NYC is one big gallery with art everywhere—from museums to parks to sidewalks—and now artist-musician David Byrne's bike racks continue that tradition. Installed by the Department of Transportation and PaceWildenstein gallery, these functional works of art are essential stops on your tour of NYC—whether you're on two wheels, four wheels or on foot.

Use this guide to find them all, and for tips about what to do in each neighborhood. For example, shop for the perfect pair with the Ladies' Mile on Fifth Avenue, chill with the Hipster in Williamsburg or reminisce about the City's colorful past with The Olde Times Square.

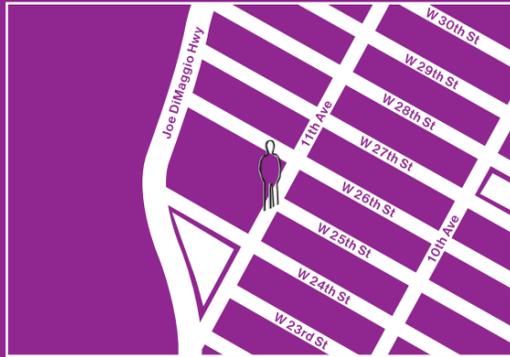

Cycling is fast, healthy and green. It's one of the best ways to get around the five boroughs, which is why NYC already has 5,000 bike racks—and these fun, useful works of art highlight just how bike-friendly the City is.
