Brooklyn, New York

JOB DESCRIPTION:
Under general supervision with a broad scope of independent initiative and judgment, the Computer Systems Specialist (SW), L-III will be responsible for overseeing the daily operations of eCID, 10-35, Computer Based Testing and Certification of Fitness CBT. Incumbent will serve as the IT Supervisor in the Business Application Services and Support (BASS) unit while supervising a team of Business Analysts, Programmers, and Administrators. Responsibilities of supervision include developing project plans, managing SDLC and delivery of the final product, in addition to working with various Units Heads to provide enhancement and support of the applications. Report directly to the Director of BASS. Responsible for the coordination and direction of data processing projects organized to plan and implement complex integrated software development projects in a multi-programming computer system operating in an on-line mode in a communications environment.

QUALIFICATION REQUIREMENTS:
(1) A baccalaureate degree from an accredited college, including or supplemented by twenty-four (24) semester credits in computer science or a related computer field and two (2) years of satisfactory full-time software experience in designing, programming, debugging, maintaining, implementing, and enhancing computer software applications, systems programming, systems analysis and design, data communication software, or database design and programming, including one year in a project leader capacity or as a major contributor on a complex project; or
(2) A four-year high school diploma or its educational equivalent and six (6) years of full-time satisfactory software experience as described in “1” above, including one year in a project leader capacity or as a major contributor on a complex project; or
(3) A satisfactory combination of education and experience that is equivalent to (1) or (2) above. College education may be substituted for up to two years of the required experience in (2) above on the basis that sixty (60) semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of the required experience in (1) or (2) above. However, all candidates must have a four year high school diploma or its educational equivalent, plus at least one (1) year of satisfactory full-time software experience in a project leader capacity or as a major contributor on a complex project.

NOTE: In order to have your experience accepted as Project Leader or Major Contributor experience, you must explain in detail how your experience qualifies you as a project leader or as a major contributor. Experience in computer operations, technical support, quality assurance (QA), hardware installation, help desk, or as an end user will not be accepted for meeting the minimum qualification requirements.

PREFERRED SKILLS:
In depth knowledge & experience on J2EE applications & specifically Oracle Database 11g, Oracle ADF, Oracle PLSQL, EJB, Ajax, Java Struts, Web Services JPA Servlets, Hibernate. Extensive work experience in Oracle database design is a plus.
The candidate must be skilled in Project management; System implementation; Business Analysis; QA and Communication.
Working experience with Business Process Management system, document management system and mobile application will be a plus.

TO APPLY: PLEASE GO TO NYC.GOV/JOBS OR CITY EMPLOYEES MUST APPLY VIA EMPLOYEE SELF SERVICE (NYC.GOV/ESS). PLEASE REFER TO JOB ID # 179710

*PLEASE NOTE THAT ONLY THOSE CANDIDATES CONSIDERED FOR AN INTERVIEW WILL BE CONTACTED.

DATED: January 5, 2015
