

Waverly Pl and Christopher St

Pedestrian Safety & Access Improvement

Background

- No marked crosswalks at location with high pedestrian traffic
- NYPD request for additional controls at the intersection of Waverly Pl and Christopher St in 2015
- High concentration of older adults (10,001-15,000 per sq. mile) Copied from SIP

Location

- Next to Christopher Park
- Near the Stonewall National Monument
- Near Christopher St Station for 1 train

Improvements

- 2 enhanced crossings: Grove St at the west end of Waverly Pl T-intersection, and Christopher St between W 4th St and Waverly Pl

Benefits

- Increases pedestrian visibility to oncoming vehicles and bikes
- Formalizes pedestrian crossings
- Improves Access to Christopher Park
