

NYCDOT CityRacks Map Data

Last Updated July 1, 2009

Definition of the Data

This map contains the known locations of New York City Department of Transportation installed CityRacks throughout the five boroughs of New York from 1996 through present. This dataset will be updated on a periodic basis as new racks are installed.

This data currently contains locations of 5968 racks of the 6100 racks installed by NYCDOT. If you wish to report a rack that is on-street but missing from this file, a rack that is listed at the wrong address or a rack that is listed on the map but missing on the street, [click here to complete and submit an error form](#). We will make every effort to include these changes in our periodic updates to the map.

Data Format

This data is in .kml format, easily displayed in Google Earth and similar applications.

Data Included in the File

RackID - ID number of the rack

HouseNum – Closest street address to where the rack is installed

Street – Street name where the rack is installed

Small – Number of single inverted U-shaped racks at that address

Large – Number of double inverted U-shaped racks installed at that address

Installed – Date the rack was installed

Limitations

The information shown on this map was prepared in cooperation between the New York City Department of City Planning and the New York City Department of Transportation. The information is intended to provide users with approximate locations of outdoor bicycle racks (CityRacks) in New York City based on the nearest street address to the installed rack. The New York City Department of Transportation makes no claim as to the completeness, accuracy or content of any data contained in this application; nor makes any representation of any kind, including, but not limited to, warranty of the accuracy or fitness for a particular use; nor are any such warranties to be implied or inferred with respect to the information or data furnished herein. The data is subject to change as modifications and updates are completed.

If you have questions or concerns about the data please contact:
