West Mt Eden Avenue
Pedestrian Access
4 train exit is only on the north side of Mt Eden Ave
Background

• Multiple community complaints about the lack of safe pedestrian access on the north side of W Mt Eden Ave

• Jerome Avenue Transportation Study
  • Summer 2012, CB4 attended field visit and asked for W Mt Eden Ave conversion to one-way to address congestion at Jerome Ave intersection
Existing Conditions

No sidewalk on north curb between Inwood Ave & Macombs Rd

Existing sidewalk Ends

No Sidewalk
Existing Conditions

- Low traffic volumes
- Narrow (32’) two-way street
- Difficult right turn from Inwood Ave
- Poor visibility of eastbound vehicles from Inwood Ave

NORTH
Proposal

- Construct ADA compliant concrete sidewalk on the north side of Mt Eden between Inwood Ave and Macombs Rd
- Convert W Mt Eden to one lane westbound
- Remove left-turn bay & increase painted median
Build an ADA compliant concrete sidewalk on the north side of W Mt Eden between Inwood Ave and Macombs Rd.
Expected Benefits

• Provide safe pedestrian access
• ADA compliant sidewalk
• Reduce traffic congestion
Thank You
