Pavement Markings Plan

1. For pavement striping and markings typical details, see NYC DOT Bureau of Traffic Standard Drawings.
2. For payment purposes, each "lane" word message shall be considered as equivalent to 105 linear feet of 4" wide thermoplastic reflectORIZED pavement marking (item no. 6.44).
3. For payment purposes, each "lane" word message shall be considered as equivalent to 50 linear feet of 4" wide thermoplastic reflectORIZED pavement marking (item no. 6.44).
4. For payment purposes, each "turn lane-use arrow" symbol message shall be considered as equivalent to 50 linear feet of 4" wide thermoplastic reflectORIZED pavement marking (item no. 6.44).
5. For payment purposes, each "through lane-use arrow" symbol message shall be considered as equivalent to 45 linear feet of 4" wide thermoplastic reflectORIZED pavement marking (item no. 6.44).
6. All quantities listed in the above traffic and street name tables are approximate and may be modified by the Bureau of Traffic. The Engineer will verify with the Bureau of Traffic all quantities prior to start of work.
