PARK AVE, NAVY ST AND FLUSHING AVE

Brooklyn Community Board 2

April 19, 2018
Project Background
Community Request to close slip lane at Navy St

Flushing Ave is a Vision Zero Corridor
Project Proposal
Low volume slip lane from Navy St to Park Ave
1. Close slip lane in paint

2. Update markings and crosswalk to new standards (Hi-Vis crosswalks, green curbside bike lanes, updated lane designations)
Decision to enter BQE must be made prior to intersection

Unclear lane designation leads to last minute merging in the intersection for drivers wanting to stay on Park Ave/Williamsburg Pl
1. Remove decision point from intersection by allowing both lanes through to Park Ave

2. Paint curb extension in temporary materials (paint or gravel) shortening south crosswalk
THANK YOU!
