

CityRack School Bike Parking Application

CityRacks are free sidewalk bicycle parking racks that DOT installs at Schools through out NYC.

- CityRacks provide convenient, short-term bike parking for the entire cycling community while encouraging cycling for commuting, short trips, and errands.
- CityRacks accommodates all types of bicycles and locks and discourage cyclists from parking on other sidewalk structures.

Please Note: In order to proceed with bicycle rack installation, written approval (via email), is required from the School's Principal.

See CityRack location requirements for siting criteria at nyc.gov/cityracks

Request a Bicycle Rack
