

Chinatown Curbside Management

Community Advisory Committee Meeting #1
May 26, 2011

 <p>Michael R. Bloomberg Mayor</p>	 <p>Janette Sadik-Khan Commissioner</p>
---	--

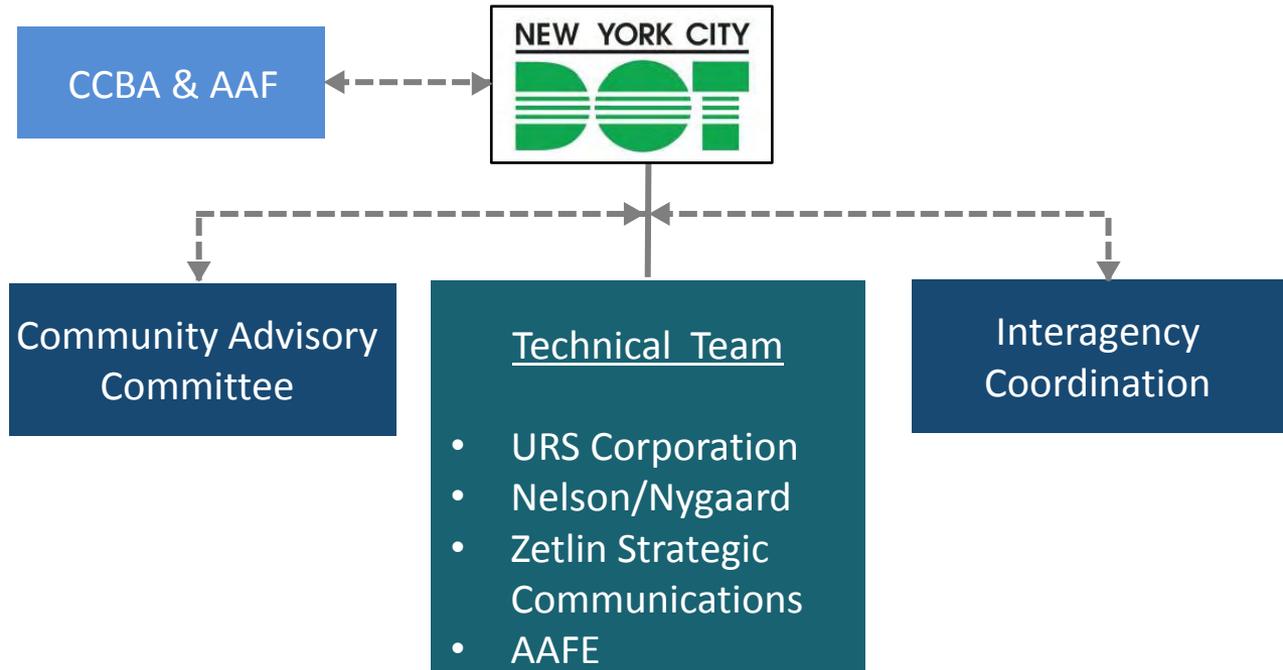

Agenda

- Study Goals
- Project Structure
- Role of the CAC
- Community Driven Process
- Issue Identification
- Potential Short-Term Improvement Tools
- Next Steps
- Small Group Discussions

Study Goals

- Increase curb space availability to all users
- Reduce congestion associated with finding a parking space
- Improve pedestrian mobility and safety
- Develop innovative short term improvements that can be measured

Project Structure

Community Liaison

- The Community Liaison (AAFE) will:
 - Facilitate relationships among the DOT, technical consultants, community advisors and the media
 - Provide culturally and linguistically sensitive support to technical aspects of the study (e.g. interviews, surveys)
 - Provide translation of materials and information, including the fully bilingual CCMS Portal

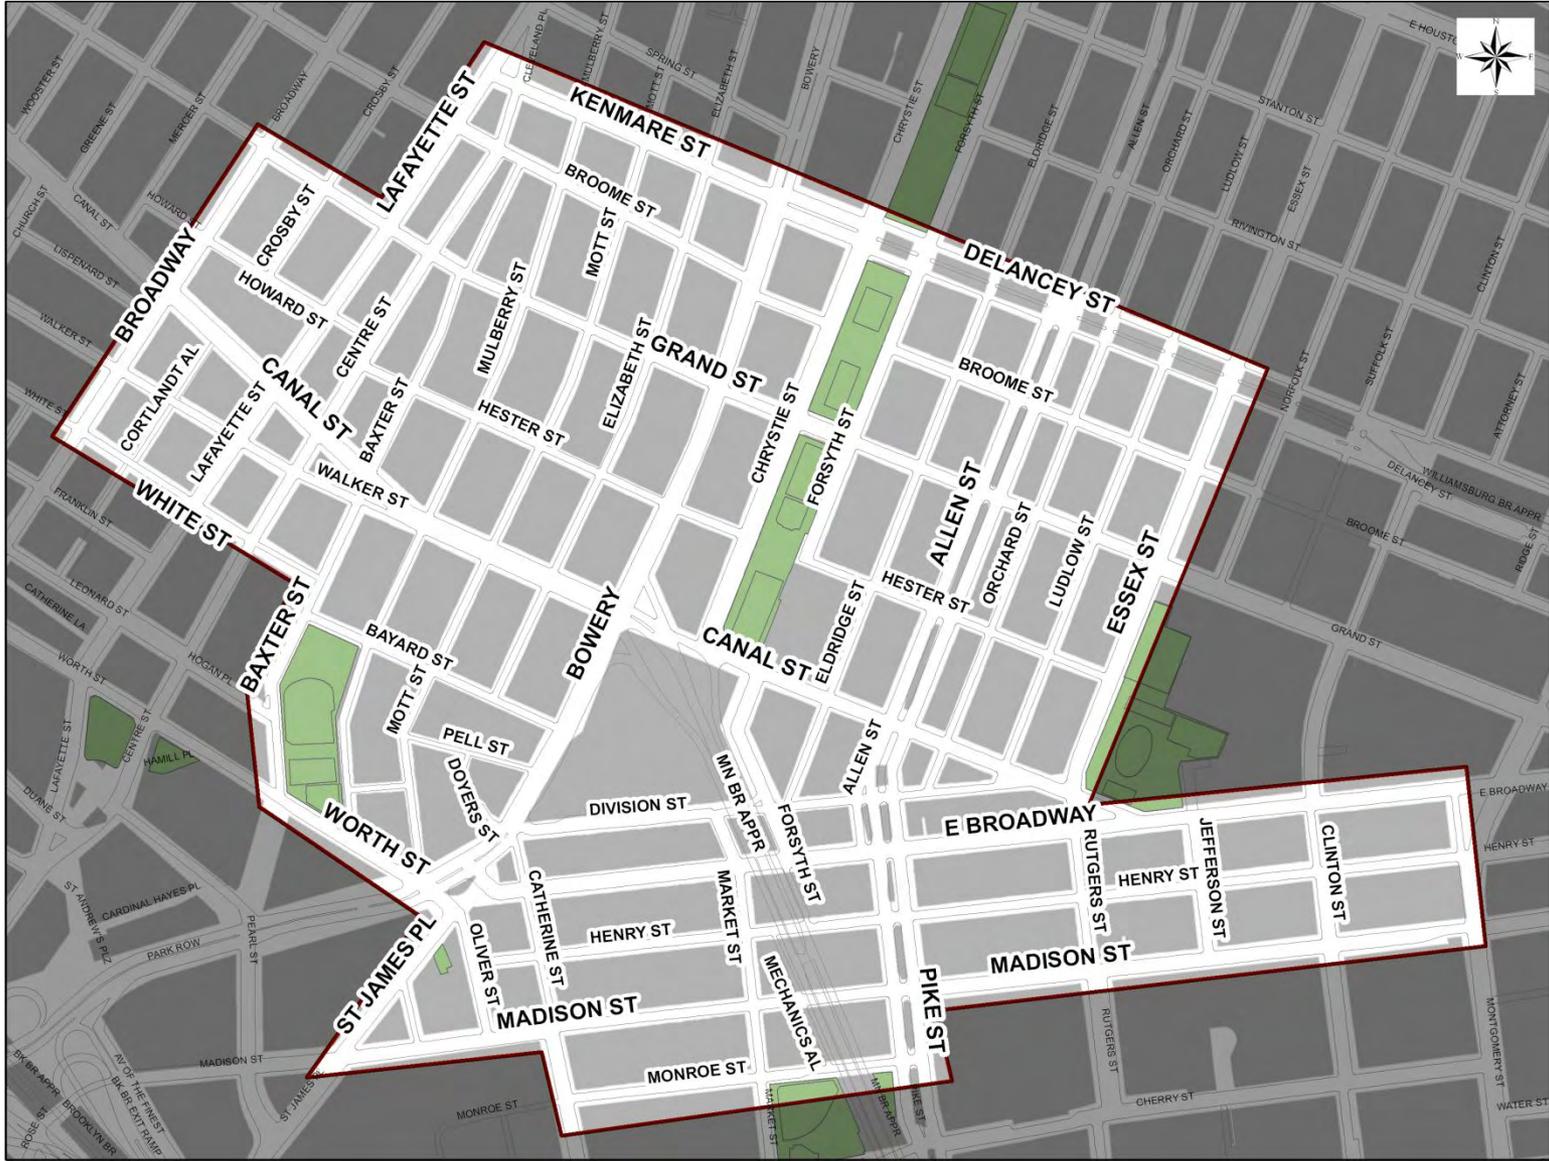

Community Advisory Committee (CAC)

- Represent constituents concerns regarding curb space issues within the study area
- Convey to their respective constituents study details and study status
- Work with NYCDOT to review and comment on proposed short term improvements (treatments)

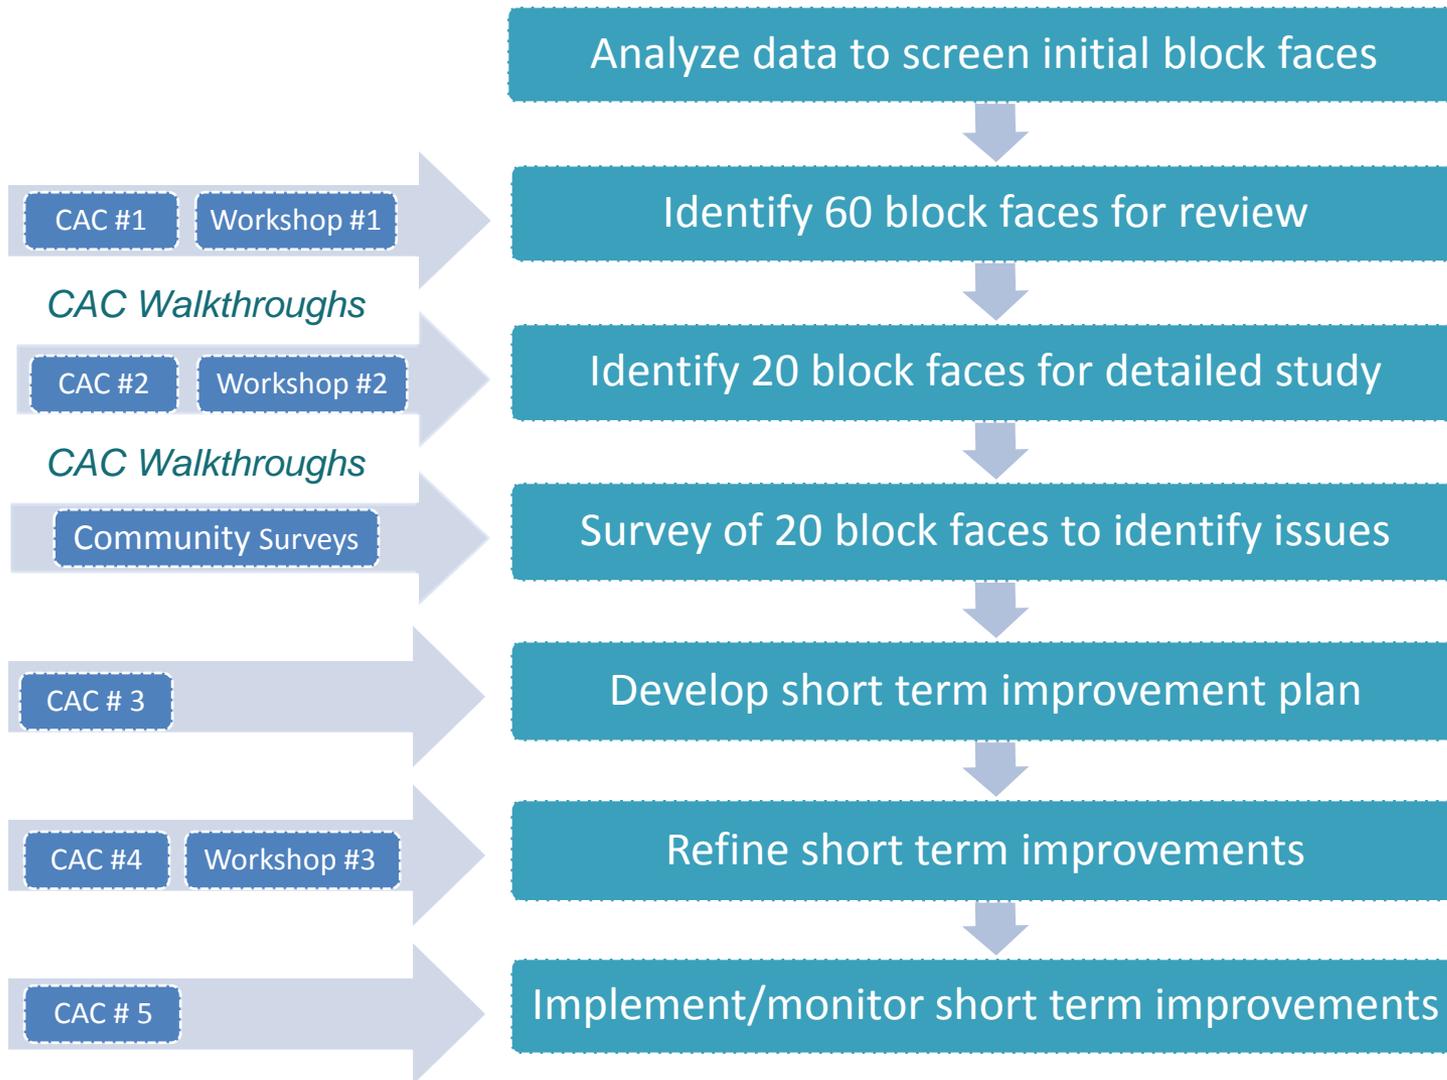

Study Goals

- Increase curb space availability to all users
- Reduce congestion associated with finding a parking space
- Improve pedestrian mobility and safety
- Develop innovative short term improvements that can be measured

Study Area

Community Driven Process

Issue Identification

Insufficient loading space

Lack of available parking
