. If a call is an emergency or crisis situation, LIFENET contacts 911 or a mobile crisis team.

Inpatient Programs

Inpatient programs are hospital-based psychiatric programs that provide 24-hour care, under medical supervision, in a controlled environment. There are two levels of inpatient care, acute hospitalization and long term hospitalization.

Acute inpatient psychiatric treatment is provided in voluntary or municipal hospitals. Clients are admitted for a minimum period of 24 hours and typically stay less than 30 days.

Intermediate and long term inpatient treatment (more than 30 days) is provided in State-operated psychiatric centers. In most instances, this occurs when patients are transferred from a voluntary or municipal hospital after completion of an acute phase of treatment and are deemed to require additional hospitalization. Five adult psychiatric centers and a psychiatric research institute are located in New York City. These facilities are funded and operated by the New York State Office of Mental Health.

Outpatient Programs

Outpatient programs are designed to meet the mental health treatment needs of individuals who can be served in community-based settings. Some outpatient programs are more structured than others. For example, outpatient partial hospitalization programs are more structured than outpatient clinical programs. Clinic programs focus on the reduction of symptoms of psychological distress and improvement in client functioning through treatment. Outpatient programs include, but are not limited to, Clinic Treatment Programs, Partial Hospitalization, Intensive Psychiatric Rehabilitative Treatment and Continuing Day Treatment Programs.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

Community Support Programs

Community support programs are designed to promote recovery from mental illness and to strengthen the psychosocial skills of individuals with severe and persistent mental illness so that they can live as independently as possible in natural community settings. These programs provide vocational and social rehabilitation services. Academic rehabilitation programs assist clients in developing cognitive and intellectual skills and provide support services needed to achieve basic, high school, and/or higher education. Vocational rehabilitation programs assist clients in establishing career goals and then obtaining the evaluation, training and support services necessary to select, obtain and maintain paid employment. Social rehabilitation programs, such as psychosocial clubs, develop or enhance personal care, social communication, recreation, personal finance and other daily living skills and provide support necessary for successful and satisfying community functioning.

Supported housing programs assist clients in securing housing of their choice and accessing whatever supports are necessary to live in the community. These programs typically provide rent stipends and are found in congregate settings or scatter-site apartments. Services include assistance with finding roommates, obtaining furniture and other housing needs, maintaining a budget and obtaining mental health, vocational, health care and other services. Community residence programs provide room and board and various levels of rehabilitation services and support.

FORENSIC MENTAL HEALTH SERVICES

To address the needs of mentally ill individuals involved in the criminal justice system, the DOHMH designed the Service Planning and Assistance Network (SPAN) program and the Link Case Management program.

The Service Planning and Assistance Network (SPAN) provides discharge planning and referral assistance to individuals with mental health needs who are released from the NYC correctional system and have not been incarcerated long enough for a discharge plan to be developed. The program ensures that individuals will receive necessary psychiatric medications without interruption upon release and provides linkages to appropriate community-based services and resources.

The Link Case Management program focuses on the transition from incarceration to the community for seriously and persistently mentally ill individuals who are involved in the criminal justice system. Link case managers, in conjunction with discharge planners on Rikers Island, develop service plans for individuals returning to the community and provide follow-up, referrals and advocacy in an effort to reduce recidivism.

Incarcerated individuals who require intensive psychiatric assistance are served in the Kirby Adult Forensic Center located on Wards Island. It is funded and operated by the New York State Office of Mental Health.

MENTAL HEALTH SERVICES FOR CHILDREN AND ADOLESCENTS

The Bureau of Mental Health and Program Services plans for, funds and monitors a wide range of programs that enable children and adolescents to receive comprehensive treatment and support services. Mental health services for children and youth parallel those described above for adults. Child and adolescent programs generally operate in the community and are designed to prevent hospitalization and inpatient care or, when hospitalization or inpatient care is necessary, to return the child/adolescent to a family/community environment as quickly as possible. Child and adolescent programs are also designed to assist the family in maintaining the child and/or adolescent in the home, or in homelike settings.

Emergency Programs

Crisis Intervention services include provision of specialized evaluation, treatment, stabilization and referral or diversion to an appropriate program for the child and, if required, the family. Crisis Outreach may be accomplished through a mobile crisis team that responds to a child in crisis at home, with a foster family, in school, in a group home or in other child-serving systems. Home-Based Crisis Intervention Programs provide in-home crisis services to families (natural, foster, adoptive) where one or more children are at imminent risk of psychiatric hospitalization. Intensive in-home intervention is provided for four to six weeks by diverting the child from placement in a hospital, teaching problem solving skills to the family and linking the child and family to community-based resources and supports.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

Inpatient Programs

Inpatient programs provide acute care to children and adolescents who need crisis stabilization and/or require intensive short-term treatment and medical intervention. Acute care programs conduct a comprehensive assessment of the child and family's clinical needs in order to develop a comprehensive treatment approach. Stays range from a few days up to 30 days. Intermediate care is provided to children and youth between the ages of five and 17 who demonstrate continued symptoms of serious emotional disturbance that require treatment in a hospital setting. Stays range from 30 to 180 days. For long-term and acute care, three children's psychiatric centers are located in New York City. They are funded and operated by the New York State Office of Mental Health.

Residential treatment facilities provide fully integrated and individualized mental health treatment to seriously emotionally disturbed youth between the ages of five and 21.

Outpatient Programs

Clinic Programs seek to reduce symptoms of psychological distress and the improvement of individual child and family functioning through treatment. Day treatment programs provide the most intensive nonresidential mental health services currently available. The programs are characterized by a blend of mental health and education services.

Community Support Programs

Community Support programs provide a full range of services to enable seriously emotionally disturbed children and adolescents to live in the community. These services include:

Family Support programs provide support services to enhance the capacity of families to care for emotionally disturbed children in the home. Services may include parent education/support groups, respite care, family recreation programs, child supervision and parenting skills.

Family Based Treatment programs use surrogate families to maintain and treat seriously emotionally disturbed youth in their homes. Residential programs include congregate residences for children and adolescents that provide structured daily living activities, problem solving skills and behavior management. Each residence is linked with one or more day treatment programs and is based in the community.

Vocational and Social Rehabilitation programs include therapeutic nurseries that treat and monitor children identified at high risk for serious emotional disturbance. They also work with parents and extended family members to improve parenting skills. Case management and other appropriate treatment services are provided to the family.

Vocational Programs for Older Adolescents include job skills training necessary to function at work sites and in on-the-job training programs. Social Leisure Time programs develop or enhance social and recreational skills and supports; these programs provide supportive social and recreational activities and networks with an emphasis on family activity during weekend, evening and holiday hours.

MENTAL HEALTH SERVICES FOR SPECIAL POPULATIONS

As the demographics of the City's population have changed, the DOHMH has responded by developing programs that address the needs of special populations. Over the past decade, mental health programs have been developed specifically for seniors, immigrants, individuals with co-occurring chemical dependence disorders, gay, lesbian, bisexual and transgender individuals, persons living with HIV/AIDS and individuals who are homeless.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

**MENTAL HEALTH
PROGRAM CODES AND DESCRIPTIONS**

The following program types were in contract with DOHMH in FY '02:

0010 - Inpatient Psychiatric Unit - Inpatient psychiatric programs provide 24-hour assistance including full-time medical, psychiatric and social services and around-the-clock nursing services. These programs are located in State psychiatric centers, certified hospitals, general hospital inpatient psychiatric units and inpatient units of community mental health centers.

0130 - Emergency Unit Clinic Treatment - Clinic treatment provided in an emergency unit or by emergency unit staff.

0200 - Day Treatment (Children and Adolescents) - Day treatment programs blend mental health services with special education services in a fully integrated program. Typically, these services include special education in small classes, with an emphasis on individualized instruction, individual and group counseling, family services such as family counseling, crisis intervention, interpersonal skills development and behavior modification. Children and adolescents receiving day treatment services live at home or in the community but have been identified as seriously emotionally disturbed and cannot be maintained in regular classrooms.

0320 - On-Site Rehabilitation - On-site rehabilitation programs assist individuals who live in adult congregate care settings, supervised or supported living arrangements to achieve their treatment and community living rehabilitation goals. Services include one or a combination of: (1) recipient self-help and support interventions; (2) community living; (3) academic, vocational, and/or social leisure time rehabilitation training and support services. Services are typically provided at the residential location or in the provider-operated community setting.

0340 - Sheltered Workshop - These programs provide vocational assessment, training and paid work in a protective and non-integrated work environment.

0380 - Transitional Employment Placement - The objective of transitional employment is to strengthen the individual's work record and work skills through time-limited employment and on-the-job training so that the individual may achieve assisted or unassisted competitive employment.

0610 - Recreation Programs - Recreation programs provide social, recreational, and leisure activities that are intellectually and interpersonally stimulating but that are not necessarily part of a goal-based program plan.

0650 - Respite Care - Respite care provides relief to primary care givers such as parents or legal guardians on a temporary basis. Services are provided by trained staff in the recipient's place of residence or in a temporary housing arrangement.

0670 - Transportation - Transportation is provided to and from facilities or resources, including all necessary supportive services, specified in the individual treatment plan.

0680 - Mobile Treatment Team - Mobile Treatment programs provide outreach to individuals who are in need of mental health services but who are having a difficult time connecting to community resources. The multi-disciplinary team provides treatment similar in nature to those provided at a clinic treatment program, but the services take place either in a person's residence or another natural setting.

0690 - Outreach - Outreach programs are designed to establish face-to-face contact with individuals potentially in need of mental health services. Services can be delivered through mobile outreach teams and include assessment and referral. Services can also be delivered at drop-in centers. They can include but are not limited to socialization, recreation, light meals, information about mental health and social services and outreach, assessment and referral services.

0700 - Crisis Services (Non-Inpatient) - These programs provide services to individuals who are experiencing acute emotional distress and require immediate attention. Services are provided in a non-inpatient setting such as the residence of the recipient.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

0770 - Psychosocial Club - Psychosocial clubs assist consumers in reestablishing their sense of self-esteem and group affiliation, as well as promoting recovery and reintegration into meaningful community life through the provision of two or more of the following: (1) self-help and empowerment interventions; (2) community living; (3) academic; (4) vocational and/or (5) social leisure time rehabilitation, training and support services.

0800 - Assertive Community Treatment (ACT) Teams - ACT Teams provide intensive treatment and support to people with psychiatric disabilities. The focus is on improving an individual's quality of life in the community and reducing the need for inpatient care by providing intense community-based treatment services by an interdisciplinary team of mental health professionals. Building on the successful components of the Intensive Case Management (ICM) program, the ACT program has low staff to client ratios and operates 24 hours a day, seven days a week.

0810 - Case Management - Case Management programs provide activities designed to link the client to the service system and coordinate various services to achieve a successful outcome. Case managers provide linkages to mental health and other resources, problem-solving assistance, advocacy, and coordinate individual service plans that address an individual's complex needs.

0820 - Blended Case Management - Facilitates a team approach to case management by combining the caseloads of multiple Intensive Case Managers and/or Supportive Case Managers. The program objective is to assure continuity of care and services through linkage, monitoring and case-specific advocacy.

0990 - Special Demo/Other - Identifies programs that are demonstration projects or do not fit other categories of service.

1310 - Continuing Day Treatment - These programs provide active treatment and rehabilitation designed to maintain or enhance current levels of functioning or skills, to maintain community living and to develop self-awareness and self-esteem through the exploration of strengths and interests. These programs provide assessment and treatment planning, discharge planning, medication therapy, case management, health screening and referral, psychiatric rehabilitation and symptom management.

1320 - Vocational Services (Adolescent) - Vocational programs for adolescents are designed to provide work training and clinical support services for older adolescents with poor academic performance and social adjustment. They also provide assessment and interventions to strengthen coping, vocational, educational and social skills.

1340 - Enclave in Industry - These programs provide vocational assessment, training and transitional or long-term paid work experience for individuals with severe disabilities. An enclave consists of a small group of approximately five to eight individuals who work in an industry or other economic enterprise. Participants are provided with training, supervision, and ongoing support by a job coach/supervisor assigned to the work site by the agency.

1380 - Assisted Competitive Employment - These programs help recipients choose, find and maintain satisfying jobs in the competitive employment market. When appropriate, job training, supervision and support services are offered at the work-site and off-site.

1520 - School-Based Initiatives - These programs provide mental health services to seriously emotionally disturbed students or students at risk for such disturbances. Services include assessment, crisis intervention, referrals and linkages with family services and community-based programs. Students can receive brief interventions as a group or individually. In addition, consultation and technical assistance to school personnel on behalf of the student(s) are provided.

1650 - Family Support Services - Family Support programs provide family support groups, advocacy, respite and after school services as well as summer, family recreation and residential camp programs to families in which there is a seriously emotionally disturbed child.

1680 - Crisis Outreach - These programs provide mobile crisis intervention and emergency services, including assessment and treatment in natural (e.g., homes), structured (e.g., residential programs), or controlled (e.g., instructional) environments.

1760 - Advocacy Service - These programs provide advocacy services to assist individuals in protecting and promoting their rights, resolving complaints and grievances, and accessing services and supports of their choice.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

1770 - Drop-In Center - These programs serve to identify and engage people who may choose not to participate in more structured programs or who might not otherwise avail themselves of mental health services. These programs are low demand, flexible and relatively unstructured so that they are responsive to the individual needs of the recipient.

1800 - Neighborhood Care Team - These programs provide coordinated care across agencies and focus services at the neighborhood level. Staff consist of professionals and para professionals who provide culturally appropriate and responsive services.

1810 - Intensive Case Management - These programs provide linkages for the client to the service system and coordinate various services to achieve a successful outcome. Intensive case managers assure comprehensive, multi-disciplinary services, continuity of care and case-specific advocacy in consumers' "natural" settings. They are available 24 hours a day, seven days a week. Intensive Case Management programs utilize low staff/client ratios.

1990 - Bridger/Transition Management Services - These programs provide clients who are being discharged from the State Psychiatric Centers with linkages to appropriate services in the community. In addition, individuals are connected to the full range of mental health, health and social services to ease their transition into the community and decrease the potential for hospitalization.

2100 - Clinic Treatment (Part 587/588) - Adult Clinic Treatment programs provide outpatient treatment designed to reduce symptoms and improve functioning. They provide assessment, treatment planning, health screening, referral, discharge planning, verbal therapy, medication treatment, symptom management, and psychiatric rehabilitation readiness determination. They can also provide crisis intervention, case management, and clinical-support services. Children and Family Clinic Treatment provides similar services to children and adolescents who are seriously emotionally disturbed and their families. These programs aim to assist families in keeping their children at home.

2200 - Partial Hospitalization - Partial Hospitalization programs provide treatment designed to stabilize and ameliorate acute symptoms and serve as alternatives to hospitalization. Services include assessment, treatment planning, health screening, referral, verbal therapy, medication treatment, medication education, symptom management, case management, crisis intervention, activity therapy, discharge planning, and clinical support services.

2320 - Intensive Psychiatric Rehabilitation Treatment - A time-limited program that provides active psychiatric rehabilitation designed to assist individuals in forming and achieving mutually agreed upon goals in living, working and socializing.

2340 - Affirmative Business/Industry - These programs provide vocational assessment, training, transitional or long-term paid employment and support services in a less restrictive, more integrated, employment setting than the sheltered workshop.

2760 - Peer Advocacy - Services are provided by current or former recipients of mental health services. They have been trained in areas such as mediation and negotiation skills, recipients' rights, the mental hygiene law, and access to entitlements and local resources.

2770 - Self-Help - Self-Help programs employ current or former recipients of mental health services in the belief that people who share a common experience can assist each other. These programs may be mutual self-help groups, networks or self-help organizations that offer educational, recreational, social or other programs.

3040 - Home-Based Crisis Intervention - These programs assist families with children in crisis by providing an alternative to hospitalization. These programs provide short-term, intensive services to families at risk of having to place their child in a psychiatric hospital. The programs provide services to children between the ages of five and 17 who are experiencing severe psychiatric crisis.

3130 - Crisis Intervention - These programs provide services to individuals who are in a psychiatric unit of a hospital due to psychiatric crisis. The primary objective is to reduce the acute symptoms and restore recipients to pre-crisis levels. Services include triage, screening, assessment, treatment, stabilization, and referral to appropriate programs. The program objectives are to reduce the acute symptoms and restore recipients to pre-crisis levels. Services include triage, screening, assessment, treatment, stabilization, and referral to appropriate programs.

3340 - Client/Worker Program - Work programs provide vocational assessment, training and transitional or long term paid work in institutional or community job sites.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

4990 - Social Adult Day Care - (Seniors) - These programs provide a structured, comprehensive program designed to provide socialization, supervision, personal care and nutrition assistance during any part of the day. Additional services include but may not be limited to assistance for daily living skills, transportation, care giver assistance and case coordination.

5070 - Supported Single Room Occupancy Housing - These housing programs provide mental health services to residents on a voluntarily basis. Additional community services are available as needed.

5990 - MICA Network - MICA Networks assist clients who are both mentally ill and in alcohol and/or substance abuse recovery with housing, case management, treatment, peer support/self-help and chemical dependency services.

6050 - Supported Housing - These programs provide recipients with assistance in finding and maintaining housing designed for mentally ill individuals. Services include help with furniture, security deposits, and deposits on utilities, and assistance in resolving issues that may jeopardize the individual's housing stability.

6810 - Supportive Case Management - These programs are designed to link clients to the service system and coordinate various services to achieve a successful outcome. The objective is to assure continuity of care and service through linkage, monitoring, and case-specific advocacy.

Department of Health and Mental Hygiene**

**MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES
OVERVIEW OF SERVICE CATEGORIES**

The Bureau of Early Intervention, Mental Retardation and Developmental Disabilities is responsible for planning, developing, funding and monitoring services for individuals with developmental disabilities and their families. Services are provided primarily by voluntary agencies in contract with DOHMH and include sheltered workshops, day training, transitional employment, work readiness, specialized day treatment, specialty clinics, socialization, recreation, respite, adult special education, information and referral and other programs.

In New York City, the range and scope of voluntary service providers vary greatly. Some are comprehensive service agencies offering residential, day and support services; others are limited service agencies offering one or two categories of service. Some agencies serve individuals with a range of developmental disabilities while others serve individuals with a particular disability such as autism or epilepsy.

SERVICES FOR ADULTS

Community Residential Services

The majority of individuals with developmental disabilities live and work in the community where the residential service continuum spans a wide range of residential alternatives. Residential alternatives include Family Care (FC), Supported Apartments (SA), Community Residences (CR), Intermediate Care Facilities (ICF) and Individual Residential Alternatives (IRA). New York City currently has a residential bed capacity for 7,456 individuals. Community residential services are funded and monitored by the New York State Office of Mental Retardation and Developmental Disabilities (OMRDD).

People with developmental disabilities also live at home with their families or in their own homes with supports (supportive services that enable them to remain at home).

Developmental Centers

Developmental Centers are residences for individuals who are significantly impaired and have no other alternative for residential living. They are funded and monitored by OMRDD. Two developmental centers operate in New York City, one in Brooklyn, the other in Queens.

Day Services

The adult day services continuum offers a range of options: day treatment, day training, sheltered work, day habilitation, work readiness, supported employment and transitional employment. These programs offer an array of socialization, recreational activities, pre-vocational training, community integration, skill building and enhancement in the activities of daily living. There are both full-time and part-time day habilitation services conducted by voluntary agencies.

Work Readiness programs are individually designed to provide the skills necessary for enrollment in supported work programs. Supported employment continues to expand as a service category as more and more individuals with mental retardation and developmental disabilities become employed. Increasingly, adults with developmental disabilities who obtain jobs are expected to continue working, with supports, throughout their lives until retirement. Some individuals move into unsupported, competitive employment, which is also expanding as an option.

Seniors with developmental disabilities attend geriatric programs on either a full- or part-time basis, sometimes in combination with a sheltered workshop. Many seniors also attend community senior centers with the assistance and encouragement of senior companions who are members of the community groups.

Day services are funded and monitored by OMRDD and/or DOHMH.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

Services for Families

Family Support services are provided by voluntary agencies to family members who need assistance in maintaining the developmentally disabled individual in the home. These services aim to foster family stability by improving the quality of life for consumers of all ages and their families. The services include outreach, transportation, family/consumer reimbursement, parent training, after school programs, services coordination, crisis intervention and counseling, recreation, summer day camp programs and day respite. Some of these programs address the specific needs of individuals who have autism, epilepsy or other neurological impairments.

To address the needs of a diverse multi-lingual and multi-cultural population, specific programs have been established for persons who speak languages such as Spanish, Creole, Chinese, Korean, Russian and Greek.

Family support programs are funded and monitored by OMRDD and/or DOHMH.

Clinic and Health Services

Medical and clinical services are provided in several ways to individuals with developmental disabilities. Medical care may be provided by private physicians or by hospitals. Medical and habilitative clinical interventions are available through specialty clinics, both free-standing and hospital based, in all the boroughs. These clinics are operated both by voluntary agencies and by the New York City Health and Hospitals Corporation and may be certified by OMRDD under Article 16 and/or by the State Department of Health under Article 28. Many of the clinics serve only children while some also serve adults; a few serve only adults.

SERVICES FOR CHILDREN AND ADOLESCENTS

The Early Intervention Program provides for the evaluation of children up to three years old and the delivery of services to those identified as having a developmental disability or delay. Early Intervention services include, but are not limited to, service coordination, parent counseling, speech therapy, occupational therapy and physical therapy. Services are provided based on the results of clinical and educational evaluations that indicate specific degrees of disability.

For children between the ages of 3 and 21, educational programs and related services are provided by the New York City Department of Education and through classes conducted by voluntary agencies.

The partnership between the school system and providers of adult programs has been strengthened through the years due to advocacy by parents, school and voluntary agency staff. Most developmentally disabled high school graduates are referred for program placement and/or support services prior to graduation through the development of transition plans. Schools have incorporated increased training for independence and vocational skills at earlier educational stages to enable a smooth transition into adulthood.

There are publicly funded recreation, after school and summer camp programs for children with developmental disabilities in all the boroughs. These are crucial for providing children with the opportunity to play and socialize with their peers, and giving parents the confidence that their children are in settings where their needs are understood. Without these programs many parents would be unable to maintain employment.

Respite services allow parents and guardians to have time for themselves by delegating the care giving role for a brief period of time to trained care-givers. They are very important in safeguarding the overall well-being of a family and assuring that families remain together in times of crisis.

**MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES
PROGRAM CODES AND DESCRIPTIONS**

The following program types were in contract with DOHMH in FY '02:

0070 - Summer Camp - These programs provide overnight accommodations for more than 48 continuous hours. They provide for the physical needs of campers and provide organized activities for recreation and enhancement of the intellectual, social and sensorimotor development of participants.

0100 - Clinic Treatment - Clinic services are provided by, or under the supervision of, qualified professionals to participants, their families, and care providers. These programs provide diagnostic and evaluative services, specific therapeutic habilitative services (e.g., physical therapy, speech therapy), medication management and monitoring and similar services on an intermittent basis. Clinic programs are provided as supplements to and not substitutes for a participant's full day program.

0120 - Specialty Clinic - Intensive diagnostic and/or medically prescribed treatment services are provided during the day and/or evening, are time limited and of short duration. These programs are affiliated with hospitals or facilities that hold, in addition to OMRDD certification, licensure in accordance with Article 28 of the Public Health Law.

0150 - Family Support Services - Family Support programs typically include information and referral services, parent training, family counseling, recreation, home-based care, adaptive equipment, home modification and legal services for family members.

0200 - Day Treatment - These programs provide a combination of diagnostic, treatment and rehabilitative services to individuals in need of a broader range of services than those provided in clinical programs. Day Treatment programs vary widely in the services offered, the level of disability of participants, the staffing plan, the program goals and the types and numbers of cooperative agency relationships.

0330 - Day Training (General) - Day Training programs provide services to developmentally disabled persons whose level of disability is not so severe as to require Day Treatment services, but whose deficits limit their ability to function independently. The goal of these programs is to assist developmentally disabled persons to maintain or strengthen skills that will enable them to improve their personal, social and vocational opportunities. Programs may operate as complements to other day programs or be provided on an intermittent basis to accommodate gaps in other types of programs. The emphasis of these programs is on the maintenance of existing skills and the development of social, recreational, and leisure activities that are intellectually and interpersonally stimulating and augment health maintenance such as recreational, music movement and art activities.

0330 - Day Training (Work Readiness) - These programs provide assistance in the development of work-related skills to prepare individuals for participation in work activities.

0340 - Certified Work Activity - This program is certified by the U.S. Department of Labor and OMRDD to provide services and experiences to participants with the goal of increasing their economic independence. Work activity programs tend to emphasize pre-vocational skills with the goal of preparing the individual to function in a Sheltered Workshop program. Sheltered Workshops are for developmentally disabled persons who have the pre-vocational skills necessary to perform occupational tasks with an acceptable level of output. The goals of such programs are to train individuals in the occupational tasks to be accomplished, provide necessary and appropriate adjustment training and to provide training and experience that will assist the individual in improving his/her performance.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

0360 - Classroom Education, School - Provides educational services to mentally retarded and developmentally disabled persons between the ages of 5 and 21. Examples of other services include classroom education for adults at local colleges, educational services to non-disabled children and trainings for professional educators to alleviate the stigma faced by developmentally disabled children and adolescents who are "mainstreamed" in the public schools.

0370 - Preschool - Provides services to developmentally disabled individuals under the age of five. These programs provide preventive and enrichment services to children at risk of developmental disabilities in order to prepare them for acceptance into a school program in the public schools. Activities include, but are not limited to, the stimulation of infants and the teaching of pre-academic skills, social interaction skills and self-care skills.

0380 - Transitional Employment - These programs provide short term interventions designed to assist developmentally disabled individuals in obtaining employment at or above the minimum wage. They provide assistance in learning marketable skills, developing good work habits and understanding appropriate on-the-job socializing for becoming competitively employed. This takes place in integrated community work settings and emphasizes support provided at the worksite.

0390 - Supported Employment - These programs are designed for individuals who require ongoing interventions and supports in order to obtain and maintain employment. The individuals must be engaged in meaningful work for wages on a part or full time basis. The employment must be in an integrated work setting providing frequent daily social interactions with people who are not disabled.

0610 - Recreation - Recreation programs provide social, recreational, educational and enrichment activities within the context of After School programs, summer day camps, Weekend Respite programs and other programs.

0630 - Homemaker Services - Homemaker Services provide assistance and training in home management skills, household tasks and hygiene skills. These services are provided in a client's home by a trained person who is not the member of the household. Homemaker training can also be provided to parents or significant others of the developmentally disabled person.

0750 - Information and Referral - Information and Referral programs provide assistance in linking individuals to evaluation services by making a preliminary determination of their appropriateness for particular services and/or programs. Such activities include information about the availability of services, answers to administrative questions, and interpretations of specified clinical data. Information and referral programs collect appropriate information from the client to facilitate access to appropriate programs and services.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

**CHEMICAL DEPENDENCE SERVICES
OVERVIEW OF SERVICE CATEGORIES**

The Bureau of Alcoholism and Substance Abuse Services is responsible for planning, developing, funding and monitoring alcohol and substance abuse treatment and prevention services for children, adolescents and adults. In addition, the Bureau provides information about alcohol and substance abuse treatment and prevention services and encourages public awareness about the negative consequences of alcohol and drug use. In New York City, chemical dependence services funded by the DOHMH are provided primarily by private and municipal hospitals and community-based, not-for-profit organizations.

Prior to 1989, NY State operated two separate agencies, one for alcoholism services and one for substance abuse services. In 1990, the State consolidated these agencies and formed the NYS Office of Alcoholism and Substance Abuse Services (OASAS). In 1997, OASAS began developing new regulations that would integrate alcoholism and substance abuse services into a new category of services called chemical dependence services. This process is on-going and scheduled for completion by the end of 2003.

The following identifies service categories in effect by the end of 2002 and those still to be converted. The section "Program Codes and Descriptions" lists program types that were in contract with DOHMH in FY '02 (e.g., as they were referred to during that year).

Crisis Services

Chemical Dependence Crisis Services, which were known as Emergency Services prior to conversion, are medically directed or medically supported and provided in hospitals or in community settings to individuals who are intoxicated or incapacitated by their use of alcohol and/or drugs. These programs manage the treatment of alcohol and/or substance withdrawal, as well as acute disorders associated with alcohol and/or substance use. These services are usually provided early in an individual's recovery and are relatively short in duration. Outpatient medically supervised withdrawal from opiates, using methadone, is usually provided for up to 30 days.

Under the new regulations, Crisis Services include the following program types: Medically Managed Detoxification, Medically Supervised Withdrawal (inpatient and outpatient) and Medically Monitored Withdrawal.

Inpatient Rehabilitation Services

Chemical Dependence Inpatient Rehabilitation programs provide intensive management of chemical dependence symptoms, medical management and monitoring of physical and/or mental complications from chemical dependence to clients who cannot be served as outpatients. These services are provided in hospitals and in free-standing facilities. The length of stay is usually from 20-40 days.

Conversion of this category is expected to be completed by the end of 2003. Under the previous regulations, this category included Alcoholism Inpatient Rehabilitation and Substance Abuse Inpatient Treatment and Rehabilitation.

Residential Services

Chemical Dependence Residential Services assist individuals who are unable to maintain abstinence or participate in treatment without the structure of a 24-hour, 7 day a week residential setting.

All residential programs provide counseling, peer group counseling, support services, educational assistance, structured and recreational activities and an orientation to community services. Residential services provide three levels of intensity with length of stay ranging from an average of four months to two years.

The three levels of service intensity are:

Intensive Residential Services - In addition to the services provided by all residential programs, intensive residential programs offer training in personal, social and community living skills and provide vocational assessment, job skills training and employment readiness training. Individuals appropriate for these services include persons unable to comply with treatment outside a 24-hour setting.

Community Residential Services - These services provide a structured therapeutic milieu while residents are concurrently enrolled in an outpatient chemical dependence counseling service. Vocational services and assistance

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

with daily living and social skills are provided. Individuals appropriate for this level of care include persons who are homeless or whose living environment is not conducive to recovery and maintaining abstinence.

Supportive Living Services - These services are the least structured and most closely resemble independent living. Individuals appropriate for this service include persons who require a residence that provides an alcohol-and drug-free environment as well as peer support by fellow residents to maintain abstinence. These types of programs do not require 24 hour on-site supervision by clinical staff.

The following residential services were converted to the above new categories by the end of February 2003: Drug-Free Residential programs, Recovery Homes, Halfway Houses and Supportive Living facilities.

Outpatient Services

Chemical Dependence Outpatient Services assist individuals who suffer from chemical abuse or dependence, their family members and/or significant others. Outpatient services are provided at differing levels of intensity depending on the needs of the individual. Services may be provided in a free-standing clinic or may be co-located in a variety of other health and social service settings.

All Chemical Dependence Outpatient Services provide group and individual counseling; education about, orientation to, and an opportunity for participation in, self-help groups and alcohol and substance abuse disease awareness and relapse prevention groups. Services also include education about HIV and other communicable diseases, risk assessment, supportive counseling and family treatment. Social and health care services, skill development in accessing community services, activity therapies, information and education about nutritional requirements, and vocational and educational evaluation are also available. Treatment is provided according to an individualized assessment and treatment plan.

Outpatient services consist of the following program types:

Medically Supervised Outpatient Services - In addition to providing the services noted above, Medically Supervised Outpatient Services are provided by a multi-disciplinary team and a Medical Director who conducts medical oversight.

Outpatient Rehabilitation Services - These services are designed for individuals who have chronic chemical dependence needs including inadequate support systems, substantial deficits in functional skills or health care needs. These programs provide social services, skill development in accessing community services, vocational and educational evaluation, nutritional information and activity therapies. A multi-disciplinary team, including a Medical Director, provides the services, and the staff to client ratio is richer than that of other outpatient services.

Non-Medically Supervised Outpatient Services - These services do not require medical staff or a Medical Director to be part of the multi-disciplinary team. The level of intensity of services in this category is determined by client need. The majority of outpatient services have undergone full conversion. Non-Medically Supervised Outpatient programs will be converted by the end of 2003.

Previous to conversion, outpatient services included Drug-Free Outpatient programs, Substance Abuse Medically Supervised Outpatient programs, Outpatient Alcoholism Clinics and Outpatient Alcoholism Rehabilitation.

Methadone Treatment Services

Methadone Treatment is a medical service designed to manage heroin addiction. Methadone programs administer methadone by prescription, in conjunction with other rehabilitative assistance, to control the physical problems associated with heroin dependence and to assist individuals in making major life-style changes. Methadone treatment is delivered primarily on an outpatient basis, with most programs located in community and hospital settings. Methadone programs provide primary medical care, counseling and support services such as vocational, educational, legal and mental health. Specialized programs deliver services in residential facilities, and a few programs operate in prisons.

Methadone is prescribed and administered through a variety of medical protocols depending on client need. These protocols include the following: Methadone Maintenance provides methadone administered daily at a stabilized dose over an extended period of time; Methadone-to-Abstinence provides methadone in gradually decreasing doses to the point of abstinence, followed by continued drug-free treatment; and Medically-Supervised Withdrawal provides methadone to alleviate withdrawal symptoms caused by the use of opiates.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

Prevention Programs

Prevention programs provide interventions to deter adults, children and adolescents from starting to use alcohol, tobacco or illegal drugs. Interventions occur at the individual, group, family, school and community levels depending upon the focus of the program. The Bureau of Alcoholism and Substance Abuse Services provides administrative oversight and technical assistance to a variety of prevention programs, including some of the school-based prevention programs that operate in NYC Department of Education facilities.

**FY 2002 District Resource Statement
Department of Health and Mental Hygiene**

**CHEMICAL DEPENDENCE
PROGRAM CODES AND DESCRIPTIONS**

The following program types were in contract with DOHMH in FY '02:

0110 - Outpatient Clinic Treatment - These programs provide diagnosis and treatment to individuals with alcohol or drug problems through goal-oriented treatment planning, individual and group counseling and case management services from a multi-disciplinary team of professionals. Planned intervention strategies may be provided for concerned family members and significant others.

0460 - Vocational Rehabilitation Services - Vocational Rehabilitation programs prepare people for employment by helping them choose a vocational goal and function consistent with their skills, achievements, interests and abilities. These programs provide vocational testing, assessment, counseling, pre-vocational activities, training, educational services, life skill/employability referrals, job referrals and placement, and post-placement counseling and follow-up. Programs provide these services directly or through referral.

0710 - Community Education Intervention/Information and Referral - These programs disseminate information about the prevention and treatment of alcohol and substance abuse to groups, organizations and individuals, some of whom may suffer from an alcohol and/or drug abuse disorder. Referrals to providers and short-term counseling incidental to the provision of information are provided.

0720 - Youth Education Intervention/Information and Referral - These programs disseminate information about the prevention and treatment of alcohol and substance abuse to adolescents, some of whom may suffer from an alcohol and/or drug abuse disorder. Linkage to appropriate treatment is also provided by these programs. Additional activities are also offered to people at high risk, such as the children of alcoholics and substance abusers. These programs are based in schools and community-based youth organizations.

0940 - Outpatient Innovative Treatment - Drug-free substance abuse services are rendered on an outpatient basis to substance abusers and substance-dependent persons, who are able to function in the community. A multi-disciplinary team of substance abuse professionals provide assessment and treatment through goal-oriented treatment planning, individual and group counseling, and case management services.

0970 - Innovative Prevention Intervention Programs - Prevention programs focus on personal and social skills development and alternative choice-making for people, especially young people, to deter them from using drugs or tobacco. These programs provide training to community leaders, parents, teachers, peer groups and others to assist in the prevention of drug use. They are implemented through a variety of activities, including classroom presentations, skill development workshops, displays at community events as well as through training sessions for professionals outside of the alcohol, tobacco and other drug field such as parents, teachers, community leaders and others. Individual, group and family counseling are also offered. Intervention strategies must be accurate, age-appropriate and culturally competent.

1020 - Acute Care Inpatient Alcoholism Detoxification - These programs provide medically supervised 24-hour care, including pharmacological procedures provided for individuals who are at risk of severe withdrawal, incapacitated by substances or at risk of harm to self or others, or have an acute physical or mental comorbidity with an alcohol or substance abuse condition. Assessment, nursing care, counseling and referral to treatment are also provided to encourage sustained recovery.

2020 - Inpatient Crisis Center - These programs provide inpatient care in a medically supervised environment until clients are alcohol free and can be safely referred to an appropriate treatment program. Clients may require withdrawal from alcohol but do not require other medical services at the time of admission. Supportive services are provided while the client is linked to ongoing treatment and rehabilitation services.

2060 - Halfway House - Halfway Houses provide on-going supportive residential treatment typically serving people in need of additional structured living after discharge from an inpatient alcoholism rehabilitation program. Concurrent treatment in an outpatient alcoholism clinic or outpatient rehabilitation program is required for residency in a Halfway House. The level of treatment intensity is based on client needs and stage of recovery. The client's length of stay usually ranges from three to nine months.
