**DIVISION OF MENTAL HYGIENE
PREFACE**

This section provides a listing of mental hygiene programs and services in contract with the New York City Department of Health and Mental Hygiene (DOHMH) during Fiscal Year 2008 (FY '08). DOHMH is responsible for planning, purchasing and monitoring a wide range of mental hygiene services provided by not-for-profit organizations and hospitals in three program areas: Mental Health, Chemical Dependency, and Mental Retardation & Developmental Disabilities. The scope of services available to the public extends beyond those listed here to include those provided by City and private hospitals, clinics and facilities funded and/or operated by New York State.

This section also includes information about the Early Intervention (EI) Program, which contracts with various agencies to provide services to children suspected of having a developmental delay or who are diagnosed with a condition that will likely result in a developmental delay. The EI information includes a general discussion about the program; data regarding the number of children served in each borough; and a listing of service provider agencies in each borough, showing which types of EI services they provide (evaluations, service coordination, home & community services, facility-based services, or respite).

How the Division of Mental Hygiene section is organized:

First, each of the three program areas is presented in its own section with the following information:

- An overview of service categories;
- A listing of program types and definitions with corresponding New York State program codes; and
- A listing of the DOHMH FY '08 contracted programs for the disability Area, organized by borough and community district.

Next, this section includes a description of the Early Intervention Program and the services it provides.

Finally, this section includes a listing of the agencies that operated mental hygiene contracted programs in FY '08, providing phone numbers and agency code numbers as assigned by DOHMH.

Each program entry contains the following information:

Agency Name
Program Type ¹
Program Name (if available)
Main Program Address ²
Program Phone Number

Clients: The number of unduplicated individuals the program was contracted to serve in FY '08. Individuals who used more than one program during the year are counted as clients in each program.

Units: The program's service unit commitment for FY '08.

Budget: The program's gross budget for FY '08.³

Progid: The program's identification number as defined by DOHMH.

Pcode: The program's code number.⁴

Location: (cd) = Community District; (cc) = City Council District; (sd) = School District; (ad) = State Assembly District; (ss) = State Senate District; (cg) = U.S. Congress District; (mk) = Map Key.

Questions regarding the District Resource Statement may be directed to the Division of Mental Hygiene, Bureau of Policy and Planning at 212-219-5364.

For information on the Internet about the NYC Department of Health and Mental Hygiene see: <http://www.nyc.gov/html/doh/>

¹ As defined in the New York State Consolidated Budget Reporting and Claiming Manual January 1, 2007 to December 31, 2007 and July 1, 2007 to June 30, 2008, Issued: May 1, 2007.

² Satellite sites are not always listed.

³ The "gross budget" figure represents all dollars budgeted to meet a program's level of service commitment. The revenue sources for these programs include public subsidy, collectible fees and agency contributions.

⁴ Definitions for program code numbers can be found within each disability section following that section's overview.

Department of Health and Mental Hygiene**

**THE MENTAL HYGIENE SYSTEM
AN OVERVIEW**

New York City's formal mental hygiene system officially dates to 1954, when New York State enacted the Community Mental Health Services Act, often referred to as the Mental Hygiene Law. This law authorized local communities to establish community mental health boards and authorized funding for local contracts with community-based mental health providers. In the same year the New York City Charter was amended to establish the Community Mental Health Board.

In 1969, the Department of Mental Health and Mental Retardation was established as the New York City agency responsible for planning, funding and monitoring the provision of mental health and mental retardation services. In 1971, alcoholism services were added to the Department's portfolio, and in 1994 the Department was designated by the Mayor as the lead City agency for planning and coordinating chemical dependency services. In 2002, the NYC Department of Mental Health, Mental Retardation and Alcoholism Services merged with the New York City Department of Health to form the New York City Department of Health and Mental Hygiene (DOHMH).

New York State Offices

DOHMH's Division of Mental Hygiene plans and implements its mental hygiene system in partnership with three New York State agencies: the Office of Mental Health (OMH), the Office of Mental Retardation and Developmental Disabilities (OMRDD) and the Office of Alcoholism and Substance Abuse Services (OASAS). These State offices provide funding to New York City and other localities and serve as conduits for Federal mental hygiene dollars. They are responsible for ensuring that localities comply with the Mental Hygiene Law, which mandates that the State and its localities share joint responsibility for planning the care, treatment and rehabilitation of individuals affected by a mental hygiene disorder. Each State office provides oversight for the services provided in its program area.

OMH is responsible for overseeing, regulating and certifying mental health services in New York State for more than 2,500 mental health programs operated by local governments and nonprofit agencies. These include inpatient, outpatient, emergency, community support and residential programs. OMH operates 16 adult psychiatric centers, four centers that serve adult forensic clients and six children's facilities throughout NY State.

For more information about mental health services see:

<http://www.omh.state.ny.us/>

OASAS administers the State's system of chemical dependency services including the funding, licensing, certification and regulation of programs. Services are delivered through a network of more than 1,200 community-based programs; more than half are outpatient programs, with the next largest category consisting of residential services followed by crisis service programs and inpatient rehabilitation programs. OASAS directly operates 13 Addiction Treatment Centers (ATCs) located throughout New York State. OASAS also coordinates the work of more than 400 prevention groups in schools and communities. For more information about chemical dependency services see:

<http://www.oasas.state.ny.us/index.cfm>.

OMRDD is responsible for the State's care, treatment and habilitation of individuals with mental retardation and developmental disabilities by certifying, regulating, and contracting for a variety of programs. Services are provided primarily by voluntary, community-based organizations, and include residential care and support; adult day training, vocational and employment programs; and a wide range of family and individual support services. In addition, OMRDD operates 14 Developmental Disabilities Services Offices throughout New York State, which provide specially designed person-centered assistance to individuals with developmental disabilities to improve their quality of life. For more information about mental retardation/developmental disabilities services see: <http://www.omr.state.ny.us/index.jsp>

DOHMH Division of Mental Hygiene

The Division of Mental Hygiene is responsible for planning, purchasing and monitoring contracts with community agencies and hospitals to ensure that New York City residents have access to a wide network of mental hygiene treatment programs and support services. For more information about DOHMH's Division of Mental Hygiene see: <http://home2.nyc.gov/html/doh/html/dmh/dmh.shtml>.

FY 2008 District Resource Statement
Department of Health and Mental Hygiene

**MENTAL HEALTH SERVICES
OVERVIEW OF SERVICE CATEGORIES**

The Division of Mental Hygiene is responsible for planning, purchasing and monitoring services for children, adolescents and adults with mental illnesses. In New York City, mental health services are provided in a variety of settings: homes, clinics, community-based organizations, residential programs, hospitals and psychiatric centers. Services range from treatment programs in hospitals and clinic settings to programs in the community that assist individuals in obtaining housing, employment and other needed supports.

MENTAL HEALTH SERVICES FOR ADULTS⁵

Emergency and Crisis Programs

Emergency and crisis programs are designed to achieve rapid psychiatric and/or medical stabilization and to assure the safety of individuals who present a risk to themselves or others. The primary objective of emergency programs is to provide rapid screening, assessment and psychiatric stabilization so that the acute symptoms of mental illness are reduced. In addition, these programs are designed to stabilize individuals' bio-psycho-social functioning and develop plans for their treatment in the community. Crisis programs include but are not limited to Comprehensive Psychiatric Emergency Programs and Mobile Crisis Intervention Programs.

DOHMH funds a confidential hotline, 1-800-LIFENET (1-800-543-3638) available 24-hours/seven days a week. LIFENET provides callers with information and referrals for mental health, substance abuse and other social service resources throughout New York City. LIFENET's services are available in Spanish at 1-877-AYUDESE and in Chinese at 1-877-990-8585. People who use a TTY or TTD can call the New York Relay Service at 1-800-421-1220 to call LIFENET.

Inpatient Programs

Inpatient programs are hospital-based psychiatric programs that provide 24-hour care, under medical supervision, in a controlled environment. There are two levels of inpatient care: acute hospitalization and long-term hospitalization.

Acute inpatient psychiatric treatment is provided in voluntary or municipal hospitals. Clients are admitted for a minimum period of 24 hours and typically stay less than 30 days.

Intermediate and long-term inpatient treatment (more than 30 days) is provided in a State-operated psychiatric center. In most instances, this occurs when patients are transferred from a voluntary or municipal hospital after completion of an acute phase of treatment, and are deemed to require additional hospitalization. Five adult psychiatric centers and a psychiatric research institute are located in New York City. These facilities are funded and operated by the New York State Office of Mental Health.

Outpatient Programs

Outpatient programs are designed to meet the mental health treatment needs of individuals who can be served in community-based settings. There are a variety of outpatient programs offering varying levels of structure, service frequency and interventions. For instance, partial hospitalization programs provide active treatment of at least four hours' duration in order to ameliorate acute systems stabilize the individual, serving as an alternative to inpatient hospitalization. Clinic treatment programs offer treatment services of shorter duration per visit, with a focus on reducing symptoms and providing on-going support. Outpatient programs include, but are not limited to, Clinic Treatment Programs, Partial Hospitalization, Intensive Psychiatric Rehabilitative Treatment and Continuing Day Treatment Programs.

Community Support Programs

Community support programs are designed to promote recovery from mental illnesses and to strengthen the psychosocial skills of individuals with severe and persistent mental illness so that they can live as independently as possible in community settings. These programs provide academic, vocational and social rehabilitation services. Academic rehabilitation programs assist clients in developing cognitive and intellectual skills and provide support services needed to achieve basic, high school, and/or higher education. Vocational rehabilitation programs assist individuals in establishing career goals and obtaining the evaluation, training and support services necessary to select, obtain and maintain paid employment. Social rehabilitation programs, such as clubhouses, develop or enhance personal care, social communication, employment, recreation, personal finance and other daily living skills, and provide support

⁵ The NYS Office of Mental Health's website is: <http://www.omh.state.ny.us/>

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

necessary for successful and satisfying community functioning. Supported housing programs assist individuals in securing housing of their choice and accessing necessary supports to live in the community. These programs typically provide rent stipends and are found in congregate settings or scatter-site apartments. Services include assistance with finding roommates, obtaining furniture and other housing needs, maintaining a budget and obtaining mental health, vocational, health care and other services. Community residence programs provide room and board and various levels of rehabilitation services and support.

FORENSIC BEHAVIORAL HEALTH SERVICES (FBHS)

FBHS is responsible for planning, development, evaluation and oversight of forensic community-based mental health services, and Mental Health Discharge Planning services in NYC's Correctional System and the Medication Grant Program. Its goal is to ensure that all consumers who leave the criminal justice system have access to necessary community-based mental health services.

Medication Grant Program

The Medication Grant Program provides grants to counties to pay for medication to treat mental illness and for other contracted services needed to prescribe and administer medications to eligible individuals. The program is limited to individuals with serious and persistent mental illness who have filed a Medicaid application prior to or within seven days of discharge/release from hospitals or correctional facilities.

The program covers expenses related to other services necessary to prescribe and administer medications to treat mental illness. These services include screening visits with a mental health professional, medication evaluation and diagnostic visits with a physician, the provision of injectable medications by a nurse, and follow-up visits and laboratory tests to monitor for medication side effects and/or to adjust dosages.

DOHMH Mental Health Discharge Planning

The mission of the discharge planning program is to identify and arrange for the provision of mental health aftercare services and other services in the community for those individuals who received mental health services while incarcerated in the NYC Correctional system. These services include the development of a clinically appropriate discharge service plan, including continued mental health care, medical care, substance abuse services, case management, medications, assistance with obtaining entitlements, Medicaid, Public Assistance, food stamps, SSI, SSA, supportive housing, and transportation.

MENTAL HEALTH SERVICES FOR CHILDREN AND ADOLESCENTS

The Division of Mental Hygiene plans, funds and monitors a wide range of programs that enable children and adolescents to receive comprehensive treatment and support services. Mental health services for children and adolescents parallel those described above for adults. Child and adolescent programs generally operate in the community and are designed to prevent hospitalization and inpatient care. When hospitalization or inpatient care is necessary, the programs' efforts focus on returning the child/adolescent to a family/community environment as quickly as possible. Child and adolescent programs are also designed to assist the family in maintaining children and adolescents in the home, or in a home-like (non-institutional) setting.

Emergency & Crisis Programs

Crisis Intervention services provide specialized evaluation, treatment, stabilization and referral or diversion to an appropriate program for children and their families. Crisis Outreach may be accomplished through a mobile crisis intervention team that responds to a child in crisis at home, with a foster family, in school, in a group home, or in other child service settings. Home-Based Crisis Intervention Programs provide in-home crisis services to families where a child is at imminent risk of psychiatric hospitalization. Intensive in-home intervention is provided for four to six weeks by teaching problem-solving skills to the family, linking the child and family to community-based resources and supports, and diverting the child from hospitalization. Innovative programs called Intensive Crisis Stabilization and treatment exist in two boroughs to provide crisis intervention and treatment services in natural environments for up to 12 weeks as a way to maintain the youth in the community.

Inpatient Programs

Inpatient programs provide acute care to children and adolescents who need crisis stabilization and/or intensive short-term treatment and medical intervention. Acute care programs conduct a comprehensive assessment of the child and family's clinical needs and then develop a comprehensive treatment plan. Generally, acute care stays range from a few days to a month. Intermediate care is provided to children and youth between the ages of five and 17 who demonstrate continued symptoms of serious emotional disturbance that require treatment over a longer period of time in a hospital setting. Stays range from 30 to 180 days. For intermediate and acute care, there are three State-operated psychiatric centers in New York City that specialize in the care of children. There are 11 acute care hospitals for children and adolescents in New York City.

FY 2008 District Resource Statement Department of Health and Mental Hygiene

Residential treatment facilities, another type of institutional program, provide integrated and individualized mental health treatment to children and adolescents between the ages of five and 21 who have serious emotional disturbances.

Outpatient Programs

Clinic treatment programs, which seek to reduce symptoms of psychological distress and improve child and family functioning, operate throughout New York City in various settings, such as community mental health treatment programs and hospital-based child outpatient clinics. Partial hospitalization and day treatment programs provide the most intensive nonresidential mental health services currently available. The latter are characterized by a blend of mental health and education services.

Community Support Programs

Community Support programs provide a range of services to enable seriously emotionally disturbed children and adolescents to live in the community. Services include:

Family Support programs and Parent Resource Centers enhance the capacity of families to care for emotionally disturbed children in the home. Services may include parent education, support groups, respite care, family recreation programs, child supervision and parenting skills.

Blended, Supportive and Intensive Case Management programs provide linkages to needed services and supports to improve and maintain the level of functioning of the child or adolescent in the community. Case managers monitor the child's adherence to service/treatment plans on an ongoing basis. The programs have access to flexible wraparound funds to assist the child and family with special needs, or during emergencies (e.g., clothing or medications).

The Home and Community Based Services Waiver program offers eligible seriously emotionally disturbed children and adolescents a range of services as an alternative to hospitalization and residential placement. Services include individualized care coordination, respite care, family support services, crisis response services, skill building services and intensive in-home services.

Family-Based Treatment programs, which are operated by the State Office of Mental Health, use surrogate families to maintain and treat seriously emotionally disturbed youth in specialized homes.

Community Residential programs for children and adolescents are congregative, community residences that provide structured activities, problem-solving skills

and behavior management. Each residence is linked with a day treatment program. These programs are operated by the State Office of Mental Health.

Vocational and Social Rehabilitation programs include therapeutic nurseries that treat children under the age of five who have been identified at high risk for serious emotional disturbance. These programs also work with parents and extended family members to improve parenting skills. Case management and other treatment services are provided to the family.

Vocational Programs for older adolescents include job skills and social skills training necessary to function at work sites and on-the-job training programs.

Social Leisure Time programs develop or enhance social and recreational skills and supports. These programs provide supportive social and recreational activities and networks, with an emphasis on family activity during weekend, evening and holiday hours.

The Children's Single Point of Access (CSPOA)

The goal of the CSPOA is to create a single point of entry to the children's mental health service system. Through CSPOA, children who are identified as seriously emotionally disturbed and are at risk for out-of-home placement can access more intensive mental health services that enable them to remain in their homes and communities. CSPOA provides referrals and links to services, and coordinates services for children and families. These in-home services include the Home and Community-Based Services Waiver, Intensive Case Management and Supportive Case Management. CSPOA also refers to out-of-home services such as Family-Based Treatment and Community Residence. CSPOA is currently operating in the Bronx, and is expanding city-wide.

The Coordinated Children's Services Initiative of New York City (CCSI)

The goal of CCSI of New York City is to help coordinate and streamline services for families with children who have serious emotional, behavioral and mental health challenges and are involved in more than one child-serving system, yet are not getting their needs met. CCSI's Family Network brings families together with the agencies they are involved with in order to plan how to best meet families' needs. CCSI uses a multi-tiered cross-systems structure to create a system of care for children and youth in New York City and throughout the state. The tiers include individual Family Networks (Tier I), Borough-Based Councils (Tier II), a Citywide Oversight Committee, and a statewide board (Tier III). CCSI is guided by system-of-care principles that ensure that services are family-driven, strengths-based, and culturally competent, and are offered in the least restrictive settings.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

MENTAL HEALTH SERVICES FOR SPECIAL POPULATIONS

As the demographics of the City's population have changed, DOHMH has responded by overseeing the development of programs that address the needs of special populations. Over the past decade, mental health programs have been developed specifically for seniors; immigrants; individuals with co-occurring chemical dependence disorders; gay, lesbian, bisexual and transgender individuals; persons living with HIV/AIDS; and individuals who are homeless.

FY 2008 District Resource Statement
Department of Health and Mental Hygiene

MENTAL HEALTH
PROGRAM CODES AND DESCRIPTIONS

The following program types were in contract with DOHMH in FY'08:⁶

0200 - Day Treatment (Children and Adolescents) - Day treatment programs blend mental health services with special education services in a fully integrated program. Typically, these services include special education in small classes, with an emphasis on individualized instruction, individual and group counseling, family services such as family counseling, crisis intervention, interpersonal skills development and behavior modification. Children and adolescents receiving day treatment services live at home or in the community, but have been identified as seriously emotionally disturbed and cannot be maintained in regular classrooms.

0320 - On-Site Rehabilitation - On-site rehabilitation programs assist individuals who live in adult congregate care settings or supervised or supported living arrangements to achieve their treatment and community living rehabilitation goals. Services include one or a combination of: (1) recipient self-help and support interventions; (2) community living; (3) academic, vocational, and/or social leisure time rehabilitation training and support services. Services are typically provided at the residential location or in the provider-operated community setting.

0340 - Sheltered Workshop - These programs provide vocational assessment, training and paid work in a protective and non-integrated work environment.

0380 - Transitional Employment Placement - The objective of transitional employment is to strengthen the individual's work record and skills through time-limited employment and on-the-job training so that the individual may achieve assisted or unassisted competitive employment.

0610 - Recreation Programs - Recreation programs provide social, recreational, and leisure activities that are intellectually and interpersonally stimulating, but are not necessarily part of a goal-based program plan.

0650 - Respite Services - Respite services provide relief to primary care givers such as parents or legal guardians on a temporary basis. The goals of this program are to allow situations to stabilize and prevent hospitalizations or longer term placement out of the home. Temporary services (not beds) are provided by

trained staff in the consumer's residence or in another temporary housing arrangement.

0670 - Transportation - Transportation is provided to and from facilities or resources, including all necessary supportive services, specified in the individual's treatment plan.

0690 - Outreach - Outreach programs and services are intended to engage and/or assess individuals potentially in need of mental health services. They do not provide crisis services. Services include socialization, recreation, light meals, and information about mental health and social services. Another type of service that can be provided is off-site, community based assessment and screening. These services can be provided at forensic sites, a consumer's home, other residential settings including homeless shelters and the streets.

0770 - Psychosocial Club - Psychosocial clubs assist consumers in re-establishing their sense of self-esteem and group affiliation, as well as promoting recovery and reintegration into meaningful community life through the provision of two or more of the following: (1) self-help and empowerment interventions; (2) community living; (3) academic; (4) vocational and/or (5) social leisure time rehabilitation, training and support services.

0800 - Assertive Community Treatment (ACT) Teams - ACT Teams provide mobile intensive treatment and support to people with psychiatric disabilities. The focus is on improving an individual's quality of life in the community and reducing the need for inpatient care by providing intense community-based treatment services by an interdisciplinary team of mental health professionals. Building on the successful components of the Intensive Case Management (ICM) program, the ACT program has low staff to client ratios and operates 24 hours a day, seven days a week.

0810 - Case Management - Case Management programs provide activities designed to link the client to the service system and coordinate various services to achieve a successful outcome. Case managers provide linkages to mental health and other resources, problem-solving assistance, advocacy, and coordinate and monitor individual service plans that address an individual's complex needs.

0820 - Blended Case Management - Blended case management facilitates a team approach to case management by combining the caseloads of multiple

⁶ As defined in the New York State Consolidated Budget Reporting and Claiming Manual January 1, 2007 to December 31, 2007 and July 1, 2007 to June 30, 2008, Issued: May 1, 2007.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

Intensive Case Managers and/or Supportive Case Managers. The program objective is to assure continuity of care and services through linkage, monitoring and case-specific advocacy.

0910 – Crisis Residence - A Crisis Residence is a licensed residential (24 hours/day) stabilization program, which provides services for acute symptom reduction and the restoration of patients to pre-crisis level of functioning. They are time limited programs for persons until they achieve stabilization (generally up to 30 days). Crisis residences serve persons experiencing rapid or sudden deterioration of social and personal conditions such that they are clinically at risk of hospitalization but may be treated in this alternative setting. This program is licensed for adults as defined in 14NYCRR589 and for children and adolescents as defined in 14NYCRR594.

0990 - Special Demo/Other - Identifies programs that are demonstration projects or do not fit other categories of service.

1310 - Continuing Day Treatment - These programs provide active treatment and rehabilitation designed to maintain or enhance current levels of functioning or skills, to maintain community living and to develop self-awareness and self-esteem through the exploration of strengths and interests. These programs provide assessment and treatment planning, discharge planning, medication therapy, case management, health screening and referral, psychiatric rehabilitation and symptom management.

1320 - Vocational Services (Adolescent) - Vocational programs for adolescents are designed to provide work training and clinical support services for older adolescents with poor academic performance and social adjustment. They also provide assessment and interventions to strengthen coping, vocational, educational and social skills.

1340 - Enclave in Industry - These programs provide vocational assessment, training and transitional or long-term paid work experience for individuals with severe disabilities. An enclave consists of a small group of approximately five to eight individuals who work in an industry or other economic enterprise. Participants are provided with training, supervision, and ongoing support by a job coach/supervisor assigned to the work site by the agency.

1380 - Assisted Competitive Employment - These programs help recipients choose, find and maintain satisfying jobs in the competitive employment market. When appropriate, job training, supervision and support services are offered at the work-site and off-site.

1400 - Single Point Of Access (SPOA) - (Non-Licensed Program) - SPOA is

a process, led by a SPOA Coordinator, that helps Local Government achieve community based mental health systems that are cohesive and well coordinated in order to serve those individuals most in need of services. There are three types of SPOAs - Children's, Adult Case Management and Adult Housing. The SPOA process provides for the identification of individuals most in need of services, and manages service access and utilization.

1520 - School Based Program without Clinic - These programs provide mental health services to children and adolescents with emotional/behavioral needs in a school setting with no on-site mental health clinic. Services include observation and assessment of children and adolescents for the purpose of determining need for services; brief interventions to stabilize a crisis; group and family interventions; assistance to families and school personnel on behalf of the child/adolescent; referrals to community based and mental health services; and, coordination of services to insure the stability of the child within the family.

1650 - Family Support Services - Family Support programs provide an array of formal and informal services to support families with children and adolescents having serious emotional disturbances. The goal of family support is to reduce family stress and enhance each family's ability to care for their child. To do this, family support programs operate on the principles of individualized care and recognize every child and family as unique in their strengths and needs. Connecting family members to other families with children with serious emotional problems helps families to feel less isolated and identify their strengths.

1680 - CPEP Crisis Outreach - These programs provide mobile crisis intervention and emergency services, including assessment and treatment in natural (e.g., homes), structured (e.g., residential programs), or controlled (e.g., instructional) environments.

1760 - Advocacy Service - These programs provide advocacy services to assist individuals in protecting and promoting their rights, resolving complaints and grievances, and accessing services and supports of their choice. In programs that promote systems advocacy, programs will identify patterns of problems or complaints and work with system administrators to resolve or eliminate these problems on a systemic, rather than individual basis.

1770 - Drop-In Center - These programs serve to identify and engage people who may choose not to participate in more structured programs or who might not otherwise avail themselves of mental health services. These programs are low-demand, flexible and relatively unstructured so that they are responsive to the individual needs of the recipient.

1810 - Intensive Case Management - The Intensive Case Management

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

program provides linkages to the service system for clients and coordinates various services to achieve a successful outcome. Intensive case managers assure comprehensive, multi-disciplinary services, continuity of care and case-specific advocacy in consumers' "natural" settings. They are available 24 hours a day, seven days a week. These programs utilize low staff/client ratios.

1990 - Bridger/Transition Management Services - These programs provide clients who are discharged from State Psychiatric Centers with linkages to appropriate services in the community. In addition, individuals are connected to the full range of mental health, health and social services to ease their transition into the community and decrease the potential for hospitalization.

2100 - Clinic Treatment (Part 587/588) - Adult Clinic Treatment programs provide treatment designed to reduce symptoms and improve functioning as well as assessment, treatment planning, health screening, referral, discharge planning, verbal therapy, medication treatment, symptom management, and psychiatric rehabilitation readiness determination. They can also provide crisis intervention, case management, and clinical-support services. Children and Family Clinic Treatment provides similar services to children and adolescents. These programs aim to assist families in keeping their children at home.

2340 - Affirmative Business/Industry - These programs provide vocational assessment, training, transitional or long-term paid employment and support services in a less restrictive, more integrated employment setting than the sheltered workshop.

2680 - Crisis Intervention - Crisis intervention services, for adults, children and adolescents, are intended to reduce acute symptoms and restore individuals to pre-crisis levels of functioning. Examples of where these services may be provided include emergency rooms and residential settings. Provision of services may also be provided by a mobile treatment team, generally at a consumer's residence or other natural setting (not at an in-patient or outpatient treatment setting). Examples of services are screening, assessment, stabilization, triage, and/or referral to an appropriate program or programs.

2770 - Self-Help - Self-Help programs employ current or former recipients of mental health services in the belief that people who share a common experience can assist each other. These programs may be mutual self-help groups, networks or self-help organizations that offer educational, recreational, social or other programs.

2990 - Coordinated Children's Services Initiative - The Coordinated Children's Services Initiative has two major goals: providing coordinated community based

services and supports to children and their families and preventing unnecessary residential placement. In addition, the initiative aims to strengthen local interagency collaboration.

3010 – Inpatient Psychiatric Unit of a General Hospital – A licensed, 24 hour inpatient treatment program. Services include full-time medical, psychiatric, social services, and nursing care.

3040 - Home-Based Crisis Intervention - These clinically oriented programs assist families with children in crisis by providing an alternative to hospitalization. They provide short-term, intensive in-home crisis intervention services to families at risk of having to place their child in a psychiatric hospital. The programs provide services to children between the ages of five and seventeen experiencing severe psychiatric crisis.

3130 - CPEP Crisis Intervention - These programs provide services to individuals who are in a psychiatric unit of a hospital due to psychiatric crisis. The primary objective is to reduce the acute symptoms and restore recipients to pre-crisis levels. Services include triage, screening, assessment, treatment, stabilization, and referral to appropriate programs.

3340 - Work Program - Work programs provide vocational assessment, training and transitional or long term paid work in institutional or community job sites.

5070 - Supported Single Room Occupancy (SRO) Housing - These programs provide mental health services to SRO residents so that they can live successfully in the community. Mental health service supports are provided by the in-house staff or by community based programs in accordance with the service plan developed jointly by the SRO staff and the resident.

5990 - MICA Network - MICA Networks assist clients who are both mentally ill and in alcohol and/or substance abuse recovery with housing, case management, treatment, peer support/self-help and chemical dependency services.

6050 - Supported Housing Rental Assistance - These programs provide recipients with assistance in finding and maintaining housing designed for mentally ill individuals. Services include rental assistance, assistance obtaining furniture, security deposits, and deposits on utilities.

6060 - Supported Housing Community Services - These programs provide services to residents of supported housing programs to assist individuals in locating and securing housing of their choice and in accessing the supports

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

necessary to live successfully in the community. Services may include assistance with choosing housing, roommates, and furniture; providing financial assistance with purchasing furnishings and with initial apartment/utility deposits, assistance with resolving roommate or landlord issues that may jeopardize the stability of the housing placement; and linking residents to a comprehensive community support system of case management, mental health and general health supports.

6810 - Supportive Case Management - These programs are designed to link clients to the service system and coordinate various services to achieve a successful outcome. The objective is to assure continuity of care and service through linkage, monitoring and case-specific advocacy.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

**MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES
OVERVIEW OF SERVICE CATEGORIES**

MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES SERVICES ¹

The Division of Mental Hygiene is responsible for planning, purchasing and monitoring services for individuals with developmental disabilities and their families. Services are provided by voluntary agencies and include sheltered workshops, day training, transitional employment, work readiness, specialized day treatment, specialty clinics, socialization, recreation, respite, adult special education, information and referral and other programs.

In New York City, the range and scope of voluntary service providers vary greatly. Some are comprehensive service agencies offering residential, day and support services; others are limited service agencies offering one or two categories of service. Some agencies serve individuals with a range of developmental disabilities while others serve individuals with a particular disability such as autism and epilepsy.

SERVICES FOR ADULTS

Community Residential Services

The majority of individuals with developmental disabilities live and work in the community where the residential service continuum spans a wide range of residential alternatives. Residential alternatives include Family Care (FC), Supported Apartments (SA), Community Residences (CR), Intermediate Care Facilities (ICF) and Individual Residential Alternatives (IRA). Community residential services are funded and monitored by the New York State Office of Mental Retardation and Developmental Disabilities (OMRDD).

People with developmental disabilities also live at home with their families or in their own homes with supportive services that enable them to remain at home.

Developmental Centers

Developmental Centers are residences for individuals who are significantly impaired and have no other alternative for residential living. They are funded and

monitored by OMRDD. Two developmental centers operate in New York City, one in Brooklyn, the other in Queens.

Day Services

The adult Day Services continuum offers a range of options: day treatment, day training, sheltered work, day habilitation, work readiness, supported employment and transitional employment. These programs offer an array of socialization and recreational activities, pre-vocational training, community integration, skill building and enhancement in the activities of daily living. There are both full-time and part-time day habilitation services conducted by voluntary agencies.

Work Readiness programs are individually designed to provide the skills necessary for enrollment in supported work programs. Supported employment continues to expand as a service category as more and more individuals with mental retardation/developmental disabilities become employed. Increasingly, adults with developmental disabilities who obtain jobs are expected to continue working, with supports, throughout their lives until retirement. Some individuals move into unsupported, competitive employment, which is also expanding as an option.

Seniors with developmental disabilities attend geriatric programs on either a full- or part-time basis, sometimes in combination with a day program service. Many seniors also attend community senior centers with the assistance and encouragement of senior companions who are members of the community.

Day services are funded and monitored by OMRDD and/or DOHMH.

Services for Families

Family Support services are provided by voluntary agencies to family members who need assistance in maintaining the developmentally disabled individual in the home. These services aim to foster family stability by improving the quality of life for consumers of all ages and their families. The services include outreach, transportation, family/consumer reimbursement, parent training, after school programs, services coordination, crisis intervention and counseling, recreation, summer day camp programs and day respite. Some of these programs address the specific needs of individuals who have autism, epilepsy or other neurological impairments.

¹ The NYS Office of Mental Retardation and Developmental Disabilities' website at <http://www.omr.state.ny.us/index.jsp>.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

To address the needs of a diverse multi-lingual and multi-cultural population, specific programs have been established for persons who speak languages such as Spanish, Creole, Chinese, Korean, Russian and Greek.

Family support programs are funded and monitored by OMRDD and/or DOHMH.

Clinic and Health Services

Medical and clinical services are provided in several ways to individuals with developmental disabilities. Medical care may be provided by private physicians or by hospitals. Medical and habilitative clinical interventions are available through specialty clinics, both freestanding and hospital based, in all the boroughs. These clinics are operated both by voluntary agencies and by the New York City Health and Hospitals Corporation and may be certified by OMRDD under Article 16 and/or by the New York State Department of Health under Article 28. Many of the clinics serve only children while some also serve adults; a few serve only adults.

SERVICES FOR CHILDREN AND ADOLESCENTS

The NYC Department of Education is the primary provider for children ages 3-21 who spend most of their days in the school system in a regular school setting or in a District 75 special setting. Most developmentally disabled high school graduates are referred for program placement and/or support services prior to graduation through the development of transition plans. Schools have increased training for independence and vocational skills at earlier educational stages to support a smooth transition into adulthood.

There are publicly-funded recreation programs and after-school and summer camp programs for children with developmental disabilities in all the boroughs. These provide children with the opportunity to play and socialize with their peers. Without these programs many parents would be unable to maintain employment.

Respite services give parents and guardians the opportunity to have free time by delegating the care giving role for a brief period of time to trained caregivers. They are very important in safeguarding the overall well being of the family unit and strengthening families in times of crisis.

FY 2008 District Resource Statement
Department of Health and Mental Hygiene

MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES
PROGRAM CODES AND DESCRIPTIONS

The following program types were in contract with DOHMH in FY '08: ²

0070 - Summer Camp - These programs provide overnight accommodations for more than 48 continuous hours. They provide for the physical needs of campers and provide organized activities for recreation and enhancement of the intellectual, social and sensorimotor development of participants.

0100 - Clinic Treatment - Clinic services are provided by, or under the supervision of, qualified professionals to participants, their families, and care providers. These programs provide diagnostic and evaluative services, specific therapeutic habilitative services (e.g., physical therapy, speech therapy), medication management and monitoring and similar services on an intermittent basis. Clinic programs are provided as supplements to and not substitutes for a participant's full day program.

0120 - Specialty Clinic - Intensive diagnostic and/or medically prescribed treatment services are provided during the day and/or evening, are time limited and of short duration. These programs are affiliated with hospitals or facilities that hold, in addition to OMRDD certification, licensure in accordance with Article 28 of the Public Health Law.

0150 - Family Support Services - Family Support programs typically include information and referral services, parent training, family counseling, recreation, home-based care, adaptive equipment, home modification and legal services for family members.

0200 - Day Treatment Free Standing - A planned combination of diagnostic, treatment, and rehabilitative services provided to individuals in need of a broader range of services than those provided in clinic treatment programs. Persons provided day treatment will attend regularly for periods in excess of three hours.

0330 - Day Training (General) - Day Training programs provide services to developmentally disabled persons whose level of disability is not so severe as to require Day Treatment services, but whose deficits limit their ability to function independently. The goal of these programs is to assist developmentally disabled

persons to maintain or strengthen skills that will enable them to improve their personal, social and vocational opportunities. The emphasis of these programs is on the maintenance of existing skills and the development of social, recreational, and leisure activities that are intellectually and interpersonally stimulating and augment health maintenance such as recreational, music movement and art activities.

0330 - Day Training (Work Readiness) - These programs provide assistance in the development of work-related skills to prepare individuals for participation in work activities.

0340 - Certified Work Activity - This program is certified by the U.S. Department of Labor and OMRDD to provide services and experiences to participants with the goal of increasing their economic independence. Work activity programs tend to emphasize pre-vocational skills with the goal of preparing the individual to function in a Sheltered Workshop program. Sheltered Workshops are for developmentally disabled persons who have the pre-vocational skills necessary to perform occupational tasks with an acceptable level of output. The goals of such programs are to train individuals in the occupational tasks to be accomplished, provide necessary and appropriate adjustment training and to provide training and experience that will assist the individual in improving his/her performance.

0360 - Classroom Education - Provides services to developmentally disabled individuals between the ages of 5 and 21. Typical services include classroom education for school-aged children; diagnosis and evaluation; instruction in pre-academic skills areas; physical, recreational and speech and hearing therapy; and counseling of families or significant others.

0380 - Transitional Employment - These programs provide short-term interventions designed to assist developmentally disabled individuals in obtaining employment at or above the minimum wage. They provide assistance in developing marketable skills, good work habits, and understanding appropriate on-the-job socializing for becoming competitively employed. This takes place in integrated community work settings and emphasizes support provided at the worksite.

0414 - Epilepsy Services - Services needed by individuals with epilepsy to sustain themselves in appropriate community settings. Epilepsy Services typically include, but are not limited to, information and referral, counseling, case management, education and support groups.

² As defined in the New York State Consolidated Budget Reporting and Claiming Manual January 1, 2007 to December 31, 2007 and July 1, 2007 to June 30, 2008, Issued: May 1, 2007.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

0610 - Recreation - Recreation programs provide social, recreational, educational and enrichment activities within the context of After School programs, summer day camps, Weekend Respite programs and other programs.

0630 - Homemaker Services - Homemaker Services provide assistance and training in home management skills, household tasks and hygiene skills. A trained person who is not a member of the household provides these services in a client's home. Homemaker training can also be provided to parents or significant others of the developmentally disabled person.

0750 - Information and Referral - Information and Referral programs provide assistance in linking individuals to evaluation services by making a preliminary determination of their appropriateness for particular services and/or programs. Such activities include information about the availability of services, answers to administrative questions and interpretations of specified clinical data. Information and referral programs collect appropriate information from the client to facilitate access to appropriate programs and services.

Department of Health and Mental Hygiene

CHEMICAL DEPENDENCY SERVICES
OVERVIEW OF SERVICE CATEGORIES

CHEMICAL DEPENDENCY SERVICES¹

The Division of Mental Hygiene is responsible for planning, purchasing and monitoring chemical dependency treatment and prevention services for children, adolescents and adults. In addition, the Division provides information to providers and the public about chemical dependency treatment and prevention services, and encourages public awareness about the negative consequences of alcohol and drug use. In New York City, chemical dependency services funded through contracts with DOHMH are provided primarily by private and municipal hospitals, and community-based, not-for-profit organizations.

Prior to 1989, NY State operated two separate agencies, one for alcoholism services and one for substance abuse services. In 1990, the State consolidated these agencies and formed the NYS Office of Alcoholism and Substance Abuse Services (OASAS). In 1992, OASAS began developing new regulations that would integrate alcoholism and substance abuse services into a new category of services called chemical dependency services.

In FY '03, OASAS finalized the conversion of the system from one in which alcoholism services and substance abuse services were separately licensed to one in which a unified "Chemical Dependency" license is issued. The following service categories reflect the current system, post-conversion. The "Program Codes and Descriptions" section reflects the names of the program types used in FY '08.

Crisis Services

Crisis services provide a range of treatment options, or levels of care, to people who are intoxicated or incapacitated by their use of alcohol and/or other substances.

The primary purpose of crisis services is the management and treatment of alcohol and/or other substance withdrawal, as well as acute disorders associated with alcohol and/or other substance use, resulting in a referral to continued care.

Crisis services provide one or more of the following:

Medically Managed Detoxification Services - This service addresses the needs of individuals who are acutely ill from alcohol-related and/or substance-related addictions or dependence. Services include medical management for persons who are in severe withdrawal or are at risk of severe withdrawal, and may include services to individuals with, or at risk of, an acute physical or psychiatric condition. This level of crisis service is the only one capable of accommodating individuals who are incapacitated and require an involuntary, emergency admission.

Medically Supervised Withdrawal Services - This service provides treatment for moderate withdrawal and non-acute physical or psychiatric complications associated with chemical dependency.

Inpatient/Residential Medically Supervised Withdrawal Services - These services include medical supervision and direction under the care of a physician in the treatment of moderate withdrawal and non-acute physical or psychiatric complications associated with chemical dependency.

Outpatient Medically Supervised Withdrawal - These services are provided to individuals who are in moderate alcohol or substance withdrawal, do not meet the admission criteria for medically managed detoxification services, and have emotional support and a home environment conducive to recovery. In addition, physician services are provided every day for monitoring the withdrawal process.

Medically Monitored Withdrawal - This service is provided to individuals who are experiencing mild withdrawal complications, or who are in danger of relapse. These services do not require direct supervision by a physician and provide a safe environment to complete withdrawal and secure referral to the next level of care.

Outpatient Services

Chemical Dependency Outpatient Services assist individuals who suffer from chemical abuse or dependence, their family members and/or significant others.

¹ The NYS Office of Alcoholism and Substance Abuse Services' website is:
<http://www.oasas.state.ny.us/index.cfm>

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

Outpatient services are provided at differing levels of intensity depending on the needs of the individual. Services may be provided in a free-standing clinic or may be co-located in a variety of other health and social service settings.

All Chemical Dependency Outpatient Services provide group and individual counseling, including self-help groups, and chemical dependency disease awareness and relapse prevention groups. Services also include education about HIV and other communicable diseases, risk assessment, supportive counseling and family treatment. Social and health care services, skill development in accessing community services, activity therapies, information and education about nutritional requirements, and vocational and educational evaluation are also available. Treatment is provided according to an individualized assessment and treatment plan.

Outpatient services consist of the following program types:

Medically Supervised Outpatient Services - In addition to providing the services noted above, Medically Supervised Outpatient Services are provided within a clinical setting, by a multi-disciplinary team and a Medical Director who conducts medical oversight.

Outpatient Rehabilitation Services - These services are designed for individuals who have chronic chemical dependency needs including inadequate support systems, substantial deficits in functional skills or health care needs. These programs provide social services, skill development in accessing community services, vocational and educational evaluation, nutritional information and activity therapies. A multi-disciplinary team, including a Medical Director, provides the services, and the staff-to-client ratio is richer than that of other outpatient services.

Non-Medically Supervised Outpatient Services - These services do not require medical staff or a Medical Director to be part of the multi-disciplinary team. The level of intensity of services in this category is determined by client need.

Inpatient Rehabilitation Services

Inpatient programs provide intensive evaluation, treatment and rehabilitation services that consist of medically-supervised, 24/7 care for persons suffering from chemical dependency. Services include intensive management of chemical dependency symptoms in addition to medical management and/or monitoring of physical or mental complications from chemical dependency.

Residential Services

Residential services help people who are unable to maintain abstinence or participate in treatment without the structure of a 24-hour residential setting. These services assist such individuals to develop or maintain recovery through a structured alcohol- and drug-free setting, encouragement of peer group support and assistance in the skills of independent living.

Intensive Residential Services - Intensive medically/psychiatrically enhanced residential services pair an intensive residential service with a New York State Department of Health licensed Article 28 Diagnostic and Treatment Center. This allows for the delivery of services to individuals who have additional physical or mental health problems. Services are provided at least 40 hours per week in a 24-hour setting. Intensive residential rehabilitation provides an intensity and breadth of services appropriate to individuals who need assistance with personal, social and vocational skills.

Community Residential Service - Community residential services provide a transitional environment for individuals who have completed a course of treatment, but who are not yet ready for independent living due to unresolved clinical issues, or unmet needs for personal, social or vocational skills development. Services include a structured therapeutic milieu for residents who are concurrently enrolled in an outpatient program.

Supportive Living Services - Supportive living services provide individuals with a long-term supportive living environment after they have left care in another type of residential service. Supportive living environments provide housing resources as well as a drug- and alcohol-free environment that assists ongoing recovery.

Methadone Services

Methadone treatment programs provides services to people dependent on opiates, such as heroin and morphine. These programs offer methadone as part of a range of medical procedures and services, including supportive counseling, medical care and other individualized services.

Maintenance Outpatient - The vast majority of people receiving methadone services are on an ambulatory maintenance protocol. These programs are generally affiliated with a hospital, or are free-standing entities.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

Residential Programs - These programs provide methadone treatment in a residential setting on a short-term (1-3 months) or longer-term (6 months) basis.

Methadone-to-Abstinence - This service provides a medical treatment protocol that utilizes methadone in gradually decreasing doses to the point of abstinence, followed by aftercare treatment.

Prevention/Intervention

Alcohol, tobacco and substance abuse prevention services are based upon a research-based framework targeting people in appropriate settings and according to the intensity of their needs. Prevention strategies and activities are geared toward decreasing the risks that individuals and communities face, and assisting individuals and communities in maintaining or increasing the factors that protect against substance abuse.

Intervention programs are designed to identify, assess and refer those individuals who may be experiencing problems with alcohol and other drugs. These services may include case finding, assessment, level of care determination, intervention, placement and referral and follow-up.

Both prevention and intervention services that target children and families may be provided in the school setting.

Gambling Services

Effective July 1, 2005, OASAS assumed responsibility for overseeing outreach, prevention, treatment, training and certification related to pathological gambling services in New York State.

FY 2008 District Resource Statement
Department of Health and Mental Hygiene

CHEMICAL DEPENDENCY
PROGRAM CODES AND DESCRIPTIONS

The following program types were in contract with DOHMH in FY '08: ²

0505 - Prevention – Outpatient - These programs provides prevention and intervention strategies including the provision of accurate and age appropriate and culturally competent information, personal and social skill development, alternative choice making, training of those who are in a position to influence others (i.e., community leaders, parents, teachers, peer groups, and others), public policy development around alcoholism and substance abuse issues, community networking, and the identification of and intervention with those at high risk.

0810 - Case Management - This program is designed to link individuals to the service system and to coordinate various services in order to achieve a successful outcome. Services may include linking, monitoring and case-specific advocacy.

2780 - Compulsive Gambling Treatment (Non-Licensed Program) - These programs provide outpatient treatment to compulsive gamblers, and are designed to reduce symptoms, improve functioning and provide ongoing support. Services include assessment and treatment planning specific to compulsive gambling, screening and referral for other problems, financial management planning, connection to self help groups for compulsive gamblers, individual, group and family therapy specific to this diagnosis, and crisis intervention.

2790 - Compulsive Gambling Education and Referral Services - These programs participate in the statewide public information campaign and assist people by making referrals and linkages to compulsive gambling treatment programs, other human services, and self help groups for compulsive gamblers.

3059 - Medically Supervised Withdrawal Services – Outpatient - Medically supervised withdrawal services provided in an outpatient setting are provided under the supervision and direction of a licensed physician, and shall include medical supervision of persons undergoing moderate withdrawal or who are at risk of moderate withdrawal, as well as persons experiencing non-acute physical or psychiatric complications associated with their chemical dependency. Such services are appropriate for persons who are intoxicated by alcohol and/or

substances, who are suffering from mild withdrawal, coupled with situational crisis, or who are unable to abstain with an absence of past withdrawal complications.

3370 - NY NY III: Housing for Persons at Risk for Homelessness - This program provides housing opportunities combined with appropriate supportive services to meet the needs of homeless individuals who have substance use disorders that are a primary barrier to independent.

3510 - Medically Monitored Withdrawal Services - Medically monitored withdrawal services are designed for persons who are: intoxicated by alcohol and/or substances; suffering from mild withdrawal coupled with situational crisis; unable to abstain with an absence of past withdrawal complications; or in danger of relapse. Such services do not require physician direction or direct supervision by a physician, and are designed to provide a safe environment in which a person may complete withdrawal and secure a referral to the next level of care.

3520 – Medically Supervised Outpatient Chemical Dependency Services – These programs provide a planned combination of family oriented diagnostic and treatment services to people who need short-term services. Services are available on an outpatient basis and include goal-oriented treatment planning, counseling and case management services. Treatment is provided by a multi-disciplinary team of chemical dependency professionals.

3528 - Enhanced Medically Supervised Outpatient - No description in the CBR. Can the CD unit provide one?

3530 - Outpatient Rehabilitation Services - These programs are designed to assist people with more chronic chemical dependency needs, who have inadequate support systems, and who have substantial deficits in functional skills or have health care needs requiring attention or monitoring by health care staff. They include social and health care services, skill development in accessing community services, activity therapies, and vocational and educational evaluation.

3570 – Community Residential – Community residential services provides ongoing supportive residential treatment, typically serving people in need of structured living after discharge from an inpatient alcoholism rehabilitation program.

² As defined in the New York State Consolidated Budget Reporting and Claiming Manual January 1, 2007 to December 31, 2007 and July 1, 2007 to June 30, 2008, Issued: May 1, 2007.

**FY 2008 District Resource Statement
Department of Health and Mental Hygiene**

4071 - Intake, Outreach & Referral - Specialized chemical dependency-related support services to provide intake, outreach, and referral.

4072 - Vocational Rehabilitation - Vocational rehabilitation services prepares people for employment by helping them choose a vocational role and function that is consistent with their abilities, achievements, interests, and capacity. These programs provide the following services: vocational testing, assessment, counseling, pre-vocational activities, training, educational services, life skills/employability referrals, job referrals and placement, and post-placement counseling and follow-up.

4470 - AIDS Resource - These are programs that provide AIDS/HIV resource services (e.g., AIDS/HIV Coordinators, staff training in AIDS/HIV issues, informational materials, intake, outreach and referral services, medical, legal and psychological services) to substance abuse programs and substance abuse program clients.

5550 - Chemical Dependency Prevention Services – These programs are designed to decrease risk factors and increase protective factors for substance use and abuse. They operate in a variety of settings, including schools and community-based organizations.

NEW YORK CITY EARLY INTERVENTION PROGRAM

NYC EARLY INTERVENTION PROGRAM SERVICES

The New York City Early Intervention Program (NYCEIP) identifies those infants and toddlers whose healthy development may be compromised and provides for appropriate intervention to improve child and family development. Upon referral, NYCEIP will assign a Service Coordinator who will assist the family in selecting an evaluation site. These children, who are suspected of having a developmental delay or have a diagnosed condition that is likely to result in a delay, receive a multidisciplinary evaluation to determine eligibility. If the child is found eligible for the program, NYCEIP convenes an Individualized Family Service Plan (IFSP) meeting and authorizes the appropriate services for the child and their family. If a child is at risk of delay, s/he may be referred for developmental monitoring by the Child Find Unit. The Child Find Unit, with the parent's agreement, will refer the child for further evaluation if a delay is suspected after screening. Referrals to both components of the NYCEIP can be made by calling 311 and asking for the Early Intervention Program at the Department of Health and Mental Hygiene.

The program consists of:

- **Early Intervention Borough Offices** whose staff authorize a variety of therapeutic and support services to infants and toddlers with disabilities and their families, including family training, counseling, and support groups; special instruction; speech pathology and audiology; occupational therapy; physical therapy; psychological services; service coordination; social work services; vision services; and assistive technology devices and services.
- **Child Find** whose staff conduct outreach and public education efforts and assist the day care community, hospitals and primary care sites in identifying infants and toddlers at risk for developmental delay. Child Find also provides ongoing tracking for those children who may be at risk for developing a developmental delay, e.g., low birth weight babies.

Number of Children Served by the Early Intervention Program July 2006 – June 2007					
	Bronx	Brooklyn	Manhattan	Queens	Staten Island
Child Find Monitoring	932	1,911	359	487	128

NEW YORK CITY EARLY INTERVENTION PROGRAM
SERVICE DESCRIPTIONS

Early Intervention Service Types

Evaluation - The procedures used by appropriate qualified personnel to determine a child's eligibility for the Early Intervention Program, including determining the status of the child in each of the following areas of development: cognitive, physical, communication, social or emotional, and adaptive development.

Service Coordination - Assistance and services provided by a Service Coordinator to enable an eligible child and the child's family to receive the services that are authorized to be provided under the Early Intervention Program, and understand their rights and the procedural safeguards.

Respite - Temporary care of a child with a disability, given to provide relief to the family.

Services –

- Aimed at meeting children's developmental needs and helping parents take care of their children.
- Included in an Individualized Family Service Plan (IFSP) agreed to by the parent and the Early Intervention Official.

For example: family training, counseling, occupational therapy, physical therapy, psychological services, social work services, special instruction, speech-language pathology, etc.

- May be **home based** (delivered in the child's home, a relative's home, a child care setting, or another community setting), or **facility-based** (delivered at an approved Early Intervention agency's location).
