DYCD Tournament at Polytechnic Institute..

Although on a smaller scale, the special FLL Climate Connections tournament for DYCD teams (the result of a partnership between NYC's Department of Youth & Community Development and FIRST LEGO League, and the generous support of The Wallace Foundation), was just as exciting as the FIRST tournaments at the Javits Center last March. DYCD robotics teams showed off amazing robots, skillful performances, and thought provoking research projects. See the slideshow in the sidebar.

Way to go teams!!!
