REPOSTING #144800

CIVIL SERVICE TITLE
Certified IT Administrator (WAN) – Level I

TITLE CODE NO.
13642

OFFICE TITLE
Technical Project Manager (TPM)/Storage Area Network (SAN) Administrator

SALARY
$69,097 - Minimum salary for full-time employees with less than 2 years of City service
$79,462 - Minimum salary for full-time employees who have 2 years of City service

BUREAU/DIVISION/UNIT LOCATION
Technology Development & Systems/Program Management Office Group
9 MetroTech Center
Brooklyn, New York

JOB DESCRIPTION:
The Technical Project Manager (TPM)/Storage Area Network (SAN) Administrator will support FDNY’s production of a SAN environment with virtualized storage resources and services. Support and oversee the migration of applications to virtual server resources and SAN supporting business functions and mission critical applications, tracking deliverables and schedules. Define and implement FDNY policies involving storage, replication, continuous data protection (CDP) and data assurance needs for VMware failover/backup to provide technical support of storage (SAN) and data protection backup and recovery services and management. Ensure change control policies are followed and provide technical direction for SAN. Activities will also include, but not limited to, facilitating technical meetings, requirements definition, create strategies for risk mitigation and contingency planning, and maintain risk assessment matrices.

QUALIFICATION REQUIREMENTS:
Professional/vendor certification(s) in wide area network administration that is required for the position to be filled. In addition, all candidates must have the following:

1. A baccalaureate degree from an accredited college, and two years of satisfactory full-time (not classroom based) experience in wide area network planning, design, configuration, installation, troubleshooting, integration, performance monitoring, maintenance, enhancement, and security management; or
2. A four-year high school diploma or its educational equivalent and six years of satisfactory full-time (not classroom based) information technology experience of which at least two years must have been as described in “1” above; or
3. A master’s degree in computer science or a related field from an accredited college may substitute for one year of experience. However, all candidates must have at least one year of satisfactory (not classroom based) full-time information technology experience as described in “1” above.

Please Note: In addition to meeting the minimum Qualification Requirements:
Incumbents may be required to update existing and/or obtain additional professional industry-standard certification(s) for current and future technical environment(s) in which they may be assigned to work, as determined by the employing agency.

PREFERRED SKILLS:
Excellent organizational, administrative, and scheduling skills needed to manage multiple high profile IT projects. Prior IT project management experience required, preferably in the public safety sector. Five years or more experience in a complex enterprise environment. In-depth experience with systems deployment, including project management, in particular with migration to ESX environment (P2V) and data; knowledge and experience implementing and maintaining Microsoft and Linux operating systems, NEC RAID Arrays and Falconstor storage virtualization appliances, HP and Dell Servers, Brocade Fiber Channel switches, and VMWare. Professional certifications or significant experience with VMWare, Brocade switches or Certification with Storage Engine Synchronism Storage Virtualization, Storage Engine Synchronix 6000 series RAID arrays. Broad experience across various IT technologies including networking protocols, encryption, security, firewalls, operating systems/ file-systems, multi-pathing, database and applications.
