## **DEPARTMENT OF HEALTH AND MENTAL HYGIENE PROGRAMS AND PERFORMANCE INDICATORS**

### **Mission**

The mission of the Department of Health and Mental Hygiene is to promote the health and mental health of all New Yorkers, the recovery of those with mental illness and chemical dependencies, and the realization of full potential of those with mental retardation and developmental disabilities.

### **District Resource Statement**

The District Resource Statement reflects the July 2002 merger of the former Department of Health with the former Department of Mental Health, Mental Retardation, and Alcoholism Services into the Department of Health and Mental Hygiene.

The District Resource Statement has five sections, reflecting the structure of the merged agency:

- **The Division of Health Care Access and Improvement**
  - (includes Child Health Clinics; Oral Health Clinics; and Bureau of Health Insurance Services.)
- **The Division of Disease Control**
  - (includes Immunization Clinics; Tuberculosis Clinics; Sexually Transmitted Disease Clinics; HIV Prevention Services.)
- **The Division of Health Promotion and Disease Prevention**
  - (includes School Health)
- **The Division of Environmental Health**
  - (includes Pest Control)
- **The Division of Mental Hygiene**
  - (includes Mental Health; Early Intervention and Developmental Disabilities; Health Promotion and Chemical Dependency.)

### **Services**

This report highlights ongoing services provided at the community level in all five boroughs. In addition to these services, the Department also provides a broad range of public health and mental hygiene services throughout the city. Some of these services include: public education and training endeavors, disease surveillance and laboratory investigations, vital statistics registries, enforcement of the city's public health and mental hygiene laws and policy analysis and program development designed to identify and address the needs of local communities.

Some services are operated directly by the Department. Such services include Immunization Clinics; Sexually Transmitted Disease Clinics; Tuberculosis Clinics; Pest Control; School Health; and Oral Health. Child Health Clinics are operated by the New York City Health and Hospitals Corporation (HHC) through a contractual agreement with the Department of Health and Mental Hygiene. HIV Prevention services are administered by the Department and operated by both the Department and community-based organizations. All Mental Hygiene programs listed in the DRS are contracted out to locally based not-for profit organizations or voluntary hospitals.

**DIVISION OF HEALTH CARE ACCESS AND IMPROVEMENT**

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene  
**Child and Adolescent Health**

**Child And Adolescent Health: Introduction**

**Services**

The Health and Hospitals Corporation (HHC) Child Health Clinics provide primary and preventive health care, as well as support and referral services, to infants, children and adolescents. These clinics strive to ensure that the content and quality of care provided is consistent with accepted pediatric practice standards and that their services address the needs of children in the under-served communities where the clinics are located.

Since 1994, the Child Health Clinics have been operated by HHC through a contractual agreement with the Department of Health. There are 31 Child Health Clinics in New York City, each of which is integrated into one of the eight HHC Hospital Networks. Each clinic is staffed by one or more pediatricians as well as by nurses and other support staff. In addition, each Clinic is assigned to Network administrative oversight staff (physician, nurse and administrator) who are responsible for oversight of the day-to-day Clinic operations.

The age eligibility for registration ranges from birth through eighteen years of age. Each registered child or adolescent is assigned to a primary care provider for continuity and coordinated management of his/her health care. Some of the components of comprehensive care include immunizations, health education, asthma care, new admission examinations for school and summer camp, and day care examinations.

**Report**

This report contains one section:

**1. Personnel and Indicators Report: Lists the number of MD visits, which represents the number of clinical visits to a physician or pediatric nurse practitioner , as well as the actual number MD full time equivalents (FTEs) at the clinic, for both Fiscal 2002 and Fiscal 2003.**

**Oral Health Services**

**Oral Health Services: Introduction**

**Services**

HHC's Oral Health Clinics provide comprehensive pediatric dental services for children up to age 21 who may not otherwise receive care. This encompasses 5 health center clinics and 45 community-based dental clinics, which are placed directly in schools throughout the five boroughs for periods of six months to several years, depending on need, then they are transported to new sites.

The Clinics also promote the oral health of children of New York City through an education program, referral services, and tracking for compliance of needed dental services.

**Report**

This Dental Services report has 4 sections:

- 1. Personnel Report by Region:** Lists personnel by title for each of four regions. Headcount figures provided here reflect full-time equivalent (FTE) staff based on 1,827 hours worked per year and positions filled as of June 2003. A number of dentist titles are calculated using 1957.5 hours a year (37.5 hours a week).
- 2. Health Center Clinic Locations:** Lists health center dental clinics. These are permanent clinics that are integrated into the HHC networks.
- 3. Community-Based Clinic Locations:** Lists the locations of community-based clinics. These are located in schools.
- 4. Indicator Report by CD of Residence:** Shows clinic usage by the patient's community district of residence by using the following two indicators:
  - Number of children seen: represents the number of children seen from July 2002 to June 2003. Each child is counted once during this period. Due to data collection difficulties, this number under counts the number of children seen.
  - Number of visits to clinic: represents the number of visits from July 2002 to June 2003.

## **Division Of Health Care Access And Improvement: Introduction**

### **Services**

The Division of Health Care Access and Improvement (HCAI) is responsible for implementing the New York State Managed Care Program Act of 1991 as it applies to New York City. New York City is the signatory to all Medicaid managed care contracts in New York City. HCAI is the City's primary liaison to New York State Department of Health regarding Medicaid Managed Care policy, the selection process for qualification of managed care contractors, and implementation of the Section 1115 Waiver.

DOHMH Facilitated Enrollers are centrally based in 8 DOHMH Health Centers located in four boroughs (see attached list). Working in the community and through home-visits, their efforts are concentrated on helping families complete the application process enabling individuals to enroll in health insurance, educating applicants about managed care, helping the applicant select a doctor and health plan and assisting each applicant to navigate through the health care system.

Total Medicaid Managed Care enrollment through June 2003 totaled 1,153,736.

HCAI currently contracts with 18 Health Plans (see attached list) who provide services to Medicaid consumers. HCAI is responsible for overseeing the contracts and the health plans marketing activities.

### **Report**

This report is in two sections:

- 1. Personnel Report:** lists clinics with facilitated enrollers, who enroll people in Child Health Plus A, Child Health Plus B, Adult Medicaid, Family Health Plus, Prenatal Care Assistance Program (PCAP), and Elderly Pharmaceutical Insurance Coverage (EPIC).
- 2. Medicaid Managed Care Report:** lists the managed care plans that HCAI administers, and the number of enrollees on each plan.

**DIVISION OF DISEASE CONTROL**

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene  
**Immunization**

**Immunization: Introduction**

**Services**

The mission of the Immunization Program is to prevent the occurrence and transmission of diseases for all age groups through immunization. By the year 2010, our goals are that 90 percent of children are appropriately immunized by their second birthday, and that 90% of adults aged 65 years or older receive an annual influenza vaccination and a pneumococcal vaccination once in their life. In addition to research, surveillance, and program planning activities, the Program provides direct services to the public at six walk-in clinics in four boroughs with influenza vaccination offered in Staten Island from October through January.

**Report**

The Immunization report is in two sections.

**1. Indicators Report by CD of Residence:** This section shows immunizations by community district of residence, regardless of which walk-in clinic was used.

- **Number of immunizations:** represents the number of immunizations administered at Walk-In Immunization Clinics under the auspices of the Immunization Program from July 2002 through June 2003. Dosages are counted as follows: when Diphtheria, Pertussis and Tetanus (DPT) are given in the same visit, they are counted as one immunization. Likewise, Measles, Mumps, and Rubella (MMR) is counted as one immunization.

**2. Clinic Usage Report:** This section shows the same indicators as above, but broken out by clinic. Also, there is a chart showing clinic usage by CD of residence.

**Chest Centers (Tuberculosis)**

**Tuberculosis: Introduction**

**Services**

The mission of the Bureau of Tuberculosis Control is to prevent the spread of tuberculosis (TB) and eliminate it as a public health problem in New York City. The goal of the Bureau of Tuberculosis Control is to identify all individuals with suspected or confirmed TB disease and ensure their appropriate treatment, ideally on a regimen of Directly Observed Therapy. The Bureau also works to ensure that individuals who are at high risk for progression from infection to active disease (e.g., contacts of active cases, immuno-compromised individuals, recent immigrants from areas where TB is widespread) receive treatment for latent TB infection and do not develop the disease.

To achieve these goals, the Bureau provides surveillance, education and consultation, and outreach services throughout the City and direct patient care at no cost to patients at ten Chest Centers located in the five boroughs.

**Report**

The Tuberculosis report is in two sections.

1. Indicators Report by CD of Residence: This section shows TB cases and visits by community district of residence, regardless of which clinic was used.
  - **TB cases under surveillance:** Number provided is the prevalence of TB Cases receiving treatment at the Chest Center during 2003.
  - **Number of visits:** Represents the number of visits to DOH chest centers from July 2002 to June 2003, excluding visits made by patients on Directly Observed Therapy. Approximately 20,930 additional visits to the clinics were made by patients on Directly Observed Therapy.
  - **Number of new TB cases** Number of New TB Cases receiving treatment at the Chest Center during 2003.
2. Clinic Usage Report: This section shows the same indicators as above, but broken out by clinic. In addition, a budget figure is given for each clinic. The budget is based on actual payroll, and includes personnel services only. Also, there is a chart showing clinic usage by CD of residence.

**Sexually Transmitted Disease Clinics**

**STD: Introduction**

**Services**

The mission of the Sexually Transmitted Disease (STD) Control Program is to promote healthy sexual behavior and reduce the impact of Sexually Transmitted Infections in New York City. In addition to policy development, research, and education, the Program maintains 10 full service STD clinics throughout the five boroughs, and 11 HIV testing and counseling sites. The STD clinics provide free and confidential STD testing and treatment. All 11 HIV testing and counseling (T&C) sites provide confidential and anonymous HIV counseling and testing services. The Program also monitors STD cases citywide to ensure appropriate follow-up and treatment. Follow-up activities include outreach efforts that seek to identify other individuals infected with or incubating STDs.

**Report**

**1.Clinic Usage Report:** This section shows the following statistics, broken out by clinic.

- **Total Physician Visits:** All physician visits include a medical history and physical exam with diagnostic tests, and may also include HIV testing and counseling, and interview for partner elicitation.
- **Total Non-Physician Visits:** Includes visits for HIV testing and counseling, return visits for test results, or visits for interview for partner elicitation. If included as part of a physician visit, such services are counted only once, in the category "Total physician visits".
- **Total STD Treated:** Sum of persons with diagnosed STD and persons presumptively treated due to exposure to a sex partner with an STD.

Department of Health and Mental Hygiene  
**HIV Prevention Services**

**HIV PREVENTION SERVICES**

**Services**

The HIV Prevention Program serves as the central coordinating unit for HIV prevention services within the Department of Health and Mental Hygiene. Its purpose is to provide an effective medium for communication and action on HIV/AIDS issues between the Department, public and private sector agencies, prevention planning groups, and research institutions. The Program maintains a leadership role in planning and implementing City policy related to HIV prevention education and technical assistance.

In addition to operating its own prevention programs, the HIV Prevention Program funds and oversees numerous community-based HIV/AIDS prevention service organizations. Contracted organizations receive technical assistance necessary to plan and implement their HIV programs.

**Report**

The HIV section included in this report is based on information provided by the HIV Prevention Program. The report provides a comprehensive listing of contractual as well as directly operated HIV prevention programs throughout the City from July 2002 through June 2003. Information provided includes program name, type of site, address, program budget, services provided and Community District.

The following abbreviations are used throughout this section:

ADMIN	Administrative Site
POS	Point-of Service Site
ILI	Individual Level Intervention
GLI	Group Level Intervention
PCM	Prevention Case Management
HCPi	Health Communications/Public Information
MSM	Men who have Sex with Men
CLI	Community Level Intervention
OR	Outreach
MM	Multi-Module

Also included are two maps. The first is entitled Persons living with AIDS. This is a dot-density map which displays the distribution of living AIDS cases over Community District lines. The dots do not represent precise locations of cases, but are evenly and randomly distributed within the underlying zip codes of each Community District. (E.g. Rikers Island cases are also shown on the mainland portion of zip code 11370). This map represents a total of 41,248 mapped living AIDS cases as of December 2000. The map does not include cases for the homeless or persons who did not provide a zip code of residence.

A second map displays the distribution of HIV service sites over Community District lines, including points of service (POS) for HIV prevention contracts and directly operated programs funded through the HIV Prevention Program.

**School Health: Introduction**

**Services**

The mission of the Bureau of School Health is to promote the physical, emotional, social, and environmental health of the school children of New York City. The Program provides health services to approximately one million children in more than 800 public and 400 private schools in the City.

Services to students in the schools are provided by a school health team composed of a Public Health Assistant, a Public Health Advisor, a nurse and a physician. These services are provided in a public health format which includes assessment of health needs with case management that focuses on identification of health problems and referral for care. Staff also provide physical examinations, immunizations, prevention counseling, health education and first aid.

The Bureau of School Health provides a daily health presence in elementary and intermediate/junior high public schools not receiving school-based clinic services. In elementary schools, a nurse is present daily. In intermediate/junior high schools, a Public Health Advisor is present daily and a nurse is assigned one day per week. Physicians complete the team and are assigned to schools where children have clinical health needs that require physician assessment and intervention.

**Report**

The School Health report is in two sections.

1. **Personnel Report:** Details the number of budgeted full-time equivalent positions (FTE) in each title in Fiscal 2003, by region.
2. **Indicators Report:** Provides the following indicators by borough:
  - **Number new admissions exams:** gives the total number of new admission exams collected and reviewed by program staff for students entering school in school year 2002-2003. Since the primary focus of the Bureau of School Health is to link every student with a medical home, the majority of these exams are performed by private providers. As the provider of last resort, School Health physicians perform approximately 20,000 non-comprehensive new admission exams annually in schools. Please note that due to the inability to identify to which CD many of the New Admission Exams belong, the numbers are grossly under-estimated - in FY03 School Health staff reviewed 121,027 New Admission Forms.
  - **Number working paper exams:** gives the total number of working paper exams performed by Bureau of School Health clinicians on students at school-site locations.
  - **Number other exams:** gives the remaining number of encounters that do not fall into either of the above categories.

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene  
**Pest Control**

**Pest Control: Introduction**

**Services**

The goal of the Pest Control Program is to reduce the rodent population in New York City to a level at which it will not adversely affect human health. The Program is responsible for reducing conditions in which rodents breed and provides the public with inspection and extermination services as well as clean-up activities.

**Report**

**The Report is in three sections:**

- 1. Personnel Report: provides a list of Pest Control personnel by borough. List includes both full time and part time positions.**
  
- 2. Inspections Report: includes the following indicators by CD:**
  - **Complaint Inspections: these** are inspections provided throughout the City in response to complaints to the Department's Central Complaint Office. These include initial inspections only.
  
  - **Geographic Inspections: these** are inspections conducted as part of the Department's regular program on a routine basis in designated areas.
  
- 3. Exterminations Report: includes the following indicators by borough:**
  - **Complaint Exterminations: these** are conducted in response to complaints registered with the Department's Central Complaint Office. This includes billable as well as non-billable exterminations.
  
  - **Geographic Exterminations: these** are exterminations conducted as part of the Department's regular program. This includes billable as well as non-billable exterminations.

Department of Health and Mental Hygiene

DIVISION OF MENTAL HYGIENE  
PREFACE

This section will provide a listing of mental hygiene programs and services in contract with the New York City Department of Health and Mental Hygiene (DOHMH) during Fiscal Year 2003 (FY '03). The DOHMH funds, contracts for and monitors the delivery of a wide range of mental hygiene services provided by not-for-profit organizations and voluntary hospitals in three disability areas: Mental Health, Mental Retardation & Developmental Disabilities, and Chemical Dependence. The scope of services available to the public extends beyond those listed here to include those provided by City and private hospitals, clinics and facilities funded and/or operated by New York State.

How the Division of Mental Hygiene's section is organized:

Each of the three disability areas will be presented in its own section with the following information:

- € An overview of service categories
- € A listing of program types and definitions with corresponding program code numbers as assigned by New York State
- € A listing of the DOHMH FY '03 contracted programs for the disability area organized by borough and community district

The conclusion of the Division of Mental Hygiene's section features a listing of the agencies that operated mental hygiene contracted programs in FY '03. These listings include addresses, phone numbers and agency code numbers as assigned by DOHMH.

Each program entry contains the following information:

Agency Name  
Program Type <sup>1</sup>  
Program Name (if available)  
Main Program Address <sup>2</sup>  
Program Phone Number

<sup>1</sup> As defined in the New York State Consolidated Budget Reporting and Claiming Manual, Issued August 2002.

<sup>2</sup> Satellite sites are not always listed.

- Clients: The number of unduplicated individuals the program is contracted to serve in FY '03. Individuals who use more than one program during the year are counted as clients in each program.
- Visits: The program's level of service commitment for FY '03.
- Budget: The program's gross budget for FY '03. <sup>3</sup>
- Progid: The program's identification number as defined by DOHMH.
- Pcode: The program's code number. <sup>4</sup>
- Location: (cd) = Community District; (cc) = City Council District; (sd) = School District; (ad) = State Assembly District; (ss) = State Senate District; (cg) = U.S. Congress District.

Questions regarding the District Resource Statement may be directed to the Division of Mental Hygiene, Bureau of Planning, Evaluation and Quality Improvement, at 212-219-5510.

For information on the Internet about the NYC Department of Health and Mental Hygiene see: <http://www.nyc.gov/html/doh/>

<sup>3</sup> The "gross budget" figure represents all dollars budgeted to meet a program's level of service commitment. The revenue sources for these programs include public subsidy, collectible fees and agency contributions.

<sup>4</sup> Definitions for program code numbers can be found within each disability section following that section's overview.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**THE MENTAL HYGIENE SYSTEM  
AN OVERVIEW**

New York City's formal mental hygiene system officially dates to 1954, when New York State enacted the Community Mental Health Services Act, often referred to as the Mental Hygiene Law. This law authorized local communities to establish community mental health boards and authorized funding for local contracts with community-based mental health providers. In the same year the New York City Charter was amended to establish the Community Mental Health Board.

In 1969, the Department of Mental Health and Mental Retardation was established as the New York City agency responsible for planning, funding and monitoring the provision of mental health and mental retardation services. In 1971, alcoholism services were added to the Department's portfolio, and in 1994 the Department was designated by the Mayor as the lead City agency for planning and coordinating chemical dependence services. In 2002, the NYC Department of Mental Health, Mental Retardation and Alcoholism Services merged with the New York City Department of Health to form the New York City Department of Health and Mental Hygiene (DOHMH).

New York State Offices

DOHMH's Division of Mental Hygiene plans and implements its mental hygiene system in partnership with three New York State agencies: the Office of Mental Health (OMH), the Office of Mental Retardation and Developmental Disabilities (OMRDD) and the Office of Alcoholism and Substance Abuse Services (OASAS). These State offices provide funding to New York City and other localities and serve as conduits for Federal mental hygiene dollars. They are responsible for ensuring that localities comply with the Mental Hygiene Law, which mandates that the State and its localities share joint responsibility for planning the care, treatment and rehabilitation of individuals affected by a mental hygiene disorder. Each State office provides oversight for the services provided in its disability area.

OMH is responsible for overseeing, regulating and certifying mental health services in New York State for more than 2,500 mental health programs operated by local governments and nonprofit agencies. These include inpatient, outpatient, emergency, community support and residential programs. OMH operates 17 adult psychiatric centers and six children's facilities throughout NY State.

For more information about mental health services see: <http://www.omh.state.ny.us/omhweb/about/>.

OMRDD has responsibility for the State's care, treatment and habilitation of individuals with mental retardation and developmental disabilities through certifying, regulating, and contracting for a variety of programs. Services are provided primarily by voluntary, community-based organizations and include residential care and support; adult day training, vocational and employment programs; and a wide range of family and individual support services. In addition, OMRDD operates 13 Developmental Disabilities Services Offices throughout New York State, which provide specially designed person-centered assistance to individuals with developmental disabilities to improve their quality of life. For more information about the mental retardation/developmental disabilities services see: <http://www.omr.state.ny.us/index.jsp>.

OASAS administers the State's system of chemical dependence services including the funding, licensing, certification and regulation of programs. Services are delivered through a network of more than 1,200 community-based programs; more than half are outpatient programs, with the next largest category consisting of residential services followed by crisis service programs and inpatient rehabilitation programs. OASAS directly operates 13 Addiction Treatment Centers (ATCs) located throughout New York State. OASAS also coordinates the work of more than 400 prevention groups in schools and communities. For more information about chemical dependence services see: <http://web2k.oasas.state.ny.us/oasas/home.cfm>.

DOHMH Division of Mental Hygiene

The Division of Mental Hygiene is responsible for planning, monitoring and evaluating contracts with voluntary agencies and hospitals to ensure that New York City residents have access to a wide network of mental hygiene treatment programs and support services. For more information about DOHMH's Division of Mental Hygiene see: <http://www.nyc.gov/html/doh/home.html>. Look under "Health Topics" on the left side of the screen.

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene

**MENTAL HEALTH SERVICES  
OVERVIEW OF SERVICE CATEGORIES**

The Division of Mental Hygiene plans, develops, funds and monitors services provided to people with mental illness. In New York City, mental health services are provided in a variety of settings: in homes, clinics, community-based organizations, community residences, hospitals and psychiatric centers. Services range from highly structured programs in hospitals and clinic settings to programs in the community that assist individuals in obtaining housing, employment and other necessary supports.

### **MENTAL HEALTH SERVICES FOR ADULTS**<sup>5</sup>

#### Emergency and Crisis Programs

Emergency and crisis programs are designed to achieve rapid psychiatric and/or medical stabilization and to assure the safety of individuals who present a risk to themselves or others. The primary objective of emergency programs is to provide rapid screening, assessment and psychiatric stabilization so that the acute symptoms of mental illness are reduced. In addition, these programs are designed to stabilize individuals' bio-psycho-social functioning and develop plans for their treatment in the community. Emergency programs include but are not limited to Comprehensive Psychiatric Emergency Programs, Crisis Outreach Programs and Crisis Intervention Programs.

The Assisted Outpatient Treatment (AOT) program was developed by New York State to implement "Kendra's Law," which allows court's to order outpatient treatment to certain individuals who have a history of violence or non-compliance with treatment. In the event an individual under an AOT court order is non-compliant with treatment and services, a physician may recommend the person be transported to a hospital and retained for up to 72 hours to determine if inpatient care and treatment are necessary.

DOHMH funds a confidential hotline, 1-800-LIFENET, available 24-hours/seven days a week. LIFENET provides callers with information and referrals for mental

health and other social service resources throughout New York City. 1-800-LIFENET's services are available in Spanish at 1-877-AYUDESE and in Chinese at 1-877-990-8585. People who use a TTY or TTD can call the New York Relay Service at 1-800-421-1220 to call 1-800-LIFENET.

#### Inpatient Programs

Inpatient programs are hospital-based psychiatric programs that provide 24-hour care, under medical supervision, in a controlled environment. There are two levels of inpatient care: acute hospitalization and long-term hospitalization.

Acute inpatient psychiatric treatment is provided in voluntary or municipal hospitals. Clients are admitted for a minimum period of 24 hours and typically stay less than 30 days.

Intermediate and long term inpatient treatment (more than 30 days) is provided in a State-operated psychiatric center. In most instances, this occurs when patients are transferred from a voluntary or municipal hospital after completion of an acute phase of treatment, and are deemed to require additional hospitalization. Five adult psychiatric centers and a psychiatric research institute are located in New York City. These facilities are funded and operated by the New York State Office of Mental Health.

#### Outpatient Programs

Outpatient programs are designed to meet the mental health treatment needs of individuals who can be served in community-based settings. Some outpatient programs are more structured than others. For example, outpatient partial hospitalization programs are more structured than outpatient clinical programs.

Clinic programs focus on the reduction of symptoms of psychological distress and improvement in client functioning through treatment. Outpatient programs include, but are not limited to, Clinic Treatment Programs, Partial Hospitalization, Intensive Psychiatric Rehabilitative Treatment and Continuing Day Treatment Programs.

<sup>5</sup> The NYS Office of Mental Health's website: <http://www.omh.state.ny.us/>

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

Community Support Programs

Community support programs are designed to promote recovery from mental illness and to strengthen the psychosocial skills of individuals with severe and persistent mental illness so that they can live as independently as possible in natural community settings. These programs provide academic, vocational and social rehabilitation services. Academic rehabilitation programs assist clients in developing cognitive and intellectual skills and provide support services needed to achieve basic, high school, and/or higher education. Vocational rehabilitation programs assist clients in establishing career goals and then obtaining the evaluation, training and support services necessary to select, obtain and maintain paid employment. Social rehabilitation programs, such as psychosocial clubs, develop or enhance personal care, social communication, recreation, personal finance and other daily living skills and provide support necessary for successful and satisfying community functioning.

Supported housing programs assist clients in securing housing of their choice and accessing whatever supports are necessary to live in the community. These programs typically provide rent stipends and are found in congregate settings or scatter-site apartments. Services include assistance with finding roommates, obtaining furniture and other housing needs, maintaining a budget and obtaining mental health, vocational, health care and other services. Community residence programs provide room and board and various levels of rehabilitation services and support.

**FORENSIC MENTAL HEALTH SERVICES**

To address the needs of mentally ill individuals involved in the criminal justice system, the DOHMH designed the Service Planning and Assistance Network (SPAN) program and the LINK Case Management program.

The Service Planning and Assistance Network (SPAN) provides discharge planning and referral assistance to individuals with mental health needs who are released from the NYC correctional system and have not been incarcerated long enough for a discharge plan to be developed. The program ensures that individuals will receive necessary psychiatric medications without interruption upon

release and provides linkages to appropriate community-based services and resources.

The LINK Case Management program focuses on the transition from incarceration to the community for seriously and persistently mentally ill individuals who are involved in the criminal justice system. LINK case managers, in conjunction with discharge planners on Rikers Island, develop service plans for individuals returning to the community and provide follow-up, referrals and advocacy in an effort to reduce recidivism.

Incarcerated individuals who require intensive psychiatric assistance are served in the Kirby Adult Forensic Center located on Wards Island. It is funded and operated by the New York State Office of Mental Health.

**MENTAL HEALTH SERVICES FOR CHILDREN AND ADOLESCENTS**

The Division of Mental Hygiene plans, funds and monitors a wide range of programs that enable children and adolescents to receive comprehensive treatment and support services. Mental health services for children and youth parallel those described above for adults. Child and adolescent programs generally operate in the community and are designed to prevent hospitalization and inpatient care or, when hospitalization or inpatient care is necessary, to return the child/adolescent to a family/community environment as quickly as possible. Child and adolescent programs are also designed to assist the family in maintaining the child and/or adolescent in the home, or in a homelike setting.

Emergency Programs

Crisis Intervention services provide specialized evaluation, treatment, stabilization and referral or diversion to an appropriate program for the child and, if required, the family. Crisis Outreach may be accomplished through a mobile crisis team that responds to a child in crisis at home, with a foster family, in school, in a group home or in other child-serving systems. Home-Based Crisis Intervention Programs provide in-home crisis services to families (natural, foster, adoptive) where one or more children are at imminent risk of psychiatric hospitalization.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

Intensive in-home intervention is provided for four to six weeks by teaching problem solving skills to the family, linking the child and family to community-based resources and supports and diverting the child from placement in a hospital.

Inpatient Programs

Inpatient programs provide acute care to children and adolescents who need crisis stabilization and/or require intensive short-term treatment and medical intervention. Acute care programs conduct a comprehensive assessment of the child and family's clinical needs in order to develop a comprehensive treatment approach. Stays range from a few days to 30 days. Intermediate care is provided to children and youth between the ages of five and 17 who demonstrate continued symptoms of serious emotional disturbance that require treatment in a hospital setting. Stays range from 30 to 180 days. For long-term and acute care, three psychiatric centers are located in New York City that specialize in the care of children. They are funded and operated by the New York State Office of Mental Health.

Residential treatment facilities provide fully integrated and individualized mental health treatment to seriously emotionally disturbed youth between the ages of five and 21.

Outpatient Programs

Clinic Programs seek to reduce symptoms of psychological distress and the improvement of individual child and family functioning. Day treatment programs provide the most intensive nonresidential mental health services currently available. The programs are characterized by a blend of mental health and education services.

Community Support Programs

Community Support programs provide a full range of services to enable seriously emotionally disturbed children and adolescents to live in the community. These services include:

Family Support programs that enhance the capacity of families to care for emotionally disturbed children in the home. Services may include parent education/support groups, respite care, family recreation programs, child supervision and parenting skills.

Family Based Treatment programs use surrogate families to maintain and treat seriously emotionally disturbed youth in their homes.

Residential programs include congregate residences for children and adolescents that provide structured daily living activities, problem solving skills and behavior management. Each residence is linked with one or more day treatment program and is based in the community.

Vocational and Social Rehabilitation programs include therapeutic nurseries that treat and monitor children identified at high risk for serious emotional disturbance. They also work with parents and extended family members to improve parenting skills. Case management and other appropriate treatment services are provided to the family.

Vocational Programs for Older Adolescents include job skills training necessary to function at work sites and in on-the-job training programs.

Social Leisure Time programs develop or enhance social and recreational skills and supports; these programs provide supportive social and recreational activities and networks, with an emphasis on family activity during weekend, evening and holiday hours.

**MENTAL HEALTH SERVICES FOR SPECIAL POPULATIONS**

As the demographics of the City's population have changed, the DOHMH has responded by developing programs that address the needs of special populations. Over the past decade, mental health programs have been developed specifically for seniors, immigrants, individuals with co-occurring chemical dependence disorders, gay, lesbian, bisexual and transgender individuals, persons living with HIV/AIDS and individuals who are homeless.

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene

MENTAL HEALTH  
PROGRAM CODES AND DESCRIPTIONS

The following program types were in contract with DOHMH in FY'03:<sup>6</sup>

**0010 - Inpatient Psychiatric Unit** - Inpatient psychiatric programs provide 24-hour assistance including full-time medical, psychiatric and social services and around-the-clock nursing services. These programs are located in State psychiatric centers, certified hospitals, general hospital inpatient psychiatric units and inpatient units of community mental health centers.

**0130 - Emergency Unit Clinic Treatment** - Clinic treatment provided in an emergency unit or by emergency unit staff.

**0200 - Day Treatment (Children and Adolescents)** - Day treatment programs blend mental health services with special education services in a fully integrated program. Typically, these services include special education in small classes, with an emphasis on individualized instruction, individual and group counseling, family services such as family counseling, crisis intervention, interpersonal skills development and behavior modification. Children and adolescents receiving day treatment services live at home or in the community but have been identified as seriously emotionally disturbed and cannot be maintained in regular classrooms.

**0320 - On-Site Rehabilitation** - On-site rehabilitation programs assist individuals who live in adult congregate care settings, supervised or supported living arrangements to achieve their treatment and community living rehabilitation goals. Services include one or a combination of: (1) recipient self-help and support interventions; (2) community living; (3) academic, vocational, and/or social leisure time rehabilitation training and support services. Services are typically provided at the residential location or in the provider-operated community setting.

**0340 - Sheltered Workshop** - These programs provide vocational assessment, training and paid work in a protective and non-integrated work environment.

**0380 - Transitional Employment Placement** - The objective of transitional employment is to strengthen the individual's work record and skills through time-limited employment and on-the-job training so that the individual may achieve assisted or unassisted competitive employment.

**0510 - Pre-Admission Screening** - Determines the need for services through the assessment of functional strengths and vulnerabilities. Assists consumers in linking to appropriate programs.

**0610 - Recreation Programs** - Recreation programs provide social, recreational, and leisure activities that are intellectually and interpersonally stimulating but that are not necessarily part of a goal-based program plan.

**0650 - Respite Care** - Respite care provides relief to primary care givers such as parents or legal guardians on a temporary basis. Services are provided by trained staff in the recipient's residence or in a temporary housing arrangement.

**0670 - Transportation** - Transportation is provided to and from facilities or resources, including all necessary supportive services, specified in the individual treatment plan.

**0680 - Mobile Treatment Team** - Mobile Treatment programs provide outreach to individuals who are in need of mental health services but who are having a difficult time connecting to community resources. A multi-disciplinary team provides treatment similar in nature to those provided at a clinic treatment program, but the services take place either in a person's residence or another natural setting.

**0690 - Outreach** - Outreach programs are designed to establish face-to-face contact with individuals potentially in need of mental health services. Services can be delivered through mobile outreach teams and include assessment and referral. Services can also be delivered at drop-in centers. They can include but are not limited to socialization, recreation, light meals, information about mental health and social services and assessment and referral services.

**0700 - Crisis Services (Non-Inpatient)** - These programs provide services to individuals who are experiencing acute emotional distress and require immediate attention. Services are provided in a non-inpatient setting such as the residence of the recipient.

<sup>6</sup> As defined in the New York State Consolidated Budget Reporting and Claiming Manual, Issued August 2002.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**0770 - Psychosocial Club** - Psychosocial clubs assist consumers in re-establishing their sense of self-esteem and group affiliation, as well as promoting recovery and reintegration into meaningful community life through the provision of two or more of the following: (1) self-help and empowerment interventions; (2) community living; (3) academic; (4) vocational and/or (5) social leisure time rehabilitation, training and support services.

**0800 - Assertive Community Treatment (ACT) Teams** - ACT Teams provide intensive treatment and support to people with psychiatric disabilities. The focus is on improving an individual's quality of life in the community and reducing the need for inpatient care by providing intense community-based treatment services by an interdisciplinary team of mental health professionals. Building on the successful components of the Intensive Case Management (ICM) program, the ACT program has low staff to client ratios and operates 24 hours a day, seven days a week.

**0810 - Case Management** - Case Management programs provide activities designed to link the client to the service system and coordinate various services to achieve a successful outcome. Case managers provide linkages to mental health and other resources, problem-solving assistance, advocacy, and coordinate individual service plans that address an individual's complex needs.

**0820 - Blended Case Management** - Facilitates a team approach to case management by combining the caseloads of multiple Intensive Case Managers and/or Supportive Case Managers. The program objective is to assure continuity of care and services through linkage, monitoring and case-specific advocacy.

**0990 - Special Demo/Other** - Identifies programs that are demonstration projects or do not fit other categories of service.

**1310 - Continuing Day Treatment** - These programs provide active treatment and rehabilitation designed to maintain or enhance current levels of functioning or skills, to maintain community living and to develop self-awareness and self-esteem through the exploration of strengths and interests. These programs provide assessment and treatment planning, discharge planning, medication therapy, case management, health screening and referral, psychiatric rehabilitation and symptom management.

**1320 - Vocational Services (Adolescent)** - Vocational programs for adolescents are designed to provide work training and clinical support services for older adolescents with poor academic performance and social adjustment. They also provide assessment and interventions to strengthen coping, vocational, educational and social skills.

**1340 - Enclave in Industry** - These programs provide vocational assessment, training and transitional or long-term paid work experience for individuals with severe disabilities. An enclave consists of a small group of approximately five to eight individuals who work in an industry or other economic enterprise. Participants are provided with training, supervision, and ongoing support by a job coach/supervisor assigned to the work site by the agency.

**1380 - Assisted Competitive Employment** - These programs help recipients choose, find and maintain satisfying jobs in the competitive employment market. When appropriate, job training, supervision and support services are offered at the work-site and off-site.

**1520 - School-Based Initiatives** - These programs provide mental health services to seriously emotionally disturbed students or students at risk for such disturbances. Services include assessment, crisis intervention, referrals and linkages with family services and community-based programs. Students can receive brief interventions as a group or individually. In addition, consultation and technical assistance to school personnel on behalf of the student(s) are provided.

**1650 - Family Support Services** - Family Support programs provide family support groups, advocacy, respite and after school services as well as summer, family recreation and residential camp programs to families in which there is a seriously emotionally disturbed child.

**1680 - Crisis Outreach** - These programs provide mobile crisis intervention and emergency services, including assessment and treatment in natural (e.g., homes), structured (e.g., residential programs), or controlled (e.g., instructional) environments.

**1760 - Advocacy Service** - These programs provide advocacy services to assist individuals in protecting and promoting their rights, resolving complaints and grievances, and accessing services and supports of their choice.

**1770 - Drop-In Center** - These programs serve to identify and engage people who may choose not to participate in more structured programs or who might not otherwise avail themselves of mental health services. These programs are low demand, flexible and relatively unstructured so that they are responsive to the individual needs of the recipient.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**1800 - Neighborhood Care Team** - These programs provide coordinated care across agencies and focus services at the neighborhood level. Staff consists of professionals and paraprofessionals who provide culturally appropriate and responsive services.

**1810 - Intensive Case Management** – The Intensive Case Management program provides linkages to the service system for clients and coordinates various services to achieve a successful outcome. Intensive case managers assure comprehensive, multi-disciplinary services, continuity of care and case-specific advocacy in consumers’ “natural” settings. They are available 24 hours a day, seven days a week. These programs utilize low staff/client ratios.

**1990 - Bridger/Transition Management Services** - These programs provide clients who are discharged from State Psychiatric Centers with linkages to appropriate services in the community. In addition, individuals are connected to the full range of mental health, health and social services to ease their transition into the community and decrease the potential for hospitalization.

**2100 - Clinic Treatment** (Part 587/588) - Adult Clinic Treatment programs provide outpatient treatment designed to reduce symptoms and improve functioning. They provide assessment, treatment planning, health screening, referral, discharge planning, verbal therapy, medication treatment, symptom management, and psychiatric rehabilitation readiness determination. They can also provide crisis intervention, case management, and clinical-support services. Children and Family Clinic Treatment provides similar services to children and adolescents who are seriously emotionally disturbed and their families. These programs aim to assist families in keeping their children at home.

**2200 - Partial Hospitalization** - Partial Hospitalization programs provide treatment designed to stabilize and ameliorate acute symptoms and serve as alternatives to hospitalization. Services include assessment, treatment planning, health screening, referral, verbal therapy, medication treatment, medication education, symptom management, case management, crisis intervention, discharge planning, activity therapy, and clinical support services.

**2320 - Intensive Psychiatric Rehabilitation Treatment** - A time-limited program that provides active psychiatric rehabilitation designed to assist individuals in forming and achieving mutually agreed upon goals in living, working and socializing.

**2340 - Affirmative Business/Industry** - These programs provide vocational assessment, training, transitional or long-term paid employment and support services in a less restrictive, more integrated employment setting than the sheltered workshop.

**2760 - Peer Advocacy** - Services are provided by current or former recipients of mental health services. They have been trained in areas such as mediation and negotiation skills, recipients’ rights, the mental hygiene law, and access to entitlements and local resources.

**2770 - Self-Help** - Self-Help programs employ current or former recipients of mental health services in the belief that people who share a common experience can assist each other. These programs may be mutual self-help groups, networks or self-help organizations that offer educational, recreational, social or other programs.

**2990 – Coordinated Children’s Services Initiative** – The Coordinated Children’s Services Initiative has two major goals: providing coordinated community based services and supports to children and their families and preventing unnecessary residential placement. In addition, the initiative aims to strengthen local interagency collaboration and the organizational structures that promote community-based programs and services.

**3040 - Home-Based Crisis Intervention** - These programs assist families with children in crisis by providing an alternative to hospitalization. These programs provide short-term, intensive services to families at risk of having to place their child in a psychiatric hospital. The programs provide services to children between the ages of five and 17 who are experiencing severe psychiatric crisis.

**3130 - Crisis Intervention** - These programs provide services to individuals who are in a psychiatric unit of a hospital due to psychiatric crisis. The primary objective is to reduce the acute symptoms and restore recipients to pre-crisis levels. Services include triage, screening, assessment, treatment, stabilization, and referral to appropriate programs.

**3340 - Client/Worker Program** - Work programs provide vocational assessment, training and transitional or long term paid work in institutional or community job sites.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**4990 - Social Adult Day Care - (Seniors)** - These programs provide a structured, comprehensive program designed to provide socialization, supervision, personal care and nutrition assistance during any part of the day. Additional services include but are not limited to assistance for daily living skills, transportation, care giver assistance and case coordination.

**5070 - Supported Single Room Occupancy Housing** - These housing programs provide mental health services to residents on a voluntarily basis. Additional community services are available as needed.

**5990 - MICA Network** - MICA Networks assist clients who are both mentally ill and in alcohol and/or substance abuse recovery with housing, case management, treatment, peer support/self-help and chemical dependency services.

**6050 - Supported Housing** - These programs provide recipients with assistance in finding and maintaining housing designed for mentally ill individuals. Services include help with furniture, security deposits, and deposits on utilities, and assistance in resolving issues that may jeopardize the individual's housing stability.

**6810 - Supportive Case Management** - These programs are designed to link clients to the service system and coordinate various services to achieve a successful outcome. The objective is to assure continuity of care and service through linkage, monitoring and case-specific advocacy.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES  
OVERVIEW OF SERVICE CATEGORIES**

The Division of Mental Hygiene is responsible for planning, developing, funding and monitoring services for individuals with developmental disabilities and their families. Services are provided primarily by voluntary agencies in contract with DOHMH and include sheltered workshops, day training, transitional employment, work readiness, specialized day treatment, specialty clinics, socialization, recreation, respite, adult special education, information and referral and other programs.<sup>7</sup>

In New York City, the range and scope of voluntary service providers vary greatly. Some are comprehensive service agencies offering residential, day and support services; others are limited service agencies offering one or two categories of service. Some agencies serve individuals with a range of developmental disabilities while others serve individuals with a particular disability such as autism and epilepsy.

## **SERVICES FOR ADULTS**

### Community Residential Services

The majority of individuals with developmental disabilities live and work in the community where the residential service continuum spans a wide range of residential alternatives. Residential alternatives include Family Care (FC), Supported Apartments (SA), Community Residences (CR), Intermediate Care Facilities (ICF) and Individual Residential Alternatives (IRA). As of January 1, 2003, New York City's residential bed capacity was 7,785. Community residential services are funded and monitored by the New York State Office of Mental Retardation and Developmental Disabilities (OMRDD).

People with developmental disabilities also live at home with their families or in their own homes with supportive services that enable them to remain at home.

### Developmental Centers

Developmental Centers are residences for individuals who are significantly impaired and have no other alternative for residential living. They are funded and monitored by OMRDD. Two developmental centers operate in New York City, one in Brooklyn, the other in Queens.

### Day Services

The adult Day Services continuum offers a range of options: day treatment, day training, sheltered work, day habilitation, work readiness, supported employment and transitional employment. These programs offer an array of socialization and recreational activities, pre-vocational training, community integration, skill building and enhancement in the activities of daily living. There are both full-time and part-time day habilitation services conducted by voluntary agencies.

Work Readiness programs are individually designed to provide the skills necessary for enrollment in supported work programs. Supported employment continues to expand as a service category as more and more individuals with mental retardation/developmental disabilities become employed. Increasingly, adults with developmental disabilities who obtain jobs are expected to continue working, with supports, throughout their lives until retirement. Some individuals move into unsupported, competitive employment, which is also expanding as an option.

Seniors with developmental disabilities attend geriatric programs on either a full- or part-time basis, sometimes in combination with a sheltered workshop. Many seniors also attend community senior centers with the assistance and encouragement of senior companions who are members of the community.

Day services are funded and monitored by OMRDD and/or DOHMH.

Department of Health and Mental Hygiene**

Services for Families

Family Support services are provided by voluntary agencies to family members who need assistance in maintaining the developmentally disabled individual in the home. These services aim to foster family stability by improving the quality of life for consumers of all ages and their families. The services include outreach, transportation, family/consumer reimbursement, parent training, after school programs, services coordination, crisis intervention and counseling, recreation, summer day camp programs and day respite. Some of these programs address the specific needs of individuals who have autism, epilepsy or other neurological impairments.

To address the needs of a diverse multi-lingual and multi-cultural population, specific programs have been established for persons who speak languages such as Spanish, Creole, Chinese, Korean, Russian and Greek.

Family support programs are funded and monitored by OMRDD and/or DOHMH.

Clinic and Health Services

Medical and clinical services are provided in several ways to individuals with developmental disabilities. Medical care may be provided by private physicians or by hospitals. Medical and habilitative clinical interventions are available through specialty clinics, both free-standing and hospital based, in all the boroughs. These clinics are operated both by voluntary agencies and by the New York City Health and Hospitals Corporation and may be certified by OMRDD under Article 16 and/or by the New York State Department of Health under Article 28. Many of the clinics serve only children while some also serve adults; a few serve only adults.

**SERVICES FOR CHILDREN AND ADOLESCENTS**

The NYC Department of Education is the primary provider for children ages 3-21 who spend most of their days in the school system in a regular school setting or in a District 75 special setting (e.g. a hospital-based program). Most developmentally disabled high school graduates are referred for program placement and/or support services prior to graduation through the development of transition plans. Schools have incorporated increased training for independence and vocational skills at earlier educational stages to enable a smooth transition into adulthood.

There are publicly-funded recreation, after-school and summer camp programs for children with developmental disabilities in all the boroughs. These are crucial for providing children with the opportunity to play and socialize with their peers, and giving parents the confidence that their children are in settings where their needs are understood. Without these programs many parents would be unable to maintain employment.

Respite services allow parents and guardians to have free time by delegating the care giving role for a brief period of time to trained caregivers. They are very important in safeguarding the overall well being of a family and assuring that families remain together in times of crisis.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

**MENTAL RETARDATION/DEVELOPMENTAL DISABILITIES  
PROGRAM CODES AND DESCRIPTIONS**

The following program types were in contract with DOHMH in FY '03:<sup>8</sup>

**0070 - Summer Camp** - These programs provide overnight accommodations for more than 48 continuous hours. They provide for the physical needs of campers and provide organized activities for recreation and enhancement of the intellectual, social and sensorimotor development of participants.

**0100 - Clinic Treatment** - Clinic services are provided by, or under the supervision of, qualified professionals to participants, their families, and care providers. These programs provide diagnostic and evaluative services, specific therapeutic habilitative services (e.g., physical therapy, speech therapy), medication management and monitoring and similar services on an intermittent basis. Clinic programs are provided as supplements to and not substitutes for a participant's full day program.

**0120 - Specialty Clinic** - Intensive diagnostic and/or medically prescribed treatment services are provided during the day and/or evening, are time limited and of short duration. These programs are affiliated with hospitals or facilities that hold, in addition to OMRDD certification, licensure in accordance with Article 28 of the Public Health Law.

**0150 - Family Support Services** - Family Support programs typically include information and referral services, parent training, family counseling, recreation, home-based care, adaptive equipment, home modification and legal services for family members.

**0200 - Day Treatment** - These programs provide a combination of diagnostic, treatment and rehabilitative services to individuals in need of a broader range of services than those provided in clinical programs. Day Treatment programs vary widely in the services offered, the level of disability of participants, the staffing plan, the program goals and the types and numbers of cooperative agency relationships.

**0330 - Day Training (General)** - Day Training programs provide services to developmentally disabled persons whose level of disability is not so severe as to require Day Treatment services, but whose deficits limit their ability to function independently. The goal of these programs is to assist developmentally disabled persons to maintain or strengthen skills that will enable them to improve their personal, social and vocational opportunities. Programs may operate as complements to other day programs or be provided on an intermittent basis to accommodate gaps in other types of programs. The emphasis of these programs is on the maintenance of existing skills and the development of social, recreational, and leisure activities that are intellectually and interpersonally stimulating and augment health maintenance such as recreational, music movement and art activities.

**0330 - Day Training (Work Readiness)** - These programs provide assistance in the development of work-related skills to prepare individuals for participation in work activities.

**0340 - Certified Work Activity** - This program is certified by the U.S. Department of Labor and OMRDD to provide services and experiences to participants with the goal of increasing their economic independence. Work activity programs tend to emphasize pre-vocational skills with the goal of preparing the individual to function in a Sheltered Workshop program. Sheltered Workshops are for developmentally disabled persons who have the pre-vocational skills necessary to perform occupational tasks with an acceptable level of output. The goals of such programs are to train individuals in the occupational tasks to be accomplished, provide necessary and appropriate adjustment training and to provide training and experience that will assist the individual in improving his/her performance.

**0360 - Classroom Education, School** - Provides educational services to mentally retarded and developmentally disabled persons between the ages of 5 and 21. Examples of other services include classroom education for adults at local colleges, educational services to non-disabled children and, trainings for

<sup>8</sup> As defined in the New York State Consolidated Budget Reporting and Claiming Manual, Issued August 2002.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

professional educators to alleviate the stigma faced by developmentally disabled children and adolescents who are “mainstreamed” in the public schools.

**0370 - Preschool** - Provides services to developmentally disabled individuals under the age of five. These programs provide preventive and enrichment services to children at risk of developmental disabilities in order to prepare them for acceptance into a program in the public schools. The activities of such programs include, but are not limited to, the stimulation of infants and the teaching of pre-academic skills, social interaction skills and self care skills.

**0380 - Transitional Employment** - These programs provide short-term interventions designed to assist developmentally disabled individuals in obtaining employment at or above the minimum wage. They provide assistance in developing marketable skills, good work habits, and understanding appropriate on-the-job socializing for becoming competitively employed. This takes place in integrated community work settings and emphasizes support provided at the worksite.

**0390 - Supported Employment** - These programs are designed for individuals who require ongoing interventions and supports in order to obtain and maintain employment. The individuals must be engaged in meaningful work for wages on a part or full time basis. The employment must be in an integrated work setting that provides frequent daily social interactions with people who are not disabled.

**0610 - Recreation** - Recreation programs provide social, recreational, educational and enrichment activities within the context of After School programs, summer day camps, Weekend Respite programs and other programs.

**0630 - Homemaker Services** - Homemaker Services provide assistance and training in home management skills, household tasks and hygiene skills. A trained person who is not a member of the household provides these services in a client’s home. Homemaker training can also be provided to parents or significant others of the developmentally disabled person.

**0750 - Information and Referral** - Information and Referral programs provide assistance in linking individuals to evaluation services by making a preliminary determination of their appropriateness for particular services and/or programs. Such activities include information about the availability of services, answers to administrative questions and interpretations of specified clinical data. Information and referral programs collect appropriate information from the client to facilitate access to appropriate programs and services.

Department of Health and Mental Hygiene

CHEMICAL DEPENDENCE SERVICES  
OVERVIEW OF SERVICE CATEGORIES

The Division of Mental Hygiene is responsible for planning, developing, funding and monitoring alcohol and substance abuse treatment and prevention services for children, adolescents and adults. In addition, the Division provides information about alcohol and substance abuse treatment and prevention services and encourages public awareness about the negative consequences of alcohol and drug use. In New York City, chemical dependence services funded by the DOHMH are provided primarily by private and municipal hospitals and community-based, not-for-profit organizations.<sup>9</sup>

Prior to 1989, NY State operated two separate agencies, one for alcoholism services and one for substance abuse services. In 1990, the State consolidated these agencies and formed the NYS Office of Alcoholism and Substance Abuse Services (OASAS). In 1992, OASAS began developing new regulations that would integrate alcoholism and substance abuse services into a new category of services called chemical dependence services.

In Fiscal Year 2003, OASAS finalized the process of converting the system from one in which alcoholism services and substance abuse services were separately licensed to one in which a unified "Chemical Dependence" license is issued. The following service categories reflect the current system, post-conversion. The "Program Codes and Descriptions" section reflects the names of the program types used in FY 2003, the year the system underwent conversion.

#### Crisis Services

Crisis services provide a range of treatment options, or levels of care, to people who are intoxicated or incapacitated by their use of alcohol and/or substances.

The primary purpose of crisis services is the management and treatment of alcohol and/or substance withdrawal, as well as acute disorders associated with alcohol and/or substance use, resulting in a referral to continued care.

Crisis services provide one or more of the following:

*Medically Managed Detoxification Services* - This service addresses the needs of individuals who are acutely ill from alcohol-related and/or substance-related addictions or dependence. Services include medical management to persons with severe withdrawal or risk of severe withdrawal and may include services to individuals with, or at risk of, an acute physical or psychiatric condition. This level of crisis service is the only one capable of accommodating individuals who are incapacitated and require an involuntary, emergency admission.

*Medically Supervised Withdrawal Services* - This service provides treatment of moderate withdrawal and non-acute physical or psychiatric complications associated with chemical dependence.

*Inpatient/Residential Medically Supervised Withdrawal Services* – Services include medical supervision and direction under the care of a physician in the treatment of moderate withdrawal and non-acute physical or psychiatric complications associated with chemical dependence.

*Outpatient Medically Supervised Withdrawal* - Services are provided to individuals who have moderate alcohol or substance withdrawal, do not meet the admission criteria for medically managed detoxification services and who have emotional support and a home environment that can provide an atmosphere conducive to recovery. In addition, physician services are provided everyday for monitoring the withdrawal process.

*Medically Monitored Withdrawal* - This service is provided to individuals who are experiencing mild withdrawal complications, or who are in danger of relapse. These services do not require direct supervision by a physician and provide a safe environment to complete withdrawal and secure referral to the next level of care.

Department of Health and Mental Hygiene**

Outpatient Services

Chemical Dependence Outpatient Services assist individuals who suffer from chemical abuse or dependence, their family members and/or significant others. Outpatient services are provided at differing levels of intensity depending on the needs of the individual. Services may be provided in a free-standing clinic or may be co-located in a variety of other health and social service settings.

All Chemical Dependence Outpatient Services provide group and individual counseling, including self-help groups, and alcohol and substance abuse disease awareness and relapse prevention groups. Services also include education about HIV and other communicable diseases, risk assessment, supportive counseling and family treatment. Social and health care services, skill development in accessing community services, activity therapies, information and education about nutritional requirements, and vocational and educational evaluation are also available. Treatment is provided according to an individualized assessment and treatment plan.

Outpatient services consist of the following program types:

*Medically Supervised Outpatient Services* - In addition to providing the services noted above, Medically Supervised Outpatient Services are provided by a multi-disciplinary team and a Medical Director who conducts medical oversight.

*Outpatient Rehabilitation Services* - These services are designed for individuals who have chronic chemical dependence needs including inadequate support systems, substantial deficits in functional skills or health care needs. These programs provide social services, skill development in accessing community services, vocational and educational evaluation, nutritional information and activity therapies. A multi-disciplinary team, including a Medical Director, provides the services, and the staff-to-client ratio is richer than that of other outpatient services.

*Non-Medically Supervised Outpatient Services* - These services do not require medical staff or a Medical Director to be part of the multi-disciplinary team. The level of intensity of services in this category is determined by client need.

Inpatient Rehabilitation Services

Inpatient programs provide intensive evaluation, treatment and rehabilitation services that consist of medically-supervised, 24/7 care for persons suffering from chemical dependence. Services include intensive management of chemical dependence symptoms in addition to medical management and/or monitoring of physical or mental complications from chemical dependence.

Residential Services

Residential services help people who are unable to maintain abstinence or participate in treatment without the structure of a 24-hour residential setting. These services assist such individuals to develop or maintain recovery through a structured alcohol- and drug-free setting, encouragement of peer group support and assistance in the skills of independent living.

*Intensive Residential Services* - Intensive medically/psychiatrically enhanced residential services pair an intensive residential service with a New York State Department of Health licensed Article 28 Diagnostic and Treatment Center. This allows for the delivery of services to individuals who have additional physical or mental health problems. Services are provided at least 40 hours per week in a 24-hour setting. Intensive residential rehabilitation provides an intensity and breadth of services appropriate to individuals who need assistance with personal, social and vocational skills.

*Community Residential Service* - Community residential services provide a transitional environment for individuals who have completed a course of treatment, but who are not yet ready for independent living due to unresolved clinical issues, or unmet needs for personal, social or vocational skills development. Services include a structured therapeutic milieu for residents who are concurrently enrolled in an outpatient program.

*Supportive Living Services* - Supportive living provides a long-term supportive environment following care in another type of residential service. Supportive living environments provide housing resources as well as a drug- and alcohol-free environment that assists ongoing recovery.

**FY 2003 District Resource Statement  
Department of Health and Mental Hygiene**

Methadone Services

Methadone treatment provides services to people dependent on opiates, such as heroin and morphine. These programs offer methadone as part of a range of medical procedures and services. Included in these services are supportive counseling, medical care and other individualized services.

*Maintenance Outpatient* – The vast majority of people receiving methadone services are on an ambulatory maintenance protocol. These programs are generally affiliated with a hospital or are free-standing entities.

*Residential Programs* – These programs provide methadone treatment in a residential setting on a short-term (1-3 months) or long-term (6 months) basis.

*Methadone-To-Abstinence* – This service provides a medical treatment protocol that utilizes methadone in gradually decreasing doses to the point of abstinence, followed by aftercare treatment.

Prevention/Intervention

Alcohol, tobacco and substance abuse prevention services are based upon a research-based framework that supports strategies that target people in appropriate settings and according to the intensity of their needs. Prevention strategies and activities are geared toward decreasing the risks that individuals and communities face and assisting individuals and communities in maintaining or increasing the factors that protect against substance abuse.

Intervention programs are designed to identify, assess and refer those individuals who may be experiencing problems with alcohol and other drugs. These services may include case finding, assessment, level of care determination, intervention, placement and referral and follow-up.

FY 2003 District Resource Statement  
Department of Health and Mental Hygiene

CHEMICAL DEPENDENCE  
PROGRAM CODES AND DESCRIPTIONS

The following program types were in contract with DOHMH in FY '03: <sup>10</sup>

**0110 - Outpatient Clinic Treatment** - These programs provide diagnosis and treatment to individuals with alcohol or drug problems through goal-oriented treatment planning, individual and group counseling and case management services from a multi-disciplinary team of professionals. Planned intervention strategies may be provided for concerned family members and significant others.

**0460 - Vocational Rehabilitation Services** - Vocational Rehabilitation programs prepare people for employment by helping them choose a vocational goal and function consistent with their skills, achievements, interests and abilities. These programs provide vocational testing, assessment, counseling, pre-vocational activities, training, educational services, life skill/employability referrals, job referrals and placement, and post-placement counseling and follow-up.

**0710 - Community Education Intervention/Information and Referral** - These programs disseminate information about the prevention and treatment of alcohol and substance abuse to groups, organizations and individuals, some of whom may suffer from an alcohol and/or drug abuse disorder. Referrals to providers and short-term counseling incidental to the provision of information are provided.

**0720 - Youth Education Intervention/Information and Referral** - These programs disseminate information about the prevention and treatment of alcohol and substance abuse to adolescents, some of whom may suffer from an alcohol and/or drug abuse disorder. Linkage to appropriate treatment is also provided by these programs. Additional activities are also offered to people at high risk, such as the children of alcoholics and substance abusers. These programs are based in schools and community-based youth organizations.

**0940 - Outpatient Innovative Treatment** - Drug-free substance abuse services are rendered on an outpatient basis to substance abusers and substance-

dependent persons, who are able to function in the community. A multi-disciplinary team of substance abuse professionals provides assessment and treatment through goal-oriented treatment planning, individual and group counseling and case management services.

**0970 - Innovative Prevention Intervention Programs** - Prevention programs focus on personal and social skills development and alternative choice-making for people, especially young people, to deter them from using drugs or tobacco. These programs provide training to community leaders, parents, teachers, peer groups and others to assist in the prevention of drug use. They are implemented through a variety of activities, including classroom presentations, skill development workshops, and displays at community events. Individual, group and family counseling are also offered. Intervention strategies must be accurate, age-appropriate and culturally competent.

**2020 - Primary Care Alcoholism Program (Alcohol Crisis Center)** - These programs provide inpatient care in a medically supervised environment until clients are alcohol free and can be safely referred to an appropriate treatment program. Clients may require withdrawal from alcohol but do not require other medical services at the time of admission. Supportive services are provided while the client is linked to ongoing treatment and rehabilitation services.

**2060 - Halfway House** - Halfway Houses provide on-going supportive residential treatment typically serving people in need of additional structured living after discharge from an inpatient alcoholism rehabilitation program. Concurrent treatment in an outpatient alcoholism clinic or outpatient rehabilitation program is required for residency in a Halfway House. The level of treatment intensity is based on client needs and stage of recovery. The client's length of stay usually ranges from three to nine months.
