

Moving Forward: Mobility Management At NYC DOT

Jamie Osborne

Mobility Management Coordinator, Metropolitan Planning & Grants
New York City Department of Transportation

Completing Grant Responsibilities

NYC DOT's Mobility Management Program has focused on the following key responsibilities:

- Coordinate external service providers and stakeholders
- Coordinate internal NYC DOT activities related to people with disabilities, older adults, and low-income population groups.
- Engage with communities, discover public needs, and perform communication outreach
- Develop pilot projects, resources, and tools
- Identify strategies to improve transportation services

Mobility Management Program Accomplishments

Since being established in 2012, the Mobility Management Program is proud of the following accomplishments:

- Mobility Management Conferences | 2013 - 2016
- Mobility Management Teleconferences | 2012 - 2016
- Access to Independence Transportation Exhibitions | 2014 - 2015
- Mobility Management Resource Guide | 2015
- Travel Training Workshops | 2013 – 2015
- ADA Training | 2014 – 2016
- Conference Summary Report | 2016

Next Steps

Moving forward, NYC DOT proposes the following direction for the program:

- Internal
 - Data collection / Analysis / Dissemination
 - Agency wide technical support
 - Expanded Training / capacity building
 - Universal design
 - Equitable transportation
- External
 - Enhanced community engagement / Public outreach
 - Regional coordination / Networking / Special topic seminars

Regional Opportunities

Ideas proposed at the MM Conference:

- Mobility Management Working Group
- Improved communications between agencies/organizations
- Expert consultation
- Training opportunities
- Sharing resources/data between agencies/organizations
- One-stop-shop for information

Thank you!
