**Notes:**

- Count is on a single mid-summer weekday from 1980, and 1985-2006, on three separate weekdays in May, July, and September 2007, and from April to October after 2007.
- There is no data available for the Williamsburg Bridge in 1991.
- The Manhattan Bridge path opened to cycling in 2001.
- From 1980 to 2013, a multiplier of between 1.25 and 1.59 was applied to 12 hour 7am-7pm bicycle counts. This multiplier was developed from the three years of automated count data collected since January 2014 and provides an estimated 24 hour count.
- From January 2014 onward, data was primarily automated and is an average of each month excluding holidays and days with precipitation.
