

5TH AVENUE PROTECTED BICYCLE LANE

Manhattan Community Boards 2 & 5

March 2017

Project Background

1

- **Bicycle lane installed on 5 Ave** (Broadway to Washington Sq N) in 1978
- **Southbound protected bicycle lane installed on Broadway** (Columbus Circle to Union Square) 2008-2010
- **Bike share** launched in 2013
- **8 St Pedestrian Safety Improvements** installed in 2015
- **Northbound protected bicycle lanes** recently installed on
 - **Lafayette St/4 Ave** (Prince St to Union Square)
 - **6 Ave** (W 8 St to W 33 St)

Community and Elected Officials have requested 5 Ave complete street redesign

- Manhattan Community Board 2
- 2015 letter from
 - SS Hoylman,
 - AM Glick
 - AM Gottfried
 - BP Brewer,
 - CM Garodnick
 - CM Johnson

Vision Zero Priority Area

Vision Zero Priority Intersection (14 St)

1 fatality, 24 severe injuries in project area
(2010-2014)

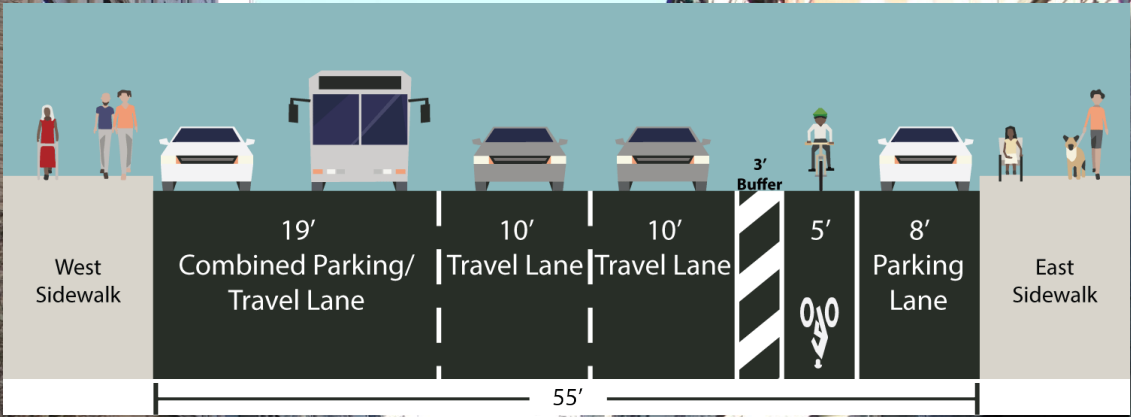

Proposed Enhancements

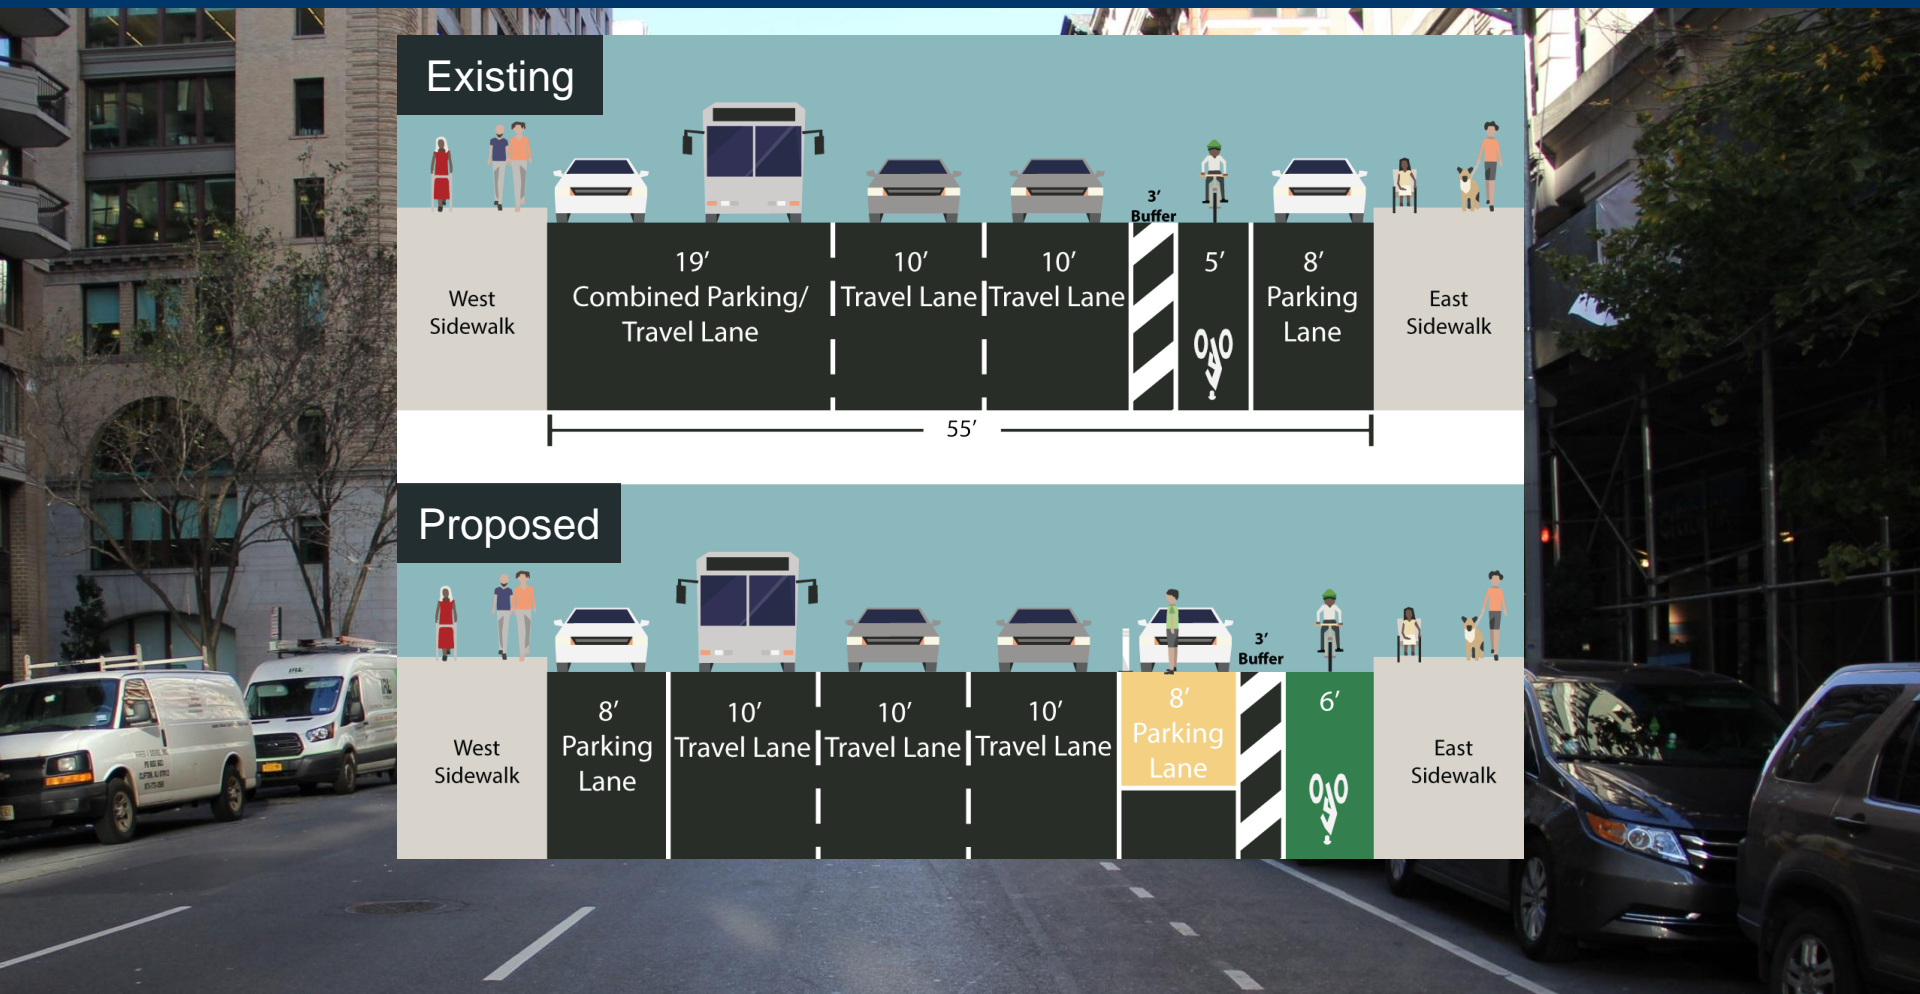

2

5 Ave (23 St to 14 St) – Existing Conditions

5 Ave (15 St to 16 St)

5 Ave (23 St to 14 St) – Proposal

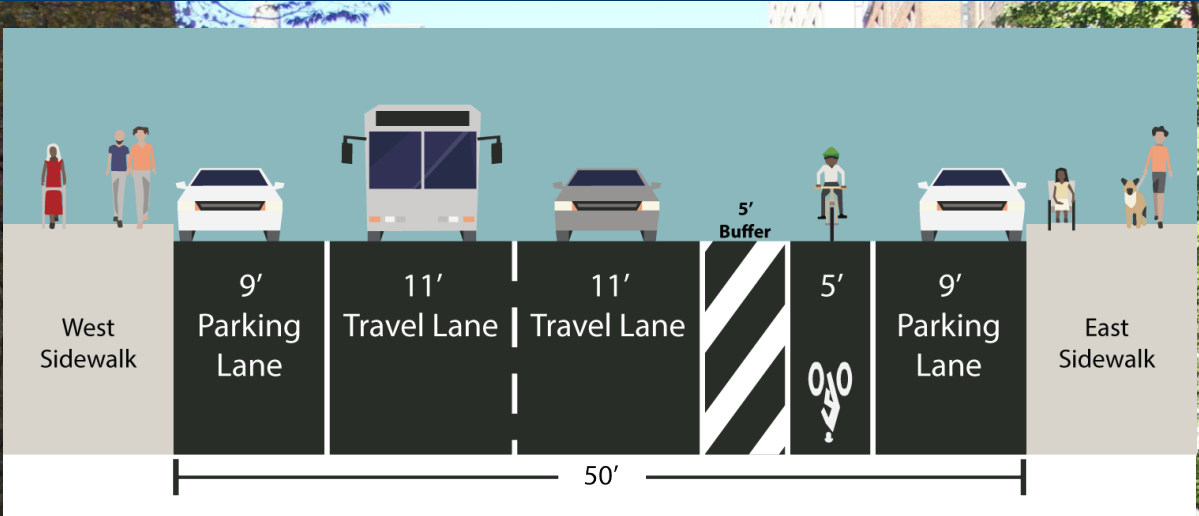

- Install a parking-protected bike lane with painted pedestrian islands
- Install mixing-zones at 22 St, 20 St, 18 St, and 16 St
- Install a split-phase signal operation at 14 St
- Parking loss: 20 spaces

2 Ave (E 19 St to E 20 St)

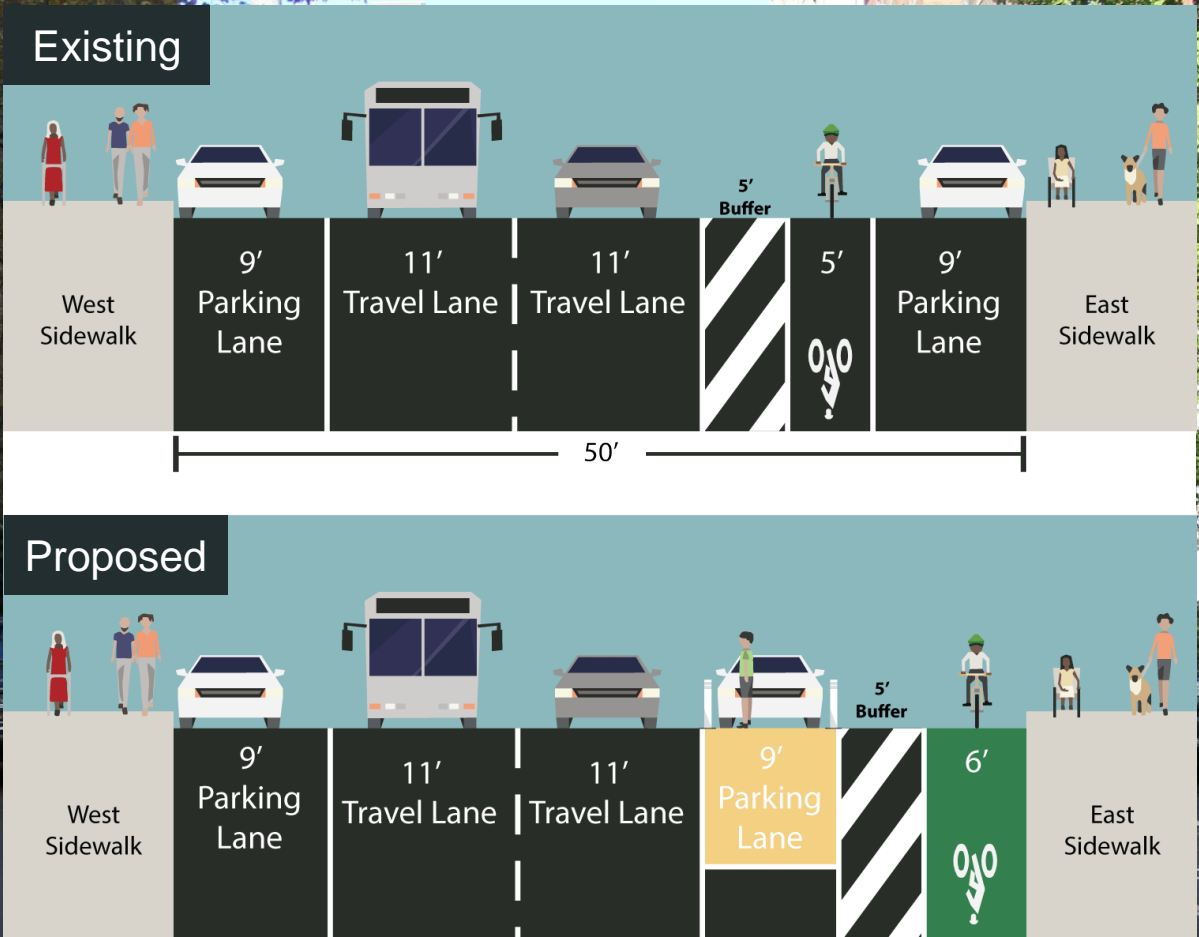

Mountain
Sim
mountain

5 Ave (14 St to 9 St) – Existing Conditions

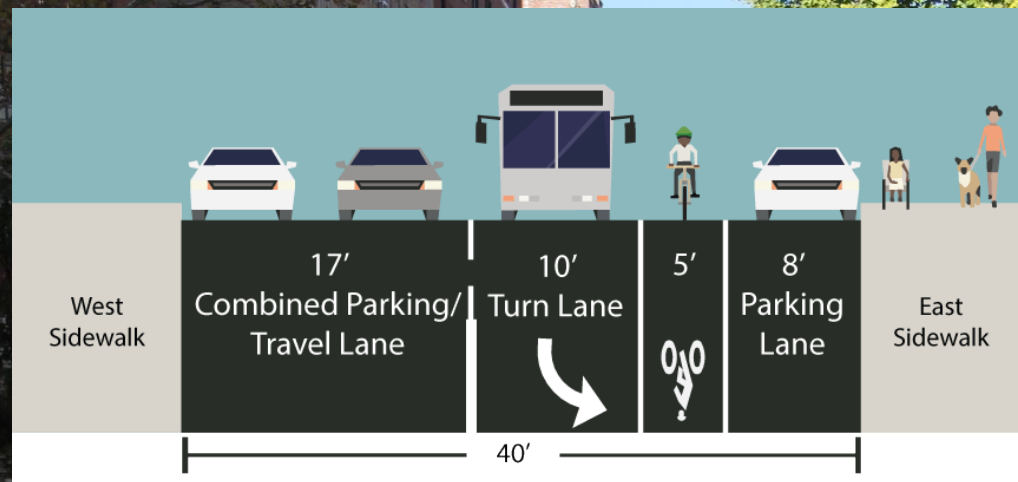

5 Ave (10 St to 11 St)

5 Ave (14 St to 9 St) – Proposal

- Install a parking-protected bike lane with painted pedestrian islands
- Install mixing-zones at 12 St, and 10 St
- Parking loss: 10 spaces

5 Ave (9 St to 8 St) – Existing Conditions

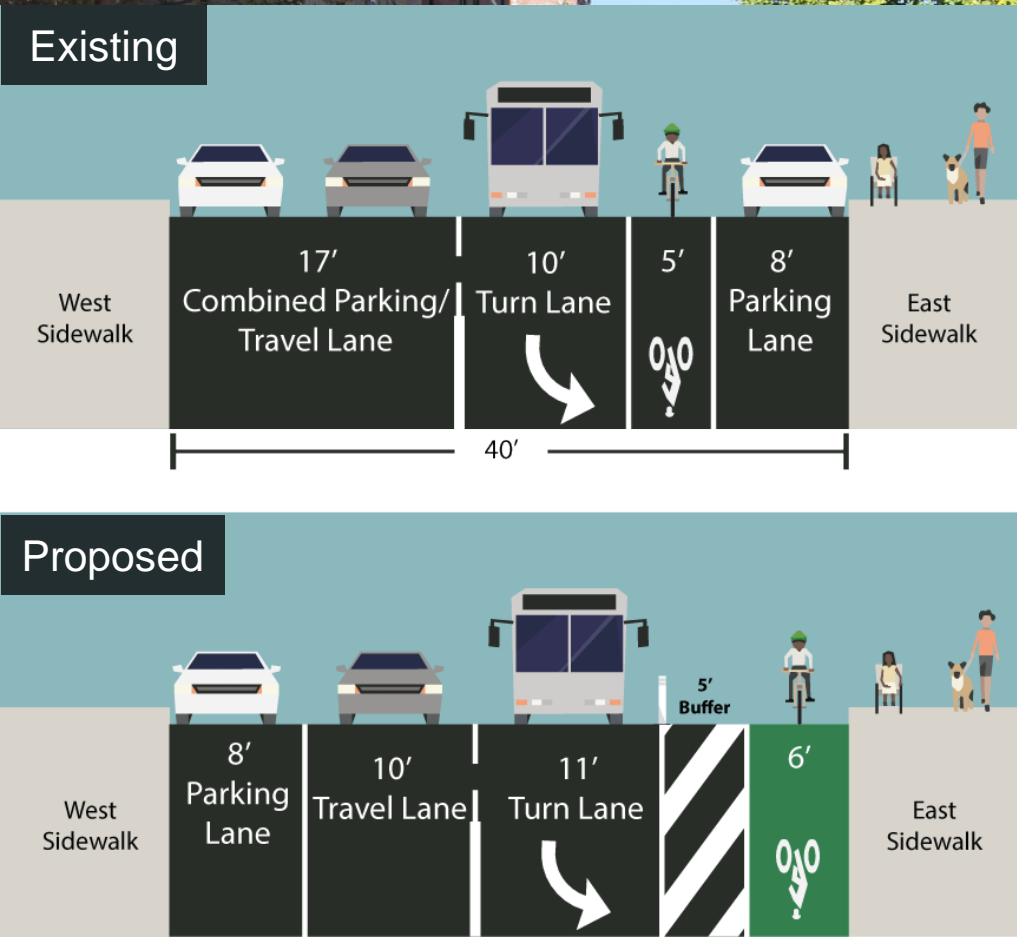

5 Ave at 8 St

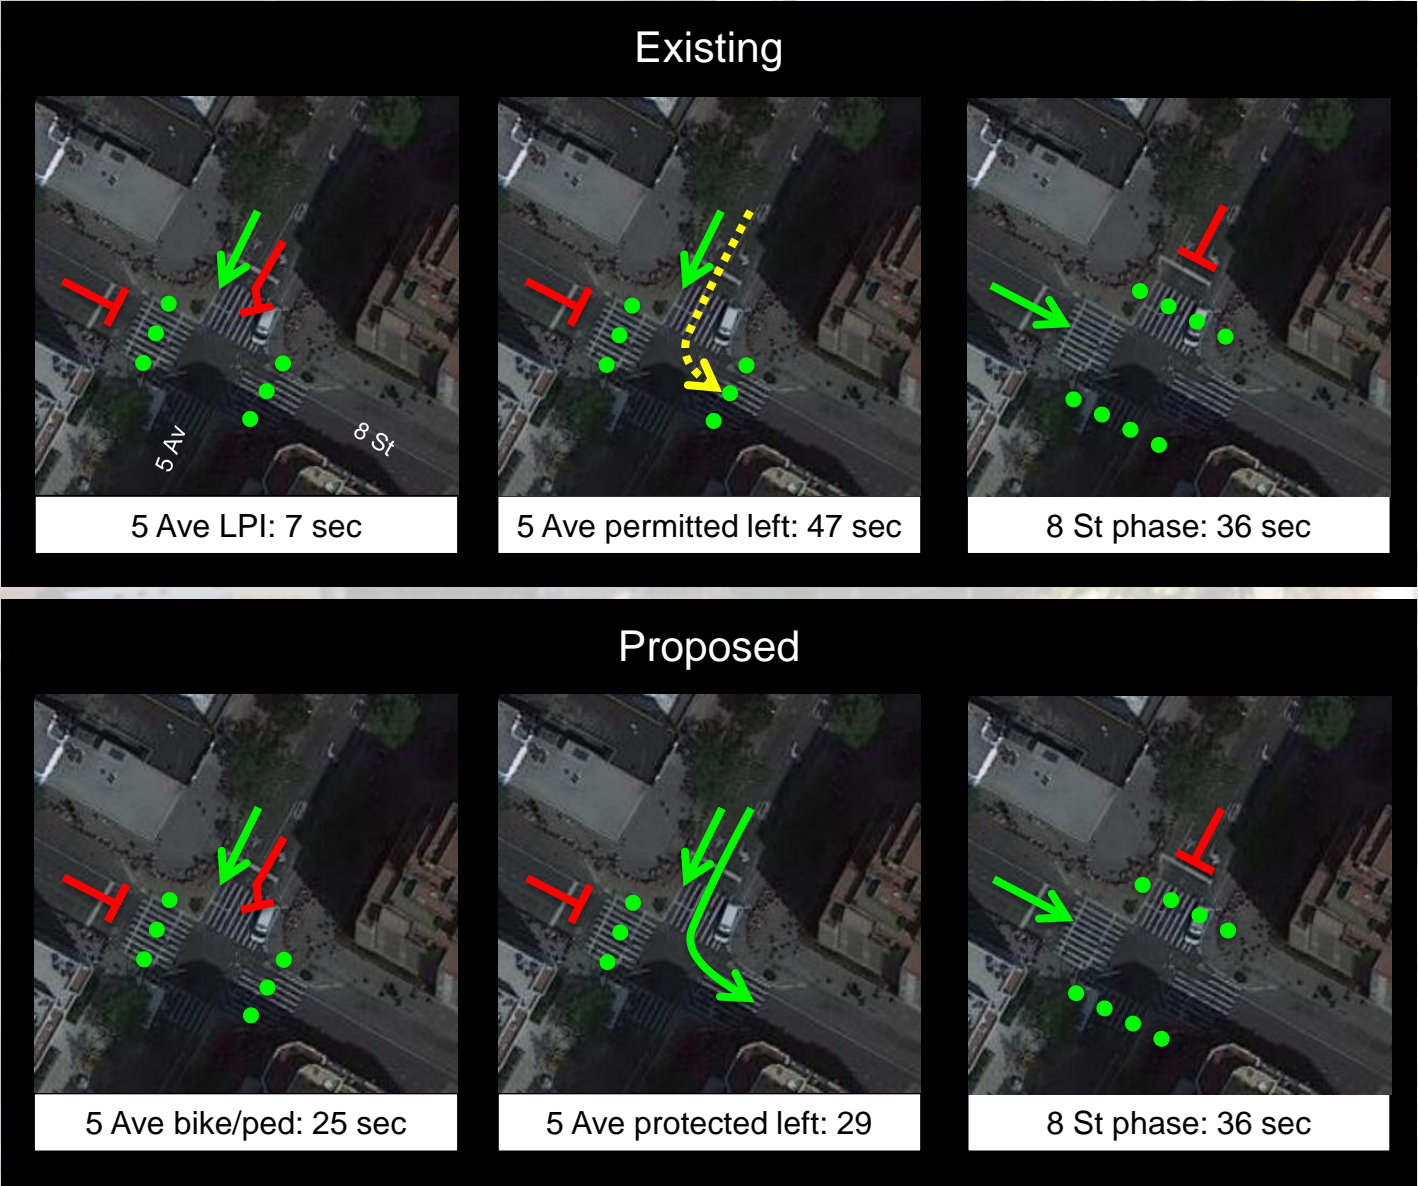

- Heavy southbound left turn volume from 5 Ave to 8 St includes M1/M2/M3/M5 bus lines and tour buses; crosses the bicycle lane and eastern crosswalk

5 Ave (9 St to 8 St) – Proposal

- Remove 8 parking spaces and install a curbside green bike lane along the east curb
- Protect pedestrians and bicyclists from southbound left turning vehicles with a split-phase signal operation

5 Ave at 8 St – Proposed Signal Phasing

Summary

3

Project Summary

- Upgrade the existing buffered bicycle lane on 5 Ave (23 St to 8 St) to a parking-protected bicycle lane with painted pedestrian islands
- Install mixing zones at 22 St, 20 St, 18 St, 16 St, 12 St, and 10 St
- Install split-phase signal operation at 14 St, and at 8 St
- Maintain all travel lanes
- Remove 38 parking spaces (20 spaces in Community Board 5, 18 spaces in Community Board 2)

Project Benefits

- Reduces pedestrian crossing distance
- Split-phase signal operation at intersections with heavy left turns reduces conflicts between pedestrians/bicyclists and turning vehicles
- Parking-protected bicycle lane reduces bicyclists exposure to vehicular traffic
 - Works as an extension of the southbound Broadway parking-protected bicycle lane
 - Pairs with northbound 6 Ave parking-protected bicycle lane
- No reduction in vehicular capacity

THANK YOU!
